WHO WE ARE

Incorporated in Singapore in 1981 and listed on the Mainboard of the Singapore Exchange Securities Trading Limited in 2007, Avi-Tech Electronics Limited is a total solutions provider for burn-in, manufacturing and printed circuit board assembly ("PCBA") and engineering services for the semiconductor, electronics, life sciences and other emerging industries. We also provide robotics solutions with powerful navigation and intelligent fleet management software for use in a wide range of applications including manufacturing, logistics, healthcare, hospitality and other industries.

Our core business segments include Burn-in Services, Manufacturing and PCBA Services, and Engineering Services. Our customers are global leaders, including Original Equipment Manufacturers, in semiconductor automotive, networking and industrial products.

OUR MARKET PRESENCE

Located in Singapore, our headquarters and production facility support all our business segments and is equipped with advanced burn-in systems, many of which are designed and fabricated in-house.

Our market presence has expanded beyond Singapore to Malaysia, Thailand, Vietnam, the Philippines, Taiwan, the People's Republic of China, Japan, the United States of America and Europe, to support our global customers.

OUR AWARDS AND ACHIEVEMENTS

We are proud to have been conferred the prestigious Singapore Quality Award ("SQA") by the SQA Governing Council in 2008 for achieving world-class standard of performance excellence which reaffirms our already strong credentials in the international market.

In recognition of our commitment towards quality assurance and business excellence, we also garnered the Singapore Quality Class award by Enterprise Singapore in 1998 (with award renewals in 2001, 2003 and 2005) and won the Enterprise 50 award (Ranking: 1st) by the Singapore Economic Development Board in 1999. In addition, we have achieved ISO 9001, ISO 14001 and ISO 13485 certifications.

BURN-IN SERVICES

We provide Static Burn-In, Dynamic Burn-In, Test During Burn-In and High Power Burn-In for semiconductor manufacturers, serving the segment of the industry that requires fail-safe or high reliability semiconductor devices including microprocessors and microcontrollers for automotive, networking products and mobile devices. Our portfolio of customers spans Asia-Pacific, Europe and the United States of America and includes some of the key players in the global semiconductor industry.

Under this business segment, we also provide Tape and Reel Services which deliver customers' finished products in reel form. Currently, we handle different packages ranging from BGA, TSSOP, VQFN and DSO, with round-the-clock delivery and collection services for our customers.

MANUFACTURING AND PRINTED CIRCUIT BOARD ASSEMBLY ("PCBA") SERVICES

We are involved in the design, manufacture and assembly of a wide range of Burn-In boards as well as boards for other types of reliability tests such as High Temperature Operating Life Test and Highly Accelerated Stress Test. We are qualified and licensed to build Burn-In boards for high power devices. We also provide imaging and diagnostic solutions, design printed circuit boards and provide niche PCBA Services for the medical, mobile communications, optics and aviation industries. We are constantly challenging ourselves to raise our competencies in board design and manufacturing, and assembly capabilities to meet the dynamic and increasingly sophisticated customer requirements.

ENGINEERING SERVICES

Our engineering services range from design and development to full turnkey outsourced manufacturing and system integration of semiconductor equipment and lab automation systems for the life sciences and biotech industries. We also recommend enhancements and improvements to our customers' designs and design for manufacturability as a value-added service to them.

One of our competitive strengths is the provision of system integration services for refrigeration-based High Power Burn-In Systems and Lithography Tool for semiconductor front-end applications. We have significantly expanded our engineering services in this area of specialisation since 2006. Currently, our integration projects also include Charged Coupled Device

cameras for astronomy and life sciences applications, digital imagers as well as customised Light-Emitting Diode drivers and products for various applications. In addition, we distribute and service third-party Mixed Signal Testers used in the semiconductor industry.

Under this segment, we also provide robotics solutions with powerful navigation and intelligent fleet management software for use in a wide range of applications including manufacturing, logistics, healthcare, hospitality and other industries.

GROUP FINANCIAL HIGHLIGHTS

The Group registered net profit growth of 28.5% to \$6.0 million in FY2020 (FY2019: \$4.6 million) and notably, we also improved our gross profit margin to 35.7% (FY2019: 31.4%) through productivity enhancements and tighter cost control, coupled with reduced weighted products' cost. Earnings per share rose to 3.49 cents (FY2019: 2.72 cents).

Group revenue declined 12.5% to \$29.4 million (FY2019: \$33.6 million) and Singapore operations contributed 58.5% of Group revenue (FY2019: 57.0%) while the US contributed 20.8% (FY2019: 19.2%). The rest of the Group's revenue was contributed by Malaysia and other regions which contributed 9.0% (FY2019: 10.7%) and 11.7% (FY2019: 13.1%), respectively.

Segmentally, our Burn-In Services and Manufacturing and Printed Circuit Board Assembly ("PCBA") Services business segments continued to drive the Group's performance while Engineering Services business segment narrowed its losses as compared to FY2019.

We capped our performance with a strong balance sheet. As at 30 June 2020, the Group's total assets were \$59.2 million against total liabilities of \$7.9 million, and the net asset value per share was 29.95 cents (FY2019: 28.97 cents).

