Note 1:

Under SFRS(I) 9, financial assets are classified into financial assets measured at fair value or at amortised cost depending on the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. Fair value gains or losses will be recognized in profit or loss except for certain equity investments, for which the Group can elect to recognize the gains and losses in other comprehensive income.

Interim Financial Statements and Dividend Announcement
For the financial period from 1 January 2018 to 30 June 2018

STATEMENTS OF CHANGES IN EQUITY (Continued)

Note 1 (Continued):

On adoption of SFRS(I) 9 on 1 January 2018, the investment in life insurance plan previously classified as available-for-sale financial assets at fair value through other comprehensive income ("AFS") has been measured at fair value through profit or loss. The cumulative fair value change in the AFS reserve of \$470,000 has been reclassified to retained earnings as at 1 January 2018 and subsequent fair value change has been recognised in profit or loss.

Note 2:

SFRS(I) 9 introduces a new forward-looking impairment model based on expected credit losses to replace the incurred loss model. Lifetime expected losses will be recognised on these assets when there is a significant increase in credit risk from initial recognition. The new impairment requirements resulted in increases in impairment loss allowances on trade receivables and other receivables, due to earlier recognition of credit losses. The Group has adopted the simplified model for its trade receivables and recorded an allowance for lifetime expected losses from initial recognition.

Upon application of the expected credit loss model, the impairment loss allowance on trade and other receivables as at 1 January 2018 has increased by \$917,000 at the Group level. There is no impact at the Company level.

The changes in accounting policies resulting from the adoption of SFRS(I) 9 should be applied by the Group retrospectively. However, the Group applied the short-term exemption under SFRS(I) 1 to adopt SFRS(I) 9 on 1 January 2018. Therefore, the financial instruments recognized for the financial year ended 31 December 2017 were measured in accordance with FRS39 and the comparative information in the financial statement for financial year ending 31 December 2018 would not need to be restated. The differences in the carrying amounts of financial assets resulting from the adoption of SFRS(I) 9 are recognized in retained earnings as at 1 January 2018.

REVENUE

IT Division

The IT Distribution business achieved quarterly revenue of \$99.3m in 2Q2018, a decrease of 3.4% or \$3.5m, from \$102.8m in 2Q2017. On a half yearly basis, this business grew by 7.4% or \$14.4m, from \$195.0m in 1H2017 to \$209.4m in 1H2018.

PCB Division

Revenue in this Division decreased by 60.7% or \$1.7m, from \$2.8m in 2Q2017 to \$1.1m in 2Q2018. The decrease was mainly due to lower demand from customers.

PROFIT BEFORE TAX ("PBT")

The Group registered a PBT of \$1.3m in 2Q2018, as compared to \$4.7m in 2Q2017.

The decrease in PBT was mainly due to the following:-

- (1) A decrease of \$0.8m in gross profit mainly due to the decrease in revenue;
- (2) A decrease in gain on disposal of plant of equipment of \$3.5m from \$3.5m in 2Q2017 to \$2,000 in 2Q2018. The gain on disposal in 2Q2017 was mainly due to the disposal of 103 CNC drilling machines in China;
- (3) An increase in staff costs by S\$1.1m in 2Q2018 as compared to 2Q2017. The change was mainly due to increase in headcount and over provision of commission in 1Q2017, which was subsequently reversed in 2Q2017. There was no such reversal in 2Q2018; and
- (4) An increase in allowance for inventory obsolescence of \$238,000 from \$282,000 in 2Q2017 to \$520,000 in 2Q2018.

The drop in PBT was however ameliorated by the following:

- (1) A reversal in allowance for doubtful third party trade receivables of \$177,000 in 2Q2018, as compared to allowance of \$583,000 made in 2Q2017, based on the impairment review performed in 2Q2018 in accordance to SFRS(I) 9;
- (2) A decrease in depreciation expenses of \$234,000 from \$787,000 in 2Q2017 to \$553,000 in 2Q2018, mainly due to plant and machineries disposed during year 2017 and some of the plant and machineries which have been fully depreciated;
- (3) An increase in interest income of \$61,000 from \$94,000 in 2Q2017 to \$155,000 in 2Q2018 mainly due to more fixed deposits placed with the financial institutions;
- (4) Fair value gain of \$29,000 in investment in life insurance plan in 2Q2018. There was no such fair value gain in 2Q2017 as the investment was classified as available-for-sale financial assets with fair value changes recognized in other comprehensive income in 2Q2017. With effect from 1 January 2018, the investment in life insurance plan is measured at fair value through profit or loss on adoption of SFRS(I) 9; and
- (5) Severance payment of \$1.1m to employees in 2Q2017. There was no such payment made in 2Q2018.

