1. INTRODUCTION

The Board of Directors of Hotung Investment Holdings Limited (the “**Company**”, and together with its subsidiaries, the “**Group**”) wishes to announce the listing of one of its investee companies, VisEra Technologies Company Ltd. (“**VisEra**”), on the Taiwan Stock Exchange Corporation on 30 June 2022.

The Group had invested in VisEra since February 2021.

2. INFORMATION ON VISERA

VisEra was founded in 2003 and is the leading independent image sensor foundry provider focusing on high quality, comprehensive turn-key services. Taiwan Semiconductor Manufacturing Company Limited (TSMC) holds more than 70% shares of VisEra in the end of 2021.

VisEra is a professional foundry providing 8” and 12” wafer level manufacturing services for optical device, such as image sensor, light sensor, optical finger print sensor. Its major technologies and services, such as wafer level Color Filter (CF) and Micro-Optics Element, etc., have the ability to customized process based on customer requirement.

VisEra’s new Longtan wafer fab is planned to operate on-chip color filter and micro-lens process, as well as on-chip multi-film process. This Longtan facility not only enables VisEra to better support its customers’ needs in capacity, but also gives VisEra more opportunities to achieve its growth strategies along with CMOS Image Sensor (CIS) market trend especially in smartphone and automotive sectors.

Shareholders and other investors are reminded to exercise caution when dealing in the shares of the Company. In the event that the Shareholders and other investors are in doubt about the actions they should take, they should consult their stockbrokers, bank managers, solicitors, accountants or other professional advisers.
