1. Highlights

1.1 Corporate profile

Darco Water Technologies Limited (Darco or the 'Group') and its subsidiaries is a provider of integrated engineering and knowledge-based water treatment solutions and waste water treatment.

Established in 1999, Darco is principally a systems integrator involved in the designing, building, operating and maintaining of water management processes that employ the membrane, ion exchange and thermal technologies.

Darco Water is always determined to make a positive impact to the environment by providing comprehensive solutions to our customers. As the economy developed, the Group diligently kept pace with the changing demands of different industries and strived to enhance its engineering capability in the environmental protection industry.

Today, apart from designing, manufacturing and servicing water and wastewater systems for a wide range of industries, including electronics, petrochemicals, pharmaceuticals and food and beverage, the Group has since evolved into an integrated environmental solutions provider.

With the Group's strong technology capabilities, the Group is well-poised for the next phase of accelerated growth. The Group aims to be the preferred partner of all potential customers within the environmental protection industry.

1.2 Message to stakeholders

On behalf of the Board of Directors of Darco Water Technologies Limited, I am pleased to present the Sustainability Report for the financial year ended 31 December 2018 (**FY2018**).

Darco is always determined to make a positive impact to the environment by providing comprehensive solutions to our customers. As the economy developed, the Group diligently kept pace with the changing demands of different industries and strived to enhance its engineering capability in the environmental protection industry.

Today, apart from designing, manufacturing and servicing water and wastewater systems for a wide range of industries, including electronics, petrochemicals, pharmaceuticals and food and beverage, the Group has since evolved into an integrated environmental solutions provider.

We will continue to be committed to providing sustainable technologies and solutions to provide safeguard our water supply and environment for our future generations.

In addition, we wish to confirm that the Board has considered sustainability issues as part of its strategic formulation. The Board has determined the material environmental, social and governance (**ESG**) factors and overseen the management in monitoring these material ESG factors.

As part of Darco's commitment to sustainable development, we will continue to strive to do business in a responsible way.

On behalf of the Board of Directors

WANG YAOYU

Executive Chairman

1.3 Scope of sustainability report

Unless otherwise stated, the scope of the report covers information on material sustainability aspects of Darco from 1 January 2018 to 31 December 2018, covering the following subsidiaries:

- Wuhan Kaidi Water Services Co., Ltd. (**Wuhan Kaidi**)
- Darco Water Systems Sdn. Bhd. (**DWS**)
- Darco Industrial Water Sdn. Bhd. (**DIW**)
- Grober Industrial Services Sdn. Bhd. (**GIS**)

This should sufficiently address stakeholders' concerns in relation to sustainability issues arising from the major business operations of the Group.

This report is prepared in accordance with the Global Reporting Initiative (**GRI**) Standards: Core Option as it provides a set of an extensive framework that is widely accepted as a global standard for sustainability reporting. It also considers the Sustainability Reporting Guide in Practice Note 7.6 of the Singapore Exchange Securities Trading Limited (**SGX-ST**) Listing Manual. In preparing our report, we applied the GRI's principles for defining report content and report quality by considering the Group's activities, impacts and substantive expectations and interests of its stakeholders.

The data and information provided within the report have not been verified by an independent third party. We have relied on internal data monitoring and verification to ensure accuracy.

1.4 Restatements

No restatements were made from the previous report.

