Important Risk Information

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETFs' net asset value. Brokerage commissions and ETF expenses will reduce returns.

While the shares of ETFs are tradable on secondary markets, they may not readily trade in all market conditions and may trade at significant discounts in periods of market stress.

Commodities and commodity-index linked securities may be affected by changes in overall market movements, changes in interest rates, and other factors such as weather, disease, embargoes, or political and regulatory developments, as well as trading activity of speculators and arbitrageurs in the underlying commodities.

Frequent trading of ETFs could significantly increase commissions and other costs such that they may offset any savings from low fees or costs.

Diversification does not ensure a profit or guarantee against loss.

Investing in commodities entails significant risk and is not appropriate for all investors.

Investing involves risk, and you could lose money on an investment in each of SPDR® Gold Shares Trust ("GLD®"), SPDR® Gold MiniShares℠ Trust ("GLDM℠"), a series of the World Gold Trust, and SPDR® Long Dollar Gold Trust ("GLDW℠"), a series of the World Gold Trust (together, the "Funds").

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETFs' net asset value. Brokerage commissions and ETF expenses will reduce returns.

Commodities and commodity-index linked securities may be affected by changes in overall market movements, changes in interest rates, and other factors such as weather, disease, embargoes, or political and regulatory developments, as well as trading activity of speculators and arbitrageurs in the underlying commodities.

GLDW is subject to regulation under the Commodity Exchange Act of 1936 (the "CEA"). U.S. regulation of swap agreements is rapidly changing and is subject to further regulatory developments which could be adverse to GLDW. GLDW's swap agreements will be subject to counterparty risk and liquidity risk.

Currency exchange rates between the US dollar and non-US currencies may fluctuate significantly over short periods of time and may cause the value of GLDW's investments to decline.

GLDW is a passive investment vehicle that is designed to track the Index. GLDW's performance may deviate from changes in the levels of its Index (i.e., create "tracking error" between GLDW and the Index) for a number of reasons, such as the fees and expenses of GLDW, which are not accounted for by the Index.

Frequent trading of ETFs could significantly increase commissions and other costs such that they may offset any savings from low fees or costs.

Diversification does not ensure a profit or guarantee against loss.

Investing in commodities entails significant risk and is not appropriate for all investors.

Important Information Relating to SPDR® Gold Trust ("GLD®"), SPDR® Gold MiniShares℠ Trust ("GLDM℠") and SPDR® Long Dollar Gold Trust ("GLDW℠"):

The SPDR Gold Trust ("GLD") has filed a registration statement (including a prospectus) with the Securities and Exchange Commission ("SEC") for GLD. The World Gold Trust has filed a registration statement (including a prospectus) with the SEC for each of GLDM and GLDW. The World Gold Trust has also filed the prospectus for GLDW with the National Futures Association. Before you invest, you should read the prospectus in the registration statement and other documents each Fund has filed with the SEC for more complete information about each Fund and these offerings. Please see each Fund's prospectus for a more detailed discussion of the risks of investing in each Fund's shares. The GLD prospectus is available by clicking here, the GLDM prospectus is available by clicking here, and the GLDW prospectus is available by clicking here. You may get these documents for free by visiting EDGAR on the SEC website at sec.gov or by visiting spdrgoldshares.com. Alternatively, the Funds or any authorized participant will arrange to send you the prospectus if you request it by calling 866.320.4053.

None of the Funds is an investment company registered under the Investment Company Act of 1940 (the "1940 Act"). As a result, shareholders of each Fund do not have the protections associated with ownership of shares in an investment company registered under the 1940 Act. GLD and GLDM are not subject to regulation under the CEA. As a result, shareholders of each of GLD and GLDM do not have the protections afforded by the CEA.

Shares of each Fund trade like stocks, are subject to investment risk and will fluctuate in market value.

The values of GLD shares and GLDM shares relate directly to the value of the gold held by each Fund (less its expenses), respectively. Fluctuations in the price of gold could materially and adversely affect an investment in the shares. The price received upon the sale of the shares, which trade at market price, may be more or less than the value of the gold represented by them.

GLDW shares trade like stocks, are subject to investment risk and will fluctuate in market value. The value of GLDW shares relates directly to the value of the gold held by GLDW (less its expenses) and the value of a basket ("FX Basket") comprising the euro, Japanese yen, British pound sterling, Canadian dollar, Swedish krona and Swiss franc ("Reference Currencies") against the US dollar. A decline in the price of gold and/or an increase in the value of the Reference Currencies comprising the FX basket against the US dollar could materially and adversely affect an investment in the shares. The price received upon the sale of the shares, which trade at market price, may be more or less than the value of the gold and the price of each Reference Currency against the US dollar represented by them.

None of the Funds generate any income, and as each Fund regularly sells gold to pay for its ongoing expenses, the amount of gold represented by each Fund share will decline over time to that extent.
