### iShares MSCI India Index ETF (a Sub-Fund of iShares Southeast Asia Trust)

### Introduction

iShares MSCI India Index ETF ("MSCI India ETF"), a sub-fund of the iShares Southeast Asia Trust (the "Trust"), was launched and commenced trading on 15 June 2006 on the Singapore Exchange Securities Trading Limited ("SGX-ST") under the trading name of "IS MS INDIA US\$" and Exchange ticker of "I98". Effective on 15 June 2012, other than the US dollars, the MSCI India ETF is also traded in Singapore dollars on SGX-ST. The Singapore dollars trading line of MSCI India ETF is under the trading name of "IS MS INDIA S\$D" and Exchange ticker of "QK9".

The MSCI India ETF was established as an authorised scheme under the Securities and Futures Act 2001 of Singapore and obtained designation of an exchange traded fund ("ETF") from the SGX-ST. MSCI India ETF is benchmarked against the MSCI India Index. The Manager of MSCI India ETF is BlackRock (Singapore) Limited (the "Manager"). The Manager has appointed the Hong Kong domiciled BlackRock Asset Management North Asia Limited (the "Sub-Manager") as the sub-manager of the MSCI India ETF under a sub-management agreement entered into between the Manager and the Sub-Manager (the "Sub-Management Agreement"). Under the Sub-Management Agreement, the Manager has discretion to delegate its investment management functions of MSCI India ETF to the Sub-Manager.

The MSCI India ETF invests in the Indian market via the Mauritius Subsidiary. The Mauritius Subsidiary is registered as a sub-account of the Manager, which is registered as a Foreign Portfolio Investor ("FPI") with the Securities Exchange Board of India, allowing the Mauritius subsidiary to invest directly in Indian securities.

### A. Sub-Fund Performance<sup>1</sup>

MSCI India ETF seeks to provide investment results that closely correspond to the performance of the MSCI India Index before fees and expenses. MSCI India ETF invests into the Indian market through its wholly owned Mauritius Subsidiary which invests in Indian securities.

At the close of 31 December 2021, the NAV per unit (based on the last traded prices of the investments) of the MSCI India ETF was US\$12.40 and 8,500,000 units were outstanding. The total size of the MSCI India ETF was approximately US\$105.4 million. A summary of the performance of MSCI India  ${\sf ETF}$  is given below:

Total Return <sup>2</sup> in US\$ as of 31 December 2021	1-Month	3-Month	6-Month	1-Year
Net DIV MSCI India Total Return Index in US\$ <sup>4</sup>	3.73%	-0.21%	12.33%	26.23%
Sub-Fund NAV Return in US\$ <sup>5</sup>	3.45%	-0.39%	10.92%	22.74%
Sub-Fund Price Return (MKT) in US\$ <sup>6</sup>	0.91%	-1.69%	7.50%	20.81%

Total Return <sup>2</sup> in US\$ as of 31 December 2021	3-Year (Annualised)	5-Year (Annualised)	Since Inception <sup>3</sup> (Annualised)
Net DIV MSCI India Total Return Index in US\$ <sup>4</sup>	16.20%	15.08%	9.44%
Sub-Fund NAV Return in US\$ <sup>5</sup>	13.82%	13.13%	7.89%
Sub-Fund Price Return (MKT) in US\$ <sup>6</sup>	13.04%	12.72%	7.79%

Source: BlackRock and MSCI

As of 31 December 2021, MSCI India Index consists of 106 constituents and all of them are large and mid-cap India companies in MSCI universe. The difference in performance between the MSCI India Index and MSCI India ETF can be largely explained by the MSCI India ETF's expenses.

#### Sector Weights

As of 31 December 2021, the index sector weights and portfolio weights, (as represented by holdings of the Mauritius Subsidiary against the net asset attributable to unitholders of MSCI India ETF), are listed below.

Sector	Index Weights %	Portfolio Weights %
Consumer Discretionary	8.27	8.57
Consumer Staples	8.60	8.89
Energy	11.32	11.70
Financial	23.85	24.68
Health Care	4.97	5.14
Industrial	4.77	4.92
Information Technology	19.83	20.50
Materials	9.96	10.30
Communication	3.14	3.25
Real Estate	0.65	0.68
Utilities	4.63	4.79

<sup>1</sup> Past performance figures shown are not indicative of the future performance of the Sub-Fund.
<sup>2</sup> Total returns represent the rate that an investor would have earned (or lost) on an investment, assuming reinvestment of all dividends and distributions.

<sup>9</sup> This is annualised return since fund inception and fund inception date is 15 June 2006.

<sup>4</sup> An investor cannot invest directly in an index and the index performance returns do not reflect management fees, transaction costs or other expenses, which would reduce performance returns.

<sup>5</sup> Units in the Sub-Fund are issued and redeemed at their NAV in exchange for a basket of securities representing the MSCI India Index. Therefore, the Sub-Fund does not publish a bid price and the Sub-Fund's returns have been calculated from NAVs; and assuming reinvestment of all dividends.

<sup>6</sup> Market returns are calculated using historical market closing prices (when NAV is normally determined for the Sub-Fund), and do not represent the returns you would receive if you traded shares at other times.

#### (ii) Expense Ratio

As at 31 December 2021	0.34%
As at 31 December 2020	0.35%

The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio at 31 December 2021 and 31 December 2020 was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/ losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Sub-Fund does not pay any performance fee. The average net asset value is based on the daily balances.

#### (iii) Turnover Ratio

As at 31 December 2021	8.80%
As at 31 December 2020	22.65%

The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investment divided by the average daily net asset value.

#### L. Outbreak of coronavirus

An outbreak of an infectious respiratory illness caused by a novel coronavirus known as COVID-19 has developed into a global pandemic. The impact of this significant event on the Sub-Fund's financial risk exposure is disclosed in Note 9(a)(i).

