MESSAGE TO SHAREHOLDERS

DEAR SHAREHOLDERS,

On behalf of the Board of Directors (the "Board"), we are pleased to present the annual report of Boldtek Holdings Limited for the financial year ended 30 June 2020 ("FY2020").

OUTLOOK

Based on the media release by The Straits Times on 18 September 2020, built environment sector in Singapore is poised to take a S\$10 billion hit this year, as public sector projects get pushed back and demand drops sharply for projects in the private sector. While almost all the construction projects of the Group have resumed, the resumption of on-site operations has remained a challenge, with workers being placed under quarantine if they have come in close contact with a COVID-19 case. Worksite practices that require redesign to ensure safe distancing have further affected construction timeline.

The Group's construction activities are expected to gradually recover in the 2nd half of 2020 but will not return to 2019 levels this year.

GENERAL BUILDING

The Group's general building business is principally undertaken by the Company's wholly-owned subsidiary, Logistics Construction Pte Ltd ("Logistics Construction"), which has

a track record of more than 25 years in Singapore. Logistics Construction is approved by Building and Construction Authority ("BCA")'s workhead for General Building Works (CW01) to the highest grade, A1 where Logistics Construction can bid and execute large-scale projects of unlimited value. Logistics Construction has an established track record in delivering quality, value-added integrated solutions to its customers and has been able to maintain a healthy order book.

Notwithstanding the uncertainties and negative impact from the COVID-19 on the built environment sector, the Group will continue to focus on its core business segment – general building by exercising prudence in tenders to build up book orders, optimising cost and operational efficiency to fortify the Group against challenges that lie ahead.

PRECAST MANUFACTURING

In May 2020, the Group obtained the In-Principle Acceptances ("IPA") to be included in the list of suppliers/manufacturers that meet the Prefabricated Prefinished Volumetric Construction ("PPVC") requirement.

With the capabilities in PPVC and Prefabricated Bathroom Unit ("PBU") (IPA obtained by the Group in prior years), the Group will be able to take advantage of the demand generating from

SHAREHOLDERS

the public sector's adoption of the Design for Manufacturing and Assembly ("DfMA") technologies driven by the Productivity Gateway Framework.

PROPERTIES DEVELOPMENT AND INVESTMENT

The Group developed 20 units of freehold three storey terraced service industries ("Malaysia terraced service industrial") for sales and an investment in a parcel of freehold industrial land to earn rental income and/or for capital appreciation. These properties are located in Senai Industrial Park, Johor, Malaysia.

Investment and market sentiments for industrial properties in Johor are negatively impacted due to the postponement of the Kuala Lumpur-Singapore High Speed Rail project, Johor Bahru – Singapore Rapid Transit System and the COVID-19 pandemic. In addition, Malaysia is also going through a period of political changes with the recent change of government together with other factors such as the plunge in crude oil prices which have also impacted the Malaysia economy, in tandem with the global economy. All these factors negatively impacted the Group's marketing activity to move the sales of the remaining 18 units of Malaysia terraced service industrial during FY2020.

In August 2020, the Company entered into a joint venture (the "JV") agreement with Neo Group Limited ("NGL") to carry out the business of property development, investment and management, or such other businesses as the JV may agree from time to time.

The JV will enable the Group to increase its involvement in the property development and investment segment and expand beyond its general building core business. In addition, the JV will also allow the Group to leverage on the business networks and resources of NGL whilst maximizing existing revenue streams.

NOTE OF APPRECIATION

On behalf of the Board of Directors, we would like to thank the management and staff of the Group for their contributions and dedication. We also like to take this opportunity to thank our shareholders and stakeholders for their unwavering support through the years. With the support from our stakeholders, the Group will endure and rise above current challenging times.

OPERATING AND FINANCIAL REVIEW

OPERATING REVIEW

GENERAL BUILDING

During FY2020, the Group secured 9 projects with contract sums amounting to approximately S\$84.44 million. These projects mainly comprised of new building works, term contracts, as well as addition and alteration works.

The Group's existing order book from general building and precast manufacturing stood at approximately S\$154.0 million as at 28 August 2020.

PRECAST MANUFACTURING

As part of the improvement for construction productivity and quality control, BCA encourages the built environment sector to embrace the concept of DfMA where construction is designed such that most of the construction work is done off-site in a controlled factory environment.

With the Group included in BCA's list of suppliers/manufacturers that meet the PPVC requirements, the Group will be able to ride on the strong demand for consultants and builders who are familiar with PPVC technology due to the increasing demand of projects using PPVC.

PROPERTIES DEVELOPMENT AND INVESTMENT

Development of the 20 units of freehold three storey terraced service industrial in the Senai Industrial Park in Malaysia ("Malaysia terraced service industrial") for sales were completed and 18 units of terraced service industrial remained unsold as at the end of FY2020.

The parcel of freehold industrial land ("Malaysia land") held by the Group is to earn rental income or for capital appreciation, or both.

Malaysia terraced service industrial and Malaysia land are located at Senai Industrial Park, Johor, Malaysia (collectively known as "Malaysia properties").

In August 2020, the Company entered into a JV with Neo Group Limited to carry out the business of property development, property investment and property management. The Group expects to further increase its involvement in the property development and investment segment going forward.

FINANCIAL REVIEW

STATEMENT OF PROFIT OR LOSS

REVENUE AND COST OF WORKS

The Group's revenue and cost of works for FY2020 decreased by approximately S\$25.86 million or 32.82% and S\$20.73 million or 30.11% respectively, compared to FY2019.

The decrease in the Group's revenue was primarily attributable to a significant decrease in contribution from general building segment as a result of the adverse impact from the COVID-19 outbreak. Precast manufacturing and property development and investment segments were also impacted to varying extent.

GENERAL BUILDING

Revenue from construction works relating to alteration and addition works, maintenance works and home improvement program works decreased to approximately S\$52.67 million (FY2019: S\$77.39 million). Construction activities in the three months to June 2020 fell as non-essential construction activities were

OPERATING AND FINANCIAL REVIEW

suspended during the circuit breaker period, except where exempted by the relevant authorities. Correspondingly, cost of works for general building also decreased to approximately S\$47.89 million (FY2019: S\$67.87 million).

PRECAST MANUFACTURING

Revenue increased by S\$0.25 million due to the supply of piles to a new customer from December 2019 onwards.

PROPERTIES DEVELOPMENT AND INVESTMENT

Nil revenue because there was no sale of Malaysia terraced service industrial in FY2020 as opposed to sale of 2 units in FY2019 which contributed approximately S\$1.39 million. Correspondingly, nil cost of works for properties development and investment segment was recorded in FY2020 (FY2019: S\$0.96 million).

As a result of the above, gross profit decreased by approximately S\$5.13 million or 51.58%.

OTHER INCOME

The Group's other income for FY2020 increased by approximately S\$0.95 million or 152.83% compared to FY2019, mainly due to the government grants from the Unity, Resilience, Solidarity and Fortitude Budgets (collectively known as "Singapore Budgets 2020").

OTHER EXPENSES

The Group's other expenses for FY2020 increased by approximately S\$0.36 million or 68.42%, compared to FY2019.

This is mainly due to the recognition of fair value ("FV") loss on investment properties of approximately S\$0.65 million (FY2019: S\$Nil) in relation to the Malaysia land and impairment of property, plant and equipment ("PPE") of approximately S\$0.09 million (FY2019: S\$Nil), partially offset by the decreased in currency translation loss of approximately S\$0.36 million. Currency translation loss arose from the Malaysia subsidiaries' monetary liabilities denominated in Singapore Dollar due to the weakening of Malaysia Ringgit ("RM") during FY2020.

ADMINISTRATIVE EXPENSES

The Group's administrative expenses for FY2020 increased by approximately S\$0.54 million or 7.02%, compared to FY2019.

This is mainly due to the recognition of impairment loss on financial assets and contract assets amounting to S\$0.97 million as required by *Singapore Financial Reporting Standards (International)* ("SFRS(I)") 9 Financial Instruments, partially offset by the decrease in rental on operating leases of approximately S\$0.45 million.

TAXATION

The Group recorded an income tax credit of approximately S\$0.02 million (FY2019: income tax expense of approximately S\$0.20 million). In FY2020, deferred tax asset of approximately S\$0.15 million has been recognised for unutilised tax losses available for offset against future profits and reversal of deferred tax liabilities of approximately S\$0.16 million arising from the FV loss on the Malaysia land, partially offset by the under provision of current taxation in respect of prior financial years of approximately S\$0.29 million.

LOSS FOR THE FINANCIAL YEAR

As a result of the reduction in the non-essential construction activities together with the recognition of FV loss on the Malaysia land, impairment loss on financial assets, contract assets and PPE, the Group reported loss for the financial year of approximately S\$4.01 million (FY2019: profit for the financial year of approximately S\$0.78 million).

OPERATING AND FINANCIAL REVIEW

STATEMENT OF FINANCIAL POSITION

CURRENT ASSETS

The Group's current assets decreased by approximately S\$0.97 million which is mainly due to the decreased in contract assets, trade and other receivables of approximately S\$2.08 million and S\$0.96 million respectively, partially offset by the increase in inventories, grant receivables, cash and bank balances of approximately S\$0.1 million, S\$0.33 million and S\$1.63 million respectively.

Movement in inventories, contract assets, trade and other receivables were mainly due to on-going projects.

Increase in cash and bank balances were mainly due to additional borrowings obtained for working capital purposes and grant receivables increased due to the Singapore Budgets 2020.

NON-CURRENT ASSETS

The Group's non-current assets increased by approximately S\$0.65 million which is mainly due to the increased in PPE and deferred tax asset of approximately S\$1.25 million and S\$0.15 million respectively, partially being offset by the decreased in investment properties of approximately S\$0.75 million.

Investment properties decreased mainly due to the FV loss for the Malaysia land.

A deferred tax asset of approximately S\$0.15 million (FY2019: S\$Nil) has been recognised for unutilised tax losses available for offset against future taxable profits.

PPE increased mainly due to adoption of *SFRS(I) 16 Leases* from 1 July 2019 on the recognition of right-of-use assets offset by the routine depreciation and disposal of PPE during FY2020.

CURRENT LIABILITIES

The Group's current liabilities decreased by approximately S\$3.22 million mainly due to the decreased in trade and other payables and borrowings of approximately S\$3.37 million and S\$0.6 million respectively, partially being offset by the increased in contract liabilities and deferred grant of approximately S\$0.36 million and S\$0.32 million respectively.

Movement in contract liabilities, trade and other payables were mainly due to on-going projects.

Borrowings decreased mainly due to repayment and deferred grant increased due to the Singapore Budgets 2020.

NON-CURRENT LIABILITIES

The Group's non-current liabilities increased by approximately S\$6.78 million mainly due to increase in borrowings and lease liabilities of approximately S\$4.92 million and S\$2.01 million respectively, partially offset by the decrease in deferred tax liabilities of approximately S\$0.16 million.

Increased in borrowings and lease liabilities are mainly due to additional borrowings obtained for working capital purposes and adoption of *SFRS(I) 16 Leases* from 1 July 2019 onwards respectively.

Movement in deferred tax liabilities is due to the changes in FV arising from the Malaysia land.

STATEMENT OF CASH FLOWS

OPERATING ACTIVITIES

Net cash used in operating activities was approximately S\$1.37 million mainly due to the significant reduction in construction activities in the last quarter of FY2020 as a result of the circuit breaker measures.

INVESTMENT ACTIVITIES

Net cash used in investing activities was approximately S\$0.19 million mainly used to purchase PPE during FY2020.

FINANCING ACTIVITIES

Net cash from financing activities was approximately S\$3.19 million. Additional borrowings were obtained for working capital purposes, repayment of the borrowings and interest expenses.

As a result, the Group recorded a net increase in cash and bank balances of S\$1.63 million.

- (1) Approving the Group's goals, strategies and objectives;
- (2) Monitoring the performance of Management;
- (3) Overseeing the processes for evaluating the adequacy and effectiveness of internal controls, risk management systems, financial reporting and compliance of the Group;
- (4) Approving the appointment of Directors of the Company and Key Management Personnel of the Group;
- (5) Approving the announcement of unaudited financial results and audited financial statements;
- (6) Endorsing remuneration framework and key human resource matters of the Group;
- (7) Convening of general meetings;
- (8) Approving annual budgets, major funding proposals, significant transactions and interested person transactions as defined in the Catalist Rules; and
- (9) Assuming responsibility for corporate governance and compliance with the Companies Act, Chapter 50 and the rules and regulations applicable to a public listed company.

- 1.4 To facilitate effective management, certain functions have been delegated to various Board Committees, namely Audit Committee ("**AC**"), Nominating Committee ("**NC**") and Remuneration Committee ("**RC**"), each of which has its own clear written terms of reference ("**TOR**"). The TORs are reviewed on a regular basis to ensure their continued relevance with the Code.

The Management together with the Board Committees support the Board in discharging its duties and responsibilities. The roles and powers of the Board Committees are set out in this report.

- 1.5 The Board meets at least half-yearly and more frequently as and when required, to review and evaluate the Group's operations and performance and to address key policy matters of the Group, where necessary.

The Constitution of the Company allows Board and Board Committees meetings to be conducted by way of teleconferencing to facilitate Board participation.

In the absence of Board and Board Committees meetings, the Board and the Board Committees discuss, deliberate and approve the matters specially reserved to them by way of resolutions in writing in accordance with the Company's Constitution and Board Committees' term of references where applicable.

The number of Board and Board Committee meetings held during FY2020 and the attendance of each Director, where relevant, are set out as follows:

Directors	Board Meetings	AC Meetings	RC Meetings	NC Meetings
No. of Meetings held in FY2020	2	2	1	1
Mr Pao Kiew Tee	2	2	1	1
Mr Phua Lam Soon	2	2 ⁽¹⁾	–	1
Ms Ong Siew Ng	2	2 ⁽¹⁾	–	–
Mr Ng Kok Seng	2	2 ⁽¹⁾	–	–
Mr Foo Shiang Ping	2	2	1	–
Mr Chen Timothy Teck-Leng	2	2	1	1

Note:

- (1) Attendance by invitation.

Directors with multiple board representations are to disclose such board representations and ensure that sufficient time and attention are given to the affairs of the Company.

CORPORATE GOVERNANCE REPORT

1.6 Board papers for Board and Board Committee meetings are provided to the Directors prior to meetings in order for the Directors to be adequately prepared for meetings, including all relevant documents, materials, background or explanatory information relating to matters to be brought before the Board and Board Committees.

1.7 The Board, the Board Committees and the Directors have separate and independent access to Management, the Company Secretary and external advisors (where necessary) at the Company's expense and are entitled to request from Management such information or clarification as required.

Professional advisors may be invited to advise the Board, or any of its members, if the Board or any individual member thereof needs independent professional advice.

The Company Secretary attends all Board and Board Committees meetings and is responsible for ensuring that Board procedures are followed and the minutes of all Board and Board Committees meetings are recorded and circulated to the Board and Board Committees.

The appointment and the removal of each Company Secretary is subject to the approval of the Board pursuant to the Constitution of the Company.

PRINCIPLE 2: BOARD COMPOSITION AND GUIDANCE

The Board has an appropriate level of independence and diversity of thought and background in its composition to enable it to make decisions in the best interests of the Company.

