Notes to the condensed consolidated financial statements 31 December 2021

1. General

The company is incorporated in Singapore with limited liability. The condensed consolidated financial statements for the second half year ended 31 December 2021 ("2H2021") and full year ended 31 December 2021 ("12M2021") are presented in Singapore dollar and they cover the company and the subsidiaries ("collectively, the group")

The principal activities of the company are those of an investment holding company and providing management and administrative support to its subsidiaries. The company is listed on the Singapore Exchange Securities Trading Limited. The group is a diversified group of companies providing solutions in areas of automation and systems integration; maintenance, repair, overhaul and trading; precision engineering; scaffolding; insulation services; petrochemical and environmental engineering services; and cleanroom, air and water engineering services.

2. Basis of preparation of the financial statements

The condensed consolidated financial statements for 2H2021 and 12M2021 have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the group's financial position and performance of the Group since the last financial statements for the period ended 30 June 2021.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1. The condensed consolidated financial statements are presented in Singapore dollar which is the company's functional currency.

2.1 New and amended standards adopted by group

A number of amendments to Standards have become applicable for the current reporting period. The group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

2.2 Use of judgements and estimates

In preparing the condensed consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2020.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

3. Seasonal operations

The group's businesses are not affected significantly by seasonal or cyclical factors during the financial period/year.

4. Financial information by operating segments

4A. Information about reportable segment profit or loss, assets and liabilities

Disclosure of information about operating segments, products and services, the geographical areas, and the major customers are made as required by the financial reporting standard on operating segments. This disclosure standard has no impact on the reported financial performance or financial position of the reporting entity.

For management purposes the reporting entity is organised into the following major strategic operating segments that offer different products and services: (1) Project services, (2) Maintenance services and (3) Others. The results of all other activities, mainly investment holding which are not included within the two primary segments, are included in the "Others" segment. Such a structural organisation is determined by the nature of risks and returns associated with each business segment and it defines the management structure as well as the internal reporting system. It represents the basis on which the management reports the primary segment information that is available and that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing the performance. They are managed separately because each business requires different strategies.

The segments and the types of products and services are as follows:

- (1) The Project services segment includes projects that requires engineering, design, procurement, construction, machining, scaffolding works, insulation services and passive fireproofing services.
- (2) The Maintenance services segment includes maintenance and repair services, including trading and supply of material, spare parts and components.
- (3) The Others segment relates to other revenue streams.

Inter-segment sales are measured on the basis that the entity actually used to price the transfers. Internal transfer pricing policies of the reporting entity are as far as practicable based on market prices. The accounting policies of the operating segments are the same as those described in the significant accounting policies. The management reporting system evaluates performances based on a number of factors. However, the primary measurement to evaluate segment's operating results is the earnings from operations before depreciation and amortisation, interests and income taxes (called "EBITDA").

The following tables illustrate the information about the reportable segment profit or loss, assets and liabilities.

Revenues are attributed to countries on the basis of the customer's location, irrespective of the origin of the goods and services. The non-current assets are analysed by the geographical area in which the assets are located. The non-current assets exclude any financial instruments and deferred tax assets.

4F. Other material items and reconciliations

Capital expenditures of \$723,000 (31 December 2020: \$876,000) are recognised in respect of property, plant and equipment. Segment information is not available for capital expenditures as the information is not available and the cost to allocate to the segment would be excessive.

8. Income tax expense

The group calculates the period/year income tax expense using the tax rate that would be applicable to the expected total annual earnings. The major components of income tax expense in the condensed consolidated statement of profit or loss are:

| | | <u>Group</u> | | | |
|--------------------------|--------|--------------|---------|---------|--|
| | 2H2021 | 2H2020 | 12M2021 | 12M2020 | |

9. Earnings per share

The following table illustrates the numerators and denominators used to calculate basic and diluted earnings per share of no par value:

| | <u>Group</u> | | | |
|--|--------------|---------|---------|---------|
| | 2H2021 | 2H2020 | 12M2021 | 12M2020 |
| | \$'000 | \$'000 | \$'000 | \$'000 |
| Numerators: earnings attributable to equity: | | | | |
| Profit attributable to equity holders | 6,079 | 3,612 | 13,876 | 5,482 |
| Denominators: weighted average number of equity shares Basic and diluted | 388,000 | 389,677 | 388,179 | 390,301 |
| Dasic and unuted | 300,000 | 309,077 | 300,179 | 390,301 |

The weighted average number of ordinary shares refers to shares in issue outstanding during the reporting period/year.

