### **Consolidated Statement of Comprehensive Income**

#### **Revenue**

The Group's revenue increased by approximately RMB 66.7 million or 33.2%, from RMB 201.3 million for the six months ended 31 March 2024 ("2H FY2024") to RMB 268.0 million for the six months ended 31 March 2025 ("2H FY2025"). The Group's revenue increased by approximately RMB 105.7 million or 33.1%, from RMB 319.0 million for the financial year ended 31 March 2024 ("FY2024") to RMB 424.7 million for the financial year ended 31 March 2025 ("FY2025").

During 2H FY2025, revenue from the sales of sweet potato processed products increased by approximately RMB 54.4 million or 33.7%, from RMB 161.3 million in 2H FY2024 to RMB 215.8 million in 2H FY2025. Revenue from the sales of fresh sweet potatoes increased by approximately RMB 11.4 million or 28.6% from RMB 39.9 million in 2H FY2024 to RMB 51.3 million in 2H FY2025.

Revenue from sweet potato processed products increased by approximately RMB 62.7 million or 24.1%, from RMB 260.3 million in FY2024 to RMB 323.0 million in FY2025. The increase was due to higher volume of sweet potato processed products, including the newly launched sweet potato crisps and fries, manufactured and sold with the capacity expansion and production line modification. Revenue from sales of fresh sweet potatoes also increased by approximately RMB 41.9 million or 72.1%, from RMB 58.1 million in FY2024 to RMB 100.0 million in FY2025.

Revenue from sweet potato seedlings increased by RMB 0.6 million or 116.9%, from RMB 0.6 million in FY2024 to RMB 1.2 million in FY2025. The increase was due to higher volume of seedlings produced and sold to external parties with the expansion of seedlings nursery. In FY2025, the Group has a new revenue stream from the production and sale of probiotic-infused fermented sweet potato feedstock, amounting to approximately RMB 0.4 million.

Revenue from the C&S segment was primarily driven by an increase in the production and sale of sweet potato seedlings and fresh sweet potatoes, which accounted for approximately 0.3% and 23.5% of the total revenue, respectively. The rise in revenue from sweet potato seedlings stemmed from expansion of the seedlings nursery from an initial size of 100 mu to 200 mu. This expansion allowed the Group to meet contracted farmland requirements and now provide excess capacity for sales to external parties. Additionally, the outsourced services provided by the smart warehouse, which includes automated sweet potato washing, sorting, packing, and cold storage, continue to enhance the Group's operational efficiency, resulting in higher volume of fresh sweet potatoes available for sale with an extended shelf life.

Revenue from the PIFP segment, which primarily includes sweet potato processed products, increased by 24.1% year-on-year, from RMB 260.3 million in FY2024 to RMB 323.0 million in FY2025. This growth can be attributed to (i) the newly launched products, including sweet potato crisps and fries, as well as additive-free, vacuum-packed steamed sweet potato, (ii) partial capacity expansion at the newly established high-tech manufacturing facility, and (iii) modifications to the production line at the existing plant to accommodate increased demand.

The additional revenue stream originated in the R&R segment and was contributed by the production and sale of probiotic-infused fermented sweet potato feedstock derived from agricultural waste in the second half of FY2025.

### **Gross Profit and Gross Profit Margin**

Gross profit in 2H FY2025 increased by approximately RMB 25.2 million or 37.5%, from RMB 67.2 million in 2H FY2024 to RMB 92.3 million in 2H FY2025. In FY2025, the gross profit increased by approximately RMB 42.3 million or 41.5%, from RMB 102.1 million in FY2024 to RMB 144.4 million. The Group's gross profit margin increased from approximately 33.4% in 2H FY2024 to 34.5% in 2H FY2025 and increased from 32.0% in FY2024 to 34.0% in FY2025. The increase in gross profit was mainly due to the increase in overall sales in 2H FY2025 and FY2025. The higher composite gross profit margin in FY2025 was primarily driven by a higher margin from the sale of fresh sweet potatoes but balanced by a slight decrease in gross profit margin from sweet potatoes processed product as a result of higher overhead from the additional of new machineries and equipment at the new manufacturing facility, which has yet to be fully utilised.

