The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included for events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last audited financial statements for the financial year ended 31 December 2024.

The condensed interim financial statements are presented in Singapore dollars, which is the Company's functional currency.

The accounting policies adopted are consistent with the most recent audited financial statements for the financial year ended 31 December 2024 which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

2.1. New and amended standards adopted by the Company

In the current financial year, the Group has adopted all the new and revised SFRS(I)s that are relevant to its operations and effective for the current financial year. The adoption of these new and revised SFRS(I)s did not have any material effect on the financial results or position of the Group.

2.2. Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the financial statements as at and for the year ended 31 December 2024.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

3. Seasonal operations

The Group's business typically experience higher business volumes during the festive periods in Singapore such as Christmas and Lunar New Year periods as the demand for public entertainment venues increase when people are more inclined to celebrate and socialise in festive settings. During these times, our customers tend to hold more gatherings for families, friends, business associates and corporate events during such periods, often choosing to host or celebrate at our outlets. Save as described above, our Group's business is not subject to any significant seasonal fluctuations

4. Segment and revenue information

The Group has four reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer different products and services and are managed separately because they require different marketing strategies.

For each of the strategic business unit, the Company's Executive Chairman and Chief Executive Officer, who is the chief operating decision maker, monitors the operating results for the purpose of making decisions about resource allocation and performance assessment. The Company's Executive Chairman and Chief Executive Officer reviews internal management reports at least on a monthly basis. The following summary describes the operations in each of the Group's reportable segments:

- (i) Karaoke segment comprises the operation of karaoke lounges and multi-entertainment venues, which includes karaoke room and service charges and related sale of food and beverages.

There are no operating segments that have been aggregated to form the above reportable operating segments.

Other operations relate to general corporate activities and others.

Information regarding the results of each reportable segment is included in the following tables. Performance is measured based on segment profit or loss (before taxation and unallocated expenses), as included in the internal management reports that are reviewed by the Company's Executive Chairman and Chief Executive Officer, which in certain respects, as explained in the following tables, is different from profit or loss in the consolidated financial statements. Segment profit or loss is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

The Group's income taxes are not allocated to operating segments.

REVIEW OF TURNOVER, COSTS AND EARNINGS

Continuing operations

Revenue

The Group's revenue increased by approximately \$\$0.81 million or 3.5%, rising from \$\$23.27 million in 1H FY2024 to \$\$24.08 million in 1H FY2025. This growth was primarily driven by contributions from new business segments introduced in FY2024, namely Live Show, Food and Beverages (F&B), and Manufacturing of food products.

- The Live Show segment generated S\$10.09 million in 1H FY2025, up from S\$9.67 million in 1H FY2024, reflecting an incremental increase of S\$0.42 million, largely due to an expanded customer base.
- The F&B Operations, which commenced in 2HY2024, contributed S\$1.10 million in revenue during 1H FY2025.
- The Manufacturing of food products segment, also launched in 2HY2024, added S\$0.16 million to the Group's revenue.

The Karaoke segment experienced lower revenue by \$\$\$\$0.87 million, from \$\$13.60 million in 1H FY2024 to \$\$12.73 million in 1H FY2025. Despite customer visits and room usage increased during the period, the average spending per customer fell, resulting in lower overall revenue.

Other income

Other income for 1H FY2025 increased by \$\$0.31 million, from \$\$0.58 million in 1H FY2024 to \$\$0.89 million in 1H FY2025. This increase was primarily due to increased government grants amounting to \$\$0.28 million and liquor marketing incentives of \$\$0.11 million received in 1H FY2025 compared to 1H FY2024. This increase was partially offset by a reduction in miscellaneous income of \$\$0.08 million.

Purchases and related costs

Purchases and related costs increased by \$\$0.06 million, or 1.4% from \$\$4.54 million in 1H FY2024 to \$\$4.60 million in 1H FY2025. The increase is in line with the increase in revenue.

