Chairman's Opening Address for AGM

Financial Performance

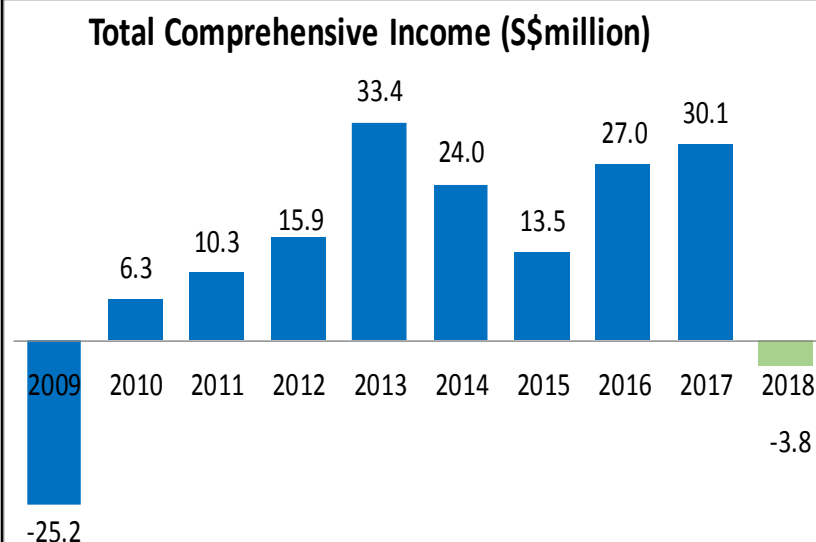

Net Profit after Tax

Net profit after tax for FY2018 decreased to S\$7.3 million as compared to S\$39.0 million last year.

Total Comprehensive Income (TCI)

Total comprehensive income for FY2018 was a loss of S\$3.8 million versus a gain of S\$30.1 million recorded in the prior year.

Financial Performance

Total Income

Income for FY2018 was S\$12.0 million as compared to S\$46.7 million recorded last year. The lower income was mainly contributed by a net loss on financial assets at fair value through profit and loss of S\$20.0 million versus a gain of S\$2.5 million recorded in FY2017 and the absence of net gain on sale of investments in the current year of S\$25.8 million. However, the lower income recorded during the year was partially cushioned by net foreign exchange gain of S\$8.6 million and previously announced litigation proceeds of S\$6.8 million.

Total Income (S\$ million)

Financial Performance

Earnings per Share

Earnings per share decreased to 0.43 Singapore cents (based on the weighted average number of Shares of 1,688.87 million after taking into account the additional Shares issued pursuant to the Scrip Dividend Scheme) in FY2018 as compared to 2.43 Singapore cents (based on weighted average number of Shares of 1,600.06 million) in FY2017.

Earnings Per Share (Singapore cents)

Return on Equity (ROE) & TCI / Equity

ROE decreased to 2.2% in FY2018 (computed based on net profit after tax over the average total equity) as compared to 12.1% in FY2017 mainly due to a lower profit after tax.

TCI / Equity was a negative 1.2% in FY2018 as compared to 9.4% in FY2017.

ROE (%) & TCI/Equity (%)

Financial Performance

Dividend Paid & Yield

Dividend paid per share totalled 1.10 Singapore cents in FY2018. The total amount of dividend paid decreased by 16.7% to S\$18.4 million in FY2018 from S\$22.1 million in FY 2017.

The dividend paid of 1.10 Singapore cents per share for the financial year ended 31 December 2018 represented an annual dividend yield¹ of 9.7%, based on the closing share price of 11.3 Singapore cents as of 31 December 2018.

¹ The dividend yield is calculated by dividing the dividend per share paid for the relevant financial year over the closing share price on the last day of the same financial year.

Dividend Paid & Yield

Net Asset Value (NAV)

NAV decreased to S\$322.2 million in FY2018. If the 2017 final dividend was paid and the shares relating to the Scrip Dividend Scheme had been issued before 31 December 2017, the NAV per share as at 31 December 2017 would have been 19.41 Singapore cents instead of 20.14 Singapore cents per share. After adjusting for the 2018 interim dividend and shares relating to the Scrip Dividend Scheme, the NAV per share as at 31 December 2018 would have been 19.28 Singapore cents and the decrease in NAV per share would be 0.67%.

² Adjusted NAV per share growth is the year-on-year change in the NAV per share (after adjusting for dividend and new shares issued pursuant to the Scrip Dividend Scheme) over the adjusted NAV per share of the preceding period.
