## E. SELECTED NOTES TO THE FINANCIAL STATEMENTS

### 1. Corporate information

Biolidics Limited (Registration No. 200913076M) is a limited liability company incorporated and domiciled in Singapore. The Company is listed on the Catalist of SGX-ST.

The condensed interim financial statements for HY FY2024 comprise the Company and its subsidiaries (collectively, the “**Group**”).

The principal activities of the Group and the Company are those relating to:

- (a) technology development, technology transfer, marketing, sale and distribution of biomedical technology, life and medicine science related products and services;
- (b) provision of laboratory services; and
- (c) investment holding.

Please note that on 10 June 2024, the Group has announced that Biomedics Laboratory Pte. Ltd. which provides laboratory services was being placed under creditors’ voluntary liquidation.

### 2. Basis of preparation

The condensed interim financial statements for 2Q FY2024 and HY FY2024 have been prepared in accordance with Singapore Financial Reporting Standards (International) (“**SFRS(I)**”) 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance of the Group since the last audited financial statements for the year ended 31 December 2023 (“**FY2023**”).

The condensed interim financial statements are presented in Singapore Dollars which is the Company’s functional currency. All financial information presented in Singapore Dollars have been rounded to the nearest thousand, unless otherwise stated.

#### Material Uncertainty Related to Going Concern

The Group had recorded a net loss of approximately S\$1.45 million and a net operating cash outflow of approximately S\$0.39 million for HY FY2024. As at 30 June 2024, the Group and the Company was in a net equity deficit position of approximately S\$2.39 million and S\$2.33 million respectively, and a negative working capital position of approximately S\$2.27 million and S\$2.21 million respectively. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group’s ability to continue as a going concern.

The Company had on 28 February 2023, entered into a partial settlement deed (“**Partial Settlement Deed**”) with Clearbridge BSA Pte Ltd (“**CBSA**”) to partially settle approximately S\$1.16 million (“**Partial Settlement Sum**”) of the deferred consideration (“**Deferred Consideration**”) (Note 16) owing by the Company to CBSA in connection with the purchase of the entire issued and paid-up share capital of Biomedics Laboratory Pte. Ltd., of which S\$0.55 million of the Partial Settlement Sum (“**Cash Settlement Sum**”) was settled by way of cash and approximately S\$0.61 million of the Partial Settlement Sum satisfied by way of issuance of 37,500,000 new ordinary shares in the issued share capital of the Company

(“**Consideration Shares**”) at an issue price of S\$0.0163 for each Consideration Share to CBSA. The payment of the Cash Settlement Sum and the issuance of the Consideration Shares to CBSA were completed on 20 March 2023.

On 21 November 2023, the Company entered into a subscription agreement with Mr. Zhu Hua, on the share subscription of 98,500,000 new ordinary shares in the issued share capital of the Company at an issue price of S\$0.0119 per subscription share, to raise gross proceeds of approximately S\$1.17 million. The shares were issued on 21 November 2023 and the Company utilised the net proceeds from the share subscription and its cash to fully repay the Deferred Consideration.

On 21 December 2023, the Company entered into a subscription agreement with Mr. Zhou Chao, on the share subscription of 83,000,000 new ordinary shares in the issued share capital of the Company at an issue price of S\$0.0121 per subscription share, to raise gross proceeds of approximately S\$1.04 million. The Company utilised the net proceeds of approximately S\$0.93 million from the share subscription for working capital purposes.

To provide additional and recurrent revenue streams for the Group, with the approval of shareholders in the Extraordinary General Meeting (“**EGM**”) held on 23 February 2024, the Group will be diversifying its business into Multi-Channel Networking, E-Sports and Live-streaming. This will allow the Group to reduce its reliance on the Group’s existing business in cancer, infectious disease and laboratory services.

To support that the financial statements of the Group have been prepared on a going concern basis and to ensure the adequacy of funds required to meet its obligations, working capital and capital commitment needs, the Group has prepared a consolidated cash flow forecast for a 18-month period from 1 July 2024 to 31 December 2025 (“**Cash Flow Forecast**”). In preparing the Cash Flow Forecast, management has taken the following into consideration:

- the challenges faced by the cancer business, particularly the low demand of our ClearCell FX 1 systems;
- the cost cutting measures that the Group has put in place to manage costs;
- the impact from the proposed acquisition of new business as announced on 24 July 2024; and
- the financial support undertaken by Mr. Zhu Hua.

After taking into consideration the Cash Flow Forecast, the Board is of the opinion that the Group and the Company will be able to operate as a going concern and that the use of the going concern assumption in the preparation of the consolidated financial statements of the Group for 1H FY2024 is appropriate.

