## **Press Release**

## MIT signs solar contracts worth RMB26.4m (S\$5.4m) for delivery in Fourth Quarter 2014

Singapore, 13 October 2014 - The Board of Directors of Manufacturing Integration Technology Ltd ("MIT" or "the Company") is pleased to announce that the Company has signed 2 contracts worth a total of RMB26.4m (S\$5.4m) for the delivery of laser scribers and laser ablation equipment to an existing solar customer by end-2014.

These contracts will be satisfied by drawing down from our existing inventories resulting in a depletion of our solar equipment inventories by year end.

These contracts are expected to contribute positively to MIT's financial results for the financial year ending 31 December 2014. None of the Directors or controlling shareholders has any direct or indirect interest in the sales contracts.

## About Manufacturing Integration Technology Ltd ("MIT")

Incorporated in 1992 and listed on the Singapore Exchange's Mainboard since 1999, MIT is a leading provider of integrated automation solutions to the semiconductor industry worldwide. Its range of high-end equipment include wafer level die marking, sorting and inspection systems, It has also entered into the renewable energy market by producing its proprietary range of solar panel manufacturing equipment for the PV market. The Group has furthermore diversified its business to provide contract equipment manufacturing and precision engineering services to the broader markets with a manufacturing footprint in Shanghai, China.
