CORPORATE PROFILE AND OUR BUSINESS

Since 1991, Versalink Holdings Limited ("Versalink" or the "Company" and, together with its subsidiaries, the "Group") has grown to become one of the leading manufacturers of mid to high-end System Furniture in Malaysia.

The Company attributes its success to Mr Roland Law, the father of the Group CEO, Group COO and Executive Director of the Company. Mr Roland Law first went into the furniture business in 1979 when he started a business specializing in the manufacture of kitchen cabinets and bedroom furniture. He has retired in year 2017.

Today, after more than 20 over years, Versalink has built a wide customer base that spans more than 40 countries in Africa, Australasia, Asia, Middle East and North America. Its customers include architects, contractors, corporate customers, dealers, designers and OEM customers, both in domestic Malaysia as well as overseas.

Versalink has been endeavoring to develop, design and produce modern system furniture since its establishment. The Group had received numerous awards and certifications over the years, which is a testament to Versalink as one of the key players in the Malaysian furniture industry.

In order to maintain its position as one of the leaders in system furniture both in Malaysia and in the world, the Group dedicates its resources to continuous research and development to ensure that its system furniture remains in the forefront of revolutionary design. In addition, the Group devotes its resources to giving back to society by implementing various socially and environmentally responsible practices.

The Group is principally engaged in the design, manufacture and supply of a wide range of system furniture under its "Versalink" and _AD MAIORA brands or on an OEM basis that can be tailored to its customers' specifications.

The Group also supply ancillary products such as seating models and work tools that are sourced from third party manufacturers. In addition, the Group is also the reseller for various established international third party brand of premium office furniture such as ZÜCO Bürositzmöbel of AG Switzerland and Dauphin Human Design of Germany.

As part of our value-added service to our customers, the Group also provides workspace planning and consulting services to customers who require advice on optimizing their usage of space and/or customization of system furniture.

The Group has two business segments, namely Domestic Sales (Malaysia) and Export Sales.

DOMESTIC SALES

The Domestic Sales are derived mainly from project sales by way of tenders, and directly negotiated contracts with contractors who operate in the office renovation and fit-out sector, corporate customers who require renovation and fit-out services for their corporate offices and walk in customers who place orders at our showrooms. Other Domestic Sales are derived from sales made to distributors, resellers and retailers, and OEM customers.

EXPORT SALES

The Export Sales are primarily to overseas dealers such as furniture importers, distributors and retailers who resell the Group's products to end-users through their respective retail networks. The Group also supplies to furniture brand owners that purchase from the Group on an OEM basis.

AWARDS AND CERTIFICATIONS

Dear Shareholders,

On behalf of the Board of Directors of Versalink Holdings Limited ("Versalink" or the "Company") it is my pleasure to present to you the Annual Report and the Audited Financial Statements of the Company and its subsidiaries (the "Group") for the financial year ended 28 February 2018.

FINANCIAL PERFORMANCE

For FY2018, the Group registered a revenue of RM62.6 million compared to RM50.9 million in the previous financial year, representing an increase of RM11.7 million in revenue as follow:

Export Segment

The Export segment recorded a higher revenue of 4.0% at approximately RM31.2 million compared to RM30.0 million in the previous financial year. This improvement was mainly attributed to growing demands from key new markets.

Domestic Segment

The Domestic segment also recorded a higher revenue of RM31.4 million which represents a 50.1% increase as compared to RM20.9 million in the previous financial year. We are seeing benefits from the acquisition of Alca Vstyle Sdn Bhd that has since contributed to the Group with higher revenue amid a soft market due to political and economic uncertainties in Malaysia.

Overall Results

The Group has achieved a higher revenue of RM62.6 million and a loss, net of tax attributable to owners of the Company of RM2.5 million for the financial year ended 28 February 2018 compared to revenue of RM50.9 million and net loss attributable to owners of the Company of RM1.9 million respectively for the previous financial year ended 28 February 2017. However, with the strategies being implemented, we look forward to an improved performance during the financial year ending 28 February 2019.

DIVIDEND STATEMENT

On the basis of the sustained earnings performance and after taking into consideration the challenging economic condition, the Board of Directors do not recommend dividend for this financial year.

OUTLOOK AND PROSPECTS

The prospects for the Group remains positive yet challenging with the global economy experiencing a broad-based cyclical upturn, which is expected to be sustained over the next couple of years, although with downside risks.

The International Monetary Fund ("IMF") reported a higher global growth of 3.7 percent in 2017 on the back of buoyant financial markets as well as a cyclical recovery in manufacturing and trade. There remain uncertainties that could derail global growth such as the Brexit process and the ambiguity surrounding the United States administration's stance on free trade.

Consumer sentiments in Malaysia remain weak as consumers are concerned with global and domestic uncertainties biting into job security and that the high cost of living is eroding their purchasing power. As the labour market continues to look fatigued, it is unlikely to see a faster income growth any time soon, which could be a bane to consumer spending.

The office space in Malaysia is facing an oversupply situation with many new office towers coming on-stream in the near future. In addition, many high-end office towers are to be completed in the near future, leading to much space availability and pressure to lower price on grade A office spaces.

The business environment had continually changed the economic comparative advantages and the competitive inputs in the Malaysian office furniture industry.

THE GROUP'S INITIATIVES

The Group had kept up to such external changes with innovation and creativity by evaluating and initiating internal improvements in manufacturing flexibility and capacity and exploring business trends development such as collaborative ventures and other related businesses that are seen as emerging business and related business opportunities.

Internally, we are enhancing our competitiveness by our investment in R&D to create new designs and products, upgrading our manufacturing software and equipment, and we focused on positioning the Group in the premium office furniture segment to improve our margins and our international marketing reach. The potential of the office furniture industry is strong with the global production volume exceeding USD48.0 billion per year while the local office furniture industry is estimated to be about RM200.0 million per year.¹

The Group is seeing growth in the export market, mainly driven by the growing demands from our middle east markets as higher crude oil prices had increased their corporate spending budgets. The Group is working hard to capture the opportunities in these growing markets.

As for our new strategies, we have increased our R&D expenditure to develop new designs and new products for new markets, investing in the upgrade of manufacturing software and equipment to allow flexible manufacturing and to optimize production resources, increase efficiency and reduce labour costs to improve financial performance. We are diversifying our market base, while improving the local market share of the office furniture market. The Board is confident that financial performance will improve because of these positive initiatives and actions. Barring any unforeseen circumstances, we are confident to fully exert our Group's knowhow and resources to meet the industry challenges.

ACKNOWLEDGEMENT AND APPRECIATION

On behalf of the Board of Directors, I would like to extend our sincere thanks to our customers, suppliers, principals, business associates, financiers, and government authorities for their assistance and continued support towards the Group.

The Board is confident that the Group will continue to strive for improvement. The concerted efforts has been due to the people at Versalink for their unwavering support that we have received from our dedicated management team and staff, partners and all stakeholders.

Finally, we would like to express our sincere gratitude to our valued shareholders for their continuous support and confidence in Versalink, not forgetting also my heartfelt appreciation to my fellow Board members for their commitment and contribution to the development and well-being of the Group.

Dr Wilson Tay Chuan Hui Independent Non-Executive Chairman

CORPORATE SOCIAL RESPONSIBILITY

We recognize that for long-term sustainability, we need to look beyond the financial parameters and strike a balance between business profitability and corporate social responsibility. We have taken various steps to play our part in contributing to the welfare of the society and communities in the environment we operate in. Hence, we support important causes such as environmental preservation, donation to the needy, and community services.

Some of our initiatives include:

GIVING BACK TO THE COMMUNITY

We regularly support various services and activities within our community. We have made donations and provided sponsorships to, amongst others, schools, orphanages and old folks homes. Further, we are also involved in annual community services projects at various charitable organizations.

ENVIRONMENTAL PRESERVATION

We are committed to the responsible use and protection of the natural environment through conservation and sustainable practices. We strive to reduce the environmental impact of our manufacturing operations by substituting raw materials with environmentally friendly alternatives. Besides adopting environmentally friendly internal guidelines on electricity, water, power and paper conservation, we also issue periodic internal newsletters that feature articles on environmental preservation.

We have established committee dedicated to environment and sustainability governance such as ISO14000, Greenguard, FSC Chain-of-Custody and PEFC.

CORPORATE SOCIAL RESPONSIBILITY

OCCUPATIONAL SAFETY AND HEALTH

Versalink's approach to managing safety and health at work place is driven by a core belief in being a responsible business. Our senior management and managers are responsible for continuing to reduce risk and improving our performance in these areas. A committee has also been set up to monitor the compliance of the safety and health standards with regular structured interactions with the management team. Maintaining a strong focus on safety, health and hazards that could result in serious injuries or fatalities continues to be key for us.

The Board of Directors (the "Board") of Versalink Holdings Limited (the "Company") and its subsidiaries (the "Group") are committed to maintaining a high standard of corporate governance within the Group. Good corporate governance establishes and maintains a legal and ethical environment in the Group to protect the interests of the shareholders of the Company and to maximize long-term shareholders' value.

This report (this "Report") describes the Group's corporate governance structures and practices currently in place with specific reference made to the principles and guidelines of the Code of Corporate Governance 2012 (the "Code") and, where applicable, the Singapore Exchange Securities Trading Limited (the "SGX-ST") Listing Manual: Section B Rules of Catalist (the "Catalist Rules").

The Board is pleased to confirm that for the financial year ended 28 February 2018, the Group has adhered to the principles and guidelines as set out in the Code. Where there are deviations from the Code, appropriate explanation have been provided.

A. BOARD MATTERS

The Board's Conduct of its Affairs

Principle 1: Every company should be headed by an effective Board to lead and control the company. The Board is collectively responsible for the long-term success of the company. The Board works with Management to achieve this objective and the Management remains accountable to the Board.

The Board is responsible for overall corporate governance, strategic direction, formulation of policies and overseeing the investment and business of the Company. The Board supervises the Management on the businesses and affairs of the Company. The main roles of the Board, apart from its statutory responsibilities, are to:

- (a) provide entrepreneurial leadership, set strategic objectives, and ensure that the necessary financial and human resources are in place for the Company to meet its objectives;
- (b) establish a framework of prudent and effective controls which enables risks to be assessed and managed, including safeguarding of shareholders' interests and the Company's assets;
- (c) review management performance;
- (d) identify the key stakeholder groups and recognise that their perceptions affect the Company's reputation;
- (e) set the Company's values and standards and ensure that obligations to shareholders and other stakeholders are understood and met; and
- (f) consider sustainability issues in the formulation of its strategies.

To assist the execution of its responsibilities, the Board has formed three (3) committees: (i) Audit Committee ("AC"); (ii) Nominating Committee ("NC"); and (iii) Remuneration Committee ("RC") (collectively referred herein as the "Board Committees"). The Board Committees were formed at the time of our listing on the SGX-ST and are chaired by Independent Directors. The Board Committees function within clearly defined terms of reference and operating procedures, which are reviewed on a regular basis.

The Executive Directors also supervise the management of the business and affairs of the Company, and in order to ensure that the Group's operations are not disrupted, the meetings of the Board and the Board Committees are scheduled prior to the start of each financial year. Ad-hoc meetings are also convened when circumstances require, and/or resolutions in writing of the Board are circulated for matters that require the Board's approval. The Company's Constitution permits the Directors of the Company to attend meetings through the use of audio-visual communication equipment.

The attendances of the Directors at meetings of the Board and Board Committees, as well as the frequency of such meetings held during the financial year ended 28 February ("FY") 2018 are as follows:

| | Board | | Audit Committee | | Nominating Committee | | Remuneration Committee | |

* By invitation

The Company has adopted internal guidelines on the following matters that are reserved for Board's decision and/or approval:

- a) overall business strategies;
- b) corporate governance and compliance;
- c) financial performance and result announcements;
- d) audited results and annual reports;
- e) annual budgets, investment and divestment proposals;
- f) material acquisition and disposal of assets;
- g) internal controls and risks management;
- h) declaration of interim dividends and proposed final dividends; and
- i) all matters, which are delegated to Board Committees, are to be reported to and monitored by the Board.

The Company has in place orientation programs for newly appointed Directors to familiarize with the Group's operations, business issues and the relevant regulations and governance requirements. Upon appointment, each Directors was provided with a formal letter of appointment setting out their duties, obligations and terms of appointments. For FY2018, there was no new director appointed to the Board.

