These condensed interim financial statements as at and for the six months ended 30 September 2024 comprise the Company and its subsidiaries (collectively, the "**Group**").

The principal activities of the Company include investment holding and the provision of management services to its subsidiaries. The principal activities of the Company's subsidiaries are disclosed in Note 4 below.

2. Basis of preparation

The condensed interim financial statements for the six months ended 30 September 2024 have been prepared in accordance with Singapore Financial Reporting Standards (International) ("SFRS (I)") 1-34 Interim Financial Reporting issued by the Accounting Standards Council Singapore. The condensed interim financial statement does not include all the information required for a complete set of financial statements and should be read in conjunction with the Group's annual consolidated financial statements as at the end for the financial year ended 31 March 2024. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last annual financial statement for the financial year ended 31 March 2024.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed interim financial statements are presented in Singapore Dollars (S\$), which is the Company's functional currency, and all values are rounded to the nearest thousand (S\$'000), except when otherwise indicated.

Notes to the Condensed Consolidated Interim Financial Statements For the Six Months ended 30 September 2024

2.2 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that effect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements as at and for the financial year ended 31 March 2024.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future period affected.

In particular, the information about significant areas at estimation uncertainty in applying accounting policies that have most significant effect on the amount recognized in the financial statements and that have a significant risk of resulting in a material adjustment within the next financial year are as follows:

Assessment of impairment of non-financial assets

An impairment exists when the carrying value of the cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value-in-use. Where value-in-use calculations are undertaken, management will estimate the expected future cash flows from the cash-generating unit (CGU) and choose a suitable discount rate in order to calculate the present value of those cash flows.

Assessment of the allowance for inventory obsolescence or slow-moving inventories or for any shortfall in net realizable value of inventories

The Group has assessed the net realisable value of its inventories on at least a yearly basis. Inventories have been written down to net realisable value to be consistent with the view that assets should not be carried in excess of amounts expected to be realised from their sale or use. Estimates of net realisable value are based on the most reliable evidence available at the balance sheet date. These estimates take into consideration market demand, competition, selling price and cost directly relating to events occurring after the end of the financial year, to the extent that such events confirm conditions existing at the end of the financial year.

Information about the assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities are included in the following notes:

Note 13 – fair value measurement

1. Review

The condensed consolidated statement of financial position of H2G Green Limited and its subsidiaries as at 30 September 2024 and the related condensed consolidated profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six months ended 30 September 2024 and certain explanatory notes have not been audited or reviewed.

2. Review of performance of the Group Review of Condensed Interim Consolidated Statement of Profit or Loss

The Group operates in both the lifestyle ("Lifestyle Business") and the renewable and sustainable energy segments ("Energy Business").

For the six months ended 30 September 2024 ("1HFY2025"), the Group reported revenue of \$\$7.5 million, marking an increase of \$\$3.3 million, or 78.6%, compared with \$\$4.2 million for the corresponding period in 2023 ("1HFY2024"). This growth was primarily driven by higher revenue contributions from the Lifestyle Business and Energy Business, which increased by \$\$1.7 million and \$\$1.6 million, respectively.

The Lifestyle Business recorded a revenue increase of S\$1.7 million, or 54.8%, to S\$4.8 million in 1HFY2025, up from S\$3.1 million in 1HFY2024. This growth was mainly driven by gaining traction following a strategic transformation, with offerings being well received and supported by several developers and architects for integration into high-end residential development projects, which significantly contributed to the improved revenue performance. The Energy Business also experienced significant growth, with revenue increasing by S\$1.6 million, or 145.5%, to S\$2.7 million in 1HFY2025 compared with S\$1.1 million in 1HFY2024. This increase was largely attributed to higher activity in the recycling of non-metal waste and the expanded distribution of LNG.

Cost of sales increased by S\$1.1 million to S\$3.4 million in 1HFY2025, compared with S\$2.3 million in 1HFY2024. This increase was primarily due to higher revenue in both the Lifestyle and Energy businesses.

Administrative expenses rose by 26.2%, or S\$1.1 million, reaching S\$5.3 million in 1HFY2025, compared with S\$4.2 million in 1HFY2024. This increase was primarily driven by additional costs related to the expansion of the Energy Business, totaling S\$1.1 million. The key contributors included higher depreciation expenses of S\$0.1 million, sub-contract arrangement fees of S\$0.4 million, maintenance expenses of S\$0.3 million, and project innovation expenses of S\$0.3 million.

Net finance income amounted to \$\$0.09 million in 1HFY2025 as compared to a net finance loss of \$\$0.21 million in 1HFY2024. The finance income was primarily driven by an increase in net foreign exchange gains, partially offset by interest expenses.

Overall, the Group's loss for 1HFY2025 amounted to S\$2.1 million.