Comparing 2Q2018 to 1Q2018, the Group PBT stood at \$1.3m in 2Q2018 as compared to \$4.2m in 1Q2018, mainly due to lower gross profit in 2Q2018 as a result of lower sales and lower gross profit margin.

Comparing 2Q2018 to 1Q2018, the Group suffered a loss after income tax of \$799,000, as compared to a profit of \$3.0m in 1Q2018. Income tax expenses comprised mainly current income tax, deferred tax and withholding tax expenses of the Group.

Trade and other receivables of the Group level decreased by \$1.3m from \$101.3m to \$102.6m, mainly due to lower revenue attained in 2Q2018 as compared to 4Q2017. At the Company level, trade and other receivables decreased by \$0.9m from \$34.1m to \$33.2m, mainly due to repayment received from a subsidiary.

Current income tax recoverable increased by \$1.1m from \$1.6m to \$2.7m at the Group level mainly due to the increase in tax deducted at source in 1H2018. There was no change at the Company level.

Trade and other payables increased by \$1.6m from \$93.5m to \$95.1m at the Group level due mainly to increase in deferred revenue and advance billing to customers. At the Company level, trade and other payables decreased from \$2.7m to \$1.9m mainly due to accrued operating expenses paid off in 1H2018.

Bank borrowings decreased by \$11.1m from \$25.7m to \$14.6m at the Group level mainly due to repayments of bank borrowings. At Company level, borrowings decreased from \$18.2m to \$13.4m mainly due to the same reason.

Deferred tax liabilities increased by \$550,000 from \$65,000 to \$615,000 at the Group level mainly due to withholding tax accrued for the undistributed profits in overseas subsidiaries.

Foreign currency translation reserve increased by \$0.8m from \$0.5m to \$1.3m at the Group level mainly due to appreciation of United States dollar against Singapore dollar.

CASH FLOW ANALYSIS

Net cash of \$3.2m was used in operating activities in 1H2018, as compared to net cash of \$3.6m generated in 1H2017. This was mainly due to increased purchase of inventories to cater for contracts not yet fulfilled and capital gains tax withheld upon capital return of investment in a subsidiary in the process of liquidation.

Net cash of \$1.2m was used in investing activities in 1H2018, as compared to \$6.5m generated in 1H2017. The change was mainly due to purchase of plant and equipment of \$1.3m, net of proceeds from disposal of plant and equipment of \$125,000 in 1H2018, as compared to proceeds from disposal of plant and equipment of \$7.3m, net of purchase of plant and equipment of \$807,000 in 1H2017.

Net cash of \$6.1m was used in financing activities in 1H2018 as compared to \$8.1m used in 1H2017. This was mainly due to repayment of bank borrowings of \$52.3m, dividend payment of \$4.0m, net of proceeds from bank borrowings of \$41.1m and a lift in fixed deposits pledged of \$9.4m in 1H2018, as compared to repayment of bank borrowings of \$31.8m, an increase in pledged fixed deposits of \$18.3m and dividend payment of \$3.0m, net of proceeds from bank borrowings of \$45.3m in 1H2017.

Interim Financial Statements and Dividend Announcement
For the financial period from 1 January 2018 to 30 June 2018

A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next twelve months.

PCB

Comparing 2Q2018 to 2Q2017, the revenue for this quarter decreased by 60.7% or \$1.7m, from \$2.8m in 2Q2017 to \$1.1m in 2Q2018. The decrease was mainly due to lower demand from customers. On a half year basis, revenue decreased by 59.5% or \$5.0m from \$8.4m in 1H2017 to \$3.4m in 1H2018, mainly due to lower demand from customers and significantly reduced production capacity resulting from the disposal of 103 CNC drilling machines in China during year 2017.

