

On December 31st, 2020, and after several manifestations in the south and north of the Peruvian coast, the Peruvian government approved a new agricultural law ("*Ley del Régimen Laboral Agrario y de Incentivos para el Sector Agrario y riego, Agroexportador y Agroindustrial*") by means of which new labor and tax dispositions have been approved for all companies from the agricultural sector, which include Camposol SA. Further regulation is still pending to be issued by the Peruvian government on this matter. As always, Camposol will comply with all new dispositions of this law and any other to be approved for our sector.

Alvaro Carrasco Benavides
General Counsel
Camposol