The Directors are updated on pertinent developments in the Group's business, including changes in laws and regulations, financial reporting standards and industry-related matters. Directors are encouraged to attend seminars and participate in training courses to enable them to perform effectively as Directors. Seminar announcements are communicated to them regularly. The Company will arrange and will bear the cost of such training for the Directors.

The Company Secretary will attend all Board and Board Committee meetings. He is responsible for ensuring that procedures are followed and that the Company has complied with the requirements of the Companies Act and all other rules and regulations that are applicable to the Company. The Directors have independent access to the Company Secretary at all times.

Board Composition and Guidance

Principle 2: There should be a strong and independent element on the Board, which is able to exercise objective judgment on corporate affairs independently, in particular, from Management and 10% shareholders. No individual or small group of individuals should be allowed to dominate the Board's decision making.

As at the date of this Annual Report, the Board comprises three (3) Executive Directors and three (3) Independent Directors and their membership on the Board Committees are as follows:

| Name of Director | Board Membership | Audit Committee | Nominating Committee | Remuneration Committee |
|------------------|---|--------------------|-------------------------|---------------------------|

| Chow Wen Kwan | Independent Director | Member | Chairman | Member |

The Board considers an Independent Director as one who has no relationship with the Company, the related companies, its ten per cent (10%) shareholders or the officers that could interfere, or be reasonably perceived to interfere, with the exercise of that Director's independent judgment of the conduct of the Group's affairs. The independence of each Director is reviewed annually by the NC in accordance with the definition of independence in the Code. Each Director is required to disclose to the Board any relationships or circumstances as and when they arise, which are likely to affect, or could appear to affect the Director's judgment.

The NC has reviewed and has identified each of the Company's Independent Directors to be independent. As half of the Board is made up of Independent Directors, the NC believes the Board shall be able to exercise independent judgment on corporate affairs and ensures that no one individual or groups of individuals dominate any decision making process. The NC is of the view that the Board has a good balance of Directors who have extensive business, financial, accounting and management experience, who as a group, provides core competencies necessary to meet the Group's objectives. For details on the experiences and responsibilities of the Directors, please refer to their profiles set out in pages 4 to 7 of this Annual Report.

None of the Independent Directors has served on the Board beyond nine (9) years from the date of first appointment.

The Board has three (3) non-executive Directors (all of whom are independent Directors) who endeavour to constructively challenge and help develop proposals on strategy and to review the performance of management in meeting goals and objectives. During the year, the non-executive Directors communicated among themselves without the presence of management as and when the occasions warrant. The Company also co-ordinates informal sessions for non-executive Directors to meet on a need-basis without the presence of the management.

Chairman and Group Chief Executive Officer

Principle 3: There should be a clear division of responsibilities between the leadership of the Board and the executives responsible for managing the company's business. No one individual should represent a considerable concentration of power.

Dr Wilson Tay is the Non-Executive Chairman and Independent Director and Mr Matthew Law is the Group Chief Executive Officer. There is a clear division of responsibilities between the Non-Executive Chairman and the Group Chief Executive Officer, which provides a balance of power and authority.

The Non-Executive Chairman sets the tone for the conduct of the Board and ensures the Group adhere to best corporate governance practices as prescribed by the Code. He leads the Board to ensure its effectiveness on all aspects of its role, ensures that the Board holds regular meetings and ensures the timeliness and quality of information flow between the Board and the Management. He also encourages constructive relations within the Board and between the Board and Management.

The Group Chief Executive Officer is responsible for the business and operational decisions of the Group. He is also responsible for the day-to-day operations of the Group and implementations of the Board's decisions.

The balance of power and authority is further enhanced by the Board Committees which are all chaired by Independent Directors.

Board Membership

Principle 4: There should be a formal and transparent process for the appointment and re-appointment of directors to the Board.

The Nominating Committee ("NC") is established for the purposes of ensuring that there is a formal and transparent process for all Board appointments. Our NC comprises the Company's three (3) Independent Directors, Chow Wen Kwan, Dr Wilson Tay, Chin Chee Choon and Arica Walters. The Chairman of the NC is Chow Wen Kwan.

The NC is authorized by the Board to:

- a) to make recommendations to the Board on the appointment and re-appointment of Directors (including Alternate Directors, if applicable).
- b) to regularly review the Board structure, size and composition and make recommendations to the Board with regard to any adjustments that are deemed necessary.
- c) to determine the process for the search, nomination, selection and appointment of new Board members and assess nominees or candidates for appointment or election to the Board, determining whether or not such nominee has the requisite qualifications and whether or not he/she is independent.
- d) to review Board succession plans for Directors, in particular, the Chairman and Group Chief Executive Officer.
- e) to develop a process for the evaluation of performance of the Board, its Board committees and Directors.
- f) to determine how the Board's performance may be evaluated and propose objective performance criteria.
- g) to assess the effectiveness of the Board as a whole and its Board committees and to assess the contribution by the Chairman and each individual Director to the effectiveness of the Board.
- h) to review training and professional development programs for the Board.
- i) to determine, on an annual basis, if a Director is independent.
- j) to make recommendations to the Board for the continuation (or not) in the services of any Director who has reached the age of seventy (70) years, where appropriate.

k) to recommend Directors who are retiring by rotation or are newly appointed to be put forward for re-election.

All Directors are required to submit themselves for nomination and re-election at regular intervals and at least once every three (3) years. Directors appointed as an additional Director or to fill any casual vacancy shall hold office only until the next Annual General Meeting ("AGM") and shall be eligible for re-election.

- I) to review and determine whether the Director is able to and has been adequately carrying out his duties as a Director of the Company, taking into consideration the Director's number of Board representations on listed companies and other principal commitments.
- m) such other duties or functions as may be delegated by the Board or required by regulatory authorities.

Each member of the NC shall abstain from voting on any resolution in respect of the assessment of his performance or re-nomination as a Director.

The NC considers and recommends to the Board the appropriate structure, size and needs of the Board, with regard to the appropriate skills mix, personal qualities and experience required for the effective performance of the Board. The NC also recommends all appointments and retirements of Directors and considers candidates to fill new positions created by expansion or vacancies that occur by resignation, retirement or for any other reasons.

Candidates are selected based on their character, judgment, business experience and acumen. Where a Director has multiple board representations, the NC will evaluate if a Director is able to and has been adequately carrying out his or her duties as Director of the Company. Despite some of the Directors having other Board representations, the NC is satisfied that these Directors are able to and have adequately carried out their duties as Directors of the Company. The NC has determined that each of the Independent Directors should not hold more than six (6) listed company board representations and other principal commitments.

The Company's Constitution provides that at each AGM of the Company, not less than one third of the Directors (who have been longest in office since their appointment or re-election) are to retire from office by rotation. A retiring Director is eligible for re-election by the shareholders of the Company at the AGM.

In this respect, the NC has recommended and the Board has agreed for the following Directors to retire and seek re-election at the forthcoming AGM:

Pursuant to Article 114 of the Constitution of the Company:

- (i) Law Kian Guan
- (ii) Chow Wen Kwan

Mr Chow Wen Kwan, being member of the NC, has abstained from deliberation in respect of his own respective nomination and assessment.

The NC has reviewed the independence of the Board members and is of the opinion that Dr Wilson Tay, Mr Chin Chee Choon and Mr Chow Wen Kwan are independent. Each of these Directors has also declared that they are independent.

Key information regarding the Directors is set out in pages 4 to 7 of this Annual Report.

Currently, the Company does not have any alternate Director on the Board.

Board Performance

Principle 5: There should be a formal assessment of the effectiveness of the Board as a whole and the contribution by each Director to the effectiveness of the Board.

The NC has assessed the performance and effectiveness of the Board as a whole and the Board Committees on an annual basis. The evaluation of the Board performance is based on objective performance criteria which include attainment of agreed targets, performance of the Board, attendance and contribution of each Director during Board meetings.

In evaluating the Board performance, assessment is conducted by the NC at least once a year by way of a Board Assessment Checklist where all the Directors are to complete the checklist on the effectiveness level of various aspects of Board performance, such as Board structure, conduct of meetings, corporate strategy and planning, risk management and internal control and communicating with shareholders. The performance criteria will not change from year to year unless they are deemed necessary and the Board is able to justify the changes.

The NC, having reviewed the overall performance of the Board and the Board Committees' performance to-date in terms of its roles and responsibilities and the conduct of its affairs as a whole is of the view that the performance of the Board and each individual Director has been satisfactory.

The NC has determined that given the number of Directors of the Company, size of the Board, the background, expertise and the participation in the Board meetings of the Company, it is not necessary to evaluate the individual performance of each Director.

The Board has not engaged any external facilitator in conducting the assessment of the Board's performance. Where necessary, the NC will consider such engagement.

Access to Information

Principle 6: In order to fulfill their responsibilities, Board members should be provided with complete, adequate and timely information prior to Board meetings and on an on-going basis so as to enable them to make informed decisions to discharge their duties and responsibilities.

The Company recognizes the importance of continual dissemination of relevant information that is explicit, accurate, timely and vital to the Directors in carrying out their duties. As such, the Directors requires the Management to provide half-yearly reports to the Board on the financial statement for their review, and allowing the Directors to have the awareness of the Group's financial position. The Board has also been given detailed information concerning the Group's business operations periodically.

In exercising their duties, the Directors have unrestricted access to the Company's Management, Company Secretary and Independent Auditors. The attendance of the Company Secretary and Sponsor at all the meetings held by the Board and/or the Board Committees ensures that procedures for these meetings (including those stipulated in the Constitution) are followed and that applicable rules and regulations, including the requirements of the Singapore Companies Act, Chapter 50 and the Singapore Exchange Securities Trading Limited, are complied with.

The appointment and removal of the Company Secretary are subject to the approval of the Board. Each Director has the right to seek independent legal and other professional advice, at the Company's expense, concerning any aspect of the Group's operations or undertakings in order to fulfill their duties and responsibilities as Directors.

B. REMUNERATION MATTERS

Procedures for Developing Remuneration Policies

Principle 7: There should be a formal and transparent procedure for developing policy on executive remuneration and for fixing the remuneration packages of individual directors. No director should be involved in deciding his own remuneration.

The Remuneration Committee ("RC") comprises the Company's three (3) Independent Directors, Dr Wilson Tay, Chin Chee Choon and Chow Wen Kwan. The Chairman of the RC is Dr Wilson Tay.

The RC is authorized by the Board to:

- (a) review and recommend to the Board a general framework of remuneration for the Board and key management personnel and to review and recommend to the Board the specific remuneration packages and terms of employment for each Director, key management personnel of the Group and employees related to Directors or, controlling shareholders of the Group.
- (b) review whether the Executive Directors and key management personnel should be eligible for benefits under any long-term incentive schemes which may be set up from time to time and to do all acts necessary in connection therewith.
- (c) administer the performance based Bonus scheme and any other share option scheme or share plan established from time to time for the Directors and key management personnel.
- (d) carry out its duties in the manner that it deems expedient, subject always to any regulations or restrictions that may be imposed upon the RC by the Board of Directors.
- (e) consider the disclosure requirements for Directors' and key management personnel's remuneration as required by the SGX-ST and according to the Code.

The Company has previously engaged the service of an independent remuneration consultants, Messrs MIS & Associates Sdn Bhd to study and review the remuneration packages of the Executive Directors and Executive Officers for the previous FY2017. The RC has full authority to obtain external professional advice on matters relating to remuneration should the need arises. In respect of fees for Directors, approval of shareholders is required at each Annual General Meeting of the Company.

Level and Mix of Remuneration

Principle 8: The level and structure of remuneration should be aligned with the long-term interest and risk policies of the company, and should be appropriate to attract, retain and motivate (a) the directors to provide good stewardship of the company, and (b) key management personnel to successfully manage the company. However, companies should avoid paying more than is necessary for this purpose.

The RC carries out annual reviews of the remuneration packages of the Board and the key management personnel. In reviewing the remuneration packages, the RC takes into account the current market circumstances and the need to attract and retain Directors of experience and good standing.

Our Executive Directors have entered into service agreements with the Company, which was last renewed in August 2016 and are for a period of two (2) years, subject to renewal subsequently. The Company may also at any time forthwith terminate the Service Agreements of the Executive Directors if he or she, inter alia, be guilty of any dishonesty, gross misconduct or willful neglect of duty or commit any continued material breach of the provisions of his/her respective Service Agreement, becomes bankrupt or persistently refuses to carry out any reasonable lawful order given to him/her in the course of his/her employment or persistently fails diligently to attend his/her duties.

