Industry Outlook and Business Strategies

Average Selling Prices (Rp/Kg)

- We expect CPO prices to be volatile given the uncertainty of the global economy and abnormal weather's impact on market dynamics

Strategies And Future Plans

Expansion

Develop uncultivated land bank

- Land location permit obtained for 3,460 ha of land in sub-districts of Ngabang and Jelimpo, both located in Landak Regency, West Kalimantan.

Actively pursue potential acquisitions targets

- The Company has the option to acquire PT Cemar, an Indonesian-incorporated company which holds Hak Guna Usaha to approximately 6,429 ha of oil palm plantation land in the Landak Regency in West Kalimantan. The acquisition is subject to the fulfillment of conditions such as the conduct of legal and financial due diligence on PT Cemar as well as approvals required by the Indonesian authorities.

Optimisation

Co-Composting plant

- Yielding cost savings from use of organic compost fertilisers from our plantation's EFB and POME

Increase yield

- From plantation
- From mill

Continue to exercise prudence in expenditures
