E. Notes to the Condensed Interim Financial Statements

1. Corporate information

Sheng Siong Group Ltd. (the "Company") is incorporated and domiciled in Singapore and whose shares are publicly traded on the Mainboard of the Singapore Exchange. These condensed interim financial statements as at and for the six months ended 30 June 2023 comprise the Company and its subsidiaries (collectively, the "Group").

The primary activity of the Company is that of investment holding. The principal activities of the subsidiaries are trading and wholesale importers of consumer goods and the operations of supermarket retail stores selling consumer products.

2. Basis of preparation

2.1 Statement of compliance

The condensed interim financial statements for the six months ended 30 June 2023 have been prepared in accordance with Singapore Financial Reporting Standards (International) ("SFRS(I)s") 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council and should be read in conjunction with the Group's last annual consolidated financial statements as at and for the year ended 31 December 2022. The condensed interim financial statements do not include all of the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last annual financial statements for the year ended 31 December 2022.

2.2 Basis of measurement

The condensed interim financial statements have been prepared on the historical cost basis except as otherwise described in the notes below.

2.3 Functional and presentation currency

The condensed interim financial statements are presented in Singapore dollars, which is the Company's functional currency. All financial information presented in Singapore dollars have been rounded to the nearest thousand, unless otherwise stated.

2.4 Changes in accounting policies

Except for the adoption of the new and amendments to SFRS(I)s that are effective for the annual period beginning on 1 January 2023 as described below, the accounting policies applied in these condensed interim financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 31 December 2022.

New standards and amendments

The policy for recognising and measuring income taxes in the interim period is disclosed in Note 7 and is consistent with that applied in the comparative interim period except for the changes outlined below.

Deferred tax related to assets and liabilities arising from a single transaction

The Group has adopted Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to SFRS(I) 1-12 from 1 January 2023. The amendments narrow the scope of the initial recognition exemption to exclude transactions that give rise to equal and offsetting temporary differences – leases. For leases, an entity is required to recognise the associated deferred tax assets and liabilities from the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to retained earnings or other components of equity at that date. For all other transactions, an entity applies the amendments to transactions that occur after the beginning of the earliest period presented.

The Group previously accounted for deferred tax on leases applying the "integrally linked" approach, resulting in a similar outcome to the amendments, except that the deferred tax asset or liability was recognised on a net basis. Following the amendments, the Group has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. However, there was no impact on the statement of financial position because the balances qualify for offset under paragraph 74 of SFRS(I) 1-12. There was no impact on the opening accumulated profits as at 1 January 2022 as a result of the change. The key impact for the Group relates to the disclosure of the deferred tax assets and liabilities recognised – this disclosure will be provided in the annual financial statements.

The change in accounting policy will also be reflected in the Group's consolidated financial statements as at and for the year ending 31 December 2023.

2.5 Use of estimates and judgements

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2022.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no critical judgements made in applying the Group's accounting policies and no assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial period.

3. Seasonal operations

The Group's businesses are not affected significantly by seasonal or cyclical factors during the period.

4. Segment information

The Group operates in one segment, which relates to the supermarket operations selling consumer goods. The Group operates in Singapore and China, but will not be reporting China as a separate geographical segment as the China operations are not significant for the period ended 30 June 2023 and 30 June 2022. The subsidiary in Malaysia remained inactive.

5. Revenue information

The Group operates a chain of supermarket retail stores selling consumer products. Revenue is recognised when the control of the goods has been transferred, being at the point the customer purchases the goods at the retail store.

Notes

- (a) Due to the competitive labour market and the requirements of the Progressive Wage Model, the Group increased employees' salaries in FY 2022.
- (b) Higher interest income mainly resulted from the higher fixed deposit interest rate during 1H FY 2023.
- (c) Interest expense pertained to the interest on lease liabilities.
- (d) Operating lease income increased due to higher rental received from excess retail space rented out.
- (e) The decrease in the sale of scrap materials was due to the fall in the market price of recyclable paper.
- (f) Less miscellaneous income was received due to a reduction in advertising income recorded during the period.

6.2 Related party transactions

Other than disclosed elsewhere in the condensed interim financial statements, significant transactions with related parties based on agreed terms are shown as follows:

1. Review

The interim statements of financial position of Sheng Siong Group Ltd. and its subsidiaries as at 30 June 2023 and the related interim consolidated statement of profit or loss and other comprehensive income, interim statements of changes in equity and consolidated statement of cash flows for the six-month period then ended and certain explanatory notes have not been audited or reviewed.

