- *MOU covers the areas of cooperation on combining skills and expertise in REVEZ's Metaverse, AR, MR, VR Solutions and AWN's 5G Network, Edge Compute, and AIS 5G NEXTGen Platform*
- *Explore feasibility of product and services development and implementation of projects jointly*

Singapore, 30 June 2022 – [REVEZ Corporation](#) has entered a MOU with [Advanced Info Services Public Company Limited](#), a leading telecommunication provider based in Thailand, to forge a strategic collaboration in Thailand.

The MOU was entered by REVEZ Corporation's wholly owned subsidiary REVEZ Motion Pte Ltd ("RM") and AIS' subsidiary Advanced Wireless Network Co., Ltd. ("AWN").

The proposed collaboration will tap RM's expertise in its Metaverse, Augmented Reality ("AR"), Mixed Reality ("MR") and Virtual Reality ("VR") Solutions, and leverage AWN's innovative 5G network and infrastructure, infrastructure including edge compute, cloud, and AIS 5G NEXTGen Platform which aggregates 5G network, network slicing capability, edge compute, leading Cloud hyper-scalers, and application altogether in an automated fashion, to jointly cooperate on feasibility of product and services trials, research, developments and implementations of commercial projects.

AWN, the innovator of high level 5G telecommunication network in Thailand, brings comprehensive digital services to the hearts of both consumer and commercial audiences. The wide range of services includes Mobile, Fixed Broadband and Digital Services. AWN aims to expand its 5G network to cover all 77 provinces of Thailand, reaching 85% of the population.

"This strategic collaboration marks our first step of commitment to offer immersive experiences to the customers in Thailand" said Victor Neo, Group CEO of REVEZ Corporation. "With the capability of 5G, edge computing and the 5G platform offered by AIS, we could offer new edge of creative experiences beyond the current expectation."

"REVEZ Motion, a Tech Winner under the innovation challenge organised by Infocomm Media Development Authority in Singapore, has been the forefront leader in the 5G Metaverse space" said Ms. Asnee Wipatawate, Head of Enterprise Telecom Technology Product Department of AWN. "I am pleased to offer more innovative and creative solutions to our customers with this collaboration."