Depreciation of plant and equipment

Depreciation of plant and equipment increased by \$\$0.3 million or 17.9% in 1H FY2025, rising from \$\$1.8 million in 1H FY2024 to \$\$2.1 million in 1H FY2025. This increase is due to increase in plant and equipment which aligned with the establishment of new business segments commenced in 2H FY2024.

Depreciation of right-of-use assets

Depreciation of right-of-use assets increased by S\$0.4 million or 13.1% in 1H FY2025, rising from S\$2.9 million in 1H FY2024 to S\$3.3 million in 1H FY2025. This increase aligns with the establishment of new business segments and the acquisition of new leasehold properties for a newly opened outlet, which commenced in 2HY2024, as well as the renewal of existing lease agreements that expired during the period.

- 2. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:
 - (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors (Cont'd)

Staff costs

Staff costs for 1H FY2025 were higher than the previous corresponding periods by \$\$1.95 million or 31.9%, increasing from \$\$6.11 million in 1H FY2024 to \$\$8.06 million in 1H FY2025. This increase was primarily driven by the headcount demand for the new establishment of one new Karaoke outlet and two other new business ventures, namely F&B and Manufacturing of food products, which commenced operations in 2HY2024.

Operating lease expenses

Operating lease expenses for 1H FY2025 were lower than the previous corresponding periods, decreasing by S\$0.15 million or 20.7% from S\$0.75 million in 1H FY2024 to S\$0.60 million in 1H FY2025. This reduction was in line with the decrease in revenue growth in the karaoke segment, resulting in a decrease in gross turnover rent payable to the lessors of the respective outlets.

Other operating expenses

Other operating expenses for 1H FY2025 decreased by S\$0.28 million or 6.40%, from S\$4.39 million in 1H FY2024 to S\$4.11 million.

This decrease was primarily due to (i) the absence of one-off IPO and related expenses amounting to S\$0.31 million in 1H FY2024 and subsequently the IPO completed in November 2024, (ii) lower in licensing fees by S\$0.23 million and (iii) lower repairs and maintenance expenses by S\$0.08 million.

These cost reductions were partially offset by increases in legal and professional fees of S\$0.21 million and marketing expenses of S\$0.18 million, reflecting the Group's continued business expansion and promotional efforts.

Finance costs

Finance costs decreased by \$\$0.09 million, from \$\$0.70 million in 1H FY2024 to \$\$0.61 million in 1H FY2025. The reduction was primarily attributable to the absence of interest expenses, following the full repayment of loans from shareholders and a third-party lender during 1H FY2024.

Profit before taxation

Profit before taxation decreased by approximately \$\$1.0 million or 40.2% from \$\$2.6 million in 1H FY2024 to \$\$1.6 million in 1H FY2025. This decline occurred despite a 3.5% increase in revenue and higher other income, as the Group faced significant cost pressures. The expansion into new business segments—Live Show, F&B, and Manufacturing of food products—resulted in increased operating costs, particularly staff expenses, which rose by \$\$1.95 million due to higher headcount and competitive remuneration. Depreciation expenses also increased by \$\$0.69 million, reflecting investments in new assets and leasehold properties. Additionally, marketing and legal fees rose by \$\$0.39 million to support business growth and regulatory compliance.

While there were cost savings in areas such as operating lease expenses, finance costs, and other operating expenses, amounting to reductions of S\$0.15 million, S\$0.09 million, and S\$0.28 million respectively, these were insufficient to offset the overall rise in expenditures. The karaoke segment experienced a revenue decline of S\$0.87 million, attributed to increased customer visits and room usage during the period, but lower average spending per customer, which further impacted profitability. Consequently, the Group's cost structure outpaced its revenue growth, leading to a notable reduction in profit before tax for the period.

- 2. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:
 - (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

2.(b).(i) REVIEW OF WORKING CAPITAL, ASSETS AND LIABILITIES

Non-current assets

As at 30 June 2025, the Group's non-current assets totalled approximately S\$27.7 million, representing 58.9% of the Group's total assets. These assets comprise plant and equipment, right-of-use assets, intangible assets, deferred tax assets, and long-term deposits.

