ANNOUNCEMENT ON THE PROGRESS OF PROJECTS FOR THE FIRST HALF OF 2025

This announcement is issued by SIIC ENVIRONMENT HOLDINGS LTD. (the "**Company**", together with its subsidiaries, the "**Group**") on a voluntary basis. As a water treatment and environmental protection company listed on the Main Board of the Singapore Exchange Securities Trading Limited and the Main Board of The Stock Exchange of Hong Kong Limited, the Company wishes to provide its shareholders and potential investors with an update on the Group's latest business developments.

The Group is pleased to announce several developments in wastewater treatment during the first half of 2025 as follows:-

- New Project Contract Signed: A concession agreement was signed with Beiliu City Urban Management Supervision Bureau of Guangxi Zhuang Autonomous Region for the Urban Wastewater Treatment Plant 3rd Phase Project in Beiliu City, with a designed treatment capacity of 60,000 tonnes per day;
- New Project Commissioned: A wastewater treatment project in Shanghai was completed and put into operation, with a designed treatment capacity of 25,000 tonnes per day;
- New Operation and Maintenance ("**O&M**") Operation Project: An O&M operation project in Shanghai has commenced operations, with a designed treatment capacity of 100,000 tonnes per day;
- Upgrading/Expansion Project Progress: A total of two upgrading and expansion projects

located in Sichuan and Heilongjiang Provinces completed and have commenced operations, contributing a combined designed treatment capacity of 31,000 tonnes per day. In addition, an upgrading and expansion project in Shandong Province fulfilled water quality inspection and met commercial operation conditions, with a designed capacity of 30,000 tonnes per day.

- Extension of Existing Project: The project in Guangxi Zhuang Autonomous Region was granted a concession extension, with a designed treatment capacity of 80,000 tonnes per day.

The signing, commissioning, and concession extensions of the above-mentioned projects further strengthen the Group's market presence and operational scale, reflecting the Group's continued efforts and achievements in wastewater treatment and reinforcing its position as a key industry leader in China's water and environmental services sector.

An overview of the relevant projects is as follows:-

1. **Beiliu City Urban Wastewater Treatment Plant 3rd Phase Project Signed**
   The Company's 99% indirectly owned subsidiary, Beiliu Nanfang Water Co., Ltd., executed a BOT agreement with Beiliu City Urban Management Supervision Bureau in June 2025 to secure the project. The project has a designed capacity of 60,000 tonnes per day, with effluent standard compliance with Grade 1A requirements under the China's Discharge Standard of Pollutants for Municipal Wastewater Treatment Plants (GB18918-2002). The project has a concession period of 25 years.

2. **Xicen Water Purification Plant in Qingpu District, Shanghai Commissioned**
   The project commenced commercial operations in January 2025, with a designed capacity of 25,000 tonnes per day. The effluent quality compliance with quasi-Class III standards under China's Environmental Quality Standards for Surface Water (GB3838-2002).

3. **New O&M Operation Project Commissioned**
   Fengxian Western Wastewater Treatment Plant 4th Phase in Shanghai commenced operations in March 2025. The project has a designed capacity of 100,000 tonnes per day with an effluent quality compliance with Grade 1A standards under China's Discharge Standard of Pollutants for Municipal Wastewater Treatment Plants (GB18918-2002).

4. **Progress of Upgrading and Expansion Projects**
   The expansion project of the Shijiaba Wastewater Treatment Plant in Guangyuan City

commenced operations in January 2025. The project has a designed capacity of 11,000 tonnes per day with an effluent quality compliance with Grade 1A standards under China's Discharge Standard of Pollutants for Municipal Wastewater Treatment Plants (GB18918-2002).

The upgrading project of the Anda Development Zone Wastewater Treatment Plant commenced operations in March 2025. The project has a designed capacity of 20,000 tonnes per day with an effluent quality compliance with Grade 1A standards under China's Discharge Standard of Pollutants for Municipal Wastewater Treatment Plants (GB18918-2002).

The upgrading project of the Yicheng District Wastewater Treatment Plant (Expansion Plant) in Zaozhuang City fulfilled water quality inspection in June 2025 and met commercial operation conditions. The project has a designed capacity of 30,000 tonnes per day with effluent quality compliance with quasi-Class IV standards under China's Environmental Quality Standards for Surface Water (GB3838-2002).

5. **Concession Extension secured for Beiliu City Phase I and II Urban Wastewater Treatment Plant Project**

   The project has a designed capacity of 80,000 tonnes per day with an effluent quality compliance with Grade 1A standards under China's Discharge Standard of Pollutants for Municipal Wastewater Treatment Plants (GB18918-2002). In March 2025, the concession term was extended from its original expiry date of 22 December 2034 to 21 May 2043.

The above-mentioned operating data is unaudited and is based on preliminary internal information of the Group, and is provided for reference only. Shareholders and potential investors of the Company are advised to exercise caution and not to place undue reliance on such information when dealing in the shares of the Company. Persons who are in doubt as to the action should seek independent advice from their stockbroker, bank manager, solicitor, accountant or other professional advisers.