Pursuant to their respective Service Agreements, Matthew Law, Arica Walters and Adam Law are entitled to a fixed monthly salary and an annual wage supplement of two (2) month's basic salary, to be pro-rated accordingly if the period of employment of the Executive Director for the relevant financial year is shorter than six (6) calendar months.

In addition, Matthew Law and Arica Walters are also entitled to a performance bonus (the "Performance Bonus") in respect of each financial year commencing from and including FY2016, which is calculated based on the consolidated net profit before tax ("NPBT") and exceptional items of our Group, before taking into account the Performance Bonus as follows:

| NPBT | Performance Bonus |
|--|--|
| RM15 million \leq NPBT \leq RM30 million | 0.8% of the amount of the NPBT in excess of RM15 million and subject to a cap of RM120,000.00 |
| RM30 million < NPBT \leq RM40 million | RM120,000.00 plus 0.5% of the amount of NPBT in excess of RM30 million and subject to an aggregate cap of RM170,000.00 |
| NPBT > RM40 million | RM170,000.00 plus 0.3% of the amount of NPBT in excess of RM40 million |

The long-term incentive schemes of the Company are the Versalink Performance Share Plan ("the Plan") and Versalink Employee Share Option Scheme ("the Scheme"). The RC is responsible for the administration of the Scheme and the Plan in accordance with the rules of both schemes.

No awards were granted during FY2018 under the Scheme and the Plan.

The Independent Directors receive Directors' fees, and the Non-Executive Chairman receive chairman's fee and attendance fee, in accordance with their contributions, taking into account factors such as effort and/or time spent, the responsibilities of the Independent Directors and the need to pay competitive fees to attract, retain and motivate the Independent Directors. The RC ensures that the Independent Directors are not overly compensated to the extent their independence may be compromised. No Director is involved in deciding his or her own remuneration package.

The Company does not intend to use contractual provisions to allow it to reclaim incentive components of remuneration from Executive Directors and key management personnel in exceptional circumstances of misstatement of financial results, or of misconduct resulting in financial loss to the Group. The Executive Directors owe a fiduciary duty to the Company and the Company should be able to avail itself to remedies against the Executive Directors in the event of such breach of fiduciary duties.

Disclosure on Remuneration

Principle 9: Each Company should provide clear disclosure of its remuneration policy, level and mix of remuneration, and the procedure for setting remuneration in the company's annual report. It should provide disclosure in relation to its remuneration policies to enable investors to understand the link between remuneration paid to directors and key executives, and performance.

The various components of the remuneration of Directors and key management personnel of the Group for FY2018 in percentage are disclosed below. The remuneration received by Directors and key management personnel for FY2018 in each case are below S\$250,000. The Company has not fully disclosed the remuneration of its Directors and key management personnel as the Board is of the view that it is not in the interests of the Company to disclose such details due to the sensitive nature of such information. Disclosure of remuneration in bands for services rendered during the financial year ended 28 February 2018 are as follows:

| Name of Director | Salary | Bonus | Directors' Fees | Allowances & Other Benefits | Total Remuneration |
|-------------------------------------|--------|-------|--------------------|--------------------------------|-----------------------|
| | % | % | % | % | % |
| Up to \$\$250,000 | | | | | |
| Matthew Law | 89 | - | - | 11 | 100 |
| Arica Walters | 91 | _ | _ | 9 | 100 |
| Adam Law | 88 | - | - | 12 | 100 |
| Dr Wilson Tay | - | - | 100 | _ | 100 |

| Tann Beng Soon | 89 | - | - | 11 | 100 |
| Len Kwai Keong | 66 | - | - | 34 | 100 |

"Immediate family member" means spouse, child, adopted child, stepchild, brother, sister and parent. There is no employee of the Company and its subsidiaries who was an immediate family member of a director or the CEO and whose remuneration exceeded S\$50,000 during FY2018.

The Board is of the opinion that the information as disclosed above would be sufficient for shareholders to have an adequate appreciation of the Group's compensation policies and practices. The remuneration of employees related to the Directors and Substantial Shareholders of the Company will also be reviewed annually by the RC.

C. ACCOUNTABILITY AND AUDIT

Accountability

Principle 10: The Board should present a balanced and understandable assessment of the company's performance, position and prospects.

One of the Board's principal duties is to promote and protect the long-term value and returns to the Shareholders, and accepts that it is accountable to the shareholders and adopts best practices to maintain shareholders' confidence and trust. Currently, the Company is required to release half-yearly and full year results announcements pursuant to the SGX-ST Listing Manual. The announcements are released via SGXNET within the respective periods stipulated in the SGX-ST Listing Manual after review by the Board. In presenting half-yearly and full year financial statements, the Board strives to provide the shareholders with detailed analysis and a balanced and understandable assessment of the Company's performance, financial position and prospects.

In accordance with Rule 705(5) of the Catalist Rules, during FY2018, the Board issued negative assurance statement in its interim financial results announcements confirming to the best of its knowledge that nothing had come to the attention of the Board which might render the financial statements to be false or misleading in any material aspect.

Risk Management and Internal Controls

Principle 11: The Board is responsible for the governance of risk. The Board should ensure that Management maintains a sound system of risk management and internal controls to safeguard the shareholders' investments and the company's assets, and should determine the nature and extent of the significant risks which the Board is willing to take in achieving its strategic objectives.

The Board is responsible for the governance of risk of the Group and maintains a system of internal controls and risk management to safeguard shareholders' interests and the Group's assets.

The Audit Committee ("AC"), through the assistance of internal and external auditors, reviews and reports to the Board on the adequacy of the Company's system of internal controls and risk management, including financial, operational and compliance and information technology controls and to risk management policies and systems established by the Management. In assessing the effectiveness of internal controls, the AC ensures that the key objectives are met, material assets are safeguard and reliable financial information is prepared in compliance with applicable internal policies, laws and regulations.

The Board acknowledges that it is responsible for the overall internal control framework, but recognizes that no system or internal control provide absolute assurance against the occurrence of material financial misstatement or losses, poor judgment in decision-making, human errors, fraud or other irregularities.

For FY2018, the Board and the AC have obtained assurances from the Group Chief Executive Officer and Group Finance Director for the following:-

- (i) that the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances.
- (ii) that the Group's risk management and internal control systems in place are adequate and effective in addressing the material risks of the Group in its current business environment including financial, operational, compliance and IT risks.

Based on the internal controls established and maintained by the Group, work performed by the internal and external auditors, risk management reports, assurance from the Group Chief Executive Officer and Group Finance Director and reviews performed by the management, the Board, with the concurrence of the AC, is of the opinion that the system of internal controls (including financial, operational, compliance and information technology controls) and risk management systems in place are adequate and effective in addressing financial, operational, compliance and information technology risks of the Company as at 28 February 2018.

The Board did not establish a separate Board risk committee as the Board is currently assisted by the AC, internal auditors and external auditors in carrying out its responsibility of overseeing the Group's risk management framework and policies.

Audit Committee

Principle 12: The Board should establish an Audit Committee ("AC") with written terms of reference which clearly set out its authority and duties.

The Audit Committee ("AC") comprises the Company's three (3) Independent Directors, Chin Chee Choon, Dr Wilson Tay and Chow Wen Kwan. The Chairman of the AC is Chin Chee Choon.

The AC members possess many years of experience in accounting, legal, business and financial management. The Board considers that the AC members are appropriately qualified to discharge the responsibilities of the AC.

The role of the AC is to assist the Board with discharging its responsibility to:

- (a) safeguard the Group's assets;
- (b) maintain adequate accounting records;
- (c) develop and maintain effective systems of internal controls and risk management;
- (d) ensure integrity of financial statements;
- (e) provide arrangements whereby concerns on financial improprieties or, other matters raised by 'whistle-blowers' are investigated and appropriate follow up action taken.

The AC meets at least twice a year:

- (a) to review significant financial reporting issues and judgments to ensure integrity of the financial statements of the Company; and any announcements relating to the Company's financial performance.
- (b) to review and report to the Board at least annually the adequacy and effectiveness of the Company's internal controls, including financial, operational, compliance and information technology controls and risk management policies (such review can be carried out internally or with the assistance of any competent third parties).
- (c) to review at least annually the adequacy and effectiveness of the Company's internal audit function including ensuring it is staffed with persons with the relevant qualifications and experience.
- (d) to ensure that the internal audit function is adequately resourced and has appropriate standing within the Company.
- (e) to review the internal audit program and ensure co-ordination between the internal and external auditors and Management.
- (f) to review the scope and results of the internal audit procedures.
- (g) to review the scope and results of the external audit, and the independence and objectivity of the external auditors.
- (h) to approve the hiring, removal, evaluation and compensation of the Head of the Internal Audit function, or accounting/auditing firm or corporation if the internal audit function is outsourced.
- (i) to make recommendations to the Board on proposals to shareholders on the appointment, re-appointment, resignation and removal of the external auditors, and approving the remuneration and terms of engagement of the external auditors.
- (j) to ensure co-ordination where more than one (1) auditing firm or corporation is involved.
- (k) review with the internal and external auditors:
 - (i) their audit plan, including the nature and scope of the audit before the audit commences;
 - (ii) their evaluation of the system of internal controls;
 - (iii) their audit report; and
 - (iv) their management letters and Management's responses.
- (I) to review interested person transactions (IPTs) falling within the scope of the SGX-ST Listing Manual on a half-yearly basis.

- (m) to review the half-yearly and full year financial statements of the Company before submission to the Board for approval, focusing in particular, on:
 - (i) changes in accounting policies and practices;
 - (ii) major risk areas;
 - (iii) significant adjustments resulting from the audit;
 - (iv) the going concern statement;
 - (v) compliance with accounting standards;
 - (vi) compliance with stock exchange and statutory/regulatory requirements.
- (n) to review the audited financial statements of the Company and the consolidated balance sheet and profit & loss account, before approval by the Board.
- (o) to discuss problems and concerns, if any, arising from half-yearly and/or full year audits, in consultation with the internal and external auditors, where necessary.
- (p) to meet with the external and internal auditors without the presence of Management, at least annually, to discuss any problems or concerns they may have.
- (q) to ensure where deficiencies in internal controls have been identified, appropriate and prompt remedial action is taken by Management.
- (r) to review the assistance given by Management to the internal and external auditors.
- (s) to review annually the independence of the external auditors, the aggregate amount of fees paid to the external auditors for the financial year and the breakdown of the fees paid in total for audit and non-audit services respectively.
- (t) to review and discuss with the external auditors, any suspected fraud or irregularity, or suspected infringement of any applicable law, rules or regulations, which has or is likely to have a material impact on the Company's operating results or financial position, and Management's response.
- (u) to review the policy and arrangements by which staff of the Company or of the Group and any other persons may, in confidence, raise concerns about possible improprieties in matters of financial reporting or any other matters; and conduct an independent investigation of such matters for appropriate follow-up action pursuant to the Company's whistle-blowing program.
- (v) to investigate any matter within the Terms of Reference, with full access to and co-operation by Management and full discretion to invite any Director or executive officer to attend its meetings, and reasonable resources to enable it to discharge its function properly.
- (w) to report to the Board its findings from time to time on matters arising and requiring the attention of the Committee.
- (x) to undertake such other reviews and projects as may be requested by the Board.
- (y) to undertake such other functions and duties as may be required by statute or the SGX-ST Listing Manual, and by such amendments made thereto from time to time.

The AC is authorized to obtain independent professional advice if it deems necessary in the discharge of its responsibilities. Such expenses are to be borne by the Group. The AC has full access to the Management and also full discretion to invite any Director or key management personnel to attend its meetings, and will be given resources to enable it to discharge this function.

The AC has met with the external auditors and internal auditors without the presence of the Company's Management at least once a year.

The AC, having reviewed the scope and value of non-audit services provided to the Group by the external auditors, RSM Chio Lim LLP, is satisfied that the nature and extent of such services will not prejudice the independence and objectivity of the external auditors. The AC has recommended to the Board the nomination of RSM Chio Lim LLP for re-appointment as external auditors of the Company at the forthcoming Annual General Meeting. The Company has complied with Rules 712 and 715 of the Catalist Rules in relation to its external auditors.

Details of the aggregate amount of audit and non-audit services paid or payable to the external auditors during the financial year ended 28 February 2018 are disclosed in Note 6 set out on page 63 of the Annual Report.

