Note

1. The decrease in exchange differences on translating foreign operations was mainly due to movement of Sterling Pound ("GBP") against Singapore Dollar ("S$"). The GBP weakened 7.6% in 1Q2016, from S$2.10/GBP in December 2015 to S$1.94/GBP in March 2016, versus a weakening of 2.2% in 1Q2017, from S$1.78/GBP in December 2016 to S$1.74/GBP in March 2017.
2. The increase in provision for stock obsolescence was due to provision made for aged inventories based on the historical trend on net realisable value.
3. The allowance for trade receivables was due to provision made for the increase in the average age of the receivables.
4. The foreign exchange loss mainly arose from the revaluation of US Dollar ("USD")-denominated receivables. The USD weakened from S$1.45/USD in December 2016 to S$1.40/USD in March 2017.
5. The increase in depreciation of plant and equipment was mainly due to the addition of new assets.

**1(d)(ii) Details of any changes in the Company's share capital arising from rights issue, bonus issue, share buy-backs, exercise of share options or warrants, conversion of other issues of equity securities, issue of shares for cash or as consideration for acquisition or for any other purpose since the end of the previous period reported on. State the number of shares that may be issued on conversion of all the outstanding convertibles, if any, against the total number of issued shares excluding treasury shares and subsidiary holdings of the issuer, as at the end of the current financial period reported on and as at the end of the corresponding period of the immediately preceding financial year. State also the number of shares held as treasury shares and the number of subsidiary holdings, if any, and the percentage of the aggregate number of treasury shares and subsidiary holdings held against the total number of shares outstanding in a class that is listed as at the end of the current financial period reported on and as at the end of the corresponding period of the immediately preceding financial year.**

**A) Changes in share capital during the financial period**

| | Number of Ordinary Shares '000 | Issued and Paid-up Share Capital $'000 |
|---|---|---|
| As at 1 January 2017 | 280,000 | 70,068 |
| As at 31 March 2017 | **280,000** | **70,068** |

**B) Share options – employee shares option scheme**

Between 1 January 2017 to 31 March 2017, the Company did not issue any shares under the employee share option scheme.

**C) Performance share plan**

As at 31 March 2017, the number of outstanding awards granted under the performance share plan was 1,747,000 (31 March 2016: NIL).

The shares to be issued pursuant to the awards shall be released to the respective participants after the respective performance periods.

**D) Treasury shares**

No treasury shares and subsidiary holdings were held by the Company as at 31 March 2017 and 31 March 2016.

**1(d)(iii) Total number of issued shares excluding treasury shares as at the end of the current financial period and as at the end of the immediately preceding year.**

The total number of issued shares as at 31 March 2017 was 280,000,000 (31 December 2016: 280,000,000). The Company has no treasury shares.

**1(d)(iv) A statement showing all sales, transfers, cancellation and/or use of treasury shares as at the end of the current financial period reported on.**

Not applicable as the Company has no treasury shares.

**1(d)(v) A statement showing all sales, transfers, cancellation and/or use of subsidiary holdings as at the end of the current financial period reported on.**

Not applicable as the Company does not have subsidiary holdings.

**2 Whether the figures have been audited or reviewed, and in accordance with which auditing standard or practice.**

The figures have not been audited or reviewed by the Company's auditors.

**3 Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of matter).**

Not applicable.

**4 Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.**

The Group has consistently applied the same accounting policies and methods of computation in the financial statements for the three-month period ended 31 March 2017 compared with those of the audited financial statements for the financial year ended 31 December 2016, except for the adoption of the Singapore Financial Reporting Standards ("SFRS"), including improvements to SFRS and Interpretations of FRS ("INT FRS") that are mandatory for financial years beginning on or after 1 January 2017, in the three-month period ended 31 March 2017, where applicable.

The adoption of these new/revised standards and interpretations applicable for the financial period beginning 1 January 2017 did not result in significant change to the Group's accounting policies and did not have a material impact on the Group's financial results for the three-month period ended 31 March 2017.

**5 If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

Please refer to item 4 above.

