**KIT announced special distribution of 2.33 cents per Unit on successful value creation;
Total 9M 2023 DPU increased by 82.5% year-on-year to 5.23 cents**

Results Highlights

- KIT recorded a significant 93.2% increase in Distributable Income for 9M 2023, supported by new acquisitions and successful value creation strategy
- Crystallised part of the value created, generating capital optimisation of \$273m driven by higher EBITDA from Ixom and City Energy
- KIT announced special distribution of 2.33 cents per Unit to Unitholders, bringing total 9M 2023 DPU to 5.23 cents per Unit, up 82.5% from 2.865 cents¹ for 9M 2022
- Continue to replicate value creation strategy to support DPU growth: Dedicated portfolio management and optimisation team to focus on improving asset performance
- KIT in a position of strength and resilience:
 - Well-capitalised for growth: 36.8% net gearing level provides \$825m in debt headroom²
 - Well-insulated from inflation: More than 90% of portfolio with either cost pass through mechanisms, CPI-linked escalations, or businesses with leading position and price-setting capabilities

Financial Performance

Keppel Infrastructure Trust (KIT) delivered another strong set of performance, reporting Distributable Income of \$266.1 million for 9M 2023, a significant 93.2% year-on-year (y-o-y) increase.

Special distribution supported by successful value creation strategy

The Trust delivered \$273m in capital optimisation from Ixom and City Energy, driven by higher EBITDA and business growth achieved over time, of which \$142 million (52%) were utilised to partially fund FY 2022 acquisitions, and the remaining \$131 million (48%) to be paid out as special distribution to Unitholders.

KIT announced a special distribution of 2.33 cents per Unit to Unitholders, bringing the total 9M 2023 DPU to 5.23 cents per Unit, up 82.5% compared to 2.865 cents for 9M 2022. Without the special distributions, KIT's DPU would increase by 1.2% to 0.97 cents, totalling 2.90 cents for 9M 2023.

KIT will continue to replicate its value creation strategy to support DPU growth and has a dedicated portfolio management and optimisation team that will focus on improving asset performance, business optimisation and realising greater synergies.

Segmental Performance

The KIT portfolio delivered a 14.7% y-o-y growth in Asset Distributable Income from its ongoing business operations to \$210.3 million for 9M 2023. This is supported by higher contributions from City Energy and the new acquisitions completed in FY 2022, which contributed \$67 million or 31.9% of Asset Distributable Income for 9M 2023. A segmental breakdown of KIT's financial performance is tabled below:

¹ 9M 2022 DPU of 2.865 cents per Unit derived by prorating FY 2022's total DPU of 3.82 cents per Unit.

² Up to 45% (internal cap) gearing level; Unlike REITs, there are no restrictions on gearing for Business Trusts.

Segmental Performance	Distributable Income		
	9M 2023 \$ '000	9M 2022 \$ '000	Change (%)
Energy Transition	106,998	65,245	64.0
Environmental Services	57,661	55,955	3.0

Distributable Income	266,070	137,682	93.2

Operational Performance

In 9M 2023, KIT continued to deliver high availability and strong operational performance across its businesses and assets. The Trust is largely insulated from higher energy prices and inflation with the cost passed through mechanism and availability-based model.

Energy Transition

In October 2023, City Energy completed the acquisition of Tan Soon Huah's (TSH) Liquefied Petroleum Gas (LPG) business. As the second largest LPG cylinder distributor in Singapore, the acquisition of TSH will allow City Energy to expand its consumer network.

To accelerate the adoption of clean hydrogen as a viable energy source, City Energy and Gentari signed a joint feasibility study agreement to construct a pipeline from Malaysia to Singapore for the import of hydrogen into the Republic. Hydrogen is the largest component in town gas produced at City Energy's Senoko Gasworks plant, making City Energy one of the largest last-mile distributors of hydrogen in Singapore. Any pipeline to be established by both parties will supply hydrogen into the Senoko Gasworks plant, providing sustainable energy to households and businesses in support of Singapore's efforts to reduce emissions and address climate change. City Energy has also launched its solar solutions to promote greener living and expand its products offerings. In terms of operations, City Energy achieved 100% plant availability in 9M 2023 and continues to maintain a sizeable customer base of more than 897,000, supported by the continued recovery of the Commercial and Industrial sector.

In 9M 2023, the wind farms in Europe continued to deliver stable distributions. In Norway and Sweden, maintenance works were done in 3Q 2023 at the Lista and Högaliden wind farms in anticipation of the high wind season in winter. Wind availability at Borkum Riffgrund 2, the German offshore wind farm, remained strong. BKR2 was granted additional grid capacity of 26 MW, increasing to 491 MW, and is evaluating equipment upgrade plans to optimise its power capacity. The proposed investment in Fäbodliden II, an onshore wind farm in Sweden, is on track for completion in 4Q 2023, and was funded by internally generated cash.