The Manager has assessed the impact of market conditions arising from the COVID-19 outbreak on the Sub-Fund's ability to meet its investment objectives. Based on the latest available information, the Sub-Fund continues to be managed in line with its investment objectives, with no significant disruption to the operations of the Sub-Fund and the publication of net asset values.

iShares J.P. Morgan USD Asia Credit Bond ETF (formerly known as iShares J.P. Morgan USD Asia Credit Bond Index ETF)

(a Sub-Fund of iShares Southeast Asia Trust)

#### Introduction

iShares J.P. Morgan USD Asia Credit Bond ETF (formerly known as iShares J.P. Morgan USD Asia Credit Bond Index ETF) (the "USD Asia Credit Bond ETF"), a sub-fund of the iShares Southeast Asia Trust (the "Trust"), was launched and commenced trading on 2 June 2011 on the Singapore Exchange Securities Trading Limited ("SGX-ST") under the trading name of "IS ASIA BND US\$" and Exchange ticker of "N6M". Effective on 15 June 2012, other than the US dollar, the USD Asia Credit Bond ETF is also traded in Singapore dollars on SGX-ST. The Singapore dollar trading line of the USD Asia Credit Bond ETF is under the trading name of "IS ASIA BND S\$D" and Exchange ticker of "QL2".

The USD Asia Credit Bond ETF was established as an authorised scheme under the Securities and Futures Act 2001 of Singapore and obtained designation of an exchange traded fund ("ETF") from the SGX-ST. The USD Asia Credit Bond ETF is benchmarked against the J.P. Morgan Asia Credit Index - Core (the "JACI Core"). The JACI Core consists of liquid US dollar denominated debt instruments issued out of Asia ex-Japan by Asia-domiciled sovereigns, quasi-sovereigns and corporates. The Manager of the USD Asia Credit Bond ETF is BlackRock (Singapore) Limited.

### A. Sub-Fund Performance<sup>1</sup>

The USD Asia Credit Bond ETF seeks to provide investment results that, before fees and expenses, closely correspond to the performance of the JACI Core in US dollar terms.

At the close of 31 December 2021, the NAV per unit (based on the bid prices of the investments) of the USD Asia Credit Bond ETF was US\$10.81 and 7,405,754 units were outstanding. The total size of the USD Asia Credit Bond ETF was approximately US\$80.07 million.

A summary of the performance of the USD Asia Credit Bond ETF is given below:

Total Return <sup>2</sup> in US\$ as of 31 December 2021	1-Month	3-Month	6-Month	1-Year
JACI Core Total Return Index in US\$4	-0.14%	-0.26%	-0.67%	-0.17%
Sub-Fund NAV Return in US\$⁵	-0.12%	-0.31%	-0.77%	-0.42%
Sub-Fund Price Return (MKT) in US\$ <sup>6</sup>	0.18%	-0.36%	-0.46%	-0.63%

Total Return <sup>2</sup> in US\$ as of 31 December 2021	3-Year (Annualised)	5-Year (Annualised)	Since Inception <sup>3</sup> (Annualised)
JACI Core Total Return Index in US\$4	6.09%	4.67%	5.09%
Sub-Fund NAV Return in US\$ <sup>5</sup>	5.90%	4.48%	4.92%
Sub-Fund Price Return (MKT) in US\$ <sup>6</sup>	6.04%	4.59%	4.90%

Source: BlackRock and J.P.Morgan

As of 31 December 2021, the JACI Core consists of 1,408 bonds denominated in US dollars which are issued by Asiadomiciled sovereigns, quasi-sovereigns and corporates. The difference in performance between the USD Asia Credit Bond ETF and the JACI Core can be largely explained by the fees and expenses of the USD Asia Credit Bond ETF and security misweights due to the use of representative sampling.

#### Sector Weights

As of 31 December 2021, the index sector weights are listed below.

Sector	Index Weights %	Portfolio Weights %
Consumer	7.90	7.99
Financial	19.26	19.22
Industrial	17.33	15.66
Media & Telecom	4.25	4.63
Oil & Gas	4.56	5.00

iShares USD Asia High Yield Bond ETF (formerly known as iShares Barclays USD Asia High Yield Bond Index ETF)

(a Sub-Fund of iShares Southeast Asia Trust)

#### Introduction

iShares USD Asia High Yield Bond ETF (formerly known as iShares Barclays USD Asia High Yield Bond Index ETF) (the "USD Asia High Yield Bond ETF"), a sub-fund of the iShares Southeast Asia Trust (the "Trust"), was launched and commenced trading on 8 December 2011 on the Singapore Exchange Securities Trading Limited ("SGX-ST") under the trading name of "IS ASIA HYGUS\$" and Exchange ticker of "O9P". Effective on 15 June 2012, other than the US dollars, the USD Asia High Yield Bond ETF is also traded in Singapore dollars on SGX-ST. The Singapore dollar trading line of the USD Asia High Yield Bond ETF is under the trading name of "IS ASIA HYGS\$D" and Exchange ticker of "QL3".

The USD Asia High Yield Bond ETF was established as an authorised scheme under the Securities and Futures Act 2001 of Singapore and obtained designation of an exchange traded fund ("ETF") from the SGX-ST. The USD Asia High Yield Bond ETF is benchmarked against the Bloomberg Asia USD High Yield Diversified Credit Index (formerly known as Bloomberg Barclays Asia USD High Yield Diversified Credit Index) (the "BAHY Index"). The BAHY Index consists of fixedrate US dollar-denominated government-related and corporate high yield debt of the Asia ex-Japan region. Issuer exposures are capped at 4% of the overall index market value for diversification. The Manager of the USD Asia High Yield Bond ETF is BlackRock (Singapore) Limited.

### A. Sub-Fund Performance<sup>1</sup>

The USD Asia High Yield Bond ETF seeks to provide investment results that, before fees and expenses, closely correspond to the performance of the BAHY Index in US dollar terms.

At the close of 31 December 2021, the NAV per unit (based on the bid prices of the investments) of the USD Asia High Yield Bond ETF was US\$8.53 and 256,514,879 units were outstanding. The total size of the USD Asia High Yield Bond ETF was approximately US\$2.19 billion.

