Message to Shareholders

“

One of our major acquisitions in 2021 is our completion of the acquisition of a 75% stake in Tenderfresh Business for \$54 million on 1 October 2021. In 2020, we entered into a business agreement (51% stake by Kimly) with Tenderfresh Fried & BBQ Chicken Pte Ltd to operate a Halal themed coffeeshop, Kedai Kopi, at Block 380 Clementi Avenue 5.

Dear Shareholders,

On behalf of the Board of Directors (the “Board”), I am pleased to share our results for the financial year ended 30 September 2021 (“FY2021”). I am delighted to update that we have achieved healthy growth despite the headwinds and challenges brought by the pandemic related restrictions and challenges. We have also expanded our operations through organic growth, acquisitions and joint ventures during FY2021. I am proud to share that the Group has further built upon its strong foundation to grow further in our Food Retail division.

The continuation of the pandemic coupled with measures for endemic living continued to pose certain challenges for the overall food and beverage (“F&B”) industry. However, local coffeeshops remain the steadfast choice as the population continues to adapt to the new measures.

Amidst the challenges, the management continues to expand our portfolio of food outlets and food retail stalls to bring long-term benefits to our shareholders and customers. The updated measures have allowed some leeway in dining-in; however we have prepared the Group for any changes in public health measures to deal with the new virus variants and potential adverse developments. We have worked hard to remain nimble; we have evolved with the changing industry landscape, we have grown our brick-and-mortar operations, we have embraced technology and R&D to improve our productivity and efficiency, we have shown progress in our online sales, and based on these, we strongly believe that we are in a reasonably resilient position to come out of this pandemic with limited adverse impact to the Group.

NAVIGATING THROUGH THE SECOND YEAR OF PANDEMIC – STRENGTHENED OPERATIONS

The financial year started with vaccines approved within the “Safe Nation” Phase 3, allowing us to have a long-term plan in the fight against the pandemic. While dining-in has been kept on a tight leash with group sizes varying from 2 to 5 throughout the financial year, the Group’s 85 food outlets and 148 food stalls, restaurants and shops continued to provide food services to the population island-wide through even takeaways and deliveries.

While part of the population stayed in their homes for work, our employees operated our stalls daily with all Safe Management Measures in places with high emphasis on hygiene and safety. Open air coffeeshops were one of the first to provide dining-in for the unvaccinated and vaccinated without verifying vaccination status, providing a safe bastion where those in the midst of their vaccination programs have an affordable and comfortable place to eat. Since the beginning of the pandemic, we have adhered to the evolving changes in regulations and restrictions and ensured the safety of our staff and our customers while providing various food choices to our customers. I would like to take this opportunity to thank our staff members for their unwavering commitment in helping us keep our business going during the pandemic. With the new rules on returning trays coming into effect from start of 2022, we have made the necessary preparation as we continue to contribute to the national effort in driving the cultural shift in tray return.

Message to Shareholders

For our menus, we are also mindful of the current situation, and we are constantly enhancing our food options to cater to changing consumer preference. An example of our adapted product offerings to suit current situations includes smaller meals, affordable prices, and other similar initiatives. We are also providing bundle packages for Kimly Dimsum and Kimly Seafood with monthly refreshed bundles and deals.

In our effort to improve our efficiency and productivity in the Food Retail division, we continuously refine our recipes whilst maintaining cost discipline. We are also focused towards more automation and commissioning machinery to reduce man hours. A good example of these initiatives and the results can be seen under our Dim Sum Food Division, where our team has successfully created a new dumpling skin recipe in-house that helps in cost savings and may have over S\$80,000 of savings annually. In addition, with the commissioning of the new dumpling making machine, it has saved our Group approximately 3,000 man hours annually.

Another area of focus for us has been to revitalise and rejuvenate some of our existing coffeeshops. Under our Outlet Revitalisation Program in FY2021, we refurbished, revitalised and upgraded six of our existing coffeeshops. Among the upgrades, the amenities of the coffeeshops were upgraded, enhancing hygiene and improving the dining experience of our customers. New Food Stalls and food products were also introduced into the coffeeshops to maintain vibrancy and refresh the food options available. We even carried out extensions to the existing area by increasing the food outlet's lettable area and sitting capacity.

We have also embraced digitalisation and we continue to show more progress in this area. The Group has NETS Unified Payment terminals deployed across all its food outlets. With cashless payment options provided, e-payment volumes have risen sharply across our operations. Moreover, going cashless has resulted in quicker service for customers including reduced waiting times and faster transactions being done. In the on-going fight against Covid-19, the cashless options have also reduced human interactions and helped to ensure safety of both our staff and customers. We have also developed an in-house web application to facilitate the submission and compilation of the weekly FET results for over 4,000 of our operations staff, both third party stall operators and our own employees.

WFH TREND & ONLINE DELIVERIES

Working from home ("WFH") remains the default towards the end of 2021 and has become a new normal for the nation as employees stay safe without congregating unnecessarily in the public or offices. As the Group's coffeeshops are predominantly within the heartlands, the Group has benefitted from customers staying at home during WFH and leaving home for their meals at nearby eateries.

Another aspect of WFH resulted in greater demand for food delivery for convenience and comfort. Online sales in Singapore now take up 38.4% of the total food and beverage sales in October 2021¹, online sales were previously 9% in 2019 and 22% in 2020². The Group has ongoing partnerships with GrabFood, Deliveroo and Foodpanda to provide more convenience to our customers through the quick and responsive delivery of their favourite foods to their doorstep. Frequent special promotions are posted on social media to invite customers to enjoy different fares in their homes.

MESSAGE TO SHAREHOLDERS

GROWTH - ACQUISITION OF TENDERFRESH BUSINESS

We are delighted to highlight that FY2021 was a year of growth for the Group and our M&A strategies bore fruit that has resulted in a bigger, stronger, more resilient, and more diversified group.

One of our major acquisitions in 2021 is our completion of the acquisition of a 75% stake in Tenderfresh Business for S\$54 million on 1 October 2021. In December 2020, we entered into a business agreement (51% stake by Kimly) with Tenderfresh Fried & BBQ Chicken Pte Ltd to operate a Halal themed coffeeshop, Kedai Kopi, at Block 380 Clementi Avenue 5. We are extremely pleased that this partnership blossomed further as we took a strategic stake in the entire Tenderfresh Business.

Tenderfresh Business has an incredible growth story starting 42 years back with its first outlet as a hawker stall selling fried chicken to gradually transform and grow it into a formidable F&B market player operating 41 outlets encompassing 14 different concepts of cuisine. Tenderfresh Business also provide Original Equipment Manufacturing ("OEM") supply of their food products to other customers island wide. As more F&B operators look to outsource their food production to reliable OEM partners to reduce manpower needs, the Group believes that this will generate new revenue streams. In addition, the Group is able to leverage on Tenderfresh Business' competitive edge and wide network in the Halal food market and make further headway into the Halal food industry. The Group hopes to capitalise on this growing market in Singapore which may serve as a springboard into the greater South-east Asian region and propel the Group towards potential revenue from overseas. The prospects in the regional Halal food market look promising as the Asia-Pacific market for Halal food and beverage is projected to register a compound annual growth rate of 5.5 %, during the period from 2020 to 2025 as per Mordor Intelligence³.

With the addition of Tenderfresh Business, we have successfully added a new food retail division under Kimly's portfolio following our Mixed Vegetable Rice, Seafood "Zi Char", Dim Sum, Tonkichi Japanese restaurants and Rive Gauche patisserie. We are confident of the synergies that will allow Tenderfresh Business to extend their food concepts into the food outlets managed by the Group, reducing the costs of duplicating manufacturing processes performed at each other's central kitchens. The wide variety of food will also increase and differentiate items offered on the menu at each other's food outlets. This offers great potential for new revenue streams to grow, expanding from direct sales to consumers through restaurants and coffeeshop food stalls to sales in supermarket chains and other restaurant groups.

We would like to sincerely thank the management team at the Tenderfresh Business who believed in our combined growth potential and staying on by retaining the 25% of shareholding. We will do our utmost best to work hand-in-hand with them to bring to fruition their business plans that are already in motion. Our partnership is already showing some encouraging results as we continue to enhance our presence and operations in Singapore.