KIT's investment in the Aramco Gas Pipelines Company delivered stable distributions, supported by continued gas demand which is driven by the Kingdom of Saudi Arabia's economic and population growth. In Singapore, the Keppel Merlimau Cogen plant achieved 100% contractual availability.

³ Comprises Trust expenses and distribution paid/payable to perpetual securities holders, management fees and financing costs. The higher costs were due to higher management fees from the capital optimisation of \$131.2m in the Group's 9M 2023 Distributable Income, the issuance of the Series 4 Medium Term Notes on 5 May 2022 and draw down of equity bridge loans to fund the acquisitions of EMK and BKR2 in 2H 2022.

⁴ From Ixom; out of the \$273m capital optimisation proceeds.

Environmental Services

In the Environmental Services segment, operations at the Senoko Waste-to-Energy (WTE) Plant, Keppel Seghers Tuas WTE Plant, Keppel Seghers Ulu Pandan NEWater Plant and SingSpring Desalination Plant remained stable and fulfilled their contractual obligations in 9M 2023.

Eco Management Korea (EMK) maintained full utilisation of its incineration business and secured new contracts for its landfill business. As part of its growth plans following the completion of the EMK acquisition in October 2022, the Trustee-Manager continues to seek growth opportunities through accretive bolt-on acquisitions and ways to optimise the EMK business for scale and greater efficiency.

Distribution & Storage

Ixom saw strong demand from its manufactured chemicals business due to higher coagulant and chlorine volumes in Australia. Ixom also saw higher volume from its New Zealand business with good weather conditions contributing to a strong dairy season.

Philippine Coastal Storage and Pipeline Corporation (Philippine Coastal) saw higher fuel storage utilisation rate of 93.4% as at end-September 2023, a significant increase from the 66% utilisation rate when KIT acquired the business in January 2021. Philippine Coastal's construction of new tanks as part of its capacity expansion plans is underway.

Capital Management

As at end-September 2023, KIT has repaid and completed refinancing of all its loans due in 2023. The Trustee-Manager received strong interest in the Ixom refinancing exercise, securing an upsize in facilities to A\$1 billion at competitive rates to support KIT and Ixom's growth. City Energy has also secured a \$400m sustainability-linked loan. The capital optimisation of \$273m at Ixom and City Energy are supported by higher valuations on strong asset performance and growth achieved over time, demonstrating the Trustee-Manager's successful value creation strategy to deliver higher returns to Unitholders.

The Trust's net gearing stood at a healthy 36.8% level as at 30 September 2023, which provides approximately \$825 million in debt headroom to support KIT's growth ambitions, up to a 45% net gearing level. The Trustee-Manager continues to monitor risk exposures and safeguards against evolving market conditions. To mitigate against rising interest rates, approximately 78.8% of KIT's total loans are fixed and hedged as at 30 September 2023.

Commitment to ESG Excellence

Anchored by a portfolio of critical infrastructure businesses and assets, the Trust sees sustainability management as imperative to its continued success and ability to create value.

In aligning its ESG ambitions with growth plans, the Trustee-Manager established the KIT Responsible Investment Policy, which is in line with the United Nations-supported Principles for Responsible Investment, of which Keppel Capital, the shareholder of the Trustee-Manager, is a signatory.

The Trustee-Manager will continue to actively manage the Trust's portfolio and create value to achieve sustainable growth for Unitholders.

INTRODUCTION

Keppel Infrastructure Trust (“KIT” or “Trust”), was listed on 12 February 2007 on the Singapore Exchange Securities Trading Limited as CitySpring Infrastructure Trust.

The sponsor of KIT is Keppel Infrastructure Holdings Pte. Ltd., a wholly owned subsidiary of Keppel Corporation Limited (“KCL”). Keppel Infrastructure Fund Management Pte. Ltd. is the Trustee-Manager of KIT, and wholly owned by Keppel Capital Holdings Pte. Ltd., which is in turn a wholly owned subsidiary of KCL.

KIT is included in the FTSE ST Large/Mid Cap Index and FTSE ST Mid Cap Index.

KIT, being a business trust, is governed by the Business Trust Act 2004 and allowed to pay distributions to Unitholders out of its cash balance and residual cash flows, in accordance with its distribution policy.

Acquisition / Investment during the nine months ended 30 September 2023

In May 2023, Windy EU Holdings committed approximately S\$6.9 million (€4.7 million) for a 16.3% stake in Fäbodliden II, a 17MW Swedish onshore wind farm. The investment is part of the deal where KIT and Keppel Renewable Investments Pte. Ltd., together with its co-investment partners, Kommunal Landspensjonskasse and MEAG MUNICH ERGO Asset Management GmbH, have the exclusive right and obligation to co-invest in 49% of all Fred. Olsen Renewables AS eligible pipeline of onshore wind energy assets in Sweden and the United Kingdom when the assets achieve final investment decision.

