INFORMATION ON THE INVESTMENTS AND MANAGEMENT

Classification:

International equities.

At least 60% of the MF is permanently exposed in a foreign equity market or in equity markets of several countries, possibly including the French market. The MF is an index-based fund of the UCITS ETF type.

Terms of determination and allocation of amounts available for distribution:

Classes of units USD and D-GBP: The management company reserves the right to capitalise and/or distribute all or part of the amounts available for distribution, one or more times each year. The net capital gains generated will be capitalised.

Classes of units C-EUR and C-USD: Capitalisation of all the amounts available for distribution.

Management objective:

The MF's management objective is to replicate the Dow Jones Russia GDR index (the "Benchmark Indicator"), listed in US Dollars (USD), regardless of its evolution, while insofar as possible minimizing the tracking error between the MF's performances and those of its Benchmark Indicator.

The anticipated level of the ex-post tracking error under normal market conditions is 0.75%.

Benchmark indicator:

The Benchmark Indicator is the Dow Jones Russia GDR Index increased by the dividends possibly collected by the MF pursuant to the holding of the Global Depository Receipts ("GDR").

The Benchmark Indicator is an equities index calculated and published by the supplier of international indices, Dow Jones.

The Benchmark Indicator is an index that measures the performance of 85% of the GDR processed on the London Stock Exchange which have the highest float market capitalisation. The Benchmark Indicator is weighted by the float market capitalisation of each GDR.

An exhaustive description and the complete methodology for the construction of the Benchmark Indicator as well as information on the composition and relative weights of the Benchmark Indicator's components will be available on the Internet site: www.djindexes.com/

The monitored performance is that of the closing price of the Benchmark Indicator. The Benchmark Indicator is an index weighted by the equity market capitalisation.

Benchmark indicator revision and composition

The composition of the Benchmark Indicator is reviewed quarterly.

The exact composition and rules for Benchmark Indicator revision, published by DOW JONES, are available on website: www.djindexes.com. The rebalancing frequency indicated above does not affect the cost of implementing the Investment strategy.

Benchmark Indicator publication

The Benchmark Indicator is calculated at the closing price each day, by using the official closing price of the listing market of the component securities.

The Benchmark Indicator is also calculated in real time every stock exchange trading day.

The Benchmark Indicator is available in real-time via Reuters and Bloomberg.

Reuters code: .DJRUSGD

Bloomberg code: DJRUSGD

The Benchmark Indicator's closing price is available on website: www.djindexes.com.

Investment strategy:

1. Strategy employed

The MF will comply with the investment rules dictated by the European directive no. 2009/65/EC dated 13 July 2009.

In pursuit of the greatest possible correlation with the performance of the Benchmark Indicator, the MF will reach its management objective using the indirect replication method which means that it will enter into one or more OTC swap contracts enabling it to reach its investment objective. The objective of these swap contracts will be to exchange (i) the value of the MF's assets, which will consist of balance sheet assets (excluding any securities received as guarantees), for (ii) the value of the securities that underlie the Benchmark Indicator.

The securities in the MF's assets will notably be securities making up the Benchmark Indicator, as well as other international equities, from all economic sectors, listed on all markets, including the small caps markets.

Information relative to (i) the updated composition of the basket of the balance sheet assets held in the MF's portfolio and (ii) the market value of the future exchange operation entered into by the MF are available on the page dedicated to the MF on the Internet site www.lyxoretf.com. The update frequency and/or the update date of the aforesaid information is also indicated on the same page of the aforesaid Internet site.

As part of the management of its exposure, the MF may be exposed up to 20% of its assets in equities from a single issuing entity. This 20% limit can be increased to 35% for a single issuing entity when this proves to be justified by exceptional conditions within the market, notably when certain securities are heavily dominant and/or in the event of high volatility of a financial instrument and of securities from an economic sector represented by the Benchmark Indicator, in particular in the event of a public offering affecting one of the securities making up the Benchmark Indicator or in the event of a significant restriction of liquidity affecting one or more financial instruments making up the Benchmark Indicator.

In the present case, the manager intends to primarily use the following assets:

2. Balance sheet assets (excluding integrated derivatives)

The MF may hold, in compliance with the ratios contained in the regulation, international equities (from all economic sectors, listed on all markets), including within the small cap markets.

The aforementioned equities will be chosen on the basis of criteria:

- of eligibility, in particular:
 - o Subordination to the main market indices or to the Benchmark Indicator,
 - o Liquidity (minimal thresholds applied to mean daily volumes of transactions and to the equity market capitalisation),
 - o Rating of the country of the issuer's head office (requirement of a minimal threshold in S&P rating or equivalent).
- of diversification, notably:
 - o Issuer (application of ratios applicable to the eligible assets of a UCITS, as specified in Art. R214-21 of the [French] Monetary and Financial Code),
 - o Geographical area,
 - o Sector.

For more information on the abovementioned eligibility and diversification criteria, in particular the list of the eligible indices, investors can visit the following Internet site: www.lyxoretf.com.

The investment in undertakings for collective investment in transferable securities ("UCITS") compliant with the Directive 2009/65/EC is limited to 10% of the assets of the MF. As part of these investments, the MF can subscribe to units or equities of UCITS managed by the management company, or a company with which it is linked. The manager will not invest in units or equities of AIF or other investment funds established on the basis of foreign laws.

When the MF receives securities as guarantee under the conditions and limits of this section's paragraph 8 below, they will also constitute balance sheet assets received in full ownership by the MF, given that they are received by the MF in full ownership.

As part of a future optimisation of the MF's management, the manager reserves the right to use other instruments within the limits of the regulations in order to achieve the management objective.

3. Off-balance sheet assets (derivative instruments)

The MF will use Index-linked swaps traded over the counter, thereby swapping the value of the MF's assets (or asset held by the MF, where appropriate) against the value of the Benchmark Indicator (in compliance with the description contained in this section's paragraph 1 above).

As part of a future optimisation of the MF management, the manager reserves the right to use other instruments within the limits of the regulations, such as to achieve the management objective, for example including future financial instruments other than index-linked swaps.

