CORPORATE PROFILE

China Taisan Technology Group Holdings Limited is one of the leading producers of knitted performance fabrics in the PRC. It is engaged in the knitting, dyeing and finishing of fabrics under its own “Lianjie” (连捷) brand as well as the provision of fabric-processing services.

It is one of the few approved suppliers of performance fabrics used in the manufacture of sportswear and casual wear for reputable international and domestic brands including the likes of Nike, Adidas, Umbro, CK, Li-Ning (李宁), Anta (安踏), Metersbonwe (美特斯邦威), 361, Qiaodan China (乔丹中国) and Semir (森马).

Our Chief Executive Officer and co-founder, Mr. Lin Wen Chang, is a Taiwanese and has more than 20 years’ experience in the textile industry. Key positions in factory management and sales & marketing are also mostly occupied by Taiwanese. Our product R&D is staffed by a strong team of 12 R&D personnel, who are mostly Taiwanese with more than 10 over years of experience in textile industry. As Taiwan is a global leader in textile-manufacturing technology using synthetic fibre, China Taisan is able to leverage on this strong Taiwanese connection to maintain its technological edge over other PRC competitors.

The Group’s production facility is strategically located in Jinjiang City, Fujian Province, otherwise known as the Sports Hub of the PRC – giving us access to the entire production chain for sports and leisure apparel in the PRC. It is therefore able to respond more quickly to customers’ demands and develop long lasting relationships with many of its local customers such as Anta and 361.

The facility has a built-up area of about 37,586 sqm and is installed with equipment incorporating advanced technologies from France, Germany, Japan and Taiwan. The facility is fully integrated and is able to support the whole fabric production process from knitting and dyeing to finishing. With an annual production capacity of about 27,650 tonnes, China Taisan is one of the largest producers of performance fabrics in the PRC.

As a testament to our product quality, our products are able to conform to international standards such as AATCC, ASTM, DIN, BSI and JIS. We are also one of the few to become certified as Öko-Tex Standard 100 compliant since 2005. We are accredited by the CICC Conformity Assessment Services Co., Ltd (中国检验认证集团质量认证有限公司) with ISO9001:2000 and ISO14001:2004. In September 2008, our subsidiary, Jinjiang Lianjie, has been awarded the title of “Fabrics China Sportswear Fabrics Pioneer Plant” (“国家运动服装面料开发基地”) under The Fabrics China Project, which was initiated by China Textiles Development Center (中国纺织工业协会) and China Textile Information Center (国家纺织产品开发中心) in 1999.

CHAIRMAN & CEO STATEMENT

Choi Cheung Kong

Non-executive Chairman

Dear Shareholders,

On behalf of the Board, we are pleased to present to you the annual report of the Group for the financial year ended 31 December 2014 ("FY2014").

Year in Review

Due to the slow recovery of global economic and the industry becoming much more competitive. This has affected the Group's performance especially in the economy of scale of our operations.

Revenue for the Group was RMB 798.0 million, 9.4% higher than that achieved in FY2013. The increase in revenue mainly resulted from

the increase in the average selling price of performance fabrics in FY2014.

However, the Group made a net loss of RMB 434.1 million, due to products which did not meet customer's specified requirements. This net loss included the cost of a one for one replacement of these defective products, which cost the Group RMB 560.8 million.

We are looking seriously into how to redirect our resources to improve the Group's performance into the future.

Forging Ahead

The Group's business performance for FY2014 showed an unsatisfactory result in the face of

the economy downturn in the PRC and one for one replacement due to products not meeting customers demands. As one of the largest performance fabric manufacturers in China, we have enhanced our communication with our customers and continued to develop new and differentiated products. The newly delivered machineries would help us to improve our efficiency and quality in production as well as to produce newer type of products to meet the ever-changing demands of our clients.

For FY2015, the Group's operating environment will remain challenging. Notwithstanding the challenges faced, the Group would continue to develop and launch several new products and re-integrate the production line so as to further differentiate ourselves from our peers.

Appreciation

On behalf of the Board, we would like to extend our utmost appreciation to our management and staff, shareholders, business partners and customers for their dedication and commitment. We will continue to put in our best efforts to deliver value to all our stakeholders.

OPERATIONS & FINANCIAL REVIEW

Revenue (RMB'000)

Revenue

For the full year ended 31 December 2014 ("FY2014"), the Group recorded revenue of about RMB798.0 million, increased by 9.4% from the RMB729.3 million in FY2013. The increase in revenue mainly resulted from the increase in the average selling price of performance fabrics in FY2014 by 42.2% from RMB 47,600/tonnes in FY2013 to RMB 67,700/tonnes.

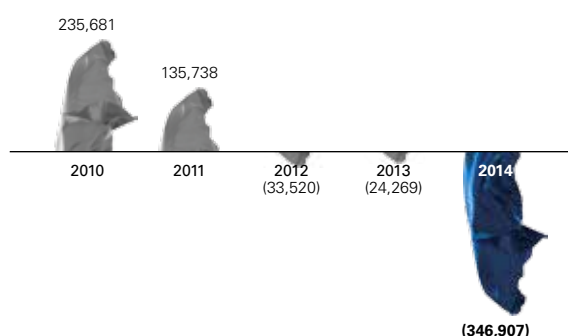

Net Profit attributable to shareholders (RMB'000)

Profitability

The Group made a net loss of RMB434.1 million which included RMB560.8 million of one for one replacement to customers due to delivered products that allegedly failed to meet customers' specified requirements.

Operating Cash Flow (RMB'000)

Cash Flow

During FY2014, cash and bank balances decreased by RMB 353.9 million to RMB25.9 million as at 31 December 2014 from RMB379.8 million as at 31 December 2013. The Group's cash outflows were mainly due to operating activities as a result of slower collection in trade and other receivables due to products which are not up to customers specification and return of quality issue products.

RISK MANAGEMENT POLICIES & PROCESSES

The Management regularly reviews the Group's business and operational activities to identify areas of significant business risks as well as appropriate measures to control and mitigate these risks. The following sets out an overview of China Taisan's approach to risk management and business control with a brief discussion of the nature and the extent of its exposure to these risks. The risk overview, however, is not exhaustive:

Market Risk

The Group's principal business is focused in a single geographical market which is the People's Republic of China. All our direct customers, the apparel manufacturers and/or fabric traders, are distributed in various regions of the mainland China, mainly in Fujian Province, Guangdong Province and Jiangsu Province. Though we supply to our direct customers within mainland China, our products could be indirectly exported out of China in the forms of their finished products, i.e. the apparels, as instructed by respective end customers, the apparel brands. Such indirect diversification implies that our market risk may not necessarily be concentrated in mainland China.

However, majority of our products are still consumed in the mainland China, which is in line with the China Taisan's strategy. The management is of the view that the presence of political stability, government's policies in broad terms and strong economic growth are favourable factors to the market development. The Group also carries its business with a well diversified group of direct customers and end customers in this market.

Nevertheless, the Group will be susceptible to any unforeseen changes in the government policies, industry regulations and market conditions. The management consistently keeps updated in order to anticipate or respond to any adverse changes in an efficient and timely manner.

Business Risk

The manufacture of textile products would result in water pollution by nature. Therefore, the Group has to consistently keep up with industry regulations on environmental protection. Our factory is equipped with a reliable waste water treatment system which is constantly monitored and upgraded in accordance with local authority's requirement.

Our main raw materials are synthetic yarns like polyester and spandex which are by-products from crude oils. The costs of the raw materials are therefore indirectly affected by the fluctuation in crude oil prices. However, we manufacture our products on an "order-to-produce" business model, where our products pricing accepted by customers has taken into account of the current raw material costs. Most of our raw materials are acquired only, when orders are received, at the prices incorporated in our costings for agreed selling prices.

Operational Risk

Operational risk is the potential loss caused by a breakdown in internal process, deficiencies in people and management, or operational failure arising from external events. The operational risk management process is to mitigate unexpected losses and manage expected loss.

RISK MANAGEMENT POLICIES & PROCESSES

The Group is presently operating in a single principal business location at Jinjiang City of Fujian Province, where almost all of the Group's assets are located. While the Group is growing organically, its operational processes are constantly reviewed through ISO audits and internal audit exercises so as to ensure proper internal controls are in place and business is operated efficiently. The Group also develops its people constantly to ensure that the right people are in place for the operation.

One of our key strategies is to develop new products continuously to meeting the ever-changing market demands. China Taisan emphasises and invests adequately in its product R&D. We have tie up with Wuhan Textile University recently to co-develop new products as a move to strengthen our product development capabilities. The Group targets to launch at least 3 to 5 new products each year as one of the key drivers for our growth and competitiveness.

Product Risk

Our Group's success is dependent on the acceptability of its products by its customers. The management is of the view that apparel products are part of the necessity for living and commonly demanded products regardless of the economic conditions. China Taisan sells more than 20 types of broadly-categorised performance fabrics, branded under "Lianjie" (连捷) and is not reliant on the sale of any particular type of performance fabrics.