Business segments

KIT’s businesses and assets are reported under three core operating segments, namely:

- Energy Transition: Includes infrastructure investments that support the transition to a low-carbon economy;
- Environmental Services: Includes infrastructure investments that provide essential services which protect human health and safeguard the environment; and
- Distribution and Storage: Includes infrastructure investments that support the circular economy and drive economic growth.

The businesses and assets as at 30 September 2023 are summarised below:

INTRODUCTION (CONT'D)

Energy Transition

City Energy is the sole supplier of town gas, with a history of over a century in Singapore. It produces and sells town gas to residential customers, as well as town gas and natural gas to commercial and industrial customers. It is also looking at providing IoT-enabled home solutions and electric vehicle charging solutions through its sub-brand, City Energy Go.

Keppel Merlimau Cogen ("KMC") Plant is a competitive gas-fired power plant in Singapore and generates stable cash flows as a function of availability.

Aramco Gas Pipelines Company ("AGPC") holds a 20-year lease and leaseback agreement commencing from 23 February 2022 over the rights to use of gas pipelines network belonging to a Saudi Arabian Oil Company ("Aramco"). KIT will receive quarterly payments backed by a minimum volume commitment from Aramco, which will retain full ownership and operational control of the gas pipelines network.

Wind Fund I AS holds an initial portfolio with 258MW of operating onshore wind farms projects and 1.2GW of pipeline potential across the Nordics and UK.

BKR2 is an investment in a 465MW operating German offshore wind farms with a remaining useful life until 2053. BKR2 is operated by Ørsted through a 20-year operation and maintenance agreement until 2038, with the operational costs largely fixed, covering scheduled maintenance.

Environmental Services

Environmental services assets typically generate stable cash flows as a function of availability. All our waste-to-energy and water plants follow industry best practices.

EMK is a leading integrated waste management services player in South Korea, offering waste treatment and recycling, as well as waste-to-energy services.

Distribution and Storage

Ixom and Philippine Coastal are businesses that provide essential products and services which are scalable and supported by their leading market positions.

Ixom is a leading industrial infrastructure business in Australia and New Zealand. It is the sole manufacturer and provider of liquefied chlorine in Australia, as well as a leading provider of manufactured caustic soda and specialty chemicals.

Ixom's revenue profile is seasonal over the course of the year which is typical for a business of this nature in Australia and New Zealand.

Philippine Coastal is the largest independent petroleum products import storage facility in the Philippines which is strategically located in the Subic Bay Freeport Zone to capture demand which accounts for more than half of the fuel oil product demand in the Philippines.

The Trustee-Manager continues to review its pipeline of potential acquisition opportunities, which, if closed, will further strengthen KIT's long term cash inflows.

CONDENSED INTERIM CONSOLIDATED STATEMENT OF PROFIT OR LOSS AND OTHER COMPREHENSIVE INCOME (CONT'D)

For the third quarter and nine months ended 30 September 2023

Note:

Please refer to Other Information Paragraph 3 on pages 31 to 33 for Review of Performance for the third quarter and nine months ended 30 September 2023.

(i) The Group revenue is contributed by:

Energy Transition

- City Energy: Produce and retail of town gas, retail of natural gas and sales of gas appliances in Singapore
- KMC: Provide availability and capacity targets of its power plant to toller. Fixed payments for meeting availability targets
- AGPC: Distribution income from the investment in AGPC

Environmental Services (Mainly fixed payment for availability of plants capacity)

- Senoko WTE Plant: Collect and treatment of solid waste to generate green energy
- Keppel Seghers Tuas WTE Plant: Collect and treatment of solid waste to generate green energy
- Keppel Seghers Ulu Pandan NEWater Plant: Collect, purify and distribute water
- SingSpring Desalination Plant: Operate a seawater desalination plant
- EMK: Provide waste treatment and recycling, as well as waste-to-energy services

Distribution and Storage

- Ixom: Supply and distribute key water treatment, industrial and speciality chemicals in Australia and New Zealand

(ii) Other income mainly comprises interest income from short-term deposits and other miscellaneous income.

(iii) Other gains/(losses) - net mainly relates to exchange differences, fair value gain/loss on derivative financial instruments and financial asset, gain/loss on disposal of property, plant and equipment and impairment loss booked during the period.

(iv) These are incidental expenses incurred for the sale of goods and provision of services, mainly as follows:

- Cost of fuel and electricity purchased by City Energy for the production and retailing of town and natural gas;
- Transportation cost incurred for the delivery of piped town gas from City Energy to its customers, and for the distribution of chemical products to Ixom's customers;
- Cost of chemicals incurred by Ixom for the manufacturing, supply and distribution to its customers;
- Cost of incineration, treatment of solid and liquid waste for EMK and disposal of waste residue from EMK's waste treatment sites; and
- Cost of operating and maintaining the plants of Environmental Services segment and KMC to achieve contractual availability.