Cash flow wise, the Group generated net cash from operating activities of \$9.7 million in FY2020 (FY2019: \$6.1 million), resulting in a healthy cash position of \$38.3 million¹.

DEAR SHAREHOLDERS

The business environment in the financial year ended 30 June 2020 ("FY2020") was extremely challenging due to the escalating trade war between China and the US which disrupted global supply chains and impacted trade flows in the automotive, electronics, telecommunications and networking industries. The situation was further exacerbated by the COVID-19 pandemic in the second half of FY2020 which brought the world's economy to a near standstill on the back of border closures and movement restrictions imposed by governments across the globe.

Notwithstanding these trying circumstances, Avi-Tech Electronics Limited ("Avi-Tech" or "the Group") was able to navigate steadily with an unwavering focus on enhancing our core competencies and stringently managing costs to turn in a creditable performance in FY2020. The strong foundation that we built over the years has enabled us to continue to expand our capabilities, upgrade our technologies and upskill our people to better serve customer needs. The Group's financial strength has also allowed us to tap opportunities to invest in future growth industries while still continuing to provide immediate returns to shareholders in the form of dividends.

REAFFIRMED COMMITMENT TO SHAREHOLDER RETURNS

Taking into account the Group's profitability, strong balance sheet and net positive operating cash flow, the Board is proposing a final dividend of 1.0 cent per ordinary share and a special dividend of 0.5 cents per ordinary share. Including the interim dividend of 1.0 cent per ordinary share, the dividend yield is $6.1\%^2$, and the dividend payout ratio is 71.6% of FY2020 net profit which is significantly above our dividend policy of distributing not less than 30% of the Group's consolidated net profit after tax and non-controlling interest, and excluding nonrecurring, one-off and exceptional items, for that financial period.

The proposed dividends despite the current economic climate is a reaffirmation of the Group's commitment to ensuring consistent returns to shareholders. Subject to shareholders' approval at the upcoming annual general meeting, the dividend will be paid on 27 November 2020.

ENHANCING CORE COMPETENCIES WHILE INVESTING STRATEGICALLY

The current situation has presented unprecedented challenges which impact almost every industry, ours being no exception. While we cannot control the external economic factors, we can steer and manage the internal dynamics of our operations. Hence, in the immediate future, our focus will continue to be on enhancing our core service offerings, further increasing productivity and improving efficiencies, investing in our workforce and intensifying digitalisation and automation, while instilling discipline in cost management and prudence in expenditure.

Even in the midst of a downturn, we continue to seek opportunities for expansion and growth through mergers and acquisitions or other business alliances in industries which are complementary to our competencies or to which we can add value. To this end, we ventured into one such industry recently. Recognising the accelerated push towards digitalisation caused by the COVID-19 pandemic and the fast-growing importance of artificial intelligence, we made a strategic investment of \$500,000 in robotics software solutions for deployment in a wide range of industrial and commercial applications. We will look for other similar opportunities, always with the underlying goal of enhancing shareholder value and achieving sustainable growth for the Group.

OUTLOOK

The ongoing threats posed by the COVID-19 pandemic to economic recovery, the deteriorating relations between the United States and China manifested by the escalating trade war and growing protectionist sentiment globally, will lead to more volatile times ahead. Closer to home, Singapore is in its worstever recession, with GDP forecasted to be between -7 per cent and -5 per cent in 2020³. The Ministry of Trade and Industry has also warned that even with an expected pick-up in the second half of the year, there exists considerable uncertainty over the pace of recovery of international markets, given current movement restrictions and international border closures.

For the automotive semiconductor segment, while the outlook remains uncertain, the projected intensifying demand for data centres, servers, digital infrastructure and cloud services may provide opportunities. Looking at the totality of factors, the Group is maintaining a cautious outlook for FY2021.

Over the longer term, the prospects for the sector remained bright given the push from 5G technology and the automotive sector. These prospects are further strengthened considering advancements in artificial intelligence, robotics and other frontier technological research and development, which may benefit our business segments.

IN APPRECIATION

In conclusion, we would like to extend our heartfelt appreciation to our customers, business associates and shareholders for their continued support. We would also like to commend our management and staff for their hard work, commitment and tenacity in the face of such a daunting business climate. Last but not least, we thank our Board of Directors, for their strategic counsel and steady stewardship. We will continue to work relentlessly towards ensuring returns to our shareholders and value to all our stakeholders.

He has strong banking experience, having held senior roles at Barclays Capital (Barclays Bank) and Deutsche Bank as their Vice President for client management. In Mr Wang's previous executive roles, he was responsible for finance, corporate treasury, investments, SGX-ST reporting, planning, developing and implementing business strategies across the organisations. While with the banks, he was responsible for supporting corporate clients with a wide range of financial services and products including acquisition financing, capital market financing, loan syndications, treasury and general advisory work, to assist them effectively to manage their corporate financial risks and funding requirements.

Mr Wang holds a Bachelor of Arts (Economics) degree from Simon Fraser University, British Columbia, Canada.

