Report on the Audit of the Financial Statements

Disclaimer of Opinion

We were engaged to audit the financial statements of Nam Cheong Limited (the “Company”) and its subsidiaries (the “Group”), which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 December 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

We do not express an opinion on the accompanying consolidated financial statements of the Group and the statement of financial position of the Company. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for Disclaimer of Opinion

Liabilities and going concern

As discussed in Note 2(e) to the financial statements, the Group recorded a net loss of RM404,324,000 (2019 – net profit of RM65,218,000) for the financial year ended 31 December 2020. In addition, as at 31 December 2020, the Group had net current liabilities and net liabilities of RM1,125,932,000 (2019 - RM104,009,000) and RM771,429,000 (2019 – RM364,220,000) respectively. The Company also had net current liabilities and net liabilities of RM776,592,000 (2019 - RM54,509,000 and RM725,974,000 respectively), as at 31 December 2020.

The financial statements have been prepared by management on a going concern basis, the validity of which is premised on a cash flows forecast of the Group prepared for at least the next 12 months from the end of the reporting period. Key assumptions made in the cash flows forecast are the Group was not exposed to any additional liabilities in respect of its suspension of the remaining ten shipbuilding contracts (the “Contracts”) awarded to the Non-Fujian Group Shipyards; and the completion of restructuring exercise in the financial year ending 31 December 2021.

As at 31 December 2020, the aggregate contract sum of the Contracts was US\$121.1 million, of which payments of US\$16.3 million had been made. Based on the contract sums and payments made by the Group, the outstanding exposure to the Non-Fujian Group Shipyards under the Contracts is approximately US\$104.8 million. An amount of US\$24.7 million had been recorded in liabilities based on contractual milestones. Management had represented that the Group had reached an understanding without a written agreement with the Non-Fujian Group Shipyards to suspend construction or delivery of the vessels, with a view to extend the delivery period or terminate the Contracts to minimise any financial exposure.

Liabilities and going concern (Cont'd)

No independently verifiable supporting evidence was available to corroborate management's representation that the balance sum of the Contracts had not been incurred and all liabilities related to the Contracts had been accounted for as at 31 December 2020. We were unable to assess the financial impact of any provision for onerous contracts and/or contingent liabilities that may arise from the default on contractual obligations.

There were no alternative audit procedures that we could perform to satisfy ourselves by alternative means concerning the Group's liabilities in respect of the work performed on the Contracts as at 31 December 2020 and potential contingent liabilities that may arise from the default on contractual obligations.

Any adjustment that would be required may have a consequential significant effect on the cash flows forecast, net liabilities of the Group as at 31 December 2020 and the profit or loss attributable to the owners for the year then ended and the related disclosures thereof in the financial statements.

On 1 October 2020, Corporate Debt Restructuring Committee of Malaysia (the "CDRC"), a committee under the purview of Bank Negara Malaysia has accepted an application by the Company's wholly owned subsidiary, Nam Cheong Dockyard Sdn Bhd ("NCD"), for the CDRC's assistance to mediate between NCD and its financial creditors. In November 2020, management has submitted the restructuring proposal to CDRC. The Group is currently in discussions with the lenders to review its options of restructuring its debts.

Given these circumstances, which are more fully described in Note 2(e), there were no practicable audit procedures that we could perform to form an opinion on whether management has considered all relevant events and conditions when making assessment on the Group's and the Company's ability to continue as going concern.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors are responsible for overseeing the Group's financial reporting process.

2(e) Going concern (cont'd)

Admission into the Corporate Debt Restructuring Committee of Malaysia (the “CDRC”)

On 1 October 2020, the CDRC, a committee under the purview of Bank Negara Malaysia has accepted an application by the Company's wholly owned subsidiary, NCD, for the CDRC's assistance to mediate between NCD and its financial creditors. In November 2020, management has submitted the restructuring proposal to CRDC. The Group is currently in discussions with the lenders to review its options of restructuring its debts.

Assessment of the Group's and the Company's ability to continue as going concern

For the financial year ended 31 December 2020, the Group recorded a net loss of RM404,324,000 (2019 - net profit of RM65,218,000) for the financial year ended 31 December 2020. In addition, as at 31 December 2020, the Group had net current liabilities and net liabilities of RM1,125,932,000 (2019 - RM104,009,000) and RM771,429,000 (2019 - RM364,220,000) respectively. The Company also had net current liabilities and net liabilities of RM776,592,000 (2019 - RM54,509,000 and RM725,974,000 respectively), as at 31 December 2020.

In assessing whether the Group and the Company can meet their debt obligations for at least 12 months from the end of the reporting period, management has prepared cash flows forecast for the financial year ending 31 December 2021. The key assumptions include (i) sufficient cash inflows are generated by the Group's chartering segment, based on reasonable expectations of daily charter rates, vessel utilisation and low default rates by its customers, to generate sufficient operating cash inflows; (ii) no material claims from creditors, particularly those subcontracted shipyards, which the Group has yet to terminate the contracts or restructure the debts owing to such subcontracted shipyards, that are reasonably likely to have a material effect on the Group's financial conditions and operations are brought against the Group; (iii) the recovery of offshore activities in Malaysia from the disruptions caused by the COVID-19 pandemic; and (iv) completion of restructuring exercise in the financial year ending 31 December 2021.

Based on the cash flows forecast, premised on the completion of restructuring exercise and barring any further unforeseen adverse, macroeconomic and industry-wide circumstances, the directors believe that the Group and the Company will have sufficient working capital and financial resources to meet their obligations as and when they fall due for at least the next twelve months from the end of the reporting period, and are of the view that the going concern assumption is appropriate for the preparation of these financial statements. As at the date of the financial statements, the Group is not able to ascertain the full extent of the probable impact to the offshore and marine industry arising from COVID-19 pandemic and the volatility in oil prices but will continually assess as the situation develops.

If the Group and the Company were unable to continue their operational existence or their capabilities to do so were significantly impaired, for the foreseeable future, the Group and the Company may be unable to discharge their liabilities in the normal course of business, and adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which could differ significantly from the amounts at which they are currently recorded in the statements of financial position. In addition, the Group and the Company may need to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. No such adjustments have been made to the financial statements.
