

VISIT BY OFFICIALS FROM MINISTRY OF HEALTH

The Board of Directors (the “**Board**”) of TalkMed Group Limited (the “**Company**”) wishes to inform the shareholders of the Company that on 21 August 2023, officials from the Ministry of Health concurrently visited three clinics, where our haematologists are practising, to find out about our use of chimeric antigen receptors (CAR) T-cell therapy.

They were attended to by our nursing managers, operations executives and clinical research coordinator, who suggested for them to write in officially so that we could respond to their further queries in writing.

The Company, through its subsidiary, BioCell Innovations Pte. Ltd., is now able to produce humanised CD-19 CAR, a form of cellular therapy for lymphoma and leukemia.

We have yet to deploy it at the clinics. We plan to apply for its use when we have eligible patients.

The Company will make the necessary announcement(s) as and when there are further material developments.

By Order of the Board

Ang Peng Tiam
Chief Executive Officer
