Management Discussion and Analysis for 1Q2018

This report discusses the principal changes in the unreviewed consolidated financial statement for the quarter ended March 31, 2018. Since June 2017, the Bank has combined National ITMX Co., Ltd to the Bank's associate company in accordance with Thai Accounting Standard 28 (TAS 28): Investments in Associates and Joint Ventures. The Bank considered its shareholding together with its power to participate in the company's operating policy through its representatives in the position of the company's board of directors as significant influence to the company. The Bank also restated the consolidated financial statements for Statements of Comprehensive Income for the three-month period ended March 31, 2017. However, the above change had insignificant impact to financial position and performance of the Bank.

I. The Bank and its Subsidiaries' Overview for the First Quarter of 2018

The Thai economy in early of 2018 continued to expand, largely as a result of merchandise export growth in major export destinations. Manufacturing production expanded and private investment posed a gradually increasing trend. Meanwhile, tourism sectors also expanded. Public spending increased as a result of accelerated disbursements from major offices. The expansion of overall private consumption was not yet robust, particularly among low-income earners who were affected by the downward trend of agricultural products and uneven economic recovery.

In 1Q2018, KTB's consolidated pre-provision profit was Baht 15,995 million, decreased by Baht 2,414 million (13.11%) from 1Q2017. Net profit was Baht 7,398 million, showing a decline of Baht 1,510 million (16.95%) and the Net Profit Attributable to Equity Holders of the Bank was Baht 6,787 million, decreased by Baht 1,751 million (20.51%) compare to 1Q2017. In summary, the key changes of the Bank and its subsidiaries' financial result compared to the same period of last year are as shown below:

1) Net interest income declined by Baht 1,587 million (7.17%) mainly due to the impact of the lending rate cut on Minimum Retail Rate (MRR) at 0.50% in mid of May 2017 as well as the slight loan growth compared to the end of the year 2017. Consequently, Net Interest Margin (NIM) decreased by 0.40% to 3.07%, compared to 3.47% on 1Q2017. However, the bank has continued to manage its funding cost.

2) Net fee and service income increased by Baht 443 million (7.75%) from the expansion of the fee from Bancassurance services.

3) Other operating expenses expanded by Baht 924 million (7.33%) as a result of other expenses such as the allowance for impairment for property for sale. Conversely, the Bank continues to comply with its cost management policy. In 1Q2018, the Cost-to-income escalated from 40.64% to 45.82% compared to the same period of last year as a result of the decrease in the net interest income and increase in some expenses.

4) The Bank and its subsidiaries continue to maintain a prudent coverage ratio. As at the end of March 2018, coverage ratio was 120.25%. Provision expense was similar to that of the same period of last year. The NPL Ratio – Gross slightly increased from 4.19% as at December 2017 to 4.33%.

The Bank's consolidated total loans to customers (less deferred revenue) remained rather stable at Baht 1,928,205 million, showing a decline of Baht 9,877 million (0.51%) compared to the end of 2017 due to the reduction in loan to private corporate sector despite the expansion in loan to government and state enterprise sector as well as some loans to retail sector.

The Bank has been pursuing the Digital Banking Strategy by continuously supporting the National E-Payment including supporting the government's welfare program by providing Government to Consumer platform (G2C) for the government to transfer financial aid to people through PromptPay service, for example, the child support grant program – a program that provides financial aid as basic welfare for newborn babies and Welfare Card project. Furthermore, the Bank also provided mobile applications called “Paotung” and “Paotang” for the merchants and public to facilitate their online receipt and payment as well as QR Code payments. In 2018, the Bank launched Smart University Mobile Application for the universities to pave the way for cashless society in the near future and also presented KTB Cash Card to allow people with neither bank account nor welfare card to make a payment digitally at government agencies from March 27, 2018 onwards. On March 29, 2018, the Bank announced fee waiver for money transfer, bill payment and top up made on internet banking platform (KTB netbank) to enable people in all areas access to digital financial services. This business strategy has been adapted to meet the future market trend where there will be more intense competition and challenges.

II. The Bank and its Subsidiaries' Performance for the Quarter Ended March 31, 2018

A) Operating Profit before Tax and Net Profit

In 1Q2018, KTB's consolidated pre-provision profit was Baht 15,995 million, decreased by Baht 2,414 million (13.11%) compared to 1Q2017. After deducting Baht 6,908 million impairment loss on loans and debt securities (further information was shown in part F) impairment loss on loans and debt securities) and Baht 1,689 million income tax expense, net profit amounted to Baht 7,398 million, showing the decrease of Baht 1,510 million (16.95%) compared to 1Q2017. Net profit, attributable to equity holders of the Bank, was Baht 6,787 million, showing the decline of Baht 1,751 million (20.51%) compared to 1Q2017.