(v) Depreciation and amortisation on property, plant and equipments and intangible assets excluding goodwill are calculated using a straight line method over their estimated useful lives. Please refer to Note 2 of the financial statements in the Group Annual Report for the financial year ended 31 December 2022 for the details on the assets useful lives.

(vi) Staff costs mainly comprises salaries and wages, employer's contribution to defined contribution plans, defined benefit plans and other short-term benefits of the employees of Ixom, City Energy and EMK.

(vii) Included in Finance costs are mainly interest expense on bank borrowings, medium term notes and notes payable to non-controlling interests, amortisation of debt-related transaction costs and transfer of cash flow hedge reserves to profit or loss.

(viii) The Trustee-Manager's fees comprise:

Previous Fee Structure prior to 1 July 2022

A base fee of S\$2.0 million per annum subject to increase each year by such percentage increase (if any) in the average of the monthly Singapore CPI for the 12 calendar months immediately preceding the beginning of each financial year over the average of the monthly Singapore CPI for 2010.

For the third quarter and nine months ended 30 September 2023

Previous Fee Structure prior to 1 July 2022 (cont'd)

Performance fee is charged at 4.5% per annum on all the cash inflows received by the Trust from subsidiaries, associates, sub-trusts, and its investments (including but not limited to dividends, distributions, interest earned, revenues earned, principal repayment of debt securities and all other receipts).

New Fee Structure effective from 1 July 2022

A base fee at a rate equal to 10% per annum of KIT Group distributable income, before accounting for the base fee and performance fee under the New Fee Structure for the relevant period.

Performance fee is charge at a rate equal to 25% per annum of the increase (if any) in Distribution Per Unit (DPU) as declared by the Trustee-Manager in respect of a financial year as compared with the DPU in respect of the preceding financial year, multiplied by the weighted average number of units in issue for such financial year.

In addition to the base fee and the performance fee, the Trustee-Manager is also entitled to receive an Acquisition Fee in respect of any investment acquired by the Trust or special purpose vehicles holding or constituted to hold the Trust's investment and a Divestment Fee in respect of any investment sold or divested by the Trust or its special purpose vehicles. The Acquisition Fee and Divestment Fee are charged at 1% (or 0.5% for an acquisition from its sponsor group) on the enterprise value of the investment acquired and 0.5% for investment divested respectively.

Breakdown of Trustee-Manager's fees are as follows:

1. GENERAL

Keppel Infrastructure Trust is a business trust registered with the Monetary Authority of Singapore and domiciled in Singapore. The Trust was constituted by a trust deed dated January 5, 2007 and is regulated by the Singapore Business Trusts Act 2004.

In 2015, the Trust changed its Trustee-Manager from CitySpring Infrastructure Management Pte. Ltd. to Keppel Infrastructure Fund Management Pte. Ltd. Under the trust deed, Keppel Infrastructure Fund Management Pte. Ltd. (the "Trustee-Manager") will hold the assets (including businesses) acquired in trust for the unitholders as the Trustee-Manager. The registered address and principal place of business of the Trustee-Manager is at 1 HarbourFront Avenue, #18-01 Keppel Bay Tower, Singapore 098632.

The Trust has been established with the principal objective of investing in infrastructure assets and providing unitholders with regular and predictable distributions and the potential for long-term capital growth.

The Trust was admitted to the Official List of the Main Board of Singapore Exchange Securities Trading Limited on February 12, 2007.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation

The condensed consolidated interim financial statements for the third quarter and nine months ended 30 September 2023 have been prepared in accordance with Singapore Financial Reporting (International) 1-34 *Interim Financial Reporting* (SFRS (I) 1-34) issued by the Accounting Standards Council Singapore. The condensed interim consolidated financial statements do not include all the disclosures required for a complete set of financial statements. Accordingly, this report should be read in conjunction with the Group's Annual Report for the financial year ended 31 December 2022, interim financial statements for the period ended 30 June 2023 and any public announcements made by Keppel Infrastructure Fund Management Pte. Ltd. (as Trustee-Manager of Keppel Infrastructure Trust) during the interim reporting period.

2.2 Changes in Accounting Policies

The accounting policies adopted by the Group in the preparation of the condensed interim consolidated financial statements are consistent with those followed in the preparation of the Group's Annual Report for the financial year ended 31 December 2022, except for the adoption of new and revised standards effective as of 1 January 2023.