With the success of the first Kedai Kopi opened in December 2020 at Clementi together with Tenderfresh, the Group has opened its second Kedai Kopi outlet in July 2021 in Haig Road. Its fully halal concept with never seen before cuisines adapted is popular and well recognised by the local Muslim community.

³ <https://www.mordorintelligence.com/industry-reports/asia-pacific-halal-food-and-beverages-market>

In our endeavour to provide interesting and fresh dining options to the local population including the Muslim community, the growth through Tenderbest and Kedai Kopi are timely. The addition of new concepts to the latest outlets demonstrates commitment by the Group to provide unique and fresh Halal dining experiences.

NEW OUTLETS IN HEARTLANDS

During FY2021, the Group has entered into two joint venture agreements with third parties to operate and manage the short-term HDB leases at Block 134 Lorong Ah Soo, Block 233 Bukit Batok East Avenue 5 and Block 153A Serangoon North Avenue 1. These coffeeshops which are situated in heartland locations add to the portfolio to serve our WFH customers. The Group aims to continuously strengthen our presence in the market with these strategic locations in mature estates with established footfalls.

The Group's portfolio now has expanded to 85 food outlets and 148 food stalls/restaurants/shops. This is a commendable increase from 68 food outlets and 129 food stalls respectively, since our IPO. The growth speaks of the ability of management in executing the Group's expansion plans and will give us the impetus to continue to pursue opportunities for acquisitions and operations.

Message to Shareholders

ACQUISITION OF KLOVEX

In April 2021, the Group acquired 60% stake in Klovex, which through its management team, has 10 years of industry experience and knowledge. Klovex provides hygiene and cleaning related services such as, disinfection of high-frequency surfaces, comprehensive dishwashing, disposal of food wastage and kitchen grease removal. These services are complementary to the Group's operations and it is important to build such synergy to be cost effective and efficient.

Especially during the pandemic period when health and safety is a major concern, this acquisition allows the Group to ride on the growing trend for cleaning services, potentially enhancing the profitability of the Group. Besides that, it also provides the Group with an enhanced set of cleaning capabilities, where the Group is able to deliver elevated standards of cleanliness and hygiene at our operating premises, for our customers.

OUTLOOK

In Singapore, the F&B industry continues to face a challenging business environment as the industry continues to remain heavily affected by the evolving safety measures to cope with the pandemic. The resurgence and emergence of new and more infectious strains globally also causes a concern for the local F&B industry as uncertainties remain. Another cause for concern for the industry is the access to foreign manpower. The difficulty and restrictions in getting foreign manpower coupled with the closure of Singapore's borders continue to pose mounting pressure to the local F&B sector. Our nation's efforts towards living with the virus and the easing of border control measures have helped to ease some of the pressures in our foreign manpower needs.

However, the shortage in foreign manpower will continue for a while longer before the situation stabilises. The government has also announced extension of the Jobs Support Schemes ("JSS"), which includes more wage subsidies, to December 2021 in a bid to provide the F&B industry with a slight boost when some dining-in restrictions continued.

Singapore is also watching the development of the Omicron situation closely to see if further tightening is required. However, the vaccination rates in Singapore remains as one of the highest in the world and with the push for booster shots, there is hope for improving business environment gradually. In these ever-changing market conditions, we have shown resilience with our diversified and favourable geographical spread of the food outlets across the heartlands of Singapore which provides the Group with a competitive advantage to serve an increased footfall arising from the people working from home and dining-in at the F&B establishments which have been allowed since the lifting of some of the restrictions. We have also made obvious enhancements and improvements in our central kitchen and with that support, it has helped the Group achieve a strong position to capitalise on the popularity in the food delivery segment as the Covid-19 situation continues to evolve rapidly.

Since the Group has witnessed growing demand from the food delivery business, moving ahead, the Group will continue to reinvent, innovate and upgrade its menu offerings to attract and retain online customers. Through the integration of new technologies for the upgrade of the central kitchen, the Group seeks to improve the productivity and reduce the reliance on manpower.

We have also made efforts to strengthen and further grow our Food Retail division. The acquisition of the Tenderfresh Business gave us the necessary boost to propel our food retail division forward. It also allows the Group to make further headway in a promising market in terms of customer base and product offerings by leveraging on Tenderfresh Business' competitive edge and presence in Singapore's Halal F&B market. In addition, the Group will be able to unlock the synergies between existing food outlets to further cross-sell and enhance product offerings. We aim to continuously innovate and create unique dining experiences for different markets within Singapore and the opening of our Kedai Kopi recently is a testimony of that. With the acquisition of Tenderfresh Business, we are also hopeful to expand beyond the Singapore borders and target the growing halal food market in the region.

The Group's time-tested experience and expertise in the industry have helped the food outlet management in sourcing for relevant and good food stall tenants into the Group's food outlets. As at 30 September 2021, we enjoyed 98% occupancy rate over a total of 680 food stalls within the 85 food outlets under our management. Based on the strong fundamentals and in its endeavour to continue to groom aspiring hawkers, the Group will work relentlessly to further develop the local hawker scene. Given its strong supply of food stall operators, the Group is confident that it is well-poised to secure more food outlet leases, whether private or publicly owned to further expand its presence within Singapore.

MESSAGE TO SHAREHOLDERS

FINANCIAL PERFORMANCE

The Group recorded a revenue of S\$238.6 million in FY2021, an increase of 13.2% year-on-year ("yoy"). The increase was due to overall growth from all three of our Business Divisions in Food Retail, Outlet Management and Outlet Investment Business. Gross profit margin increased to 32.8% in FY2021 from 26.8% in FY2020, due to government grants and rental rebates received that have helped to mitigate parts of the negative impact from the pandemic. For FY2021, the Group recorded a 55.7% jump in net attributable profit to S\$39.3 million from S\$25.2 million in FY2020 despite the tough business environment.

Our balance sheet remains healthy. The Group generated operating cash flow of S\$90.1 million with cash and cash equivalents as at 30 September 2021 at S\$95.0 million. As at the date of this report, the Group has utilised S\$40.9 million of its IPO net proceeds resulting in a balance of S\$2.6 million.

RECONSTITUTION OF BOARD AND STRENGTHENING THE MANAGEMENT TEAM

Following the resignations of our Founder and Executive Chairman, Mr. Lim Hee Liat, Executive Director and CEO, Mr. Chia Cher Kiang in November 2021, I, Lau Chin Huat, an independent Director on the Board, have been redesignated as Non-Executive Independent Chairman; and Ms. Wong Kok Yoong Karen, Finance Director on the Board, has been redesignated as Executive Director.

The Group has also appointed Ms. Lin Meiqi as the Financial Controller and included additional two members of its current management team, Mr. Yeo Yien Gee Ronnie, Director of Operations for Kimly Food Retail Division and Mr. Chua Yong Chuan Kelvin, Managing Director of Tenderfresh Group, as Executive Officers. Together with the existing Executive Officers, Mr. Peh Kim Leong

Sunny, Director of Operations for Outlet Management Division and Mr. Tan Chung Sing Roy, Director of Business Development and Strategic Planning, the five Executive Officers will support the Board of Directors to build on the strong foundation laid by the predecessors so as to continue delivering sustainable long-term value for the Group and for our shareholders.

REWARDING SHAREHOLDERS

The Board has proposed a final dividend of 0.84 Singapore cents per ordinary share and a special dividend of 0.6 Singapore cents per ordinary share for FY2021. Taking into consideration of the 0.56 Singapore cents per share interim dividend paid in July 2021, the total dividends declared for FY2021 amounts to 2 Singapore cents per ordinary share. This represents a payout of approximately 62.5% of the Group's net attributable profit for FY2021. The final dividend is subject to shareholders' approval at the forthcoming annual general meeting on 26 January 2022.

WITH GRATITUDE AND APPRECIATION

On behalf of the Board of Directors, I want to thank all of our team past and present for their hefty contribution to the Group's growth and success over the past years. It has not been an easy time with the challenges from the pandemic and events, our perseverance has inspired ourselves to continue to put belief in our leadership and employees' capabilities and resilience to overcome this challenging period. I thank our shareholders for remaining steadfast in their loyalty and trust in us. I also would like to thank all our business partners; landlords, food stall operators, associates, suppliers and customers for their trust and confidence in the Group.

