The condensed interim financial statements for the 6-month period and full year ended 31 December 2023 have been prepared in accordance with SFRS(I) 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last audited annual financial statements for the year ended 31 December 2022.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed interim financial statements are presented in Singapore dollar ("\$") which is the Company's functional currency and all values presented are rounded to the nearest thousand ("\$'000") except where otherwise indicated.

2.1 New and amended standards adopted by the Group

A number of amendments to standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

2.2 New standards, amendments and interpretations issued but not yet effective

There are a number of standards, amendments to standards, and interpretations, which have been issued by the Accounting Standards Council Singapore that are effective in future accounting periods and the Group has not decided to early adopt. The Group does not expect any of these standards upon adoption to have a material impact to the Group.

2.3 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to Group's financial statements as at and for the financial year ended 31 December 2022.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

3 Seasonal operations

Generally, the business activities of the Group are not subject to any significant seasonal trends as the Group is engaged in the provision of waste management and disposal services, which are considered to be essential services, to mainly shipping agents who serve a broad spectrum of ships ranging from cargo vessels to cruise ships that are porting in Singapore or anchoring in the surrounding waters of Singapore and the South China Sea.

Notwithstanding the above and barring the impact of exceptional events such as a severe pandemic, a seasonal trend may be observed for cruise ships porting in Singapore where a higher number of port calls by international cruises into Singapore is typically seen during the peak season from November to April, which coincides with the year-end holiday season and the seasonally colder months in the Northern Hemisphere. This seasonal trend in the cruise industry alone is not regarded to be significant due to the diversified nature of the Group's revenue streams.

Ships involved in trade and the transport of cargoes are generally not subject to any seasonal trends.

4 Segment and revenue information

The Group's revenue, capital expenditure, assets and liabilities were mainly derived from one primary business segment in Singapore which is that of the provision of waste management and disposal services to industrial and commercial clients and sales of recycling materials. Accordingly, no segmental information is prepared based on business or geographical segment as it is not meaningful.

The non-current amount due from a subsidiary is unsecured, non-interest bearing and repayable on demand. As at 31 December 2023, the balance is classified as non-current as it is only expected to be realised after 12 months. The carrying amount of the non-current amount due from a subsidiary approximates its fair value as it is discounted at market rate.

The non-trade amounts due from third parties and subsidiary are unsecured, non-interest bearing and repayable on demand.

The Group leases leasehold lands in Singapore. As at 31 December 2023, the average incremental borrowing rate applied was 3.60% (31 December 2022: 3.60%).

The Group also leases certain motor vehicles and plant and machinery with lease term ranging from 4 to 5 years (31 December 2022: 4 to 5 years). The average interest rates implicit in the lease range from 1.70% to 4.75% per annum (31 December 2022: 1.70% to 3.69% per annum).

The Group's lease liabilities of \$965,000 (31 December 2022: \$626,000) are secured over certain right-of-use assets in respect of motor vehicles and plant and machinery, which will revert to the lessors in the event of default by the Group. These are guaranteed by the Directors of a subsidiary company.

All lease liabilities are denominated in Singapore dollar.

OTHER INFORMATION REQUIRED BY APPENDIX 7C OF THE CATALIST RULES

1 Whether the figures have been audited or reviewed, and in accordance with which auditing standard or practice

The condensed statements of financial position of Shanaya Limited and its subsidiaries as at 31 December 2023 and the related condensed consolidated profit or loss and other comprehensive income, condensed statements of changes in equity and condensed consolidated statement of cash flows for the full year then ended and certain explanatory notes have not been audited or reviewed.

The Group's latest financial statements for the year ended 31 December 2022 were not subject to an adverse opinion, qualified opinion or disclaimer of opinion.

Where the figures have been audited or reviewed, the auditors' report (including any modifications or emphasis of a matter).

Not applicable.

- A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:
 - (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
 - (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

REVIEW OF STATEMENT OF PROFIT OR LOSS

2HFY2023 vs 2HFY2022

The Group's revenue decreased by \$0.22 million, or 5%, from \$4.13 million to \$3.91 million for 2HFY2023. The decrease was primarily attributable to i) the absence of \$0.57 million of project-based revenue from the disposal of damaged ship cargo previously generated in 2HFY2022; ii) decrease of \$0.21 million in revenue from the collection and disposal of oil waste; partially offset by i) \$0.38 million maiden revenue from construction waste collection and disposal; ii) increase of \$0.07 million in revenue from general waste collection and disposal for cruise ships; and iii) increase of \$0.07 million in revenue from sale of scrap for reccyling.

