Press Release

SGX Catalist-listed Companies, ES Group and Heatec Jietong, Team Up with Heat Transfer Expert to Develop Heating and Cooling System

SINGAPORE, 30 May 2014: ES Group (Holdings) Limited (“**ES Group**” or the “**Company**”) and Heatec Jietong Holdings Ltd (“**Heatec**”) – both listed on the SGX Catalist– announced that they will team up with a heat transfer expert to develop a new heating and cooling system for marine and other industries.

ES Energy Pte Ltd (“**ES Energy**”) and Heatec Jietong Pte Ltd (“**Heatec Jietong**”) – wholly-owned subsidiaries of ES Group and Heatec, respectively – have teamed up with Mr. Stuart Edmund Cox (“**Mr. Cox**”) with respect to Karnot Technology Pte Ltd (“**KTPL**”), a joint venture which will develop solutions based on the unique properties of trans-critical carbon dioxide (“**CO₂**”). ES Energy, Heatec Jietong and Mr. Cox will own 20%, 20% and 60% respectively in KTPL immediately after the subscription.

Mr. Cox, a British national with a long track record in process engineering and heat transfer industry, is the founder of Single Fluid Technology Pte Ltd, which is developing and patenting a new range of CO₂-based heating and cooling system in Singapore.

The joint venture partners recognise the increasing importance attached to green technology globally and believe that the solutions and products they will jointly develop will help lower carbon footprint as well as operating costs for various sectors, including the offshore and marine industry.

Both ES Group and Heatec have committed a total of S\$450,000 each – to be funded by their internal resources – in the form of equity and shareholder’s loan to KTPL upon fulfilment of various milestones.

Heatec is one of the leading providers of piping and heat exchanger specialists in Singapore serving the marine and oil and gas industries.

About ES Group (Holdings) Limited

ES Group is a Singapore-headquartered marine and offshore group involved in building, conversion and repair of ocean-going vessels. The Company builds, converts and repairs a wide range of vessels, such as tugs, barges, rigs, offshore support vessels, oil tankers and cargo ships. The Company performs repairs on marine and offshore structure and vessels of all types and sizes, whether afloat or dry docked. ES Group completed and delivered its first pair of bunker vessels in 2013 as part of its strategic shift to build a vessel fleet for chartering and generate a stable stream of recurring revenue.