I am also thankful and appreciative of the Singapore Government for the continued grants and support given to the food and beverage industry to tide over the pandemic that is still ongoing despite all our best efforts. These grants go a long way in supporting the Group's efforts in improving our delivery platforms, alleviating pandemic-related operational costs and shouldering the livelihood of our staff. All these provide the community as both employees and customers, a less difficult fight against the pandemic.

We achieve what we have today only with the efforts, faith and commitment from our staff and management team. I sincerely thank all of our staff for being a family with Kimly and each other. We will continue to build a safe and bright future for ourselves.

给股东的信息

亲爱的股东们，我很荣幸代表金味董事会分享我们截至2021年9月30日财政年（“2021财政年”）的年报。我很高兴在这段因疫情所带来的限制和挑战中，我们仍持续的增长。我们也在2021财政年，通过结构性增长，收购与合资等项目，扩张了业务。我非常自豪本集团因自身坚固的业务基础，使得我们的食品零售部的业绩持续增长。

疫情持续，加上与疫情共存政策的执行，继续对整体的餐饮业带来挑战。在从业者学习如何适应新措施的当儿，本地咖啡店仍然是国人坚定的餐饮选择。

在应对挑战的同时，管理层也延续发展策略，继续扩充我们旗下的餐饮店和熟食摊位，为我们的股东和顾客带来长期的利益。

虽然更新的防疫措施，逐步放宽室内用餐限制，但是集团已为应对新变种病毒和新防疫措施做好了准备。

我们依然努力的保持敏锐的行动能力；适应不断变化的行业格局，扩张了实体店业务，也采用了科技和研究项目来提高我们的生产力和效率。我们在线上外卖的成绩，也取得了进展。基于以上所述，我们坚信我们处在一个坚韧的位置，能够让集团在较低的负面影响的情况下，走出疫情阴霾。

经历新冠疫情第2年 - 加强营运

本财政年，在“安全的新加坡”第三阶段中，全国疫苗免费接种计划开始。疫苗接种措施让我们能够制定长期计划，以对抗疫情。虽然堂食受到限制，堂食人数，在财政年间，来回限制于2人和5人之间，本集团的85家咖啡店与食阁，和148家熟食摊位，餐馆和商店，继续为全岛人民提供餐饮服务，也通过外卖和送餐服务，继续服务大众。

虽然部分人口仍居家办公，我们的员工依然继续每天坚守岗位，紧紧遵守所有的安全措施，和高度注意卫生安全。露天咖啡店是最早为未接种疫苗和未能出示验证疫苗接种情况的顾客，提供用餐服务的场所。也为那些正在接种疫苗的人们，提供了一个安全的堡垒，让他们拥有一个实惠，且舒适的用餐场所。疫情发生至今，我们也随着更新的条例和限制措施等，做出了改变，让我们在提供各类食品选择的同时，能确保员工和顾客的安危。我想借此机会感谢员工们的不辞辛劳，帮助我们在疫情期间持续业务发展和营运。随着2022年起实施的强制归还托盘和餐具及保洁桌面的措施，我们已做好了必要的准备，继续为国家推动保持桌面整洁运动而做出贡献。

对于我们的菜单，我们也注意到当前的情况，不断地加强我们的产品种类，以满足消费者不断变化的喜好。我们为了适应当前局势，改良了产品，例如推出小型套餐、定制实惠的价格和其他类似的项目。我们还为金味点心和金味煮炒设置了每月更新各式优惠套餐。

在我们努力提高食品零售部的效率和生产力的过程中，以及不断地改进我们的食谱的同时，我们也不忘保持成本优化。我们也专注于自动化和采用机器以减少对人工的依赖。这些项目所取到的良好效果反映在我们点心部的成品，成功研发出自家的烧卖皮配方，帮助节省成本，估计每年能节省超过S\$80,000。此外，随着新烧卖机的采用，本集团每年节省了约3,000个工时。

我们另一个重点项目，包括振兴和装修一些我们旗下的咖啡店。根据我们在2021财政年的店面振兴计划里，我们翻新、振兴和加强了现有的6家咖啡店。在翻新后，咖啡店的设施得到了升级，提高了卫生水平，也加强了顾客们的用餐体验。新的熟食摊位和产品，也被引入了咖啡店内经营，以保持活力并更新现有的餐饮选择。我们甚至通过增加咖啡店的可出租面积，和座位容量，以扩展现有局限。

我们也引用了数码化科技，并继续在该领域进行更多进展。本集团在所有餐饮店面，采用了NETS统一支付系统。通过提供无现金支付选项，整体的电子支付量也急剧上升。此外，无现金支付的变化也为顾客提供了更快捷的服务，包括减短了等待时间和更快地完成交易。在与冠病持续对抗的当儿，无现金支付选项还能减少人与人之间的互动，并有助于确保员工和顾客们的安全。我们还开发了一个内部网络应用程序，以便协调超过4,000名运营人员，包括第三方摊位经营者和员工们的每周提交和收集快速简便测试FET的结果。

给股东的信息

居家办公趋势和线上外卖

至2021年底，居家办公仍然是默认模式，并且已成为国内的新常态。员工可以保持安全，而不必在公共场所或办公室内有不必要地聚集。由于本集团的咖啡店主要位于住宅区，本集团受益于顾客在居家办公期间，也能到附近的餐饮店购买食品。

另一个居家办公的效益，则是因便利和舒适，让线上外卖有更大的需求。新加坡的线上外卖在2019年和2020年分别只达到总饮食销售的9%和22%，但至2021年10月份线上外卖已占38.4%。本集团也与食品配送平台，GrabFood、Deliveroo 和 Foodpanda持续建立着良好的合作关系，通过快速的配送顾客爱吃的食物上门，让顾客享有更多的便利。我们也定期发布和上载特别促销活动到社交媒体平台上，及分享和邀请顾客在家中享受不同的餐食。

扩展业务 - 收购可爱鸡集团

我们非常高兴2021财政年是集团增长非常快速的一年。我们的并购策略，取得了良好的成果，使集团变得更大、更强、更有韧性及更多元化。

其中一项在2021年的重大收购，便是于2021年10月1日，以S\$5,400万，正式完成了收购可爱鸡集团75%的股权。在2020年，我们与可爱鸡集团，签订了业务协议（金味持有51%股权），一同经营一家位于金文泰第5巷大牌380的清真主题咖啡店 - Kedai Kopi。我们非常高兴随着这项合作的发展，让我们和可爱鸡集团获得策略性的合作。

可爱鸡集团有着迅速成长发展的历程。从42年前开始在咖啡档口贩卖炸鸡的第一家分店，逐渐转变与增长至今时强大的餐饮业佼佼者，经营着41家分店，包含14种不同的餐饮概念。可爱鸡集团也向全岛供应着各类餐饮产品。随着越来越多的餐饮经营者选择将食品生产外包给可靠的食物加工合作伙伴，以减少人力需求，本集团相信这将带来新的收入来源。此外，本集团也能够利用可爱鸡集团在清真食品市场的竞争优势和广泛网络，拥有更好的配搭，更进一步进军清真食品业。本集团希望借着新加坡这个不断增长的清真食品市场，可能成为我们进入东南亚地区的跳板，并且推动集团从海外获取潜在的收益。清真餐饮市场可观的前景，因亚太地区清真饮食市场，根据 Mordor Intelligence 的数据，预计在2020年至2025年期间增长为5.5%。随着可爱鸡集团的加入，我们成功地在金味的产品组合，杂菜饭、煮炒、点心、Tonkichi 日式餐厅和 Rive Gauche 糕点之后，新增加了一个食品部门。我们有信心这项配合，将使可爱鸡集团旗下的食品概念，扩展到本集团管理的咖啡店与食阁，从而降低在彼此中央厨房进行重复制造过程的成本。综合的食品种类，也能增加和区分彼此食品店菜单上所提供的选择。这将带来更多新的收入增长潜力，从通过餐厅和咖啡店熟食摊位向消费者的直接销售，扩展到连锁超市和其他餐饮集团的销售，从而提高销售额。

我们衷心感谢可爱鸡集团的管理团队相信我们的综合增长潜力，并通过保留25%的股权，坚信这项合作。我们将尽最大努力与他们携手合作，以实现他们已经在实行中的商业计划。我们的合作已经陆续地显示出让人鼓舞的成绩，我们将继续加强与扩张我们在新加坡的版图和运营。