**6 Earnings per ordinary share of the Group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.**

| | | | |
| **Gross Profit Margin (%)** | | | |
| IT Distribution | 32.3 | 27.6 | 4.7 |
| Lifecycle Services | 38.9 | 43.7 | (4.8) |
| **Total** | **33.6** | **31.0** | 2.6 |

The Group's revenue increased by 47.2% or $12.3 million from $26.0 million in 1Q2016 to $38.3 million in 1Q2017. Revenue from the IT Distribution and Lifecycle Services business segments increased by 49.9% and 36.9% respectively. The IT Distribution business segment revenue grew from $20.5 million in 1Q2016 to $30.8 million in 1Q2017. The increase was mainly contributed by the newly acquired subsidiary, EAF Supply Chain Limited ("EAF"), the newly incorporated joint venture, Rockland Congruity LLC ("Rockland") and the Asia Pacific region. The revenue from the Lifecycle Services business segment increased from $5.5 million in 1Q2016 to $7.5 million in 1Q2017, mainly attributable to the better performance from North and South America (the "Americas") and the Europe (including the UK), Middle East and Africa ("EMEA") regions. In 1Q2017, the incorporation of Rockland resulted in the Americas recognising maintenance revenue in the Lifecycle Services business segment over the contract period, as the work that used to be outsourced to third party vendors, is now performed by Rockland. Prior to the incorporation of Rockland, the Americas recognised maintenance revenue upfront when the obligations to earn the revenue was passed to third party vendors. The revenue impact from the change in business model to in-house maintenance from outsourcing in 1Q2017 is immaterial.

The Group's overall gross profit margin increased by 2.6 percentage points from 31.0% in 1Q2016 to 33.6% in 1Q2017. Gross profit margin for the IT Distribution business segment saw an increase of 4.7%, mainly due to higher sales to value-added retailers from Rockland and EMEA during the period. This was partially offset by the decrease in margins in the Lifecycle Services business segment of 4.8%. The decrease was a result of depreciation charge on the maintenance parts equipment procured in the set-up of the Global Parts Centre ("GPC") and the lower margin recorded in Rockland and Singapore.

Selling expenses increased by 22.9% or $0.5 million, from $2.0 million in 1Q2016 to $2.5 million in 1Q2017. The higher pay-out of sales commission, in line with the growth in revenue, resulted in the increased selling expenses.

Administrative expenses increased by 67.9% or $4.0 million, from $5.8 million in 1Q2016 to $9.8 million in 1Q2017, a result of the increase in the staff cost, depreciation and other operating expenses. The increase in staff cost and other operating expenses period on period was mainly due to additional headcount and operating expenses from EAF and Rockland, of approximately $2.4 million. Staff costs, excluding EAF and Rockland, increased 26.4% or $1.0 million as a result of the increase in headcount to support the Group's expansion plans.

Rental and other operating expenses, such as compliance costs (director fees, listing fees, etc) incurred post listing, formed the rest of the increase in administrative expenses.

The Group has an income tax credit of $0.1 million in 1Q2017 as compared to income tax expense of $0.4 million in 1Q2016, mainly from the Americas due to pre-tax loss.

The Group recorded a profit of $0.2 million for 1Q2017 as compared to a profit of $0.1 million in 1Q2016.

Review of financial position

**Non-current assets**

a) Plant and equipment increased by $17.8 million from $11.3 million as at 31 December 2016 to $29.1 million as at 31 March 2017. The addition of $19.2 million in plant and equipment was mainly due to the addition of $16.9 million in the maintenance parts equipment acquired for Rockland's maintenance business and $1.7 million for a "hardware as a service" contract in Singapore. This was partially offset by depreciation charges of $1.3m.

   At the Company level, the $16.6 million increase in plant and equipment was mainly due to purchase of maintenance parts of $16.9 million for Rockland's maintenance business, partially offset by depreciation charges of $0.6 million.

b) Intangible assets decreased by $0.4 million mainly due to the amortisation charge of $0.2 million and translation loss of $0.2 million on the balance of intangible assets as at 31 March 2017. The intangible assets were primarily denominated in foreign currencies.

c) Finance lease receivables (both current and non-current) decreased from $3.0 million as at 31 December 2016 to $2.5 million as at 31 March 2017 as there was no new lease secured during the period.

