### Notes:

- a. Revenue and gross profit were lower in 2Q2019 compared to 2Q2018 due to lower sales of coal and rubber, and absence of aluminium sales. Average selling prices and sales volume for coal were lower. Despite the higher average selling prices, sales volume for rubber was lower resulting in lower revenue from such sales.
- b. Other operating income increased mainly due to handling fees relating to coal shipments.
- c. Other operating expenses mainly comprise foreign exchange differences on US dollar denominated balances. There was higher foreign currency exchange loss in 1H2019 relative to 1H2018 as the US dollar depreciated much more against Singapore dollar during the period. However, in 2Q2019, US dollar appreciated against Singapore dollar. Hence, there was an increase in "other operating expenses" for 1H2019 but a credit representing the effect of net foreign currency exchange gain for the current quarter.
- d. The higher interest income was contributed by the interest income from a loan made to a related party in the third quarter of 2018 and higher overdue trade receivables in 1H2019 compared to 1H2018.
- e. Interest expense arose from trade financing for commodities trading.
- f. Income tax expense was higher mainly because of an increase in profit before tax.
- g. The translation gain in the current quarter was due to the appreciation of US dollar against Singapore dollar upon consolidation of subsidiaries whose functional currency is US dollar. The net depreciation of US dollar against Singapore dollar in 1H2019 resulted in a translation loss for the financial period.

### Notes:

h. The increase in trade and other receivables held by the Group was largely due to an advance for coal order placement of approximately \$2.3 million and the timing of collections from customers.

The interest-bearing refundable trade deposit of US\$6 million (equivalent to approximately \$8.1 million) placed by the Group is pending negotiation for a renewal upon maturity on 31 July 2019.

- i. Borrowings were in the form of trust receipts for commodities trading.
- j. The decrease in trade and other payables of the Group was mainly due to the timing of lumpy payments to coal and rubber suppliers.

### Notes:

k. Net cash from operating activities in 2Q2019 was largely due to a decrease in advance to a coal supplier upon fulfilment of order placements in the quarter, collections from customers, timing of lumpy payments to suppliers and lower fixed deposits placed with banks for utilisation of trade facilities for commodities trading.

Net cash used in operating activities in 1H2019 was mainly attributable to advance for coal order placement, timing of collections from customers and lumpy payments to suppliers, and higher fixed deposits placed with banks for utilisation of trade facilities for commodities trading.

I. Net cash was used in financing activities in 2Q2019 for repayments of trust receipt financing for commodities trading.

Net cash from financing activities in 1H2019 was through utilisation of trust receipt facilities for commodities trading.

#### SP CORPORATION LIMITED Unaudited Results for the Second Quarter and Half Year Ended 30 June 2019

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on

#### Commodities Trading Unit

The Unit's revenue decreased to \$25.0 million in 2Q2019 compared to \$36.0 million in 2Q2018. This was mainly attributable to lower revenue from the sale of coal as average selling prices and volume were lower. The lower sales volume of rubber despite the higher average selling prices and the absence of aluminium sales also contributed to the decline in revenue. Consequently, gross profit decreased.

Commodities trading reported a lower profit after tax of \$175,000 in 2Q2019 compared to \$442,000 in 2Q2018, mainly due to lower gross profit and higher interest expense, partially offset by handling fees in relation to coal shipments and higher foreign currency exchange gain.

#### Investment Unit

The Unit's profit in 2Q2019 arose mainly from the interest income of \$0.4 million on the \$20 million loan extended to a related party in September 2018 in return for an opportunity to participate in a mixed-use development project in Sanya, Hainan, China.

### 9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

Not applicable.

## 10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

Coal deliveries for the financial year are expected to be in line with the quantity secured by the Group under the coal allocation agreement. The Group will continually seek opportunities to grow its commodities trading business.

The Group is exploring investment opportunities including the project in Sanya, Hainan, China to reposition, expand and diversify its business and operations to achieve a more consistent and sustainable growth.