Guidelines Corporate Governance Practices

2.1 The Board comprises two (2) Non-Executive and Independent Directors, one (1) Non-Executive Director and three (3) Executive Directors in FY2020.

The directors in the office at the date of the Annual Report are:

Name of Director	Role Undertaken	Board Committee Membership
Pao Kiew Tee	Non-Executive Chairman and Independent Director	AC NC RC
Phua Lam Soon	Chief Executive Officer	NC
Ong Siew Ng	Executive Director	NIL
Ng Kok Seng	Executive Director	NIL
Foo Shiang Ping	Non-Executive Director	AC RC
Chen Timothy Teck-Leng	Non-Executive and Independent Director	AC NC RC

As of the date of the Annual Report, the Company has not appointed any Alternate Director.

As set out under the 2018 Code, an independent director is one who is independent in conduct, character and judgement, and has no relationship with the company, its related corporations, its substantial shareholders or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the director's independent business judgement in the best interests of the company. The Nominating Committee assesses and reviews annually the independence of a Director bearing in mind the salient factors as set out under the 2018 Code as well as all other relevant circumstances and facts.

CORPORATE GOVERNANCE REPORT

Each Independent Director is required to complete a Confirmation of Independence Form annually to confirm his independence based on the 2018 Code. Based on the confirmation of independence submitted by the Independent Directors for FY2020, the Nominating Committee is of the view that each Independent Director is independent on the following basis:

- (a) The Independent Directors: (i) are not employed by the Company or any of its related corporations for the current or any of the past three (3) financial years; and (ii) do not have an immediate family member who is employed or has been employed by the Company or any of its related corporations for the past three (3) financial years, and whose remuneration is determined by the Remuneration Committee.
- (b) None of the Independent Directors and their immediate family member had in the current or immediate past financial year (i) provided or received payments from the Group aggregated over any financial year in excess of S\$50,000/- for services other than compensation for board service; or (ii) was a substantial shareholder, partner, executive officer or a director of any organisation which provided or received payments from the Group aggregated over any financial year in excess of S\$200,000/- for services rendered.
- (c) None of the Independent Directors are directly associated with any substantial shareholder of the Company in the current or immediate past financial year.

2.2

The Board comprises six directors, two of whom are Independent Directors. The Chairman is a Non-Executive and Independent Director. As the Independent Directors make up at least one third of the Board, the Company has complied with Rule 406(3)(c) of the Catalist Rules and Guideline 2.1 in the 2012 Code of Corporate Governance which are effective from 1 January 2022 and prior to 1 January 2022 respectively.

Although the Company has deviated from Provision 2.3 of the 2018 Code, with Non-Executive Directors making up half of the Board instead of majority, the Board believes that the two Independent Directors have many years of experience and having served on other listed companies and are able to serve the present needs of the Group. The Board has taken into account the scope and nature of the operations of the Company as well as the corporate transactions undertaken and considers its current size to be adequate for effective decision making. In addition, the Chairman of the Board is also an Independent Director. The composition of the Board will be reviewed regularly and changes will be made as and when appropriate. Key information regarding the Directors are set out below:

Name of Director	Directorships in other listed companies	
	Current	Past 3 Years ⁽¹⁾
Pao Kiew Tee	Wong Fong Industries Limited Mary Chia Holdings Limited	New Silkroutes Group Limited
Phua Lam Soon	Nil	Nil
Ong Siew Eng	Nil	Nil
Ng Kok Seng	Nil	Nil
Foo Shiang Ping	Nil	800 Super Holdings Limited
Chen Timothy Teck-Leng	Yangzijiang Shipbuilding (Holdings) Ltd. Sysma Holdings Limited Tye Soon Limited	TMC Education Corporation Ltd Tianjin Zhong Xin Pharmaceutical Group Corporation Limited

Note:

- (1) Refers to directorships in other listed companies held in the past 3 years but no longer holding.

Although the Non-Executive Directors do not make up a majority of the Board, the Board has always discussed important issues robustly and is able to reach a consensus without relying on any majority votes to decide nor having an individual or small group of individuals dominate the Board's decision-making process. The mix of Directors as a group provide an appropriate balance and diversity. As mentioned above, the Board has also considered the current size, scope, nature of operations of the Group, the requirements of the business and the need to avoid

CORPORATE GOVERNANCE REPORT

undue disruptions from changes to the composition of the Board and Board Committees, especially where cost considerations and agility of the Board in decision-making are critical to the Company. In view of the foregoing, the Board is of the view that the Board's composition has an appropriate level of independence and diversity of thought and background to enable it to make decisions in the best interests of the Company, consistent with the intent of Principle 2 of the 2018 Code.

- 2.4 The composition of the Board is reviewed annually by the Board and the NC to ensure that there is an appropriate mix of expertise and experience to enable the Management to benefit from a diverse perspective regarding issues that are brought before the Board.

Given the diverse qualifications, experience, background, gender and profile of the Directors, the NC is of the view that the current Board members as a group provides an appropriate balance and diversity of relevant skills, experience and expertise required for effective management of the Group.

The Board is of the view that the current size, composition, range of experience and the varied expertise of the current Board members provides core competencies in accounting or finance, business management, legal or corporate governance, relevant industry knowledge or experience, strategic planning, and customer based experience or knowledge which are necessary to meet the requirements of the Group.

- 2.5 Non-Executive and Independent Directors contribute to the Board by monitoring and reviewing the Group's performance against goals and objectives in a timely manner. Their views and opinions provide alternative perspectives to the Group's businesses and bring independent judgement on business activities and transactions involving conflicts of interest and other complexities.

The Non-Executive and Independent Directors have met in the absence of Management. The chairman of such meetings provides feedback to the Board and/or Chairman as appropriate.

PRINCIPLE 3: CHAIRMAN AND CHIEF EXECUTIVE OFFICER

There is a clear division of responsibilities between the leadership of the Board and Management, and no one individual has unfettered powers of decision-making.

Guidelines Corporate Governance Practices

- 3.1 The roles of the Chairman and CEO are separate to ensure an appropriate balance of power, increased accountability and greater capacity of the Board for independent decision making. The division of responsibilities between them is clearly established, and they are not related to each other.

Mr Pao Kiew Tee is the Non-Executive Chairman (the "**Chairman**") and an Independent Director of the Company, and is responsible for the effectiveness and integrity of the Board and its governance process.

Mr Phua Lam Soon is the CEO of the Company, and is responsible for the business and operational decisions of the Group.

- 3.2 The CEO works with the Board to determine the strategy for the Group and is responsible for the Group's business performance. The CEO also works with the Management of the Group to ensure that the Management operates in accordance with the strategic and operational objectives of the Group.

The Chairman leads the Board to ensure its effectiveness on all aspects of its role. He approves the agenda for the Board and the agenda for Board Committees are approved by the Chairman together with the respective chairpersons of the Board Committees. The Chairman also exercises control over the quality, quantity and timeliness of information flow between the Board, the Management and shareholders of the Company. He encourages interactions between the Board and Management, as well as between the Executive and Non-Executive Directors. The Chairman also takes a leading role in ensuring the Company's compliance with corporate governance guidelines.

CORPORATE GOVERNANCE REPORT

- 3.3 Provision 3.3 provides that the Board should have a lead independent director to provide leadership in situations where the Chairman is conflicted, and especially when the Chairman is not independent.

As our Chairman is an independent director, the Board has determined that it is not necessary to appoint a Lead Independent Director.

PRINCIPLE 4: BOARD MEMBERSHIP

The Board has a formal and transparent process for the appointment and re-appointment of directors, taking into account the need for progressive renewal of the Board.

Guidelines Corporate Governance Practices

- 4.1 The NC is responsible for reviewing the composition and effectiveness of the Board and determining whether the Directors possess the requisite qualifications and expertise and whether the independence of the Directors is compromised pursuant to the guidelines set out in the 2018 Code.

The key duties of the NC include but not limited to the following:

- (1) To review annually the independence of each Director with reference to the guidelines set out in the 2018 Code;
- (2) To review all nominations for new appointments and re-election of Directors, put forth their recommendations for approval by the Board and ensure the new directors are aware of their duties and obligation;
- (3) To determine whether a Director is able to and has been adequately carrying out his duties as a Director of the Company, particularly, when a Director has multiple Board representations;
- (4) To review Board succession plans, in particular, the Chairman and CEO;
- (5) To assess the effectiveness of the Board as a whole; and
- (6) To review training and professional development programmes for the Board.

Each member of the NC abstains from voting on any resolution and making any recommendation or participating in any deliberations of the NC in respect of matters concerning him, if any.

- 4.2 The members of the NC are:

Mr Chen Timothy Teck-Leng (Chairman)
Mr Pao Kiew Tee
Mr Phua Lam Soon

The majority of the NC members, including the Chairman of the NC, are Non-Executive and Independent Directors.

- 4.3 The Company has adopted a formal search and nomination process for new directors. Where a vacancy arises under any circumstances, or where it is considered that the Board would benefit from the services of a new director with particular skills set, the NC, in consultation with the Management and the Board as appropriate, determines the selection criteria such as qualification, skill set, competence and expertise required or expected of a new Board member taking into account the size, structure, composition and progressive renewal of the Board.

The NC will assess the suitability of the potential candidate before he or she is appointed to the Board. The NC could tap on the directors' recommendations of potential candidates or external resources. The potential candidates will go through a shortlisting process and thereafter, interviews are set up with the shortlisted candidates for the NC to assess them before a decision is made. Recommendations of the NC are then put to the Board for its consideration. The Board will review the recommendation and approve the appointment as appropriate. In accordance with the Constitution of the Company, one-third of Directors for the time being, or, if their number is not a multiple of three, the number nearest to but not less than one-third, shall retire from office by rotation at the annual general meeting of the Company, and a Director appointed during the year shall hold office until the next annual general meeting of the Company. The retiring Directors may offer themselves for re-election.

CORPORATE GOVERNANCE REPORT

Set out below are the names, designations, dates of appointment and last re-election of each Director of the Company:

Name	Designation	Date of First Appointment	Date of Last Re-Election
Mr Pao Kiew Tee	Non-Executive and Independent Chairman	24 December 2012	20 October 2018
Mr Phua Lam Soon	Chief Executive Officer	5 October 2012	24 October 2019
Ms Ong Siew Ng	Executive Director	31 October 2012	27 October 2017
Mr Ng Kok Seng	Executive Director	31 October 2012	24 October 2019
Mr Foo Shiang Ping	Non-Executive Director	24 December 2012	27 October 2017
Mr Chen Timothy Teck-Leng	Non-Executive and Independent Director	24 December 2012	20 October 2018

4.4 The Board and the NC review on an annual basis whether or not a Director is independent, taking into account the definition of independence under the Code, *inter alia*, one who is independent in conduct, character and judgement, and has no relationship with the Company, its related corporations, its substantial shareholders or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the director's independent business judgement with a view to the best interests of the Company.

After its assessment, the NC and the Board are of the view that none of the Non-Executive and Independent Directors have any relationship with the Company, its related corporations, its substantial shareholders or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the director's independent business judgement with a view to the best interests of the Company.

The Board and the NC also reviewed each individual Director's judgement and conduct in carrying out his duties during FY2020. Together with the NC, the Board affirmed that Mr Pao Kiew Tee and Mr Chen Timothy Teck-Leng continue to be independent pursuant to the definition of Independence under the 2018 Code.

4.5 New directors will undergo an orientation programme whereby they are briefed by Management on the Group's industry and business operations.

It is noted that there is no new director appointed to the Board in FY2020.

The NC is of the view that the effectiveness of each Director is best assessed by a qualitative assessment of the Director's contribution and his ability to devote sufficient time and attention to the Company's affairs. The NC has set the maximum number of listed company board representation at 8. Having assessed the capacity of the Directors based on factors including expected and/or competing time commitment of directors, size and composition of the Board and nature and scope of the Group's operations and size, the NC is of the view that this number would allow Directors to have increased exposure to different Boards and broaden their experience and knowledge in relation to Board matters, hence ultimately benefitting the Company.

The NC is satisfied that sufficient time and attention are being given by the Directors to the affairs of the Group, notwithstanding multiple listed company board representations and principal commitments of some Directors of the Company, as the Board and the Board Committees experienced minimal competing time commitments among its Board and Board Committees meetings in FY2020, which are planned and scheduled in advance.

Please refer to Annual Report page 17 for listed company directorships and principal commitments of each director.

CORPORATE GOVERNANCE REPORT

PRINCIPLE 5: BOARD PERFORMANCE

The Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each of its Board Committees and individual directors.

Guidelines Corporate Governance Practices

- 5.1 The NC has in place a performance evaluation process where the effectiveness of the Board as a whole and each Board Committee and individual directors is carried out on an annual basis following the conclusion of each financial year.
- 5.2 The annual evaluation exercise provides an opportunity to obtain constructive feedback from each Director regarding changes which may be made to enhance the performance and functions of the Board and Board Committees including its procedures and processes. The annual evaluation process is undertaken as an internal exercise and involves Board members completing a questionnaire covering areas relating to but not limiting to:
- (1) Board/Board Committees composition
 - (2) Information to the Board/Board Committees
 - (3) Board/Board Committees procedures
 - (4) Board accountability
 - (5) Interactions with CEO
 - (6) Standards of conduct by the Board/Board Committees

The collective assessment is conducted by means of a confidential questionnaire to be completed by each Director before such assessment results are collated, analysed and reported to the respective Board Committees for their deliberation prior to the report to the Board. Individual evaluation of each Director is also conducted on an annual basis. The aim of the assessment is to assess whether each Director is able to and continues to contribute effectively and demonstrate commitment to his/her role.

Recommendations to further enhance the effectiveness of the Board and Board Committees are implemented as and when appropriate, if any.

The performance evaluation exercise for the Board, Board Committees and individual directors for FY2020 had been conducted. It was noted that all Directors individually and severally contributed effectively and demonstrated full commitment to their roles, and accordingly, the performance of the Board and the Board Committees for FY2020 were satisfactory. No external facilitator had been engaged for this purpose.

PRINCIPLE 6: PROCEDURES FOR DEVELOPING REMUNERATION POLICIES

The Board has a formal and transparent procedure for developing policies on director and executive remuneration, and for fixing the remuneration packages of individual directors and key management personnel. No director is involved in deciding his or her own remuneration.

Guidelines Corporate Governance Practices

- 6.1 In consultation with the Chairman of the Board, the key responsibilities of the RC include but not limited to the following:
- (1) To recommend to the Board a framework of remuneration for Executive Directors and Key Management Personnel of the Group that is aligned with the interests of shareholders and ensure that such remuneration is appropriate to attract, motivate and retain the right talents for the Group;
 - (2) To review and recommend to the Board for their endorsement on the annual remuneration packages for Executive Directors, Key Management Personnel and employees related to Directors or controlling shareholder of the Group, if any, which may include a performance-related variable bonus component;

CORPORATE GOVERNANCE REPORT

- (3) To review and recommend to the Board the benefits under any long-term incentive schemes, if any, for Executive Directors and Key Management Personnel of the Group;
- (4) To review and recommend the remuneration package of employees related to Directors or controlling shareholder of the Group, if any; and
- (5) To review the contracts of service of the Executive Directors and Key Management Personnel of the Group.

Each member of the RC will abstain from voting on any resolution and making any recommendation or participating in any deliberations of the RC in respect of matters concerning him, if any.