The basic amount per share ratio is based on the weighted average number of ordinary shares outstanding during each reporting year. It is after the neutralisation by the treasury shares.

Both basic and diluted earnings per share are the same as there are no diluted ordinary share equivalents outstanding during the reporting years.

10. Dividends on equity shares

|--|------------------|------------------|-------------------|-------------------|
| | Rate pe | <u>r share</u> | | |

| paid | 0.200 | | 776 | |
| Total dividends paid in the year | 1.342 | 0.606 | 5,208 | 2,364 |

11. Property, plant and equipment

During the year ended 31 December 2021, the group acquired assets amounting to \$723,000 (31 December 2020: \$876,000) and disposed of assets with net book value amounting to \$17,000 (31 December 2020: \$247,000).

12. Goodwill

| <u>31/12/2021</u> | 31/12/2020 |
|---|------------|
| | <u> </u> |
| \$'000 | \$'000 |
| Cost: | |
| At beginning and end of the year 29,552 | 29,552 |

Goodwill is allocated to cash-generating units for the purpose of impairment testing. Each of those cash-generating units represents the group's investment by each subsidiary as follows:

| <u>Group</u> | | |
|--------------|---|--|
| 31/12/2021 | 31/12/2020 | |
| \$'000 | \$'000 | |
| | | |
| 12,292 | 12,292 | |
| 10,159 | 10,159 | |
| 7,101 | 7,101 | |
| 29,552 | 29,552 | |
| | 31/12/2021 \$'000 12,292 10,159 7,101 | |

The goodwill was tested for impairment at the end of the reporting year 31 December 2021. No impairment allowance was required because the carrying amounts of all cash-generating units were lower than their estimated recoverable amounts. The recoverable amounts of cash-generating units have been measured based on the value in use method. The value in use was measured by management. The value in use is a recurring fair value measurement (Level 3).

The quantitative information about the value in use measurement using significant unobservable inputs for the cash-generating unit ("CGU") are consistent with those used for the measurement last performed and are as follows:

| | ' | Grou | р |
|----|---|------------|------------|
| | | 31/12/2021 | 31/12/2020 |
| | Valuation technique and Unobservable inputs <u>Discounted cash flow method:</u> | | |
| 1. | Estimated discount rates using pre-tax rates that reflect current market assessments at the risks specific to the CGUs. | | |
| | Multiheight Scaffolding Pte Ltd | 13% | 13% |
| | Austin Energy (Asia) Pte Ltd | 13% | 15% |
| | Ensure Engineering Pte Ltd | 13% | 13% |
| 2. | Cash flow forecasts derived from the most recent financial budgets and plans approved by management. | 5 years | 5 years |
| 3. | Growth rates based on industry growth forecasts and not exceeding the average long-term growth rate for the relevant markets. | 1.4% | 1.4% |

12. Goodwill (cont'd)

Actual outcomes could vary from these estimates. If the revised estimated revenue had been 10% less favourable than management's estimates, if the revised estimated gross margin had been 10% less favourable than management's estimates or if the revised estimated pre-tax discount rate applied to the discounted cash flows had been 1 percent point higher than management's estimates, there would not be a need to impair the carrying amount of goodwill.

Management's calculation of value in use took into account projects on hand and the effect of the projects that were delayed due to Covid-19.

13. Trade and other receivables (cont'd)

The expected credit losses (ECL) on the above trade receivables are based on the simplified approach to measuring expected credit losses (ECL) which uses a lifetime ECL allowance approach for all trade receivables recognised from initial recognition of these assets. These assets are grouped based on shared credit risk characteristics and the days past due for measuring the ECL. The allowance matrix is based on the historical observed default rates (over a period of 36 months) over the expected life of the trade receivables and is adjusted for forward-looking estimates including the impact of the Covid-19 pandemic. At every reporting date the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

There are no collateral held as security and other credit enhancements for the trade receivables.