A summary of the performance of the USD Asia High Yield Bond ETF is given below:

Total Return <sup>2</sup> in US\$ as of 31 December 2021	1-Month	3-Month	6-Month	1-Year
BAHY Total Return Index in US\$ <sup>4</sup> Sub-Fund NAV Return in US\$ <sup>5</sup>	-1.58% -1.33%	-7.40% -7.26%	-13.60% -13.72%	-12.60% -12.95%
Sub-Fund Price Return (MKT) in US\$6	-1.27%	-7.18%	-13.54%	-13.14%

Total Return <sup>2</sup> in US\$ as of 31 December 2021	3-Year (Annualised)	5-Year (Annualised)	Since Inception <sup>3</sup> (Annualised)
BAHY Total Return Index in US\$ <sup>4</sup>	1.65%	1.61%	5.25%
Sub-Fund NAV Return in US\$ <sup>5</sup>	1.17%	1.17%	4.85%
Sub-Fund Price Return (MKT) in US\$ <sup>6</sup>	1.17%	1.23%	4.83%

Source: BlackRock and Barclays

As of 31 December 2021, the BAHY Index consists of 315 bonds denominated in US dollar which are issued by Asiadomiciled sovereigns, quasi-sovereigns and corporates. The difference in performance between the USD Asia High Yield Bond ETF and the BAHY Index can be largely explained by the fees and expenses of the USD Asia High Yield Bond ETF and security misweights due to the use of representative sampling.

I. Soft Dollar Commission Received by the Managers

During the financial year ended 31 December 2021, the Manager confirmed that no soft dollar commission arrangements existed in relation to directing transactions of the USD Asia High Yield Bond ETF through a broker or dealer.

### J. Other Material Information

There is no other material information that will adversely impact the valuation of the USD Asia High Yield Bond ETF.

#### **K. Supplemental Information on Underlying Sub-Funds** Not applicable.

### L. Outbreak of coronavirus

An outbreak of an infectious respiratory illness caused by a novel coronavirus known as COVID-19 has developed into a global pandemic. The impact of this significant event on the Sub-Fund's financial risk exposure is disclosed in Note 9(a)(i).

The Manager has assessed the impact of market conditions arising from the COVID-19 outbreak on the Sub-Fund's ability to meet its investment objectives. Based on the latest available information, the Sub-Fund continues to be managed in line with its investment objectives, with no significant disruption to the operations of the Sub-Fund and the publication of net asset values.

### Report of the Trustee

For the financial year ended 31 December 2021

The Trustee is under a duty to take into custody and to hold the assets of the sub-funds of iShares Southeast Asia Trust, comprising iShares MSCI India Index ETF, iShares J.P. Morgan USD Asia Credit Bond ETF (formerly known as iShares J.P. Morgan USD Asia Credit Bond Index ETF) and iShares USD Asia High Yield Bond ETF (formerly known as iShares Barclays USD Asia High Yield Bond Index ETF) (collectively referred to as the "Sub-Funds") in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Sub-Funds during the year covered by these financial statements, set out on pages 16 to 47, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

For and on behalf of the Trustee HSBC INSTITUTIONAL TRUST SERVICES (SINGAPORE) LIMITED

17 March 2022

### Statement by the Manager

For the financial year ended 31 December 2021

In the opinion of BlackRock (Singapore) Limited, the accompanying financial statements set out on pages 16 to 47, comprising the Statements of Total Return, Statements of Financial Position, Statements of Movements of Unitholders' Funds, Statements of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial positions and the portfolio holdings of the sub-funds of iShares Southeast Asia Trust, comprising iShares MSCI India Index ETF, iShares J.P. Morgan USD Asia Credit Bond ETF (formerly known as iShares J.P. Morgan USD Asia Credit Bond Index ETF) and iShares USD Asia High Yield Bond ETF (formerly known as iShares Barclays USD Asia High Yield Bond Index ETF) (collectively referred to as the "Sub-Funds") as at 31 December 2021 and the financial performance and movements in unitholders' funds for the financial year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants. At the date of this statement, there are reasonable grounds to believe that the Sub-Funds will be able to meet their financial obligations as and when they materialise.

For and on behalf of **BlackRock (Singapore) Limited** 

### Patrick kar Peck LEUNBartin Brian COOK

17 March 2022

Independent Auditor's Report to the Unitholders of iShares Southeast Asia Trust (Constituted under a Trust Deed in the Republic of Singapore)

#### Our Opinion

In our opinion, the accompanying financial statements of the sub-funds of iShares Southeast Asia Trust, comprising iShares MSCI India Index ETF, iShares J.P. Morgan USD Asia Credit Bond ETF (formerly known as iShares J.P. Morgan USD Asia Credit Bond Index ETF) and iShares USD Asia High Yield Bond ETF (formerly known as iShares Barclays USD Asia High Yield Bond Index ETF) (collectively referred to as the "Sub-Funds") are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants, so as to present fairly, in all material respects, the financial positions and portfolio holdings of the Sub-Funds as at 31 December 2021, and the financial performance and movements of unitholders' funds for the financial year ended on that date.

#### What we have audited

The financial statements of the Sub-Funds comprise:

- the Statements of Total Return for the financial year ended 31 December 2021;
- the Statements of Financial Position as at 31 December 2021;
- the Statements of Movements of Unitholders' Funds for the financial year ended 31 December 2021;
- the Statements of Portfolio as at 31 December 2021; and
- the Notes to the Financial Statements, including a summary of significant accounting policies.

#### **Basis for Opinion**

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Independence

We are independent of the Sub-Funds in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

#### Our Audit Approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the accompanying financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements for the financial year ended 31 December 2021. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in our audit is related to existence and valuation of investments.

#### Valuation and existence of investments

The value of the Sub-Funds' investments is presented on the Statements of Financial Position.