1.5 Sustainability contact

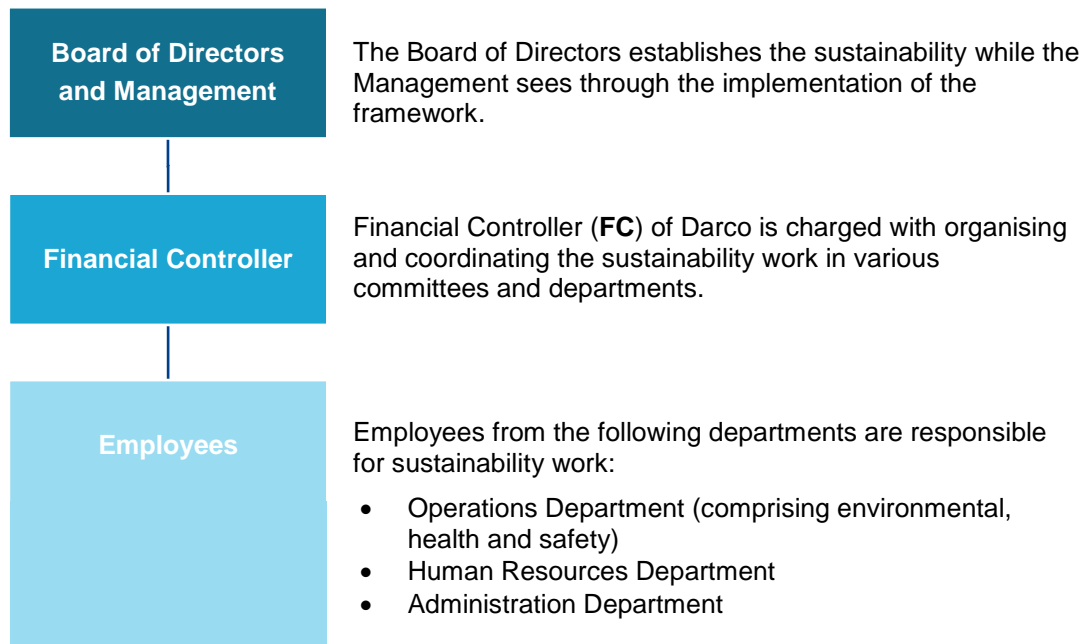

We welcome your views and feedback on our sustainability practices and reporting at sr@darcowater.com.

2. Our approach to sustainability

2.1 Sustainability organisational structure

Sustainability is a vital part of our corporate strategy for achieving long-term growth. The values we create for our people, the environment and society at large very much influence our financial performance. In order to better accommodate our sustainability goals and values, we have developed a sustainability organisational structure to move things forward.

2.2 Sustainability strategy

At the Group, our sustainability strategy aims to create integrated values. Together with disciplined execution of our strategy and a commitment to doing business responsibly, we commit to deliver value to all our stakeholders through the following:

The sustainable strategy is underpinned by our Employee Code of Conduct, which establishes a clear tone at the top with regards to employees' business and ethical conduct.

The strategy is also guided by external sources, including the Global Reporting Initiative Standards and Sustainability Reporting Guide in Practice Note 7.6 of the Singapore Exchange Listing Rules.

The rest of this report covers our progress and performance against each of these areas, and the impact we have on the economy, environment and society as a result.

2.3 Consulting our stakeholders

We recognise the need to continuously develop our responsible business approach in order to address growing stakeholder expectations around our impact on the economy, environment and society. As such, we periodically consult with our stakeholders to determine the issues that are most relevant to them and Darco.

An overview of our approach and rationale is set out below (with stakeholders listed in alphabetical order), together with the feedback we have received.

Stakeholders	How we listen	Why we do it	What you've told us
Customers	<ul style="list-style-type: none"> • Visit to customers' office • Telephone calls/ email • Progress meeting • Updates on research and development 	<ul style="list-style-type: none"> • Consistently improve on technical and technology • Upgrade of project infrastructure and operation standard to exceed customers' expectations 	<ul style="list-style-type: none"> • On-time delivery • Meet quality requirements • Progress of contract execution
Employees	<ul style="list-style-type: none"> • Employee feedback mailbox • Office Automation (OA) system • WeChat groups • Employee caring session 	<ul style="list-style-type: none"> • Comply with manpower rules and regulations • Develop and maintain multiple communication channels to obtain feedback from employees 	<ul style="list-style-type: none"> • Salary increment • Improve employee welfare and benefits
Government and regulators	<ul style="list-style-type: none"> • Visit to Government office • Understand industry regulation • Subscribe to Government website • Telephone calls • Training and meeting • Exchange meeting • Give suggestion via industry association 	<ul style="list-style-type: none"> • Uphold the highest standards of corporate governance and ethical behaviour • Participate in government-related events • Timely submission and payment of taxes 	<ul style="list-style-type: none"> • Compliance with SGX rulings and local laws and regulations • Fully understand all regulations applicable to the company
Suppliers/ business partners	<ul style="list-style-type: none"> • Visit to suppliers' office • Telephone calls/ emails • Audit inspection • Site survey • Supplier evaluation • Open tender 	<ul style="list-style-type: none"> • Build strategic business relationship • Fair competition • Perform periodic supplier evaluation 	<ul style="list-style-type: none"> • Timely payment • Adhere to agreement terms