Other income increased by \$1.45 million, or 1,134%, from \$0.13 million to \$1.58 million for 2HFY2023, largely due to a one-off \$1.30 million insurance claim for repair works completed in relation to damage caused by a fire at the Group's Tuas premises in December 2021.

Employee benefits expense increased by \$0.23 million, or 26%, from \$0.89 million to \$1.12 million for 2HFY2023. The increase was mainly due to the shift from labour subcontracting to internal manpower hiring for some of its operations as well as manpower support for its new construction waste handling business.

Amortisation of right-of-use ("**RoU**") assets increased by \$0.04 million, or 16%, from \$0.26 million to \$0.30 million for 2HFY2023. The increase was mainly due to additional finance leases secured in respect of new motor vehicles and an excavator during FY2023.

Other operating expenses increased by \$1.06 million, or 39%, from \$2.71 million to \$3.77 million for 2HFY2023. The increase was largely due to \$1.30 million one-off expenditure to repair damage caused by a fire at the Group's Tuas premise (which was in turn offset by a similar amount under other income), partially offset by the decrease of \$0.26 million in subcontractor costs.

Finance costs increased by \$0.04 million, or 11%, from \$0.36 million to \$0.40 million for 2HFY2023. The increase was largely attributable to the increase in certain loan borrowing rates and fresh drawdowns of short-term revolving loan during FY23, partially offset by the decrease in interest cost led by progressive repayment of loan principals.

Income tax credit amounting to \$0.13 million for 2HFY2023 relates to writeback of excess deferred tax liability.

As a result of the above, the Group reported net loss of \$0.62 million for 2HFY2023, a decrease of \$0.07 million, or 11% from the loss of 2HFY2022.

FY2023 vs FY2022

Group revenue increased by \$0.26 million, or 3%, from \$7.73 million to \$7.99 million for FY2023. The increase was largely driven by increase of \$0.43 million in revenue from cruise waste handling, partially offset by decrease of \$0.19 million in revenue from cargo ship general waste handling.

(Incorporated in the Republic of Singapore) (Company Registration Number 199804583E)

Depreciation of property, plant and equipment ("**PPE**") increased by \$0.12 million, or 10%, from \$1.19 million to \$1.31 million for FY2023. The increase was mainly due to commencement of depreciation of major portion of the Group's integrated recycling plant with effect from 1 May 2022.

Other operating expenses increased by \$1.14 million, or 22%, from \$5.06 million to \$6.20 million for FY2023. The increase was primarily due to \$1.30 million one-off expenditure to repair damage caused by a fire at the Group's Tuas premise (which was in turn offset by a similar amount under other income) and rental of vehicles and land space of \$0.08 million, partially offset by the decrease of \$0.28 million in subcontractor costs.

The variances in other income, employee benefits expense, amortisation of right-of-use assets, finance costs and income tax credit between FY2023 and FY2022 share similar reasoning as those covered in the preceding section "2HFY2023 vs 2HFY2022".

Net loss of \$1.09 million was incurred for FY2023, a decrease of \$0.34 million, or 24%, as compared to net loss of \$1.43 million incurred for FY2022. The narrower loss was largely attributable to the improvement in revenue and writeback of \$0.18 million excess deferred tax liability.

REVIEW OF STATEMENT OF FINANCIAL POSITION

Non-current assets

Non-current assets decreased by \$1.41 million from \$19.03 million as at 31 December 2022 to \$17.62 million as at 31 December 2023, mainly due to the following:

- i) depreciation of PPE of \$1.31 million; and
- ii) amortisation of RoU assets of \$0.57 million;

partially offset by purchase of additional PPE and RoU assets of \$0.15 million and \$0.35 million, respectively.

Current assets

Current assets decreased by \$0.23 million from \$3.87 million as at 31 December 2022 to \$3.64 million as at 31 December 2023, mainly due to a decrease in cash and bank balances of \$0.50 million (further explained in the review of the statement of cash flows below), offset by an increase in trade and other receivables of \$0.28 million. The increase in trade and other receivables was largely due to increase in revenue during the last 3 months of FY2023.

