NEWS RELEASE

NERATEL SECURES S$14.9 MILLION WORTH OF CONTRACTS FROM MAJOR GOVERNMENT ENTITY IN THE PHILIPPINES & NORTH-AFRICA TELCOS

- ***Group total order in-take lifted to more than S$120.0 million***

Singapore, August 1, 2017 - Mainboard-listed Nera Telecommunications Ltd ("**NeraTel**", 挪拉电讯, or the "**Group**"), a leading Communications and Network Solutions Provider, announced today that it has clinched a total of S$14.9 million worth of new contracts for both the Network Infrastructure ("**NI**") and Wireless Infrastructure Network ("**WIN**") business segments.

Chief Executive Officer of NeraTel, Mr. Beck Tong Hong (麦东宏), said, "We are pleased to have been awarded contracts from such prominent repeat customers, a testament of our capabilities to offer differentiated value and comprehensive turnkey solutions. Coupled with other contracts won this year, these latest contract wins will lift our total order in-take to more than S$120.0 million, as we continue to leverage on our strengths and track record to pursue growth in both segments to enhance shareholder value."

For the NI segment, NeraTel was awarded a S$7.0 million contract by a major Government entity in the Philippines to supply, install, upgrade, and provide maintenance support relating to information system communication network equipment. This will lift the order in-take of the segment to more than S$70.0 million.

Separately, the Group will also design, supply and deliver Transmission Equipment with accessories to facilitate several North African operators' roll out of the 4G network in the region. This S$7.9 million contract will boost the order in-take of the WIN segment to over S$40.0 million.

This development follows other contracts won in April 2017, including S$19.9 million worth of IP network equipment contracts awarded by Singapore's leading service providers and S$7.15 million worth of security application equipment contracts from a leading telecom operator in the Philippines – both key growth areas identified under NeraTel's Network Infrastructure segment.

About Nera Telecommunications Ltd

Established in October 1978 and listed on the SGX Mainboard since July 1, 1999, Nera Telecommunications Ltd ("**NeraTel**") is a leading Communications and Network Solutions Provider. With over 38 years of established track record, the Singapore-headquartered NeraTel has a diversified geographical presence in over 16 countries in Asia-Pacific and the Middle East and North Africa regions.

NeraTel provides a full suite of turnkey network and wireless solutions. Its two business segments work seamlessly to deliver cutting-edge services for the digital world:

- Network Infrastructure ("**NI**") offers a wide range of solutions, services and products to steer secure digital transformation including cloud network infrastructure, network security solutions, IP networks, optical networks and broadcast networks;
- Wireless Infrastructure Networks ("**WIN**") provides integrated wireless network services for Service Providers, ISPs, Broadcasters, Enterprises, Government organisations, as well as the Offshore and Utilities sectors.

With its comprehensive range of customisable solutions, NeraTel empowers its customers to enhance their business processes and deliver new innovative services and business models.