The valuation and existence of investments were areas of focus because investments represent the principal element of the net asset value as disclosed on the Statements of Financial Position in the financial statements.

#### How our audit addressed the Key Audit Matter

We tested the valuation of the Sub-Funds' investment portfolio by comparing the prices used in valuation to independent third party sources. The results of our testing were consistent with the pricing used in the Sub-Funds.

We tested the existence of investments by obtaining confirmations directly from independent custodians or the underlying fund's transfer agent regarding the quantity of investment holdings. Based on the procedures we performed, we found the Sub-Funds' holdings of investments to be in agreement with the confirmations received.

Independent Auditor's Report to the Unitholders of iShares Southeast Asia Trust (Constituted under a Trust Deed in the Republic of Singapore)

#### **Other Information**

The Sub-Funds' Manager (the "Manager") is responsible for the other information. The other information comprises all the sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Manager for the Financial Statements

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Sub-Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Sub-Funds or to cease the Sub-Funds' operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Sub-Fund's financial reporting process.

# Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Funds' internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Manager with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Independent Auditor's Report to the Unitholders of iShares Southeast Asia Trust (Constituted under a Trust Deed in the Republic of Singapore)

# Auditor's Responsibilities for the Audit of the Financial Statements (continued)

From the matters communicated with the Manager, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Paul Sammy Pak.

### (Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements

### For the financial year ended 31 December 2021

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

### 1. The Trust

iShares Southeast Asia Trust (the "Trust") is a Singaporeconstituted umbrella unit trust created by a trust deed dated 31 May 2006 made under Singapore law between BlackRock (Singapore) Limited as Manager and HSBC Institutional Trust Services (Singapore) Limited as Trustee (the "Principal Deed"). The Principal Deed has been amended by a supplemental deed dated 15 June 2006, an amending and restating deed dated 24 June 2010, a second amending and restating deed dated 6 May 2011, a third amending and restating deed dated 11 November 2011, a fourth amending and restating deed dated 30 March 2012, a second supplemental deed dated 15 November 2012, a fifth amending and restating deed dated 1 July 2013, a third supplemental deed dated 27 April 2015, a sixth amending and restating deed dated 28 June 2019, a seventh amending and restating deed dated 28 December 2020 and a fourth supplemental deed 24 August 2021. each made between the Manager and the Trustee (as amended, the "Trust Deed"). The Trust is authorised under Section 286 of the Securities and Futures Act 2001 of Singapore.

As at 31 December 2021, there are three sub-funds (the "Sub-Funds") established under the Trust:

Name of Sub-Fund	Listing Date on the Singapore Exchange Securities Trading Limited ("SGX-ST")
iShares MSCI India Index ETF	15 June 2006
iShares J.P. Morgan USD Asia Credit Bond ETF (formerly known as iShares J.P. Morgan USD Asia Credit Bond Index ETF)	2 June 2011
iShares USD Asia High Yield Bond ETF (formerly known as iShares Barclays USD Asia High Yield Bond Index ETF)	8 December 2011

These financial statements relate to the three Sub-Funds.

#### iShares MSCI India Index ETF ("MSCI India ETF")

MSCI India ETF is the first sub-fund of the Trust and seeks to provide an investment return that corresponds generally to the performance of a diversified portfolio of Indian stocks as measured by the MSCI India Index.

All investments of MSCI India ETF are held through its investment in its wholly-owned subsidiary, iShares MSCI India Mauritius Company (the "Subsidiary").

#### <u>iShares J.P. Morgan USD Asia Credit Bond ETF (formerly</u> <u>known as iShares J.P. Morgan USD Asia Credit Bond Index</u> <u>ETF) ("USD Asia Credit Bond ETF")</u>

The investment objective of USD Asia Credit Bond ETF is to provide investment results that, before fees and expenses, closely correspond to the performance of the J.P. Morgan Asia Credit Index - Core in US Dollar terms.

#### <u>iShares USD Asia High Yield Bond ETF (formerly known as</u> <u>iShares Barclays USD Asia High Yield Bond Index ETF) ("USD</u> <u>Asia High Yield Bond ETF")</u>

The investment objective of USD Asia High Yield Bond ETF is to provide investment results that, before fees and expenses, closely correspond to the performance of the Bloomberg Asia USD High Yield Diversified Credit Index (formerly known as Bloomberg Barclays Asia USD High Yield Diversified Credit Index) in US Dollar terms.

#### 2. Significant Accounting Policies

(a) Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss, in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" ("RAP 7") issued by the Institute of Singapore Chartered Accountants in July 2020 for the financial year beginning on or after 1 July 2020.

The adoption of the revised RAP7 did not result in substantial changes to the accounting policies of the Sub-Funds and had no material effect of the amounts reported for the current or prior years.

(b) Recognition of income

Dividend income is recognised when the right to receive payment is established.

Interest income is recognised on a time proportion basis using the effective interest method.

- (c) Financial assets at fair value through profit or loss
  - (i) Initial recognition

Purchase of investments is recognised on the trade date. Investments are recorded at fair value on initial recognition.

(ii) Subsequent measurement

Investments are subsequently carried at fair value. Net changes in the fair value of investments are included in the Statements of Total Return in the year in which they arise.

# (Constituted under a Trust Deed in the Republic of Singapore) Notes to the Financial Statements (continued)

#### (iii) Derecognition

Investments are derecognised on the trade date of disposal. The resultant realised gains and losses on the sales of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statements of Total Return.

(iv) Investment valuation

# MSCI India ETF

MSCI India ETF's investment in Subsidiary and the underlying investments held by its Subsidiary have been designated at fair value through profit or loss at inception as they are managed as portfolio and their performance evaluated on a fair value basis in accordance with the MSCI India ETF's offering document.

The investment in the Subsidiary is valued at fair value, which is based on the latest net asset value of the Subsidiary's participating shares. The Investment Manager reviews the details of the net asset value information obtained from the Administrator's Delegate - HSBC Institutional Trust Services (Singapore) Limited.

