AcroMeta Signs Definitive Joint Venture Agreement to Advance AI-Powered Global Trade Platform

- Definitive joint venture agreement signed with Ms Wan Qian to formalise a 51%-49% structure
- Trade Platform has commenced its initial launch and trial operation phase, with early customer onboarding and initial revenue recorded
- AcroMeta Lifestyle to drive the development and commercialisation of an AI-powered global trade operating system

Singapore, 2 April 2026 – **AcroMeta Group Limited** (“**AcroMeta**”, or the “**Company**”, and together with its subsidiaries, the “**Group**”) today announced that it has entered into a definitive joint venture agreement (the “**JV Agreement**”) with **Ms Wan Qian** to formalise the joint venture previously announced on 1 December 2025.

The joint venture will be undertaken through **AcroMeta Lifestyle Pte. Ltd.** (“**AcroMeta Lifestyle**”), a subsidiary of the Company, which will serve as the platform to develop, operate and commercialise an AI-powered global trade operating system, called 智猫 (“**Zhimao**”).

This milestone follows the Group’s earlier announcement of a binding joint venture term sheet signed with Ms Wan Qian on 29 November 2025, which set out the parties’ intention to jointly build a next-generation AI-enabled trade infrastructure. The signing of the JV Agreement now provides the formal legal and operational framework for the collaboration to move into execution.

Mr Lawrence Toh, Executive Director of AcroMeta Group Limited, said, “*The signing of the definitive joint venture agreement marks an important step in translating our earlier strategic vision into an operational business platform.*”

Through this collaboration with Ms Wan Qian, we are establishing a foundation for AcroMeta to participate in a technology-enabled segment of cross-border trade, with a business model designed to support future scalability and commercial growth.”

Business Progress Update

Since the Group's announcement on 1 December 2025 regarding the proposed joint venture, both parties have made further progress in advancing the initiative from concept to execution, including the appointment of local partners in China and Malaysia to support market entry and operations.

Accordingly, 智猫 ("Zhimao") was launched on 18 March 2026 and started trial operation phase across China and Malaysia.

"We have already commenced the initial launch and trial operation phase in China and Malaysia, supported by our appointed local partners, and have begun generating early customer onboarding and initial revenue.

This gives us greater confidence as we continue to refine the platform, strengthen our operational capabilities, and build towards scalable growth in AI-enabled cross-border trade." Mr Lawrence Toh, added.

Based on preliminary internal estimates and on a customer conversion basis, the project recorded 182 customers onboarding during the trial operation period. This reflects positive initial market traction and early signs of commercial viability.

JV Structure and Governance

Under the JV Agreement, paid-up capital of the JV Company has increased by S\$500,000. AcroMeta and Ms Wan Qian have injected S\$200,000 and S\$300,000 respectively into AcroMeta Lifestyle, resulting in a shareholding structure of AcroMeta Group Limited owing 51% share and Ms Wan Qian 49% share. Following the capital injection, AcroMeta Lifestyle remains a subsidiary of the Company.

The JV Agreement also sets out the governance and operational framework of the venture, including:

- a two-member board, with one director nominated by each party;
- AcroMeta's nominee serving as Chairman, with a casting vote in the event of equality of votes;
- Ms Wan Qian appointed as General Manager, responsible for the day-to-day management and operations of the JV Company, subject to board oversight.

Strategic Rationale

The Board believes the joint venture will enable the Group to:

- expand into AI-enabled digital commerce and global trade technologies;
- leverage Ms Wan Qian's expertise and network in cross-border trade and e-commerce operations; and
- diversify the Group's business portfolio into a technology-led platform business with scalable long-term growth potential.

The Company does not expect the JV Agreement to have any material impact on the net tangible assets per share or earnings per share of the Group for the financial year ending 30 September 2026.

-END-

This press release is to be read in conjunction with the SGXNET announcement released on the same date.