In compliance with its best execution policy, the management company considers that the Société Générale is the counterparty that generally makes it possible to obtain the best possible result with these future financial instruments. These future financial instruments (including index-linked swaps) can therefore be traded with the Société Générale, without prior open competition involving several counterparties.

The counterparty of the aforesaid future financial instruments (the “Counterparty”) will have no discretionary power regarding the composition of the MF’s investment portfolio, nor regarding the underlying assets of the future financial instruments.

4. Securities with integrated derivatives

None.

5. Deposits

Up to a maximum of 20% of its net assets, the MF may have recourse to deposits with lending institutions belonging to the same group as the depositary in order to optimise its cash management.

6. Cash borrowing

Up to a maximum of 10% of its net assets, the MF may temporarily have recourse to borrowing.

7. Temporary securities acquisition and sale operations

None. The manager will not have recourse to temporary securities acquisition and/or sale operation.

8. Financial guarantees

In all cases in which the MF is subject to a counterparty risk as a result of the deployed investment strategy, notably in the event of the MF’s use of forward swap contracts traded over the counter, the MF can receive securities that are considered as guarantees in order to reduce the counterparty risk related to these operations. The portfolio of received guarantees can be adjusted each day in order for its value to be greater than or equal to the level of the counterparty risk borne by the MF in most cases. The objective of this adjustment will be to ensure that the level of counterparty risk borne by the MF is totally neutralized.

Any financial guarantee received by the MF will be provided to the MF in full ownership and listed in the MF’s account opened in the books of its depositary. As such, the received financial guarantees will be listed amongst the MF’s assets.

Any financial guarantee received by the MF within this framework must comply with the criteria defined by the prevailing laws and regulations, notably in terms of liquidity, valuation, credit quality of the issuers, correlation, risks related to the management of securities, and applicability. The received guarantees must, in particular, comply with the following conditions:

- (a) Any received guarantee must be of high quality, very liquid and traded on a regulated market or in a multilateral trading system with transparent pricing, in order to be sold quickly at a price close to the prior valuation;
- (b) They must be valued at the mark-to-market price at least on a daily basis and assets showing strong price volatility must not be accepted as a guarantee except in case of the application of a sufficiently cautious discount;
- (c) They must be issued by an entity that is independent of the counterparty and must not be highly correlated with the counterparty’s performances;
- (d) They must be sufficiently diversified in terms of countries, markets and issuers, with a maximum exposure per issuer of 20% of the MF’s net asset value;
- (e) The MF’s Management Company must be able to fully realise them at any time, without consultation with the counterparty nor approval of the latter.

Notwithstanding the condition specified in (d) above, the Fund may receive a basket of financial guarantees with an exposure to a single issuer corresponding to more than 20% of its net asset value provided that:

such received financial guarantees are issued by (i) a Member State, (ii) one or more of a Member State’s local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and

such financial guarantees consists of at least six different issues of which none exceeds 30% of the MF’s assets.

In compliance with the aforesaid conditions, the guarantees received by the MF can include:

- (i) Liquid assets or equivalents, notably including short-term bank assets and money market instruments;
- (ii) Bonds issued or guaranteed by an OECD Member State, by its local public authorities or by institutions and supranational bodies of a Community, regional or worldwide nature, or by any other country, provided that conditions (a) to (e) (above) have been fully met;
- (iii) Equities or units issued by money market funds that calculate a daily net asset value and that have a rating of AAA or equivalent;

- (iv) Equities or units issued by UCITS investing primarily in bonds/equities as indicated in points (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers, offering suitable liquidity;
- (vi) Equities admitted to trading or traded on a regulated market of an EU Member State, on a stock market of an OECD Member State or on a stock market of another country provided that conditions (a) to (e) (above) have been fully met and that these equities are included within a first-class index.

Policy related to discounts:

The MF's management company will apply a margin to the financial guarantees received by the MF. The applied margins will notably depend on the following criteria:

- Nature of the asset received as guarantee;
- Maturity of the asset received as guarantee (if applicable);
- Rating of the issuer of the asset received as guarantee (if applicable).

Reinvestment of received guarantees

Financial guarantees received in a non-cash form shall not be sold, reinvested or pledged. Guarantees received in cash shall, at the discretion of the manager, be either:

- (i) deposited with an enabled institution;
- (ii) invested in high-quality State bonds;
- (iii) used for reverse repurchase transactions, on the condition that such transactions are performed with credit institutions which are subject to prudential regulation and on the condition that the UCITS may at any time withdraw the total amount of the liquidity, taking into account accrued interest;
- (iv) invested in short-term money mutual funds, as they are defined in the guidelines for a common definition of European money mutual funds.

Reinvested cash financial guarantees must be diversified, in compliance with the applicable requirements for non-cash financial guarantees.

Risk profile:

The bearer's money will primarily be invested in financial instruments selected by the management company. These instruments will be subject to the vagaries of the markets.

Through the MF, the bearer is primarily exposed to the following risks:

- Equity risk

An equity price can vary upward or downward, and it notably reflects the changing risks related to the issuing company or the economic situation of the corresponding market. The equity markets are more volatile than the rate markets, in which it is possible, over a given period and with equal macroeconomic conditions, to estimate the incomes.

- Risk related to low diversification of the Benchmark Indicator

The Benchmark Indicator to which the investors are exposed covers a given region, sector or strategy and therefore does not necessarily allow for as broad a diversification of the assets as would be the case of an index that is exposed to several regions, sectors or strategies. The exposure to a Benchmark Indicator with such low diversification can result in greater volatility than in more diversified markets. Nevertheless, the diversification rules resulting from the UCITS standards always apply to the MF's underlyings.

- Capital loss risk

The invested capital is not guaranteed. The investor consequently runs the risk of capital loss. The entire or part of the invested amount may not be recovered, notably should the performance of the Benchmark Indicator be negative over the investment period.

- Liquidity risk (primary market)

Should the MF (or one of its counterparties for future financial instrument ("FFI")) adjust its exposure and the markets related to this exposure are then limited, closed or subject to significant purchase / sale price discrepancies, the value and/or liquidity of the MF could be negatively affected. Should low volumes of exchanges result in an inability to carry out transactions linked to the replication of the Benchmark Indicator, this can also have consequences on the processes related to the subscription, conversion or redemption of units.