#### <u>USD Asia Credit Bond ETF and USD Asia High Yield Bond</u> <u>ETF</u>

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the reporting date. The quoted market price for the investments held by USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF is the current market quoted bid price, consistent with the inputs prescribed in the respective Sub-Fund's prospectus for the calculation of its per share trading value for creations and redemptions.

# (d) Due from and due to brokers

Due from and due to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statement of Financial Position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

#### (e) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand which are subject to an insignificant risk of changes in value. These also include bank overdrafts that form an integral part of the Sub-Fund's cash management. Bank overdrafts are shown in current liabilities in the statement of financial position.

#### (f) Receivables

Receivables, including amount due from unitholders are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These amounts are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

(g) Payables

Payables, including amount due to unitholders and accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

- (h) Foreign currencies
  - (i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Sub-Funds operate (the "functional currency"). The financial statements are presented in United States dollars ("USD"), which is the Sub-Funds' functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the reporting date are recognised in the Statements of Total Return. Translation differences on non-monetary financial assets and liabilities such as equities are also recognised in the Statements of Total Return within the fair value net gain or loss.

(i) Investment entity and consolidation

#### MSCI India ETF

The financial statements of MSCI India ETF do not consolidate the financial performance and position of the Subsidiary.

The majority of the MSCI India ETF's investors are not related to the MSCI India ETF. MSCI India ETF holds multiple investments indirectly through its Subsidiary. MSCI India ETF is deemed to meet the definition of an investment entity per Financial Reporting Standard 110 'Consolidated Financial Statements' as the following conditions exist:

(a) MSCI India ETF has obtained funds for the purpose of providing investors with investment management services;

# (Constituted under a Trust Deed in the Republic of Singapore) Notes to the Financial Statements (continued)

- (b) MSCI India ETF's business purpose, which was communicated directly to investors, is investing solely for returns from capital appreciation and investment income; and
- (c) The performance of investments made through the Subsidiary are measured and evaluated on a fair value basis.

Although MSCI India ETF does not meet all of the typical characteristics of an investment entity (namely, MSCI India ETF does not have multiple investments), it is nevertheless an investment entity because it was formed in conjunction with its Subsidiary and effects multiple investments through its Subsidiary.

As such, consolidated financial statements have not been prepared for the MSCI India ETF. In these non-consolidated financial statements, the MSCI India ETF's investment in its Subsidiary is carried at fair value through profit or loss.

# (j) Distributions

The Manager has the absolute discretion to determine whether a distribution is to be made. In such an event, an appropriate amount will be transferred to a distribution account, to be paid out on the distribution date. This amount shall not be treated as part of the property of the Sub-Funds. Distributions are accrued for at the reporting date if the necessary approvals have been obtained and a legal or constructive obligation has been created.

(k) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Sub-Funds or the counterparty.

(I) Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. A structured entity often has some or all of the following features or attributes:

- (a) restricted activities;
- (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors;

- (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support; and
- (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

MSCI India ETF considers its investment in the Subsidiary to be an investment in an unconsolidated structured entity. MSCI India ETF invests in the Subsidiary whose objectives range from achieving medium to long-term capital growth. The Subsidiary is managed by a related asset manager and applies various investment strategies to accomplish its respective investment objectives. The Subsidiary finances its operations by issuing redeemable units which are puttable at the holders' option and entitles the holder to a proportional stake in MSCI India ETF's net assets. MSCI India ETF holds redeemable units in the Subsidiary.

The changes in fair value of the Subsidiary are included in the Statements of Total Return in "Net gains/losses on investments".

# 3. Taxation

#### MSCI India ETF, USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF Enhanced-Tier Fund Tax Incentive Scheme

MSCI India ETF, USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF are awarded tax exemption status by the Monetary Authority of Singapore ("MAS") under the Enhanced-Tier ("ETF") Scheme (Section 13U\* of the Income Tax Act and the relevant Regulations). Subject to certain conditions being met on an annual basis, the Sub-Funds may enjoy Singapore corporate tax exemption on "specified income" derived from "designated investments" for the life of the Sub-Funds. Losses from "designated investments" are correspondingly disregarded, with certain exceptions. The terms "specified income" and "designated investments" are defined in the relevant income tax Regulations. The Trustee of the Sub-Funds ensures that the Sub-Funds fulfill their reporting obligations under the ETF Scheme.

\* The Singapore Attorney General issued the Revised Edition of Acts 2020 effective 31 December 2021 which streamlined and renumbered various Acts, including for the Income Tax Act. The ETF Scheme previously provided under section 13X of the Income Tax Act is now provided under section 13U of the Income Tax Act 1947.

# India Capital Gains Tax

The MSCI India ETF invests in India listed securities through the Mauritius Subsidiary. To obtain benefits under the double taxation treaty between Mauritius and India ("the tax treaty"), the Mauritius Subsidiary must meet certain tests and conditions annually, including the establishment of Mauritius tax residency status and related requirements. The Mauritius Subsidiary has obtained a tax residence certification ("TRC") from the Mauritius Revenue Authority and should be eligible for benefits under the tax treaty.

# (Constituted under a Trust Deed in the Republic of Singapore) Notes to the Financial Statements (continued)

On 10 May 2016, the Indian Tax Board announced a phased removal of the capital gains tax ("CGT") exemption under the tax treaty. The change, effective from 1 April 2017, resulted in India retaining taxation rights on capital gains arising from sales of shares of Indian resident companies acquired by a Mauritius entity on or after 1 April 2017. Shares acquired prior to 1 April 2017 would still be protected from taxing rights in India.

Further, effective 1 April 2018, capital gains (exceeding INR 100,000) realised from the sale of direct investments in India listed securities which were held for a period of more than 12 months are subject to long term CGT under new provisions included in the Income Tax Act. For India listed securities held on or before 31 January 2018, any notional long term capital gains up to that date are grandfathered and sheltered from tax via a cost base step up to fair market value as at 31 January 2018 (where applicable).