**Current assets**

d) Inventories increased by 22.3% or $3.5 million to $19.1 million as at 31 March 2017, of which $4.3 million was due to Rockland's set-up. Procurri LLC and Procurri UK recorded increases in inventory level to cater for the anticipated increase in sales demand in the next quarter. The increase was partially offset by the decrease of $2.3 million in Singapore and EAF.

e) Trade and other receivables increased by 12.7% or $5.0 million to $44.4 million as at 31 March 2017. The increase in trade receivables was mainly due to addition of $9.6 million of such receivables from Rockland. The increase in other receivables was mainly due to deposits made to a supplier on maintenance parts for the GPC. Both were partially offset by decrease in trade receivables from the rest of the operating entities.

f) Prepayment increased by $0.4 million mainly due to higher advance payments made to suppliers.

g) The movement in cash and bank balances is illustrated in the statement of cash flows and review of cash flows.

**Liabilities**

h) The increase in loans and borrowings (both current and non-current) of $0.7 million was mainly due to the increase in short term trade facilities, such as the trade receivables factoring and trust receipts, partially offset by the repayment in term loans and hire purchase.

i) The advance billings increased from $3.5 million as at 31 December 2016 to $10.7 million as at 31 March 2017, of which $5.9 million was from Rockland.

j) Trade and other payables increased by $4.2 million to S$28.9 million as at 31 March 2017, mainly due to Rockland.

**Net current position**

The Group recorded a positive working capital of $27.6 million as of 31 March 2017 as compared to $46.5 million as at 31 December 2017.

Review of cash flows

Net cash generated from operating activities in 1Q2017 amounted to $4.1 million as compared to $2.2 million in 1Q2016. This was mainly due to the increase in advance billing of $7.3 million and the increase in trade and other payables of $4.0 million. This was partially offset by the increase in trade and other receivables of $5.1 million, inventories of $3.9 million and prepayments of $0.4 million.

Net cash used in investing activities was $16.2 million in 1Q2017 as compared to $0.7 million in 1Q2016. Net cash used in investing activities increased and was mainly attributable to the purchase of plant and equipment, partially offset by the proceeds from the maturity of fixed deposits.

Net cash generated from financing activities in 1Q2017 amounted to $0.8 million as compared to net cash used in financing activities of $1.5 million in 1Q2016, primarily due the higher level of net loans and borrowings secured during the period.

**9 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

Not applicable. No forecast or prospect statement has been previously disclosed to shareholders for the current reporting period.

**10 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next reporting period and the next 12 months.**

With the consolidation of Rockland commencing in 1Q2017, the Group's business model in the Americas has shifted away from being primarily based on outsourcing to one which is integrated with in-house maintenance servicing capabilities. Consequently, the Group has adopted a different set of accounting practices for its business in the Americas which involve the linear revenue recognition of the maintenance service contracts across its stipulated contract duration since the start of 1Q2017. Both EMEA and Asia Pacific are already recognising revenue from maintenance service linearly across its stipulated contract duration.

Given the traditionally slower market activity in the first half of the year due to seasonality, the impact of this change in revenue recognition is immaterial in 1Q2017, but will likely become more pronounced over the next few quarters as market activity ramps up.

The Group's aim to achieve "Strategy Complete", whereby its Lifecycle Services business segment contributes at least half of its total revenue, remains a clear priority for 2017. The Group anticipates future growth to emerge from its expanded capabilities within Independent Maintenance Services and IT Asset Disposition, both under the Lifecycle Services business segment, which will help the Group to improve its income resilience and visibility.

The Group will continue to prospect selectively for acquisition targets that will enhance its internal capabilities, enlarge its market share, and/or reap synergistic benefits. As the execution of "Strategy Complete" necessitates investments for the future, this has translated to an increase in staff costs, inventories, and plant and equipment. The Group will continue to focus on prudent cost management to drive business sustainability.

On 9 April 2017, the Group announced that it has incorporated a wholly-owned subsidiary in India. This is in line with the Group's "Asia First" strategy as it seeks to expand its Lifecycle Services business segment in the Indian market.