In the event that Mr. Zhu Hua does not provide, or is unable to provide, sufficient financial support to the Group for its working capital requirements, the Group will look for alternative sources of funding such as equity or debt fundraising through a placement of securities of the Company to investors or other fundraising opportunities to raise the requisite funding for the Group’s working capital requirements. Should the Group fail to raise such alternative funding, the Company and the Group may not be able to operate as a going concern and trading of the Shares may be suspended pursuant to Rule 1303(3) of the Catalist Rules.

If the going concern assumption is no longer appropriate, adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which may differ significantly from the amounts at which they are currently recorded in the statements of financial position. In addition, the Group and the Company may have to reclassify non-current assets and liabilities as current assets and liabilities, respectively. Such adjustments have not been made to these financial statements.

## 2.1 New and amended standards adopted by the Group

The Group has applied the same accounting policies and methods of computation in the preparation of the condensed interim financial statements for HY FY2024 as compared to those applied in the audited financial statements for FY2023 except for the adoption of new or revised SFRS(I) and Interpretations of Singapore Financial Reporting Standards (“**SFRS(I) INT**”) that are mandatory for financial years beginning on or after 1 January 2024. The Group has adopted all applicable SFRS(I) and SFRS(I) INT that are mandatory for financial years beginning on or after 1 January 2024. The adoption of these SFRS(I) and SFRS(I) INT has no significant impact on the Group’s consolidated financial statements.

## 2.2 Use of judgements and estimates

The preparation of the Group’s consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited financial statements for FY2023.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is as follows:

- Identification of a cash-generating unit (“**CGU**”) - Management identified the Group’s cancer business and laboratory services business as the 2 CGUs in the Group, having considered the products and services being sold by the Group and the inter-dependency of the cashflows arising from the products and services provided within a CGU.

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period are discussed below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

- Expected credit losses (“**ECLs**”)

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns. The provision matrix is initially based on the Group’s historical observed default rates. The Group will calibrate the matrix to adjust historical credit loss experience with forward-looking information. At every reporting date, historical default rates are updated and changes in the forward-looking estimates are analysed. The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group’s historical credit loss experience and forecast of economic conditions may also not be representative of customer’s actual default in the

future. As at 30 June 2024, the carrying amount of the Group's trade receivables was approximately S\$0.08 million (31 December 2023: S\$0.03 million).

In determining the loss allowance for amount due from subsidiaries, when measuring ECL, loss given default constitutes a key input in measuring ECL. Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive. As at 30 June 2024, the carrying amount of the Company's receivables due from subsidiaries was approximately S\$Nil (31 December 2023: S\$Nil).

- Impairment assessment of plant and equipment and right-of-use assets

Management has carried out a review and determined that there are indicators of impairment for the Group's plant and equipment and right-of-use assets. These assets belong to the Group's Cancer and Laboratory Services CGUs that also form the respective operating segments. The Group determines the recoverable amount of the assets of the Cancer and Laboratory Services CGUs based on the higher of value-in-use and fair value less cost of disposals. The recoverable amount of these assets as at 31 December 2023 have been determined based on their fair value less cost of disposal. The fair value less cost of disposal of the CGUs' assets as at 31 December 2023 have been estimated by management, with the assistance of external valuers and are categorised in Level 3 of the fair value hierarchy. The valuation techniques, key assumptions and inputs are provided in the table below and the sources of information include the financial forecasts prepared by management, historical information and external data. Significant judgement has been applied by management in determining the adjustment for economic obsolescence. The Group concluded that no impairment loss is to be recognised in HY FY2024.

- Impairment assessment of investment in subsidiaries

Management has carried out a review and determined that there are indicators of impairment of the Company's investments in subsidiaries. The recoverable amount of the investments as at 31 December 2023 has been estimated based on fair value less cost of disposal of the relevant CGU's assets with adjustments to arrive at equity value of the investments. As at 30 June 2024, the carrying amount of the Company's investment in subsidiaries was Nil (31 December 2023: Nil).

### **3. Seasonal operations**

The Group's businesses were not affected significantly by seasonal or cyclical factors during 2Q FY2024 and HY FY2024.

#### 4. Revenue

The Group derives its revenue from the transfer of goods and services over time and at a point in time in the following major revenue streams. This is consistent with the revenue information that is disclosed for each reportable segment under SFRS(I) 8.