Whistle-blowing Policy

To encourage proper work ethics and deter any wrongdoing within the Group, the Group has established a whistle-blowing policy that stipulates the mechanism by which concerns about such plausible improprieties may be raised. To provide a channel for both employees and external parties to raise concerns and issues in good faith on possible corruption, suspected fraud and other non-compliance issues, a dedicated email address allows whistle blowers to contact the AC directly.

The AC will address the issues or concerns raised and ensure that necessary arrangements are in place for independent investigation of issues raised by the employees or external parties and also appropriate follow-up actions based on the results of the investigation. Where appropriate or required, a report shall be made to the relevant authorities for further investigation or action.

Information received pertaining to whistle-blowing will be treated with confidentiality and restricted to the designated persons-in-charge of the investigation to protect the identity and interest of whistle-blowers.

The external auditors present to the AC the audit plan and updates relating to any change of accounting standards that have a direct impact on the financial statements. During the financial year ended 28 February 2018, the adoption of new and/or revised accounting standards did not result in any substantial changes or significant impact on the Group's financial statements.

In addition, no former partner or director of the Company's existing auditing firm or auditing corporation is a member of the AC.

Internal Audit

Principle 13: The Company should establish an internal audit function that is independent of the activities it audits.

The Board recognizes its responsibilities for maintaining a sound system of risk management and internal control processes to safeguard shareholders' investments and the Group's assets and business.

The Company has established an internal audit function that is independent of the activities it audits. As recommended by the Audit Committee ("AC"), the Company has outsourced the internal audit function to an independent corporation, NGL Tricor Governance Sdn Bhd ("NGL Tricor"). The internal auditors report functionally to the Chairman of AC and administratively to the Group Chief Operating Officer. A risk-based internal audit plan was approved by the AC and the results of the audit findings were submitted to the AC for its review. The internal audit function primarily focuses on assessing whether the current system of risk management and internal control provides reasonable assurance on:

- 1. compliance with applicable laws, regulations, policy and procedures;
- 2. reliability and integrity of information; and
- 3. safeguarding of assets.

During the financial year ended 28 February 2018, NGL Tricor reviewed key internal controls in selected areas based on a risk-based internal audit plan and reported its findings together with recommendations on areas for improvement for the AC's attention, so as to improve the adequacy and effectiveness of internal controls. The AC is satisfied that the Group's outsourced internal audit function is adequately resourced and has appropriate standing within the Group. The AC is also satisfied that the internal auditors carry out its function in accordance with the International Professional Practices Framework for Internal Auditing from the Institute of Internal Auditors.

D. SHAREHOLDER RIGHTS AND RESPONSIBILITIES

Shareholder Rights

Principle 14: Companies should treat all shareholders fairly and equitably, and should recognize, protect and facilitate the exercise of shareholders' rights, and continually review and update such governance arrangements.

All shareholders are treated fairly and equitably to facilitate their ownership rights. In line with the continuing disclosure obligations of the Company pursuant to the SGX-ST Listing Manual and the Singapore Companies Act, Chapter 50, the Board's policy is that all shareholders should be regularly informed in a comprehensive manner and on a timely basis of all material developments that impact the Group.

Shareholders are informed of general meetings through notices published in the newspaper and the Company's announcements and press releases via SGXNET as well as through reports/circulars sent to all shareholders. They are given the opportunity to participate effectively and vote at general meetings of the Company, where relevant rules and procedures governing the meetings are clearly communicated.

The Constitution of the Company allows each shareholder to appoint up to two proxies to attend general meetings. On 3 January 2016, the legislation was amended, among other things to allow certain members, defined as "relevant intermediary" to attend and participate in general meetings without being constrained by the two-proxy requirement. Relevant intermediary includes corporations holding licenses in providing nominee and custodial services and CPF Board which purchases shares on behalf of the CPF investors.

Communication with Shareholders

Principle 15: Companies should actively engage their shareholders and put in place an investor relations policy to promote regular, effective and fair communication with shareholders.

The Company endeavors to maintain constant and effective communication with Shareholders through timely and comprehensive announcements in order to maintain a high standard of transparency and to promote better investor communications.

Information is communicated to shareholders on a timely basis through:

- The Annual Report, containing the full financial statements of the Company and the Group;
- Notices of Annual General Meeting/Extraordinary General Meeting ("AGM/EGM");
- Press release on major developments of the Company;
- SGXNET announcements;
- The Company's website at www.versalink.com where shareholders can access information on the Company. The website provides, inter alia, corporate announcements, press releases, annual reports and profiles of the Company.

The Company does not practice selective disclosure and price sensitive information is publicly released on an immediate basis where required under the SGX-ST Listing Manual. However, in the event that unpublished material information is inadvertently disclosed to any selected person in the course of the Group's interactions with the investing community, a media release or announcement will be released to the public via SGXNET to disclose and/or address such material information.

The Company does not have a fixed dividend policy. The form, frequency and amount of future dividends on our Shares that our Directors may recommend or declare in respect of any particular financial year or period will be subject to the factors outlined below as well as any other factors deemed relevant by our Directors:

- (a) the level of our cash and retained earnings;
- (b) our actual and projected financial performance;
- (c) our projected levels of capital expenditure and other investment plans;
- (d) our working capital requirements and general financing condition;
- (e) restrictions on payment of dividends imposed on us by our financing arrangements (if any); and
- (f) the general economic and business conditions in countries in which we operate.

Having considered the challenging business environment which the Group operates and the projected funding required for projects undertaken by the Group, the Board has decided not to recommend a divided for FY2018.

Conduct of Shareholder Meetings

Principle 16: Companies should encourage greater shareholder participation at general meetings of shareholders, and allow shareholders the opportunity to communicate their views on various matters affecting the Company.

The Annual General Meeting ("AGM") of the Company is a principal forum for dialogue and interaction with all shareholders. Shareholders are encouraged to attend the AGM. This allows shareholders the opportunity to communicate their views on various matters affecting the Company and to stay informed of the Company's strategy and goals. To facilitate Shareholders' effective participation at general meetings, the Company holds its general meetings at venues which are convenient and accessible to Shareholders. The Chairman of the Audit Committee, Remuneration Committee and Nominating Committee and external auditors are normally present at the meeting to address relevant questions. Shareholders are also given the opportunity to communicate their views and to ask the Directors and Management questions regarding the Group.

Information on general meetings is disseminated through notices in the annual report or circulars sent to all shareholders. Notices of general meetings are also released via SGXNET and published in the local newspapers, as well as posted on the Company's website.

The Company Secretary prepares minutes of the general meetings, which incorporate substantial comments or queries from shareholders and responses from the Board and the Management. These minutes would be made available to shareholders upon request.

The Company maintains separate resolutions at general meetings on each substantially separate issue. Each item of special business included in the notice of meetings will be accompanied by the relevant explanatory notes. This is to enable the shareholders to understand the nature and effect of the proposed resolutions.

Resolutions are put to vote by poll and the detailed results of the number of votes cast for and against each resolution and the respective percentages are announced for each resolution.

CORPORATE GOVERNANCE REPORT

DEALINGS IN SECURITIES

The Company has adopted a policy whereby its Directors and employees are prohibited from dealing in the securities of the Company while in possession of price-sensitive information as well as during the period commencing one (1) month before the announcement of the Company's halfyearly and full-year results and ending on the date of the announcement of the relevant results. The Directors and officers are to refrain from dealing in the Company's securities on short-term considerations.

The Directors and employees are also required to adhere to the provisions of the Securities and Futures Act, Companies Act, the Catalist Rules and any other relevant regulations with regard to their securities transactions.

Directors and employees are also expected to observe insider trading laws at all times even when dealing with securities within the permitted trading period.

In view of the processes in place, in the opinion of the Directors, the Company has complied with Rule 1204(19) of the Catalist Rules on dealings in securities.

INTERESTED PERSON TRANSACTIONS

The Group has established internal control policies to ensure that transactions with interested persons are properly reviewed and approved, and are conducted at an arm's length commercial terms basis. Any Director who is interested in a transaction will abstain and refrain from deliberating, discussing, making recommendations and approving the transaction. The Group does not have a general mandate from shareholders for interested person transactions pursuant to Rule 920(1)(a) of the Catalist Rules.

However, pursuant to Rule 905 of the Catalist Rules, the aggregate value of interested person transactions entered into during FY2018 is as follows:

| Name of Interested Person | Aggregate value of all interested person transactions during the financial year under review (excluding transactions less than S\$100,000 and transactions conducted under shareholders' mandate pursuant to Rule 920 of the Catalist Rules) | Aggregate value of all interested person transactions conducted under shareholders' mandate pursuant to Rule 920 of the Catalist Rules (excluding transactions less than \$\$100,000) |

TO THE MEMBERS OF VERSALINK HOLDINGS LIMITED (Registration No: 201411394N)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying financial statements of Versalink Holdings Limited (the "company") and its subsidiaries (the "group"), which comprise the consolidated statement of financial position of the group and the statement of financial position of the company as at 28 February 2018, and the consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows of the group, and statement of changes in equity of the company for the reporting year then ended, and notes to the financial statements, including the significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the group and the statement of financial position and statement of changes in equity of the company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 ("the Act") and the Financial Reporting Standards in Singapore ("FRSs") so as to give a true and fair view of the consolidated financial position of the group and the financial position of the company as at 28 February 2018 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the group and the changes in equity of the company for the reporting year ended on that date.

Basis of opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current reporting year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

(1) Net realisable value of inventories

Please also refer to Note 2 on the relevant accounting policies; Note 2C on critical judgements, assumptions and estimation uncertainties; and Note 15 on inventories at the reporting year end.

The group holds inventories of RM14,920,000 as at end of the reporting year. The carrying amount of inventories may not be recoverable in full if those inventories become slow moving, or if their selling prices have declined below carrying amounts.

The estimate of allowance for obsolete inventories is based on the age of these inventories, prevailing market conditions in the system furniture industry and historical provisioning experience which requires management judgement. Management applies particular judgement in the areas relating to inventory allowance based on inventory aging. This methodology relies upon assumption made in determining appropriate allowance of inventories.

For samples selected, the component auditors' and our audit procedures included, among others (i) checking the net realisable value of the inventories by comparing cost to subsequent selling prices; and (ii) reviewing the inventory turnover days and aging of the inventories to assess if there were any significant build up of aged inventories and assessing the reasonableness of the allowance for inventory obsolescence.

We satisfied ourselves that the impairment allowance on inventories have been prepared in line with the group's policy.

TO THE MEMBERS OF VERSALINK HOLDINGS LIMITED (Registration No: 201411394N)

Key audit matters (cont'd)

(2) Net realisable value of trade receivables

Please also refer to Note 2 on the relevant accounting policies; Note 2C on critical judgements, assumptions and estimation uncertainties; and Notes 16 and 26D for the receivables and credit risk of the group respectively.

Trade receivables totalled RM12,667,000 as at the end of the reporting year. Any impairment of significant receivables could have material impact to the group's profit or loss.

The estimate of impairment allowance is based on the historical trend of these receivables, which includes analysis of the age of these receivables, credit worthiness of the customers and future collectability.

For the samples selected, our audit procedures included, (a) assessing the recoverability of the significant aged debts, by discussing with management; (b) checking subsequent collections and corroborating to the historical payment records; and (c) assessing whether disclosures in respect of the credit risk of trade receivables is appropriate. We also evaluated the qualitative adjustment to the allowance and challenged the reasonableness of the key assumptions in determining the allowance.

Other information

Management is responsible for the other information. The other information comprises information included in the statement by directors and the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and directors for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the group's financial reporting process.

TO THE MEMBERS OF VERSALINK HOLDINGS LIMITED (Registration No: 201411394N)

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's internal control.
- c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group to cease to continue as a going concern.
- e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In our opinion, the accounting and other records required by the Act to be kept by the company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

28 FEBRUARY 2018

1. GENERAL

The company is incorporated in Singapore with limited liability. It is listed on the Catalist Board of the Singapore Exchange Securities Trading Limited ("SGX-ST") on 24 September 2014.

The financial statements are presented in Ringgit Malaysia ("RM") and all financial information have been rounded to the nearest thousand (RM'000), except when otherwise stated.

The board of directors approved and authorised these financial statements for issue on the date of the statement by directors.

The principal activities of the company are those of an investment holding company and the provision of management services.

The principal activities of the subsidiaries are described in Note 13 to the financial statements.

The registered office is 8 Wilkie Road, #03-01 Wilkie Edge, Singapore 228095. The company is situated in Singapore. The principal place of business is Lot 6119, Jalan Haji Salleh, Batu 5½ Off Jalan Meru 41050 Klang Selangor, Malaysia.

