HCLTech recognized as a Leader in HFS Horizons: Generative Enterprise Services 2025

NEW YORK and NOIDA, India, April 02, 2025—[HCLTech](#), a leading global technology company, has been named a Market Leader in the HFS Horizons: Generative Enterprise Services, 2025 report.

"HCLTech empowers enterprises to scale AI and GenAI solutions with its full-stack offerings, domain expertise and a focus on delivering business outcomes and ROI. Its long years of AI experience and suite of IPs has positioned it well to turn clients' enterprise GenAI ambitions into reality," said David Cushman, Executive Research Leader, HFS Research.

The report highlights HCLTech's full-stack GenAI solutions, which integrate domain knowledge, semiconductor design, cognitive infrastructure and AI-driven software engineering. HCLTech collaborates with clients and partners to create innovative GenAI products and services, combining horizontal GenAI solutions with industry-specific expertise for digital transformation. Its network of partners, including semiconductor firms and AI startups, accelerates the co-development of IP and accelerators. HCLTech's internal use of GenAI and staff training initiatives show its commitment to the latest client services and operations technology.

HCLTech's comprehensive portfolio of platforms and services includes [AI Force](#), a GenAI platform; [AI Foundry](#), which provides system integration and managed services; [AI and Cloud Native Labs](#), which offers consulting and experiential spaces to assist clients in quickly transitioning from ideas to MVP (minimum viable product) stage to production scale; and AI Engineering, which not only focuses on chip design, development and tape-out but also integrates advanced physical AI and AIOT capabilities. By leveraging physical AI and AIOT, HCLTech empowers its clients to achieve significant cost savings, improve customer experiences and unlock new revenue streams, reinforcing its commitment to delivering measurable business outcomes and fostering a culture of data-driven decision-making.

"Being recognized as a Market Leader in this report underscores our commitment to AI and GenAI innovation. This recognition highlights our comprehensive portfolio, collectively empowering enterprises to scale AI and GenAI solutions effectively, integrating physical AI and AIOT solutions for enhanced efficiency and predictive maintenance," said Vijay Guntur, CTO and Head of Ecosystems, HCLTech.

About HCLTech

HCLTech is a global technology company, home to more than 220,000 people across 60 countries, delivering industry-leading capabilities centered around digital, engineering, cloud and AI, powered by a broad portfolio of technology services and products.