6.2 The members of the RC are:

Mr Chen Timothy Teck-Leng (Chairman)
Mr Pao Kiew Tee
Mr Foo Shiang Ping

The RC comprises entirely Non-Executive Directors.

6.3 In reviewing the remuneration packages for Executive Directors and Key Management Personnel of the Group, as well as employees related to the Directors and controlling shareholders of the Group, if any, the RC will consider their contributions as well as the financial performance and the commercial needs of the Group and ensure that they are adequately but not excessively remunerated by the Group.

Further, the RC will take into consideration remuneration packages and employment conditions within the industry and within similar organisation structure as well as the Group's relative performance and the performance of individual employee.

The RC ensures that the remuneration packages of employees relating to the Directors and controlling shareholders of the Group, if any, are in line with the Group's staff remuneration guidelines and commensurate with their respective job scopes and levels of responsibilities.

The RC aims to be fair and avoid rewarding poor performance during the course of RC's duties. In relation to termination, termination clauses should be fair and not overly generously in respect of contract services entered into with Executive Directors and Key Management Personnel of the Group.

6.4 If necessary, the RC can seek appropriate expert advice inside and/or outside the Company on remuneration matters of the Directors and Key Management Personnel of the Group. No remuneration consultant was engaged by the Company for FY2020.

PRINCIPLE 7: LEVEL AND MIX OF REMUNERATION

The level and structure of remuneration of the Board and Key Management Personnel are appropriate and proportionate to the sustained performance and value creation of the Company, taking into account the strategic objectives of the Company.

Guidelines Corporate Governance Practices

7.1 The Company adopts a remuneration policy for Executive Directors and Key Management Personnel of the Group taking into consideration his or her individual performance contribution towards the overall performance of the Group for FY2020. Their remuneration comprised fixed and variable components.

Even though there are no contractual provisions allowing the Company to reclaim incentive components of remuneration from Executive Directors or Key Management Personnel of the Group in exceptional circumstances of misstatement of financial results or of misconduct resulting in financial loss to the Group, the Group will not hesitate to take legal actions against the personnel responsible in the event of such exceptional circumstances or misconduct resulting in financial loss to the Group.

CORPORATE GOVERNANCE REPORT

7.2 Directors' fees payable/paid to the Non-Executive and Independent Directors are set in accordance with a remuneration framework comprising a basic fee and increment fixed fee, taking into account of the level of responsibilities such as taking the roles of chairman and member of Board Committees.

The Board, after the recommendation of the RC, has recommended an aggregate Directors' fees of S\$138,600 to Non-Executive Director and Independent Directors of the Company for financial year ending 30 June 2021, to be paid quarterly in arrears, for shareholders' approval at the forthcoming Annual General Meeting of the Company scheduled for 26 November 2020.

7.3 The Board is of the view that the current remuneration structure is appropriate to attract, retain and motivate Directors to provide good stewardship of the Company and key management personnel to successfully manage the Company for the long term.

PRINCIPLE 8: DISCLOSURE ON REMUNERATION

The Company is transparent on its remuneration policies, level and mix of remuneration, the procedure for setting remuneration, and the relationship between remuneration, performance and value creation.

Guidelines Corporate Governance Practices

8.1 The following information relates to the remuneration received or to be received by the Directors from the Company and its subsidiaries for FY2020:

Directors/CEO	Fees %	Salaries ⁽¹⁾ %	Bonus ⁽²⁾ %	Other Benefits ⁽³⁾ %	Total %
S\$500,001 to below S\$750,000					
Mr Phua Lam Soon	-	72.31	17.73	9.96	100
Ms Ong Siew Eng	-	70.12	17.09	12.79	100
Below S\$250,000					
Mr Ng Kok Seng	-	68.10	12.06	19.84	100
Mr Pao Kiew Tee	100	-	-	-	100
Mr Chen Timothy Teck-Leng	100	-	-	-	100
Mr Foo Shiang Ping	100	-	-	-	100

Notes:

- (1) Employer Central Provident Fund contributions are included as part of salaries.
- (2) Annual wage supplement and profit sharing, if any, are included as part of bonus. There was no profit sharing for Mr Phua Lam Soon in FY2020.
- (3) Transportation allowances are included as part of other benefits.

After consideration, the Board is of the view that disclosing the exact remuneration details of each individual director and the CEO is not in the best interest of the Company given the competitive business environment.

There are no termination and retirement benefits that will be granted to Directors, the CEO and the top key management personnel.

As disclosed in this Annual Report, the Company has two (2) Key Management Personnel. In view of the confidentiality and sensitivity attached to remuneration matters, the Board is of the opinion that it is in the best interests of the Company not to disclose the exact remuneration and breakdown of total remuneration received by the Key Management Personnel for FY2020. Accordingly, the aggregate remuneration paid to the Key Management Personnel for FY2020 is also not provided in this Annual Report.

CORPORATE GOVERNANCE REPORT

Details of remuneration paid to key management personnel of the Group for FY2020 are as follows:

Key Management Personnel	Salaries ⁽¹⁾ %	Bonus ⁽²⁾ %	Other Benefits ⁽³⁾ %	Total %
Below S\$250,000				
Mr Go Hui Yang	92.87	7.13	–	100
Ms Loy Yan Ru ⁽⁴⁾	93.43	6.57	–	100

Notes:

- (1) Employer Central Provident Fund contributions are included as part of salaries.
 (2) Annual wage supplement is included as part of bonus.
 (3) Transportation allowances are included as part of other benefits.
 (4) Ms Loy Yan Ru is the niece of the CEO, Mr Phua Lam Soon, and Executive Director, Ms Ong Siew Eng.

- 8.2 There were no employees who were immediate family members of a Director and/or the CEO, and whose remuneration exceeds S\$100,000 during FY2020.
- 8.3 The Company has adopted the Boldtek Employee Share Option Scheme ("**Scheme**"), on 26 November 2018. The Scheme enables the Company to structure a competitive remuneration package, which is designed as an additional incentive tool to reward and retain employees and Directors (including those who are controlling shareholders or their associates).

PRINCIPLE 9: RISK MANAGEMENT AND INTERNAL CONTROLS

The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the Company and its shareholders.

Guidelines Corporate Governance Practices

- 9.1 The Board acknowledges the ultimate responsibility for the governance of risk and sets the tone and direction for the Group in the way risks are managed in the Group's businesses. The Board approves the strategy of the Group in a manner that stakeholders' expectations are addressed and does not expose the Group to an unacceptable level of risks.

The Board after the recommendation of the AC approves the key risk management policies and ensures a sound system of risk management and internal controls and monitors performance against them. In addition to determining the approach to risk governance, the Board sets and instills the right risk-focused culture throughout the Group for effective risk governance.

The Board together with the AC oversee the Group's risk management framework and policies, pursuant to which, their roles and responsibilities include but not limited to the following:

- (1) To propose the risk governance approach and risk policies for the Group;
- (2) To review the risk management methodology adopted by the Group;
- (3) To review the strategic, financial, operational, regulatory compliance, information technology and other emerging risks relevant to the Group identified by Management; and
- (4) To review Management's risk assessment and Management's action plans to mitigate such risks.

In FY2020, the Management carried out an annual review of the Group's key risks and the effectiveness of the key internal controls of the Group.

CORPORATE GOVERNANCE REPORT

9.2 The Board has received assurance from the CEO and FC that, as at 30 June 2020, the Group's financial records have been properly maintained, and the financial statements give a true and fair view of Group's operations and finances.

The Board has also received assurance from the CEO and the key management personnel responsible for risk management and internal control systems that, as at 30 June 2020, the Group's risk management and internal control systems were adequate and effective to address financial, operational, compliance and information technology risks which the Group considers relevant and material to its operations.

Based on the internal controls established and maintained by the Group, work performed by internal and external auditors, reviews performed by management and various Board Committees as well as the said assurances received, the Board, with the concurrence of the AC, is of the opinion that the Group's internal controls and risk management systems were adequate and effective as at 30 June 2020 to address financial, operational, compliance risks and information technology risks which the Group considers relevant and material to its operations.

The Board notes that the internal controls and risk management systems provide reasonable, but not absolute, assurance that the Group will not be affected by any event that could be reasonably foreseen as it strives to achieve its business objectives. In this regard, the Board also notes that no system can provide absolute assurance against the occurrence of material errors, poor judgement in decision-making, human error, fraud or other irregularities.

PRINCIPLE 10: AUDIT COMMITTEE

The Board has an Audit Committee ("AC") which discharges its duties objectively.

Guidelines Corporate Governance Practices

10.1 The AC is empowered to investigate any matter relating to the Group's accounting, auditing, internal controls and financial practices brought to its attention, with full access to records, resources and personnel of the Group, to enable them to discharge its functions properly.

The AC has full access to Management and full discretion to invite any Director and officer to attend AC meetings held from time to time.

The key responsibilities of the AC include but not limited to the following:

- (1) review the scope and results of the audit and its cost effectiveness;
- (2) review the independence and objectivity of the external auditor annually;
- (3) review the significant financial reporting issues and judgments so as to ensure the integrity of the financial statements of the Group and any formal announcements relating to the Group's financial performance;
- (4) review the half year and full year financial results before submission to the Board for approval;
- (5) review and reporting to the Board the adequacy of the Group's internal controls, as set out in the 2018 Code;
- (6) review the effectiveness of the Group's internal audit function;
- (7) meet periodically with the Company's external auditor; plan and discuss the results of the audit examination without the presence of the Management;
- (8) meet periodically with the Company's internal auditor; plan and discuss the results of the evaluation of the Group's systems of internal controls without the presence of the Management;
- (9) consider and recommend to the Board on the appointment, re-appointment and removal of the external and internal auditors, and approving the remuneration and terms of engagement of the external and internal auditors;
- (10) review arrangements by which staff of the Group and external parties may, in confidentiality, raise concerns about possible improprieties in matters of financial reporting or other matters;
- (11) review the external and internal auditors' reports;
- (12) review the co-operation given by Management to the external auditor;

CORPORATE GOVERNANCE REPORT

- (13) review and approve interested persons transactions, if any, falling within the scope of Chapter 9 of Catalist Rules;
- (14) review the adequacy of the business risk management process;
- (15) review potential conflicts of interest, if any, and ensuring procedures for resolving such conflicts are strictly adhered to;
- (16) undertake such other reviews and projects as may be requested by the Board and report to the Board its findings from time to time on matters arising and requiring the attention of the AC;
- (17) review and establish procedures for receipt, retention and treatment of complaints received by the Group regarding *inter alia*, criminal offences involving the Group or its employees, questionable accounting, auditing, business, safety or other matters that impact negatively on the Group; and
- (18) generally undertake such other functions and duties as may be required by statute or the Catalist Rules, or by such amendments made thereto from time to time.

Each member of the AC will abstain from voting on any resolution and making any recommendation or participating in any deliberations of the AC in respect of matters concerning him, if any.

The AC has reviewed the non-audit services provided by the external auditor, Foo Kon Tan LLP ("**FKT**") for FY2020 and is satisfied that the non-audit services were insignificant will not affect the independence and objectivity of FKT as external auditor of the Company. The aggregate fees paid to external auditor, as well as its fees for non-audit services is disclosed in page 91 of the Annual Report.

The AC has also considered the performance of FKT based on factors such as performance, adequacy of resources and experience of the audit engagement partner and audit team assigned to the Company's and the Group's audit as well as the size and complexity of the Company and of the Group. Accordingly, the AC has recommended the re-appointment of FKT as external auditor of the Company for the ensuing year.

The Group has established a whistle-blowing policy that seeks to provide a channel for the Group's employees and external parties to raise concerns in good faith and in confidentiality about possible improprieties in matters of financial reporting or other matters such as possible corruption, suspected fraud and other non-compliance issues. The AC will address the issues and/or concerns raised and ensure that necessary arrangements are in place for the independent investigation of issues and/or concerns raised by the employees and external parties and for appropriate follow-up actions. Details of the whistleblowing policies and arrangements have been made available to the Group's employees and external parties. The Group's employees and external parties may, in confidentiality, raise concerns about possible improprieties in matters of financial reporting or other matters by submitting a whistle blowing report to the email address spfoo@spadvisory.com.sg. There were no whistleblowing reports received in FY2020.

10.2 The members of the AC are:

Mr Pao Kiew Tee (Chairman)
Mr Timothy Chen Teck-Leng
Mr Foo Shiang Ping

The AC consists of three members, all of whom are non-executive and the majority of whom, including the AC Chairman, are independent.

The Board is of the view that the AC members are appropriately qualified in discharging their duties and responsibilities and are capable of exercising sound and independent judgement in view of their requisite expertise and experience.

10.3 None of the members of the AC is a former partner or director of the Group's auditing firms or auditing corporations, and none of them has any financial interest in the Group's auditing firms or auditing corporations.

CORPORATE GOVERNANCE REPORT

10.4 The Company has outsourced its internal audit function to KPMG Services Pte Ltd (“KPMG”) (“Internal Auditors”). KPMG is a corporate member of the Institute of Internal Auditors Singapore, and is staffed with professionals with relevant qualifications and experience.

The Internal Auditors report directly to the Chairman of the AC on internal audit matters. The AC approves the appointment, termination, evaluation and compensation of the internal auditors. The Internal Auditors carry out their audit work in accordance with the Standards for the Professional Practice of Internal Auditing set by the Institute of Internal Auditors.

The Internal Auditors plan their audit schedules in consultation with but independent of Management. The internal audit plan is submitted to the AC for approval prior to implementation. The AC reviews the activities of the Internal Auditors, and meets with the Internal Auditors at least once a year to approve their audit plans and to review their report for the current reporting period. The AC ensures that the Internal Auditors have the necessary resources to perform its functions adequately.

The AC has reviewed the adequacy, effectiveness and independence of the internal audit function at least annually and is satisfied that the internal audit function is effective and independent, and the internal auditors are adequately resourced, staffed with persons with the relevant qualifications and experience as well as having the appropriate standing and independence from the Group to fulfil their mandate. The AC ensures that the Internal Auditors have unfettered access to all the Group’s documents, records, properties and personnel including access to the AC.

10.5 In performing its duties, the AC reviews the overall scope of both internal audit and external audit, and the assistance and resources given by Management to the Internal Auditor and the external auditor.

The AC also meets with the Internal Auditor and the external auditor annually after the conclusion of each financial year, without the presence of Management, to discuss the results of their respective audit findings and their evaluation of the Group’s system of accounting and internal controls.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BOLDTEK HOLDINGS LIMITED

Opinion

We have audited the financial statements of Boldtek Holdings Limited (the "Company") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 30 June 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position of the Company are properly drawn up in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)s") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 30 June 2020 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") *Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters (Continued)

Key audit matter

Revenue recognition of construction contracts

For the financial year ended 30 June 2020, the Group recognised revenue from construction works of \$35,915,000.

The Group uses estimates in accounting for its revenue from construction contracts. Revenue from construction contracts is recognised using the cost based input method that reflects the over time transfer of control to its customer. This is measured by reference to the Group's progress towards completing the performance obligations in the contract. The measure of the progress is determined based on the proportion of contract costs incurred to date to the estimated total costs.

We focused on this area because of the significant judgement required in preparing reasonable estimates of the initial budgeted costs and periodic review of the budgeted costs subsequently which could result in material variance in the amount recognised in profit or loss to date and therefore also in the current period.