2.4 Sustainability materiality

Based on the stakeholder engagement, we developed our sustainability materiality matrix containing material aspects which are aligned with our principal business and operational risks, and formed our sustainability strategy which has shaped our approach to sustainability reporting, as illustrated in the diagram below.

We have also developed metrics to help us measure our progress, as indicated in our sustainability scorecard in **Appendix A**. We will review and adjust the matrix each year, as the external and business context changes.

The aspect boundaries ‘within’ the organisation are limited to Darco, Kaidi, DWS, DIW, and GIS, whereas the aspect boundaries ‘outside’ the organisation include customers, employees, government and regulators and suppliers and business partners.

3. Our performance

3.1 How we measure our performance

Our sustainability strategy is embedded into the appropriate parts of our business, with dedicated teams for each focus area, and coordination by our relevant departmental managers.

Progress will be tracked in two key ways: measuring performance against metrics, and evaluating how well the programmes have advanced through a series of 'commitments'.

Metrics and targets

We have established key performance indicators for each of the three focus areas outlined in our sustainability strategy. Periodically, we plan to introduce new metrics and update targets to ensure alignment with our strategy.

Commitments

To ensure we have a robust sustainability programme in place, we have included the key commitments for each area of our sustainability strategy. The progress we have made against each key commitment is indicated using the symbols shown in the table below.

We track and review our sustainability programme with the Board of Directors at least once a year.

Symbols used to indicate progress against commitments

Symbol	Meaning
	New commitment this year
	Not started
	In progress
	Complete
	Ongoing commitment: no end date

3.2 Environmental sustainability

Overview

We are committed to providing world-class water management services that add tangible value to the communities we serve and to operate. We strive to maintain those facilities with a strong emphasis on the triple bottom line of economy, environment and society.

Water treatment

Water is the source of life. It is necessary to ensure that wastewater is properly treated and clean drinking water is available to the people. We focus on the needs of the people and strive to solve the water supply problem by extending our business scope and investing in technologies to treat wastewater and provide people with safe drinking water.

The main business areas of the Group are as follows:

- Industrial water treatment, including desalinated water treatment, reclaimed water reuse, pure water preparation, condensed water treatment, seawater desalination.
- Industrial wastewater treatment, including treatment of industrial wastewater to achieve standard or zero discharge,
- Municipal water supply and drainage, including municipal tap water, municipal sewage, landfill leachate treatment.

We have completed more than 600 water treatment projects in the power, municipal, steel metallurgy, petrochemical, coal chemical, paper, food, pharmaceutical and other industries.

We also have more than 20 proprietary and patented technologies with independent intellectual property rights, and recently introduced condensate cone separation technology from the United Kingdom and evaporation crystallisation technology from the United States.

In addition, we have established strategic partnerships with many colleges and universities and well-known enterprises in the water industry, and has established a leading market position and outstanding competitive advantages in the field of water treatment.

In FY2018, the Group is fully compliant with environmental laws and regulations in the countries that we operate in.

As part of our strategy, we seek to continue to be fully compliant with environmental laws and regulations in the countries that we operate in, with zero environmental incidents and zero fines on contravention of environmental regulations.

Project highlights

Water Treatment

Riding on the industrial growth and favourable government policies in Vietnam, the Group has further exerted its presence in that region by securing a RM7.0 million (approximately S\$2.3 million) contract to build a water treatment plant for First Solar's manufacturing facility in Vietnam.