Based on the above, gains arising on disposal of shares by the Mauritius Subsidiary acquired prior to 1 April 2017 were not subject to tax. Gains on disposal of shares acquired after 1 April 2017 will be subject to tax according to the relevant local laws. The Manager established a provisioning policy which requires the Sub-Funds investing directly into Indian securities to provision for the unrealised capital gains tax. The Manager will continue to monitor and review the impact of India tax law changes on the Mauritius Subsidiary.

In preparing these financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

#### India Withholding Tax on Dividends received by the Mauritius Subsidiary

Prior to 1 April 2020, as per the Indian tax laws, any dividends declared by the Indian companies were exempt from tax in the hands of the shareholders. However, the Indian companies at the time of declaring, distributing or paying the dividend would be liable to pay Dividend Distribution Tax ("DDT") at the effective rate of 20.555% on the amount of dividends.

The Finance Act 2020 abolished DDT with effect from 1 April 2020 and dividend income is now taxable in the hands of the shareholders at the applicable rates. Further, the Indian companies at the time of declaring, distributing or paying the dividend would be liable to withhold tax on dividend distribution which will be available as a credit to the shareholder.

USD Asia Credit Bond ETF	2021 US\$	2020 US\$

The overseas income tax represents tax deducted at source on interest derived from outside Singapore.

# 4. Investment in Subsidiary

MSCI India ETF

	2021		20	20
	Holdings         Fair value         Holdings         Fa           No. of shares         US\$         No. of shares         Fa		Fair value US\$	
iShares MSCI India Mauritius Company	7,787,955	105,397,773	7,842,746	85,841,795

The Subsidiary is a private company with liability limited by shares incorporated in Mauritius. The Subsidiary is a wholly owned subsidiary of MSCI India ETF. MSCI India ETF and its Subsidiary operate as an integrated structure whereby MSCI India ETF invests into the Subsidiary by subscribing for the Subsidiary's participating shares. The Subsidiary allows redemption of these participating shares on a daily basis.

Total net redemption made by MSCI India ETF during the year ended 31 December 2021 were of US\$669,498 (2020: net redemption of US\$20,976,978). As at 31 December 2021 and 2020, there were no capital commitment obligations and no amounts due to the Subsidiary for unsettled purchases.

During the financial year ended 31 December 2021, total net gain on investments in the Subsidiary were US\$20,225,477 (2020: net gains of US\$7,864,350).

# 5. Cash and bank balances

The amounts in cash and bank balances are placed with a financial institution which is a related company of the Trustee.

The carrying amount of bank balances approximates their fair value.

The Sub-Funds have credit facilities with The Hongkong and Shanghai Banking Corporation Limited ("HSBC"), which is the related company of the Trustee. As at 31 December 2021 and 2020, the banking overdraft facility lines available to the following Sub-Funds were as follows:

Overdraft facility	2021 US\$	2020 US\$
USD Asia Credit Bond ETF	1,500,000	1,500,000
USD Asia High Yield Bond ETF	2,000,000	2,000,000

(Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

The Sub-Funds have not utilised any of the above overdraft facility as at 31 December 2021 and 2020.

Net Asset Value Per Unit (US\$)	8.53	10.31

There is no difference between the net assets attributable to unitholders per unit per the financial statements and the net assets attributable to unitholders per unit for issuing/ redeeming units at the reporting date.

# 9. Financial Risk Management

The Sub-Funds' activities may expose them to a variety of financial risks including but not limited to market risk (including price, currency and interest rate risk), liquidity risk and credit risk, which are associated with the financial statements and markets in which the Sub-Funds invest.

The following is a summary of the main risks and risk management policies.

# (a) Market risk

Market risk is the risk of potential adverse changes to the value of financial investments because of changes in market conditions like interest and currency rate movements and volatility in security prices. The Sub-Funds' objective are to track the performance of their respective indexes, therefore, the exposure to market risk in the Sub-Funds will be substantially the same as that of the indexes. As index-tracking exchange-traded funds, the Manager manages the Sub-Funds' exposure to market risk by ensuring that the key characteristics of the portfolio, such as security weight and industry weight, is closely aligned to their respective index characteristics.

#### (i) Price risk

The Sub-Funds are exposed to price risk. This arises from investments held by the Sub-Funds for which prices in the future are uncertain. They are classified on the Statements of Financial Position as Portfolio of Investments. All securities investments present a risk of loss of capital. Except for equities sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from equities sold short can be unlimited.

Price risk is managed and monitored by the Manager on a portfolio basis, with risks managed through ensuring that investment activities are undertaken in accordance with the Sub-Funds' investment model which is reviewed and updated regularly. The Manager continuously monitors the Sub-Funds' holdings relative to the recommended portfolio, and the exposure of the Sub-Funds is monitored to ensure that they remain within designated ranges or asset allocation constraints.

An outbreak of an infectious respiratory illness caused by a novel coronavirus known as COVID-19 has developed into a global pandemic and has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. The impact of COVID-19 has adversely affected the economies of many nations across the entire global economy, individual issuers and capital markets, and could continue to extents that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social, and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

The summarised VaR Analysis in Note 9 (a)(ii) explains how the market price risk is measured and summarises the potential exposure of the Sub-Funds' net assets attributable to unitholders.

# (Constituted under a Trust Deed in the Republic of Singapore) Notes to the Financial Statements (continued)

# (ii) Summarised VaR Analysis

Value at Risk (VaR) is a risk model used to estimate the potential losses that could occur on the Sub-Fund's net asset value position due to movements in interest rates, currency and market prices over a given period and for a specified degree of confidence.

The Manager uses VaR analysis and/or tracking error estimates to measure and manage risk as these are commonly used and understood models and are consistent across different types, asset classes and types of sub-funds. For the purpose of these accounts VaR analysis has been presented. The objective in all cases is to estimate potential losses and manage the downside risk.

The following table summarises the outputs of the VaR model in relation to interest rate, currency and price risk exposures. The total VaR figures are not the sum of individual risk components as VaR takes into account the correlations between different risk factors.

