

# **Trendlines April 2016 Update**

Misgav, Israel – 3 May 2016 – The Trendlines Group Ltd. ("Trendlines") is pleased to provide this update about its recent activities and developments related to its portfolio companies.

## Bayer and Trendlines Establish US\$10 Million Ag Innovation Fund

Bayer AG ("Bayer") and Trendlines announced a partnership to invest in agricultural technologies through the establishment of the Bayer Trendlines Agtech Innovation Fund. The partnership, managed by Trendlines, includes a US\$10 million commitment from Bayer, a global enterprise with core competencies in the life science fields of health care and agriculture. The partnership couples Bayer's decades of experience in agricultural science, innovation, and regulatory affairs with Trendlines' specialization in investing in cutting-edge, early-stage medical and agricultural technologies.

## **Annual General Meeting**

On 19 April 2016, we convened our Annual General meeting. Read the <u>AGM 2016 results</u>. See the videos presented at the AGM:

- <u>The Trendlines story</u>
- Highlights from the 6th Trendlines Company Showcase
- <u>Selected company intros</u>

## Arcuro Medical Ltd. Completes Investment Round

<u>Arcuro Medical Ltd.</u> completed a US\$500,000 fund raising from <u>Naton Medical Group Ltd.</u>, a large Chinese medical company in Beijing. Arcuro is developing an all-suture, all-inside meniscus repair system for knee injuries.

## Vensica Medical Ltd. Takes Prize at Dublin Medtech Competition

<u>Vensica Medical Ltd.</u> took third place at the Dublin pitch session of <u>Innovation in MedTech.</u> See CEO **Avner Geva**'s <u>pitch video.</u>

## Metabolic Robots Ltd. Receives U.S. Patent

Metabolic Robots Ltd. <u>received a U.S. patent</u> for its on-demand poultry-feeding system. The patent recognizes <u>Metabolic Robots'</u> invention as a delivery method for optimizing livestock care, improving livestock feed utilization, quality of meat, quality of life, and vitality; increasing metabolism; reducing disease; and increasing livestock yield.

## **Upcoming Events**
