Extract on the Report on the Audit of the Financial Statements

Qualified Opinion

In our opinion, except for the possible effects of the matter described in the Basis for Qualified Opinion section in our report, the consolidated financial statements of the Group and the balance sheet and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the Act) and Financial Reporting Standards in Singapore (FRSs) so as to give a true and fair view of the financial position of the Group and the Company as at 31 December 2017 and for the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and the changes in equity of the Company for the year ended on that date.

Basis for Qualified Opinion

Insufficient appropriate audit evidence for the audit of the Group's associates

As disclosed in Note 15, the Group lost joint control but maintained significant influence over Shanghai Onway Development Co Ltd, which is accounted for as an associated company as at 31 December 2017. The Group had recognised a gain of \$4,584,000 during the year arising from the dilution of interest and this was computed using the unaudited financial statements of the associated company as at 1 July 2017. The share of profits recognised for the year ended 31 December 2017 based on the unaudited financial statements of the associated company amounted to \$399,000. The carrying value of the associated company as at 31 December 2017 amounts to \$8,878,000.

We are unable to determine the appropriateness of the gain on dilution, share of profits recognised for the year and the carrying value of the associated company as at 31 December 2017 as we were unable to obtain the necessary information and explanations from the auditors of the associated company to determine the appropriateness and reliability of the financial statements used to compute the gain on dilution and the share of the results for the year. We were also unable to perform alternative procedures to obtain information and explanations we considered necessary. Consequently, we are not able to ascertain if any adjustments to the gain on dilution, share of profits recognised for the year and the carrying value of the associated company as at 31 December 2017 are necessary.