- Liquidity risk on a place of listing

The MF's share price can deviate from its indicative net asset value. The liquidity of the MF's units or equities on a place of listing can be affected by any suspension that could notably be due to:

- i) Suspension or stoppage of the calculation of the Benchmark Indicator, and/or
- ii) Suspension of the market(s) of the underlyings used by the Benchmark Indicator, and/or
- iii) The impossibility for a given place of listing to obtain or calculate the MF's indicative net asset value, and/or

- iv) A market maker's violation of the rules applicable to this marketplace, and/or
- v) A failure of this marketplace's IT or electronic systems.

- Counterparty risk

The MF is exposed to the risk of bankruptcy, payment default or any other type of default of every counterparty with which it has entered into a contract or transaction. It is particularly exposed to the counterparty risk resulting from its use of FFI traded over-the-counter with Société Générale or with any other counterparty. In compliance with the UCITS regulations, the counterparty risk (whether this counterparty is the Société Générale or any other entity) cannot exceed 10% of the total value of the MF's assets per counterparty.

In case of a Counterparty's default, the contract relating to FFIs can be terminated early. The MF will then make every effort to achieve its management objective by signing, if relevant, another contract relating to FFIs with a third party counterparty, under the market conditions prevailing at the time of the occurrence of this event.

The realisation of this risk can notably have impacts on the MF's ability to achieve its management objective, in particular the replication of the Benchmark Indicator.

When Société Générale is involved as a counterparty of the FFIs, conflicts of interest can arise between the MF's Management Company and the FFI's counterparty. The Management Company manages these conflict of interest risks by setting up procedures intended to identify and limit them, and to ensure their equitable resolution, if relevant.

- Risk related to the exposure to Emerging markets

The MF's exposure to emerging markets results in a greater risk of loss that would exist in the event of investments carried out within traditional developed markets. In particular, the operating and supervision rules in an emerging market may differ from the standards applicable to developed markets. The exposure to emerging markets notably results in: increased volatility of the markets, lower transaction volumes, the risk of economic and/or political instability, an unstable or uncertain fiscal and/or regulatory regime, risks of closing of the markets, of government restrictions on foreign investments, and interruption or restriction of the convertibility or transferability of any of the currencies comprising the Benchmark Indicator.

- Risk that the management objective may only be partially achieved

Nothing guarantees that the management objective will be achieved. Indeed, no asset or financial instrument will allow an automatic and continuous replication of the Benchmark Indicator, notably should one or more of the following risks arise:

- Risk related to the use of derivative instruments

In order to achieve its investment objective, the MF uses FFI traded over-the-counter, that can notably take the form of swap contracts that will allow it to obtain the performance of the Benchmark Indicator. These FFIs can result in a series of risks on the level of the FFIs that notably include: counterparty risk, event affecting the hedging, event affecting the Benchmark Indicator, risk related to the tax regime, risk related to the regulations, operational risk and liquidity risk. These risks can directly affect a FFI and can result in the adjustment or early termination of the FFI transaction, which could affect the MF's net asset value.

- Risk related to a change of the tax regime

Any change to the tax legislation in any of the countries in which the MF is established, authorised for marketing or listed can affect the tax treatment of the investors. In this case, the MF's manager assumes no liability relative to investors with regard to the payments having to be made to any competent tax authority.

- Risk related to a change of the tax regime affecting the underlyings

Any change of the tax legislation applicable to the MF's underlyings can affect the MF's tax treatment. Consequently, in case of divergence between the anticipated tax treatment and the one actually applied to the MF (and/or to its counterparty in the FFI), the MF's net asset value may be affected.

- Risk related to regulations

In case of change of the regulations in any country in which the MF is established, authorised for marketing or listed, the processes for the subscription, conversion and redemption of the units may be affected.

- Risk related to the regulations applicable to the underlyings

In case of change of the regulations applicable to the MF's underlyings, the MF's net asset value can be affected, as can the processes for the subscription, conversion and redemption of the units.

- Risk related to events affecting the Benchmark Indicator

In case of events affecting the Benchmark Indicator, the manager may, under the conditions and limits of the applicable legislation, have to suspend the subscription and redemption of MF units. The calculation of the MF's net asset value can also be affected.

If the event persists, the MF's manager will decide on measures having to be adopted, which can have an impact on the MF's net asset value. "Events affecting the Benchmark Indicator" are understood to mean the following situations:

- i) The Benchmark Indicator is considered to be incorrect or not reflective of the market's actual evolution,

- ii) The Benchmark Indicator is definitively discontinued by the supplier of the index,
- iii) The supplier of the index is incapable of providing the level or value of the said Benchmark Indicator,
- iv) The supplier of the index makes a significant change to the formula or calculation method of the Benchmark Indicator (other than a minor modification such as the adjustment of the underlyings used with this Benchmark Indicator or of the respective weightings between its various components), that cannot be effectively replicated by the MF at a reasonable cost.
- v) One or more components of the Benchmark Indicator becomes non-liquid, with the listing being suspended on an organised market, or components traded over-the-counter (such as bonds, for example) become non-liquid.
- vi) The Benchmark Indicator's components are impacted by transaction fees relative to the execution, delivery versus payment or specific fiscal constraints, without these fees being reflected in the Benchmark Indicator's performance.

- Risk linked to the distribution policy applicable to the securities comprising the Benchmark Indicator

Should the issuer of a security underlying the Benchmark Indicator undertake an unanticipated review of a securities transaction ("ST"), that contradicts a prior and official announcement that had resulted in a valuation of the ST by the MF (and/or in a valuation of the ST by the MF's counterparty in a future financial instrument), the MF's net asset value may be affected, notably should the actual treatment of the ST by the MF differ from the ST's treatment in the methodology used by the Benchmark Indicator.

- Exchange risk linked to the Benchmark Indicator

The MF is exposed to an exchange risk to the extent that the underlying securities comprising the Benchmark Indicator could be listed in a currency other than that of the Benchmark Indicator, or be derivatives of securities listed in a currency other than that of the Benchmark Indicator. Fluctuating exchange rates are then likely to negatively affect the Benchmark Indicator monitored by the MF.