How our audit addressed the matter

We assessed the revenue recognition policies adopted to ensure compliance with SFRS(I). We carried out testing of key controls over revenue recognition. We also performed substantive testing including test of details of transactions.

Our audit procedures over revenue recognition include:

- i. Obtained an understanding and tested key controls over the recognition of contract revenue and evaluated the design and implementation of key controls over the budgeting process recognition of contract costs and tested the effectiveness of these key controls, on a sample basis, and determined that these controls were operating effectively throughout the financial year;
- ii. For significant projects identified, we verified the actual costs incurred against the underlying documents such as suppliers' invoices and progress claims from subcontractors. We have performed a re-computation to ascertain whether the revenue was recognised according to the progress towards completing the performance obligation in the contract of each identified project. We have also assessed the key assumptions used by management in estimating the total budgeted costs for the new projects by inspection of supporting documents such as quotations from the suppliers and subcontractors. We also obtained supporting documentation for the variation orders from the customers for the year; and
- iii. We have checked the progress towards completing the performance obligation for significant projects against the value of work certified by the quantity surveyors of the customers to date.

Key Audit Matters (Continued)

Key audit matter

Lower of cost and net realisable value of completed properties for sale

As at 30 June 2020, the Group has completed properties for sale carried at \$5,744,000 located in Malaysia. These properties are stated at the lower of cost and net realisable value. Net realisable value represents the estimated selling price less estimated costs of completion and selling expenses. The determination of the estimated net realisable value of these properties is mainly dependent upon the management's expectations of future selling prices, which are affected by, among other things, demand supply factors, interest rates, government policies and economic conditions. There is a risk that the estimate of net realisable values exceeds future selling prices, resulting in a loss when these properties are sold.

How our audit addressed the matter

We have performed the following:

- i. Evaluated the objectivity and independence of the external valuer, and also considered the qualifications and competency of the external valuer engaged by the management;
- ii. Discussed with the external valuer on the results of the work and checked to recent transacted prices and latest market prices of comparable properties located in the vicinity of these properties;
- iii. Engaged an auditor's expert to review the adequacy of the work performed and evaluated and ascertained that the auditor's expert has the competence, capabilities and objectivity for our purpose; and
- iv. Assessed the adequacy of allowance for write down to net realisable value, if any.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I)s, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BOLDTEK HOLDINGS LIMITED (Continued)

Responsibilities of Management and Directors for the Financial Statements (Continued)

In preparing the financial statements, management is responsible for assessing the Group's or the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BOLDTEK HOLDINGS LIMITED (Continued)

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Chan Ser.

For the financial year ended 30 June 2019, the Group acquired PPE with an aggregate cost of \$6,962,000 of which \$212,000 and \$4,952,000 was acquired by means of hire purchase arrangement and borrowings, respectively. Cash payments of \$1,798,000 were made to purchase PPE.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

1 GENERAL INFORMATION

The consolidated financial statements of the Group for the financial year ended 30 June 2020 and the statement of financial position of the Company as at 30 June 2020 were authorised for issue in accordance with a resolution of the directors on the date of the Directors' Statement.

The Company is listed on the Catalist, the sponsor-supervised listing platform of The Singapore Exchange Securities Trading Limited ("SGX-ST"), and incorporated and domiciled in Singapore.

The registered office is located at 24 Kranji Road, Singapore 739465.

The principal activities of the Company are investment holding. The principal activities of the subsidiaries are disclosed in Note 3 to the financial statements.

The Company's immediate and ultimate holding corporation is Yi Investment Pte. Ltd., which is incorporated in Singapore.

2(A) BASIS OF PREPARATION

The financial statements have been prepared under the historical cost convention, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act and Singapore Financial Reporting Standards (International) ("SFRS(I)").

The financial statements are presented in Singapore Dollars which is the Company's functional currency. All the financial information is presented in thousands of Singapore Dollars ("S\$'000"), unless otherwise stated.

2(B) ADOPTION OF NEW AND REVISED SFRS(I) EFFECTIVE FOR THE CURRENT FINANCIAL YEAR

On 1 July 2019, the Group and the Company have adopted all the new and revised SFRS(I), SFRS(I) interpretations ("SFRS(I) INT") and amendments to SFRS(I), effective for the current financial year that are relevant to them. The adoption of these new and revised SFRS(I) pronouncements does not result in significant changes to the Group's and the Company's accounting policies and has no material effect on the amounts or the disclosures reported for the current or prior reporting periods, except SFRS(I) 16 *Leases* as discussed below:

SFRS(I) 16 *Leases*

SFRS(I) 16 *Leases* supersedes SFRS(I) 1-17 *Leases*, SFRS(I) INT 4 *Determining whether an Arrangement contains a Lease*, SFRS(I) INT 1-15 *Operating Leases – Incentives* and SFRS(I) INT 1-27 *Evaluating the Substance of Transactions involving the Legal Form of a Lease*, and pronounces new or amended requirements with respect to lease accounting. For lessee accounting, SFRS(I) 16 introduces significant changes by removing the distinction between operating and finance lease and requiring the recognition of a right-of-use asset and a lease liability at commencement for all leases, except for short-term leases and leases of low-value assets when such recognition exemptions are adopted. For lessor accounting, the requirements have remained largely unchanged. The impact of the adoption of SFRS(I) 16 on the Group's financial statements are discussed below.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(B) ADOPTION OF NEW AND REVISED SFRS(I) EFFECTIVE FOR THE CURRENT FINANCIAL YEAR (CONTINUED)

SFRS(I) 16 *Leases* (Continued)

The date of initial application of SFRS(I) 16 for the Group is 1 July 2019. The Group has elected the transition to SFRS(I) 16 using the cumulative catch-up (or modified retrospective) approach which requires the Group to recognise lease liabilities at the present value of future lease payments using incremental borrowing rate applicable to the leased asset and to recognise right-of-use asset equal to their lease liabilities at the date of initial application without restatement of comparatives under SFRS(I) 1-17.

(a) Definition of a lease

The new definition of a lease under SFRS(I) 16 mainly relates to the concept of 'control' that determines whether a contract contains a lease on the basis of whether the customer has the right to control the use of an identified asset for a period of time in exchange for consideration, which is in contrast to the concept of 'risks and rewards' under SFRS(I) 1-17.

The Group has elected to apply the practical expedient available on transition to SFRS(I) 16 not to reassess whether a contract is, or contains, a lease. Accordingly, the superseded definition of a lease under SFRS(I) 1-17 continues to be applied to those leases entered into, or modified, before 1 July 2019, and the Group applies the new definition of a lease and related guidance set out in SFRS(I) 16 only to those lease contracts entered into, or modified, on or after 1 July 2019. After the transition to SFRS(I) 16, the Group reassesses whether a contract is, or contains, a lease only if the terms and conditions of the contract are changed.

The new requirements for identifying a lease under SFRS(I) 16 do not change significantly the scope of contracts that will meet the definition of a lease for the Group.

(b) Lessee accounting

(i) *Former operating leases*

Before the adoption of SFRS(I) 16, the Group's non-cancellable operating lease payments in future reporting periods for land rent for leasehold properties were not recognised as liabilities in the statement of financial position but were disclosed as commitments in the notes to the financial statements, and these lease payments were reported as rental expenses in profit or loss over the lease term on a straight-line basis and presented under operating activities in the statement of cash flows. Under SFRS(I) 16, the Group recognises right-of-use assets and lease liabilities in the statement of financial position for these outstanding lease payments, reports depreciation of right-of-use assets and interest expense on lease liabilities in profit or loss, and presents these lease payments as principal repayment and interest paid separately under financing activities in the statement of cash flows.

Under SFRS(I) 16, lease incentives are recognised as part of the measurement of the right-of-use assets and lease liabilities whereas under SFRS(I) 1-17, they resulted in the recognition of a lease incentive liability, amortised as a reduction of rental expenses on a straight-line basis.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(B) ADOPTION OF NEW AND REVISED SFRS(I) EFFECTIVE FOR THE CURRENT FINANCIAL YEAR (CONTINUED)

SFRS(I) 16 Leases (Continued)

(b) Lessee accounting (Continued)

(i) Former operating leases (Continued)

The Group has elected, as a practical expedient of SFRS(I) 16, not to separate non-lease components from lease components for all classes of underlying assets and instead account for each lease component and any associated non-lease components as a single lease component, except if the non-lease component is an embedded derivative according to SFRS(I) 9.

For short-term leases and leases of low-value assets, the Group has elected for exemption under SFRS(I) 16 from recognising as right-of-use assets and lease liabilities, and to report their lease expenses in profit or loss on a straight-line basis.

On 1 July 2019, the Group applied the following SFRS(I) 16 transition provisions under the cumulative catch-up approach for each lease, or each portfolio of leases with reasonably similar characteristics, formerly classified as operating lease under SFRS(I) 1-17:

- recognises a lease liability at the present value of the remaining lease payments using the lessee's incremental borrowing rate for the underlying lease asset;
- recognises a right-of-use asset, on a lease-by-lease basis:
 - for land rent for leasehold properties and motor vehicles, at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position immediately before the date of initial application; and
- applies SFRS(I) 1-36 *Impairment of Assets* to perform an impairment review of the right-of-use asset.

The Group has adopted the following SFRS(I) 16 practical expedients when applying the cumulative catch-up transition approach to leases formerly classified as operating lease under SFRS(I) 1-17:

- elects not to recognise the right-of-use asset and lease liability for a lease with lease term ending within twelve months of the date of initial application; and
- excludes initial direct costs from the measurement of the right-of-use asset at the date of initial application.

(ii) Former finance leases

On 1 July 2019, with regards to the Group's leases of motor vehicles that were formerly classified as finance lease under SFRS(I) 1-17, the carrying amounts of the leased assets (in property, plant and equipment) and obligations under finance lease immediately before the date of initial application shall be the carrying amounts of right-of-use assets and lease liabilities at the date of initial application. Subsequently, the Group accounts for these right-of-use assets and lease liabilities in accordance with SFRS(I) 16.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(B) ADOPTION OF NEW AND REVISED SFRS(I) EFFECTIVE FOR THE CURRENT FINANCIAL YEAR (CONTINUED)

SFRS(I) 16 Leases (Continued)

(c) Lessor accounting

SFRS(I) 16 has not changed substantially how the Group as lessor accounts for leases, except when it is the intermediate lessor of sublease. Under SFRS(I) 16, the Group continues to classify leases, where it is the lessor, as either finance lease or operating lease and to account for the two types of leases differently. However, SFRS(I) 16 changes and expands the disclosures required, in particular, regarding how the Group as lessor manages the risks arising from its residual interest in leased assets.

(d) Financial impact of initial application of SFRS(I) 16

The Group's weighted average incremental borrowing rate applied to measure the Group's lease liabilities recognised in the statement of financial position on 1 July 2019 is 3.78%.

A reconciliation of the differences between the Group's operating lease commitments previously disclosed in the financial statements as at 30 June 2019 and the Group's lease liabilities recognised in the statement of financial position on 1 July 2019 is as follows:

The Group	<u>\$'000</u>
Operating lease commitments as disclosed at 30 June 2019	2,881
(Less)/Add the effect of:	
Lease with lease term ending within 12 months from date of initial application	(10)
Discounting based on the weighted average incremental borrowing rate	(818)
Obligations under finance lease at 30 June 2019 reclassified to lease liabilities	<u>190</u>
	<u>2,243</u>

(e) Deferred tax effects on adoption of SFRS(I) 16

In certain jurisdictions that the Group operates in, tax deductions are available only for the lease payments as they are paid, and no tax deduction is allowed for the leased asset depreciation or finance cost. On 1 July 2019, these tax circumstances give rise to temporary differences on initial recognition of both the right-of-use asset and lease liability. However, the deferred tax effects for these temporary differences, either initially or over the lease term, are not recognised due to application of the initial recognition exemption in SFRS(I) 1-12 Income Taxes, that explicitly excludes recognising the deferred tax effects arising from initial recognition of an asset or liability in a transaction which, at the time of the transaction, affects neither accounting profit nor taxable profit.

As at 30 June 2020, the abovementioned tax circumstances give rise to temporary difference for ROU assets and lease liabilities.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(C) NEW AND REVISED SFRS(I) IN ISSUE BUT NOT YET EFFECTIVE

At the date of authorisation of these financial statements, the Group and the Company have not adopted the new and revised SFRS(I), SFRS(I) INT and amendments to SFRS(I) that have been issued but are not yet effective to them. Management anticipates that the adoption of these new and revised SFRS(I) pronouncements in future periods will not have a material impact on the Group's and the Company's financial statements in the period of their initial application:

Reference	Description	Effective date (Annual periods beginning on or after)
<i>Amendments to References to the Conceptual Framework in SFRS(I)</i>		1 January 2020
<i>Amendments to SFRS(I) 1-1 and SFRS(I) 1-8</i>	<i>Definition of Material</i>	1 January 2020

Amendments to References to the Conceptual Framework in SFRS(I)

The Conceptual Framework for Financial Reporting is the foundation on which new accounting standards are developed. The revised Conceptual Framework became effective immediately upon its publication in March 2018. The main changes to principles in the Conceptual Framework have implications for how and when assets and liabilities are recognised and derecognised in the financial statements. Some entities may use the Conceptual Framework as a reference for selecting their accounting policies in the absence of specific SFRS(I) requirements. In these cases, the entities should review those policies and apply the new guidance retrospectively.

The Amendments to References to the Conceptual Framework in SFRS(I) are issued together with the revised Conceptual Framework. Some SFRS(I), their accompanying documents and SFRS(I) practice statements contain references to, or quotations from the Conceptual Framework. The Amendments to References to the Conceptual Framework in SFRS(I) Standards sets out amendments to SFRS(I), their accompanying documents and SFRS(I) practice statements to reflect the issue of the revised Conceptual Framework. These amendments, where they actually are updates, are effective for annual periods beginning on or after 1 January 2020, with early application permitted.

There is no material impact expected to the Group's and the Company's financial statements on initial application.

Amendments to SFRS(I) 1-1 and SFRS(I) 1-8 Definition of Material

The amendments are intended to make the definition of 'material' in SFRS(I) 1-1 easier to understand and are not intended to alter the underlying concept of materiality in SFRS(I). The concept of 'obscuring' material information with immaterial information has been included as part of the new definition. The threshold for materiality influencing users has been changed from 'could influence' to 'could reasonably be expected to influence'. The definition of 'material' in SFRS(I) 1-8 has been replaced by a reference to the definition of 'material' in SFRS(I) 1-1. In addition, the other SFRS(I) and the Conceptual Framework, which contain a definition of 'material' or refer to the term 'material', have been updated to ensure consistency.

The amendments are applied prospectively for annual periods beginning on or after 1 January 2020, with earlier application permitted.

There is no material impact expected to the Group's and the Company's financial statements on initial application.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(D) SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the financial statements in conformity with SFRS(I) requires the use of judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Significant judgements made and assumptions used in applying accounting policies

The critical accounting estimates and assumptions used and areas involving a significant degree of judgement are described below.

Construction contracts

The Group recognises revenue from construction contracts by reference to the Group's progress towards completing the performance obligation in the contract with its customers. Significant judgement is required in determining the stage of completion by reference to the contract costs incurred to date in proportion to the total estimated contract costs for each construction contract.

