FOR IMMEDIATE RELEASE

**FURTHER UPDATE ON STRATEGIC COOPERATION WITH COMTEC SOLAR
IN THE ENERGY INDUSTRY**

Singapore and Hong Kong, 26 January 2018 – ISDN Holdings Limited (“ISDN” or the “Company”), an integrated engineering solutions provider listed on both the Main Board of the Singapore Exchange Securities Trading Limited (stock code: I07) and The Stock Exchange of Hong Kong Limited (stock code: 1656), refers to the announcements dated 25 May 2017, 16 August 2017 and 3 November 2017 in relation to the strategic cooperation with Comtec Solar Systems Group Limited (“Comtec”) in the energy industry and wishes to update its shareholders as follows.

The Company has, through C&I Renewable Limited (“C&I Renewable”), a 30%-owned associated company of the Company, incorporated a new associated company, C&I Singapore Renewable and Innovative Tech Pte. Ltd. (“C&I Singapore”) in Singapore. C&I Singapore will be primarily engaged in the research and development of blockchain technology and its related infrastructure for the purpose of the application of such technology and infrastructure to the distribution of solar-generated energy.

The Company considers that the research and development undertaken by C&I Singapore on blockchain technology, if successful, will provide a more efficient and decentralized platform for the trading and distribution of solar-generated energy among a diverse community of producers and consumers of solar-generated power. Such a platform will create new business opportunity for us in managing and investing in high quality rooftop distributed solar power generation projects as well as power storage solutions.