RISK MANAGEMENT POLICIES & PROCESSES

Investment Risk

The Group grows its businesses through organic growth of its existing activities, development of new products and capabilities and through potential acquisitions of operating business entities. Investment activities are evaluated through performing due diligence exercise and are supported by external professional advices. All business proposals are reviewed by the Company's Board of Directors and its senior management before obtaining final Board approval.

Foreign Exchange Risk

The foreign exchange risk of the Group arises from the Company's transactions and the translation of cash deposits denominated in currencies other than Chinese Renminbi. The currencies giving rise to this risk are primarily Singapore dollars, U.S. dollars and New Taiwan dollars.

The Group does not have any formal hedging policy against foreign exchange fluctuations. However, it continuously monitors the exchange rates of major currencies and enters into currency hedging contracts with banks from time to time whenever the management detects any movements in the respective exchange rates which may impact the Group's profitability.

The Group's exposure to foreign exchange risk is minimal as the cash and bank balances kept in foreign currencies accounts are insignificant as at 31 December 2014. These cash and bank balances are converted to the respective presentation currencies of the Group's companies on a need-to basis only.

RISK MANAGEMENT POLICIES & PROCESSES

Credit Risk

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the Group as and when they fall due.

Credit risk is managed through the application of credit approvals, setting credit limits, background search and monitoring procedures. Cash terms and advance payments are required for customers with lower credit standing. For customers exceeding their credit terms, we would meet these customers to resolve the payment. In deciding whether an extension in credit terms would be granted, the management takes into consideration of factors such as long-term relationships, payment history, creditworthiness and financial position of the customers. As we practice strict credit control policies, the Group does not expect to incur material credit losses on its receivables or other financial instrument, if any.

Interest Rate Risk

The Group aims to manage the extent to which the Group's results could be affected by the movement in interest rate.

As at 31 December 2014, the Group's cash and cash equivalents stood at RMB25.9 million. The Group's cash balances are placed with reputable banks and financial institutions. Additional financing, required, can be obtained through banking facilities and finance lease arrangements. The Group's policy is to obtain the most favourable interest rates available without increasing its foreign currency exposure.

Liquidity Risk

The Group manages its liquidity of funds available in order to meet the contractual and financial obligations as and when they fall due.

The Group monitors its net operating cash flow and maintains a level of cash and cash equivalents deemed adequate by management for working capital purposes so as to mitigate the effect of fluctuations in cash flows. The Group has minimal liquidity risk as it maintains adequate working capital to meet its obligations as and when they fall due.

Derivative Financial Instrument Risk

The Group does not hold or issue derivative financial instruments for trading purposes.

CORPORATE GOVERNANCE

The Board of Directors and management of China Taisan Technology Group Holdings Limited (the “**Company**”) are committed to maintaining a high standard of corporate governance by complying with the principles and guidelines of the new Code of Corporate Governance 2012 (the “**Code**”) issued by the Corporate Governance Committee. Good corporate governance is an integral element of a sound corporation as it promotes corporate transparency and protects and enhances shareholders’ interest. This statement outlines the main corporate governance practices and processes that were in place since the financial year beginning on 1 January 2014.

(A) BOARD MATTERS

Board’s Conduct of its Affairs

Principle 1: Every company should be headed by an effective Board to lead and control the company. The Board is collectively responsible for the success of the company. The Board works with management to achieve this and the management remains accountable to the Board.

For FY2014, the Board of Directors (the “**Board**”) comprises two executive directors, a non-executive director, and two independent directors, all having the right core competencies and diversity of experience which enable them to effectively contribute to the Company.

The Board’s primary role is to provide entrepreneurial leadership, set strategic aims and ensure that the necessary financial and human resources are in place for the Group to meet its objectives, to conduct periodic reviews of the Group’s internal controls, financial performance, compliance practices and resource allocation as well as to protect and enhance long-term shareholder value.

Key matters which the Board oversees include:

- (i) approving board policies, strategies and long-term objectives of the Group;
- (ii) ensuring management performance is regularly monitored;
- (iii) overseeing the processes for evaluating the adequacy of internal controls, risk management, financial reporting and compliance (please refer to Principle 11 on risk management and internal controls);
- (iv) reviewing and approving annual financial budgets, material acquisitions of assets, major funding proposals, investment and divestment proposals; and
- (v) assuming responsibility for corporate governance (all directors are obliged to act in good faith and consider the interest of the Company at all times);
- (vi) identifying the key stakeholder groups of the Group and recognizing that their perceptions affect the Company’s recognition;
- (vii) setting the Company’s values and standards (including ethical standards) and ensuring that obligations to shareholders and other stakeholders are understood and met; and
- (viii) considering sustainability issues.

CORPORATE GOVERNANCE

To fulfill its role, the Board is responsible for the overall corporate governance of the Group including establishing a framework of prudent and effective controls which enables risks to be identified, assessed and managed, safeguarding shareholders' interests and the Group's assets, setting its strategic direction, establishing goals for management and monitoring the achievement of these goals.

Board Processes

To assist in the execution of its responsibilities, the Board has established a number of Board Committees including a Nominating Committee, a Remuneration Committee and an Audit Committee. The effectiveness of each committee is also constantly monitored. The Board has also established a framework for the management of the Group including a system of internal control.

The Board currently holds at least four scheduled meetings each year. In addition, it holds additional meetings at such other times as may be necessary to address any specific significant matters that may arise.

The agenda for meetings is prepared in consultation with the Chief Executive Officer ("CEO"). Standing items include the management report, financial reports, strategic matters, governance, business risk issues and compliance. Executives are regularly invited to attend Board meetings to provide updates on operational matters.

Board and Board Committee Meetings

From 1 January 2014 to the date of this report, the Board held five meetings and the attendance of each Director at every Board and Board Committee meeting is as follows:

Name	Board		Audit Committee		Nominating Committee		Remuneration Committee	
	No. of meetings held	No. of meetings attended	No. of meetings held	No. of meetings attended	No. of meetings held	No. of meetings attended	No. of meetings held	No. of meetings attended

Mr Tsang Siu For Thomas (Lead Independent Director)	5	5	6	6	2	2	2	2
Mr Ngan See Juan (Independent Director)	5	5	6	6	2	2	2	2

* Attendance by invitation.

CORPORATE GOVERNANCE

Matters Requiring Board Approval

The Board's approval is required for matters such as corporate restructuring, mergers and acquisitions, major investments, material acquisitions and disposals of assets, major corporate policies on key areas of operations, the release of the Group's quarterly and annual results, interested person transactions of a material nature, and declaration of interim dividends and proposal of final dividends. All other matters are delegated to committees whose actions are reported to and monitored by the Board.

Training of Directors

Directors receive appropriate induction training and coaching to develop individual skills as required. The Directors are also provided with updates on the relevant new laws, regulations and changing commercial risks in the Group's operating environment through regular presentations and meetings; and they also have the opportunity to visit the Group's operational facilities and meet with management to gain a better understanding of business operations.

The Company does not have a formal training program for new directors. However, to assist the Board in discharging its duties, a newly appointed director will be briefed on the business operations and regulatory issues relating to the Group. Directors are also informed of regulatory changes affecting the Group. The company secretary conducts briefings and presentations to update the Board. In this regard, the most recent briefing being conducted at the Board meeting of the Company held on 30 March 2015 in relation to SGX's Minimum Trading Price requirement. In addition, the Board encourages its members to participate in seminars and receive training to improve themselves in the discharge of their duties as directors and the company secretary assists the Board to search for new training courses and notifies the directors of the same.

Board Composition and Guidance

Principle 2: There should be a strong and independent element on the Board, which is able to exercise objective judgment on corporate affairs independently, in particular, from management and 10% shareholders. No individual or small group of individuals should be allowed to dominate the Board's decision making.

For FY2014, the Board comprises five directors of which two are independent directors. The independent directors are Mr Tsang Siu For Thomas and Mr Ngan See Juan. The criterion of independence is based on the definition given in the Code. The Board considers an "independent" director as one who has no relationship with the Company, its related companies, its 10% shareholders or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the director's independent judgment of the conduct of the Group's affairs. As at the date of this Annual Report, there are no independent directors of the Company who sit on the board of the Company's subsidiary.

The composition of the Board is determined in accordance with the following principles:

- The Board should comprise a sufficient number of directors to fulfill its responsibilities and who as a group provide core competencies such as accounting or finance, business or management experience, industry knowledge, strategic planning experience and customer-based experience or knowledge.
- There should be a strong and independent element on the Board, with at least one-third of the Board made up of independent directors.