The following are the new or amended SFRS(I)s, SFRS (I) Interpretations and amendments to SFRS(I)s, that are relevant to the Group:

- SFRS(I) 17 Insurance Contracts (including November 2020 and December 2021 Amendments to SFRS(I) 17)
- Amendments to SFRS(I) 1-1 and SFRS(I) Practice Statement 2: Disclosure of Accounting Policies
- Amendments to SFRS(I) 1-8: Definition of Accounting Estimates
- Amendments to SFRS(I) 1-12: Deferred Tax related to Assets and Liabilities arising from a Single Transaction
- Amendments to SFRS(I) 1-12: International Tax Reform – Pillar Two Model Rules¹

The adoption of the above new or amended SFRS(I)s, SFRS (I) Interpretations and amendments to SFRS(I)s has no material effect on the disclosures or on the amounts reported in the condensed interim consolidated financial statements of the Group.

¹ The Group has applied the exception to recognise and disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

2.3 Critical Accounting Judgments and Estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Group's consolidated financial statements as at and for the year ended 31 December 2022. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Fixed assets written off to expense – Note (iv)	(1,818)	-	(1,818)	-

- (i) The fair value gain recorded for the nine months ended 30 September 2023 was attributed to the investment in AGPC. KIT's fair valuation of its investment in AGPC increased due to the higher forecasted gas volumes driven by higher projected demand in certain energy sectors.
- (ii) The increase in foreign exchange gain was mainly due to the settlement of favorable currency hedge for AUD.
- (iii) The decrease in legal and other related professional fees was mainly due to higher legal and professional fees incurred by Ixom in relation to its bolt-on acquisitions in 9M 2022.
- (iv) This relates to the write-off of fixed assets of EMK in 9M 2023.

(i) *Assets and liabilities measured at fair value*

The following table presents the assets and liabilities measured at fair value.

Financial assets/ financial liabilities Group	Fair value as at				Valuation techniques	Fair value hierarchy	Significant unobservable input	Sensitivity of unobservable inputs to fair value
	30 September 2023		31 December 2022					
	Assets	Liabilities	Assets	Liabilities				
	S\$'000	S\$'000	S\$'000	S\$'000				
Investments in financial assets at FVTPL	363,334	-	362,560	-	Discounted cash flows which include assumptions not supported by observable market data	Level 3	(i) Gas volumes above the minimum volume commitment ("non-MVC") (ii) Growth rate of tariffs received for non-MVC volumes (iii) Discount rate	Note 2

Commodity swap	2,870	(29)	-	(22)	Note 1	Level 2	N.A	N.A

Note 1: The Group uses a variety of methods and makes assumptions that are based on market conditions existing at end of each reporting period. Techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. The models incorporate various inputs including the credit quality of counterparties and interest rate curves. The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows.

Note 2: Investment in financial assets designated as at FVTPL mainly refers to the investment in AGPC. Quarterly tariff payments received are backed by a minimum volume commitment from Aramco. The discounted cash flows include projection of gas volumes and tariff payments for the non-MVC volumes. The volume projections were provided by an external consultant based on the expected future economic outlook of Saudi Arabia, local policies, supply and demand of oil and gas etc.

Assuming all other variables were held constant, if the following significant unobservable inputs increased/decreased by 1%, the fair value of the investment in AGPC as at 30 September 2023 would increase/(decrease) by:

- (i) Non-MVC volumes: \$0.1 million / (\$0.4 million)
- (ii) Growth rate of tariffs received on non-MVC volumes from Aramco: \$20.0 million / (\$18.1 million)
- (iii) Discount rate: (\$22.4 million) / \$25.1 million

Management monitors the results of the Group based on the following operating segments for the purpose of making decisions in resource allocation and performance assessment:

- Energy Transition: production and retailing of town gas and retailing of natural gas in Singapore, tolling arrangement for the power plant in Singapore, leasing of gas pipelines and sale of electricity produced by wind turbines;
- Environmental Services: concessions in relation to the desalination plant, water treatment plant, recycling and waste-to-energy plants in Singapore and South Korea;
- Distribution & Storage: supplying and distributing water treatment chemicals, industrial and specialty chemicals and storage of petroleum products; and
- Corporate: investment holding, asset management and business development.

2. AUDITORS' REPORT

Not applicable.

3. REVIEW OF GROUP PERFORMANCE

Third quarter and nine months ended 30 September 2023

3.1 Income Statement

3.1.1 Revenue

9M 2023 group revenue of S\$1,545.4 million was 6.0% higher than 9M 2022, largely driven by higher contributions from City Energy and AGPC, coupled with the contribution of revenue from EMK, which was acquired in October 2022, in 9M 2023.

3Q 2023 group revenue of S\$481.8 million was 5.8% lower than 3Q 2022, mainly attributed to lower revenue from Ixom due to lower contract manufacturing volumes and weaker AUD exchange rate used to translate Ixom's AUD denominated revenue.

