Revenue and Net Profit attributable to equity holders of the parent ("Net Profit")

1Q16 vs 1Q15

Revenues fell by 36.4% or US\$5.1 million to US\$8.8 million due mainly to the absence of sales from the Metrolink Group following our dilution of interest to 10% in FY2015 as well as lower export sales to North America and the UK. Retail sales in Vietnam also continued to remain weak given the low demand for Rossano's mass market furniture.

Gross Profit fell by 34.2% or US\$1.2 million to US\$2.2 million due to lower revenues. However, our Gross Margins rose by 0.9 percentage points to 25.4% given our efforts to improve operational efficiency of our factories in Malaysia. The deconsolidation of sales from Metrolink also helped to boost our margins as those sales were of lower margins.

Other income rose by US\$0.50 million to US\$0.67 million due mainly to foreign exchange gains arising from the strong US\$ (our main revenues base currency) against the RM (our production costs in Malaysia).

Selling and distribution expenses; and administrative expenses fell by US\$0.29 million and US\$0.60 million to US\$0.84 million and US\$1.3 million, respectively, due mainly to the divestment of Metrolink.

There was a share of loss by the minority shareholder of Rossano of US\$0.06 million.

Given the above, Net Profit improved by 22.3% or US\$0.12 million to US\$0.67 million for 1Q16 compared to 1Q15.

Financial Position (30 September 2015 vs 30 June 2015)

Assets

Current Assets rose by US\$0.66 million to US\$20.0 million. Significant movements in Current Assets during the period under review were as follows:

- Cash at bank (inclusive of fixed deposits) rose by US\$1.5 million to US\$4.7 million due mainly to cash received as deposits for the disposal of investment property in Vietnam.
- Trade receivables fell by US\$1.1 million to US\$2.4 million due mainly to lower export revenues. Trade receivables turnaround time improved from 28 to 25 days.
- Other receivables and prepayments rose by US\$0.74 million to US\$3.5 million due mainly to higher deposits placed with our suppliers.
- Inventories fell by US\$0.32 million to US\$7.0 million due mainly to management's decision to reduce lower finished goods stocks as a result of shorter order books visibility from our clients.

 Assets held for sale ("AHS"), comprising of investment properties and the total assets of Rossano, fell by US\$0.15 million to US\$2.4 million due to lower total assets of Rossano.

Non-Current Assets fell by US\$0.96 million to US\$11.8 million due mainly to currency translation differences arising from our RM-denominated property, plant and equipment held in Malaysia due to the weakening of the RM against the US\$.

Liabilities

Current Liabilities rose by US\$0.62 million to US\$10.1 million. Significant movements in Current Liabilities during the period under review were as follows:

- Trade payables fell by US\$0.17 million to US\$2.2 million due mainly to lower purchases.
- Other payables rose by US\$0.91 million to US\$3.5 million due mainly to deposits received from the disposal of investment property in Vietnam.

Non-Current Liabilities fell by US\$0.15 million to US\$0.75 million due mainly to a reduction in deferred taxation and repayment of loans.

Shareholders' equity

Net asset or Equity attributable to shareholders fell by US\$0.72 million to US\$21.2 million as at 30 September 2015 due mainly to a lower currency translation reserve, which fell by US\$1.4 million (as a result of lower RM-denominated assets when expressed in US\$ terms due to the weakening of the RM against the US\$ during the period under review), offset by current period earnings of US\$0.67 million.

Minority interests

Minority interests ("MI") of US\$(0.27) million, reflect the share of net liabilities of Rossano's other shareholder, who owns 30% of Rossano.

Cash Flows (movements in 1Q16)

Net cash from operating activities was US\$2.6 million for 1Q16 (an improvement over US\$1.4 million for 1Q15) after accounting for cash profit of US\$0.97 million, a reduction in working capital investments of US\$1.6 million and interest payments of US\$0.03 million. Net cash from investing activities was US\$0.04 million due to disposals of equipment offset by investments in new equipment. Net cash used in financing activities was US\$0.20 million due mainly to loan repayments. Given these, net cash and cash equivalents rose by US\$3.4 million to US\$4.5 million as at 30 September 2015 (net of bank overdrafts of US\$0.24 million).

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The Board of Directors stated in the FY2015 announcement that barring any unforeseen circumstances, the Group expects to remain profitable in FY2016.

The Group recorded a Net Profit of US\$0.67 million for 1Q16, approximately 22.3% or US\$0.12 million higher than that of the last corresponding quarter in 1Q15. Therefore, the current results are in line with the prospect statement disclosed in the FY2015 results announcement.

10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

Following the divestment of Metrolink, we also expect to complete the disposal of the loss-making Rossano (retail business in Vietnam) over the next 3 months.

Our sales to Europe and the Pacific region were generally affected by weak economic conditions in these markets and we may be further burdened by the weak Euro and Australian dollar against the US dollar, making our products more expensive in their local currencies. As previously cautioned, we need to monitor the macro economic factors closely as the impact on overall consumer spending (in our case, demand for furniture) arising from the possible interest rate hike in the US, the recent devaluation of the Chinese RMB and volatility of the stock markets remains to be seen. These commercial concerns are valid and cost control is critical.

Sales for the Commune brand were encouraging and are expected to expand, especially in the PRC, via our business plans to increase the number of dealerships there. Meanwhile, we will continue to improve the products mix of Commune and invest in staff training for the Brand, which are important in sustaining sales and expanding the brand presence.

Given the above, the Board continues to believe that barring any unforeseen circumstances, the Group expects to remain profitable in FY2016.