随着与可爱鸡集团合作经营的第一家 Kedai Kopi 在金文泰成功开业，本集团于2021年7月，在海格路也开设了第二家 Kedai Kopi 店面。这项全马来餐饮的概念，加上配合前所未见的佳肴，深受了本地回教群体的欢迎和认可。

通过可爱鸡集团和 Kedai Kopi 的增长，我们及时地推出有趣和新颖的餐饮选择给本地群体，包括回教群体。新增的食品概念，确定了集团致力于提供独特与新颖的清真餐饮体验。

在社区开设新店面

在2021财政年，本集团也与第三方咖啡店业者，签订了两份合资协议，从而经营和管理位于罗弄阿苏大牌134，武吉巴督东第5巷大牌233和实龙岗北第5巷大牌153A的短期政府组屋咖啡店的租约。这些位于社区地点的咖啡店添加了我们已有的咖啡店版图，让我们能服务更多的居家办公的顾客群。本集团计划凭借这些位于成熟地区的策略性位置，继续加强我们在市场上的影响力。

给股东的信息

集团的投资组合现已扩展至85家咖啡店和食阁，以及148家熟食摊位/餐厅/商店。当我们首次公开募股时，我们只拥有68家咖啡店及食阁和129家熟食摊位，这一路来的成长是值得表扬的。这成长反映了管理层执行集团扩张计划的能力，并将给予我们继续寻求收购和运营机会的动力。

收购 Klovex

在2021年4月份，集团收购了拥有10年行业经验和知识的Klovex清洁管理公司的60%股权。Klovex提供高频表面消毒，全面清洗碗碟，食物处理和清除厨房油脂等一系列卫生和与清洁相关的服务。这些服务加强了集团运营的能力，也建立了实现成本效益和效率的合作关系。

尤其是在疫情期间，当健康和成为主要焦点时，此收购使集团能够顺应清洁服务的增长趋势，也带来可能提高本集团盈利的机会。除此之外，它加强了集团的清洁与卫生能力，让我们能够在我们所经营的餐饮场所为我们的顾客提供更高品质的清洁和卫生标准。

展望

在新加坡，为了应对瘟疫，安全措施不断的变化着，而餐饮业也继续受到严重的影响，持续面临着充满挑战的商业环境。全球不时地出现更具传染性的菌株，本地饮食业也非常关注这动荡的趋势。另一个令人担忧的是，如何引进外来人才。获得外国人力困难和限制，加上新加坡边境的关闭，继续给本地餐饮业带来更多的压力。我国为对抗病毒所做出的努力，以及边境管制措施的放宽，虽有助于缓解我们对外来人力需求的一些压力，但是外籍人力短缺将在局势稳定之前，持续一段时间。政府也宣布了将延长雇佣补贴计划，并增加工资补贴，至2021年11月份，以协助饮食业。

新加坡也在密切关注奥密克戎情况的发展，来探讨是否需要进一步收紧条例。然而，新加坡的疫苗接种率仍然是世界上最高的国家之一，随着加强疫苗注射的推动，商业环境也有望逐步改善。在这瞬息万变的市場情况下，我们通过了多元化和在新加坡社区餐饮业里的有利地理位置，为集团提供了竞争优势，让我们能继续服务在家办公和室内用餐的顾客。随着条例的更改，我们也能服务客流量的增加。我们也对中央厨房进行了有效的提升和改进，这也因而让集团在外卖业务随着冠病形势的持续快速发展下，取得了强固的位置。

由于外卖业务需求的不断增长，未来，集团将继续改造、创新和提升菜单选择，以吸引并留住网上顾客群。集团也通过整合新科技，来提升中央厨房的生产力以及减少对人力的依赖。

我们也努力地加强和进一步发展我们的餐饮零售部。收购可爱鸡集团为我们推动了餐饮零售部门向前发展的计划。它也使集团能够借助可爱鸡集团的竞争优势，和在新加坡清真餐饮市场的优势，在顾客群和产品供应方面，让我们在前景广阔的市場上，取得更进一步的发展。此外，本集团将能够开启更多的合作机会，让现有金味的产品之间，有协同效应，以进一步互助销售和增强产品的供应。我们的目标是不断创新，为新加坡不同的市場创造独特的用餐体验。近期 Kedai Kopi 的开业就是一个见证。通过收购可爱鸡集团的项目，我们也希望将业务扩展到新加坡之外，进军不断增长的清真餐饮市場。

本集团在餐饮行业的经验，及专业知识，帮助了咖啡店管理层，物色良好的熟食摊位租户，租入本集团所经营的咖啡店与食阁。截至2021年9月30日，我们管理的85间咖啡店与食阁内共有超过680多个熟食摊位，而出租率则达到了98%。凭着强大的基础和努力，并致力于继续培育有潜能的小贩们，本集团将不懈努力，进一步帮助发展本地的熟食小贩市場。鉴于熟食摊位经营者的强大供应链，本集团已做好准备，来争取更多的咖啡店与食阁的租约。无论是私人咖啡店，或是政府组屋区咖啡店等，我们都计划进一步的扩大我们在新加坡的业务版图。

有鉴于此，我们才能取得今天的成就。我们庆幸获得了所有员工和管理团队的努力，信念和承诺。我真诚地感谢我们所有的员工们，愿意与金味成为一家人。我们将继续为金味这个大家庭，建设一个安全而光明的未来。

REVENUE
S\$238.6m

GROSS PROFIT
S\$78.2m

REVENUE

The Group delivered a strong set of results for FY2021 portraying resilience even though the industry was plagued with pandemic induced challenges. The Group's revenue increased by S\$27.9 to S\$238.6 million in FY2021, an increase of 13.2% year-on-year ("yoy"). The increase was due to overall growth from all three of our Business Divisions in Food Retail, Outlet Management and Outlet Investment Business.

The Food Retail Division contributed the most to our revenue growth and delivered a S\$15.0 million increase to S\$119.4 million in FY2021. The growth was mainly due to higher revenue contributions from existing food stalls, greater food delivery sales and revenue from stalls opened in FY2021. There were six food stalls and one confectionery shop opened during FY2021.

The Outlet Management Division contributed a S\$9.2 million increase in FY2021 to S\$112.5 million. The increase was mainly due to revenue contribution from three new coffee shops that were acquired and opened earlier in FY2021 and from increased foot traffic at our coffee shops supplying the WFH crowd.

The Outlet Investment Business Division witnessed more than doubling of the revenue from S\$3.1 million in FY2020 to S\$6.8 million in FY2021 mainly from the sale of beverages and tobacco products, rental income and provision of cleaning and utilities services from the food outlet properties acquired in the second half of FY2020.

COST OF SALES

Cost of sales increased by S\$6.2 million to S\$160.5 million in FY2021. This was in line with the increase in the revenue from sales of food, beverages and tobacco products. Growth in revenue outpaced the growth in cost of sales as there were government grants and rental rebates received.

GROSS PROFIT

Gross profit as a result increased 38.3% yoy to S\$78.2 million in FY2021 with gross profit margin increasing from 26.8% in FY2020 to 32.8% in FY2021.

OPERATING EXPENSES

Selling and distribution expenses increased by S\$2.6 million to S\$10.2 million FY2021 over the greater demand of online food delivery which required more packing materials and higher delivery charges.

Administrative expenses increased by S\$4.1 million to S\$22.2 million in FY2021 largely due to higher employee benefits expenses of S\$2.5 million due to increased headcount, salary adjustment, higher staff and management's incentive bonuses in line with higher profit in FY2021, increase in depreciation of right-of-use assets, property, plant and equipment owned and investment property owned of S\$1.2 million, higher repair and maintenance expense of S\$0.8 million, higher stamp duty and insurance expense of S\$0.2 million, and partially offset by the increase in government grant for wages support of S\$0.6 million.

FINANCIAL REVIEW

OTHER OPERATING EXPENSES

The decrease of S\$1.1 million in other operating expenses was mainly due to the absence of impairment loss of S\$1.0 million made in FY2020 on the property, and plant and equipment, trademark and goodwill of the restaurants and confectionery businesses under the brands, Tonkichi and Rive Gauche due to adverse effect on business as a result of the on-going Covid-19 situation.

INCOME TAX EXPENSE

Income tax expense increased by S\$0.7 million in line with the increase in the profit before taxation. Effective tax rate was 11.7% in FY2021 compared to 15.1% in FY2020. The lower effective tax rate was mainly due to the government grants received for Jobs Support Scheme of S\$13.5 million (FY2020: S\$7.2 million) was not taxable and over provision of deferred tax liabilities in prior years of S\$0.3 million.