### **Interest Income**

Interest income increased from RMB 0.7 million in FY2024 to RMB 1.2 million in FY2025, representing an increase of approximately RMB 0.5 million or 65.5%. The increase in interest income was mainly due to the increase in interest received from banks on the back of an increase in average cash and bank balances held by the Group in FY2025 as compared to FY2024.

### **Other Income**

Other income decreased from RMB 410,000 in FY2024 to RMB 326,000 in FY2025, representing a decrease of RMB 84,000 or approximately 20.5%. The other income includes incentives from e-commerce platforms and proceeds from brand licensing.

The decrease in 2H FY2025 as compared to 2H FY2024 was mainly due to the decrease in operating expenses, employee benefit expenses and publicity expenses of RMB 3.1 million, RMB 0.5 million and RMB 0.3 million, respectively. The decrease was partially offset against the increase in exhibition expenses, entertainment expenses and delivery charges of RMB 0.7 million, RMB 0.3 million and RMB 0.3 million, respectively. The decrease for FY2025 as compared to FY2024 was mainly due to the decrease in operating expenses of RMB 5.8 million and employee benefit expenses of RMB 1.0 million, offset against the increase in delivery charges of RMB 0.8 million, exhibition expenses of RMB 0.7 million, publicity expenses of RMB 0.5 million and entertainment expenses of RMB 0.3 million.

**Administrative Expenses**

Administrative expenses increased by approximately RMB 6.5 million or 27.9%, from RMB 23.1 million in 2H FY2024 to RMB 29.6 million in 2H FY2025. In FY2025, administrative expenses increased by approximately RMB 15.7 million or 36.9%, from RMB 42.5 million in FY2024 to RMB 58.2 million.

The increase in administrative expenses for 2H FY2025 was mainly due to the increase in depreciation expenses, amortisation of intangible assets, seedlings nursery fees, and research and developments expenses of RMB 4.5 million, RMB 0.3 million, RMB 0.3 million and RMB 1.7 million, respectively, which was partially offset by the decrease in secretary fee of RMB 0.5 million, legal and professional fee of RMB 0.3 million and office expenses of RMB 0.3 million. The increase in administrative expenses for FY2025 was mainly due to increases in amortisation of intangible assets, depreciation expenses, seedlings nursery fees, Rights cum Warrants Issue expenses, research and development expenses and staff compensation – performance shares of RMB 0.6 million, RMB 5.3 million, RMB 0.5 million, RMB 1.2 million, RMB 1.8 million and RMB 6.6 million, respectively, which was partially offset by the decrease in audit fee of RMB 0.4 million, office expenses of RMB 0.4 million, secretary fee of RMB 0.4 million, and travelling expenses of RMB 0.2 million.

**Other Losses**

Other losses, which include sponsorship of events, write-offs of plant and equipment, and donation expenses, decreased by approximately RMB 0.9 million or 73.0%, from RMB 1.2 million in 2H FY2024 to RMB 0.3 million in 2H FY2025. Additionally, other losses decreased by approximately RMB 1.8 million or 74.3% from RMB 2.5 million in FY2024 to RMB 0.6 million in FY2025. The decrease is mainly due to the decrease in donation expenses and property, plant and equipment written-off.

**Finance Costs**

Finance costs increased by approximately RMB 0.5 million or 36.2% from RMB 1.2 million in 2H FY2024 to RMB 1.7 million in 2H FY2025. In FY2025, the finance costs increased by approximately RMB 1.0 million or 41.6% from RMB 2.3 million in FY2024 to RMB 3.3 million. The increase was mainly due to the increase in interest charged on the additional bank borrowings in 2H FY2025 and FY2025, as compared to 2H FY2024 and FY2024.