Management has determined that a cost-based input method for these services provides a faithful depiction of the Group's performance in transferring control of the services promised to the customers, as it reflects the Group's efforts incurred to date relative to the total inputs expected to be incurred for the contract. The measure of progress is based on the costs incurred to date as a proportion of total costs expected to be incurred up to the completion of the performance obligation within the contract.

The estimated total contract costs are based on contracted amounts and, in respect of amounts not contracted for, management relies on past experience and knowledge of the project managers and quantity surveyors to make estimates of the amounts to be incurred.

Contract revenue comprises the initial amount of revenue agreed in the contract and variations in contract work to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

Income taxes

The Group has exposure to income taxes in Singapore and Malaysia. Significant judgement is involved in determining the group-wide provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(D) SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

Significant judgements made and assumptions used in applying accounting policies (Continued)

Deferred taxation on investment properties

For the purposes of measuring deferred taxation arising from investment properties that are measured using the fair value model, management has reviewed the Group's investment property portfolios and concluded that the Group's investment properties are not held under the business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time. Instead, the investment properties are recovered through sale. Therefore, in determining the Group's deferred taxation on investment properties, management determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is not rebutted. As a result, the Group has not recognised any deferred taxation on the changes in fair value of investment properties held in Singapore as the Group is not subject to any income taxes on the fair value changes of the investment properties upon disposal.

Critical accounting estimates and assumptions used in applying accounting policies

Impairment of investments in subsidiaries

The recoverable amounts of the investments in subsidiaries are reviewed at the end of each reporting period to determine whether there is any indication that those investments have suffered an impairment loss. If any such indication exists, the recoverable amount is estimated in order to determine the extent of the impairment loss (if any). Recoverable amount is the higher of fair value less cost to sell and value in use.

In assessing value in use, management needs to estimate the future cash flows expected from the cash-generating units and an appropriate discount rate applied in order to calculate the present value of the future cash flows.

Management has evaluated the recoverability of these investments and had recognised an additional impairment loss of \$300,000 (2019 – \$10,146,000) in its subsidiaries. The recoverable amount is determined based on fair value less cost to sell as disclosed in Note 3.

The carrying amount of the Company's investments in subsidiaries is disclosed in Note 3.

Impairment of amounts due from subsidiaries

The Company held non-trade receivables due from its subsidiaries of \$5,704,000 (2019 – \$5,397,000) as at the end of the reporting period. The impairment of the amounts due from its subsidiaries are based on the expected loss model using general approach which considers the availability of highly accessible liquid assets of the subsidiaries to repay these amounts if demanded repayment at the end of the reporting period. As a result of management's assessment, an additional expected credit losses of \$1,300,000 (2019 – \$322,000) was recognised. The carrying amount of the Company's amounts due from subsidiaries is disclosed in Note 10.

Critical accounting estimates and assumptions used in applying accounting policies (Continued)

Valuation of investment properties

Investment properties are stated at fair value based on independent professional valuers. In determining the fair value, the valuers have used valuation techniques including the cost method and direct comparison method as disclosed in Note 5.

The valuers have considered valuation techniques (including direct comparison method and/or cost method) in arriving at the open market value as at the end of the reporting period. The direct comparison method involves the analysis of comparable sales of similar properties and adjusting prices to those reflective of the investment properties. Cost method involves summation of value components of the land and costs of building and adjusting relevant factors such as location and land size to ascertain the valuation of the investment properties.

The estimated fair value may differ from the price at which the Group's assets could be sold at a particular time, since actual selling prices are negotiated between willing buyers and sellers.

A 5% (2019: 5%) difference in the fair value of these assets from management's estimates would result in approximately increase/decrease of \$892,000 (2019: \$929,000) in the Group's profit or loss for the financial year. The fair values of the Group's investment properties are disclosed in Note 5.

Completed properties for sale

Completed properties for sale are stated at lower of cost and estimated net realisable value. When it is probable that the total development costs will exceed the total projected revenue, the amount in excess of net realisable value is recognised as an expense immediately.

The process of evaluating the net realisable value of the properties is subject to assumptions in respect of development plans, timing of sale and the prevailing market conditions. The Group estimated selling prices by comparing these with transacted prices of comparable properties in the vicinity or against valuation performed by independent professional valuers.

A 5% (2019 – 5%) reduction in the estimated selling prices of the properties from management's estimated selling prices would result in approximately a decrease of \$336,000 (2019: \$327,000) to the estimated net realisable value of the Group's completed properties for sale. However, this will not result in any impairment since the estimated net realisable value would still be higher than the carrying amount of the properties as at the end of the reporting period.

The carrying amount of the Group's completed properties for sale is disclosed in Note 9.

2(D) SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

Critical accounting estimates and assumptions used in applying accounting policies (Continued)

Impairment of contract assets and trade receivables

The Group uses a provision matrix to calculate expected credit loss ("ECLs") for trade receivables and contract assets. The provision rates are based on days past due for groupings of customer with similar credit risk pattern. The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e. gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the construction sector, the historical default rates are adjusted. At the end of each reporting period, historical default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is an estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables and contract assets is disclosed in Note 36.3.

The Group has recognised an allowance for ECL for contract assets and trade receivables of \$619,000 (2019: \$Nil) and \$355,000 (2019: \$Nil), respectively.

The carrying amount of the Group's and the Company's trade receivables and contract assets are disclosed in Notes 10 and 8, respectively.

2(E) SIGNIFICANT ACCOUNTING POLICIES

Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the end of the reporting period. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting period as the Company. Consistent accounting policies are applied to like transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control and continue to be consolidated until the date that such control ceases.

Losses and other comprehensive income are attributable to the non-controlling interest even if that results in a deficit balance.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Consolidation (Continued)

A change in the ownership interest of a subsidiary without a loss of control is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- de-recognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts as at that date when control is lost;
- de-recognises the carrying amount of any non-controlling interest;
- de-recognises the cumulative translation differences recorded in equity;
- recognises the fair value of the consideration received;
- recognises the fair value of any investment retained;
- recognises any surplus or deficit in profit or loss;
- re-classifies the Group's share of components previously recognised in other comprehensive income to profit or loss or retained profits, as appropriate.

A subsidiary is an investee that is controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Thus, the Group controls an investee if, and only if, the Group has all of the following:

- power over the investee;
- exposure, or rights or variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Consolidation (Continued)

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Disposal

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interest. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable SFRS(I)). The fair value of any investment retained in the former subsidiary at the date when the control is lost is regarded as the fair value on the initial recognition for subsequent accounting under SFRS(I) 9 *Financial Instruments*, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Transactions with non-controlling interest

Non-controlling interest represents the equity in subsidiary not attributable, directly or indirectly, to owners of the Company, and are presented separately in the consolidated statement of profit or loss and other comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to owner of the parent. Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the Group's interests and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owner of the parent.

Acquisitions

The acquisition method of accounting is used to account for business combinations entered into by the Group. The consideration transferred for the acquisition of a subsidiary or business comprises the fair value of the assets transferred, the liabilities incurred, and the equity interests issued by the Group.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Consolidation (Continued)

Acquisitions (Continued)

The consideration transferred also includes any contingent consideration arrangement and any pre-existing equity interest in the subsidiary measured at the fair values at the acquisition date. Acquisition-related costs are expensed as incurred.

Identifiable assets acquired, and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date.

On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree at the date of acquisition either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

The excess of (a) the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition date fair value of any previous equity interest in the acquiree over the (b) fair value of the identifiable net assets acquired is recorded as goodwill. When the excess is negative, a bargain purchase gain is recognised directly in profit or loss.

Investment in subsidiaries

In the Company's separate financial statements, investments in subsidiaries are stated at cost less allowance for any impairment losses on an individual subsidiary basis.

Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated using the straight-line method to allocate their depreciable amount over their useful lives as follows:

Leasehold buildings	Over remaining lease period
Plant and machinery	5 years
Office equipment, furniture and fittings and computers	1-5 years
Motor vehicles	5-10 years
Renovation	5 years
Dormitory	2 years

Assets under construction are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

The cost of property, plant and equipment includes expenditure that is directly attributable to the acquisition of the items. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the asset.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property, plant and equipment and depreciation (Continued)

Subsequent expenditure relating to property, plant and equipment that have been recognised is added to the carrying amount of the asset when it is probable that future economic benefits in excess of the standard of performance of the asset before the expenditure was made will flow to the Group and the cost can be reliably measured. Other subsequent expenditure is recognised as an expense during the financial year in which it is incurred.

Depreciation methods, useful lives and residual values are reviewed, and adjusted as appropriate, at each reporting period as a change in estimates.

Investment properties

Investment properties are properties held to earn rental and/or for capital appreciation.

Investment properties are initially recognised at cost and subsequently carried at fair value. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

Investment properties are subject to renovations or improvements at regular intervals. The cost of major renovations and improvements are capitalised as addition and the carrying amounts of the replaced components are written off to profit or loss. The cost of maintenance, repairs and minor improvements are charged to profit or loss when incurred.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. On disposal or retirement of an investment property, the difference between any disposal proceeds and the carrying amount is recognised in profit or loss.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by ending of owner-occupation or commencement of an operating lease to another party. Transfers are made from investment property when, and only when, there is a change in use, evidenced by the commencement of owner occupation or commencement of development with a view to sell.

Completed properties for sale

Completed properties for sale but remaining unsold at the end of the reporting period are stated at lower of cost and net realisable value. Cost is determined by apportionment of the total land cost, development costs and borrowing costs capitalised attributable to unsold properties. Net realisable value takes into account the price ultimately expected to be realised, less costs to be incurred in marketing and selling, where appropriate.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)

Financial assets

Initial recognition and measurement

Trade receivables are initially recognised when they are originated. All other financial assets are recognised only when the Group becomes a party to the contractual provisions of the instruments.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit or loss, transaction costs. Trade receivables are measured at the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party if the trade receivables do not contain a significant financing component at initial recognition.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchase or sale of financial assets that required delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date that the Group commits to purchase or sell the asset.

Subsequent measurement

The Group classifies its financial assets in the following measurement category:

- amortised cost

Financial assets at amortised cost (debt instruments)

Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired, and through amortisation process.

Subsequent measurement of debt instruments depends on the Group's business model with the objective to hold financial assets in order to collect contractual cash flows and the contractual cash terms of the financial asset give rise on specific dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Group's financial assets at amortised cost includes trade and other receivables, staff advances, deposits, cash and bank balances.

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)

Financial assets (Continued)

Derecognition

A financial asset (or, where applicable, part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired; or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets and contract assets

The Group assesses on a forward-looking basis the ECLs associated with its financial assets carried at amortised cost and contract assets. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECLs). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECLs).

For contract assets and trade receivables, the Group measures the loss allowance at an amount equal to the lifetime expected credit losses. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at the end of each reporting period. The Group has established an allowance matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group considers a financial asset in default when contractual payments are 90 days due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)

Financial liabilities

Initial recognition and measurement

Financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the financial instrument. All financial liabilities are initially measured at fair value less directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, deposits, accrued operating expenses, lease liabilities and borrowings.

Subsequent measurement for financial liabilities that are not carried at fair value through profit or loss

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss.

Derecognition

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

Financial guarantee

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument. Financial guarantees are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee.

Subsequent to initial recognition, financial guarantees are measured at the higher of the amount of the loss allowance determined in accordance with the impairment model under SFRS(I)9 *Financial Instruments* and the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Contract assets and liabilities

Contract assets primarily relate to the Group's rights to consideration for work completed but not billed at the end of the reporting period on construction contracts. Contract assets are transferred to trade receivables when the rights become unconditional. This usually occurs when the Group invoices the customer.

Contract liabilities primarily relate to:

- advance consideration received from customers; and
- progress billings issued in excess of the Group's rights to the consideration.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a first-in, first-out basis, and includes all costs in bringing the inventories to their present location and condition.

Allowance is made for obsolete, slow-moving and defective inventories in arriving at the net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

Cash and bank balances

Cash and bank balances in the consolidated statement of cash flows comprise cash balances and bank deposits.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

Dividends

Final dividends proposed by the directors are not accounted for in shareholders' equity as an appropriation of retained profits, until they have been approved by the shareholders in a general meeting. When these dividends have been approved by the shareholders and declared, they are recognised as a liability.

Interim dividends are simultaneously proposed and declared, because the articles of association of the Company grant the directors the authority to declare interim dividend. Consequently, interim dividends are recognised directly as a liability when they are proposed and declared.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Provision

A provision is recognised when the Company and the Group have a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Present obligations arising from onerous contracts are recognised as provisions.

The directors review the provision annually and where in their opinion, the provision is inadequate or excessive, due adjustment is made.

If the effect of the time value of money is material, provision is discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of the time is recognised as finance costs.

Leases (from 1 July 2019)

(i) the Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of twelve months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

(a) Lease liability

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses the incremental borrowing rate specific to the lessee. The incremental borrowing rate is defined as the rate of interest that the lessee would have to pay to borrow over a similar term and with a similar security the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (from 1 July 2019) (Continued)

(i) the Group as lessee (Continued)

(a) Lease liability (Continued)

Variable lease payments that are not based on an index or a rate are not included as part of the measurement and initial recognition of the lease liability. The Group shall recognise those lease payments in profit or loss in the periods that trigger those lease payments.

For all contracts that contain both lease and non-lease components, the Group has elected to not separate lease and non-lease components and account these as one single lease component.

The lease liabilities are presented as a separate line item in the statement of financial position.

The lease liability is subsequently measured at amortised cost, by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (with a corresponding adjustment to the related right-of-use asset or to profit or loss if the carrying amount of the right-of-use asset has already been reduced to nil) whenever:

- the lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used); or
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

(b) Right-of-use asset

The right-of-use asset comprises the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under SFRS(I) 1-37. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (from 1 July 2019) (Continued)

(i) the Group as lessee (Continued)

(b) Right-of-use asset (Continued)

Depreciation on right-of-use assets is calculated using the straight-line method to allocate their depreciable amounts over the shorter period of lease term and useful life of the underlying asset, as follows:

Land use for leasehold properties	Over remaining lease period
Motor vehicles	10 years

If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented within "property, plant and equipment" in the statement of financial position.

The Group applies SFRS(I) 1-36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

(ii) the Group as lessor

Generally, the accounting policies applicable to the Group as a lessor in the comparative period were not different from SFRS(I) 16, except for the classification of the sublease entered into that resulted in a finance lease classification.

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

At inception or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. If an arrangement contains lease and non-lease components, then the Group applies SFRS(I) 15 to allocate the consideration in the contract.

The Group recognises lease payments received from investment property under operating leases as income on a straight-line basis over the lease term within "other income" in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Leases (before 1 July 2019)

Where the Group is the lessee,

Finance leases

Where assets are financed by lease agreements that give rights approximating to ownership, the assets are capitalised as if they had been purchased outright at values equivalent to the lower of the fair values of the leased assets and the present value of the total minimum lease payments during the periods of the leases. The corresponding lease commitments are included under liabilities. The excess of lease payments over the recorded lease obligations are treated as finance charges which are amortised over each lease to give a constant effective rate of charge on the remaining balance of the obligation.

The leased assets are depreciated on a straight-line basis over their estimated useful lives as detailed in the accounting policy on "Property, plant and equipment".