- Exchange risk linked to the class of units C-EUR (EUR/USD)

The abovementioned class of units is exposed to an exchange risk to the extent that it is listed in a currency other than that of the Benchmark Indicator. The net asset value of the abovementioned class of units can therefore decrease due to fluctuating exchange rates even though the value of the Benchmark Indicator has increased.

- Legal risk

The mutual fund may bear a legal risk related to the conclusion of any Total Return Swap contract (TRS) as laid down in Regulation (EU) 2015/2365.

Subscribers concerned and typical investor profile:

The MF is open to any subscriber.

An investor subscribing to this MF wishes to obtain an exposure to the Russian equities market.

The amount that it is reasonable to invest in this MF depends on your personal situation. To determine this amount, you must take into account your personal wealth and/or estate, cash requirements at the present and for five years, but also your desire to take risks or, on the contrary, to prefer a cautious investment. It is also highly recommended to sufficiently diversify one's investments so as to avoid an exposure only to this MF's risks.

Investors are therefore recommended to study their individual situations with their usual estate management advisers.

The minimum recommended investment term is greater than 5 years.

Indications on the tax treatment:

Investors should take note that the following information constitutes only a general summary of the tax regime applicable to an investment in a French MF, under the current French tax legislation. Investors are therefore requested to study their personal situations with their usual tax advisers.

France:

The MF can serve as the support for a life insurance contract listed in units of account.

1. On the level of the MF

In France, the co-ownership status of MFs means that they are automatically exempt from corporate tax; by nature, they therefore benefit from a certain degree of transparency. As such, the incomes collected and generated by the MF through its management are not taxable at the level of the MF itself.

Abroad (in countries in which the MF is invested), capital gains on the sale of foreign transferable securities and foreign income received by the MF as part of its management may, if relevant, be subject to tax (generally in the form of a withholding tax). In certain limited cases, the foreign taxation can be reduced or cancelled in the presence of tax agreements that may be applicable.

2. On the level of the bearers of MF units**2.1 Bearers residing in France**

The sums distributed by the MF to French residents as well as the capital gains or losses on transferable securities are subject to the applicable taxation. Investors are invited to study their personal situations with their usual tax advisers.

2.2 Bearers not residing in France

Subject to any applicable tax agreements, the amounts distributed by the MF may, in certain circumstances, be subject to a levy or withholding tax in France. Moreover, the capital gains realised on the purchase/sale of the MF's units are generally tax exempt.

Bearers residing outside of France will be subject to the provisions of the tax legislation applicable in their country of residence.

Information on obligatory and automatic exchange of tax information

The management company is liable to collect and transmit information on subscribers to shares in the mutual fund to the competent tax authorities, for the sole purpose of compliance with article 1649 AC of the General Tax Code and Council Directive 2014/107/EU of 9 December 2014, amending Directive 2011/16/EU concerning automatic and obligatory exchange of tax information.

In this regard, subscribers have the right to access, rectify and delete information held concerning them by communicating with the financial institution in compliance with the "IT and liberties" [Data Processing] Act of 06 January 1978, but are also obliged to provide the necessary information for declarations, at the request of the financial institution.

Information relative to the "FATCA" law

France and the United States have signed a Model I intergovernmental agreement ("IGA") for the implementation in France of the American law known as the "FATCA" law that targets tax evasion amongst American taxpayers holding financial assets abroad. The expression "American taxpayers" refers to a natural person who is an American citizen or resident, a partnership or company created in the United States or by virtue of American federal law or of the laws of one of the American States, or a trust if (i) a court located in the United States has, pursuant to the law, the power to issue orders or decisions substantially relating to all questions relative to the trust's administration and if (ii) one or more American taxpayers has a right of control over all of the trust's substantial decisions, or over the estate of a deceased person who was a citizen or resident of the United States.

The MF has been registered as a "reporting financial institution" with the American tax authorities. As such, the MF is required to provide the French tax authorities, for 2014 and subsequent years, with information regarding certain holdings or sums paid to certain American taxpayers or to non-American financial institutions considered as non-participants in the FATCA that will be the subject of an automatic information exchange between the French and American tax authorities. Investors will be required to certify their FATCA status to their financial intermediary or to the management company, as relevant.

As a result of the MF's application of its obligations under the IGA as implemented in France, the MF will be considered as complying with the FATCA and should be exempt from the withholding tax established by the FATCA on certain revenues or proceeds from American sources.

For investors whose units are held through an account holder located in a jurisdiction that has not signed an IGA, it is recommended that they should consult this account holder in order to be informed of its intentions with regard to the FATCA. Moreover, certain account holders may be required to collect additional information from investors in order to comply with their obligations under the FATCA or of the country in which the account is held. Also, the scope of the obligations under the FATCA or an IGA can vary according to the account holder's jurisdiction. Investors should therefore check with their usual tax advisers.

For more details, the complete prospectus can be obtained by requesting it from the management company.

- *The net asset value is available from the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT. The CIU's complete prospectus and the latest annual and periodic documents are sent within one week of the bearer's written request, submitted to LYXOR INTERNATIONAL ASSET MANAGEMENT, 17, cours Valmy - 92800 Puteaux. France*
- *Approval date by the Financial Markets Authority: 24 May 2006.*
- *Fund creation date: 20 June 2006.*

Activity report

The net asset value of the unit C-EUR of the LYXOR RUSSIA (DOW JONES RUSSIA GDR) UCITS ETF MF shows an evolution of 21.77% over the fiscal year and stands at EUR 28.9757 on 28/04/2017, meaning a fund performance of 4.11% since inception.

The net asset value of the unit C-USD of the LYXOR RUSSIA (Dow Jones Russia GDR) UCITS ETF MF shows an evolution of 15.77% over the fiscal year and stands at USD 31.5517 on 28/04/2017, meaning a fund performance of -24.91% since inception.

The net asset value of the unit D-GBP of the LYXOR RUSSIA (Dow Jones Russia GDR) UCITS ETF MF shows an evolution of 31.05% over the fiscal year (dividends reinvested) and stands at GBP 16.1188 on 28/04/2017, meaning a fund performance of -7.63% since inception (dividends reinvested).