9M 2023 revenue from the Energy Transition segment was S\$41.6 million higher than the corresponding period last year. This was due to increased distributions from AGPC and higher gas sales from City Energy. KMC achieved 100.0% plant availability for 9M 2023 as compared to 97.7% for 9M 2022, resulting in a higher service income. 3Q 2023 revenue was slightly lower than 3Q 2022 due mainly to lower distributions from AGPC for the quarter.

The Environmental Services segment contributed revenue of S\$53.6 million and S\$174.7 million in 3Q 2023 and 9M 2023 which were S\$28.7 million and S\$97.9 million higher than the corresponding periods last year due mainly to the contribution of revenue from EMK in 3Q 2023 and 9M 2023.

For the Distribution and Storage segment, revenue in 3Q 2023 and 9M 2023 were lower than the corresponding periods last year due mainly to lower contract manufacturing volumes and unfavorable AUD exchange rates used to translate Ixom's AUD denominated revenue.

3.1.2 Other income

Other income for 3Q 2023 and 9M 2023 increased by S\$3.8 million and S\$20.5 million from the corresponding periods last year due to higher fixed deposit interest income arising from higher interest rates and the interest income recognised for the shareholder loan due from BRK2, which was acquired in December 2022, in 3Q 2023 and 9M 2023.

3.1.3 Other gains/(losses) - net

3Q 2023 and 9M 2023 other gains of S\$31.9 million and S\$12.6 million, reversed from 3Q 2022 and 9M 2022 other losses of S\$2.9 million and S\$2.3 million, were mainly attributed to the fair value gains recognised on the investment in AGPC and foreign exchange gains. These were partially offset by the losses on sale of investment property held by EMK.

3.1.4 Expenses

Fuel and electricity costs for 3Q 2023 and 9M 2023 were S\$9.8 million and S\$22.6 million lower than 3Q 2022 and 9M 2022 due mainly to lower fuel prices paid by City Energy, despite the higher volumes dispatched.

Lower gas transportation and freight costs, raw materials, consumables used and changes in inventories in 3Q 2023 and 9M 2023 as compared to last year periods were mainly due to weaker AUD exchange rates used to translate Ixom's AUD denominated expenses.

OTHER INFORMATION

For the third quarter and nine months ended 30 September 2023

3. REVIEW OF GROUP PERFORMANCE (CONT'D)

3.1.4 Expenses (cont'd)

Depreciation and amortisation for 3Q 2023 and 9M 2023 were S\$13.1 million and S\$45.5 million higher than 3Q 2022 and 9M 2022 due mainly to the nine month period of depreciation and amortisation recorded by EMK.

Impairment loss on financial assets for 3Q 2023 and 9M 2023 were in relation to allowance for doubtful debts, and the slight movements as compared to 3Q 2022 and 9M 2022 were immaterial in absolute amounts.

3Q 2023 and 9M 2023 staff costs were S\$6.1 million and S\$15.2 million higher than 3Q 2022 and 9M 2022 due mainly to the nine month period staff cost incurred by EMK.

Operation and maintenance costs for 3Q 2023 and 9M 2023 were S\$10.7 million and S\$40.3 million higher than 3Q 2022 and 9M 2022 due to additional backup fuel service costs incurred by KMC and full nine month costs incurred by EMK to operate and maintain its waste treatment sites.

Higher finance costs in 3Q 2023 and 9M 2023 were due mainly to interest incurred from the drawdown of equity bridge loans ("EBL") in 4Q 2022, loans to fund the acquisitions in 2022 and from the Series 004 Notes which were issued by KIT on 5 May 2022. Additionally, higher interest on loans were incurred due to rising interest rates in the economic environment.

Trustee-manager's fees in 9M 2023 were S\$1.6 million lower as compared to 9M 2022. This was mainly due to the absence of the acquisition fees paid in the prior period arising from the investment in AGPC, partially offset by the higher base fees recorded in the current period. Higher Trustee-manager's fee in 3Q 2023 as compared to 3Q 2022 was mainly due to higher base fees on the back of higher distributable income as driven by capital optimisation.

3Q 2023 and 9M 2023 other operating expenses of S\$33.0 million and S\$95.9 million were S\$5.5 million and S\$7.5 million lower than corresponding periods last year. This resulted from lower business development costs, legal and administrative expenses due to fewer acquisitions completed during the period, partially offset by the nine-month period of expenses from EMK.

3.1.5 Share of results of joint venture

Share of results of joint venture were higher in 3Q 2023 and 9M 2023 as compared to prior period by S\$5.9 million and S\$10.8 million due to the effects of contribution of KIT's share of profits from BKR2 for the nine-month period.