During 2Q2018, the Group purchased 3 mechanical drilling machines. As at 30 June 2018, the Group has 32 mechanical drilling machines and 20 laser drilling machines. The Group will continue to be selective of its customers, rationalise operations, manage headcount and conserve cash.

IT

The IT business through Singapore and the regional offices achieved an increase in revenue of 7.4% year-on-year in 1H2018 while experiencing a drop of 3.4% year-on-year in 2Q2018. The decrease in revenue in 2Q2018 was mainly due to fewer big transactions closed during 2Q2018 and to the global economic uncertainty arising from trade tensions between the US and China.

The Group has a focused strategy of selling and promoting only the best-of-breed IT products. Among the products the Group currently carries are industry-leading IT products from Symantec, Check Point, Cyberark, Imperva, Riverbed and RSA.

To promote technical competency internally and to train its partners, the Group is able to provide certified IT training through the Education Services Division of M.Tech Products Pte Ltd, which is authorised to conduct training for Allot, Symantec and Check Point courses. This business is complementary to the core IT distribution business and is expected to bring about more awareness and technical knowledge through the courses conducted.

As at 30 June 2018, the Group's IT business has a presence in 29 cities in 15 countries in the Asia Pacific region and Europe. M.Tech offices in countries that are already mature in operations are expected to contribute more to the Group's performance.

Interim Financial Statements and Dividend Announcement
For the financial period from 1 January 2018 to 30 June 2018

IT (Continued)

The near term outlook in the IT business is dependent on events such as those political or economic in nature and such events could affect business in certain markets. With the recent US-China trade war, global economic outlook remains uncertain which will in turn affect the Group's business. With the recent increase in US interest rates, the cost of business is expected to similarly increase. However, IT is still a critical requirement in businesses and security will continue to remain an integral part of the IT infrastructure. This should augur well for the Group as more efforts are put into growing the IT business.

For growth, the Group will focus on its best-of-breed products and will continue to look out for opportunities for regional expansion. The Group will also be selective of the products we carry so as to be able to do the best for the principals that the M.Tech companies represent. The Group will also promote the M.Tech brand name and intends to work closely with key partners to further promote the products.

Interim Financial Statements and Dividend Announcement
For the financial period from 1 January 2018 to 30 June 2018

Risk Factors

The Group's primary business risk is in its IT business. In the area of IT business, the Group is subject to risk of reliance on a few key vendors, with respect to their channel strategies, as well as product roadmap. The Group is also exposed to the risks of product obsolescence with respect to the hardware carried. Despite such risks, the Group has taken steps to align with the leading names in the IT arena and as such, there is a good probability that such companies will take steps to ensure that their products maintain the technological edge. The Group monitors its inventories on a quarterly basis and will make allowances where necessary.

The Group is exposed to foreign exchange risks as we mainly transact with our suppliers, vendors and customers in Singapore dollar, US dollar, Chinese renminbi, Australian dollar, Thailand baht, Malaysian ringgit, Indian rupee, Indonesian rupiah, Taiwan dollar, Hong Kong dollar, and to a lesser extent, Euro, Philippines peso, Korean won, Japanese yen, Vietnam dong, New Zealand dollar and British Pound. The Group may, from time to time, enter into borrowing and foreign currency arrangements to reduce its foreign currency exposure. The Group expects to be exposed to a higher foreign exchange risk with the current volatility of the US dollar against some of the local currencies we collect from the customers.

The Group is also exposed to the political, legal and economic climates of the country in which the Group is operating. Economic and political conditions are still key factors in determining the level of IT spending.

In the area of PCB business, the Group's risk is the exposure to the electronics products sector. Our customers are PCB manufacturers, most of which will be exposed to the cyclical nature of the electronics business. Any downturn in the electronics cycle will result in a cutback in outsourcing, which will impact the Group negatively.

The Group's success in the China market will depend on our ability to maintain our technological, quality assurance, capacity and pricing advantage over our competitors. Additionally, we have to monitor trade receivables closely as collection generally takes longer in China. The Group is tightening the credit assessment on customers for all regions.