The net asset value of the unit USD of the LYXOR RUSSIA (Dow Jones Russia GDR) UCITS ETF MF shows an evolution of 15.77% over the fiscal year and stands at USD 3.1606 on 28/04/2017, meaning a fund performance of -39.75% since inception.

The fund replicates the performance of the DJ Russia GDR \$ index, listed in US dollars (USD), representative of the Russian capitalisations among 85% of the GDR listed on the London Stock Exchange.

This index has shown an evolution of 13.43% over the fiscal year. The classes D-EUR, Daily Hedged C-CHF, Daily Hedged C-GBP, Daily Hedged C-USD, D-EUR, C-EUR, D-GBP, not being valued to the index currency, the evolution of their net asset value is subject to the exchange risk. Over the fiscal year, the EUR has decreased by 4.92% against the USD, CHF has increased by 1.27% against the EUR, GBP has decreased by 7.11% against the EUR, USD has increased by 5.18% par rapport à EUR.

This gap between the annual performance of the UCITS and that of its Benchmark Indicator can be explained by the result of the various parameters listed below:

- The operating and management fees as well as the external management fees,
- The costs for accessing the local markets of the securities of the replicated indexing,
- The costs or gains related to the instruments used as part of the replication of the indexing.

In pursuit of the greatest possible correlation with the performance of the DJ Russia GDR \$ index, the MF will reach its management objective using the indirect replication method which means that it will enter into one or more OTC swap contracts enabling it to reach its investment objective. The objective of these swap contracts will be to exchange (i) the value of the MF's assets, which will consist of balance sheet assets (excluding any securities received as guarantees), for (ii) the value of the securities that underlie the DJ Russia GDR \$ index.

The equities in the MF's assets will notably be equities making up the DJ Russia GDR \$ index, as well as other European equities, from all economic sectors, listed on all markets, including the small caps markets.

The fund's risk and yield profile has been classed as category 7 given its exposure to the Benchmark Indicator.

On 28/04/2017, the tracking error reached the level of 0.1741% for the MF. The level of the tracking error for the period was of 0.75%.

The discrepancy between the target tracking error and the actual tracking error was not significant which shows a compliance with the TE objective set at the beginning of the year.

The counterparty for the Index-Linked Swaps obtained by the fund is: Société Générale.

The figures referring to past performance relate to past periods and are not a reliable indicator of future results.

Regulatory information

Transfer commission (not audited by the auditor)

None.

Provisions for providing the investors with the various documents and reports relative to the management company's voting policy and its implementation.

The "voting policy" document, the report from the management company on the conditions whereby it exercised the voting rights of the CIU that it manages and the information relative to the vote on each resolution can, pursuant to article 322-75, 322-76 and 322-77 of the Financial Markets Authority General Regulations, be consulted either on the management company's website or at its head office (upon request).

Overall risk of the CIU

The management company's method for measuring the overall risk of the CIU: the method chosen is the commitment method.

ESG criteria

In accordance with Articles L. 533-22-1 and D. 533-16-1 of the [French] Monetary and Financial Code, subscribers are informed of the fact that the CIU does not simultaneously take into account the social, environmental and governance quality criteria in its investment policy.

Information on the compensation policy:

The management company has established a compensation policy in compliance with the regulations in force. This policy complies with the economic strategy, the objectives, and the values and interests of the management company and the Funds which it manages, as well as those of the investors in these Funds, and includes measures designed to avoid conflicts of interest.

The compensation policy of the management company implements a balanced system whereby the compensation of the employees concerned is based on the below principles, in particular:

- the compensation policy of the management company is compatible with efficient and healthy risk management, encouraging such an approach, and discouraging any risk-taking which would be incompatible with the risk profiles, the present brochure, or the other governing documents of the Funds managed by the management company;
- the compensation policy was adopted by the Supervisory Board of the management company, which adopts and re-examines the general principles of such policy at least once a year;
- personnel engaged in monitoring functions are compensated in accordance with the achievement of the objectives linked to their position, regardless of the performance of the sectors that they monitor;
- when the compensation varies according to performances, its amount is established by combining the evaluation of the performance of the person concerned and the valuation of the business unit or the Funds, and with regard to their risks and the results of the entirety of the management company during the evaluation of individual performances, taking financial and non-financial criteria into account;
- an appropriate balance is established between the fixed and variable components of the overall compensation;
- above a certain threshold, a large portion (which in all cases is at least 50% of the entire variable component of the compensation) consists of exposure to an index the components and the operational rules of which guarantee the alignment of the interests of the personnel concerned and those of the investors;
- above a certain threshold, a substantial portion (and in all cases at least 40%) of the variable component of the compensation is delayed for an appropriate period;
- variable compensation, including the delayed part, is only paid or acquired if it is compatible with the overall financial situation of the management company and if it is justified by the performances of the business unit, the Funds and the person concerned.

The updated details of the compensation policy are available on the following website: <http://www.lyxor.com/fr/menu-corporate/nous-connaître/mentions-reglementaires/>

Transparency of securities financing operations and reuse of financial instruments SFTR regulation
(Accounting currency of the CIU)

4. Data on the reuse of guarantees (collateral).

Financial guarantees received in a non-cash form shall not be sold, reinvested or pledged.

5. Retention of the guarantees received by the collective investment undertaking in connection with securities financing operations and total return swaps.

Number of custodians	1
1 Name	SOCIETE GENERALE
Amount	26,371,103

6. Retention of the guarantees provided by the collective investment undertaking in connection with securities financing operations and total return swaps.

The custodian, Société Générale S.A., exercises three types of responsibility; respectively, the monitoring of the regularity of the decisions of the management company, the monitoring of cash flows of the CIU and the custody of the assets of the CIU.

Société Générale S.A also works with a limited number of sub-custodians, selected according to the most rigorous quality standards, including the management of possible conflicts of interest which may arise from these appointments. The Custodian has established an effective policy for identification, prevention and management of conflicts of interest, in compliance with national and international regulations as well as international norms.

7. Data on the earnings and costs for each type of securities financing operation and total return swap.

The CIU shall utilise over-the-counter index-linked swaps trading the value of the CIU's assets (or, as the case may be, any other asset held by CIU Fund) against the value of the Benchmark Indicator.