Operating leases

Rentals on operating leases are charged to profit or loss on a straight-line basis over the lease term unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Lease incentives, if any, are recognised as an integral part of the net consideration agreed for the use of the leased asset. Penalty payments on early termination, if any, are recognised in profit or loss when incurred.

Where the Group is the lessor,

Operating leases

The Group leases out its investment property. Rental income (net of any incentives given to the lessees) is recognised on a straight-line basis over the lease term unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished.

Income taxes

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of reporting period.

Deferred tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income taxes (Continued)

A deferred tax liability is recognised on temporary differences arising on investments in subsidiaries, except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

Deferred income tax is measured:

- (i) at the tax rates that are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period; and
- (ii) based on the tax consequence that will follow from the manner in which the Group expects, at the date of the financial position, to recover or settle the carrying amounts of its assets and liabilities except for investment properties measured using the fair value model. For the purposes of measuring deferred tax liabilities and deferred tax assets for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model of the Group whose business objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. The Group has not rebutted the presumption that the carrying amount of the investment properties will be recovered entirely through sale.

Current and deferred taxes are recognised as income or expense in the profit or loss, except to the extent that the tax arises from a business combination or a transaction which is recognised either in other comprehensive income or directly in equity. Deferred tax arising from a business combination is adjusted against goodwill on acquisition.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets and they relate to income taxes levied by the same tax authorities on the same taxable entity, or on different tax entities, provided they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Employee benefits

Short-term employee benefits

Short-term benefit obligations, including accumulated compensated absences, are measured on an undiscounted basis and are expensed as the related service is provided. A provision is recognised for the amount expected to be paid under short-term cash bonuses if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

The Company and the Group participate in the defined contribution national pension schemes as provided by the laws of the countries in which it has operations. In particular, the Singapore incorporated companies in the Group contribute to the Central Provident Fund, a defined contribution plan regulated and managed by the Government of Singapore, which applies to the majority of the employees. The contributions to national pension schemes are charged to the profit or loss in the period to which the contributions relate.

Employee leave entitlements

Employee entitlements to annual leave are recognised when they accrue to employees. Provision is made for the estimated liability for the unconsumed leave as a result of services rendered by employees up to the end of reporting period.

Employee Share Option Scheme

The Group issues equity-settled share-based payments to certain employees. Equity settled share-based payments are measured at fair value of the equity instruments at the date of grant. The fair value of the employee services received in exchange for the grant of options is recognised as an expense in profit or loss with a corresponding increase in the share option reserve over the vesting period. The total amount to be recognised over the vesting period is determined by reference to the fair value of the options granted on the date of the grant.

When the options are exercised, the proceeds received (net of transaction costs) and the related balance previously recognised in the share option reserve are credited to share capital account, when new ordinary shares are issued, or to the 'treasury shares' account, when treasury shares are re-issued to the employees.

Key management personnel

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the entity. Directors are considered key management personnel.

Related parties

A related party is defined as follows:

- (a) A person or a close member of that person's family is related to the Company and the Group if that person:
 - (i) has control or joint control over the Company;
 - (ii) has significant influence over the Company; or
 - (iii) is a member of the key management personnel of the Company or the Group or of a parent of the Company.

- (b) An entity is related to the Company and the Group if any of the following conditions applies:
 - (i) the entity and the Company are members of the same group (which means that each parent, subsidiary corporation and fellow subsidiary corporation is related to the others);
 - (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) both entities are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); or
 - (viii) the entity, or any member of a group which is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

Impairment of non-financial assets

The carrying amounts of the Company's and the Group's non-financial assets subject to impairment are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

If it is not possible to estimate the recoverable amount of the individual asset, then the recoverable amount of the cash-generating unit to which the assets belong will be identified.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which management controls the related cash flows.

Individual assets or cash-generating units that include goodwill and other intangible assets with an indefinite useful life or those not available for use are tested for impairment at least annually. All other individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of fair value, reflecting market conditions less costs to sell and value-in-use, based on an internal discounted cash flow evaluation. Impairment losses recognised for cash-generating units, to which goodwill has been allocated, are credited initially to the carrying amount of goodwill. Any remaining impairment loss is charged pro-rata to the other assets in the cash-generating unit. With the exception of goodwill, all assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist.

Any impairment loss is charged to profit or loss unless it reverses a previous revaluation in which case it is charged to equity.

With the exception of goodwill,

- An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount or when there is an indication that the impairment loss recognised for the asset no longer exists or decreases.
- An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognised.
- A reversal of an impairment loss on a revalued asset is credited directly to equity under the heading revaluation surplus. However, to the extent that an impairment loss on the same revalued asset was previously recognised as an expense in the profit or loss, a reversal of that impairment loss is recognised as income in the profit or loss.

An impairment loss in respect of goodwill is not reversed, even if it relates to impairment loss recognised in an interim period that would have been reduced or avoided had the impairment assessment been made at a subsequent reporting or end of reporting period.

Functional currencies

Functional and presentation currency

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements of the Company and the Group are presented in Singapore Dollars ("SGD"), which is also the functional currency of the Company.

Conversion of foreign currencies

Transactions and balances

Transactions in a currency other than the functional currency ("foreign currency") are translated into the functional currency using the exchange rates at the dates of the transactions. Currency translation differences resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the end of the reporting period are recognised in profit or loss. However, in the consolidated financial statements, currency translation differences arising from borrowings in foreign currencies and other currency instruments designated and qualifying as net investment hedges and net investment in foreign operations, are recognised in other comprehensive income and accumulated in the currency translation reserve.

When a foreign operation is disposed of or any borrowings forming part of the net investment of the foreign operation are repaid, a proportionate share of the accumulated translation differences is reclassified to profit or loss, as part of the gain or loss on disposal.

Foreign currency gains and losses are reported on a net basis as either other income or other expenses depending on whether foreign currency movements are in a net gain or net loss position.

Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates at the date when the fair values are determined.

Group entities

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities are translated at the closing exchange rates at the end of reporting period of that statement of financial position;
- (ii) income and expenses for each statement presenting profit or loss and other comprehensive income (i.e. including comparatives) shall be translated at exchange rates at the dates of the transactions; and
- (iii) all resulting currency translation differences are recognised in other comprehensive income and accumulated in the currency translation reserve.

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue from contracts with customers for construction works, building and maintenance, precast manufacturing and sales of completed properties for sale

The Group recognises revenue from contracts with customers based on a five-step model as set out in SFRS(I) 15 *Revenue from Contracts with Customers*:

- Step 1 : Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties which creates enforceable rights and obligations and sets out the criteria for every contract that must be met.
- Step 2 : Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.
- Step 3 : Determine the transaction price: The transaction price is the amount of the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- Step 4 : Allocate the transaction price to the performance obligations in the contract: The transaction price is allocated to each performance obligation on the basis of the relative stand-alone selling prices of each distinct good or service promised in the contract.
- Step 5 : Recognise revenue when (or as) the Group satisfies a performance obligation.

The Group satisfies a performance obligation and recognised revenue over time, if one of the following criteria is met:

- (a) The Group's performance obligation does not create an asset with an alternate use to the Group and the Group has an enforceable right to payment for performance completed to date.
- (b) The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- (c) The customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs.

For performance obligations where one of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

When the Group satisfies a performance obligation by delivering the promised goods or services, it creates a contract-based asset on the amount of consideration earned by the performance. Where the amount of consideration received from a customer exceeds the amount of revenue recognised this gives rise to a contract liability.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognises revenue when it transfers control over a product or service to a customer.

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue from contracts with customers for construction works, building and maintenance, precast manufacturing and sales of completed properties for sale (Continued)

Nature of goods and services

The following is a description of principal activities – separated by reportable segments – from which the Group generates its revenue.

Revenue from construction works

Revenue from construction works is recognised over time as the Group's performance enhances a customer-controlled asset (i.e. asset constructed on premise that is owned by the customer and the Group has an enforceable right to payment for performance completed to date). The stage of completion is assessed by reference to the contract costs incurred to date in proportion to the total estimated contract costs of each contract.

Revenue from building and maintenance

Revenue from building and maintenance is recognised over time as these services are continuously transferred to the customers over the duration of the contracts.

Revenue from precast manufacturing

Revenue from sales of goods is recognised when control of the goods has been transferred to the customer, being when the goods have been delivered to the customer and all criteria for acceptance has been satisfied.

Rental income

The Group's policy for recognition of income from operating leases is recognised on a straight-line basis over the lease term.

Revenue from sales of completed properties for sale

Revenue from sales of completed properties for sale is recognised when control of the asset is transferred to the buyer, which may be:

- (a) over time; or
- (b) at a point in time.

Under (a), whereby the Group has an enforceable right to payment for performance completed to date and the Group's performance does not create an asset with alternative use to the Group, revenue is recognised over time based on the percentage of completion of construction. The percentage of completion is measured by reference to the construction costs incurred to date to the estimated total construction costs.

Under (b), whereby the Group has no enforceable right to payment until control has passed to the customer, revenue is recognised when the legal title has been transferred to the customer.

In determining whether revenue should be recognised over time or at a point in time, the Group evaluates and considers the terms and conditions of the sale of the properties.

NOTES TO THE FINANCIAL STATEMENTS

2(E) SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Operating segments

For management purposes, operating segments are organised based on their products and services which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge. The segment managers are directly accountable to the Chief Executive Officer who regularly reviews the segment results in order to allocate resources to the segments and to assess segment performance.

Note a:

During the financial year ended 30 June 2019, the Company had waived off the debt owing by one of its subsidiary amounting to \$7,346,000. As this constitutes a capital contribution and transaction with its subsidiary, the forgiveness of debt resulted in an increase to the cost of investment in the subsidiary.

Note b:

As at 30 June 2020, impairment test on the investments in subsidiaries were triggered due to the poor financial performance of the subsidiaries. Each subsidiary is identified as a specific cash-generating unit ("CGU"). Based on the recoverable amount of the investment in subsidiaries, determined based on the higher of fair value less costs to sell and value-in-use, the Company recognised an impairment loss of \$300,000 (2019: \$10,146,000) on the investment in subsidiaries.

In determining the recoverable amount of the investment in subsidiaries, management had considered the underlying assets and liabilities of the investees held by the subsidiaries, including the engagement of an independent valuer to determine the fair values of the investment property and completed properties for sale located in Malaysia.

3 INVESTMENTS IN SUBSIDIARIES (CONTINUED)

The fair value of the completed properties for sale has been estimated using the direct comparison method based on the recent selling prices of similar properties. The significant unobservable inputs used in the valuation were the location, size, age and condition of the property. Accordingly, the fair value measurement of the completed properties for sale is categorised as an unobservable level 3 input. Details of the fair value measurement of the investment property is disclosed in Note 5.

Fair value measurement of the Group's investment properties

The fair values of the Group's investment properties at 30 June 2020 and 2019 have been determined on the basis of valuations carried out at the respective financial year end by independent valuers having an appropriate recognised professional qualification and recent experience in the location and category of the properties being valued, and not related to the Group. In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The details of the Group's investment properties and the fair value hierarchy are as follows:

Outstanding balances with subsidiaries are unsecured, interest-free and repayable on demand. As at the reporting date, management carried out an expected credit losses review on the amounts extended to its subsidiaries. For amounts due from subsidiaries which are repayable on demand, expected credit losses are based on the assumption that repayment of these amounts due from subsidiaries are demanded at the reporting date. Based on management's assessment, the amounts due from a subsidiary could not be repaid if demanded at the reporting date after considering the highly accessible liquid assets of this subsidiary. Accordingly, the Company recognised an additional impairment loss of \$1,300,000 (2019 - \$322,000) on the amounts due from this subsidiary.

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

15 CURRENCY TRANSLATION RESERVE

Currency translation reserve arises from the translation of the financial statements of foreign operations whose functional currencies are different from the functional currency of the Company, which is also the presentation currency of the financial statements.

16 MERGER RESERVE

Merger reserve represents the difference between the cost of investment and nominal value of share capital of the subsidiaries acquired under common control.

17 CAPITAL RESERVE

Capital reserve represents the effects of changes in ownership interests in subsidiaries when there is no change in control.

18 PROPERTY REVALUATION RESERVE

Property revaluation reserve arises on the transfer of an owner-occupied property to an investment property carried at fair value. The difference between the carrying amount of the property and its fair value at that date of transfer was recognised in other comprehensive income. When the investment property is subsequently disposed, property revaluation reserve is effectively realised and is transferred directly to retained profits.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

19 SHARE OPTION RESERVE

Share option reserve represents the equity-settled share options granted to employees (Note 31). The reserve is made up of the value of services received from employees recorded on grant of equity-settled share options.

30 (LOSSES)/EARNINGS PER SHARE ATTRIBUTABLE TO OWNER OF THE PARENT

(Losses)/Earnings per share is calculated based on the consolidated net (loss)/profit attributable to owner of the parent divided by the weighted average number of shares in issue during the financial year.

The Group	2020	2019
(Loss)/Profit attributable to owner of the parent (\$'000)	(3,948)	817
Weighted average number of shares in issue ('000)	185,625	185,625
Basic and diluted (losses)/earnings per share (cents)	(2.13)	0.44

For the financial years ended 30 June 2020 and 2019, the basic and diluted (losses)/earnings per share are the same as the outstanding options are anti-dilutive.

31 SHARE-BASED PAYMENTS

Employee share option scheme

The Company has an employee share incentive plan for the granting of non-transferable options to directors and other full-time eligible employees. Options are granted for a term of 10 years to purchase the Company's ordinary shares at the price of \$0.126 for each share. 25%, 50%, 75% and 100% of the options are exercisable beginning on the first, second, third and fourth anniversary respectively from the date of the grant.

Information with respect to the number of options granted under the Company's employee share option plan is as follows:

	Number of share options	Weighted average exercise price	Number of share options	Weighted average exercise price

The options outstanding at the end of financial year have remaining contractual life of 8.42 years.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

31 SHARE-BASED PAYMENTS (CONTINUED)

Employee share option scheme (Continued)

The fair value of share options as at the date of grant, had been estimated by an external valuer using a Trinomial model, taking into account the terms and conditions upon which the options were granted. The inputs to the model are shown below.

The Company and The Group	
Weighted average share price	\$0.102
Weighted average exercise price	\$0.126
Expected volatility	68.86%
Expected option life	10
Risk free rate	2.01%
Expected dividend yield	Nil
Fair value at measurement date	\$0.101

The expected life of the options is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. Other than stated, no other features of the option grant were incorporated into the measurement of fair value.

33 LEASES (CONTINUED)

Right-of-use assets (Continued)

(ii) The Group as lessor

Investment properties

Operating leases, in which the Group is the lessor, relate to investment properties (Note 5) owned by the Group with lease terms between 1 to 2 years with one-year extension option. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

These leases are classified as operating lease because the risk and rewards incidental to ownership of the assets are not substantially transferred.

The Group's revenue from rental income received on the investment properties are disclosed in Note 25.

The future minimum rental receivable under non-cancellable operating leases contracted for at the reporting period:

34 OPERATING LEASE COMMITMENTS (NON-CANCELLABLE)

(i) Where the Group is lessee

As at 30 June 2019, the Group is committed to making the following rental payments in respect of non-cancellable operating leases for land rent for leasehold building and office under non-cancellable operating lease agreements.