First Solar is a leading global provider of photovoltaic solar systems, and this project includes designing and building an ultrapure water system with a treatment capacity of 70 m³/hr, as well as a lifting batch tank system to collect the wastewater generated. The project is expected to be completed within 6 to 12 months.

Wastewater Treatment

The Group has secured a zero liquid discharge wastewater treatment and water reuse project in a processing park from Bayan Nur Hetao Water Affair Group Co., Ltd. worth RMB43.86 million (approximately S\$9.15 million).

This project is located at Urad Houqi, Bayan Nur, Inner Mongolia is also part of the comprehensive water management project in Bayan Nur.

Landfill Gas Recovery

A consortium comprising Darco Water Systems Sdn. Bhd. (Malaysia), Q2 A/S (Denmark) and PT. Fitama Putri Mandiri (Indonesia) has secured a landfill gas recovery and conversion project (the '**Landfill Project**') in Jati Barang Landfill, Semarang, Central Java, Indonesia.

The Landfill Project is worth DKK21.5 million (approximately S\$4.7 million). Based on the agreement, the three partners will equally share the profits generated from the Project.

Semarang is situated on the north coast of the island of Java, Indonesia. It is the capital and largest city of Central Java which has problem in solid waste management. Jati Barang Landfill is the biggest landfill in Semarang and has been in operation since 1992. The Project involves biogas harvesting from gas wells in the landfill, which will be covered with liners made from High Density Polyethylene. The harvested biogas will be cleaned and converted into electrical energy which will be supplied to the grid.

Emissions and use of resources

GHG emissions

Greenhouse gas (**GHG**) emissions for the Group include GHG (Scope 1) emissions from petrol claims for personal vehicles, GHG (Scope 2) emissions from the use of purchased electricity in the Group's offices, GHG (Scope 3) emissions from business air travel, and municipal wastewater and solid waste generated by the office staffs. No hazardous waste were generated by the Group in FY2018.

In FY2018, the total GHG emissions intensity of the Group was 9.2 tCO₂e per million dollars of revenue.

Purchased electricity

The Group's electricity consumption came from regular operations of the office. In FY2018, the total electricity consumption intensity of the Group is 7.7 MWh per million dollars of revenue. All employees stringently complied with the Group's policy of saving energy.

The Group utilised electricity-saving light bulbs at its office building as well as educated its employees about energy conservation and emission reductions. To ensure the effective use of electricity, the Group conducted the following practices:

- Turn off lights, computers and air conditioning system before clocking out
- Place energy saving reminder labels next to switches
- Clean office equipment (such as refrigerator, air-conditioner) regularly to maintain high efficiency
- Use energy saving equipment
- Set temperature of air conditioners to 25°C

The Group established policies and procedures to reduce energy consumption in the office, to assess the energy efficiency, to increase the use of clean energy, if possible, to set applicable targets to monitor energy consumption, and to ensure power is turned off when electrical appliances are not in use.

Water consumption

The Group's water consumption is mainly from domestic water use. In FY2018, the total water consumption intensity of the Group was 0.7 m³ per million dollars of revenue. To further improve the utilisation efficiency of water resources, the Group adopted the following practices:

- Place posters on 'Saving Water' to encourage water conservation
- Strengthen inspection and maintenance on water taps and fixing dripping taps immediately to avoid wastage
- Use water saving equipment

Paper recycling

Recyclable waste in the Group's offices mainly comprise of paper. In FY2018, the total weight of paper recycled by the Group is 199 kg. We strive to reduce paper waste at source by adopting the following practices:

- Think before print
- Set duplex printing as the default mode for most network printers
- Use email to reduce fax paper consumption
- Separate single-sided paper and double-sided paper for better recycling
- Use the back of old single-sided documents for printing or as draft paper

We will continue to track and monitor the Group's performance on GHG emissions, purchased electricity, water consumption and paper recycling. Progress and performance improvement will be reported every year.