The revenue and costs linked to these Total Return Swaps (TRS) are included in the assessment of the instruments as well as in the result presented in the statement of net assets and the statement of net asset values.

Auditor's report

AUDITOR'S REPORT ON THE ANNUAL ACCOUNTS Fiscal year closing on 28 April 2017

LYXOR RUSSIA (DOW JONES RUSSIA GDR) UCITS ETF
UCITS INCORPORATED IN THE FORM OF A MUTUAL FUND
Monetary and Financial Code

Management Company
LYXOR INTERNATIONAL ASSET MANAGEMENT
17, cours Valmy
92800 Puteaux

Ladies, Gentlemen,

As part of the mission entrusted to us by the management company's management bodies, we hereby present our report relative to the fiscal year closing on 28 April 2017 concerning:

- the verification of the annual accounts of UCITS incorporated in the form of a mutual fund LYXOR RUSSIA (DOW JONES RUSSIA GDR) UCITS ETF, as they are attached to this report;
- the bases of our assessments;
- the specific verifications and information required by law.

The annual accounts have been closed under the responsibility of the funds management company. It is our duty to express an opinion on these accounts based on our audit.

1. OPINION ON THE ANNUAL ACCOUNTS

We have conducted our audit in accordance with the applicable professional standards in France. These standards require that we apply the procedures necessary to obtain reasonable assurance that the annual financial statements do not include any significant misstatements. An audit involves verifying, by sampling and other selection methods, the elements underlying the amounts and information contained in the annual financial statements. It also involves assessing the implemented accounting principles, the significant estimates that have been used, and assessing the overall presentation of the financial statements. We feel that the collected evidence is sufficient and appropriate for the basis of our opinion.

We certify that, in accordance with French accounting rules and principles, the annual financial statements are truthful and in order, and present a fair picture of the operating profits and losses for the past fiscal year, as well as the UCITS created in the form of a mutual fund at the end of said fiscal year.

2. JUSTIFICATION OF THE ASSESSMENTS

In application of the provisions of article L.823-9 of the Commercial Code relative to the justification of our assessments, we inform you of the fact that the assessments we made concerned the appropriateness of the implemented accounting principles and the reasonable nature of the significant estimated that have been used.

The assessments made in this way are in line with our approach for the audit of the annual accounts, taken as a whole, and they therefore contributed to the formulation of our opinion as expressed in the first part of this report.

1 Accounting rules and methods

The annual accounts are presented in the form required by Regulation ANC 2014-01 that repealed the amended CRC Regulation 2003-02.

Assessment rules

The MF's assets are assessed in compliance with the applicable laws and regulations, and more particularly with the rules defined in regulation no. 2014-01 of the Accounting Regulatory Committee dated 14 January 2014 relative to the chart of accounts of undertakings for collective investment in transferable securities.

The financial instruments traded on a regulated market are assessed at the closing price on the day before the calculation day of the net asset value. When these financial instruments are traded on several regulated markets at the same time, the chosen closing price is the one of the regulated market in which they are primarily traded.

However, in the absence of significant transactions on a regulated market, the following financial instruments are assessed using the following specific methods:

- Negotiable debt securities ("NDS") having a residual life upon acquisition that is less than or equal to 3 months are assessed with a linear distribution, over the residual lifespan, of the difference between the acquisition value and the redemption value. The management company nevertheless reserves the possibility of assessing these securities at the current value in case of particular sensitivity to market risks (rates, etc.). The chosen rate is that of the equivalent security issues allocated to the risk margin related to the issuer;
- NDS, of which the residual lifespan at acquisition is greater than 3 months but of which the residual lifespan on the net asset value closing date is equal to or less than 3 months, are assessed by means of a linear distribution, over the residual lifespan, of the difference between the last adopted current value and the reimbursement value. The management company nevertheless reserves the possibility of assessing these securities at the current value in case of particular sensitivity to market risks (rates, etc.). The chosen rate is that of the equivalent security issues allocated to the risk margin related to the issuer;
- NDS, of which the residual lifespan on the net asset value closing date is greater than 3 months, are assessed at their current value. The chosen rate is that of the equivalent security issues allocated to the risk margin related to the issuer.
- Firm future financial instruments traded on organised markets are assessed at the clearing price on the day before the calculation day of the net asset value. Conditional future financial instruments traded on organised markets are assessed at the market value on the day of the net asset value. Over-the-counter firm or conditional future financial instruments are assessed at the price given by the financial instrument's counterparty. They are presented in the off-balance sheet on the basis of the nominal value defined in the contract.

In the event of the holding of an EMTN, it will be valued on the basis of a market price given by the financial instrument's counterparty.

The management company independently carries out a verification of this assessment.

- Deposits are assessed at their nominal value, plus any related interest that has accrued.
- Subscription warrants, cash certificates, promissory notes and mortgage notes are assessed at their probable market value, under the management company's responsibility.
- Temporary securities acquisitions and sales are assessed at the market price.
- Units and equities in undertakings for collective investment in transferable securities operating under French law are assessed at the last net asset value known on the calculation date of the MF's net asset value.
- Units and equities of UCITS operating under foreign law are assessed at the last unit net asset value known on the calculation date of the MF's net asset value.

Financial instruments traded on a regulated market for which the price has not been determined or for which the price has been corrected are assessed at their probable market value, under the management company's responsibility.

appendix

The exchange rates used for the assessment of financial instruments listed in a currency other than the MF's reference currency are the exchange rates disseminated by the fixing WM/Reuters on the same day of the MF's net asset value date.

Posting method for the trading fees

The chosen method is that of included fees.

Posting method of incomes from fixed income securities

The chosen method is that of the collected coupon.

Assessment methods for off-balance sheet commitments

Off-balance sheet operations are assessed at the commitment value.

The commitment value for firm futures contracts is equal to the price (in the currency of the CIU) multiplied by the number of contracts multiplied by the face value.

The commitment value for conditional operations is equal to the price of the underlying security (in the currency of the CIU) multiplied by the number of contracts multiplied by the delta multiplied by the underlying face value.

The commitment value for the swap contracts is equal to the contract's nominal amount (in the currency of the CIU).

