The accounting policies and methods of computation adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed interim financial statements are presented in Singapore dollar (“S\$”) which is the Company’s functional currency.

2.1 New and amended standards adopted by the Group

A number of amendments to Standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting those standards.

2.2 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the financial year ended 28 February 2026.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

F. OTHER INFORMATION REQUIRED BY LISTING RULE APPENDIX 7.2

1. Review

The condensed consolidated statement of financial position of Abundante Limited and its subsidiaries as at 31 August 2026 and the related condensed consolidated profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six-month period then ended and certain explanatory notes have not been audited or reviewed.

2. Review of performance of the group

Operations

Group revenue stood at S\$4.93 million, an increase of 22% over the previous period of S\$4.03 million. The better performance was primarily driven by improved project mix and pricing.

On the back of higher sales, gross profit rose to S\$1,215,000 from S\$797,000 in the previous financial period. Net finance income decreased mainly due to the full redemption of the treasury bills in the previous financial period. Consequently, the Group posted a profit attributable to owners of S\$677,000 as compared with S\$325,000 for the previous period.

Review of Statement of Financial Position and Cash Flows

Property, plant and equipment increased from S\$7.45 million to S\$8.96 million largely due to the current period acquisition of S\$2.14 million and depreciation of S\$633,000. Trade and other receivables were up from S\$2.78 million to S\$3.21 million in line with the Group revenue increase. Trade and other payables fell slightly from S\$671,000 to S\$607,000 while cash and cash equivalents of the Group was S\$1.22 million compared with S\$780,000 in the previous year end. The decrease in other financial assets from S\$8.25 million to S\$6.24 million was mainly attributable to the transfer of funds to cash and bank balances to finance the purchase of property, plant and equipment during the period.