The Manager calculates the VaR relative to the Sub-Fund's total value. The analysis implies that the Manager can be 99% confident that the value of the portfolio will not decrease by any more than the figures in the table below over the 20 day period from 31 December.

	2021		2020	
	Amount	%	Amount	%
MSCI India ETF USD Asia Credit Bond ETF USD Asia High Yield Bond ETF	16,369,930 1,337,177 171,023,797	15.53 1.67 7.82	15,836,539 1,477,515 4,475,504	18.44 2.40 3.02

# Detailed information about the models

There are a number of different VaR models used within the funds management industry. The Manager uses one or more of ex-ante and ex-post estimates of portfolio risk and the Monte Carlo simulation model depending on the fund type.

Models are calculated using historical data and a covariance matrix where applicable.

In financial year ended 31 December 2020, the VaR model did not wholly represent the 'abnormal period' of the month of March and April 2020 due to the market disruption caused by the COVID-19 pandemic. There is no abnormal period for financial year ended 31 December 2021. The models used by the Manager have the following features:

- VaR is calculated to a 99 per cent confidence level;
- VaR at a confidence level identifies the maximum expected loss under that confidence level;
- VaR is calculated for a 20 day holding period. The time horizon of twenty days is selected to coincide with the period used to analyse the portfolio positions. The risk data is examined in various daily, weekly and monthly forums; and
- The portfolio VaR is not the simple sum of individual asset stand alone VaRs; the correlations among assets in the portfolio are considered.

Although VaR is a valuable risk management tool it should be interpreted, as with all predictive models, with consideration to its assumptions and limitations. The main assumptions and limitations are listed below:

- Some models assume certain financial variables are normally distributed: The normality assumption allows the Manager to scale portfolio risk estimates to the appropriate confidence levels. The normality assumption is derived from statistical analysis for examining sample populations of observations and the implications of not assuming normality would preclude the use of most statistical tools including mainstream commercial models for risk measurement.
- The use of historical returns and correlations between assets would not take into account future potential events: It is a commonly stated and well recognised limitation that past performance is not a reliable indicator of future performance.
- Model risk, in general terms, is a known limitation that includes: the quality or accuracy of the underlying data, where significant events occur within the data, the changing sensitivity of the Sub-Fund's assets to external market factors over time, and appreciating that using only one model may be limiting in itself to obtaining the best understanding of a Sub-Fund's risk position.
- The Manager acknowledges these limitations and thus compares ex-ante and ex-post risk estimates to review expectations versus actual outcomes. Should ex-post values differ significantly from ex-ante returns, an assessment of the reasons for this will be made.

(Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

The Sub-Fund's risk is managed with constant review of both performance and risk numbers by the investment professionals within the business. These reviews consist of:

- Weekly meetings between the global members of Risk & Quantitative Analysis (RQA). These meetings include RQA Hong Kong and RQA Singapore;
- Monthly meetings between RQA and the Fund Managers;
- Monthly meetings between RQA and the Chief Investment Officer;
- Regular review of performance figures along with a comparison of ex-ante versus ex-post returns; and
- RQA professionals sitting and working closely with the Fund Managers every day.

# (iii) Currency risk

# <u>MSCI India ETF</u>

The MSCI India ETF is exposed to currency risk related to the US Dollar against Indian Rupee ("INR") through the investment of its Subsidiary.

The summarised VaR Analysis in Note 9(a)(ii) explains how the currency risk is measured and summarises the potential exposure of the Sub-Funds' net assets attributable to unitholders.

The table below summarises the Subsidiary's net exposure, monetary and non-monetary assets with all other variables held constant, which are denominated in a currency other than the US dollars.

	USD equivalent - 2021		USD equiva	alent - 2020
Currency	Monetary	Non-monetary	Monetary	Non-monetary
INR	56,383	109,012,101	20,614	87,386,423

#### <u>USD Asia Credit Bond ETF and USD Asia High Yield Bond</u> <u>ETF</u>

The majority of the financial assets and liabilities of USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF are held in USD denominated instruments. As a result, they are not subject to significant currency risk. (iv) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. Interest rate movements affect the value of fixed income securities more directly than equities, and is a major risk to USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF.

The majority of the financial assets and liabilities of MSCI India ETF are non-interest bearing. As a result, they are not subject to significant amount of risk due to fluctuations in the prevailing levels of market interest rates.

USD Asia Credit Bond ETF and USD Asia High Yield Bond ETF invest primarily in debt securities which are subjected to interest rate fluctuations. As interest rates rise, prices of fixed income securities may fall and vice versa. The rationale is that as interest rates increase, the opportunity cost of holding a fixed income security increases since investors are able to realise greater yields by switching to other investments that reflect the higher interest rate. The Manager regularly assess the economic condition, monitor changes in interest rates outlook and take appropriate measures accordingly and discuss with the index provider.

The summarised VaR Analysis in Note 9(a)(ii) explains how the interest rate risk is measured and summarises the potential exposure of the Sub-Funds' net assets attributable to unitholders.

The following tables summarise the Sub-Funds' exposure to interest rate risk. They include the Sub-Funds' assets and liabilities at fair value, categorised by the interest rate types.

#### (b) Liquidity risk

Liquidity risk is the risk that the Sub-Funds may not be able to generate sufficient cash resources to settle their obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Sub-Funds are exposed to daily cash redemptions and disbursements for the settlement of purchases. The liquidity risks associated with the need to satisfy unitholders' requests for redemptions are mitigated by maintaining adequate liquidity to satisfy usual redemption volumes and investing predominantly in securities that the Manager expects to be able to liquidate in a relatively short period of time. The Sub-Funds also maintain continuous monitoring of forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. The Manager considers and maintains the liquidity of the Sub-Funds, in the context of the investment objectives and liquidity requirements per the issued Prospectuses.