Accounting convention

The financial statements have been prepared in accordance with the Financial Reporting Standards in Singapore ("FRSs") and the related Interpretations to FRS ("INT FRS") as issued by the Singapore Accounting Standards Council and the Companies Act, Chapter 50. The financial statements are prepared on a going concern basis under the historical cost convention except where an FRSs require an alternative treatment (such as fair values) as disclosed where appropriate in these financial statements. The accounting policies in FRSs may not be applied when the effect of applying them is not material. The disclosures required by FRSs need not be provided if the information resulting from that disclosure is not material. Other comprehensive income comprises items of income and expense (including reclassification adjustments) that are not recognised in profit or loss, as required by FRSs.

Basis of preparation of the financial statements

The preparation of financial statements in conformity with generally accepted accounting principles requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Actual results could differ from those estimates. The estimates and assumptions are reviewed on an ongoing basis. Apart from those involving estimations, management has made judgements in the process of applying the entity's accounting policies. The areas requiring management's most difficult, subjective or complex judgements, or areas where assumptions and estimates are significant to the financial statements, are disclosed at the end of this footnote, where applicable.

28 FEBRUARY 2018

1. GENERAL (CONT'D)

Basis of presentation

The consolidated financial statements include the financial statements made up to the end of the reporting year of the company and all of its subsidiaries. The consolidated financial statements are the financial statements of the group in which the assets, liabilities, equity, income, expenses and cash flows of the parent and its subsidiaries are presented as those of a single economic entity and are prepared using uniform accounting policies for like transactions and other events in similar circumstances. All significant intragroup balances and transactions, including income, expenses and cash flows are eliminated on consolidation. Subsidiaries are consolidated from the date the reporting entity obtains control of the investee and cease when the reporting entity loses control of the investee. Control exists when the group has the power to govern the financial and operating policies so as to gain benefits from its activities.

Changes in the group's ownership interest in a subsidiary that do not result in the loss of control are accounted for within equity as transactions with owners in their capacity as owners. The carrying amounts of the group's and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. When the group loses control of a subsidiary it derecognises the assets and liabilities and related equity components of the former subsidiary. Any gain or loss is recognised in profit or loss. Any investment retained in the former subsidiary is measured at fair value at the date when control is lost and is subsequently accounted as available-for-sale financial assets in accordance with FRS 39.

The company's separate financial statements have been prepared on the same basis, and as permitted by the Companies Act, Chapter 50, the company's separate statement of profit or loss and other comprehensive income is not presented.

2. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION

2A. Significant accounting policies

Revenue recognition

The revenue amount is the fair value of the consideration received or receivable from the gross inflow of economic benefits during the financial year arising from the course of the activities of the entity and it is shown net of any related sales taxes, estimated returns and rebates. Revenue from the sale of goods is recognised when significant risks and rewards of ownership are transferred to the buyer, there is neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the amount of revenue and the costs incurred or to be incurred in respect of the transaction can be measured reliably. Interest revenue is recognised using the effective interest method.

Employee benefits

Contributions to defined contribution retirement benefit plans are recorded as an expense as they fall due. The entity's legal or constructive obligation is limited to the amount that it is obligated to contribute to an independently administered fund (such as the Central Provident Fund in Singapore, a government managed defined contribution retirement benefit plan). For employee leave entitlement the expected cost of short-term employee benefits in the form of compensated absences is recognised in the case of accumulating compensated absences, when the employees render service that increases their entitlement to future compensated absences; and in the case of non-accumulating compensated absences, when the absences occur. A liability for bonuses is recognised where the entity is contractually obliged or where there is constructive obligation based on past practice.

Borrowing costs

Borrowing costs are interest and other costs incurred in connection with the borrowing of funds and are recognised as an expense in the period in which they are incurred. Interest expense is calculated using the effective interest rate method.

Foreign currency transactions

The functional currency is the Malaysian Ringgit as it reflects the primary economic environment in which the entity operates. Transactions in foreign currencies are recorded in the functional currency at the rates ruling at the dates of the transactions. At each end of the reporting year, recorded monetary balances and balances measured at fair value that are denominated in non-functional currencies are reported at the rates ruling at the end of the financial year and fair value measurement dates respectively. All realised and unrealised exchange adjustment gains and losses are dealt with in profit or loss except when recognised in other comprehensive income and if applicable deferred in equity such as for qualifying cash flow hedges. The presentation is in the functional currency.

Translation of financial statements of other entities

Each entity in the group determines the appropriate functional currency as it reflects the primary economic environment in which the relevant reporting entity operates. In translating the financial statements of such an entity for incorporation in the combined financial statements in the presentation currency the assets and liabilities denominated in other currencies are translated at end of the reporting year rates of exchange and income and expense items for each statement presenting other comprehensive income are translated at average rates of exchange for the reporting year. The resulting translation adjustments (if any) are recognised in other comprehensive income and accumulated in a separate component of equity until the disposal of that relevant reporting entity.

Subsidiaries

A subsidiary is an entity including unincorporated and special purpose entity that is controlled by the reporting entity and the reporting entity is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The existence and effect of substantive potential voting rights that the reporting entity has the practical ability to exercise (that is, substantive rights) are considered when assessing whether the reporting entity controls another entity.

In the reporting entity's separate financial statements, an investment in a subsidiary is accounted for at cost less any allowance for impairment in value. Impairment loss recognised in profit or loss for a subsidiary is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying value and the net book value of the investment in a subsidiary are not necessarily indicative of the amount that would be realised in a current market exchange.

Segment reporting

The reporting entity discloses financial and descriptive information about its consolidated reportable segments. Reportable segments are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing the performance. Generally, financial information is reported on the same basis as is used internally for evaluating operating segment performance and deciding how to allocate resources to operating segments.

Business combinations

A business combination is a transaction or other event which requires that the assets acquired and liabilities assumed constitute a business. It is accounted for by applying the acquisition method of accounting. The cost of a business combination includes the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the acquirer, in exchange for control of the acquiree. The acquisition-related costs are expensed in the periods in which the costs are incurred and the services are received except for any costs to issue debt or equity securities are recognised in accordance with FRS 32 and FRS 39. As of the acquisition date, the acquirer recognises, separately from goodwill, the identifiable assets acquired, the liabilities assumed and any non-controlling interest in the acquiree measured at acquisition-date fair values as defined in and that meet the conditions for recognition under FRS 103. If there is gain on bargain purchase, for the gain on bargain purchase a reassessment is made of the identification and measurement of the acquiree's identifiable assets, liabilities and contingent liabilities and the measurement of the cost of the business combination and any excess remaining after this reassessment is recognised immediately in profit or loss.

Non-controlling interests

The non-controlling interest is equity in a subsidiary not attributable, directly or indirectly, to the reporting entity as the parent. The non-controlling interest is presented in the consolidated statement of financial position within equity, separately from the equity of the owners of the parent. For each business combination, any non-controlling interest in the acquiree (subsidiary) is initially measured either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Where the non-controlling interest is measured at fair value, the valuation techniques and key model inputs used are disclosed in the relevant Note. Profit or loss and each component of other comprehensive income are attributed to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to the owners of the parent and to the non-controlling interests in the non-controlling interests are of the parent and to the non-controlling interests.

Income tax

The income taxes are accounted using the asset and liability method that requires the recognition of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequence of events that have been recognised in the financial statements or tax returns. The measurements of current and deferred tax liabilities and assets are based on provisions of the enacted or substantially enacted tax laws; the effects of future changes in tax laws or rates are not anticipated. Tax expense (tax income) is the aggregate amount included in the determination of profit or loss for the reporting year in respect of current tax and deferred tax. Current and deferred income taxes are recognised as income or as an expense in profit or loss unless the tax relates to items that are recognised in the same or a different period outside profit or loss. For such items recognised outside profit or loss, the current tax and deferred tax are recognised (a) in other comprehensive income if the tax is related to an item recognised in other comprehensive income and (b) directly in equity if the tax is related to an item recognised directly in equity. Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same income tax authority. The carrying amount of deferred tax assets is reviewed at each end of the reporting year and is reduced, if necessary, by the amount of any tax benefits that, based on available evidence, are not expected to be realised. A deferred tax amount is recognised for all temporary differences, unless the deferred tax amount arises from the initial recognition of an asset or liability in a transaction which (i) is not a business combination; and (ii) at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss). A deferred tax liability or asset is recognised for all taxable temporary differences associated with investments in subsidiaries, branches and associates, and joint arrangements except where the reporting entity is able to control the timing of the reversal of the taxable temporary difference and it is probable that the taxable temporary difference will not reverse in the foreseeable future or for deductible temporary differences, they will not reverse in the foreseeable future and they cannot be utilised against taxable profits

Property, plant and equipment

Property, plant and equipment are carried at cost on initial recognition and after initial recognition at cost less any accumulated depreciation and any accumulated impairment losses. Depreciation is provided on a straight-line method to allocate the gross carrying amounts of the assets less their residual values over their estimated useful lives of each part of an item of these assets. The annual rates of depreciation are as follows:

| Freehold land | - | Not depreciated |
|------------------------|---|---------------------------------------|
| Leasehold property | - | Over the terms of lease that is 1.28% |
| Buildings | - | 2% |
| Furniture and fittings | - | 10% to 20% |
| Plant and machinery | - | 10% to 20% |
| Motor vehicles | - | 20% |
| Renovations | - | 10% |
| | | |

An asset is depreciated when it is available for use until it is derecognised even if during that period the item is idle. Fully depreciated assets still in use are retained in the financial statements.

The gain or loss arising from the derecognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds, if any, and the carrying amount of the item and is recognised in profit or loss. The residual value and the useful life of an asset is reviewed at least at each end of the reporting year and, if expectations differ significantly from previous estimates, the changes are accounted for as a change in an accounting estimate, and the depreciation charge for the current and future periods are adjusted.

Cost also includes acquisition cost, borrowing cost capitalised and any cost directly attributable to bringing the asset or component to the location and condition necessary for it to be capable of operating in the manner intended by management. Subsequent costs are recognised as an asset only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss when they are incurred.

Intangible asset

An identifiable non-monetary asset without physical substance is recognised as an intangible asset at acquisition cost if it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the cost of the asset can be measured reliably. After initial recognition, an intangible asset with finite useful life is carried at cost less any accumulated amortisation and any accumulated impairment losses. An intangible asset with an indefinite useful life is not amortised. An intangible asset is regarded as having an indefinite useful life when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows for the entity.

The amortisable amount of an intangible asset with finite useful life is allocated on a systematic basis over the best estimate of its useful life from the point at which the asset is ready for use. The useful life is 5 years.

2. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION (CONT'D)

2A. Significant accounting policies (cont'd)

Leases

Leases are classified as finance leases if substantially all the risks and rewards of ownership are transferred to the lessee. All other leases are classified as operating leases. At the commencement of the lease term, a finance lease is recognised as an asset and as a liability in the statement of financial position at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments, each determined at the inception of the lease. The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease, if this is practicable to determine; if not, the lessee's incremental borrowing rate is used. Any initial direct costs of the lessee are added to the amount recognised as an asset. The excess of the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents are charged as expenses in the financial year in which they are incurred. The assets are depreciated as owned depreciable assets. Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased assets are classified as operating leases. For operating leases, lease payments are recognised as an expense in profit or loss on a straight-line basis over the term of the relevant lease unless another systematic basis is representative of the time pattern of the user's benefit, even if the payments are not on that basis. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense.

Inventories

Inventories are measured at the lower of cost (first in first out method) and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. A write down on cost is made where the cost is not recoverable or if the selling prices have declined. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of overheads based on normal operating capacity.

Impairment of non-financial assets

Irrespective of whether there is any indication of impairment, an annual impairment test is performed at about the same time every year on an intangible asset with an indefinite useful life or an intangible asset not yet available for use. The carrying amount of other non-financial assets is reviewed at each end of the reporting year for indications of impairment and where an asset is impaired, it is written down through profit or loss to its estimated recoverable amount. The impairment loss is the excess of the carrying amount over the recoverable amount and is recognised in profit or loss. The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs of disposal and its value in use. When the fair value less costs of disposal method is used, any available recent market transactions are taken into consideration. When the value in use method is adopted, in assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). At each end of the reporting year non-financial assets other than goodwill with impairment loss recognised in prior periods are assessed for possible reversal of the impairment. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been measured, net of depreciation or amortisation, if no impairment loss had been recognised.