The Group	2019
	\$'000
Not later than one year	223
Later than one year and not later than five years	2,658
	2,881

Leases are negotiated for terms ranging from one to twenty years. The land rent will be subjected to a yearly revision based on the prevailing market rent for the leasehold buildings.

As disclosed in Note 2(b), the Group has adopted SFRS(I) 16 on 1 July 2019. These lease payments have been recognised as right-of-use assets and lease liabilities on the statement of financial position as at 1 July 2019 except for short-term lease.

34 OPERATING LEASE COMMITMENTS (NON-CANCELLABLE) (CONTINUED)

(iii) Where the Group is lessor

At the end of the reporting period, the Group had the following rental income under non-cancellable lease for investment properties to non-related parties under non-cancellable operating lease.

The Group	2019
	\$'000
Not later than one year	65

Leases are negotiated for term of one year and rentals are fixed.

35 OPERATING SEGMENTS

The Group's operating segments are its strategic business units which offer different services and are managed separately. Management has determined the operating segments based on the reports reviewed by the Chief Executive Officer that are used to make strategic decisions, allocate resources and assess performance. Currently the business segments operate in Singapore and Malaysia.

The accounting policies of the reportable segments are the same as the Group's accounting policies described in Note 2. Other services included in Singapore are investment holding, which are not included within the reportable operating segments, as these are not included in the reports provided to the Board of Directors. The results of these operations, if any, are included in the "unallocated segments".

The Group's activities comprise the following reportable segments:

- (i) General building which involved the construction and building and maintenance works such as excavation, piling, sub-structures and superstructures works, architectural works, aluminium cladding and curtain walling, mechanical and engineering works, supply and installation of furniture/interior fitting-out works, external works, and landscaping;
- (ii) Precast manufacturing which involved the manufacturing and trading of concrete precast products;
- (iii) Properties development and investment which involved investment in and trading of and development of industrial and residential properties; and
- (iv) Soil investigation and treatment which involved providing consultation services. This segment does not meet the quantitative threshold required by *SFRS(I) 8 Operating Segments* for the reportable segments. Management has concluded that this segment should be reported, as it is closely monitored by the Board of Directors as a potential growth operating segment and is expected to contribute to the Group's revenue in the future.

36 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's and the Group's financial risk management policies set out the Company's and the Group's overall business strategies and its risk management philosophy. The Company and the Group are exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, interest rate risk and foreign currency risk. The Company's and the Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise adverse effects from the unpredictability of financial markets on the Company's and the Group's financial performance.

The Board of Directors are responsible for setting the objectives and provide principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative and non-derivative financial instruments and investing excess liquidity.

The Group does not hold or issue derivative financial instruments for speculative purposes.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

36 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

There has been no change to the Company's and the Group's exposure to these financial risks or the manner in which it manages and measures the risk. Market risk exposures are measured using sensitivity analysis indicated below.

36.1 Foreign currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Currency risk arises when transactions are denominated in foreign currencies.

The Company is not exposed to foreign currency risk as it does not have any transactions transacted in currency other than SGD.

The Group has transactional currency exposures that are denominated in currency other than the respective functional currencies of group entities, primarily SGD.

Sensitivity analysis for foreign currency risk

The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a 5% change in foreign currency rates. The sensitivity analysis includes advances to foreign operations within the Group where they gave rise to an impact on the Group's profit or loss.

If SGD weakens or strengthens by 5% (2019 – 5%) against the functional currency of each group entity, the Group's total loss for the financial year end will decrease/increase by \$1,105,000 (2019 – total profit for the financial year will increase/decrease by \$964,000).

36.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates. The Group's exposure to interest rate risk arises primarily from its debt obligations with financial institutions.

The Group manages its interest rate risk by keeping bank borrowings to the minimum required to sustain the operations of the Group.

Sensitivity analysis for interest rate risk

If interest rates had been 50 (2019 – 50) basis points higher or lower and all other variables were held constant, the Group's total loss for the financial year would increase/decrease by \$158,000 (2019: total profit for the financial year would decrease/increase by \$136,000). This is mainly attributable to the Group's exposure to interest rates on its variable rate bank borrowings.

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

36 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

36.3 Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligation, and arises principally from the Group's receivables from customers and contract assets.

The carrying amount of financial assets in the statement of financial position represents the Group's and the Company's respective maximum exposure to credit risk, before taking into account any collateral held. The Group and the Company do not hold any collateral in respect of its financial assets.

The Group's exposure to credit risk is influenced mainly by the characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk associated with the industry and country in which customers operate, as these factors may have an influence on credit risk.

Expected credit loss assessment for customers

The Group uses a provision allowance matrix to measure the ECL of trade receivables and contract assets from customers.

The provision matrix is based on loss rates determined from actual credit loss experience over the past three years, current economic conditions and the Group's view of economic conditions over the receivables. These scalar factors are calculated using statistical models that determine numeric co-relation of loss rates with relevant economic variables.

Scalar factors are based on actual and forecasted gross domestic product and is in the range of -6.0% to 3.9% (2019: 1.0% to 4.1%) for overall market condition.

In measuring ECL, trade receivables and contract assets are grouped based on shared credit risk characteristics and days past due. The contract assets relate mainly to projects where the revenue has been accrued ahead of billings to customers, which have substantially the same risk characteristics as the trade receivables for the same type of contracts.

The Group has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

36.3 Credit risk (Continued)

Expected credit loss assessment for customers (Continued)

The following table provides information about the exposure to credit risk and ECLs for trade receivables and contract assets for customers under lifetime ECL approach:

Past due 91 – 180 days	287	–	287
More than 180 days	708	–	708
	50,456	–	50,456

The Group has recognised an allowance for ECL for contract assets and trade receivables of \$619,000 (2019: \$Nil) and \$355,000 (2019: \$Nil), respectively.

Amounts due from subsidiaries

At the end of the reporting date, the Company has assessed its subsidiaries' financial performance to meet the contractual cash flow obligations and has provided an additional expected credit loss allowance of \$1,300,000 (2019: \$322,000) for non-trade amounts due from a subsidiary. The amounts due from other subsidiaries are considered to be of low credit risk and subject to immaterial credit loss. Credit risk for these amounts has not increased significantly since their initial recognition.

Cash and bank balances

The Group and the Company held cash and bank balances of \$3,514,000 (2019: \$1,886,000) and \$73,000 (2019: \$140,000), respectively, at 30 June 2020. The bank balances are held with banks which are regulated.

Impairment on cash and bank balances has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and bank balances have low credit risk based on the external credit ratings of the counterparties. The amount of the allowance on cash and bank balances was negligible.

36 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

36.4 Liquidity risk

Liquidity risk is the risk that the Company or the Group will encounter difficulty in raising funds to meet commitments associated with financial instruments that are settled by delivering cash or another financial asset. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value.

The Company's and the Group's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company and the Group manage their liquidity risk by ensuring the availability of funding through an adequate amount of credit facilities from financial institutions.

The table below analyses the maturity profile of the Group's financial liabilities based on undiscounted cash flows and includes both interest and principal cash flows. The adjustment column represents the possible future cash flows attributable to the instruments included in the maturity analysis which are not included in the carrying amount of the financial liabilities on the statement of financial position:

The Group	On demand or within one year \$'000	Between two and five years \$'000	More than five years \$'000	Adjustment \$'000	Total \$'000

Borrowings	22,869	5,097	-	(677)	27,289
	50,909	5,097	-	(677)	55,329

The Company's financial liabilities are due within one year from the end of the reporting date. The maximum exposure of the Company in respect of the intra-group financial guarantee at the end of the reporting date is if the facility is drawn down by the subsidiaries in the amount of \$5,025,000 (2019 - \$7,419,000). At the end of the reporting date, the Company has considered it is not probable that a claim will be made against the Company under the intra-group financial guarantee. The Company has also evaluated and is of the view that both the fair values of the corporate guarantees and the consequential liabilities derived from its guarantees to the financial institutions with regard to the subsidiaries are not material. There is no significant difference in interest rates charged on secured loans to subsidiaries with or without the corporate guarantee from the Company.

The Company and the Group ensure that there are adequate funds to meet all its obligations in a timely and cost-effective manner.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

37 CAPITAL MANAGEMENT

The Company's and the Group's objectives when managing capital are:

- (a) To safeguard the Company's and the Group's ability to continue as a going concern;
- (b) To support the Company's and the Group's stability and growth;
- (c) To provide capital for the purpose of strengthening the Company's and the Group's risk management capability; and
- (d) To provide an adequate return to shareholders.

The Company and the Group actively and regularly review and manage its capital structure to ensure optimal capital structure and shareholder returns, taking into consideration the future capital requirements of the Company and the Group and capital efficiency, prevailing and projected profitability, projected operating cash flows, projected capital expenditures and projected strategic investment opportunities. The Company and the Group currently do not adopt any formal dividend policy.

The capital structure of the Group consists of equity attributable to owner of the parent, comprising issued capital, reserves and retained profits.

The Company and the Group monitor capital using net debt to total capital ratio, which is net debt divided by total capital. Total capital is calculated as total equity plus net debt.

There were no changes in the Company's and the Group's approach to capital management during the financial year.

The Company and its subsidiaries are not subject to externally imposed capital requirements.

Following the adoption of SFRS(I) 16 Leases, net debt to total capital has increased from 65.4% to 69.17%. This is due to the recognition of right-of-use assets and lease liabilities on 1 July 2019. The comparative information has not been restated.

39 FAIR VALUE MEASUREMENT

39.1 Definition of fair value

SFRS(I)s define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2020

39 FAIR VALUE MEASUREMENT (CONTINUED)

39.2 Fair value measurement of financial instruments

Financial assets and financial liabilities measured at fair value in the statements of financial position are grouped into three Levels of fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

- Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 : inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 : unobservable inputs for the asset or liability

Fair value of financial assets and financial liabilities that are not measured at fair value on a recurring basis (but fair value disclosures are required)

Except as detailed in the following table, management considers that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the financial statements approximate their fair values at the end of the reporting date.

The carrying amounts of the bank loans, repayable within one year or less, or on demand approximate their fair value.

For the current financial year, the fair value disclosure of lease liabilities is also not required.

40 SUBSEQUENT EVENTS

The Covid-19 pandemic has affected almost all countries of the world, and resulted in border closures, production shutdowns, workplace closures, movement controls and other measures imposed by the various governments.

The Singapore Government imposed a Circuit Breaker period from 7 April 2020 to 1 June 2020 during which all non-essential services, including construction activities were suspended. The Circuit Breaker measures were subsequently lifted from 2 June 2020 in progressive phases but with tight measures and new regulations in place. In Malaysia where the Group also operates in, similar movement control or lockdown were also implemented. This has resulted in significant disruptions in the Group's operations and business activities in the 4th quarter of the financial year ended 30 June 2020.

While almost all the construction projects have resumed work, the resumption of on-site operations has remained a challenge with workers being placed under quarantine if they have come in close contact with a Covid-19 case. Worksite practises that require redesign for safe distancing have affected construction timelines.

At the date of these financial statements, the global Covid-19 outbreak remains fluid, as a result of which the Group cannot reasonably estimate the duration and severity of the disruptions, as well as, ascertain the full extent of the probable impact on the Group's operating and financial performance for the financial year ending 30 June 2021. Management will continue to assess the impact of the Covid-19 outbreak on the Group.

In August 2020, the Company entered into a joint venture (the "JV") agreement with Neo Group Limited to carry out the business of property development, investment and management, or such other businesses as the JV may agree from time to time. The JV investment will be funded through internal resources.

NOTICE IS HEREBY GIVEN THAT the Annual General Meeting (“AGM”) of Boldtek Holdings Limited (the “Company”) will be held by way of electronic means on the 26 November 2020 at 3.00 p.m. for the following purposes:

AS ORDINARY BUSINESS

1. To receive and adopt the Audited Financial Statements of the Company for the financial year ended 30 June 2020 (“FY2020”) together with the Directors’ Statement and Auditors’ Report thereon. **(Resolution 1)**
2. To approve the payment of Directors’ Fees of S\$138,600.00 for the financial year ending 30 June 2021, to be paid on a quarterly basis in arrears. (2020: S\$138,600) **(Resolution 2)**
3. To re-elect Ms Ong Siew Eng who is retiring under Regulation 107 of the Constitution, as Director of the Company. **(Resolution 3)**
[See Explanatory Note (1)]
4. To re-elect Mr Foo Shiang Ping who is retiring under Regulation 107 of the Constitution, as Director of the Company. **(Resolution 4)**
[See Explanatory Note (1)]
5. To re-appoint Messrs Foo Kon Tan LLP as the Company’s Auditors and to authorise the Directors to fix their remuneration. **(Resolution 5)**
6. To transact any other ordinary business that may be properly transacted at an annual general meeting.

AS SPECIAL BUSINESS

To consider and, if thought fit, to pass the following resolutions as an Ordinary Resolution with or without modifications:

7. AUTHORITY TO ALLOT AND ISSUE SHARES IN THE CAPITAL OF THE COMPANY (THE “SHARE ISSUE MANDATE”)

THAT pursuant to the provisions of Section 161 of the Companies Act, Cap. 50 of Singapore (the “Act”) and Rule 806 of the Listing Manual – Section B: Rules of Catalist (“Rules of Catalist”) of the Singapore Exchange Securities Trading Limited (the “SGX-ST”), the Directors be and are hereby authorised and empowered to:

- (a) (i) allot and issue shares in the capital of the Company (“Shares”) whether by way of rights, bonus or otherwise; and/or
- (ii) make or grant offers, agreements or options (collectively, “Instruments”) that might or would require Shares to be issued, including but not limited to the creation and issue of (as well as adjustments to) options, warrants, debentures or other instruments convertible into Shares,

at any time and upon such terms and conditions and for such purposes and to such persons as the Directors of the Company may, in their absolute discretion deem fit; and

- (b) notwithstanding that the authority conferred by this Resolution may have ceased to be in force, issue Shares in pursuance of any Instrument made or granted by the Directors while this Resolution is in force,

provided that:

- (i) the aggregate number of Shares (including Shares to be issued in pursuance of the Instruments, made or granted pursuant to this Resolution), to be issued pursuant to this Resolution shall not exceed one hundred per cent (100%) of the total number of issued Shares (excluding treasury shares and subsidiary holdings) of the Company (as calculated in accordance with sub-paragraph (ii) below), of which the aggregate number of Shares to be issued other than on a

NOTICE OF ANNUAL GENERAL MEETING

pro-rata basis to existing shareholders of the Company (including Shares to be issued in pursuance of Instruments made or granted pursuant to this Resolution) shall not exceed fifty per cent (50%) of the total number of issued Shares (excluding treasury shares and subsidiary holdings) of the Company (as calculated in accordance with sub-paragraph (ii) below);

- (ii) (subject to such manner of calculation as may be prescribed by the SGX-ST), for the purpose of determining the aggregate number of Shares that may be issued under sub-paragraph (i) above, the percentage of the total number of issued Shares (excluding treasury shares and subsidiary holdings, if any) shall be based on the total number of issued Shares (excluding treasury shares and subsidiary holdings, if any) in the capital of the Company at the time of passing of this Resolution, after adjusting for:

- (1) new Shares arising from the conversion or exercise of any Instruments or any convertible securities;
- (2) new Shares arising from exercising of share options or vesting of share awards; and
- (3) any subsequent bonus issue, consolidation or sub-division of Shares.