CORPORATE GOVERNANCE

- At least half of the Board should be comprised of independent directors where:
 - (i) the chairman of the Board (“**Chairman**”) and the CEO (or equivalent) is the same person;
 - (ii) the Chairman and the CEO are immediate family members;
 - (iii) the Chairman is part of the management team; or
 - (iv) the Chairman is not an independent director.
- The Board should have enough directors to serve on various committees of the Board without over-burdening the directors or making it difficult for them to fully discharge their responsibilities.

As the Chairman is a non-executive director, the Board is of the view that two out of five deemed to be independent will be sufficient to exercise independent judgment on corporate affairs and provide management with a diverse and objective perspective on issues. Furthermore, the Board will be able to interact and work with the management team through a robust exchange of ideas and views to help shaping the Company’s strategic direction.

The composition of the Board is reviewed on an annual basis by a Nominating Committee to ensure that the Board has the appropriate mix of expertise and experience, and collectively possess the necessary core competencies for effective functioning and informed decision-making. When a vacancy arises under any circumstance, or where it is considered that the Board would benefit from the services of a new director with particular skills, the Committee, in consultation with the Board, determines the selection criteria and selects candidates with the appropriate expertise and experience for the position.

The Board examines its size and considers that the current Board size and number of Board Committees are appropriate for effective decision-making, taking into account and scope and nature of the operations of the Group and skills and experiences of the directors.

The role of the non-executive and independent directors is particularly important in reviewing and monitoring the performance of executive management in meeting the Group’s agreed goals and objectives and ensuring that the strategies proposed by the executive management are fully discussed and rigorously examined taking into account the long-term interests, not only of the shareholders, but also of employees, customers, suppliers and the many communities in which the Group conducts business. The Board considers its non-executive and independent directors to be of sufficient calibre and number and their views to be of sufficient weight that no individual or small group can dominate the Board’s decision-making processes. The non-executive and independent directors have no financial or contractual interests in the Group other than by way of their fees and shareholdings as set out in the Report of the Directors.

The Board is of the view that its current composition of five directors is appropriate taking into account the scope and nature of the operations of the Company and of the Group.

CORPORATE GOVERNANCE

Chairman and Chief Executive Officer (“CEO”)

Principle 3: There should be a clear division of responsibilities between the leadership of the Board and the executives responsible for managing the company’s business. No one individual should represent a considerable concentration of power.

Mr Choi Cheung Kong, who is the Non-executive Chairman and Mr Lin Wen Chang, the CEO of the Company, are not related to each other. Mr Lin is responsible for the day-to-day management of the affairs of the Company and the Group. He leads in business development and expansion of the Group and ensures that the Board is kept updated and informed of the Group’s business.

The Chairman’s responsibilities include:

- leading the Board to ensure its effectiveness on all aspects of its role;
- setting the agenda and ensuring that adequate time is available for discussion of all agenda items, in particular strategic issues;
- promoting a culture of openness and debate at the Board;
- ensuring that the Directors receive complete, adequate and timely information;
- ensuring effective communication with shareholders;
- encouraging constructive relations within the Board and between the Board and Management;
- facilitating the effective contribution of non-executive Directors in particular; and
- promoting high standards of corporate governance.

Board Membership

Principle 4: There should be a formal and transparent process for the appointment and re-appointment of directors to the Board.

The Nominating Committee (“NC”) as at the date of this Annual Report comprises non-executive directors Mr Choi Cheung Kong as the chairman and Mr Ngan See Juan and Mr Tsang Siu For Thomas as members, the majority of whom are independent.

The Board has approved the written terms of reference of the NC. The NC performs the following functions:

- (a) reviewing of Board succession plans for directors, in particular for the Chairman and the CEO;
- (b) developing a process for evaluation of the performance of the Board, its committees and directors;
- (c) reviewing training programs for the Board;

CORPORATE GOVERNANCE

- (d) making recommendations to the Board on the appointment of new executive and non-executive directors, including making recommendations on the composition of the Board generally and the balance between executive and non-executive Directors appointed to the Board;
- (e) regularly reviewing the Board structure, size and composition and make recommendations to the Board with regards to any adjustments that are deemed necessary;
- (f) determining the process for search, nomination, selection and appointment of new board members and be responsible for assessing nominees or candidates for appointment or election to the Board, determining whether or not such nominee has the requisite qualifications and whether or not he/she is independent;
- (g) determining, on an annual basis, if a Director is independent. If the NC determines that a Director, who has one or more of the relationships mentioned under the Code is in fact independent, the Company should disclose in full, the nature of the Director's relationship and bear responsibility for explaining why he should be considered independent. The NC may at its discretion determine a Director as non-independent even if he has no business or, other relationships with the Company, its related companies or its officers;
- (h) making recommendations to the Board for the continuation (or not) in services of any Director who has reached the age of seventy (70) years, where appropriate;
- (i) recommending Directors who are retiring by rotation to be put forward for re-election;
- (j) deciding whether or not a Director is able to and has been adequately carrying out his/her duties as a Director of the Company, particularly when he/she has multiple board representations (the NC shall, *inter alia*, recommend to the Board internal guidelines to address the competing time commitments faced by directors who serve on multiple boards); and
- (k) assessing the effectiveness of the Board as a whole and assessing the effective contribution and commitment of each individual Director to the effectiveness of the Board. The results of the performance evaluation will be reviewed by the Chairman and the assessment shall be disclosed annually.

The directors submit themselves for re-nomination and re-election at regular intervals of at least once every three years. The Company's Articles and Association provides that one third of the Board, or the number nearest to one third is to retire by rotation at every Annual General Meeting ("**AGM**"). In addition, the Company's Articles of Association also provides that newly appointed directors are required to submit themselves for re-nomination and re-election at the next AGM of the Company.

CORPORATE GOVERNANCE

Note:

⁽¹⁾ In accordance with the Company's Articles of Association, our Chief Executive Officer, Mr Lin Wen Chang, is not subject to retirement by rotation while he is the managing director of the Company and continues to hold that position, and he shall not be taken into account in determining the rotation of retirement of directors.

The current board members generally have not more than 2 directorships in other listed companies, which means they have sufficient energy and time to focus on the management of the Company. The Company will set limits on its directors' directorships if the directors subsequently have more directorships.

According to the Company's Articles of Associates, Mr Choi Cheung Kong and Mr Ngan See Juan shall retire and will each submit themselves for re-election at the Company's forthcoming AGM. The NC had recommended to the Board that the retiring Directors be nominated for re-election at the forthcoming AGM.

Other key information on the individual directors of the Company is set out in pages 10 to 11 of this Annual Report. Their shareholdings in the Company are also disclosed in the Report of the Directors. None of the directors hold shares in the subsidiary of the Company.

CORPORATE GOVERNANCE

Board Performance

Principle 5: There should be a formal annual assessment of the effectiveness of the Board as a whole and its board committees and the contribution by each director to the effectiveness of the Board.

The NC has established a process for assessing the effectiveness of the Board as a whole and its committees and for assessing the contribution by Chairman and each individual director to the effectiveness of the Board. At the end of each financial year, a Board evaluation is conducted. The performance criteria for the Board evaluation includes an evaluation of the size and composition of the Board, the Board's access to information, accountability, Board processes, Board performance in relation to discharging its principal responsibilities.

The Board and the NC have endeavoured to ensure that directors appointed to the Board possess the experience, knowledge and skills critical to the Group's business, so as to enable the Board to make sound and well-considered decisions.

Access to Information

Directors receive a regular supply of information from management about the Group so that they are equipped to play as full a part as possible in Board meetings. Detailed Board papers are prepared for each meeting of the Board. The Board papers include sufficient information from management on financial, business and corporate issues to enable the directors to be properly briefed on issues to be considered at Board meetings. Information provided includes background or explanatory information relating to matters to be brought before the Board, copies of disclosure documents, budgets, forecasts and internal financial statements.

All directors have unrestricted access to the Company's records and information and receive detailed financial and operational reports from senior management during the year to enable them to carry out their duties. Directors also liaise with senior management as required, and may consult with other employees and seek additional information on request.

All directors have separate and independent access to the company secretary. The company secretary administers, attends and prepares minutes of all Board meetings, and assists the Chairman in ensuring that Board procedures are followed and reviewed so that the Board functions effectively, and the Company's memorandum and articles and relevant rules and regulations, including requirements of the Companies Act and the Singapore Exchange Securities Trading Limited (SGX-ST), are complied with.

The Company does not have a formal training program for new directors. However, to assist the Board in discharging its duties, a newly appointed director will be briefed on the business operations and regulatory issues relating to the Group. Directors are also informed of regulatory changes affecting the Group. In addition, the Board encourages its members to participate in seminars and receive training to improve themselves in the discharge of their duties as directors. The company secretary also assist the Board to search for training courses and notifies directors of the courses when necessary and provide updates on any regulatory changes affecting the Group. The external auditors also briefed the AC members on development of accounting standards during AC meeting. Should directors, whether as a group or individually, need independent professional advice in the furtherance of their duties the cost of such professional advice will be borne by the Company.