Financial assets

Initial recognition, measurement and derecognition:

A financial asset is recognised on the statement of financial position when, and only when, the entity becomes a party to the contractual provisions of the instrument. The initial recognition of financial assets is at fair value normally represented by the transaction price. The transaction price for financial asset not classified at fair value through profit or loss includes the transaction costs that are directly attributable to the acquisition or issue of the financial asset. Transaction costs incurred on the acquisition or issue of financial assets classified at fair value through profit or loss are expensed immediately. The transactions are recorded at the trade date.

2. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION (CONT'D)

2A. Significant accounting policies (cont'd)

Financial assets (cont'd)

Irrespective of the legal form of the transactions performed, financial assets are derecognised when they pass the "substance over form" based on the derecognition test prescribed by FRS 39 relating to the transfer of risks and rewards of ownership and the transfer of control. Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is currently a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Subsequent measurement:

Subsequent measurement based on the classification of the financial assets in one of the following categories under FRS 39 is as follows:

- 1. Financial assets at fair value through profit or loss: As at end of the reporting year date there were no financial assets classified in this category.
- 2. Loans and receivables: Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Assets that are for sale immediately or in the near term are not classified in this category. These assets are carried at amortised costs using the effective interest method (except that short-duration receivables with no stated interest rate are normally measured at original invoice amount unless the effect of imputing interest would be significant) minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility. Impairment charges are provided only when there is objective evidence that an impairment loss has been incurred as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. The methodology ensures that an impairment loss is not recognised on the initial recognition of an asset. Losses expected as a result of numbers, no matter how likely, are not recognised. For impairment, the carrying amount of the asset is reduced through use of an allowance account. The amount of the loss is recognised in profit or loss. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised. Typically the trade and other receivables are classified in this category.
- 3. Held-to-maturity financial assets: As at end of the reporting year there were no financial assets classified in this category.
- Available-for-sale financial assets: These are non-derivative financial assets that are designated as available-for-sale on initial 4 recognition or are not classified in one of the previous categories. These assets are carried at fair value. Changes in fair value of available-for-sale financial assets (other than those relating to foreign exchange translation differences on monetary investments) are recognised in other comprehensive income and accumulated in a separate component of equity under the heading revaluation reserves. Such reserves are reclassified to profit or loss when realised through disposal. When there is objective evidence that the asset is impaired, the cumulative loss is reclassified from equity to profit or loss as a reclassification adjustment. A significant or prolonged decline in the fair value of the investment below its cost is considered to be objective evidence of impairment. If, in a subsequent period, the fair value of an equity instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss, it is reversed against revaluation reserves and is not subsequently reversed through profit or loss. However, for debt instruments classified as available-for-sale impairment losses recognised in profit or loss are subsequently reversed if an increase in the fair value of the instrument can be objectively related to an event occurring after the recognition of the impairment loss. For non-equity instruments classified as available-for-sale the reversal of impairment is recognised in profit or loss. The weighted average method is used when determining the cost basis of publicly listed equities being disposed of. Usually non-current investments in equity shares and debt securities are classified in this category but it does not include subsidiaries, joint ventures, or associates. Unquoted investments are stated at cost less allowance for impairment in value where there are no market prices, and management is unable to establish fair value by using valuation techniques except that where management can establish fair value by using valuation techniques. The relevant unquoted investments are stated at fair value. For unquoted equity instruments impairment losses are not reversed.

Cash and cash equivalents

Cash and cash equivalents include bank and cash balances, on demand deposits and any highly liquid debt instruments purchased with an original maturity of three months or less. For the statement of cash flows, the item includes cash and cash equivalents less cash subject to restriction and bank overdrafts payable on demand that form an integral part of cash management.

Financial liabilities

Initial recognition, measurement and derecognition:

A financial liability is recognised on the statement of financial position when, and only when, the entity becomes a party to the contractual provisions of the instrument and it is derecognised when the obligation specified in the contract is discharged or cancelled or expires. The initial recognition of financial liability is at fair value normally represented by the transaction price. The transaction price for financial liability not classified at fair value through profit or loss includes the transaction costs that are directly attributable to the acquisition or issue of the financial liability. Transaction costs incurred on the acquisition or issue of financial liability classified at fair value through profit or loss are expensed immediately. The transactions are recorded at the trade date.

Subsequent measurement:

Subsequent measurement based on the classification of the financial liabilities in one of the following two categories under FRS 39 is as follows:

- 1. Liabilities at fair value through profit or loss: Liabilities are classified in this category when they are incurred principally for the purpose of selling or repurchasing in the near term (trading liabilities) or are derivatives (except for a derivative that is a designated and effective hedging instrument) or have been classified in this category because the conditions are met to use the "fair value option" and it is used. All changes in fair value relating to liabilities at fair value through profit or loss are charged to profit or loss as incurred.
- 2. Liabilities at amortised cost: These liabilities are carried at amortised cost using the effective interest method.

Fair value measurement

When measuring fair value, management uses the assumptions that market participants would use when pricing the asset or liability under current market conditions, including assumptions about risk. It is a market-based measurement, not an entity-specific measurement. The entity's intention to hold an asset or to settle or otherwise fulfil a liability is not taken into account as relevant when measuring fair value. In making the fair value measurement, management determines the following: (a) the particular asset or liability being measured (these are identified and disclosed in the relevant notes below); (b) for a non-financial asset, the highest and best use of the asset and whether the asset is used in combination with other assets or on a stand-alone basis; (c) the market in which an orderly transaction would take place for the asset or liability; and (d) the appropriate valuation techniques to use when measuring fair value. The valuation techniques used maximise the use of relevant observable inputs and minimise unobservable inputs. These inputs are consistent with the inputs a market participant may use when pricing the asset or liability.

Fair value measurement (cont'd)

The fair value measurements categorise the inputs used to measure fair value by using a fair value hierarchy of three levels. These are recurring fair value measurements unless stated otherwise in the relevant notes to the financial statements. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. The level is measured on the basis of the lowest level input that is significant to the fair value measurement in its entirety. Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting year. If a financial instrument measured at fair value has a bid price and an ask price, the price within the bid-ask spread or mid-market pricing that is most representative of fair value in the circumstances is used to measure fair value regardless of where the input is categorised within the fair value hierarchy. If there is no market, or the markets available are not active, the fair value is established by using an acceptable valuation technique.

The carrying values of current financial instruments approximate their fair values due to the short-term maturity of these instruments and the disclosures of fair value are not made when the carrying amount of current financial instruments is a reasonable approximation of the fair value. The fair values of non-current financial instruments may not be disclosed separately unless there are significant differences at the end of the reporting year and in the event the fair values are disclosed in the relevant notes to the financial statements.

2B. Other explanatory information

Provisions

A liability or provision is recognised when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. A provision is made using best estimates of the amount required in settlement and where the effect of the time value of money is material, the amount recognised is the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense. Changes in estimates are reflected in profit or loss in the reporting year they occur.

2C. Critical judgements, assumptions and estimation uncertainties

The critical judgements made in the process of applying the accounting policies that have the most significant effect on the amounts recognised in the financial statements and the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting year, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting year are discussed below. These estimates and assumptions are periodically monitored to ensure they incorporate all relevant information available at the date when financial statements are prepared. However, this does not prevent actual figures differing from estimates.

Net realisable value of inventories:

A review is made periodically on inventory for excess inventory and declines in net realisable value below cost and an allowance is recorded against the inventory balance for any such declines. These reviews require management to consider the future demand for the products. In any case the realisable value represents the best estimate of the recoverable amount and is based on the acceptable evidence available at the end of the reporting year and inherently involves estimates regarding the future expected realisable value. The usual considerations for determining the amount of allowance or write-down include ageing analysis, technical assessment and subsequent events. In general, such an evaluation process requires significant judgement and materially affects the carrying amount of inventories at the end of the reporting year. Possible changes in these estimates could result in revisions to the stated value of the inventories. The carrying amount of inventories at the end of the reporting year is disclosed in the Note 15 on inventories.

2. SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION (CONT'D)

2C. Critical judgements, assumptions and estimation uncertainties (cont'd)

Allowance for doubtful trade accounts:

An allowance is made for doubtful trade accounts for estimated losses resulting from the subsequent inability of the customers to make required payments. If the financial conditions of the customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required in future periods. To the extent that it is feasible impairment and uncollectibility is determined individually for each item. In cases where that process is not feasible, a collective evaluation of impairment is performed. At the end of the reporting year, the trade receivables carrying amount approximates the fair value and the carrying amounts might change materially within the next reporting year but these changes may not arise from assumptions or other sources of estimation uncertainty at the end of the reporting year. The carrying amount is disclosed in the Note 16 on trade and other receivables.

Useful lives of property, plant and equipment:

The estimates for the useful lives and related depreciation charges for property, plant and equipment is based on commercial and other factors which could change significantly as a result of innovations and in response to market conditions. The depreciation charge is increased where useful lives are less than previously estimated lives, or the carrying amounts written off or written down for technically obsolete items or assets that have been abandoned. It is impracticable to disclose the extent of the possible effects. It is reasonably possible, based on existing knowledge, that outcomes within the next reporting year that are different from assumptions could require a material adjustment to the carrying amount of the balances affected. The carrying amount of the specific asset (or class of assets) of the group at the end of the reporting year affected by the assumption is disclosed in Note 11.

Income tax amounts:

The group recognises tax liabilities and assets tax based on an estimation of the likely taxes due, which requires significant judgement as to the ultimate tax determination of certain items. Where the actual amount arising from these issues differs from these estimates, such differences will have an impact on income tax and deferred tax amounts in the period when such determination is made. In addition, management judgement is required in determining the amount of current and deferred tax recognised and the extent to which amounts should or can be recognised. A deferred tax asset is recognised if it is probable that the entity will earn sufficient taxable profit in future periods to benefit from a reduction in tax payments. This involves the management making assumptions within its overall tax planning activities and periodically reassessing them in order to reflect changed circumstances as well as tax regulations. Moreover, the measurement of a deferred tax asset or liability reflects the manner in which the entity expects to recover the asset's carrying value or settle the liability. As a result, due to their inherent nature, assessments of likelihood are judgmental and not susceptible to precise determination. The income tax amounts are disclosed in the Note 8 on income tax.

3. RELATED PARTY RELATIONSHIPS AND TRANSACTIONS

FRS 24 on related party disclosures requires the reporting entity to disclose: (a) transactions with its related parties; and (b) relationships between parents and subsidiaries irrespective of whether there have been transactions between those related parties. A party is related to a party if the party controls, or is controlled by, or can significantly influence or is significantly influenced by the other party.

3A. Related party transactions:

There are transactions and arrangements between the reporting entity and related parties and the effects of these on the basis determined between the parties are reflected in these financial statements. The related party balances and any financial guarantees are unsecured, without fixed repayment terms and interest or charge unless stated otherwise.

Intragroup transactions and balances that have been eliminated in these consolidated financial statements are not disclosed as related party transactions and balances below.

| Over adjustments in respect of prior periods | (22) | (387) | |
| Total income tax expense (credit) | 120 | (484) | |

Substantially the group's operations are located in Malaysia for the financial years under review. Accordingly, the Malaysian statutory tax rate of 24% (2017: 24%) is used in the reconciliation below:

| | Gro | oup |
|--|---------|----------------------------|
| | 2018 | 2018 2017 RM'000 RM'000 |

| Expenses not deductible for tax purposes | 464 | 528 |
| Tax exemptions and rebate | (72) | (190) |
| Reinvestment allowance incentives | - | (140) |
| Deferred tax assets not recognised | 304 | 355 |
| Under adjustment to tax in respect of prior periods | (22) | (387) |
| Others | 27 | 19 |
| Total income tax expense (credit) | 120 | (484) |

There are no income tax consequences of dividends to owners of the company.

The major not deductible items include the following:

| Unrealised losses on foreign exchange | 309 | 52 |
| Provisions | (184) | (189) |
| Tax losses carryforwards | (488) | (43) |
| Deferred tax assets not recognised | 304 | 355 |

8C. Deferred tax balance in the statements of financial position:

| | Group | |
|---|----------------|----------------|
| | 2018 RM′000 | 2017 RM′000 |
| | | |
| Deferred tax liabilities (assets) recognised in profit or loss: | | |
| Excess of net book value on property, plant and equipment over tax values | 1,421 | 1,362 |
| Unrealised losses (gains) on foreign exchange | 80 | (229) |
| Provisions | (576) | (392) |
| Tax losses carryforwards | (531) | (43) |
| Deferred tax assets not recognised | 659 | 355 |
| Net | 1,053 | 1,053 |

It is impractical to estimate the amount expected to be settled or used within one year.

