The options granted can only be exercised by the grantees with effect from the third year of the offer date and the number of new shares comprised in the options which a grantee can subscribe for from the third year onwards shall be subject to a maximum of 12.5%, rounded up to the next 1,000 shares of the allowable allotment for each grantee. Following the renounceable underwritten rights issue undertaken in October 2009 ("2009 Rights Issue"), the exercise price per share was further adjusted to its exercise price of US\$0.1579 at the above mentioned date.

- 8. A review of the performance of the Group, to the extent necessary for a reasonable understanding of the Group's business. It must include a discussion of the following: (Cont'd)
 - (a) any significant factors that affected the turnover, costs, and earnings of the Group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and (Cont'd)

For the financial year of 2014, the Group recorded revenue of \$\$2,862.5 million and an adjusted earnings before interest, tax, depreciation and amortisation ("Adjusted EBITDA") of \$\$1,158.2 million. On a theoretical normalised hold basis, Resorts World Sentosa ("RWS") would have generated an Adjusted EBITDA of approximately \$\$1,350 million.

For the fourth quarter of 2014, the Group reported revenue of \$\$637.9 million and Adjusted EBITDA of \$\$190.2 million. RWS contributed revenue of \$\$637.3 million and Adjusted EBITDA of \$\$194.6 million. On a theoretical normalised hold basis, RWS would have generated an Adjusted EBITDA of approximately \$\$280 million. The mass and premium mass segments of our gaming business displayed respectable growth. On the other hand, the premium player market segment was impacted by significant below average win percentage and rolling volume. Our attractions business continued to achieve daily average visitation of 20,000 and our hotel segment registered an occupancy rate of 93% with average daily room rate at \$\$422.

(b) any material factors that affected the cash flow, working capital, assets or liabilities of the Group during the current financial period reported on.

During the financial year ended 31 December 2014, the Group's investments in a portfolio of quoted securities, unquoted equity investments and compound financial instruments yielded a net inflow of S\$443.0 million. The Group's equity injection and shareholder loan to its associate, Landing Jeju Development Co., Ltd, in relation to the development of an integrated resort in Jeju, Korea amounted to S\$195.4 million. Separately, the Group also repaid S\$525.0 million of its bank borrowings during the financial year.

Other than the above and as disclosed in the other notes, there have been no material factors that affected the cash flow, working capital, assets or liabilities of the Group.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

No forecast or prospect statement has been disclosed to shareholders.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next reporting period and the next 12 months.

Resorts World Sentosa ("RWS") has been in operations for five years. Over this period, it has transformed the tourism industry in Singapore, attracted tens of millions of overseas visitors, built immense brand awareness and created significant shareholder value. Shareholders who have held onto the shares of Genting Singapore PLC since the Initial Public Offering on the Singapore Stock Exchange in December 2005 have earned a compounded annual return of approximately 14% as of 31 December 2014. The business environment around us has changed rapidly and we face stiff competition. We have adapted and innovated to stay relevant in the respective industries that we are in. In recent months, the macro-economic ecosystem has been altered to an extent that the gaming industry has to adjust to a new norm. RWS has been reorganising its gaming programmes to focus marketing initiatives towards the foreign premium mass and mass market segments.

Our non-gaming business remains strong. The Attractions businesses welcomed more than 6 million visitors in 2014. We expect the non-gaming earnings to post respectable growth in 2015 as the travel industry climbs out of a difficult year in the region. In the second quarter of 2015, we will launch our latest attraction - "Puss in Boots' Giant Journey" and the much-anticipated return of Battlestar Galactica dueling roller coasters. These launches will present opportunities for us to create events to increase our revenue.

Our new hotel in the Jurong Lake District, Genting Hotel Jurong, is scheduled to open from May 2015. We have started marketing this strategically located 550-room hotel, and it will add much needed capacity to our room inventory. This asset forms an important part of our business strategy to drive greater visitation to RWS.

As we look towards growing our earnings base, we are actively seeking new opportunities within our core competencies. We have leveraged our track record, experience and branding to embark on a new Integrated Resort ("IR") project in Jeju, Korea. Resorts World Jeju ("RWJ") held its ground breaking on 12 February 2015. RWJ will boast of a world-class theme park, water park, MICE facilities, sizeable retail space, gaming and entertainment facilities, and luxury hotels. We are confident that RWJ will be a magnet for the regional tourist market, where within a flying radius of 2 hours, there is a sizeable population of 750 million. Jeju will be a clear beneficiary of this development as we work closely with, and be a partner to the Government and people of Jeju.

In relation to the Group's plans for Japan, we have been closely evaluating the process and environment, and commenced preliminary studies.

Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