NET PROFIT

Consequently, net profit attributable to owners of the Group increased to S\$39.3 million for FY2021 from S\$25.2 million in FY2020, an increase of 55.7% yoy. The Group registered a strong EBITDA of S\$49.9 million for FY2021, an increase of 48.4% yoy. Basic earnings per share for the Group grew by 51.4% yoy to 3.30 Singapore cents in FY2021.

REVIEW OF THE GROUP'S FINANCIAL POSITION

The Group's financial position as at 30 September 2021 was healthy, with cash and cash equivalents of S\$95.0 million compared to S\$68.3 million as of 30 September 2020.

The Group's total assets rose by S\$6.5 million to S\$326.3 million as at 30 September 2021 from S\$319.8 million as at 30 September 2020.

NON-CURRENT ASSETS

The Group's non-current assets decreased by S\$12.4 million mainly due to depreciation of right-of-use assets of S\$36.7 million, depreciation of property, plant and equipment owned of S\$4.4 million, depreciation of investment properties owned of S\$0.2 million and depreciation of intangible assets of S\$0.7 million.

The decrease was offset by recognition of right-of-use assets of S\$20.9 million arising from new and renewed leases, renovation and additions of equipment for new and existing coffeeshops and food stalls of S\$4.0 million, investment in joint ventures of S\$2.6 million, recognition of goodwill on consolidation arising from the acquisition of a subsidiary, Klovex Holdings Pte. Ltd. of S\$0.9 million, increase in deferred tax assets of S\$0.5 million, and increase in non-current other receivables of S\$0.6 million.

Other receivables (non-current) comprised the refundable deposits relating to rental deposits placed with lessors for the leases of coffeeshops, restaurants and confectionery shops which are due to expire in more than one year and recoverable upon termination or expiration of the leases, amounting to S\$6.3 million (30 September 2020: S\$5.6 million); the non-current portion of staff loans amounted to S\$0.1 million (30 September 2020: S\$0.2 million).

CURRENT ASSETS

Current assets increased by S\$18.9 million due mainly to increase in cash and balances by S\$26.7 million; offset by the decrease in trade and other receivables and inventories by S\$7.7 million and S\$0.2 million respectively.

The increase in cash and bank balances of S\$26.7 million was mainly due to cash generated from operating activities of S\$90.1 million, dividend income received from an associate and joint ventures of S\$0.4 million and capital injection from a non-controlling interest of S\$0.1 million. The increase was offset by repayment of lease liabilities and its related interest expense of S\$39.2 million, dividend paid on ordinary shares of S\$16.7 million, investment in joint ventures of S\$2.6 million, purchase of property, plant and equipment of S\$3.3 million, repayment of loan and borrowings and its related interest expense of S\$1.5 million, and net cash used in acquisition of a subsidiary, Klovex Holdings Pte. Ltd. of S\$0.7 million.

Financial Review

The decrease in trade and other receivables of S\$7.7 million was due to decrease in government grant receivables and enhanced rental waiver receivables by S\$3.7 million and S\$0.6 million respectively as the amounts have been received during FY2021, decrease in trade receivables by S\$0.6 million due to timely collection of outstanding receivables, decrease in amount owing to the Company of S\$2.6 million following the receipt of the quoted equity securities held by the Vendor with a market value of S\$1.7 million; dividend accrued in respect of these securities amounting to S\$0.2 million and cash for the remaining balance of S\$0.7 million.

CURRENT LIABILITIES

Total liabilities as at 30 September 2021 stood at S\$192.7 million compared to S\$209.6 million as at 30 September 2020.

Current liabilities decreased by S\$0.2 million due to the decrease in other liabilities of S\$2.5 million was offset by increase in provision for current year's income tax of S\$0.8 million, in line with the higher taxable profit in FY2021, increase in the current portion of lease liabilities by S\$1.4 million; and increase in trade and other payables by S\$0.1 million, in line with the increase in cost of sales.

The decrease in other liabilities was mainly due to reversal of the deferred revenue upon receipt of the government grants of S\$4.8 million and rental rebates from landlords of S\$0.6 million during FY2021. The decrease was offset by increase in accruals of operating and payroll related costs of S\$0.5 million and S\$2.4 million respectively, due mainly to the increase in cost of sales, headcount due to opening of new food outlets/stalls and higher incentive bonus for staff and management, in line with higher profit recorded for FY2021.

NON-CURRENT LIABILITIES

The Group's non-current liabilities decreased by S\$16.8 million mainly due to decrease in lease liabilities of S\$16.0 million due to reclassification of lease liabilities which are due within one year to current liabilities, and interest-bearing loans and borrowings of S\$1.1 million due to repayment made during FY2021. The decrease was offset by the increase in non-current other payables (relating to the refundable rental deposits placed by the tenants) of S\$0.3 million.

STATEMENT OF CASH FLOWS

The Group generated net cash from operating activities of S\$90.1 million in FY2021. This came from operating cash flows before changes in working capital of S\$90.5 million, net working capital inflows of S\$4.4 million and interest income from short-term deposits of S\$0.1 million and offset by income taxes paid of S\$4.9 million. The net working capital inflows were due to decrease in trade and other receivables by S\$7.1 million, decrease in inventories by S\$0.2 million, and offset by decrease in other liabilities by S\$2.3 million, decrease in trade and other payables of S\$0.5 million, and increase in prepayments by S\$0.2 million.

Net cash flows used in investing activities amounted to S\$6.2 million in FY2021, mainly due to investment in joint ventures of S\$2.6 million, purchase of property, plant and equipment of S\$3.3 million, net cash outflow on acquisition of a subsidiary, Klovex Holdings Pte. Ltd. of S\$0.7 million and offset by dividends received from an associate and joint ventures of S\$0.4 million.

	<i>Multiple Directorships</i>	
(a)	What is the maximum number of listed company board representations that the Company has prescribed for its directors? What are the reasons for this number?	The Board has not capped the maximum number of listed company board representations each Director may hold.
(b)	If a maximum has not been determined, what are the reasons?	<p>The NC is of the view that the effectiveness of each of the Directors is best assessed by a qualitative assessment of the Director's contributions, after considering his or her other listed company board directorships and other principal commitments, not guided by a numerical limit.</p> <p>The NC also believes that it is for each Director to assess his/her own capacity and ability to undertake other obligations or commitments together with serving on the Board effectively. The NC does not wish to omit from consideration outstanding individuals who, despite the demands on their time, have the capacity to value-add and contribute as members of the Board.</p>

The RC should aim to be fair and avoid rewarding poor performance; (c) Review and recommend to the Board the service contracts of Chairman, CEO (or equivalent), Executive Director and key management personnel and ensure that such services contracts are fair and not excessively long or with onerous renewal/termination clauses; (d) To periodically consider and review remuneration packages in order to maintain attractiveness, retain and motivate Directors to provide good stewardship of the Company and Key Management Personnel to successfully manage the Company, and to align the level and structure of remuneration with the long-term interests and risk policies of the Company; (e) To review the specific remuneration packages of all managerial staff and employees who are related to any of the Directors or substantial shareholders to ensure that their remuneration packages are in line with the Company's staff remuneration guidelines and commensurate with their respective job scopes and level of responsibilities and to review and approve any bonuses, pay increases and/or promotions for these managerial staff and employees; (f) Review the remuneration of employees who are related to the Directors and substantial shareholders to ensure that their remuneration packages are in line with the staff remuneration guideline and commensurate with their respective job scopes and level of responsibilities; and (g) To approve performance targets for assessing the performance of each Key Management Personnel and recommend such targets as well as employee specific remuneration packages for each of such Key Management Personnel, for endorsement by the Board. <p>The RC's review and recommendations cover all aspects including fees, salaries, allowance, bonuses, options, share-based incentives, awards and benefits-in-kind.</p> <p>Each RC member will abstain from participating in the deliberations of and voting on any resolution in respect of his/her remuneration package or that of employees related to him/her.</p>
6.4	<i>Engagement of Remuneration Consultants</i>	No remuneration consultants were engaged by the Company in FY2021. The Company will continue to monitor the need to engage external remuneration consultants going forward and where applicable, will review the independence of the external firm before any engagement.
6.2	<i>"Claw-back" Provisions</i>	There are no contractual provisions which allows the Company to reclaim incentives from the Executive Directors and key management personnel in certain circumstances. The Board is of the view that as the Group pays performance bonuses based on the actual performance of the Group and/or Company (and not on forward-looking results) as well as the actual results of its Executive Directors and key management personnel, "claw-back" provisions in the service agreements may not be relevant or appropriate.