The Sub-Funds' financial liabilities are repayable within 12 months. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

# (c) Credit risk

The Sub-Funds take on exposure to credit risk, which is the risk that the counterparty will be unable to pay amounts in full when due, including transactions with counterparties such as participating dealers, issuers, brokers, custodians and banks.

The Manager has in place procedures for proper credit screening and monitoring of credit risk. The Sub-Funds invest mostly in financial assets, which have credit ratings assigned by Standard and Poor's or Moody's or Fitch's. The credit ratings are reviewed regularly. The following table analyses the Sub-Funds' investments by credit ratings.

	Credit Rating*	Source of Credit Rating
<b>Bank</b> The Hongkong and Shanghai Banking Corporation Limited	AA-	Standard & Poor's
<b>Custodian</b> The Hongkong and Shanghai Banking Corporation Limited	AA-	Standard & Poor's

# As at 31 December 2020

	Credit Rating*	Source of Credit Rating
<b>Bank</b> The Hongkong and Shanghai Banking Corporation Limited	AA-	Standard & Poor's
<b>Custodian</b> The Hongkong and Shanghai Banking Corporation Limited	AA-	Standard & Poor's

\* Credit rating refers to the long term default issuer rating of the financial institution.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets.

The Sub-Funds measure credit risk and expected credit loss using probability of default exposure at default and loss given default. The Manager consider both historical analysis and forward looking information in determining any expected credit loss. As at 31 December 2021 and 2020, dividend receivables, other receivables and bank balances are held with counterparties with a sound credit rating and are due to be settled within 3 months. The Manager consider the probability of default to be close to zero as the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowances has been recognised based on 12 month expected credit loss as any such impairment would be wholly insignificant to the Sub-Funds.

# (d) Capital Management

The Sub-Funds' capital are represented by the net assets attributable to unitholders. The Sub-Funds strive to invest the subscriptions of redeemable participating units in investments that meet the Sub-Funds' investment objectives while maintaining sufficient liquidity for the on-going management of the Sub-Funds.

(e) Fair value estimation

The Sub-Funds classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

# (Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

The following table analyses within the fair value hierarchy the Sub-Funds' financial assets and liabilities (by class) measured at fair value at 31 December 2021 and 2020:

# MSCI India ETF

# As at 31 December 2021

	US\$	US\$	US\$	US\$
Assets Portfolio of Investments Financial Assets Designated at Fair Value Through Profit or Loss - Quoted Debt Securities	_	147,319,211	_	147,319,211

Investments whose values are based on quoted market prices in active markets and therefore classified within level 1, comprise active listed equities. The Sub-Funds do not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds and overthe-counter derivatives.

Investments classified within level 3 have significant unobservable inputs, as they are infrequently traded. There were no investment classified as level 3 as at 31 December 2021 and 2020.

There were no transfers between the levels of investments held by the Sub-Funds during the year ended 31 December 2021 and 2020.

The assets and liabilities included in the Statements of Financial Position except Portfolio of Investments are carried at amortised cost; their carrying values are a reasonable approximation of fair value.

# 10. Related Party Transactions

The Manager and the Trustee of the Sub-Funds are BlackRock (Singapore) Limited and HSBC Institutional Trust Services (Singapore) Limited, respectively.

HSBC Institutional Trust Services (Singapore) Limited is a subsidiary of the HSBC Holdings PLC.

# (Constituted under a Trust Deed in the Republic of Singapore)

Notes to the Financial Statements (continued)

Management fees are paid to the Manager. Trustee fees, registrar fees and custody fees are paid to the Trustee or its related company (as applicable) from the management fees based on terms set out in the Trust Deed.

	2021	2020
Expense Ratio <sup>1</sup>	0.50%	0.50%
Turnover Ratio <sup>2</sup>	25.47%	55.24%

<sup>1</sup> The expense ratios have been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). MSCI India ETF's expense ratio is the sum of the Sub-Fund's expense ratio and the weighted average of the underlying fund's expense ratio.

The calculation of the Sub-Funds' expense ratios at 31 December 2021 and 2020 was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include (where applicable) brokerage and other transaction costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of the other funds and tax deducted at source or arising out of income received. The Sub-Funds do not pay any performance fee. The average net asset value is based on the daily balances.

The following table presents the total operating expenses and average daily net asset values of the Sub-Funds for the year ended 31 December 2021 and 2020:

# MSCI India ETF

	2021 US\$	2020 US\$
Total Operating Expenses Average Daily Net Asset Value Weighted Average Expense Ratio of	697,792 97,124,385	516,147 75,936,583
the Underlying Fund	0.34%	0.35%

# USD Asia Credit Bond ETF

	2021 US\$	2020 US\$
Total Operating Expenses	215,975	146,305
Average Daily Net Asset Value	72,887,804	48,132,846

#### USD Asia High Yield Bond ETF

	2021 US\$	2020 US\$
Total Operating Expenses	3,199,524	654,707
Average Daily Net Asset Value	634,619,696	129,712,488

<sup>2</sup> The portfolio turnover ratios are calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments divided by the average daily net asset value as below:

# <u>MSCI India ETF</u>

	2021 US\$	2020 US\$
Total Value of Purchases or Sales	-	3,354,752
Average Daily Net Asset Value	97,124,385	75,936,583

# MSCI India ETF's Underlying Fund

	2021 US\$	2020 US\$
Total Value of Purchases or Sales	8,541,617	17,198,342
Average Daily Net Asset Value	97,091,446	75,918,238

# USD Asia Credit Bond ETF

	2021 US\$	2020 US\$
Total Value of Purchases or Sales	31,723,120	14,569,037
Average Daily Net Asset Value	72,887,804	48,132,846

# USD Asia High Yield Bond ETF

	2021 US\$	2020 US\$
Total Value of Purchases or Sales	161,628,006	71,647,407
Average Daily Net Asset Value	634,619,696	129,712,488

<sup>3</sup> There were no purchases by the MSCI India ETF into the Underlying Fund during the financial year ended 31 December 2021. Hence, the lower of purchases and sales (US\$669,498) is determined to be nil.