As part of the process of setting customer credit limits, different credit terms are used. The average credit period generally granted to trade receivable customers is about 30 to 90 days (2020: 30 to 90 days). But some customers take a longer period to settle the amounts.

Concentration of trade receivable customers as at the end of reporting year:

The ordinary shares of no par value are fully paid, carry one vote each and have no right to fixed income. The company is not subject to any externally imposed capital requirements.

(a) Pursuant to the share purchase mandate approved at the extraordinary general meeting on 29 April 2015 and renewed at the annual general meeting on 26 April 2021. During the reporting year, the company acquired 900,000 ordinary shares (31 December 2020: 3,003,500 ordinary shares) on the Singapore Stock Exchange and held as treasury shares. The total is 12,000,000 (31 December 2020: 11,100,000) treasury shares. There is no sales, transfers, disposal, cancellation and/or use of treasury shares as at the end of the year.

The subsidiaries in the People's Republic of China are required by local regulation to appropriate 10% of the profits each year to a non-distributable statutory reserve. Contribution to this reserve is no longer mandatory when the reserve reaches 50% of the registered share capital. The use of the funds in the non-distributable statutory reserve is subject to approval by the relevant authorities in the People's Republic of China.

Certain products are covered by product warranty plans of varying periods. If the customer has the option to purchase a warranty separately or is negotiated separately, the warranty is accounted as a performance obligation and a portion of the transaction price is allocated to that performance obligation and recognised as revenue over the period the warranty services are provided. The warranty obligations are affected by actual product failure rates and by material usage and service delivery costs incurred in correcting a product failure.

19A. Loans and borrowings (secured)

The bank agreements for certain of the bank loans and other credit facilities provide among other matters for the following:

- 1. Corporate guarantee from the company.
- 2. Legal mortgage over the leasehold properties.
- 3. Subject to certain financial covenants.
- 4. The bank loans comprise:
 - a. Short term borrowings with an average maturity period of 1 to 3 months and are settled at the end of maturity period.
 - b. Loan repayable in 16 semi-annual instalments of \$1,000,000 from June 2017.
 - c. Loan repayable in 30 quarterly instalments of \$200,000 from June 2018. Although the loan is for a period of 7.5 years from June 2018, it has been classified as "current" because the entity does not have an unconditional right to defer settlement of the liability for at least twelve months after the end of the reporting year.
 - d. Loan repayable over 2 years from September 2020 with quarterly instalments of \$633,467. The weighted average interest rate is 1.35% per annum.

OTHER INFORMATION

1. Review

The condensed consolidated financial statements for 2H2021 and year ended 31 December 2021 and certain explanatory notes have not been audited or reviewed.

2. Review of performance of the group

Review of performance for 2H2021 vs 2H2020

Revenue

The group's revenue increased by approximately \$6.1 million or 13%, from approximately \$47.8 million in 2H2020 to approximately \$53.9 million in 2H2021. This increase was attributable to the resumption of business activities to pre-Covid level and a marked pick-up in momentum for Maintenance Services.

| Business segment | 2H2021 | 2H2020 | Change | Change |
|----------------------|--------|--------|--------|--------|
| | \$'000 | \$'000 | \$'000 | % |
| Project services | 24,722 | 24,194 | 528 | 2 |
| Maintenance services | 29,171 | 23,585 | 5,586 | 24 |
| Total | 53,893 | 47,779 | 6,114 | 13 |

Gross profit and gross profit margin

Gross profit for 2H2021 increased by approximately \$3.1 million or 29% from \$10.7 million in 2H2020 to approximately \$13.8 million in 2H2021. Gross profit margin increased from 22.5% in 2H2020 to approximately 25.6% in 2H2021 mainly due to higher revenue from the recovery of business activities to pre-Covid level. Excluding the government rebates and grants such as jobs support scheme and foreign workers levy rebate, the gross profit margins were 22.7% for 2H2021 and 17.3% for 2H2020.