**Income Tax Expenses**

The Group's income tax expense increased from RMB 8.1 million in FY2024 to RMB 12.4 million in FY2025. The increase was mainly due to higher profits generated in FY2025.

**Consolidated Statement of Financial Position**

**The comparative performance for both the assets and liabilities are based on the Group's financial statements as at 31 March 2025 and 31 March 2024.**

**Non-current Assets**

There was an increase in the Group's total non-current assets of approximately RMB 3.1 million or 0.9%, from RMB 337.4 million as at 31 March 2024 to RMB 340.5 million as at 31 March 2025. This was mainly due to an increase in property, plant and equipment ("PPE") of approximately RMB 27.4 million and an investment in unquoted shares of approximately RMB 0.9 million, which was partially offset by the decrease in intangible assets of approximately RMB 0.6 million and other assets, non-current of approximately RMB 24.5 million.

As at 31 March 2025, PPE increased by approximately RMB 27.4 million or 15.6%, from RMB 175.7 million as at 31 March 2024 to RMB 203.1 million as at 31 March 2025. This was due to additions of plant and machinery and renovations for the new manufacturing facilities, which was partially offset by the depreciation expense and PPE written-off in FY2025.

Intangible assets decreased by approximately RMB 0.6 million or 0.9%, from RMB 69.4 million as at 31 March 2024 to RMB 68.9 million as at 31 March 2025. The decrease was mainly due to amortisation, which was partially offset against the additional to the right-of-use and manufacturing patents during FY2025.

Increase in investment in unquoted shares, Hainan Xinwei Land Development Co., Ltd. from RMB 0.9 million in FY2024 to RMB 1.8 million in FY2025 was due to call for additional pro-rata capital injection.

Other assets, non-current amounted to approximately RMB 66.8 million, comprising mainly upfront payments to the Co-operatives for the long-term supply contracts of fresh sweet potatoes, decreased from RMB 91.3 million as at 31 March 2024. The decrease is mainly due to the utilisation of upfront payment made in exchange of the sweet potatoes supplies and resulted the decrease in long term upfront payment or upfront payment over 12 months.

**Current Assets**

Inventories increased by approximately RMB 1.8 million or 68.7%, from RMB 2.7 million as at 31 March 2024 to RMB 4.5 million as at 31 March 2025. The increase in inventories as at 31 March 2025 was mainly due to the higher stock level to fulfil secured orders as compared to 31 March 2024.

Trade and other receivables increased by approximately RMB 38.1 million or 70.8%, from RMB 53.8 million as at 31 March 2024 to RMB 91.9 million as at 31 March 2025. The increase was mainly due to higher sales during the period of January to March 2025 as compared to the corresponding period last year, where customers had a credit term of 30 to 90 days.

Other assets increased by approximately RMB 28.4 million or 45.2%, from RMB 62.9 million as at 31 March 2024 to RMB 91.3 million as at 31 March 2025. Other assets primarily consist of upfront payment made to the Group's suppliers of fresh sweet potatoes for the upcoming 12 months. The increase was mainly due to the increase in prepayment of expenses and advances to suppliers to ensure the supply of fresh sweet potatoes as raw materials for the Group.

Cash and bank balances increased by approximately RMB 27.0 million or 17.3%. Please refer to the "Consolidated Statement of Cash Flows" section below for more details on the change in cash and cash equivalents of the Group.

**Non-Current Liabilities**

Other payables, non-current, decreased by approximately RMB 3.9 million or 60.4%, from RMB 6.5 million as at 31 March 2024 to RMB 2.6 million as at 31 March 2025. The decrease was mainly due to the decrease in the remaining duration of the lease contract with the service provider.

**Current Liabilities**

Trade and other payables increased by approximately RMB 24.4 million or 77.7%, from RMB 31.4 million as at 31 March 2024 to RMB 55.7 million as at 31 March 2025. The increase in trade payables was mainly due to increase in purchase in FY2025 as compared to the previous corresponding period.