The above deferred tax assets for the tax losses that have not been recognised as the future profit streams are not probable against which the deductible temporary difference can be utilised. The realisation of the future income tax benefits from tax loss carryforwards and temporary differences from capital allowances is available for an unlimited future period subject to the conditions imposed by law including the retention of majority shareholders as defined.

Temporary differences arising in connection with interests in subsidiaries are insignificant.

9. LOSS PER SHARE

The following table illustrates the numerators and denominators used to calculate basic and diluted loss per share of no par value:

| | Group | |
|--|---------|---------|
| | 2018 | 2017 |
| | RM'000 | RM'000 |
| Numerators: loss attributable to equity: | | |
| Continuing operations: attributable to equity holders | (2,518) | (1,903) |
| | | |
| | No. of | No. of |
| | shares: | shares: |
| | '000 | '000 |
| Denominators: weighted average number of equity shares | | |
| Basic and diluted | 135,000 | 135,000 |

The weighted average number of equity shares refers to shares in circulation during the reporting year.

The basic loss per share ratio is based on the weighted average number of ordinary shares outstanding during the reporting year. There is no dilution of loss per share as there are no dilutive potential ordinary shares outstanding as at the end of the reporting year.

10. DIVIDENDS ON EQUITY SHARES

Development cost relates to the designer fees incurred in relation to the creation of a new luxury system furniture range by an Italian Architectural Firm.

The amortisation expense is charged under other losses (Note 5).

The decreasing performance of the luxury system furniture by an Italian Architectural Firm with the brand of _AD MAIORA was considered sufficient to trigger the impairment test. Accordingly, it has been fully impaired during the reporting year ended 28 February 2018.

For the reporting year ended 28 February 2017, the agreement for the receivable provides that it is unsecured, without fixed repayment term and interest free. The receivable is not expected to be repaid in the foreseeable future. The fair value is not determinable as the timing of the future cash flows arising from the receivable cannot be estimated reliably. Effective from reporting year ended 28 February 2018, the receivables have been reclassified as quasi-equity loan from the company to its subsidiary. The directors consider these receivables as quasi-equity in nature as these receivables are not expected to be paid until such time the subsidiary has the financial resources in excess of its working capital requirements, and is in a position to return the capital. As such, these receivables have not been fair valued.

13. INVESTMENT IN SUBSIDIARIES (CONT'D)

13B. Acquisition of a subsidiary

On 1 March 2017, the group acquired 51% of the share capital of Alca Vstyle Sdn. Bhd. ("Alca") (incorporated in Malaysia) and from that date the group gained control and Alca became a subsidiary of the group. The transaction was accounted for by the acquisition method of accounting.

The consideration transferred is as follows:

| Consideration transferred | RM′000 |
|---------------------------------|--------|
| Cash paid | 714 |
| Total consideration transferred | 714 |

Management has since finalised the purchase price allocation exercise and identified the fair value of the identified assets and liabilities as follows:

| | RM′000 |
|---|---------|
| The fair value of net assets acquired are as follows: | |
| Property, plant and equipment | 1,547 |
| Trade and other receivables | 2,814 |
| Other assets | 94 |
| Inventories | 2,267 |
| Cash and cash equivalents | 60 |
| Income tax receivables | 5 |
| Trade and other payables | (2,994) |
| Other financial liabilities | (2,393) |
| Fair value of identifiable assets acquired | 1,400 |

The difference between the consideration transferred and the identifiable net assets acquired arising from the acquisition of Alca is as follows:

| Consideration paid | 714 |
|--|---------|
| Fair value of non-controlling interest at 1 March 2017 | 686 |
| Less: Fair value of identifiable assets acquired | (1,400) |
| | - |

| Satisfied by: Consideration paid Less: Cash and cash equivalents of subsidiary acquired | 714 (60) |
|---|-------------|
| Net cash outflow on acquisition | 654 |

The non-controlling interests in the acquiree as at the date of acquisition were measured based on the non-controlling interest's proportionate share of the acquirees' net identifiable assets.

The contributions from the acquired subsidiary for the period between the date of acquisition and the end of the reporting year were as follows:

| | From date of | For the |

| Ordinary shares of no par value: | | |
| Balance at 1 March 2016, 28 February 2017 and 28 February 2018 | 135,000 | 62,513 |

The ordinary shares of no par value are fully paid, carry one vote each and have no right to fixed income. The company is not subject to any externally imposed capital requirements.

Capital management:

In order to maintain its listing on the Singapore Stock Exchange, it has to have share capital with a free float of at least 10% of the shares. The company met the capital requirement on its initial listing and the rules limiting treasury share purchases mean it will continue to satisfy that requirement, as it did throughout the reporting year. Management receives a report from the share registrars frequently on substantial share interests showing the non-free float to ensure continuing compliance with the 10% limit throughout the reporting year.

The objectives when managing capital are: to safeguard the reporting entity's ability to continue as a going concern, so that it can continue to provide returns for owners and benefits for other stakeholders, and to provide an adequate return to owners by pricing the sales commensurately with the level of risk. The management sets the amount of capital to meet its requirements and the risk taken. There were no changes in the approach to capital management during the reporting year. The management manages the capital structure and makes adjustments to it where necessary or possible in the light of changes in conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the management may adjust the amount of dividends paid to owners, return capital to owners, issue new shares, or sell assets to reduce debt. Adjusted capital comprises all components of equity (that is, share capital and reserves).

The group's total borrowing is less than the cash and cash equivalents. The debt-to-capital ratio therefore does not provide a meaningful indicator of the risk from borrowings.

22. OTHER FINANCIAL LIABILITIES (CONT'D)

22A. Bank loans and bankers' acceptance (secured)

The bank agreements for certain of the bank loans and bankers' acceptance provide among other matters for the following:

- (a) First party charge against the freehold land and buildings of the group as disclosed in Note 11;
- (b) Leasehold land and building as disclosed in Note 11;
- (c) Joint and several guarantees by the non-controlling shareholders of a subsidiary;
- (d) Corporate guarantee for RM1,900,000 executed by Versalink Marketing Sdn. Bhd. to Jemaramas Jaya Sdn. Bhd.; and
- (e) Pledged of fixed deposits (Note 19).

The repayment terms of the secured bank loans are as follows:

- (1) Bank Ioan A is a RM3,000,000 Ioan facility repayable by 96 equal monthly instalments of RM35,830, commencing from July 2009 to June 2017, the Ioan has been fully repaid during the reporting year ended 28 February 2018; and
- (2) Bank Ioan B is a RM1,147,500 term Ioan repayable by 300 equal monthly instalments of RM6,500, commencing from January 2015 to May 2040.

22B. Bank loans, bank overdrafts and bankers' acceptance (unsecured)

The bank agreements for certain of the bank loans, overdrafts and bankers' acceptance are covered by joint and several guarantees by the non-controlling shareholders of a subsidiary.

The repayment terms of the unsecured bank loans are as follows:

- (1) Bank loan C is a RM200,000 term loan repayable by 60 equal monthly instalments of RM4,500, commencing from December 2014 to October 2019; and
- (2) Bank Ioan D is a RM500,000 term Ioan repayable by 84 equal monthly instalments of RM8,000, commencing from February 2014 to February 2021.

The fair values of the bank loans, bank overdrafts and bankers' acceptance were estimated by discounting the future cash flows payable under the terms of the loan using the year-end market interest rate applicable to loans of similar credit risk, terms and conditions (Level 2). The carrying amount is a reasonable approximation of fair value (Level 2).

Operating lease payments are for rentals payable for certain showrooms. The lease rental terms are negotiated for an average term of 2 years (2017: 2 years).

28 FEBRUARY 2018

25. FINANCIAL INFORMATION BY OPERATING SEGMENTS

25A. Information about reportable segment profit or loss, assets and liabilities

Disclosure of information about operating segments, products and services, the geographical areas, and the major customers are made as required by FRS 108 Operating Segments. This disclosure standard has no impact on the reported financial performance or financial position of the group.

For management monitoring and reporting purposes, the group is organised into two major operating segments: domestic sales of office furniture and export sales of office furniture. Such a structural organisation is determined by the nature of risks and returns associated with each business segment and define the management structure as well as the internal reporting system. It represents the basis on which the management reports the primary segment information. They are managed separately because each business requires different strategies.

The segments are as follows:

The domestic sales segment is for sales of office furniture derived from local market in Malaysia. The export sales segment is for sales of office furniture to countries overseas. Inter-segment sales are measured on the basis that the entity actually used to price the transfers.

Internal transfer pricing policies of the group are as far as practicable based on market prices. The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies.

The management reporting system evaluates performances based on a number of factors. However, the primary profitability measurement to evaluate segment's operating results is the gross profit.

26. FINANCIAL INSTRUMENTS: INFORMATION ON FINANCIAL RISKS (CONT'D)

26B. Financial risk management

The main purpose for holding or issuing financial instruments is to raise and manage the finances for the entity's operating, investing and financing activities. There are exposures to the financial risks on the financial instruments such as credit risk, liquidity risk and market risk comprising interest rate, currency risk and price risk exposures. Management has certain practices for the management of financial risks and actions to be taken in order to manage the financial risks. All financial risk management activities are carried out and monitored by senior management staff. All financial risk management activities are carried out following acceptable market practices.

There have been no changes to the exposures to risk; the objectives, policies and processes for managing the risk and the methods used to measure the risk.

26C. Fair values of financial instruments

The analyses of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 are disclosed in the relevant notes to the financial statements. These include the significant financial instruments stated at amortised cost and at fair value in the statement of financial position. The carrying values of current financial instruments approximate their fair values due to the short-term maturity of these instruments and the disclosures of fair value are not made when the carrying amount of current financial instruments is a reasonable approximation of the fair value.

26D. Credit risk on financial assets

Financial assets that are potentially subject to concentrations of credit risk and failures by counterparties to discharge their obligations in full or in a timely manner consist principally of cash balances with banks, cash equivalents and receivables. The maximum exposure to credit risk is: the total of the fair value of the financial assets; the maximum amount the entity could have to pay if the guarantee is called on; and the full amount of any payable commitments at the end of the reporting year. Credit risk on cash balances with banks is limited because the counter-parties are entities with acceptable credit ratings. For credit risk on receivables, an ongoing credit evaluation is performed on the financial condition of the debtors and a loss from impairment is recognised in profit or loss. The exposure to credit risk with customers is controlled by setting limits on the exposure to individual customers and these are disseminated to the relevant persons concerned and compliance is monitored by management. There is no significant concentration of credit risk on receivables, as the exposure is spread over a large number of counter-parties and customers unless otherwise disclosed in the notes to the financial statements below.

Note 19 discloses the maturity of the cash and cash equivalents balances.

As part of the process of setting customer credit limits, different credit terms are used. The average credit period generally granted to trade receivable customers is about 30 to 60 days (2017: 30 to 60 days). But some customers take a longer period to settle the amounts.

The following table analyses the non-derivative financial liabilities by remaining contractual maturity (contractual and undiscounted cash flows):

| Non-derivative financial liabilities: | | | | |
| Trade and other payables | 335 | _ | - | 335 |
| At end of the year | 335 | _ | _ | 335 |

The undiscounted amounts on the borrowings with fixed and floating interest rates are determined by reference to the conditions existing at the reporting date.

The above amounts disclosed in the maturity analysis are the contractual undiscounted cash flows and such undiscounted cash flows differ from the amount included in the statement of financial position. When the counterparty has a choice of when an amount is paid, the liability is included on the basis of the earliest date on which it can be required to pay. At the end of the reporting year, no claims on the financial guarantees are expected.

The liquidity risk refers to the difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. It is expected that all the liabilities will be paid at their contractual maturity. The average credit period taken to settle trade payables is about 30 days (2017: 30 days). The other payables are with short-term durations. The classification of the financial assets is shown in the statement of financial position as they may be available to meet liquidity needs and no further analysis is deemed necessary. In order to meet such cash commitments, the operating activity is expected to generate sufficient cash inflows. In addition, the financial assets are held for which there is a liquid market and that are readily available to meet liquidity needs.