The variable compensation is determined based on the level of achievement of corporate and individual performance objectives, for each individual role.

Independent Auditor's Report

For the financial year ended 30 September 2021

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of Kimly Limited (the "Company") and its subsidiaries (collectively, the "Group"), which comprise the statements of financial position of the Group and the Company as at 30 September 2021, the statements of changes in equity of the Group and the Company and the consolidated statement of comprehensive income and consolidated statement of cash flows of the Group for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group, the statement of financial position and the statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 30 September 2021 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and changes in equity of the Company for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For the matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled our responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

INDEPENDENT AUDITOR'S REPORT

For the financial year ended 30 September 2021

Key audit matters (cont'd)

Completeness of revenue

For the financial year ended 30 September 2021, the Group's revenue from sale of food, beverages and tobacco products amounted to \$196,415,000, which accounted for 82.3% of the Group's revenue. Revenue from the sale of food, beverages and tobacco products is recognised based on actual cash receipts from customers, and is transacted via a large volume of low-value cash transactions. Given the large volume of cash transactions and as cash is susceptible to theft and pilferage, we have focused on the completeness of cash and the corresponding revenue as a key audit matter.

As part of our audit, we obtained an understanding of matters that could result in risk of material misstatement to revenue. We evaluated the design and tested the operating effectiveness of key internal controls that the Group has put in place to ensure cash sales are appropriately recorded. We assessed management's review of monthly outlet operating margins and the reconciliation of revenue to cash receipts to assess completeness of revenue. We also performed sales cut-off procedures through cash cut-off testing to evaluate the completeness of revenue recorded as at 30 September 2021. We used data analytics technique to analyse the correlation between revenue, trade receivables and cash to evaluate the existence and completeness of revenue recorded during the financial year ended 30 September 2021. Additionally, we tested the physical safeguards over cash on hand. We assessed the adequacy of the disclosures related to revenue, and cash and cash equivalents in Note 4 and Note 23 respectively.

Other information

Management is responsible for other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and directors for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I), and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Independent Auditor's Report

For the financial year ended 30 September 2021

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

INDEPENDENT AUDITOR'S REPORT

For the financial year ended 30 September 2021

Auditor's responsibilities for the audit of the financial statements (cont'd)

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Tan Swee Ho.

1. CORPORATE INFORMATION

1.1 *The Company*

Kimly Limited (the “Company”) was incorporated on 23 May 2016 under the Companies Act and domiciled in Singapore. On 3 February 2017, the Company was converted into a public company limited by shares and changed its name from Kimly Pte. Ltd. to Kimly Limited. The Company was listed on the Catalist of Singapore Exchange Securities Trading Limited (the “SGX-ST”) on 20 March 2017.

The registered office and principal place of business of the Company is located at 13 Woodlands Link, Singapore 738725.

The principal activities of the Company are those of investment holding and provision of management services. The principal activities of the subsidiaries are disclosed in Note 17 to the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 *Basis of preparation*

The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company have been prepared in accordance with Singapore Financial Reporting Standards (International) (“SFRS(I)”).

The consolidated financial statements have been prepared on the historical cost basis except as disclosed in the accounting policies below.

The financial statements are presented in Singapore Dollars (“SGD” or “\$”) and all values in the tables are rounded to the nearest thousand (“\$’000”) except when otherwise indicated.

2.2 *Changes in accounting policies and disclosures*

New and amended standards and interpretations

The accounting policies adopted are consistent with those of the previous financial year except in the current financial year, the Group has adopted all the new and revised standards which are effective for annual financial periods beginning on or after 1 October 2020. Except for the adoption of the Amendments to the SFRS(I) 16: Covid-19-Related Rent Concession beyond 30 June 2021, the adoption of these new standards did not have any material effect on the financial performance or position of the Group.

Amendments to the SFRS(I) 16: Covid-19-Related Rent Concession beyond 30 June 2021

The Group early adopted Amendment to SFRS(I) 16: Covid-19-Related Rent Concessions beyond 30 June 2021 and has applied the practical expedient applicable in this amendment that is effective for annual periods beginning on or after 1 April 2021.

The standard allows the lessee to account for any COVID-19 related rent concessions received as a variable lease payment with the effect of the rent concession recognised directly in the consolidated statement of comprehensive income, rather than a lease modification, which generally requires a lessee to remeasure the lease liability by discounting the revised lease payments using a new discount rate under SFRS(I) 16 Leases.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.2 Changes in accounting policies and disclosures (cont'd)

Amendments to the SFRS(I) 16: Covid-19-Related Rent Concession beyond 30 June 2021 (cont'd)

Accounting for any COVID-19 related rent concessions directly in the consolidated statement of comprehensive income is permissible provided the following conditions are met:

- The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- Any reduction in lease payments affects only payments originally due on or before 30 June 2022; and
- There is no substantive change to other terms and conditions of the lease.

The amendment is applicable for annual reporting periods beginning on or after 1 April 2021 and earlier application is permitted. The Group has early adopted this amendment for the year ended 30 September 2021 and has applied the practical expedient available in the standard.

2.3 Standards issued but not yet effective

The Group has not adopted the following standards applicable to the Group that have been issued but not yet effective:

Description	Effective for annual periods beginning on or after
Amendments to References to the Conceptual Framework in SFRS(I) Standards	1 January 2021
Amendments to illustrative examples, implementation guidance and SFRS(I) practice statements	1 January 2021
Amendments to SFRS(I) 16: <i>Property, Plant and Equipment – Proceeds before Intended Use</i>	1 January 2022
Amendments to SFRS(I) 1-37: <i>Onerous Contracts – Cost of Fulfilling a Contract</i>	1 January 2022
Amendments to SFRS(I) 1-1: <i>Classification of Liabilities as Current or Non-current</i>	1 January 2023
Amendments to SFRS(I) 1-8: <i>Definition of Accounting Estimates</i>	1 January 2023
Amendments to SFRS(I) 10 & SFRS(I) 1-28: <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	To be determined

The directors expect that the adoption of the standards above will have no material impact on the financial statements in the year of initial application.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.4 *Basis of consolidation and business combinations*

(a) *Basis of consolidation*

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the end of the reporting period. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company. Consistent accounting policies are applied to like transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Losses within a subsidiary are attributed to the non-controlling interest even if that results in a deficit balance.

(b) *Business combinations and goodwill*

Business combinations are accounted for by applying the acquisition method. Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Acquisition-related costs are recognised as expenses in the periods in which the costs are incurred and the services are received.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognised in profit or loss.

Non-controlling interest in the acquiree, that are present ownership interests and entitle their holders to a proportionate share of net assets of the acquiree are recognised on the acquisition date at either fair value, or the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in the acquiree (if any), and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities is recorded as goodwill. In instances where the latter amount exceeds the former, the excess is recognised as gain on bargain purchase in profit or loss on the acquisition date.

Goodwill is initially measured at cost. Following initial recognition, goodwill is measured at cost less any accumulated impairment losses.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to the Group's cash-generating units that are expected to benefit from the synergies of the combination.

Notes to the Financial Statements

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.4 *Basis of consolidation and business combinations (cont'd)*

(b) *Business combinations and goodwill (cont'd)*

The cash-generating units to which goodwill have been allocated is tested for impairment annually and whenever there is an indication that the cash-generating unit may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates.

(c) *Business combinations involving businesses or entities under common control*

Business combinations involving businesses or entities under common control are accounted for by applying the pooling of interest method which involves the following:

- Assets, liabilities, reserves, revenue and expenses of consolidated business or entities are reflected at their existing amounts;
- The retained earnings recognised in the consolidated financial statements are the retained earnings of the combining entities or businesses immediately before the combination; and
- No additional goodwill is recognised as a result of the combination.

On 1 October 2016, the Group underwent a corporate reorganisation in preparation for its listing on the SGX-ST (the "Restructuring Exercise"). The Group acquired all of the issued and paid-up ordinary shares of its subsidiaries from non-controlling interests amounting to \$8,204,000, which was satisfied through the issuance of 466,074,567 shares, amounting to \$116,519,000. The difference between the fair value of the consideration shares and the carrying value of the additional interest acquired from the non-controlling interests has been recognised as "Premium paid on acquisition of non-controlling interests" within equity.