CORPORATE GOVERNANCE

(B) REMUNERATION MATTERS

Procedures for Developing Remuneration Policies

Principle 7: There should be a formal and transparent procedure for developing policy on executive remuneration and for fixing the remuneration packages of individual directors. No director should be involved in deciding his own remuneration.

The Remuneration Committee ("RC") as at the date of this Annual Report comprises of non-executive directors Mr Ngan See Juan as the Chairman of the Remuneration Committee and Mr Tsang Siu For Thomas and Mr Choi Cheung Kong as members, the majority of whom, including the chairman, are independent.

The Board has approved the written terms of reference of the RC. The RC performs the following functions:

- (a) reviewing and recommending to the Board, a framework of remuneration and to determine the specific remuneration packages and terms of employment for:
 - each Director;
 - the CEO (or executive of equivalent rank), if the CEO is not a Director;
 - senior management of the Group; and
 - employees related to directors or substantial shareholders of the Group.
- (b) convening RC meetings as the RC deems appropriate. The RC should meet at least once a year and meetings should be organized such that attendance is maximised. A meeting may be called, at any other time, by the Chairman or any member of the RC. Director or Management may be invited to the meetings.
- (c) the Secretary of the RC shall be the Company Secretary for the time being or, such other person as may be nominated by the RC.
- (d) the Secretary shall attend all meetings and minute the proceedings thereof.
- (e) minutes of all meetings shall be confirmed by the Chairman of the meeting and circulated to all members of the RC.
- (f) if the Chairman of the RC so decides, the minutes shall be circulated to other members of the Board. Any Director may, provided there is no conflict of interest and with approval by the Chairman, obtain copies of the minutes of RC meetings.
- (g) the notice of each meeting of the RC, confirming the venue, date and time and enclosing an agenda of items to be discussed, shall other than under exceptional circumstances, be forwarded to each member of the RC at least three (3) working days prior to the date of the meeting.
- (h) recommending to the Board, the Share Option Schemes or any other performance bonus schemes which may be set up from time to time and to do all acts necessary in connection therewith.

CORPORATE GOVERNANCE

- (i) carrying out its duties in the manner that it deems expedient, subject always to any regulations or restrictions that may be imposed upon the RC by the Board of Directors from time to time.
- (j) as part of its review, the RC shall ensure that:
 - i. all aspects of remuneration including directors' fees, salaries, allowances, bonuses, options and benefits-in-kind should be covered;
 - ii. the remuneration packages should be comparable within the industry and comparable companies and shall include a performance-related element; and
 - iii. the remuneration package of employees related to directors or controlling shareholders of the Group are in line with the Group's staff remuneration guidelines and commensurate with their respective job scopes and levels of responsibility.

The members of the RC do not participate in any decision concerning their own remuneration.

Level and Mix of Remuneration

Principle 8: The level and structure of remuneration should be aligned with the long-term interest and risk policies of the company, and should be appropriate to attract, retain and motivate (a) the directors to provide good stewardship of the company, and (b) key management personnel to successfully manage the company. However, companies should avoid paying more for this purpose.

The Group's remuneration policy is to provide compensation packages appropriate to attract, retain and motivate the Directors and key personnel required to run the Group successfully.

The remuneration of the Chief Executive Officer Lin Wen Chang, is based on the service agreement entered into between Mr Lin Wen Chang and the Company on 1 January 2008. The service agreement is renewable on the same terms for a period of 3 years, and the latest renewal was from 1 January 2014 and renewable thereafter.

In determining the remuneration of the non-executive Directors, the RC ensures that the level of remuneration is appropriate to the level of contribution, taking into account factors such as effort and time spent and responsibilities of the non-executive Directors.

The RC ensures that non-executive Directors are not over-compensated to the extent that their independence may be compromised. The Board will, if necessary, consult experts on the remuneration of non-executive Directors. The Board will recommend the remuneration of the non-executive Directors for approval at the AGM.

CORPORATE GOVERNANCE

Disclosure on Remuneration

Principle 9: Each company should provide clear disclosure of its remuneration policy, level and mix of remuneration, and the procedure for setting remuneration, in the company's annual report. It should provide disclosure in relation to its remuneration policies to enable investors to understand the link between remuneration paid to directors and key management personnel, and performance.

Details of remuneration paid to the Directors and top 4 key management personnel are set out below:

⁽²⁾ The Director's fee payable to Mr Ngan See Juan for FY2014 will be S\$40,000,00.

The Company does not have any employees who are immediate family members of a Director or the CEO, whose remuneration exceeded S\$150,000 during the financial year ended 31 December 2014.

The Company does not have any employee share schemes.

The breakdown and actual remuneration of the top executives and the Directors of the Group is not disclosed in the Annual Report due to the confidentiality and to avoid of poaching of the Company's staff.

The Company is not disclosing the remuneration of the Directors and the top executives of the Group in bands of S\$50,000 instead of to the nearest thousand as it wishes to keep it confidential for commercial reasons and to avoid poaching of the Company's Directors and top executives.

CORPORATE GOVERNANCE

(C) ACCOUNTABILITY AND AUDIT

Accountability

Principle 10: The Board should present a balanced and understandable assessment of the company's performance, position and prospects.

Our Company announces its financial results on a quarterly basis and other information via SGXNET in accordance with the requirement of SGX-ST. The Company aims to provide the shareholders with a detailed analysis, explanation and assessment of the Group's financial position and prospects.

Risk Management and Internal Controls

Principle 11: The Board is responsible for the governance of risk. The Board should ensure that Management is responsible for the governance of risk. The Board should ensure that Management maintains a sound system of risk management and internal controls to safeguard the shareholders' interests and the company's assets, and should determine the nature and extent of the significant risks which the Board is willing to take in achieving its strategic objectives.

The Board acknowledges that it is responsible for the overall internal control framework, but recognises that no cost effective internal control system will preclude all errors and irregularities, as a system is designed to manage rather than eliminate the risk of failure to achieve business objectives, and can provide only reasonable and not absolute assurance against material misstatement or loss.

The Board reviews regularly the adequacy and effectiveness of the Company's risk management and internal control systems, including financial, operational, compliance and information technology controls. The Board is of the opinion that the internal controls, including financial, operational, compliance and information technology controls and risk management systems are adequate and effective.

Mr Liu Yi, as the Financial Controller of the Group, is responsible for the accounting and financial function as well as the financial reporting of the Group.

The Board has also received assurance from the CEO and the Finance Controller:

- (a) that the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances; and
- (b) regarding the effectiveness of the Company's risk management and internal controls system.

The AC reviews the Group's system of internal controls, including financial, operational and compliance controls, and risk management policies and systems established by management. This ensures that such system is sound and adequate to provide reasonable assurance of the adequacy and effectiveness of the internal controls, addressing financial, operational and compliance risks. The Audit Committee has commissioned an internal audit department, led by Mr Stanley Lee, to review the Company and its subsidiary's internal controls function for its assurance and receive periodic internal audit reports on the same.

CORPORATE GOVERNANCE

As required by the relevant laws applicable to the Company and/or any of its principal subsidiaries, the following legal representatives have been appointed with sole powers to represent, exercise rights on behalf of, and enter into binding obligations on behalf of the Company or the relevant subsidiary.

Name of subsidiary of the Company

Name of legal representative

Jinjiang Lianjie Textile & Printing Dyeing Industrial Co. Ltd
("Jinjiang Lianjie")

Lin Wen Chang

Generally, the powers and responsibilities of Mr Lin Wen Chang includes, *inter alia*, the authority to enter into contracts and/or agreements in the ordinary course of business on behalf of Jinjiang Lianjie and the general power to bind Jinjiang Lianjie to business transactions which he enters into on behalf of Jinjiang Lianjie.

In the opinion of the Board, the Audit Committee and Group's management, the possible risks in relation to the abovementioned appointment of Jinjiang Lianjie's legal representative includes, *inter alia*, the concentration of authority in the hands of Mr Lin and impediments to his removal.

The following are the processes and procedures put in place to mitigate the risks in relation to the appointment of the abovementioned legal representative:

- (a) Mr Lin is required to provide periodic updates on the Group's business plan and inform the Board of any impending large capital outlay by Jinjiang Lianjie and he is required to obtain the Board's prior approval before he can enter into any transaction amounting to more than RMB 30 million on Jinjiang Lianjie's behalf;
- (b) the Group's internal audit department, led by Mr Stanley Lee, conducts ongoing review of Jinjiang Lianjie's internal controls function and presents its findings to the Audit Committee on a regular basis; and
- (c) the Company will have the power to unilaterally change the legal representative of Jinjiang Lianjie at any point of time.

In the opinion of the Board, processes and procedures put in place to mitigate the risks in relation to the appointment of the legal representative are reasonably adequate.

