

FOR IMMEDIATE RELEASE

Wong Sui Jau Will Continue To Be Associated with iFAST Corporation Ltd. As Retirement Planning Ambassador

SINGAPORE (29 April 2015) – Mr Wong Sui Jau, Regional Research Director with iFAST Corporation Ltd. (“iFAST Corp” and together with its subsidiaries, the “Group”), has decided to enter into a new phase in his life from 20 May 2015: semi-retirement. While Mr Wong will no longer assume the position of Regional Research Director and Executive Officer of the Group, he will continue to be associated with the Company as a Retirement Planning Ambassador from 20 May 2015.

After spending close to 15 years with the Group and at the age of 40 years old, Mr Wong has decided to spend more time with his family, while keeping up his passion in writing investment stories. As a Retirement Planning Ambassador, he will continue to work with the Group to speak and write on investment planning with a specific focus on retirement planning. He will continue to write in his existing investment blog at FundsUPERmart.com.

“I have always been passionate about investing. When I started working in 1998 after graduating from Nanyang Technological University, I set up my retirement targets in an excel file and I have tried to stay disciplined all these years in hitting my milestones. Today, I can say that I am financially independent, as my monthly passive income from my investments in funds and other investments can cover my monthly expenses. I am excited with my new role as a Retirement Planning Ambassador, as I will be able to continue to share retirement tips to investors and wealth advisers,” said Mr Wong.

“Sui Jau joined us in the year 2000 and we got to know him because he was an active participant in our FundsUPERmart.com Forum. We were always curious about who this person was, as he stood out as someone who proactively looked into markets and funds, and was willingly sharing his tips to other forumers. When we met him the first time, we connected and eventually offered him a role as a Research Analyst. He rose to become a General Manager and Regional Research Director, overseeing our research team in all our markets. He has been a great asset and we will like to thank him for his dedication in going the extra mile to provide genuinely useful investment tips to investors. While he goes on semi-retirement, we are pleased to continue working with him in his new capacity as a Retirement Planning Ambassador because we believe he will continue to passionately share his retirement tips to investors,” said Mr Lim Chung Chun, Chairman and CEO of the Group.

As a Retirement Planning Ambassador at the Group, Mr Wong will be writing and

speaking on retirement topics to investors from the Group's B2C division, Fundsupermart.com, as well as the wealth advisers using the Group's B2B division, iFAST Financial.
