- Gross revenue for 2Q2018 was \$0.4 million lower than 2Q2017. Both hospitality segment and retail segment posted lower revenue for the current period.
- NPI for 2Q2018 was \$0.1 million lower than 2Q2017 due to lower gross revenue from the properties, partially mitigated by lower property expenses.
- Income available for distribution was \$0.6 million lower than 2Q2017 as OUE H-REIT no longer receives income support for CPCA, partially mitigated by lower interest expense.
- The DPS for 2Q2018 was 1.17 cents, 3.3% lower as compared to 1.21 cents for 2Q2017.

¹Other income relates to income support provided by OUEAH pursuant to the Deed of Income Support. OUE H-REIT had fully drawn down the entire income support of \$7.5 million as at 3Q2017.

2Q2018 vs 2Q2017 – Hospitality Highlights

	Revenue			Net property income			RevPAR		
	2Q2018 S\$'000	2Q2017 S\$'000	Increase/ (Decrease) %	2Q2018 S\$'000	2Q2017 S\$'000	Increase/ (Decrease) %	2Q2018 S\$	2Q2017 S\$	Increase/ (Decrease) %

Hospitality segment	22,277	22,324	(0.2)	20,135	20,142	(0.0)	195	190	2.6

- Hospitality segment recorded slightly lower revenue in 2Q2018 as compared to 2Q2017.
- Master lease income from MOS had remained relatively the same as 2Q2017 due to a relatively flat RevPAR at \$209 (2Q2017: \$210) with decline in wholesale segment, partially mitigated by higher transient segment. MOS also recorded lower food and beverage sales, attributable to lower banquet sales, partially mitigated by higher sales in all the food and beverage outlets.
- Master lease income from CPCA had remained the same as 2Q2017 at minimum rent. Notwithstanding CPCA's operating performance had progressively improved and achieved higher RevPAR of \$168 (2Q2017: \$152), the master lease income was below the minimum rent, hence minimum rent was received.

Outlook

Based on advance estimates, the Singapore economy grew by 3.8% on a year-on-year basis in the second quarter of 2018, moderating from the 4.3% growth in the previous quarter. On a quarter-on-quarter seasonally-adjusted annualised basis, the economy expanded at a slower pace of 1.0% compared to the 1.5% growth in the preceding quarter.¹

In the tourism sector, Singapore Tourism Board (“STB”) reported a 6.9% year-on-year increase in international visitor arrivals in the first five months of 2018. The number of visitor days had also increased by 5.0%. A strong pipeline of meetings and large biennial events in the second half of 2018 is anticipated to raise demand for hotel accommodation. Singapore is also hosting the 33rd ASEAN Summit as the ASEAN chairman in 2018, where meetings and events involving foreign delegates will be held throughout the year.

By end-2018, Seletar Airport will open a new and enlarged passenger terminal, in anticipation of growth in the private and business jet traffic in the coming years.³ Jewel Changi Airport (“Jewel”) is set to open in first half of 2019. Changi Airport Group estimates that Jewel will see about 40 million to 50 million domestic and international visitors a year, of which 40% will be overseas visitors.⁴ CPCA could potentially benefit from the increase in visitor arrivals as Terminal 3 will be linked to Jewel via a pedestrian bridge.

On the supply front, future supply is expected to taper off with much of the planned hotel room inventory having entered the market in the past two years. Market occupancy is expected to strengthen in light of healthy tourist arrivals.⁵

Singapore’s retail scene remains challenging. Tenants in general are more cautious and taking a longer time to renew or commit to leases. Whilst we continue to explore leasing opportunities to optimise the occupancy of Mandarin Gallery, we remain committed to curating the right tenant mix to retain the mall’s positioning as a destination mall.

We will continue to actively seek organic growth and inorganic growth through yield accretive acquisitions from our Sponsor and third parties.