3.1.6 Profit attributable to Unitholders of the Trust

The Group recorded a higher profit attributable to Unitholders of the Trust in 3Q 2023 and 9M 2023 than corresponding period in 3Q 2022 and 9M 2022 by S\$18.7 million and S\$53.7 million due mainly to nine-month period contributions from the newly acquired assets and continued stronger performances by City Energy and AGPC.

3.2 Financial Position

3.2.1 Balance Sheet – Group

Total assets as at 30 September 2023 of S\$5,583.6 million, was S\$379.2 million lower than total assets of S\$5,962.8 million as at 31 December 2022 due to depreciation and amortisation incurred for 9M 2023 and weaker AUD exchange rates used to translate AUD denominated assets. Cash and bank deposits were lower due to repayment of external borrowings as well as the payment of 2H 2022 distribution and 1H 2023 distribution to unitholders during the period.

Consequently, total liabilities as at 30 September 2023 of S\$3,569.1 million was S\$486.5 million lower than S\$4,055.6 million as at 31 December 2022, mainly due to partial repayment of the EBL using the proceeds of the EFR completed in May 2023 and lower outstanding trade and other payables balances.

Total Unitholders' funds stood at S\$1,104.5 million as at 30 September 2023, higher than S\$963.9 million as at 31 December 2022 mainly due to new units issued from the EFR exercise completed in May 2023 and 9M 2023 profit attributable to unitholders. This is partially offset by distributions paid to unitholders and foreign currency translation reserve movement for the period ended 30 September 2023.

OTHER INFORMATION

For the third quarter and nine months ended 30 September 2023

3. REVIEW OF GROUP PERFORMANCE (CONT'D)

3.2.2 Balance Sheet – Trust

Total assets as at 30 September 2023 of S\$2,579.5 million was lower compared to S\$2,762.6 million as at 31 December 2022 due to the impairment loss recorded on investment in subsidiaries and lower cash balances after paying 2H 2022 distribution and 1H 2023 distribution to unitholders during the period.

Total liabilities as at 30 September 2023 decreased by S\$288.2 million to S\$816.5 million mainly due to the repayment of its EBL with the proceeds from the EFR completed in May 2023.

Net assets as at 30 September 2023 of S\$1,763.0 million was higher compared to S\$1,657.9 million as at 31 December 2022 due to new units issued for cash arising from the S\$300 million EFR completed in May 2023.

3.3 Statement of Cash Flow

The Group's cash and bank deposits net of restricted cash were S\$420.3 million and S\$433.5 million as at 30 September 2023 and 30 September 2022, respectively.

Net cash generated from operating activities in 3Q 2023 and 9M 2023 were S\$140.9 million and S\$201.2 million, which were S\$54.9 million and S\$122.6 million higher than the corresponding period in 3Q 2022 and 9M 2022 largely due to higher operating profit recorded and the absence of the transaction cost incurred for the acquisition of AGPC in February 2022.

Net cash used in investing activities of S\$13.4 million and S\$22.9 million in 3Q 2023 and 9M 2023 mainly comprises of dividends received from investment in Wind Fund I, sale proceeds on the sale of investment property held by EMK, capital expenditure and the investment in Fäbodliden II of the European wind farms. Net cash used in investing activities for 3Q 2022 and 9M 2022 are mainly due to the acquisitions of AGPC, Wind Fund I, Bituminous Products and Aromatic Ingredients and capital expenditure.

Net cash used in financing activities of S\$39.9 million and S\$282.9 million in 3Q 2023 and 9M 2023 mainly pertains to net repayment of external borrowings, payment of distributions to unitholders, payment of distributions to perpetual securities holders and distributions paid by subsidiaries to non-controlling interests. This is partially offset by the proceeds from issuance of new units from the EFR exercise. Net cash used in and from financing activities for 3Q 2022 and 9M 2022 mainly pertained to issuance of Series 004 Notes, repayment of certain facilities of the Group and payment of distributions to unitholders and perpetual securities holders.

4. VARIANCE FROM FORECAST STATEMENT

No forecast statement for the nine months ended 30 September 2023 has been disclosed.

5. PROSPECTS

5.1 Energy Transition

5.1.1 City Energy

City Energy's town gas volumes continued its growth in 3Q FY2023, mainly from the Commercial and Industrial segment, which saw increased visitors' arrival in Singapore from events such as Formula One held between 15 and 17 September 2023.

"Go by City Energy" continues to make good progress by securing 37 sites, with 63 EV charging points installed at 16 sites to-date.

City Energy converted its existing loan facility to a sustainability-linked loan, which will provide interest margin savings to City Energy if it meets its annual sustainability performance targets.

City Energy also secured Competition and Consumer Commission of Singapore's clearance for its proposed acquisition of LPG retailer Tan Soon Huat Gas Supply Pte Ltd ("TSH") on 2 August 2023. The existing owners of TSH transferred its business to TSH Gas Pte Ltd, a new company in which City Energy owns 51% initially. This business transfer arrangement was completed on 1 October 2023.