Other financial liabilities increased by RMB 16.3 million or approximately 27.9%, from RMB 58.5 million as at 31 March 2024 to RMB 74.8 million as at 31 March 2025. This was mainly due to the increase in short-term borrowings undertaken by the Group during FY2025.

As a result of the above, the Group's current liabilities increased by approximately RMB 40.8 million or 44.2%, from RMB 92.4 million as at 31 March 2024 to RMB 133.2 million as at 31 March 2025.

Consequent to the increase in current assets and current liabilities as set out above, the Group recorded positive working capital of approximately RMB 237.6 million as at 31 March 2025 as compared to RMB 183.1 million as at 31 March 2024.

The decrease mainly due to higher outflow of cash from trade and other receivables and other assets.

Net cash used in investing activities amounted to RMB 57.6 million in FY2025. The net cash used in investing activities in FY2025 mainly represented the additions to renovations and plant and machinery to the new manufacturing facility completed in FY2024.

Net cash generated from financing activities amounted to approximately RMB 26.0 million in FY2025. This was mainly due to the proceeds from Rights Cum Warrant Issue and the proceeds from new short-term loans offset by repayment of bank loans and interest expenses in FY2025.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

The Group's results for the financial year ended 31 March 2025 is consistent with the profit guidance announcement released by the Company on 13 May 2025.

**10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

The Group achieved a set of commendable results in FY2025 as its biotech-focused sweet potato circular economy industrial value chain closed the loop with the agricultural waste-derived feedstock for poultry feeds.

The Group remains committed to realising the potential value of the circular economy through its planned expansion across the industrial value chain, which includes the increased cultivation area of the seedlings nursery, the commercialisation of higher-margin processed sweet potato snacks and functional products at the high-technology manufacturing facility, and an increase in animal feedstock production with the commencement of the third-party waste collection and fermentation operations in Liancheng County.

As more stakeholders in the sweet potato sector join the collaborative platform of the Group's sweet potato circular economy industrial value chain, this may further enhance economic values for the sweet potato industry and elevate the living standards of the local community in Liancheng County.

On 7 April 2025, the Chinese State Council announced a 10-year plan outlining several key strategies to enhance food security, modernise agriculture, drive technological innovation, and promote rural revitalisation by 2035. According to the plan, China also aims to achieve a grain output capacity of around 700 million metric tons, strengthen self-sufficiency in key crops, make breakthroughs in agricultural technologies like seeds and machinery, and boost global competitiveness by 2027.<sup>(1)</sup>

Barring unforeseen circumstances, the Group believes that the national directive bodes well for its sustainable growth, as it will be replicating its sweet potato circular economy industrial value chain model in Lingao County, Hainan Province, in the near future.

Nonetheless, the Group will remain prudent in implementing its planned expansion and will update shareholders of material developments as and when appropriate.

**12. If no dividend has been declared/recommended, a statement to that effect and reason(s) for the decision.**

No dividend has been declared FY2025. The decision not to distribute dividends stems from the Group's strategy to preserve its cash resources, taking into account the uncertainty of market conditions and the expansion of its operational activities in the upcoming year. By conserving cash resources, the Group aims to safeguard its ongoing operations and the progress of renovations and equipment and machinery acquisition in the new manufacturing facility and additional working capital required to run the new manufacturing facility. This approach is intended to prevent significant disruptions to the completion timeline and operations, as any delays would lead to increased overall costs.

In addition to the above, the Group intends to retain its cash resources for exploring any opportunities in increasing contracted farmlands through Co-operatives which will require advance payment for supplies of sweet potato.

The board of directors of the Company (the “**Board**”) will continue to observe the situation and assess, among others, the Group's financial performance and position in respect of the relevant financial period, before deciding on whether to declare dividends.