Other income and gains

Other income and gains decreased approximately \$2.3 million or 75% from approximately \$3.1 million in 2H2020 to \$0.8 million in 2H2021 mainly due to absence of other payables to exshareholders of a subsidiary written back and lower government grant.

Distribution costs

Distribution costs remained constant at approximately \$0.3 million.

Administrative expenses

Administrative expenses decreased approximately \$0.5 million or 6% from approximately \$7.8 million to \$7.3 million mainly due to cost savings from restructuring of certain business units.

Finance costs

Interest expenses decreased \$0.1 million or 18% from approximately \$0.4 million to \$0.3 million mainly due to lower interest rates during the period under review.

Other losses

Other losses decreased approximately \$1.3 million or 82% from approximately \$1.6 million in 2H2020 to \$0.3 million in 2H2021 mainly due to lower foreign exchange adjustment loss.

Income tax expenses

Effective income tax rates were at approximately 4% for 2H2021 and 6% for 2H2020. The effective tax rate is lower than the statutory rate of 17% mainly due to the utilization of merger & acquisition allowance, unutilised capital allowances and tax losses carried forward.

2. Review of performance of the group (cont'd)

Review of performance for 12M2021 vs 12M2020

Revenue

The group's revenue increased by approximately \$22.3 million or 28%, from approximately \$80.8 million in 12M2020 to approximately \$103.1 million in 12M2021. This increase was attributable to the resumption of business activities to pre-Covid level and a marked pick-up in momentum for both the Project and Maintenance Services.

| Business segment | 12M2021 | 12M2020 | Change | Change |
|----------------------|---------|---------|--------|--------|
| | \$'000 | \$'000 | \$'000 | % |

| Maintenance services | 54,693 | 41,451 | 13,242 | 32 |
| Total | 103,065 | 80,794 | 22,271 | 28 |

Gross profit and gross profit margin

Gross profit for 12M2021 increased by approximately \$9.8 million or 55% from \$18.0 million in 12M2020 to approximately \$27.8 million in 12M2021. Gross profit margin increased from 22.2% in 12M2020 to approximately 27.0% in 12M2021 mainly due to higher revenue from the recovery of business activities to pre-Covid level. Excluding the government rebates and grants such as jobs support scheme and foreign workers levy rebate, the gross profit margins were 24.5% for 12M2021 and 15.8% for 12M2020.

Other income and gains

Other income and gains decreased approximately \$2.2 million or 57% from approximately \$3.8 million in 12M2020 to \$1.6 million in 12M2021 mainly due to absence of other payables to exshareholders of a subsidiary written back and lower government grant.

Distribution costs

Distribution costs increased approximately \$0.1 million or 7% from approximately \$0.7 million to \$0.8 million mainly due to more business activities.

Administrative expenses

Administrative expenses decreased approximately \$0.4 million or 3% from approximately \$13.7 million to \$13.3 million mainly due to cost savings from restructuring of certain business units and lower depreciation expense.

Finance costs

Interest expenses decreased \$0.5 million or 44% from approximately \$1.0 million to \$0.6 million mainly due to lower interest rates during the period under review.

Other losses

Other losses decreased approximately \$0.1 million or 31% from approximately \$0.4 million in 12M2020 to \$0.3 million in 12M2021 mainly due to higher allowance for impairment on inventories.

Income tax expenses

Effective income tax rates were at approximately 4% for 12M2021 and 7% for 12M2020. The effective tax rate is lower than the statutory rate of 17% mainly due to the utilization of merger & acquisition allowance, unutilised capital allowances and tax losses carried forward.

<u>Statement of Financial Position Review (as at 31 December 2021 compared to 31 December 2020)</u>

Non-current assets

Non-current asset decreased approximately \$2.8 million or 4% from approximately \$68.0 million as at 31 December 2020 to approximately \$65.2 million as at 31 December 2021. The decrease was mainly due to depreciation charge of property, plant and equipment and right-of-use assets and amortisation expense of intangible asset during the period under review. This decrease was offset by an increase of deferred tax asset of \$0.4 million.