2. Review of performance of the Group

Consolidated Statement of Profit or Loss for the 6 months ended 30 June 2023 Overview

Revenue increased by S\$13.7 million or 2.0% year on year to S\$690.5 million in the first half of FY 2023, largely driven by new store sales.

The Group posted a lower net profit of S\$65.5 million in the first half of FY 2023, down by S\$2.0 million from the corresponding period a year ago mainly due to higher administrative expenses.

Tax

The effective tax rate for 1H FY 2023 of 17.5 per cent was higher than the statutory tax rate of 17.0 per cent mainly because of certain expenses that are non-deductible.

China

The subsidiary in China continued to be profitable.

Consolidated Statement of Financial Position

Current assets declined by S\$9.0 million to S\$387.3 million as at 30 June 2023. Inventories balance decreased by S\$17.7 million from S\$101.2 million as at 31 December 2022 due mainly to higher sale of stocks during the Lunar New Year. Trade and other receivables reduced by S\$4.7 million to

S\$14.8 million as at 30 June 2023 as more payments from banks in relation to credit and debit cards were received timely. These were further offset by the increase in cash and cash equivalents by S\$13.5 million.

Non-current assets decreased by S\$17.5 million. Property, plant and equipment decreased by S\$3.7 million mainly due to the depreciation of S\$9.0 million, offset by the additions of S\$5.5 million. Right-of-use assets declined by S\$13.8 million largely owing to depreciation of S\$17.2 million, offset by the additions of S\$3.6 million.

As at 30 June 2023, current liabilities were S\$234.3 million, a reduction of S\$31.5 million from S\$265.8 recorded as at 31 December 2022. This is largely due to the decrease in the trade and other payables by S\$27.3 million to S\$170.1 million attributable to timely payment to the vendors for purchase of goods and services.

Consolidated Statement of Cash Flows

Cash generated from operating activities for 1H FY 2023 increased to S\$77.8 million, up by S\$17.7 million from S\$60.1 million reported a year ago, mainly because more funds were utilised to pay accrued bonuses and settle outstanding to the suppliers in 1H FY2022.

As at 30 June 2023, cash and cash equivalents stand at S\$289.0 million, up by S\$13.5 million from S\$275.5 million as at 31 December 2022.

3. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next reporting period and the next 12 months.

The global outlook remains uncertain, as the world grapples with ongoing challenges of geographic tensions, weakening global demand and tighter monetary and fiscal policies ⁽¹⁾. In Singapore, despite inflation has eased slightly, it continues to surpass pre-pandemic levels, impacting the economy and consumers alike. This persistent inflationary pressure poses challenges for individuals and businesses, affecting their purchasing power and overall economic stability ^{(2) (3)}.

Singapore, being heavily reliant on imports for its essential goods, continues to feel the impact of price hikes seen worldwide. Rising costs of energy, accommodation, and food have prompted consumers to adopt cost-cutting measures, leading them to explore value-for-money alternatives such as dining at home, shop at supermarkets that provide more value-for-money and purchase house brand products which are more affordable. Consumers who previously frequented high-end markets may opt to trade down to more budget-friendly supermarkets to manage their expenses. Additionally, the Government's inflation offset

measures, such as the GST Voucher scheme and the Assurance Package, continue to support consumer spending, giving supermarket retailers a boost.

Supply chain risks continue to persist, as exemplified by recent disruptions in fresh pork supply and threats of global sugar and rice shortage ⁽⁴⁾⁽⁵⁾. Climate change and the onset of El Nino weather pattern is set to put pressures on agriculture outputs, possibly fueling inflation as food get pricier on reduced harvests and more expensive animal feed. As an import-dependent economy, Singapore is vulnerable to such disruptions. The Group will continue our efforts in diversifying our sources of supply, and work closely with our suppliers to minimise these disruptions. Sheng Siong remains committed to meet its consumers' expectation of value-for-money products at competitive price and quality, and excellent service.

Competition in the supermarket industry is anticipated to remain keen, especially in this high inflationary environment. Higher energy and staff costs and aggressive promotions by competitors could result in lower margins.

The Group will continue to seek ways to improve its sales mix and focus on strengthening its core competencies to improve its operational efficiency and productivity.

The Group will continue to look for retail space in new and existing housing estates, particularly in estates where the Group has no presence.