2. Review of performance of the Group (Continued)

Review of Condensed Interim Consolidated Statement of Financial Position

The net assets of the Group amounted to approximately S\$27.3 million as at 30 September 2024, compared with approximately S\$21.3 million as at 31 March 2024. The overall increase in net assets was mainly attributable to:

- (A) The Group's property, plant, and equipment increased by \$\$0.4 million to \$\$10.0 million as at 30 September 2024, up from \$\$9.6 million as at 31 March 2024. This increase was primarily due to the acquisition of property, plant, and equipment totalling \$\$1.3 million, partially offset by depreciation of \$\$0.6 million, and a foreign currency translation adjustment of approximately \$\$0.3 million.
- (B) The Group's right-of-use assets increased by \$\$2.6 million to \$\$8.3 million as at 30 September 2024, up from \$\$5.7 million as at 31 March 2024. This increase was primarily driven by the renewal of leased assets for the Lifestyle Business, which added \$\$2.0 million, and the entry into hire purchase agreements for the acquisition of plant and machinery for the Energy Business, adding \$\$1.5 million. This increase was partially offset by depreciation of \$\$0.9 million during the period.
- (C) Trade and other receivables of the Group increased by S\$1.6 million, or 22.5%, to S\$8.7 million as at 30 September 2024, compared with S\$7.1 million as at 31 March 2024. This increase was primarily driven by a rise in trade receivables of S\$1.4 million, advance payments to suppliers amounting to S\$0.3 million, and a GST receivable of S\$0.1 million. These increases were partially offset by a S\$0.2 million decrease due to a foreign currency translation adjustment related to deposits.
- (D) Trade and other payables of the Group decreased by \$\$0.5 million, or 18.5%, to \$\$2.2 million as at 30 September 2024, down from \$\$2.7 million as at 31 March 2024. This decrease was primarily attributed to a reduction in trade payables by \$\$0.1 million and other payables by \$\$0.2 million. Additionally, there was a reduction of approximately \$\$0.2 million in the amount due to a director.
- (E) Lease liabilities of the Group increased by S\$2.5 million, or 156.3%, reaching S\$4.1 million as at 30 September 2024, compared with S\$1.6 million as at 31 March 2024. This increase was primarily driven by the renewal of lease agreements, and additional hire purchase commitments.
- (F) Loans and borrowings of the Group decreased by \$\$0.3 million or 7.7% to \$\$3.9 million as at 30 September 2024. The decrease was due mainly to the repayment of bank loans of approximately \$\$0.3 million.
- (G) As at 30 September 2024, the Group had net current assets of S\$13.5 million and cash and equivalents of S\$10.6 million. The Group currently has sufficient cash resources and banking facilities to meet its current liabilities.

2. Review of performance of the Group (Continued)

Review of condensed interim consolidated statement of cash flows

The Group's cash and cash equivalents (excluded fixed deposits pledged) amounted to \$\$10.6 million as at 30 September 2024 due to:

- (A) The net cash outflows from operating activities totalled approximately S\$2.1 million. This included changes in trade and other receivables amounting to S\$1.5 million, changes in trade and other payables of S\$0.4 million, and net cash outflows before changes in working capital of S\$0.4 million. These cash outflows were partially offset by an decrease in inventory of S\$0.2 million.
- (B) The net cash used in investing activities amounting to approximately S\$1.3 million was mainly used for the acquisition of property, plant, and equipment.
- (C) The net cash inflow in financing activities amounting to approximately S\$7.5 million, due mainly to capital contributions from non-controlling interests in the shareholdings of GEIH, amounting to S\$9.0 million. This was offset by repayments of loans and borrowings and lease liabilities.

As at 30 September 2024, the Group's cash and cash equivalents (excluded fixed deposits pledged) amounted to \$\$10.6 million (31 March 2024: \$\$7.1 million).

4. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next operating period and the next 12 months.

Against the backdrop of continued global focus on sustainability efforts and the shift towards clean energy, as well as the Group's vision to spearhead the transition towards sustainable living in Asia and beyond, we continue to make significant progress in solidifying our commitment to a greener future.

Our LNG business under GUPL is seeing increasing traction and demand coming from various international manufacturers in Singapore. GUPL will continue to invest in and expand its operations to support such increasing demand.

Our hydrogen business under GEIH is focusing on obtaining regulatory approvals and certifications for the commercialisation of our green hydrogen plant in Singapore, with concurrent plans for regional roll-out. In the meantime, revenue is generated from the wood waste collection and processing activities.

We will continue to strengthen our partnership network and build up our technology capabilities to lay the ground for creating the ecosystem necessary for our bold sustainability vision. This includes enhancing our research collaborations with research institutions, enhancing our cooperation with capability providers, building up carbon credit portfolio, lining up off-takers for our green products, and sourcing for regional business partners.

In relation to the Lifestyle Business, we are focusing on executing the projects on hand that were previously delayed due to the Red Sea crisis affecting the timely shipment of our imports, and which had since subsided.

To continue with its fund-raising efforts and to allow all shareholders to participate in the future growth of the Group, the Company had on, 4 September 2024, announced the rights issue of warrants, whereby shareholders will be entitled to subscribe for the warrants at the Issue Price of S\$0.001 for each warrant, on the basis of one (1) warrant for every one (1) existing share held by such shareholder, with each warrant carrying the right to subscribe for one (1) new share at the Exercise Price of S\$0.004 for each new share ("Warrants Issue"). The Warrants Issue will enable the Company to raise up to approximately S\$1.4 million of gross proceeds from the subscription of warrants by shareholders, and up to another S\$5.7 million of gross proceeds from the potential exercise of these warrants into new shares of the Company. Further announcements on the Warrants Issue will be made on SGXNet in due course.