Current assets

Current asset increased approximately \$27.0 million or 27% from approximately \$100.1 million as at 31 December 2020 to \$127.1 million as at 31 December 2021. This increase was mainly due to higher inventories of \$3.3 million, trade and other receivables of \$3.1 million, unbilled revenue and contract assets of \$1.9 million, advance to suppliers of \$0.7 million and cash and cash equivalents of \$17.8 million. These increases were attributable to the resumption of business activities to pre-Covid level and the increase in cash and cash equivalents was from the drawdown of the loans and borrowings.

Equity

Our capital and reserves increased approximately \$8.8 million or 10% as at 31 December 2021. The increase was due to retention of net profit from 12M2021 of approximately \$13.9 million. This was offset by dividend payment of \$5.2 million and purchase of treasury shares of \$0.2 million.

Non-current liabilities

Non-current liabilities decreased by approximately \$3.5 million or 29% from approximately \$12.2 million as at 31 December 2020 to approximately \$8.7 million as at 31 December 2021. The decrease was mainly due to repayment of loans and borrowings of approximately \$3.3 million.

Current liabilities

Current liabilities increased approximately \$18.9 million or 28%, from approximately \$67.0 million as at 31 December 2020 to \$85.9 million as at 31 December 2021. The increase was due to more loans and borrowings of \$17.6 million, trade payables of \$0.8 million and provisions of \$0.5 million.

Statement of Cash Flows Review

12M2021

In 12M2021, net cash generated from operating activities amounted to approximately \$9.9 million. We generated net cash of approximately \$18.8 million from operating profits before working capital changes. Working capital changes cash outflow was approximately \$7.9 million. This was mainly due to increase in inventories, trade and other receivables, other assets and decrease in other non-financial liabilities. These cash outflows were offset by cash inflows due to increases in provisions and trade and other payables. Operating cash flow from operations of \$10.9 million was reduced by income tax payments of approximately \$1.0 million.

Net cash of approximately \$0.6 million was used in investing activities, mainly from the purchase of property, plant and equipment of approximately \$0.7 million. This cash outflow was offset by interest received and proceed from disposal of property, plant and equipment of approximately \$0.1 million.

Net cash of approximately \$8.1 million was from financing activities. This was due to new loans and borrowings of \$18.5 million. These new loan increase was offset by dividend payment of approximately \$5.2 million, repayment of loans and borrowings and interest payment of approximately \$4.6 million, purchase of treasury shares of \$0.2 million and lease liabilities – principal and interest portion paid of \$0.4 million.

3. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

There is no variance between the prospect statement previously announced and the actual results of the current financial reporting period.

4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next operating period and the next 12 months

Our group has outstanding orders amounting to approximately \$166 million comprising \$60.4 million from Projects Services segment and \$105.6 million from Maintenance Services segment as at 31 December 2021.

Certain maintenance contracts are based on unit rates and do not have a contract value upfront. These contract values are estimated based on historical revenue trends and included in our order book reporting.

The deliveries for these orders will spread within the next 36 months and as such, we expect to derive sustained revenue streams from these orders up to FY2024. These confirmed orders are however, subject to possible cancellation, deferral, rescheduling or variations by customers.

The group remains positive over the long-term prospects in the marine, offshore oil and gas industries, petrochemical sectors, pharmaceutical, infrastructure and semiconductor sectors.

The recent increase in crude oil prices has added some market optimism in the sectors we operate in. However, the labour crunch due to the limited pool of skilled workers in Singapore pose certain pressures on cost.

With the expected recovery of business activities to pre-Covid levels, the group is optimistic with the contract wins secured to date, the prudent cost and risk management initiatives undertaken, the acquisition of Starburst Holdings Limited and opportunities for further M&A, the group will continue to deliver value to shareholders.

5. Dividends

In appreciation of the continual support and faith of the group's shareholders, along with the group's improved profitability and strong cashflow, the Board of Directors has proposed a final dividend of 0.608 cents and a special dividend of 0.152 cents.

Total dividend payout for 2H2021 and 12M2021 are 0.76 and 1.74 cents per ordinary share to all shareholders. This is an increase of about 2.1 times over 2H2020 dividend payout of 0.362 cents per ordinary share and 3.2 times over 12M2020 dividend payout of 0.549 cents per ordinary share.