Operation and management fees

These fees include all of the fees invoiced directly to the MF, except for the transaction fees. The transaction fees include intermediation fees (brokerage, stock market tax, etc.) and the transfer commission which, if relevant, may notably be collected by the custodian and management company.

For this MF, the following fees can be added to the operation and management fees (see summary Table hereinafter):

Outperformance commissions: these commissions reward the management company when the MF has exceeded its objectives and are invoiced to the MF;

Transfer commissions invoiced to the MF.

For more details on the fees actually invoiced to the MF, refer to the Statistical Part of the Key Investor Information Document "KIID".

Fees invoiced to the CIU	Basis	Schedule rate
Financial management fees and administrative fees external to the portfolio management company (Auditor, Depository, distribution, lawyers) including tax ⁽¹⁾	Net asset	maximum 0.65% per year
Outperformance commission	Net asset	None
Transfer commissions	Collection on each transaction	None

⁽¹⁾ including all fees excluding transaction fees, outperformance commissions and fees related to investments in UCITS.

Accounting currency

The MF accounting is carried out in EURO.

Indication of accountancy changes declared to each of the bearers individually

- Occurred change: None.
- Future change: None.

appendix

Indication of other changes declared to each of the bearers individually *(Not certified by the auditor)*

- Occurred change: None.
- Future change: None.

Indication and justification of the changes to estimates and application provisions

None.

Indication of the nature of the errors corrected during the fiscal year

None.

Indication of the rights and conditions attached to each category of units

Classes of units USD and D-GBP: The management company reserves the right to capitalise and/or distribute all or part of the amounts available for distribution, one or more times each year. The net capital gains generated will be capitalised.

Classes of units C-EUR and C-USD: Capitalisation of all the amounts available for distribution.

appendix

LYXOR Russia (Dow Jones Russia GDR) UCITS ETF (the "Fund") is in no way sponsored, endorsed, sold or promoted by Dow Jones & Company Inc. ("DOW JONES"), or by any DOW JONES subsidiary, or by any of the entities involved in the preparation of the DOW JONES indices. The DOW JONES indices are the exclusive property of DOW JONES and the DOW JONES indices are trademarks belonging to DOW JONES or its subsidiaries and have been the subject of a licence granted, for certain requirements, to Lyxor Asset Management. Neither DOW JONES, nor any DOW JONES subsidiary, nor any of the entities involved in the preparation or calculation of the DOW JONES indices makes any declaration or issues any express or implicit guarantee relative to holders of the Fund's units or more generally to the public, with regard to the timeliness of a transaction involving mutual fund units in general or the Fund's units in particular, or regarding the ability of any DOW JONES index to replicate the performance of the overall equity market. DOW JONES or its subsidiaries are the owners of certain names, registered trademarks and of the DOW JONES indices that are determined, composed and calculated by DOW JONES without discussion with Lyxor International Asset Management or the Fund. Neither DOW JONES, nor any DOW JONES subsidiary, nor any of the entities involved in the preparation of the DOW JONES indices is required to take into account the needs of Lyxor International Asset Management or of the holders of the Fund's units when determining, composing or calculating the DOW JONES indices. Neither DOW JONES, nor any DOW JONES subsidiary, nor any of the entities involved in the preparation of the DOW JONES indices makes any decision regarding the launch date, the price, the quantity of the Fund's units, or even the determination and calculation of the formula used to establish the Fund's net asset value. Neither DOW JONES, nor any DOW JONES subsidiary, nor any of the entities involved in the preparation of the DOW JONES indices assumes any liability or obligation with regard to the Fund's administration, management or marketing.

THOUGH DOW JONES OBTAINS INFORMATION FOR INTEGRATION OR USE IN THE CALCULATION OF THE INDICES FROM SOURCES THAT DOW JONES CONSIDERS TO BE RELIABLE, NEITHER DOW JONES NOR ANY OTHER PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE DOW JONES INDICES GUARANTEES THE EXACTNESS AND/OR EXHAUSTIVE NATURE OF THE INDICES OR OF ANY INCLUDED DATA. NEITHER DOW JONES NOR ANY OTHER PARTY INVOLVED IN THE CREATION OF A CALCULATION FOR THE DOW JONES INDICES GIVES ANY EXPRESS OR IMPLICIT GUARANTEE AS TO THE RESULTS THAT MAY BE OBTAINED BY THE HOLDER OF A DOW JONES LICENCE, THE CUSTOMERS OF THE SAID LICENSEE AS WELL AS THE COUNTERPARTIES, UNIT HOLDERS IN THE FUND OR ANY OTHER PERSON OR ENTITY, BASED ON THE USAGE OF THE INDICES OR OF ANY DATA INCLUDED WITH REGARD TO THE RIGHTS GRANTED BY LICENCE OR FOR ANY OTHER USAGE. NEITHER DOW JONES NOR ANY OTHER PARTY GIVES EXPRESS OR IMPLICIT GUARANTEES AND DOW JONES REJECTS ALL GUARANTEES REGARDING THE COMMERCIAL VALUE OR ADEQUACY FOR A SPECIFIC USAGE OF THE INDICES OR INCLUDED DATA. NOTWITHSTANDING THE ABOVE, UNDER NO CIRCUMSTANCES MAY THE LIABILITY OF DOW JONES OR OF ANY OTHER PARTY BE SOUGHT WITH REGARD TO ANY DAMAGES, WHETHER DIRECT, INDIRECT OR OTHER (INCLUDING THE LOSS OF EARNINGS), EVEN IN CASE OF KNOWLEDGE OF THE POSSIBILITY OF SUCH DAMAGES.

