### **UPDATE ON THE COAL-MINE METHANE (CMM) POWER PLANT IN SHANXI**

---

The board of directors (the "**Board**" or the "**Directors**") of the Company (together with its subsidiaries, the "**Group**") refers to the coal mine methane power generation project undertaken by the Company's wholly-owned subsidiary, Shanxi Weineng Coal Mine Gas Development Co., Ltd. ("**SXWN**"). As previously announced on 5 March 2017, the power plant had suspended its operations due to the ongoing upgrading works and unstable gas supply from Shanxi Dongsheng Coal Mine Group Co., Ltd. ("**SDDS**").

The Board is pleased to announce that the Group has resumed its operations to supply electricity to Shanxi power grid in January 2018.

The Board is further pleased to announce that SXWN has also obtained approval from the relevant authority to increase the electricity supply capacity to 20MW. Work is in progress to upgrade the existing power plant. Further announcements will be made by the Company as and when appropriate to keep its shareholders updated of any material developments relating to the above.

**By Order of the Board**