2.5 *Transactions with non-controlling interests*

Non-controlling interest represents the equity in subsidiaries not attributable, directly or indirectly, to owners of the Company.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.6 Foreign currency

The Group's financial statements are presented in Singapore Dollars, which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using the functional currency.

(a) Transaction and balances

Transactions in foreign currencies are measured in the respective functional currencies of the Company and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss.

(b) Consolidated financial statements

For consolidation purpose, the assets and liabilities of foreign operations are translated into SGD at the rate of exchange ruling at the end of the reporting period and their profit or loss are translated at the exchange rates prevailing at the date of the transactions. The exchange differences arising on the translation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

2.7 Investment properties

Investment properties are properties that are either owned by the Group to earn rentals and/or for capital appreciation, rather than for use in the production or supply of goods or services, or for administrative purposes, or in the ordinary course of business.

Investment properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at cost less accumulated depreciation and accumulated impairment loss.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in profit or loss in the year of retirement or disposal.

Depreciation of an investment property begins when it is available for use and is computed on a straight-line basis over the estimated useful life of 50 years.

Notes to the Financial Statements

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.8 *Property, plant and equipment*

All items of property, plant and equipment are initially recorded at cost. Subsequent to recognition, property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Freehold building	50 years
Leasehold buildings	30 – 63 years
Electrical and renovations	3 – 8 years
Equipment and fittings	3 – 8 years
Motor vehicles	5 – 10 years

Assets under construction are not depreciated as these assets are not yet available for use.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset is included in profit or loss in the year the asset is de-recognised.

2.9 *Intangible assets*

Intangible assets acquired separately are measured initially at cost. Following initial acquisition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite useful lives are amortised over the estimated useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives or not yet available for use are tested for impairment annually, or more frequently if the vents and circumstances indicate that the carrying value may be impaired either individually or at the cash-generating unit level. Such intangible assets are not amortised. The useful life of an intangible asset with an indefinite useful life is reviewed annually to determine whether the useful life assessment continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.9 *Intangible assets (cont'd)*

Lease assignment fees

Lease assignment fees are amounts paid to the previous tenants of the Group's leased premises when the leases were transferred to the Group. These lease assignment fees are amortised on a straight-line basis over the expected benefit period of between 7 to 12 years.

Computer software

Computer software are initially capitalised at cost, which includes the purchase price and other directly attributable cost of preparing the asset for its intended use. Cost associated with maintaining the computer software are recognised as an expense when they incurred.

Computer software are subsequently carried at cost less accumulated amortisation and accumulated impairment losses. These costs are amortised to profit or loss using the straight-line method over the useful life of 3 years.

Trademarks

The trademarks were acquired in a business combinations. The useful lives of the trademarks are estimated to be indefinite because based on the current assessment, management believes there is no foreseeable limit to the period over which the brands are expected to generate net cash inflows for the Group.

2.10 *Impairment of non-financial assets*

The Group assesses at each reporting date whether there is indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses are recognised in profit or loss.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss unless the asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase. Impairment losses relating to goodwill cannot be reversed in future periods.

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.11 *Subsidiaries*

A subsidiary is an investee that is controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

In the Company's separate financial statements, investment in subsidiaries are accounted for at cost less impairment losses.

2.12 *Associate and joint ventures*

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries. The Group's investment in its associate and joint venture are accounted for using the equity method.

Under the equity method, the investment in an associate or a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment separately.

The consolidated statement of comprehensive income reflects the Group's share of the results of operations of the associate or joint venture. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the consolidated statement of comprehensive income outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate or joint venture.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, and then recognises the loss within 'Share of profit of an associate and joint ventures' in the consolidated statement of comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.12 Associate and joint ventures (cont'd)

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

2.13 Financial instruments

(a) Financial assets

Initial recognition and measurement

Financial assets are recognised when, and only when the entity becomes party to the contractual provisions of the instruments.

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Trade receivables are measured at the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party, if the trade receivables do not contain a significant financing component at initial recognition.

Subsequent measurement

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the contractual cash flow characteristics of the asset.

Amortised cost

Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the assets are de-recognised or impaired, and through amortisation process.

De-recognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income for debt instruments is recognised in profit or loss.

Notes to the Financial Statements

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.13 Financial instruments (cont'd)

(b) Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial instrument. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at fair value through profit or loss, directly attributable transaction costs.

Subsequent measurement

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

De-recognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. On derecognition, the difference between the carrying amounts and the consideration paid is recognised in profit or loss.

2.14 Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECL") for all debt instruments not held at fair value through profit or loss and financial guarantee contracts. ECL are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECL are provided for credit losses that result from default events that are possible within the next 12-months ("a 12-month ECL"). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of timing of the default ("a lifetime ECL").

For trade receivables, the Group applies a simplified approach in calculating ECL. Therefore, the group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECL at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.15 *Cash and cash equivalents*

Cash and cash equivalents comprise cash at bank and on hand and short-term deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2.16 *Inventories*

Inventories are stated at the lower of cost and net realisable value. Costs incurred in bringing the inventories to their present location and condition are accounted for on a first-in first-out basis.

Where necessary, allowance is provided for damaged, obsolete and slow moving items to adjust the carrying value of inventories to the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.17 *Provisions*

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.18 *Government grants*

Government grants are recognised when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Government grants shall be recognised in profit or loss on a systematic basis over the periods which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Notes to the Financial Statements

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.19 *Borrowing costs*

Borrowing costs are capitalised as part of the cost of a qualifying asset if they are directly attributable to the acquisition, construction or production of that asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.20 *Financial guarantee*

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Financial guarantees are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, financial guarantees are measured at the higher of the amount of expected credit loss determined in accordance with the policy set out in Note 2.14 and the amount initially recognised less, when appropriate, the cumulative amount of income recognised over the period of the guarantee.

2.21 *Employee benefit*

(a) *Defined contribution plans*

The Group make contributions to the Central Provident Fund scheme in Singapore, a defined contribution pension scheme. Contributions to defined contribution pension schemes are recognised as an expense in the period in which the related service is performed.

(b) *Employee leave entitlement*

Employee entitlements to annual leave are recognised as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled wholly before twelve months after the end of the reporting period is recognised for services rendered by employees up to the end of the reporting period. The liability for leave expected to be settled beyond twelve months from the end of the reporting period is determined using the projected unit credit method. The net total of service costs, net interest on the liability and remeasurement of the liability are recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.21 *Employee benefit (cont'd)*

(c) *Employee share awards plan*

Employees of the Group receive remuneration in the form of share awards as consideration for services rendered. The cost of these equity-settled share based payment transactions with employees is measured by reference to the fair value of the share awards at the date on which the share awards are granted which takes into account market conditions and non-vesting conditions. This cost is recognised in profit or loss, with a corresponding increase in the share-based compensation reserve, over the vesting period. The cumulative expense recognised at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of share awards that will ultimately vest. The charge or credit to profit or loss for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense. The share-based compensation reserve is transferred to retained earnings upon expiry of the share awards.

2.22 *Leases*

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(a) *Right-of-use assets*

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Coffeeshops, food courts, restaurants, and retail shops	2 to 10 years
Office and central kitchen premises	2 to 17 years
Residential units	2 years
Motor vehicles	3 to 4 years

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. The accounting policy for impairment is disclosed in Note 2.10. The Group's right-of-use assets are presented in Note 16.

Notes to the Financial Statements

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.22 Leases (cont'd)

Group as a lessee (cont'd)

(b) *Lease liabilities*

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Group's lease liabilities are presented in Note 16.

(c) *Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.22 Leases (cont'd)

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the consolidated statement of comprehensive income due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. The accounting policy for rental income is set out in Note 2.23(b). Contingent rents are recognised as revenue in the period in which they are earned.

2.23 Revenue

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

(a) *Revenue from sale of food, beverages and tobacco products*

Revenue is recognised when the food, beverages and tobacco products are delivered to the customer and all criteria for acceptance have been satisfied at a point in time.

(b) *Rental income*

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms. The aggregate costs of incentives provided to lessees are recognised as a reduction of rental income over the lease term on a straight-line basis.