OTHER INFORMATION

5. PROSPECTS (CONT'D)

5.1.2 Keppel Merlimau Cogen

KMC has no tariff exposure to the Singapore wholesale electricity market and has no exposure to fluctuations in fuel oil prices.

Under the capacity tolling agreement, KMC will receive a maximum annual capacity fee of S\$108.0 million (S\$55.1 million based on KIT's 51% interest in KMC) as long as it meets the availability and capacity test targets.

KMC achieved contractual availability of 100% for 9M FY2023.

As the mandatory debt repayments had commenced in June 2023, the Distributable Income from KMC is significantly negated by the repayments.

5.1.3 Aramco Gas Pipelines Company

KIT has received S\$36.4 million (US\$27.2 million) distributions in 9M FY2023, and it is on track to meet KIT's projected cash distribution target for FY2023.

5.1.4 Windy EU Holdings (Investment in a European onshore wind platform)

Windy EU Holdings Pte Ltd recorded distributable income of S\$1.9 million (€1.3 million) in 9M FY2023 and is on track to meet KIT's projected distribution target for FY2023.

Fåbodliden II, a 17 MW Swedish onshore wind farm is progressing on time and on budget with a targeted handover towards the end of 4Q FY2023. Following its completion, KIT's exposure to the renewable energy sector would increase and further contribute to the Group's distributable income.

Revised taxation proposals from the Norwegian Government on resource rent taxation for onshore wind power has been announced in Oct 2023 at an effective tax rate of 35%, to be implemented from 1 January 2024. KIT will continue to monitor impact on distributable income.

Underlying onshore wind farms continue to operate at high availability for 9M FY2023.

5.1.5 Neptune1 (Investment in offshore wind farms in Germany, BKR2)

Neptune1 Infrastructure Holdings Pte Ltd, the investment vehicle used by KIT for the BKR2 investment, recorded distributable income of S\$24.4 million (€16.8 million) in 9M FY2023, and is on track to meet KIT's projected distribution target for FY2023.

In 3Q FY2023, the German Federal Network Agency has assigned 50MW of excess unallocated network connection capacity to two offshore windfarms. BKR2 has been awarded an additional capacity of 26.47MW. However, pricing for the sale of additional capacity is still being decided by the regulators. Technical discussions are on-going to identify opportunities to utilize the additional capacity awarded.

BKR2 has completed its End of Warranty (EoW) inspections in 3Q FY2023 and is expected to continue operating at high availability following scheduled inspections.

5.2 Environmental Services

The Singapore waste and water assets within the Environmental Services segment have long-term contracts with Singapore statutory bodies and derive most of their cash flows from capacity and availability payments. As such, the underlying performance of these assets are expected to remain stable.

Management continues to explore the possibility of extension of the SingSpring Desalination concession and Senoko WTE concession. Discussions with the regulators are ongoing.

5. PROSPECTS (CONT'D)

5.2.1 Eco Management Korea Holdings Co., Ltd

In the solid segment, EMK continued to achieve high availability and utilisation in 9M FY2023, in line with the business plan. During the same period, the landfill business has seen a ramp up in volume as well as securing major contracts from blue-chip customers and customers from the largest industrial complex in South Korea, strengthening its market position in the Southeast region.

Management continues to explore portfolio optimisation initiatives and attractive bolt-on opportunities to grow the business.

Management is looking to establish more ESG best practices at all EMK sites, which includes strengthening safety and sustainability reporting processes and reviewing the implementation of potential carbon reduction initiatives.

5.3 Distribution and Storage

5.3.1 Ixom

Ixom's growth remains robust with adjusted EBITDA of S\$134.9 million in 9M FY2023 due to:

- (i) Strong volumes and pricing across coagulants, caustic and sodium hypochlorite in Australia;
- (ii) Increased volume from the industrial and dairy segments of the New Zealand business; and
- (iii) Contribution from its new bolt-on acquisitions

It had completed the refinancing of its loan facility, which was due in 2024, in end July 2023. Due to its outperformance over the past 4 years, Ixom is also distributing S\$131.2 million (A\$150.0 million) back to KIT, as a special distribution.

5.3.2 Philippine Coastal

Philippine Coastal has achieved a high utilization rate of 93.4% as at end-September 2023. The maximum possible utilization rate stands at 96%, where 4% of capacity is dedicated to swing tanks. The utilisation rate has grown due to newly secured contracts with new customers as well as effective deployment of tank mix. This is part of KIT's effort to drive asset optimization. Philippine Coastal has a diversified customer base with weighted average contract period of 2.6 years.

With high utilisation and growing customer demand, Philippine Coastal has embarked on new tank builds in the Subic Bay area to expand capacity and grow top line revenue. Two new built tanks are expected to be completed in 2024.