The Board and management recognise the need for a robust and effective system of internal controls, addressing financial, operational and compliance risks in relation to the Company and the Group. The Audit Committee may commission an independent audit on internal controls for its assurance, or where it is not satisfied with the systems of internal control.

Based on the internal controls established and maintained by the Group, work performed by the internal and external auditors and reviews performed by management, Audit Committee and the Board, the Board with the concurrence of the Audit Committee, is of the opinion that the Group's internal controls, addressing financial, operational and compliance risks, were adequate as at 31 December 2014.

CORPORATE GOVERNANCE

Audit Committee

Principle 12: The Board should establish an Audit Committee with written terms of reference which clearly set out its authority and duties.

The Audit Committee (“AC”) as at the date of this Annual Report comprises of non-executive directors, Mr Tsang Siu For Thomas as the chairman, and Mr Ngan See Juan and Mr Choi Cheung Kong as members, the majority of whom, including the chairman, are independent. The AC will assist the Board of Directors in discharging their responsibility to safeguard the assets, maintain adequate accounting records, and develop and maintain effective systems of internal control, with the overall objective of ensuring that management creates and maintains an effective control environment in the Company. The AC will provide a channel of communication between the Board of Directors, the management, the internal and external auditors of the Company on matters relating to audit.

The Board has approved the written terms of reference of the AC. The AC’s duties include, *inter alia*, the following:

- (a) reviewing the audit plans of the external auditors and our internal auditors, including the results of external and our internal auditors’ review;
- (b) reviewing the annual consolidated financial statements and the external auditors’ report on those financial statements, and discuss any significant adjustments, major risk areas, changes in accounting policies, compliance with Singapore Financial Reporting Standards, concerns and issues arising from their audits including any matters which the auditors may wish to discuss in the absence of management, where necessary, before submission to our Board of Directors for approval;
- (c) reviewing the periodic consolidated financial information comprising the income statement and the balance sheets and such other information required by the Listing Manual, before submission to our Board of Directors for approval;
- (d) reviewing and discussing with external and internal auditors (if any), any suspected fraud, irregularity or infringement of any relevant laws, rules or regulations, which has or is likely to have a material impact on our Group’s operating results or financial position and our management’s response;
- (e) reviewing the co-operation given by our Company’s management and officers to the external auditors;
- (f) undertaking such other reviews and projects as may be requested by our Board of Directors, and reporting to our Board its findings from time to time on matters arising and requiring the attention of our AC;
- (g) reviewing and evaluating our administrative, operating and internal accounting controls and procedures;
- (h) reviewing the procedures by which employees of our Group may, in confidence, report to the Chairman of the AC, possible improprieties in matters of financial reporting or other matters and ensure that there are arrangements in place for independent investigation and follow-up actions in relation thereto;
- (i) reviewing and establishing procedures for receipt, retention and treatment of complaints received by our Group regarding *inter alia*, criminal offences involving our Group or our employees, questionable accounting, auditing, business, safety or other matters that may impact negatively on our Group;
- (j) reviewing and ratifying any interested person transactions falling within the scope of Chapter 9 of the Listing Manual;

CORPORATE GOVERNANCE

- (k) reviewing any potential conflicts of interests;
- (l) considering and recommending the appointment and re-appointment of the external auditors and matters relating to the resignation or dismissal of auditors;
- (m) (On an annual basis) reviewing the terms of the consultancy agreement between Mr Cai Chang Jing and our Group;
- (n) reviewing the appointments of and (on an annual basis) review the remuneration of persons occupying managerial positions who are related to a director, CEO or a substantial shareholder of our Company;
- (o) generally undertaking such other functions and duties which may be required by statute or the rules of the SGX-ST Listing Manual, and by such amendments made thereto from time to time;
- (p) reviewing all transactions (if any) between our Group and Mr Cai Chang Jing and/or his associate;
- (q) (On a regular basis) reviewing the adequacy and quality of the Company's financial reporting function, internal controls and processes; the aforesaid review shall cover, *inter alia*, the adequacy of the Company's accounts and financial reporting resources and the performance of the Financial Controller and other senior management in the Finance Department and the results of such review shall be disclosed in the Company's annual report;
- (r) ensuring that all material internal control weaknesses are satisfactorily and properly rectified;
- (s) evaluating the independence of the external auditors; and
- (t) reviewing the adequacy of the internal audit function and ensuring that a clear reporting structure is in place between the AC and the internal auditors.

The AC is authorised to investigate any matter within its terms of reference, and has full access to the management and resources which are necessary to enable it to discharge its functions properly. It also has full discretion to invite any executive director or executive management to attend its meetings.

The AC has reviewed the Company's financial reporting function, internal controls and processes and is satisfied with the adequacy and quality of the same. The AC is satisfied with the adequacy of the Company's accounts and financial reporting resources and the performance of the Financial Controller and other senior management in the Finance Department.

The AC has also reviewed the arrangements by which the employees of the Company may, in confidence, raise concerns about the possible improprieties in matters of financial reporting or other matters within the Group, with the objectives of ensuring that arrangements are put in place for independent investigation of such matters and for appropriate follow-up action as and when the need arise. The Group has put in place the Whistle-blowing Policy for this purpose.

The Group's existing auditors, Mazars LLP, have been the auditors of the Group since 17 December 2007 and Mr Dominique Tan is the current audit partner in charge since his appointment on 31 December 2013. During FY2014, non-audit related work was carried out by the external auditors amounted to a fees of S\$2,140 (inclusive of GST) and the AC is satisfied that their independence has not been impaired. The audit fees paid to the external auditors amounted to S\$90,000 for FY2014.

CORPORATE GOVERNANCE

Having regard to the adequacy of the resources and experience of the auditing firm and the audit engagement partner assigned to the audit, the firm's other audit engagements, the size and complexity of the Group being audited, and the number and experience of supervisory and professional staff assigned to the particular audit, the Board and the AC are of the opinion that a suitable auditing firm has been appointed to meet the Company's auditing obligations. Rules 712 and 715 of the Listing Manual of the SGX-ST have been complied with.

The AC recommends to the Board the nomination of Mazars LLP as external auditors at the forthcoming AGM of the Company.

Internal Audit

Principle 13: The company should establish an effective internal audit function that is adequately resourced and independent of the activities it audits.

On 1 March 2011, the Company set up its own internal audit department, which would report directly to AC and provide reports to AC on a timely basis. The internal audit department has unfettered access to all the Company's documents, records, properties and personal. The AC is of the view that the Company has an adequate internal audit function.

The AC approves the appointment, removal, evaluation and compensation of the internal auditor. The internal auditor carries out its function according to the standards set by nationally or internationally recognized professional bodies.

(D) COMMUNICATION WITH SHAREHOLDERS

Shareholder Rights

Principle 14: Companies should treat all shareholders fairly and equitably, and should recognise, protect and facilitate the exercise of shareholders' rights, and continually review and update such government arrangements.

The Company facilitates the exercise of ownership rights by all shareholders. Shareholders are sufficiently informed of changes in the Company or the Company's business which may materially affect the value of the Company's shares.

The Company ensures that shareholders have the opportunity to participate effectively in and vote at general meetings of shareholders. Shareholders are informed of the rules, including voting procedures that govern general meetings of shareholders.

CORPORATE GOVERNANCE

Communication with Shareholders

Principle 15: Companies should actively engage their shareholders and put in place an investor relations policy to promote regular, effective and fair communication with shareholders.

In line with continuous disclosure obligations of the Company, pursuant to the SGX-ST's Listing Rules and the Singapore Companies Act, the Board has devised an effective investor relations policy to regularly convey pertinent information to shareholders in a timely manner, of material events and all major developments that impact the Group.

Where there is inadvertent disclosure made to a selected group, the Company will make the same disclosure publicly as soon as practicable. Communication is made through:

- annual reports that are prepared and issued to all shareholders. The Board makes every effort to ensure that the annual report includes all relevant information about the Group, including future developments and other disclosures required by the Companies Act and the relevant accounting standards;
- quarterly financial statements containing a summary of the financial information and affairs of the Group for the period;
- notices of and explanatory memoranda for annual general meetings and extraordinary general meetings;
- analyst briefings for the Group's quarterly and annual results as well as other briefings, as appropriate;
- press releases on major developments of the Group;
- disclosures to the SGX-ST; and
- the Group's websites at <http://www.china-taisan.com> at which shareholders can access information on the Group. The website provides, *inter alia*, products information and profile of the Group.

The Company does not have a fixed dividend policy. The form, frequency and amount of dividends will depend on the Company's earnings, general financial condition, results of operations, capital requirements, cash flow, general business condition, development plans and other factors as the Directors may deem appropriate.

CORPORATE GOVERNANCE

Conduct of Shareholders Meeting

Principle 16: Companies should encourage greater shareholder participation at general meetings of shareholders, and allow shareholders the opportunity to communicate their views on various matters affecting the company.

