2 Basis of preparation

The condensed interim financial statements for the half year ended 31 December 2024 have been prepared in accordance with Singapore Financial Reporting Standards (International) 34 *Interim Financial Reporting* (SFRS(I) 1-34) and should be read in conjunction with the Group’s audited financial statements as at and for the year ended 30 June 2024. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance of the Group since the last annual financial statements for the year ended 30 June 2024.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the amendments to standards from 1 July 2024:

- Amendments to SFRS(I) 1: *Classification of Liabilities as Current or Non-Current and Non-current liabilities with Covenants*
- Amendments to SFRS(I) 1-7 and SFRS(I) 7: *Supplier Finance Arrangements*
- Amendments to SFRS(I) 16: *Lease Liability in a Sale and Leaseback*

2 Basis of preparation (continued)

Change in presentation of statement of comprehensive income

The presentation of revenue and expenses has been revised in FY2025 such that transaction-based expenses, which primarily include processing and royalties, are netted - off against operating revenue to show net revenue. This better reflects the underlying economics of the Group's transaction-based businesses.

3 Use of judgments and estimates

The preparation of the financial statements in conformity with SFRS(I) requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Group's financial statements as at and for the year ended 30 June 2024.

Assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next interim period pertain to impairment assessment of goodwill and intangible assets, and measurement of the fair value of financial instruments with significant unobservable inputs.

3 Use of judgments and estimates (continued)

Impairment assessment of goodwill

Goodwill arising from the acquisitions of Energy Market Company Pte Ltd (“EMC”), the Baltic Exchange Limited (“BEL”), BidFX Systems Ltd (“BidFX”), Scientific Beta Pte. Ltd. (“SB”) and the MaxxTrader (“MT”) trading platform business are allocated to the each of the Group’s cash generating units (“CGU”) or group of CGUs that are expected to benefit from synergies of the business combination.

Management has performed an assessment of the impairment indicators as of 31 December 2024 and determined that there is no objective evidence or indication that the goodwill is impaired. Accordingly, no impairment loss has been recognised as at 31 December 2024.

Fair value of financial instruments

The Group holds certain financial instruments for which no quoted prices are available, and which may have little or no observable market inputs. For these financial instruments, the determination of fair value requires subjective assessment and management judgment which takes into consideration the liquidity, pricing assumptions, current economic and competitive environment and the risks affecting the specific financial instrument. In such circumstances, valuation is determined based on management’s judgment related to the assumptions that market participants would use in pricing assets or liabilities (Note 18).

Impairment assessment of intangible assets

The intangible assets are the right to operate the Singapore electricity spot market arising from the acquisition of EMC, trade name arising from the acquisition of BEL and technical know-how and customer relationships, arising from the acquisitions of SB, BidFX and MT trading platform business.

Intangible assets are valued on acquisition using appropriate methodology and amortised over the estimated useful lives. The valuation methodology employed includes: (a) discounted cash flow model and management's best estimate of future cash flows, long term growth rate and discount rate; (b) relief-from-royalty method for technical know-how; and (c) multi-period excess earnings method for customer relationships.

4 Seasonal operations

The Group’s businesses are not affected significantly by seasonal or cyclical factors during the financial period.

Fair value measurements

The following table presents assets and liabilities measured at fair value and classified by level of the following fair value measurement hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (b) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

No transfers were made between Level 1, 2 and 3 for the Group during the half year ended 31 December 2024 and the financial year ended 30 June 2024.

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in Level 1.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Quoted market prices or dealer quotes for similar instruments are used to estimate fair value for debt instruments. The fair value of currency forward contracts is determined using quoted forward currency rates at the balance sheet date. Unquoted equity securities classified as financial assets, at FVOCI, and which are valued using latest transacted price are classified as Level 2. These comprise derivatives financial instruments and unquoted equity securities.

18 Fair value measurements - Group (continued)

Where a valuation technique for financial instruments is based on significant unobservable inputs, such instruments are classified as Level 3. The following table presents the valuation techniques and key inputs that were used to determine the fair value of financial instruments categorised under Level 3.

Description	Fair value \$'000	Valuation techniques	Unobservable inputs	Range of unobservable inputs
Financial assets, at FVPL (unquoted investment in a fund)	439,902 (30 June 2024: 428,742)	Net Asset Value	Net Asset Value	Not applicable
Financial assets, at FVOCI (unquoted equity securities)	201,560 (30 June 2024: 175,991)	Implied market multiple of public comparables on revenue forecast	Forecast of revenue	Not applicable
Forward liability to acquire non-controlling interests	8,699 (30 June 2024: 9,146)	Multiples of forecast on Earnings before interest, tax and amortisation ("EBITA")	Forecast of EBITA	Not applicable

For financial assets, at FVOCI and at FVPL, increases (decreases) in the above unobservable inputs, in isolation, would result in a higher (lower) fair value measurement. In respect of the other financial instruments, management considers that any reasonably possible changes to the unobservable inputs will not result in a significant financial impact.

The following table presents the reconciliation of financial instruments measured at fair value based on significant unobservable inputs (Level 3).

Scope of review

We conducted our review in accordance with Singapore Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of Interim Financial Statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Financial Statements is not prepared, in all material respects, in accordance with SFRS(I) 1-34 *Interim Financial Reporting*.

Restriction on use

Our report is provided in accordance with the terms of our engagement. Our work was undertaken so that we might report to you on the Interim Financial Statements for the purpose of assisting the Company to meet the requirements of paragraph 3 of Appendix 7.2 of the Singapore Exchange Limited Listing Manual and for no other purpose.