**3A Where the latest financial statements are subject to an adverse opinion, qualified opinion or disclaimer of opinion:**

**(a) Updates on the efforts taken to resolve each outstanding audit issue.**

**(b) Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.**

**This is not required for any audit issue that is a material uncertainty relating to going concern.**

The Company's previous independent auditor, Baker Tilly TFW LLP ("**Baker Tilly**"), had issued a disclaimer of opinion (the "**Disclaimer of Opinion**") in their independent auditor's report dated 1 April 2024 on the audited consolidated financial statements of the Group and the Company for FY2023. The basis for the Disclaimer of Opinion is in relation to (i) the use of the Group's going concern assumption and (ii) the comparative information with respect to impairment assessment of the Group's plant and equipment, right-of-use assets, intangible assets and goodwill (collectively, "**long-lived assets**"), and the Company's investments in, and other receivable due from, a wholly-owned subsidiary or the Company, Biomedics Laboratory Pte Ltd ("**BML**").

*(i) Use of the Group's going concern assumption*

To improve the financial health and working capital position of the Group, on 21 November 2023, the Company entered into a subscription agreement with Mr. Zhu Hua, on the share subscription of 98,500,000 new ordinary shares in the issued share capital of the Company at an issue price of S\$0.0119 per subscription share, to raise gross proceeds of approximately S\$1.17 million. The Company utilised the net proceeds of approximately S\$1.11 million from the Share Subscription and approximately S\$0.82 million of cash to fully repay the Deferred Consideration.

On 21 December 2023, the Company entered into a subscription agreement with Mr. Zhou Chao, on the share subscription of 83,000,000 new ordinary shares in the issued share capital of the Company at an issue price of S\$0.0121 per subscription share, to raise gross proceeds of approximately S\$1.04 million. The Company will utilise the net proceeds of approximately S\$0.93 million from the share subscription for working capital purposes.

To provide additional and recurrent revenue streams for the Group, with the approval of shareholders in the Extraordinary General Meeting held on 23 February 2024, the Group will be diversifying its business into Multi-Channel Networking, E-Sports and Live-streaming. This will allow the Group to reduce its reliance on the Group's existing business in cancer, infectious disease and laboratory services.

As disclosed under Note 2 under Section E - Selected notes to the financial statements of this announcement, management has prepared the Group's and the Company's financial statements for 2Q FY2024 on the basis that the Group and the Company will be able to carry on as a going concern for at least twelve months from the end of 30 June 2024 based on factors disclosed in that note.

In the event the going concern assumption is no longer appropriate, the financial effects of adjustments to the carrying amounts, and the current and non-current classification of the Group's and Company's assets and liabilities as at 30 June 2024 could be material

and pervasive and the Company is unable to determine the extent of the adjustments that may be required.

- (ii) *Comparative information with respect to Impairment assessment of the Group's plant and equipment, right-of-use assets, intangible assets and goodwill, and the Company's investments in, and other receivable due from, a wholly-owned subsidiary or the Company.*

In FY2021 and FY2022, the Company was audited by Ernst & Young LLP ("**Ernst & Young**"). For FY2022, The Group had recorded total impairment losses of approximately S\$4.04 million on the long-lived assets. The Company also recorded an impairment loss of approximately S\$3.57 million on its investment in BML and expected credit loss ("**ECL**") allowance of approximately S\$2.12 million against the receivable from BML. The depreciation and amortisation expenses relating to the long-lived assets were approximately \$0.76 million and \$0.42 million respectively.

Ernst & Young in their disclaimer of opinion report on the financial statements for FY2022 expressed that they were unable to determine whether any adjustments might have been necessary with respect to the aforementioned impairment losses, ECL, depreciation and amortisation expenses recorded by the Group and the Company, and the related disclosures for the year ended 31 December 2022 as they are unable to obtain sufficient appropriate evidence on the appropriateness of the carrying and recoverable amount of the aforementioned assets as at 31 December 2021 and they issued a disclaimer of opinion on the financial statements FY2021. Consequently, for FY2023, Bakers Tilly were unable to satisfy ourselves in respect of the possible effect of these matters on the comparability of the above-mentioned current figures and the corresponding figures.

Please refer to Notes 2.2, 11, 12, 13 and 14 under Section E - Selected notes to the financial statements of this announcement for further details.

The Board confirms that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

**4 Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.**

Please refer to Note 2.1 under Section E - Selected notes to the financial statements of this announcement.

**5 If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

Please refer to Note 2.1 under Section E - Selected notes to the financial statements of this announcement.

- 6 Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.**

Please refer to Note 10 under Section E - Selected notes to the financial statements of this announcement.

- 7 Net asset value (for the issuer and group) per ordinary share based on the total number of issued shares, excluding treasury shares of the issuer at the end of the (a) current period reported on and (b) immediately preceding financial year.**

Please refer to Note 20 under Section E - Selected notes to the financial statements of this announcement.

- 8 A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:**
- (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and**
  - (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.**