Shareholders have the opportunity to participate effectively in and to vote at general meetings of shareholders. All Directors will attend general meetings of shareholders and the chairman of the Board and the respective chairman of the AC, NC and RC are required to be present and available to address shareholders' queries at these meetings.

The Company's external auditors will be present at the AGMs to assist the Directors in addressing queries by shareholders.

For greater transparency, the Company implemented poll voting in 2014. This entails shareholders being invited to vote on each resolution by poll, thereby allowing all shareholders present or represented at the meeting to vote on a one share, one vote basis. The voting results of all votes cast for, or against, each resolution is then announced at the meeting. The Company will continue to conduct the voting by poll at the forthcoming AGM in accordance with the recommendation made by the Code.

(D) DEALING IN SECURITIES

The Company adopts the following policies in relation to dealings in its securities:

- Officers are not to deal in its securities during the period commencing two weeks before the announcement of the Company's financial statements for each of the first three quarters of the year and one month before the announcement of the Company's financial statements for the full year, and ending on the date of the announcement of the relevant results;
- The Company's internal compliance code requires that its officers should not deal in his company's securities on short term considerations; and
- In addition, the Company reminds its officers to observe the laws on insider trading at all times, even during the window periods for them to deal in its securities.

The Company has also issued written policies and procedures regarding whistle-blowing to its Directors and employees, identifying and illustrating actions or observations which may constitute matters which should be raised, and the various avenues through which they may be raised. The Company has also set up a dedicated email address for reporting purposes to which access is restricted to the Chairman of the AC and his designate.

CORPORATE GOVERNANCE

(E) MATERIAL CONTRACTS

Save for the service agreements between the executive directors and the Company, there were no material contracts of the Company or its subsidiary involving the interest of any director or controlling shareholders subsisting at the end of the financial year ended 31 December 2014.

(F) INTERESTED PERSON TRANSACTIONS

The Company has established procedures to ensure that all transactions with interested persons are reported in a timely manner to the AC and that the transactions are carried out on normal commercial terms and will not be prejudicial to the interests of the Company and its shareholders. In order to achieve this objective, the Board and AC meets quarterly to review whether the Company or the member in the Group is entering or intended to enter into any potential interested person transactions so as to ensure the Company complies with Chapter 9 of the Singapore Exchange Listing Manual on interested person transactions.

Save as the on-going interested person transactions disclosed below, no interested person transaction was entered into during the financial year under review:

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF CHINA TAISAN TECHNOLOGY GROUP HOLDINGS LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of **CHINA TAISAN TECHNOLOGY GROUP HOLDINGS LIMITED** (the "Company") and its subsidiary (the "Group") which comprise the statements of financial position of the Group and of the Company as at 31 December 2014, and the statements of profit or loss and other comprehensive income, changes in equity and cash flows of the Group and the changes in equity of the Company for the financial year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 32 to 83.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair profit and loss accounts and balance sheets and to maintain accountability of assets.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF CHINA TAISAN TECHNOLOGY GROUP HOLDINGS LIMITED

Opinion

In our opinion, the financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 December 2014 and the results, changes in equity and cash flows of the Group and the changes in equity of the Company for the financial year ended on that date.

Emphasis of Matter

We draw attention to Note 33 to the financial statements which describe the provision of onerous sales contracts related to the outcome of the product quality issue. Our opinion is not qualified in respect of this matter.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.2 Basis of consolidation

The financial statements of the Group comprise the financial statements of the Company and its subsidiary. Subsidiary is entity (including structured entities) (i) over which the Group has power and the Group is (ii) able to use such power to (iii) affect its exposure, or rights, to variable returns from then through its involvement with it.

The Group reassesses whether it controls the subsidiary if facts and circumstance indicate that there are changes to the one or more of the three elements of control.

When the Group has less than a majority of the voting rights of an investee, it still has power over the investee when the voting rights are sufficient, after considering all relevant facts and circumstances, to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers, among others, the extent of its voting rights relative to the size and dispersion of holdings of the other vote holders, currently exercisable substantive potential voting rights held by all parties, rights arising from contractual arrangements and voting patterns at previous shareholders' meetings.

Subsidiary is consolidated from the date on which control is transferred to the Group up to the effective date on which control ceases, as appropriate.

Intra-group assets and liabilities, equity, income, expenses and cashflows relating to intragroup transactions are eliminated on consolidation.

The financial statements of the subsidiary used in the preparation of the financial statements are prepared for the same reporting date as that of the Company. Where necessary, accounting policies of subsidiary has been changed to ensure consistency with the policies adopted by the Group.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any differences between the amount by which the non-controlling interests are adjusted to reflect the changes in the relative interests in the subsidiary and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

When the Group loses control over a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to profit or loss or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of. The fair value of any investments retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under FRS 39 Financial Instruments: Recognition and Measurement or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

Investments in subsidiary is carried at cost less any impairment loss that has been recognised in profit or loss in the Company's separate statement of financial position.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.3 Business combinations

Business combinations from 1 January 2010

The acquisition of subsidiaries is accounted for using the acquisition method. The cost of the acquisition is measured at the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under FRS 103 *Business Combinations* are recognised at their fair values at the acquisition date, except for non-current assets (or disposal groups) that are classified as held-for-sale in accordance with FRS 105 *Non-Current Assets Held for Sale and Discontinued Operations*, which are recognised and measured at the lower of cost and fair value less costs to sell.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under FRS 103 *Business Combinations* are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with FRS 12 *Income Taxes* and FRS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to the replacement by the Group of an acquiree's share-based payment awards are measured in accordance with FRS 102 *Share-based Payment*; and
- assets (or disposal groups) that are classified as held for sale in accordance with FRS 105 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see below), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date, and is subject to a maximum of one year.

Goodwill arising on acquisition is recognised as an asset at the acquisition date and is initially measured at cost, being the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer previously held equity interest (if any) in the entity over net acquisition-date fair value amounts of the identifiable assets acquired and the liabilities assumed.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.3 Business combinations (Continued)

Business combinations from 1 January 2010 (Continued)

If, after reassessment, the Group's interest in the net fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Common Control Business Combination Outside the Scope of FRS 103

A business combination involving entities under common control is a business combination in which all the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. A business combination involving common control entities, is outside the scope of FRS 103. For such common control business combinations, the merger accounting principles are used to include the assets, liabilities, results, equity changes and cash flows of the combining entities in the consolidated financial statements.

In applying merger accounting, financial statement items of the combining entities or businesses for the reporting period in which the common control combination occurs, and for any comparative periods disclosed, are included in the consolidated financial statements of the combined entity as if the combination had occurred from the date when the combining entities or businesses first came under the control of the controlling party or parties.

A single uniform set of accounting policies is adopted by the combined entity. Therefore, the combined entity recognises the assets, liabilities and equity of the combining entities or businesses at the carrying amounts in the consolidated financial statements of the controlling party or parties prior to the common control combination. The carrying amounts are included as if such combined entity's accounting policies and applying those policies to all periods presented. There is no recognition of any goodwill or excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over cost at the time of the common control combination. The effects of all transactions between the combining entities or businesses, whether occurring before or after the combination, are eliminated in preparing the consolidated financial statements of the combined entity.

The consolidated financial statements were prepared based on the audited financial statements of subsidiary which were prepared in accordance with FRS for the purpose of consolidation. The PRC subsidiary maintains its accounting records and prepares the relevant statutory financial statement in accordance with the accounting standards and legislations of the PRC Generally Accepted Accounting Principle ("GAAP").

Business combinations for the acquisition of Jinjiang Lianjie Textile & Printing Dyeing Industrial Co., Ltd was accounted for using the merger accounting as described above.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.4 Revenue recognition

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is shown net of estimated customer returns, rebates and other similar allowances.

Sale of goods

Revenue from the sale of goods is recognised when the Group has transferred to the buyer the significant risks and rewards of ownership of the goods; retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold; is able to reliably measure the amount of revenue and the costs incurred or to be incurred in respect of the transaction; and assesses that it is probable for the economic benefits associated with the transaction to flow to the entity.

Rendering of services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. Revenue from provision of dyeing and post-processing treatment services is recognised when the services are rendered to customers.

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

2.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Borrowing costs on general borrowings are capitalised by applying a capitalisation rate to construction or development expenditures that are financed by general borrowings.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.6 Retirement benefit costs

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Group's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

The Group participates in the national pension schemes as defined by the laws of PRC. Subsidiaries incorporated in the PRC are required to provide staff pension benefits to their employees under existing PRC legislation. These subsidiaries are required to contribute a certain percentage of their payroll costs to the pension scheme to fund the benefits. The pension funds are managed by government agencies, which are responsible for paying pensions to the retired employees. Contributions under the pension scheme are charged to the profit or loss as they become payable in accordance with the rules of the pension scheme.