Commitments: Environmental sustainability

Full compliance with environmental laws and regulations

Achievements

- Achieved zero environmental incidents and zero fines on contravention of environmental regulations in the countries we operate in.

FY2018 progress

- We are fully compliant with the environmental laws and regulations in the countries that we operate in, with zero environmental incidents and zero fines on contravention of environmental regulations.

3.3 Regulatory compliance

Overview

To maintain a fair, ethical and efficient business and working environment, Darco strictly adheres to the local laws and regulations relating to anti-corruption and bribery, irrespective of the area or country where the Group conducts its business.

Legal compliance

In FY2018, the Group, through its Company Secretary, has updated the Board on relevant new laws and regulations affecting the Company. From time to time, and through Board meetings and other meetings, both formal and informal, our Chief Executive Officer (**CEO**) has been advising our Directors of the changing commercial and business risks faced by our Company.

The Directors are also updated regularly with changes to the SGX-ST Listing Rules, risk management, corporate governance, insider trading and the key changes in the relevant regulatory requirements and financial reporting standards and the relevant laws and regulations to facilitate effective discharge of their fiduciary duties as Board or Board Committees members. New releases issued by the SGX-ST and Accounting and Corporate Regulatory Authority (**ACRA**) which are relevant to the Directors are circulated to the Board by the Company Secretary.

The Directors are encouraged to attend seminars and receive training to improve themselves in the discharge of Directors' duties and responsibilities. Changes to regulations and accounting standards are monitored closely by the Management. To keep pace with such regulatory changes, the Company provides opportunities for ongoing education and training on Board processes and best practices as well as updates on changes in legislation and financial reporting standards, regulations and guidelines from the SGX-ST Listing Rules that affect the Company and/or the Directors in discharging their duties. Such training costs are borne by the Company.

In FY2018, the Group was not in violation of any of the relevant laws and regulations in the countries that we operate in, in relation to bribery, extortion, fraud and money laundering that have a significant impact on the Group.

As part of our strategy, we seek to continue to be fully compliant with relevant laws and regulations in the countries that we operate in, in relation to bribery, extortion, fraud and money laundering that have a significant impact on the Group.

0

Regulatory and compliance incidents

S\$0

Fines on contravention of laws and regulations

Preventing bribery and corruption

The Group prohibits all forms of bribery and corruption. The Group requires all employees to strictly abide by professional ethics and eliminate any corruption and bribery. All employees are expected to discharge their duties with integrity, to act fairly and professionally, and to abstain from engaging in bribery activities or any activities, which might exploit their positions against the Group's interests.

Whistle-blowers can report verbally or in writing to the senior management of the Group for any suspected misconduct with full details and supporting evidence. The management will conduct investigations against any suspicious or illegal behaviour to protect the Group's interests. The Group advocates a confidentiality mechanism to protect the whistleblowers against unfair dismissal or victimisation. Where criminality is suspected, a report is made to the relevant regulators or law enforcement authorities when the management considers necessary.

In addition, the staff handbook lays out the Group's expectation and guiding provisions on code of conduct. The Group encourages employees, customers, suppliers, or other parties to report incidents relating to any conflicts of interest, extortion, bribery, fraud and money laundering.

Commitments: Regulatory compliance

Full compliance with relevant laws and regulations in the countries that we operate in

Achievements

- Achieved full compliance with relevant laws and regulations in the countries that we operate in.

FY2018 progress

- The Group was not in violation of any of the relevant laws and regulations in the countries that we operate in, in relation to bribery, extortion, fraud and money laundering that have a significant impact on the Group.

3.4 Social contributions

Overview

People are the cornerstone of our businesses. One of our most important and fundamental responsibilities lies in respecting and protecting the rights of all employees. Creating an environment where every employee can maintain both physical and mental health is essential to ensuring that they can maximise their potential.

Occupational health and safety

We are committed to maintaining a healthy and safe workplace for employees, and to preventing workplace injuries and illnesses. As noted above, we conducted periodic trainings to improve quality, environment, occupational health and safety awareness of the company's staff, and to further standardise the Group's operation.