Current liabilities

Current liabilities increased by \$0.63 million from \$3.02 million as at 31 December 2022 to \$3.65 million as of 31 December 2023, mainly due to the drawdown of revolving credit of \$0.60 million.

Non-current Liabilities

Non-current liabilities decreased by \$1.18 million from \$15.70 million as at 31 December 2022 to \$14.52 million as at 31 December 2023. The decrease was mainly due to \$1.86 million of reclassification of term loans and lease liabilities from non-current portion to current portion offset by the securing of \$0.62 million of fresh finance lease during FY2023.

Equity

Total equity, after accounting for the loss for FY2023, was \$3.09 million as at 31 December 2023 which compares against \$4.17 million as at 31 December 2022.

Negative working capital

As at 31 December 2023, the Group's working capital was negative as its current liabilities exceeded its current assets by approximately \$14,000. This was primarily attributable to further drawdowns of short-term revolving loans to meet the Group's financial obligations as a loss was incurred in 2HFY2023. To address the negative working capital issue, the Group has taken steps to raise fresh equity funds through a rights issue which is expected to be completed by June 2024 with minimum net proceeds of \$987,500 expected to be received by the Group. On such basis, the Board is of the view that the Group is able to meet its short term debt obligations when they fall due and that the going concern assumption would still apply in the preparation of the FY2023 financial statements.

REVIEW OF STATEMENT OF CASH FLOWS

Operating activities

In FY2023, net cash generated from operating activities was \$1.15 million. This was largely due to operating cash inflows before working capital movement of \$1.39 million which was partially offset by negative net working capital movement of \$0.24 million. The negative net working capital movement of \$0.24 million resulted from an increase in trade and other receivables of \$0.28 million coupled with an increase in prepayments of \$0.05 million, offset by an increase in trade and other payables of \$0.09 million.

Investing activities

In FY2023, net cash used in investing activities was \$0.20 million, mainly relating to the purchase of a motor vehicle, waste-carrying bins and equipment installation.

Financing activities

In FY2023, net cash used in financing activities was \$1.44 million, primarily due to i) repayment of bank borrowings of \$1.26 million; ii) repayment of obligations under lease liabilities of \$0.54 million; and iii) interest payments of \$0.62 million; partially offset by fresh proceeds from i) drawdown from revolving credit of \$0.60 million; and ii) hire purchase of a motor vehicle and excavator previously paid fully in cash.

As a result of the above, cash and cash equivalents decreased by \$0.50 million to S\$0.96 million as at 31 December 2023 from \$1.46 million as at 31 December 2022.

A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

Transitioning into the endemic phase of COVID-19, 2023 was a year fraught with challenges including elevated interest rates, protracted cost pressures, and geopolitical tensions - exacerbated by the wars in Ukraine/Russia and Israel/Hamas. The business climate remains uncertain in 2024.

The Singapore's cruise industry in 2023 picked up strongly with a record high of 2 million passenger throughput from more than 340 ship calls in 2023 (according to information released by Singapore Tourism Board on 1 February 2024). Riding on the strength of such recovery momentum, the Group shall gear up its resources to boost its general waste handling sales further in 2024.

On the biomedical waste management front, the Group had, on 9th November 2023, obtained temporary approval from NEA for the collection, treatment, and safe disposal of bio-hazardous waste of up to 80 tons over a 3-month trial run at its Kian Teck facility. The license has been extended up to 7th May 2024. With the license, the Group has started collecting bio-medical waste from its cruise and non-cruise shipping clients for incineration and safe disposal. The Group believes that upon successful trial run and fulfilment of the emission standards of Singapore, permanent license will be issued by NEA to enable the Group upscale its biomedical waste collection and treatment operations hopefully in second half of FY2024.

Amidst the uncertain and difficult operating environment, the Group shall exercise greater prudence in managing its operating costs, cashflow and business risks while exploring opportunities to provide waste management services for a wider customer base in the cargo shipping and other land-based sectors, notably the healthcare, pharmaceutical, shippards, logistics, oil & gas, food & beverage, and construction, in a bid to grow its topline.