Adjustments in accordance with (b)(i)(1) or (b)(iii)(2) above are only to be made in respect of new shares arising from convertible securities, share options or share awards which were issued and outstanding or subsisting at the time of the passing of this Resolution.

- (c) in exercising the authority conferred by this Resolution, the Company shall comply with the provisions of the Rules of Catalist for the time being in force (unless such compliance has been waived by the SGX-ST), all applicable legal requirements under the Act and the Constitution for the time being of the Company; and
- (d) such authority shall, unless revoked or varied by the Company at a general meeting, continue in force until the conclusion of the next annual general meeting or the date by which the next annual general meeting of the Company is required by law to be held, whichever is the earlier.

[Resolution 6]

[See Explanatory Note (2)]

8. AUTHORITY TO ISSUE SHARES UNDER THE BOLDTEK EMPLOYEE SHARE OPTION SCHEME

That the Directors of the Company be authorised and empowered to offer and grant options in accordance with the provisions of Boldtek Employee Share Option Scheme (the "**Scheme**") and to allot and issue and/or deliver from time to time such number of fully paid-up Shares as may be required to be issued or delivered pursuant to the exercise of options provided that the aggregate number of Shares available pursuant to the Scheme and such other share-based schemes of the Company, shall not exceed 15% of the total issued Shares of the Company (excluding any treasury shares and subsidiary holdings) from time to time and that such authority shall, unless revoked or varied by the Company in a general meeting, continue in force until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is earlier.

[Resolution 7]

[See Explanatory Note (3)]

BY ORDER OF THE BOARD

Pao Kiew Tee
Non-Executive Chairman & Independent Director

11 November 2020

NOTICE OF ANNUAL GENERAL MEETING

Explanatory Notes:

- (1) Please refer to the sections "Board of Directors" and "Disclosure of Information on Directors Seeking Re-election" in the Annual Report for information on Ms Ong Siew Eng and Mr Foo Shiang Ping.
- (2) The Ordinary Resolution 6 proposed in item 7 above, if passed, will empower the Directors from the date of the above annual general meeting until the date of the next annual general meeting of the Company, or the date by which the next annual general meeting of the Company is required by law to be held or such authority is varied or revoked by the Company in a general meeting, whichever is the earlier, to allot and issue Shares and/or convertible securities in the Company. The aggregate number of Shares and convertible securities, which the Directors may allot and issue under this Resolution shall not exceed one hundred per cent (100%) of the total number of issued Shares (excluding treasury shares) of the Company at the time of passing this Resolution. For allotment and issue of Shares and convertible securities other than on a pro-rata basis to all shareholders of the Company, the aggregate number of Shares and convertible securities to be allotted and issued shall not exceed fifty per cent (50%) of the total number of issued Shares (excluding treasury shares) of the Company at the time of passing this Resolution.
- (3) The Ordinary Resolution 7 proposed in item 8 above, if passed, will empower the Directors of the Company, from date of this Annual General Meeting until the next Annual General Meeting of the Company, or the date by which the next Annual General Meeting of the Company is required by law to be held or such authority is varied or revoked by the Company in a general meeting, whichever is the earlier, to issue shares in the Company pursuant to the exercise of options granted or to be granted under the Scheme and such other share-based incentive scheme up to a number not exceeding in total (for the entire duration of the Scheme) 15% of the total number of issued shares (excluding treasury shares and subsidiary holdings) in the capital of the Company from time to time.

Please read the following notes and the explanations of the resolutions before deciding how to vote.

Appointment of Proxy and Voting

(a) Attendance in Person

In compliance with the COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) Order 2020, and as amended by COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) (Amendments No. 2 & 3) Order 2020 (the "**Order**"), the AGM will be conducted by electronic means and Shareholders will not be able to attend the AGM physically.

All Shareholders or their corporate representatives (in the case of Shareholders which are legal entities) will be able to participate in the AGM proceedings by watching a "live" webcast (the "**Live AGM Webcast**") or listen to a "live" audio feed (the "**Live AGM Audio Feed**").

Shareholders who wish to participate in the AGM proceedings through the Live AGM Webcast via their mobile phones, tablets or computers must pre-register at <http://BHL.availeasemgdwebinar.com> by 3.00 p.m. on 24 November 2020 (the "**Registration Deadline**") to enable the Company to verify their status.

Following the verification, authenticated Shareholders will receive an email by 25 November 2020, and will be able to access the Live AGM Webcast by clicking on the link in the email and entering the user ID and password.

Shareholders who register by the Registration Deadline but do not receive an email response by 3.00 p.m. 25 November 2020 may contact via email at boldtekagm@logistics99.com.sg, with the full name of the shareholder and his/her identification number.

(b) Voting solely via appointing Chairman of the Meeting as Proxy

In compliance with the Order, a Shareholder who wishes to vote at the Meeting can only do so by appointing the Chairman of the Meeting to act as his/her proxy to vote on his/her behalf in respect of all the Shares held by him/her. In the Proxy Form, a Shareholder should specifically direct the proxy on how he/she is to vote for or vote against (or abstain from voting on) the resolutions to be tabled at the Meeting. In the absence of specific directions in respect of a resolution, the appointment of the Chairman of the Meeting as proxy for that resolution will be treated as invalid. All valid votes cast via proxy on each resolution will be counted.

(c) Investors who hold through Relevant Intermediaries (including CPF/SRS Investors)

Investors holding Shares through relevant intermediaries (as defined under Section 181 of the Companies Act (Chapter 50 of Singapore)) (including CPF/SRS investors), should not use the Proxy Form and should contact their relevant intermediaries as soon as possible to specify voting instructions. CPF/SRS investors who wish to vote should approach their respective CPF Agent Banks/SRS Operators at least seven (7) working days before the AGM (i.e. by 3.00 p.m., 16 November 2020) in order to allow sufficient time for their respective intermediaries to in turn submit a proxy form to appoint the Chairman of the Meeting to vote on their behalf by the cut-off date. Other investors holding shares through other relevant intermediaries who wish to vote should approach his/her relevant intermediary as soon as possible to specify voting instructions.

- (d) The instrument appointing a proxy must be deposited (i) by post to the office of the Company's Share Registrar, Tricor Barbinder Share Registration Services, 80 Robinson Road 11-02, Singapore 068898 or (ii) by email to boldtekagm@logistics99.com.sg by enclosing a clear scanned completed and signed Proxy Form and must be received by the Company not less than 48 hours before the time appointed for holding the AGM.

NOTICE OF ANNUAL GENERAL MEETING

(e) Access to documents or information relating to the AGM

In accordance with the COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) Order 2020, all documents and information relating to the business of the AGM (including the Annual Report and the Proxy Form) have been published on Company's website at <https://www.boldtekhholdings.com> and on the SGXNet at <https://www.sgx.com/securities/company-announcements>.

(f) Further updates

In view of the evolving COVID-19 situation, the Company reserves the right to take such further precautionary measures as may be appropriate up to the date of the AGM, including any precautionary measures required or recommended by government agencies, in order to curb the spread of COVID-19. Shareholders should continually check for announcements by the Company for updates on the AGM. The Company would like to thank all shareholders for their patience and co-operation in enabling the Company to continue holding its AGM amidst the COVID-19 situation.

(g) Personal data privacy

By (i) submitting an instrument appointing the Chairman of the AGM as a proxy to vote at the AGM and/or any adjournment thereof, (ii) completing the registration form for the AGM Live Webcast in accordance with this Notice, or (iii) submitting any question(s) prior to the AGM in accordance with this Notice, a member of the Company:

- (A) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents) for the following purposes:
 - (aa) the processing and administration by the Company (or its agents or service providers) of proxy forms appointing the Chairman of the AGM as a proxy for the AGM (including any adjournment thereof);
 - (bb) the verification, preparation and compilation of the attendance lists, minutes and other documents relating to the AGM (including any adjournment thereof) recordings and transmitting images and/or voice recordings when broadcasting the AGM proceedings through webcast and providing any technical assistance where necessary;
 - (cc) addressing relevant and substantial questions from members received before the AGM and if necessary, following up with the relevant members in relation to such questions; and
 - (dd) enabling the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines,(collectively, the **Purposes**);
- (B) warrants that where the member discloses the personal data of the member's proxy(ies) and/or representative(s) to the Company (or its agents), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes; and
- (C) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member's breach of warranty.

(Company Registration No. 201224643D)

PROXY FORM ANNUAL GENERAL MEETING

Important

1. The Annual General Meeting ("AGM") will be held by electronic means pursuant to the COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) Order 2020, and as amended by COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) (Amendments No. 2 & 3) Order 2020 (the "Order").
2. Pursuant to the Order, the Company will implement alternative arrangements relating to attendance at the AGM by electronic means (including arrangements by which the meeting can be electronically accessed via live audio-visual webcast or audio-only means), submission of questions to the Chairman of the Meeting in advance of the AGM, addressing of substantial and relevant questions at the AGM and voting by appointing the Chairman of the AGM as proxy at the AGM, are set out in the Company's announcement dated 11 November 2020. The announcement may be accessed at the SGX website at <https://www.sgx.com/securities/company-announcements>.
3. **Due to the current COVID-19 restriction orders in Singapore, a member will not be able to attend the AGM in person. A member (whether individual or corporate) must appoint the Chairman of the Meeting as his/her/its proxy to vote on his/her/its behalf at the AGM if such member wishes to exercise his/her/its voting rights at the AGM.**
4. For investors who have used their CPF monies to buy shares in the Company, this proxy form is not valid for use and shall be ineffective for all intents and purposes if used or purported to be used by them.
5. CPF or SRS investors who wish to appoint the Chairman of the Meeting as proxy should approach their respective CPF Agent Banks or SRS Operators to submit their votes at least 7 working days before the AGM by 3.00 p.m. on 16 November 2020.
6. By submitting an instrument appointing the Chairman of the Meeting as proxy, completing the registration form for the AGM live webcast, or submitting any questions to the Company prior to the AGM, the member accepts and agrees to the personal data privacy terms set out in the Notice of AGM dated 11 November 2020 which may be accessed at the Company's website at the SGX website at <https://www.sgx.com/securities/company-announcements>.
7. **Please read the notes overleaf which contain instructions on, inter alia, the appointment of the Chairman of the Meeting as a member's proxy to vote on his/her/its behalf at the Annual General Meeting.**

Signature(s) of Shareholder(s)
Or, Common Seal of Corporate Shareholder

Total Number of Shares in:	No. of Shares
(a) CDP Register	
(b) Register of Members	

IMPORTANT: PLEASE READ NOTES OVERLEAF BEFORE COMPLETING THIS PROXY FORM

Notes:

1. If the member has shares entered against his name in the Depository Register (maintained by The Central Depository (Pte) Limited), he should insert that number of shares. If the member has shares registered in his name in the Register of Members (maintained by or on behalf of the Company), he should insert that number of shares. If the member has shares entered against his name in the Depository Register and shares registered in his name in the Register of Members, he should insert the aggregate number. If no number is inserted, this form of proxy will be deemed to relate to all the shares held by the member.
2. Due to the current COVID-19 restriction orders in Singapore, a member will not be able to attend the AGM in person. A member (whether individual or corporate) must appoint the Chairman of the Meeting as his/her/its proxy to vote on his/her/its behalf at the AGM if such member wishes to exercise his/her/its voting rights at the AGM. Please note that a member may not vote at the AGM otherwise than by way of appointing the Chairman of the Meeting as the member's proxy.

Where a member (whether individual or corporate) appoints the Chairman of the Meeting as his/her/its proxy, he/she/it must give specific instructions as to voting, or abstentions from voting, in respect of a resolution in the proxy form, failing which the appointment of the Chairman of the Meeting as proxy for that resolution will be treated as invalid.

3. A member who is a relevant intermediary entitled to vote at the AGM must appoint the Chairman of the AGM to vote at the AGM instead of the member.

"Relevant intermediary" means:

- (i) a banking corporation licensed under the Banking Act, Chapter 19 of Singapore or a wholly-owned subsidiary of such a banking corporation, whose business includes the provision of nominee services and who holds shares in that capacity;
- (ii) a person holding a capital markets services licence to provide custodial services for securities under the Securities and Future Act, Chapter 289 of Singapore and who holds shares in that capacity; or
- (iii) the Central Provident Fund Board established by the Central Provident Fund Act, Chapter 36 of Singapore, in respect of shares purchased under the subsidiary legislation made under that Central Provident Fund Act, Chapter 36 of Singapore, providing for the making of investments from the contributions and interest standing to the credit of members of the Central Provident Fund, if the Board holds those shares in the capacity of an intermediary pursuant to or in accordance with that subsidiary legislation.

CPF/SRS investors who wish to appoint the Chairman of the Meeting as proxy should approach their respective CPF Agent Banks or SRS Operators to submit their votes at least 7 working days before the AGM by 3.00 p.m. on 16 November 2020.

4. The Chairman of the Meeting, as proxy, need not be a member of the Company.
5. The instrument appointing the Chairman of the Meeting as proxy must be submitted to the Company in the following manner:
 - (i) if submitted electronically, be submitted via email to boldtekagm@logistics99.com.sg; or
 - (ii) if submitted by post, be lodged with the office of the Company's Share Registrar Tricor Barbinder Share Registration Services, 80 Robinson Road #11-02 Singapore 068898.

in either case, by no later than **24 November 2020, 3.00 p.m.**, being at least 48 hours before the time for holding the AGM.

A member who wishes to submit an instrument of proxy must first download, complete and sign the proxy form, before scanning and sending it by email to the email address provided above, or submitting it by post to the address provided above.

In view of the current COVID-19 situation and the related safe distancing measures which may make it difficult for shareholders to submit completed proxy forms by post, shareholders are strongly encouraged to submit completed proxy forms electronically via email.

6. The instrument appointing the Chairman of the Meeting as proxy must be under the hand of the appointer or his attorney duly authorised in writing. Where the instrument appointing the Chairman of Meeting as proxy is executed by a corporation, it must be executed either under its common seal or under the hand of its authorised officer(s) or its attorney duly authorised.
7. Where an instrument appointing the Chairman of the Meeting as proxy is signed on behalf of the appointor by an attorney, the letter or power of attorney or a duly certified copy thereof must (failing previous registration with the Company) if the instrument appointing the Chairman of the Meeting as proxy is submitted by post, be lodged with the instrument of proxy, if the instrument appointing the Chairman of the Meeting as proxy is submitted electronically via email, be emailed with the instrument of proxy, failing which the instrument may be treated as invalid.
8. The Company shall be entitled to reject an instrument appointing the Chairman of the Meeting as proxy if it is incomplete, improperly completed, illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified on the instrument appointing Chairman of the Meeting as proxy (including any related attachment). In addition, in the case of members whose shares entered against their names in the Depository Register, the Company may reject an instrument appointing the Chairman of the Meeting as proxy lodged or submitted if such members are not shown to have shares against their names in the Depository Register as at 48 hours before the time appointed for holding the meeting, as certified by The Central Depository (Pte) Limited to the Company.
9. Members should take note that once this proxy form is submitted electronically via email to boldtekagm@logistics99.com.sg or lodged with the Company's Share Registrar, they cannot change their vote as indicated in the box provided above.