In FY2018, the Group has no instances of serious incidents. As part of our strategy, we have committed to maintain our record of zero serious incidents on an ongoing basis.

Talent retention

Personal and professional development is an ongoing journey. The Group considers an effective learning and development program to be a critical part of keeping our employees motivated and encouraging them to build a strong sense of loyalty and pride towards our business.

0

Serious incidents

6

Training hours per staff

25%

Employee turnover

20%

Female representation in workforce

42%

Purchases from local suppliers

Training and development

The Group conducts regular training for our employees to improve quality, environment, occupational health and safety awareness of our staff, and to further standardise the company's operation. The training comprised of the following:

- Quality management requirements
- Environmental management requirements and environmental awareness training
- Occupational health and safety management requirements and safety awareness training
- Environmental factors identification and evaluation
- Hazard identification and risk assessment

Through our training and education programme, we are developing people, improving their employability and growing their careers in the engineering industry.

In FY2018, the Group invested an average of 6 hours of training on each employee. As part of our strategy, we have committed to achieve a minimum of 8 hours of training per employee on an ongoing basis.

Equal opportunity

We endeavour to be an equal opportunity employer to provide a fair workplace for employees, following the principles of equality and non-discrimination. Recruitment, remuneration, promotion, and benefits are required to be handled based on objective assessment, equal opportunity and non-discrimination regardless of gender, race, marital status, pregnancy, disability, age or family status.

The Group attracts talent through fair, and flexible recruitment strategy that includes recruitment application, job description, job applications, interview, selection, approval, and job offer. Promotion is based on performance and suitability.

The Group offers competitive remuneration to attract and retain talented staff members. Remuneration packages (which includes the necessary social benefits) are reviewed periodically to ensure consistency with employment market. Dismissal also complies with employment laws and regulations relating to non-discrimination.

In FY2018, female employees comprise 20% of our entire workforce, with female representation in management at 19%. We will continue to track and monitor female representation in our workforce and report these statistics every year.

Encouraging work-life balance

We organised a variety of employee activities to help them relax their mind and body, develop teamwork, explore their talent, so as to develop a positive attitude in both work and life.

To enhance employee teamwork and cohesion, improve employee health and improve employee work-life balance, the Group has been organising periodic employee gatherings during major festivals, departmental sports competitions and annual orientation for new staff.

Supporting local

Procurement is decentralised and each subsidiary is responsible for selection of its own vendors. While some procurement decisions are controlled by the customer, others are usually based on price, availability and reliability of vendors.

Where possible, we seek to create long-term economic benefits for our communities through supplier development, supporting a reliable local supply network to drive economic growth. The Group also benefits from trade with local suppliers due to shorter delivery time, better technical support and transport savings from local instead of overseas deliveries.

All of our suppliers and contractors must adhere to our requirements regarding safety, health, security and the environment, as well as the principles of our Standards of Business Conduct. We are also focused on developing local businesses through regular meetings with them to ensure they are aware of the opportunities created by our projects and understand our requirements.

In FY2018, 42% of all purchases from the Group were from local suppliers. As part of our strategy, we have committed to source at least 40% of our purchases locally.

Commitments: Social contributions

Full compliance with relevant laws and regulations in the countries that we operate in

Achievements

- Achieved full compliance with relevant laws and regulations in the countries that we operate in.

FY2018 progress

- The Group was not in violation of any of the relevant laws and regulations in the countries that we operate in, in relation to bribery, extortion, fraud and money laundering that have a significant impact on the Group.

Achieve minimum of 8 hours of training per employee

Training hours per employee (Hours)

2018  6

FY2018 progress

- The Group invested an average of 6 hours of training on each employee.
- As part of our strategy, we have committed to achieve a minimum of 8 hours of training per employee on an ongoing basis.

Source at least 40% of our purchases locally

Purchases sourced locally (%)

2018  42

FY2018 progress

- The Group sourced 42% of our purchases locally, which is a substantial increase from the previous year due to the inclusion of our Malaysian subsidiaries.