2.6 Retirement benefit costs (Continued)

Employee leave entitlements

No provision has been made for employee leave entitlements as any unconsumed annual leave will be forfeited.

2.7 Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the Company and subsidiary operate by the end of the financial year.

Deferred tax is recognised on the differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised on taxable temporary differences arising on investment in subsidiary, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the financial year and based on the tax consequence that will follow from the manner in which the Group expects, at the end of the financial year, to recover or settle the carrying amounts of its assets and liabilities. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised as an expense or income in profit or loss, except when they relate to items credited or debited directly to equity, in which case the tax is also recognised directly in equity, or where they arise from the initial accounting for a business combination. In the case of a business combination, the tax effect is taken into account in calculating goodwill or determining the excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over cost.

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.7 Income tax (Continued)

Revenue, expenses and assets are recognised net of the amount of sales tax except:

- when the sales tax that is incurred on purchases is not recoverable from the tax authorities, in which case the sales tax is recognised as part of cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables that are stated with the amount of sales tax included.

2.8 Dividends

Equity dividends are recognised when they become legally payable. Interim dividends are recorded in the financial year in which they are declared payable. Final dividends are recorded in the financial year in which dividends are approved by shareholders.

2.9 Foreign currency transactions and translation

Foreign currency transactions are translated into the individual entities' respective functional currencies at the exchange rates prevailing on the date of the transaction. At the end of each financial year, monetary items denominated in foreign currencies are retranslated at the rates prevailing as of the end of the financial year. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the year. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the year except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity. For such non-monetary items, any exchange component of that gain or loss is also recognised directly in equity.

2.10 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are shown at their costs less accumulated depreciation, and where applicable, accumulated impairment losses.

Plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. The cost of plant and equipment includes its purchase price and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Dismantlement, removal or restoration costs are included as part of the cost of plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the plant and equipment.

Subsequent expenditure relating to property, plant and equipment is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repair and maintenance expenses are recognised in profit or loss when incurred.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.10 Property, plant and equipment (Continued)

Depreciation is charged so as to write off the cost of assets, other than leasehold buildings and properties under construction, over their estimated useful lives, using the straight-line method, on the following bases:

- Leasehold buildings 20 years
- Plant and machinery 5 -10 years
- Office equipment 5 years
- Motor vehicles 10 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The estimated useful lives, residual values and depreciation methods are reviewed, and adjusted as appropriate, at the end of each financial year.

The gain or loss, being the difference between the sales proceeds and the carrying amount of the asset, arising on disposal or retirement of an item of property, plant and equipment is recognised in profit or loss. Any amount in the revaluation reserve relating to that asset is transferred to retained earnings directly.

Fully depreciated plant and equipment are retained in the financial statements until they are no longer in use.

2.11 Intangible assets

Research and development

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised, if and only if, all the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible assets; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is charged to profit or loss in the period in which it is incurred.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.11 Intangible assets (Continued)

Research and development (Continued)

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets acquired separately.

The amortisation period and amortisation method of intangible assets other than goodwill are reviewed at least at the end of each financial year. The effects of any revision are recognised in profit or loss when the changes arise.

Land use right

Land use rights are initially measured at cost. Following initial recognition, land use rights are measured at cost less accumulated amortisation and accumulated impairment losses. The land use rights are amortised over the lease term of 50 years.

2.12 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and allocating the interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or where appropriate, a shorter period, to the net carrying amount of the financial instrument. Income and expense are recognised on an effective interest basis for debt instruments other than those financial instruments at fair value through profit or loss.

Financial assets

All financial assets are recognised on a trade date - the date on which the Group commits to purchase or sell the asset. They are initially measured at fair value, plus transaction costs.

Financial assets are classified into the following specified categories: financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables and available-for-sale financial assets. The classification depends on the nature and purpose for which these financial assets were acquired and is determined at the time of initial recognition.

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.12 Financial instruments (Continued)

Financial assets (Continued)

Loans and receivables

The Group's loans and receivables comprise trade and other receivables, bank balances and fixed deposits. The Company's loans and receivables comprise trade and other receivables, amounts due from a subsidiary, bank balances and fixed deposits.

Such loans and receivables are non-derivatives with fixed or determinable payments that are not quoted in an active market. They are measured at amortised cost, using the effective interest method less impairment. Interest is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each financial year. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amounts of all financial assets are reduced by the impairment loss directly with the exception of trade receivables where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds receivables.

Financial liabilities and equity instruments

Classification as debt or equity

Financial liabilities and equity instruments issued by Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.12 Financial instruments (Continued)

Financial liabilities and equity instruments (Continued)

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

When shares recognised as equity are reacquired, the amount of consideration paid is recognised directly in equity. Reacquired shares are classified as treasury shares and presented as a deduction from total equity. No gain or loss is recognised in profit or loss on the purchase, sale issue or cancellation of treasury shares.

When treasury shares are subsequently cancelled, the cost of treasury shares are deducted against the share capital account if the shares are purchased out of capital of the Company, or against the retained earnings of the Company if the shares are purchased out of earnings of the Company.

When treasury shares are subsequently sold or reissued pursuant to the employee share option scheme, the cost of treasury shares is reversed from the treasury share account and the realised gain or loss on sale or reissue, net of any directly attributable incremental transaction costs and related income tax, is recognised in the capital reserve of the Company.

Financial liabilities

Financial liabilities are classified as either financial liabilities at fair value through profit or loss or other financial liabilities.

Financial liabilities are classified as at fair value through profit or loss if the financial liability is either held for trading or it is designated as such upon initial recognition.

Other financial liabilities

Trade and other payables

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, where applicable, using the effective interest method, with interest expense recognised on an effective yield basis.

Borrowings

Interest-bearing bank loans are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the Group accounting policy for borrowing costs (Note 2.5).

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.13 Merger reserve

In applying the pooling-of-interest method, the financial statements of the entities under common control are consolidated as if the current structure of the Group has been in existence since date of incorporation of the Company. The statement of profit or loss and other comprehensive income and statement of cash flows include the results of operations and cash flows of the entities under common control. The assets and liabilities are brought into the statements of financial position at their existing carrying amounts. Any difference between the paid-up capital of the Company and the amount of share capital acquired is adjusted against equity as a merger reserve.

2.14 Statutory reserve

The statutory reserves of the Group comprise the following:

(a) *Statutory common reserve*

In accordance with relevant PRC regulations, the subsidiary is required to transfer a portion of its net profit to the statutory common reserve until the reserve reaches 50% of its registered capital. The transfer to this reserve must be made before the payment of dividends to shareholders.

The statutory common reserve can only be used to set off against losses or to increase the capital of the subsidiary. The subsidiary may convert its statutory common reserve into share capital provided that the remaining balance of such reserve is not less than 25% of the registered capital of the subsidiary.

(b) *Statutory welfare reserve*

In accordance with relevant PRC regulations, the subsidiary is encouraged to transfer a portion of its net profit to the statutory welfare reserve.

2.15 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

2.16 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.17 Leases

Operating Leases

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

2.18 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the financial year, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows, which is discounted using a pre-tax discount rate.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Changes in the estimated timing or amount of the expenditure or discount rate are recognised in profit or loss as they arise.

2.19 Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with.

2.20 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the group of executive directors and the chief executive officer who make strategic decisions.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.21 Provision for onerous sale contracts

Onerous contract provisions are recognised for losses on contracts where the forecast costs of fulfilling the contract throughout the contract period exceed the forecast income receivable. The provision is calculated based on actual costs to fulfill the contract.

3. Critical accounting judgements and key sources of estimation uncertainty

The Group made judgements, estimates and assumptions about the carrying amounts of assets and liabilities that were not readily apparent from other sources in the application of the Group's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience and other factors that are considered to be reasonable under the circumstances. Actual results may differ from the estimates.

3.1 Critical judgements made in applying the Group's accounting policies

Determination of functional currency

The Group measures foreign currency transactions in the respective functional currencies of the Company and its subsidiary. In determining the functional currencies of the respective entities in the Group, judgement is required to determine the currency that mainly influences sales prices of goods and services and of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services. The functional currencies of the entities in the Group are determined based on the local management's assessment of the economic environment in which the entities operate and the respective entities' process of determining sales prices.

3.2 Key sources of estimation uncertainty

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Allowance for trade and other receivables

The provision policy for doubtful debts of the Group is based on the ageing analysis and management's continuous evaluation of the recoverability of the outstanding receivables. In assessing the ultimate realisation of these receivables, management considers, among other factors, the creditworthiness and the past collection history of each customer. If the financial conditions of these customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The carrying amounts of the Group's and the Company's trade and other receivables as at 31 December 2014 were RMB 731,165,000 (2013: RMB 401,542,000) and RMB 12,000 (2013: RMB 37,000) respectively (Note 16).

