BRAGE FIELD & YME FIELD PRODUCTION UPDATE – AUGUST 2025

Lime Petroleum AS (“**LPA**”) wishes to announce that for the full month of August 2025, production at the Brage and Yme Fields combined, net to LPA, was 10,629 barrels of oil equivalent per day (boepd).

Brage Field: LPA holds a 33.8434 per cent interest in the Brage Field. The operator of the Brage Field is OKEA ASA.

Yme Field: LPA holds a 25 per cent interest in the Yme Field. The operator of the Yme Field is Repsol Norge AS. Only oil is sold from the Yme Field as the produced gas is being used for production operations and re-injected into the reservoirs for improved oil recovery.

There were scheduled and unscheduled shut-ins at both fields that were in the ordinary course of operations during the month.

Drilling at Brage and Bestla, which will be tied back to Brage, as previously announced, are continuing.