26F. Interest rate risk (cont'd)

The analysis has been performed for fixed interest rate and floating interest rate over a year for financial instruments. The impact of a change in interest rates on fixed interest rate financial instruments has been assessed in terms of changing of their fair value. The impact of a change in interest rates on floating interest rate financial instruments has been assessed in terms of changing of their cash flows and therefore in terms of the impact on profit or loss. The hypothetical changes in basis points are not based on observable market data (unobservable inputs).

The above table shows sensitivity to a hypothetical 10% variation in the functional currency against the relevant foreign currencies. The sensitivity rate used is the reasonably possible change in foreign exchange rates. For similar rate weakening of the functional currency against the relevant foreign currencies, there would be comparable impacts in the opposite direction on the profit or loss and reserves.

The hypothetical changes in exchange rates are not based on observable market data (unobservable inputs). The sensitivity analysis is disclosed for each currency to which the entity has significant exposure at the end of the reporting year.

27. CHANGES AND ADOPTION OF FINANCIAL REPORTING STANDARDS

For the current reporting year new or revised Financial Reporting Standards in Singapore and the related Interpretations to FRS ("INT FRS") were issued by the Singapore Accounting Standards Council. Those applicable to the reporting entity are listed below. These applicable new or revised standards did not require any material modification of the measurement methods or the presentation in the financial statements.

| FRS No. | Title |
|---------|--|
| FRS 7 | Amendments to FRS 7: Disclosure Initiative |
| FRS 12 | Amendments to FRS 12: Recognition Of Deferred Tax Assets For Unrealised Losses |
| FRS 112 | Amendments to FRS 112: Disclosure of Interests in Other Entities |

28. NEW OR AMENDED STANDARDS IN ISSUE BUT NOT YET EFFECTIVE

Singapore-incorporated companies listed on the Singapore Exchange are required to comply with new financial reporting standards (issued by the Singapore Accounting Standards Council) that are identical to the International Financial Reporting Standards for reporting year beginning on after 1 January 2018. The new framework is referred to as SFRS(I)s. SFRS(I) First-time Adoption of Singapore Financial Reporting Standards (International) will be adopted in the financial statements when it becomes mandatory. Based on the current accounting treatment of the account balances, management does not anticipate that the application of SFRS(I) will have a material impact on the financial position and financial performance of the entity.

For the future reporting years new or revised Singapore Financial Reporting Standards (International) and the related Interpretations to SFRS(I)s ("SFRS(I) INT") were issued by the Singapore Accounting Standards Council and these will only be effective for future reporting years. Those applicable to the reporting entity for future reporting years are listed below.

| | | Effective date for |
|----------------|--|-------------------------------|
| FRS No. | Title | periods beginning on or after |
| | | |
| SFRS(I) 1 | First time adoption of Singapore Financial Reporting Standards (International) | 1 January 2018 |
| SFRS(I) 9 | Financial Instruments | 1 January 2018 |

| | Guidance on Other Standards | |
| SFRS(I) INT 22 | Foreign Currency Transactions and Advance Consideration | 1 January 2018 |
| SFRS(I) INT 23 | Uncertainty over Income Tax Treatments | 1 January 2019 |
| | | |

The transfer to the applicable new or revised standards from the effective dates is not expected to result in material adjustments to the financial position, results of operations, or cash flows for the following year.

NOTICE IS HEREBY GIVEN that the Annual General Meeting of Versalink Holdings Limited will be held at 8 Wilkie Road #03-01 Wilkie Edge Singapore 228095 on Friday, 29 June 2018 at 11.00 a.m. to transact the following business:-

AS ORDINARY BUSINESS

- 1. To receive and adopt the Directors' Statement and Audited Financial Statements for the financial year ended 28 February 2018 **Resolution 1** together with the Auditors' Report thereon.
- 2. To approve the Directors' fees of S\$135,000.00 for the financial year ended 28 February 2018. Resolution 2
- 3. To re-elect Law Kian Guan, who is retiring in accordance with Article 114 of the Company's Constitution, as a Director of **Resolution 3** the Company.
- 4. To re-elect Chow Wen Kwan, who is retiring in accordance with Article 114 of the Company's Constitution, as a Director of the **Resolution 4** Company.

Chow Wen Kwan shall, upon re-election as a Director of the Company, remain as Chairman of the Nominating Committee and as a member of the Audit Committee and Remuneration Committee. Chow Wen Kwan shall be considered independent for the purpose of Rule 704(7) of Section B of the Singapore Exchange Securities Trading Limited Listing Manual: Rules of Catalist ("Catalist Rules").

5. To re-appoint RSM Chio Lim LLP as auditors of the Company and to authorise the Directors to fix their remuneration. Resolution 5

AS SPECIAL BUSINESS

To consider and, if thought fit, to pass the following as ordinary resolutions, with or without amendments:

6. Authority to allot and issue shares

"That pursuant to Section 161 of the Companies Act, Cap. 50. ("Companies Act") and the Catalist Rules, authority be and is hereby given to the Directors of the Company to allot and issue Shares and convertible securities in the capital of the Company (whether by way of rights, bonus or otherwise) at any time and upon such terms and conditions and for such purposes and to such persons as the Directors may in their absolute discretion deem fit provided that:-

(i) the aggregate number of Shares and convertible securities to be issued pursuant to this Resolution does not exceed hundred per cent (100%) of the total number of issued Shares (excluding treasury Shares and subsidiary holdings) of the Company (as calculated in accordance with sub-paragraph (ii) below), of which the aggregate number of Shares and convertible securities to be issued other than on a pro rata basis to existing shareholders of the Company does not exceed fifty per cent (50%) of the total number of issued shares (excluding treasury Shares and subsidiary holdings) of the Company (as calculated in accordance with sub-paragraph (ii) below);

Resolution 6

- (ii) (subject to such manner of calculations as may be prescribed by the SGX-ST), for the purpose of determining the aggregate number of Shares that may be issued under sub-paragraph (i) above, the percentage of the total number of issued Shares shall be based on the total number of issued Shares (excluding treasury Shares and subsidiary holdings) of the Company at the time this Resolution is passed after adjusting for:-
 - (a) new Shares arising from the conversion or exercise of any convertible securities;
 - (b) new Shares arising from exercising Share Options (the "Options") or vesting of Share Awards outstanding or subsisting at the time of the passing of the resolution approving the mandate, provided the Options or Awards were granted in compliance with Part VIII of Chapter 8 of the Catalist Rules; and
 - (c) any subsequent bonus issue, consolidation or sub-division of Shares
- (iii) unless revoked or varied by the Company in general meeting, the authority conferred by this Resolution shall continue in force until the conclusion of the next Annual General Meeting or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is the earlier."

[See Explanatory Note (i)]

7. Authority to grant Awards and to allot and issue Shares under the Versalink Performance Share Plan Resolution 7

"That pursuant to Section 161 of the Companies Act and the Catalist Rules, approval be and is hereby given to the Directors of the Company to:

- a) grant Awards in accordance with the provisions of the Versalink Performance Share Plan ("the Plan"); and
- b) allot and issue from time to time such number of fully paid-up shares as may be required to be allotted and issued pursuant to the release of Awards under the Plan provided that the aggregate number of Shares to be allotted and issued pursuant to the Plan shall not exceed fifteen per cent (15%) of the total number of issued Shares (excluding treasury Shares and subsidiary holdings) from time to time."

[See Explanatory Note (ii)]

8. Authority to grant Options in accordance with Versalink Employee Share Option Scheme

Resolution 8

"That pursuant to Section 161 of the Companies Act and the Catalist Rules, approval be and is hereby given to the Directors of the Company to:

- a) offer and grant Options in accordance with the provisions of the Versalink Employee Share Option Scheme ("the Scheme"); and
- b) to allot and issue from time to time such number of fully paid-up Shares as may be required to be allotted and issued pursuant to the exercise of the Options under the Scheme provided that the aggregate number of Shares to be allotted and issued pursuant to the Scheme shall not exceed fifteen per cent (15%) of the total number of issued Shares (excluding treasury Shares and subsidiary holdings) from time to time."

[See Explanatory Note (iii)]

9. To transact any other business which may be properly transacted at an Annual General Meeting.

Explanatory Notes:

- (i) Resolution 6, if passed, will empower the Directors from the date of this Annual General Meeting until the date of the next Annual General Meeting, to allot and issue Shares and convertible securities in the Company. The number of Shares and convertible securities, which the Directors may allot and issue under this Resolution shall not exceed hundred per cent (100%) of the total number of issued Shares (excluding treasury Shares and subsidiary holdings) at the time of passing this Resolution. For allotment and issue of Shares and convertible securities other than on a pro-rata basis to all shareholders of the Company, the aggregate number of Shares and convertible securities to be allotted and issued shall not exceed fifty per cent (50%) of the total number of issued Shares (excluding treasury Shares and subsidiary holdings). This authority will, unless revoked or varied at a general meeting, expire at the next Annual General Meeting, or by the date by which the next Annual General Meeting is required by law to be held, whichever is earlier.
- (ii) Resolution 7, if passed, will empower the Directors to grant Awards and to issue and allot Shares pursuant to the Plan. The grant of Awards under the Plan will be made in accordance with the provisions of the Plan. The aggregate number of Shares which may be issued pursuant to the Plan shall not exceed fifteen per cent (15%) of the total number of issued Shares (excluding treasury Shares and subsidiary holdings) from time to time.
- (iii) Resolution 8, if passed, will empower the Directors to offer and grant Options under the Scheme and to allot and issue new ordinary Shares in the capital of the Company upon the exercise of such Options in accordance with the Scheme as may be modified by the Committee from time to time, provided that the aggregate number of Shares to be allotted and issued pursuant to the Scheme shall not exceed fifteen per cent (15%) of the total number of issued Shares (excluding treasury Shares and subsidiary holdings) of the Company from time to time.

NOTES :

- Please insert the total number of shares held by you. If you have shares entered against your name in the Depository Register (as defined in Section 81SF of the Securities and Futures Act, Cap. 289), you should insert that number of shares. If you have shares registered in your name in the Register of Members, you should insert that number of shares. If you have shares entered against your name in the Depository Register and shares registered in your name in the Register of Members, you should insert the aggregate number of shares. If no number is inserted, this form of proxy will be deemed to relate to all the shares held by you.
- 2. A member who is not a relevant intermediary is entitled to appoint not more than two proxies to attend, speak and vote on his behalf at the general meeting. Where a member appoints more than one proxy, he shall specify the proportion of his shares to be represented by each such proxy, failing which, the nomination shall be deemed to be alternative.
- Pursuant to Section 181 of the Companies Act, Cap. 50 of Singapore, any member who is a relevant intermediary is entitled to appoint one or more proxies to attend and vote at the general meeting. Relevant intermediary is either:
 - a banking corporation licensed under the Banking Act (Cap. 19) or its wholly-owned subsidiary which provides nominee services and holds shares in that capacity;
 - a capital market services license holder which provides custodial services for securities under the Securities and Futures Act (Cap. 289) and holds in that capacity; or
 - (iii) the Central Provident Fund (*CPF*) Board established by the Central Provident Fund Act (Cap. 36), in respect of shares purchased on behalf of CPF investors.
- 4. The instrument appointing a proxy or proxies must be deposited at the registered office of the Company at 8 Wilkie Road #03-01 Wilkie Edge Singapore 228095 not later than 48 hours before the time set for the Annual General Meeting.
- The instrument appointing a proxy or proxies must be under the hand of the appointor or his attorney duly authorized in writing. Where the instrument appointing a proxy or proxies is executed by a corporation, it must be executed under its common seal or signed on its behalf by an attorney duly authorised in writing or by an authorised officer of the corporation.
- 6. Where an instrument appointing a proxy or proxies is signed on behalf of the appointer by an attorney, the letter or power of attorney (or other authority) or a duly certified copy thereof must (failing previous registration with the Company) be lodged with the instrument of proxy, failing which the instrument may be treated as invalid.
- A corporation which is a member may by resolution of its directors or other governing body authorise such person as it thinks fit to act as its representative at the Annual General Meeting.
- 8. The Company shall be entitled to reject the instrument appointing a proxy or proxies if it is incomplete, improperly completed or illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appoint proxies. In addition, in the case of members of the Company whose shares are entered against their names in the Depository Register, the Company reject any instrument appointing a proxy or proxies lodged if such members are not shown to have shares are thered against their mames in the Depository Register as at 72 hours before the time appointed for holding the Annual General Meeting as certified by The Central Depository (Pte) Limited to the Company.