(c) *Provision of cleaning and utilities services*

Revenue from provision of cleaning and utilities services to the tenants are recognised over the terms of the service agreement.

(d) *Outlet management fee*

Revenue from the rendering of outlet management services is recognised over time on a straight-line basis over the terms of the service agreements. Additional revenue from incentives when performance indicators are met is recognised in the period in which they are earned and when the amount can be measured reliably.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.24 Taxes

(a) *Current income tax*

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the end of the reporting period, in the countries where the Group operates and generates taxable income.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(b) *Deferred tax*

Deferred tax is provided using the liability method on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither accounting profit nor taxable profit or loss; and
- In respect of taxable temporary differences associated with investment in subsidiaries and associates, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business consolidation and, at the time of the transaction, affects neither accounting profit nor taxable profit or loss; and
- In respect of deductible temporary differences associated with investment in subsidiaries and associates, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 September 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.24 Taxes (cont'd)

(b) *Deferred tax (cont'd)*

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the end of each reporting period.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

(c) *Sales tax*

Revenues, expenses and assets are recognised net of the amount of sales tax except:

- Where the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included.

2.25 Segment reporting

For management purposes, the Group is organised into operating segments based on their products and services which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge.

The segment managers report directly to the management of the Company who regularly review the segment results in order to allocate resources to the segments and to assess the segment performance. Additional disclosures on each of these segments are shown in Note 31, including the factors used to identify the reportable segments and the measurement basis of segment information.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

2.26 *Share capital and share issuance expenses*

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

2.27 *Treasury shares*

The Group's own equity instruments, which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments. Any difference between the carrying amount of treasury shares and the consideration received, if reissued, is recognised directly in equity. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them respectively.

2.28 *Contingencies*

A contingent liability is:

- (a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or
- (b) a present obligation that arises from past events but is not recognised because:
 - (i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - (ii) The amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognised on the statement of financial position of the Group, except for contingent liabilities assumed in a business combination that are present obligations and which the fair values can be reliably determined.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 September 2021

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods. Management is of opinion that there is no significant judgement made in applying accounting policies and no estimation uncertainty that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

15. INTANGIBLE ASSETS (CONT'D)

Amortisation expense

The amortisation of intangible assets is included in the "Other operating expenses" (Note 7) in the consolidated statement of comprehensive income.

Impairment testing of goodwill

Goodwill is derived from the excess of purchase consideration over the fair value of the identifiable net assets acquired. As at 30 September 2021, the carrying amount of the goodwill of \$921,000 arose from the acquisition of 60% of the issued share capital in Klovex Holdings Pte. Ltd. ("Klovex") on 1 April 2021.

The recoverable amount of Klovex has been determined based on value-in-use calculation using cash flow projections from financial budgets approved by management covering a five-year period. The pre-tax discount rate applied to the cash flow projections and the forecasted growth rates used to extrapolate cash flow projections beyond the five-year period are 14% and 1% respectively.

Key assumptions used in the value in use calculations

The calculation of value-in-use for Klovex is most sensitive to the following assumptions:

Budgeted gross margins – Gross margins are based on average values achieved since the Group acquired Klovex. These are increased over the budget period for anticipated efficiency improvements and cost saving measures through leveraging on Group synergy.

Pre-tax discount rate – Discount rate represent the current market assessment of the risks specific to Klovex, regarding the time value of money and individual risks of the underlying assets which have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and derived from its weighted average cost of capital ("WACC"). The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by the Group's investors. The cost of debt is based on the interest-bearing borrowings the Group is obliged to service. Segment-specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data.

Growth rates – The forecasted growth rates are based on published industry research and do not exceed the long-term average growth rate for the industry relevant to Klovex .

Sensitivity to changes in assumptions

With regards to the assessment of value-in-use for goodwill of Klovex, management believe that no reasonable possible changes in any of the key assumptions would cause the carrying value of Klovex to materially exceed its recoverable amount.

During financial year ended 30 September 2020, management had recognised an impairment loss of \$777,000 on the goodwill and trademarks of the restaurants and confectionery businesses, Tonkichi and Rive Gauche, due to adverse effect on business as a result of the on-going COVID-19 situation. The impairment loss was recognised in "Other operating expenses" (Note 7) in the consolidated statement of comprehensive income.

(b) *Acquisition of a subsidiary (Cont'd)*

Assets acquired and liabilities assumed (cont'd)

The deferred tax liabilities assumed mainly comprises the tax effect of the accelerated depreciation for tax purposes of tangible and intangible assets.

The goodwill of \$921,000 comprises the value of expected synergies arising from the acquisition and expertise for furtherance of the Group's hygiene standards which is not separately recognised. The expected synergies and expertise acquired does not meet the criteria for recognition as an intangible asset under SFRS(I) 1-38. The goodwill recognised is not expected to be deductible for income tax purposes. Goodwill is allocated entirely to Klovex.

The Company issued 1,000,000 ordinary shares as consideration for the 60% interest in Klovex. The fair value of the shares is calculated with reference to the quoted price of the shares of the Company at the date of acquisition, which was \$0.31 per share. The fair value of the consideration given was therefore \$310,000.

From the acquisition date, the acquired subsidiary has contributed \$1,607,000 of revenue and loss before tax of \$78,000 to the Group's profit after tax for the financial year. If the acquisition had taken place at the beginning of the financial year, the contribution to the Group's revenue would have been \$3,189,000 and the contribution to the Group's profit after tax would have been loss before tax of \$160,000.

32. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group and the Company are exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk and liquidity risk. Management continually monitors the Group's risk management process to ensure that an appropriate balance between risk and control is achieved. It is, and has been throughout the current and previous financial year, the Group's policy that no trading in derivatives for speculative purposes shall be undertaken.

The following sections provide details regarding the Group's and the Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risks.

(a) *Credit risk*

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including cash and short-term deposits), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties.

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

The Group has determined the default event on a financial asset to be when the counterparty fails to make contractual payments, within 90 days when they fall due, which are derived based on the Group's historical information.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 30 September 2021

32. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

(a) *Credit risk (cont'd)*

To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the asset as at reporting date with the risk of default as at the date of initial recognition. The Group considers available reasonable and supportive forwarding-looking information which includes the following indicators:

- Internal credit rating;
- External credit rating;
- Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the debtor's ability to meet its obligations;
- Actual or expected significant changes in the operating results of the debtor;
- Significant increases in credit risk on other financial instruments of the same debtor;
- Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements; and
- Significant changes in the expected performance and behaviour of the debtor, including changes in the payment status of debtors in the group and changes in the operating results of the debtor.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making contractual payment.

The Group determined that its financial assets are credit-impaired when:

- There is significant difficulty of the issuer or the debtor;
- A breach of contract, such as a default or past due event;
- It is becoming probable that the debtor will enter bankruptcy or other financial reorganisation; and
- There is a disappearance of an active market for that financial asset because of financial difficulty.

The Group categorises a loan or receivable for potential write-off when a debtor fails to make contractual payments more than 120 days past due. Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. Where loans and receivables have been written off, the company continues to engage enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

The following are credit risk management practices and quantitative and qualitative information about amounts arising from expected credit losses for each class of financial assets.

32. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D)

(a) *Credit risk (cont'd)*

Trade receivables

For trade receivables, the Group has applied the simplified approach in SFRS(I) 9 to measure the loss allowance at lifetime ECL. The Group determines the ECL by using a provisional matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Accordingly, the credit risk profile of trade receivables is presented based on their past due status in terms of the provision matrix. ECL on trade receivables is insignificant.

Exposure to credit risk

At the end of the reporting period, the Group's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statements of financial position.

Credit risk concentration profile

At the end of the reporting period, the Group has no significant concentration of credit risk.

Financial assets that are neither past due nor impaired

Trade and other receivables that are neither past due nor impaired are with creditworthy debtors with good payment record with the Group. Cash and short-term deposits are placed with reputable financial institutions with high credit ratings and no history of default. They are neither past due nor impaired.

(b) *Liquidity risk*

Liquidity risk is the risk that the Group will encounter difficulty in meeting financial obligations due to shortage of funds.

To manage liquidity risk, the Group monitors its net operating cash flow and maintains an adequate level of cash and cash equivalents and secured committed funding facilities from financial institutions. In assessing the adequacy of these funding facilities, management reviews its working capital requirements regularly.