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

3. Critical accounting judgements and key sources of estimation uncertainty (Continued)

3.2 Key sources of estimation uncertainty (Continued)

Depreciation of property, plant and equipment

The Group depreciates the property, plant and equipment over their estimated useful lives after taking into account of their estimated residual values. The estimated useful life reflects management's estimate of the period that the Group intends to derive future economic benefits from the use of the Group's property, plant and equipment. The residual value reflects management's estimated amount that the Group would currently obtain from the disposal of the asset, after deducting the estimated costs of disposal, as if the asset were already of the age and in the condition expected at the end of its useful life. Changes in the expected level of usage and technological developments could affect the economics, useful lives and the residual values of these assets which could then consequentially impact future depreciation charges. The carrying amounts of the Group's and the Company's property, plant and equipment at 31 December 2014 were RMB 517,736,000 (2013: RMB 588,823,000) and RMB Nil (2013: Nil) respectively (Note 11).

Inventory valuation method

Inventory is valued at the lower of cost and net realisable value. Management reviews the Group's inventory level in order to identify slow-moving and obsolete merchandise and identifies items of inventory which have a market price, being the merchandise's selling price quoted from the market of similar items, that is lower than its carrying amount. Management then estimates the amount of inventory loss as an allowance on inventory. Changes in demand levels, technological developments and pricing competition could affect the salability and values of the inventory which could then consequentially impact the Group's and Company's results, cash flows and financial position. The carrying amount of the Group's inventories was approximately RMB 69,339,000 (2013: RMB 39,299,000) (Note 15).

In 2014, the impairment loss of inventories recognised in other operating expenses was approximately RMB 2,000,000 to write down the inventories to its estimated net realisable value. In 2013, the reversal of impairment loss of inventories recognised in other operating income was approximately RMB 1,346,353. The total additional costs of replacement inventories were estimated to be incurred approximately RMB 165,617,000.

Provision for income taxes

The Group has exposure to income taxes in several jurisdictions of which a portion of these taxes arose from certain transactions and computations for which ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities of expected tax issues based on their best estimates of the likely taxes due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax positions in the period in which such determination is made. The carrying amounts of the Group's and Company's current tax payable as at 31 December 2014 was RMB 2,732,000 (2013: RMB 4,523,000).

29. Segment information

The Group is essentially a single operating segment by itself under FRS 108 *Operating Segments*, and no separate segment information is presented. As there is only one single operating segment, information on the reconciliation of the reportable segment as required under FRS 108 does not apply.

The entity-wide disclosures applicable to a single operating segment are as follows:

- (i) All the revenue of the Group are from external customers who are domiciled in the PRC.
- (ii) The majority of the assets of the Group are employed in PRC.
- (iii) Segment assets employed by the Group in a country other than the PRC as at 31 December 2014 was approximately RMB 815,000 (2013: RMB 685,000). There are no non-current assets deployed outside of the PRC.
- (iv) No single external customer accounted for 10% or more of the Group's revenue for the financial years ended 31 December 2014 and 2013.

30. Financial instruments and financial risks

The Group's activities expose it to credit risks, market risks (including foreign currency risks and interest rate risks) and liquidity risks. The Group's overall risk management strategy seeks to minimise adverse effects from the volatility of financial markets on the Group's financial performance.

The Board of Directors is responsible for setting the objectives and underlying principles of financial risk management for the Group. The management then establishes the detailed policies such as authority levels, oversight responsibilities, risk identification and measurement and exposure limits, in accordance with the objectives and underlying principles approved by the Board of Directors.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

30. Financial instruments and financial risks (Continued)

There have been no changes to the Group's exposure to these financial risks or the manner in which it manages and measures the risk. Market risk exposures are measured using sensitivity analysis indicated below.

Credit risks

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in a loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group performs ongoing credit evaluation of its counterparties' financial condition and generally does not require a collateral.

The Group and Company do not have any significant credit exposure to any single counterparty or any groups of counterparties having similar characteristics.

The Group's and Company's major classes of financial assets are bank deposits and trade and other receivables.

Bank deposits are mainly deposits with banks with high credit-ratings assigned by international credit rating agencies.

Trade and other receivables that are neither past due nor impaired are substantially companies with good collection track record with the Group.

The age analysis of trade receivables is as follows:

	Group		Company	
	2014	2013	2014	2013
	RMB'000	RMB'000	RMB'000	RMB'000
Not past due	313,820	322,789	-	-

	<u>611,797</u>	<u>353,815</u>	<u>-</u>	<u>-</u>

Market risks

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

Foreign currency risks

The Group transacts business in various foreign currencies, including United States dollar and Singapore dollar, other than the respective functional currencies of the Group, and hence is exposed to foreign currency risks.

At present, the Group does not have any formal policy for hedging against exchange exposure.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

30. Financial instruments and financial risks (Continued)

Market risk (Continued)

Interest rate risks

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's interest rate risks relate to bank borrowings.

The Group's policy is to maintain an efficient and optimal interest cost structure using a combination of fixed and variable rate debts, and long and short term borrowings.

The Group's and Company's exposure to interest rate risks is set out in a table below under liquidity risks.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

30. Financial risk management objectives and policies (Continued)

Market risks (Continued)

Interest rate sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rate risks for bank borrowings with fixed rates at the end of the financial year. The sensitivity analysis assumes an instantaneous 1% change in the interest rates from the end of the financial year, with all variables held constant.

Group	Increase/(Decrease)			
	Profit/(loss) before tax		Equity

Liquidity risk

Liquidity risks refer to the risks in which the Group encounters difficulties in meeting its short-term obligations. Liquidity risks are managed by matching the payment and receipt cycle.

The following table details the Group's remaining contractual maturity for its non-derivative financial instruments. The table has been drawn up based on undiscounted cash flows of financial instruments based on the earlier of the contractual date or when the Group is expected to receive or (pay). The table includes both interest and principal cash flows.

The Group's operations are financed mainly through equity, retained earnings and bank borrowings. Adequate lines of credits are maintained to ensure the necessary liquidity is available when required.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

31. Fair value of financial assets and financial liabilities

The carrying amounts of cash and cash equivalents, trade and other current receivables and trade and other payables, approximate their respective fair values due to the relative short term maturity of these financial instruments. The fair values of other classes of financial assets and liabilities are disclosed in the respective notes to the financial statements.

Fair value hierarchy

The Group does not hold financial assets nor liabilities carried at fair value or at valuation. Accordingly, the disclosure requirements of the fair value hierarchy (Level 1, 2 and 3) under FRS 107 Financial Instruments: Disclosures does not apply.

32. Capital management policies and objectives

The Group manages its capital to ensure that the Group is able to continue as a going concern and maintains an optimal capital structure so as to maximise shareholder value.

The Group's management reviews the capital structure on an annual basis. As part of this review, management considers the cost of capital and the risks associated with each class of capital. Upon review, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt. The Group's overall strategy remains unchanged from 2013.

The capital structure of the Group consists of equity attributable to equity holders of the parent, comprising issued capital, treasury shares, merger reserve and statutory reserve as disclosed in Notes 19, 20, 21 and 22 respectively.

Management monitors capital based on debt to asset ratio. The Group subsidiary is also required by the banks to maintain a debt to asset ratio of not exceeding 55% (2013: 55%). The Group subsidiary's strategies, which are unchanged from 2013.

As disclosed in Note 22, a subsidiary of the Group is required by the Foreign Enterprise Law of the PRC to contribute to and maintain a non-distributable statutory reserve fund whose utilisation is subject to approval by the relevant PRC authorities.

The Group and the Company are in compliance with externally imposed capital requirements for the financial years ended 31 December 2013 and 2014.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2014

32. Capital management policies and objectives (Continued)

33. Provision for onerous sale contracts

During the financial year ended 31 December 2014, the Group manufactured certain batches of inventories of which most were sold and delivered to certain customers for RMB604,861,446. The inventories were later found to have quality defects and to fulfil its obligation in the respective sales contracts, the Group sought to replace the defective goods for the affected customers.

As presented in the tabular format below, the total costs of replacement inventories were estimated to aggregate RMB 522,681,000, of which RMB 165,617,000 (2013: NIL) were estimated to be additional costs to be incurred and was recorded as provision for onerous sales contracts as of 31 December 2014 (Note 23). The Group was able to reduce the additional costs that it would need to incur through the sale of the delivered defective goods for RMB 51,595,000, to some of the affected customers, which was netted off against costs of sales.

The remaining unsold defective inventories of RMB 39,309,000 were impaired to their recoverable amounts. The corresponding impairment loss of RMB 34,078,000 was recorded in other expenses (Note 7) and the Group recovered RMB 5,231,000 as sales from scrap materials (Note 5).

The Group also recognised RMB 60,873,000 of impairment loss of trade receivables from the affected customers (Note 16).

Consequently, the Group recorded an additional "total income statement" amounting to RMB 560,806,000 in the profit or loss during the financial year ended 31 December 2014.