3. Information supplements

3.1. Financial instruments: breakdown by the instrument's legal or economic type

3.1.1 Breakdown of the "Bonds and similar securities" item by type of instrument

	Traded on a regulated or similar market	Not traded on a regulated or similar market
Index-linked bonds	-	-
Convertible bonds	-	-
Fixed-rate bonds	-	-
Variable-rate bonds	-	-
Zero-coupon bonds	-	-
Participating securities	-	-
Other instruments	-	-

3.1.2 Breakdown of the "Debt securities" item by legal or economic type

	Traded on a regulated or similar market	Not traded on a regulated or similar market
Treasury Bills	-	-
Commercial papers	-	-
Certificates of deposit	-	-
Medium-term notes ("BMTN")	-	-
Other instruments	-	-

3.1.3 Breakdown of the "Sale operations on financial instruments" item by instrument type

	Securities under reverse repurchase agreement sold	Securities borrowed sold	Securities acquired with redemption right sold	Short sales
Equities	-	-	-	-
Bonds	-	-	-	-
Debt securities	-	-	-	-
Other investments	-	-	-	-

3.1.4 Breakdown of the off-balance sheet headings by market type (notably rates, equities)

	Rate	Equities	Exchange	Other
Hedging				
Commitments on regulated or similar markets	-	-	-	-
Over-the-counter commitments	-	-	-	-
Other commitments	-	-	-	-
Other operations				
Commitments on regulated or similar markets	-	-	-	-
Over-the-counter commitments	-	550,074,732.80	-	-
Other commitments	-	-	-	-

3.2 Breakdown by rate types of the asset, liability and off-balance sheet items

	Fixed rate	Variable rate	Revisable rate	Other
Assets				
Deposits	-	-	-	-
Bonds and similar securities	-	-	-	-
Debt securities	-	-	-	-
Temporary financial securities operations	-	-	-	-
Financial accounts	-	-	-	0.34
Liabilities				
Temporary financial securities operations	-	-	-	-
Financial accounts	-	-	-	0.63
Off-balance sheet				
Hedging	-	-	-	-
Other operations	-	-	-	-

3.3 Breakdown by residual maturity of the asset, liability and off-balance sheet items

	0-3 months	3 months - 1 year	1-3 years	3-5 years	>5 years
Assets					
Deposits	-	-	-	-	-
Bonds and similar securities	-	-	-	-	-
Debt securities	-	-	-	-	-
Temporary financial securities operations	-	-	-	-	-
Financial accounts	0.34	-	-	-	-
Liabilities					
Temporary financial securities operations	-	-	-	-	-
Financial accounts	0.63	-	-	-	-
Off-balance sheet					
Hedging	-	-	-	-	-
Other operations	-	550,074,732.80	-	-	-

3.4 Breakdown by listing or assessment currency of the asset, liability and off-balance sheet items

This breakdown is given for the main listing or assessment currencies, with the exception of the currency for the keeping of the accounts.

By main currency	USD	JPY	GBP	Other currencies
Assets				
Deposits	-	-	-	-
Equities and similar securities	191,948,190.46	58,738,053.11	-	-
Bonds and similar securities	-	-	-	-
Debt securities	-	-	-	-
CIU	-	-	-	-
Temporary financial securities operations	-	-	-	-
Receivables	-	-	-	-
Financial accounts	-	-	-	-
Other assets	-	-	-	-
Liabilities				
Sale operations on financial instruments	-	-	-	-
Temporary financial securities operations	-	-	-	-
Debts	-	-	-	-
Financial accounts	-	-	0.63	-
Off-balance sheet				
Hedging	-	-	-	-
Other operations	-	-	-	-

3.5 Receivables and Debts: breakdown by type

Details of the elements comprising the “other receivables” and “other debts” items, notably breakdown of the future foreign exchange operations by type of operation (purchase/sale).

Receivables	23,515,734.40
Future currency exchange operations:	
Future purchases of currency	-
Total traded amount of future Sales of currencies	-
Other receivables:	
Deferred settlement sales	23,185,734.40
Coupons receivable	330,000.00
-	-
-	-
-	-
Other operations	-
Debts	23,776,137.75
Future currency exchange operations:	
Future sales of currencies	-
Total traded amount of future Purchases of currencies	-
Other debts:	
Deferred settlements purchases	19,744,788.12
Account payable	3,770,946.28
Accrued expenses	260,403.35
-	-
-	-
Other operations	-

3.6 Shareholders' equity

Number of units issued/redeemed during the fiscal year:	Subscriptions		Redemptions	
	Number of units	Amount	Number of units	Amount
UNIT C-EUR / FR0010326140	10,242,475	285,382,891.52	10,244,687	270,781,777.45
UNIT C-USD / FR0010339457	2,174,779	57,358,537.32	2,145,300	55,754,479.75

APPENDIX TO THE REPORT
intended for Swiss subscribers

This appendix makes the annual report with the FINMA requirements for the marketing in Switzerland. **It has not been certified by the accountants.**

Country of origin of the Fund
France.

Representative of the Swiss Fund

Société Générale, Paris, Zurich Branch, has been authorised by the FINMA as the Fund's representative in Switzerland while also assuming the payment service. The prospectus, articles of association, annual and semi-annual reports of the Fund, the KIIDs as well as the list of purchases and sales made by the Fund during the fiscal year can be obtained on request and at no cost from the representative's head office in Switzerland, Société Générale Paris, Zurich Branch, Talacker 50, P.O. Box 1928, 8021 Zurich.

Calculation of the Total Expense Ratio (in compliance with the recommendations of the Swiss Funds & Asset Management Association SFAMA)

Annual closing of the collective investment: 30 April

Average assets of the fund for the period
from 29/04/16 to 28/04/17: 468,894,966.27

UCITS management commission: 0.65 % including tax

Excerpt from the income statement

Expenses in euros	Annual report	Half-yearly report	Annual report
	29/04/2016	31/10/2016	28/04/2017
Fund management commission	2,450,802.20	1,233,495.64	3,041,804.25
Performance fee to be paid to the manager of collective investments of capital	0.00	0.00	0.00
Depository bank commission	0.00	0.00	0.00
Other expenses	0.00	0.00	0.00
Taxes	0.00	0.00	0.00
Total operating expenses	2,450,802.20	1,233,495.64	3,041,804.25

Calculation of the TER for 12 months, from 29/04/16 to 28/04/17:

TER, including performance fee

$$(3,041,804.28 / 468,894,966.27) * 100$$

0.65 %

Performance fee as a share in percentage of the net average assets:

-

LYXOR RUSSIA (DOW JONES RUSSIA GDR) UCITS ETF
Fiscal year closing on 28/04/2017

Performance of the fund
