

NEWS RELEASE

Excelpoint's Pan-Asian Network To Distribute Hittite Microwave Products from Analog Devices

The more than 1,000 Hittite Microwave Products from Analog Devices's high performance portfolio will now be available in Asia. These RF, microwave, millimeter-wave ICs, and module solutions span the entire frequency spectrum to 110 GHz from antenna to bits and back

SINGAPORE, 9 Dec 2014 - Excelpoint Technology Ltd ("Excelpoint" or the "Group") is pleased to inform that it will be distributing the complete RF and microwave portfolio, including the Hittite Microwave Products from Analog Devices ("ADI"), a global leader in high-performance semiconductors for signal processing applications. These products will be distributed through its network of offices spanning more than nine Asian countries.

These RF and microwave products are used in applications from the most advanced aerospace and defense systems to emerging automotive, healthcare and instrumentation applications. With an increasing number of customers designing RF and microwave capabilities into their applications, ADI is investing the technology tools and support that customers need to drive innovation and fast time to market.

Listed on the mainboard of The Singapore Exchange, Excelpoint Technology Ltd is an authorized distributor of ADI. The Group has been distributing ADI's products since the 1980s.

Commenting on this latest development, Mr. George Lau - Director of Product Marketing at Excelpoint said: "We see tremendous opportunities for the RF and microwave products in Asia and the ADI name not only lends familiarity but more importantly, the reliability and trust that the market demands."

About Excelpoint Technology Ltd (Registration No. 200103280C)

Excelpoint Technology Ltd (“Excelpoint” or the “Group”) is a leading regional electronics components distributor providing quality components, engineering design services and supply chain management to original equipment manufacturers (“OEM”), original design manufacturers (“ODM”) and electronics manufacturing services (“EMS”) in the Asia Pacific region.

Excelpoint works closely with its principals to create innovative solutions to complement its customer’s products. The Group has three research and development (“R&D”) centres supported by a team of professional engineers aimed at helping customers improve operational efficiency and cost effectiveness.

Established in 1987 and headquartered in Singapore, Excelpoint’s presence spans more than 25 cities across Asia Pacific. Employing more than 500 people from different nationalities, Excelpoint’s shares are quoted on the Main-Board of The Singapore Exchange (“SGX”).