Plant and equipment amounted to approximately S\$14.8 million, or 53.2% of total non-current assets. This includes renovations, furniture and equipment, computers, motor vehicles, and assets under construction. The plant and equipment decreased by approximately S\$1.3 million in the current period ended was mainly due to depreciation expenses of S\$2.1 million, and partially offset by additions plant and equipment for outlets of approximately S\$0.8 million in the current period ended.

Right-of-use assets amounted to approximately S\$10.3 million, or 37.2% of total non-current assets. The right-of-use decreased by S\$2.5 million in the current period ended was primarily due to depreciation expenses of S\$3.3 million, offset by the capitalisation of additional right-of-use assets from lease renewals amounting to S\$0.8 million.

Current assets

The Group's current assets as at 30 June 2025 amounted to S\$19.4 million, representing 41.1% of total assets. These include trade and other receivables, inventories, prepayments, and cash and bank deposits.

Trade and other receivables amounted to approximately \$\$1.4 million, or 7.2% of current assets, comprising outstanding balances from third-party merchant payment platforms and refundable deposits placed with landlords for outlet rentals.

Cash and bank deposits amounted to approximately S\$16.2 million, or 83.7% of current assets, reflecting a decrease of S\$2.6 million in the current period ended was mainly attributable to net cash generated from operating activities of S\$6.4 million, offset by net cash used in investing activities of S\$0.8 million and financing activities of S\$8.2 million.

Non-current liabilities

As at 30 June 2025, the Group's non-current liabilities totalled approximately \$\$10.5 million, representing 39.1% of total liabilities. These include deferred tax liabilities, lease liabilities, porrowings, provisions, and derivative financial instruments.

Non-current lease liabilities amounted to approximately S\$4.7 million, or 44.5% of total non-current liabilities. Industry Trends and Structural Shifts

As of mid-2025, Singapore's entertainment industry—including family karaoke (KTV), live performances, and F&B venues—is undergoing structural transformation, driven by changing consumer behaviours, demographic shifts, and tightening regulatory frameworks.

Immersive, interactive, and experience-focused formats continue to attract younger audiences. Market operators are actively adapting through lifestyle-oriented dining, curated performances, and hybrid entertainment offerings. Innovation and differentiation are becoming core competitive levers.

At the same time, the industry faces persistent headwinds such as rising operating costs, labour shortages, and strict licensing constraints, which affect flexibility and scalability. The Group remains focused on compliance, operational resilience, and sustainable growth.

Group Strategy and Forward Initiatives

To strengthen operational agility and efficiency, the Group is actively pursuing:

- Strategic lease restructuring to optimise spatial utilisation;
- Workforce realignment to enhance productivity;
- Adoption of digital tools to improve service delivery and customer engagement.

To maintain competitiveness, the Group is accelerating experience innovation across:

- Curated live show content;
- Socially driven dining environments.

Additionally, the Group has commenced development of a membership and CRM system aimed at increasing customer loyalty and retention. The programme will offer cross-segment rewards, booking privileges, and personalised benefits across KTV, F&B, and live entertainment businesses, building a data-driven, multi-format loyalty ecosystem.

This initiative is expected to enhance repeat visits, raise spend per customer, and deepen brand affinity in an increasingly competitive environment.

Regional Expansion and Growth Opportunities

The Group's first overseas project, located in Kuala Lumpur, Malaysia, is currently under renovation. The two-storey venue will house a live performance stage on the ground floor and multi-room KTV facilities on the upper level. Completion is targeted for 2025, marking a key milestone in the Group's regional expansion plan.

Recognising the strong potential in Malaysia's nightlife and dining sectors, the Group is also taking into account local regulatory, cultural, and consumer nuances to ensure successful localisation and long-term sustainability.

New Brand Concepts and Outlet Development

To expand its entertainment portfolio and attract a wider customer base, the Group is actively developing several new brand concepts and rolling out new outlets. Among these is a family-oriented KTV outlet designed to appeal to neighborhood families and parent-child segments. Construction is scheduled to begin in September 2025, with the launch planned within the same year. The project is currently in the pre-construction phase, with supplier coordination underway.