MR LAU TOON HAI

Vice President of Quality Assurance

Mr Lau Toon Hai is our Vice President of Quality Assurance. He joined our Group in 1994 and is responsible for setting up and maintaining a functional quality organisation and Business Excellence System for our Group. Areas falling under his duties and responsibilities include overseeing the quality assurance aspects of our entire Group and driving our Group's Business Excellence Management System to keep alongside with current industrial and commercial standards such as Business Excellence, Responsible Business Alliance, Quality and Environmental management system and our customers' requirements.

Mr Lau has over 20 years of experience in the electronics engineering industry. Prior to joining our Group, he worked with companies such as Philips (S) Pte Ltd, Archive (S) Pte Ltd and Conner Peripherals (S) Pte Ltd.

Mr Lau holds a Diploma in Electronics and Communications Engineering from Singapore Polytechnic.

MR DESMOND OW YANG CHIEN KHANG Director of Operations (Services)

Mr Desmond Ow Yang is our Director of Operations (Services). He joined our Group in 1999 and oversees the Group's Burn-In operations. Mr Ow Yang is also responsible for the production, planning, engineering and maintenance support of the Group and is the internal auditor for ISO 9001 and ISO 14001 certifications.

Mr Ow Yang started as a Burn-In Engineer with our Group and was in charge of the set-up and introduction of new products and processes in Burn-In operations to meet customers' requirements. He was promoted to Senior Engineer and subsequently, Engineering Manager, to manage the Engineering team in providing technical solutions and support to customers. During that period, he was also responsible for Sales and Customer Services for Burn-In Services, Tape and Reel, Visual Inspection and other services, for both local and overseas customers.

Mr Ow Yang holds a Bachelor of Engineering (Honours) degree from the University of Aberdeen, United Kingdom.

MR ALLAN NGO YU WEI

Director of Operations (Manufacturing)

Mr Allan Ngo is our Director of Operations (Manufacturing). He joined our Group in 2003 and is responsible for our operations related to Manufacturing and Printed Circuit Board Assembly Services ("PCBA") as well as Engineering Services.

Mr Ngo was in charge of the Burn-In Board Manufacturing Services division where he was the Production Manager managing the planning, process, manufacturing and logistics operations of the department. He was promoted to Director of Operations (Manufacturing), overseeing the operational aspects of Supply Chain Management, Manufacturing and PCBA Services and Engineering Services.

Mr Ngo holds a Diploma in Electronics, Computer and Communication Engineering from Nanyang Polytechnic, Singapore, and a Bachelor of Science degree in Business from the Singapore University of Social Sciences.

MR BAMBANG HANDOKO SUTEDJO Director of Sales

Mr Bambang Handoko Sutedjo is our Director of Sales. He joined our Group in 1993 and is responsible for the sales and marketing of Burn-In Services, Manufacturing and PCBA Services and Engineering Services both locally and overseas. Mr Sutedjo is also in charge of the PCB design team.

Mr Sutedjo has more than 20 years of experience in the semiconductor industry. He was previously the Senior Manager of Sales and Marketing of our Group, responsible for the management of Burn-In Board Manufacturing-related local and overseas sales. Prior to joining our Group, he was a Field Service Engineer with SETA Corporation in Charlotte, North Carolina, USA.

Mr Sutedjo holds a Bachelor of Science in Electrical Engineering degree from the Tennessee Technological University of Cookeville, Tennessee, USA.

The Group closed the financial year ended 30 June 2020 ("FY2020") with revenue of \$29.4 million, a decrease of 12.5% over revenue in the financial year ended 30 June 2019 ("FY2019"). The major contributor to Group revenue was the Manufacturing and Printed Circuit Board Assembly ("PCBA") Services business segment which reported revenue of \$14.1 million as compared to \$18.8 million in FY2019. The Burn-In Services business segment grew its revenue to \$11.1 million from \$10.6 million in FY2019. The Engineering Services business segment maintained its FY2019 revenue of \$4.2 million.

BURN-IN SERVICES

The Burn-In Services business segment contributed 37.8% of the Group's revenue as compared to 31.4% in FY2019 and was the largest contributor to Group profit in FY2020. The business segment's performance came on the back of continued need for burn-in services from the automotive industry with higher demand for electric vehicles as well as the networking, cloud computing and mobile handset industries, given the uptrends in these sectors.

Increasing productivity and improving processes were the main focus of the segment for this financial year. Our existing equipment was upgraded and improved to meet stringent technical requirements of the customer. We fabricated a new oven with up-to-date features replacing older technologies to improve accuracy and productivity. We also applied new design to current hardware to improve ergonomics and efficiency during the boardtesting process. We continued to invest in automation to enable more efficient use of resources. Cost management, manpower training and upskilling were other areas of focus for the business segment. Better utilisation was made of existing machinery through cosharing of process equipment. Staff were sent for courses such

as language upgrading, as well as given cross-training opportunities within the department to increase their skill set, enhance job performance and improve their career paths.

Given the current economic environment, we will continue to keep abreast of external conditions and closely align our offerings, operations and resources to market demands to ensure we remain relevant and efficient. The need to digitalise and automate further is evident from the ongoing labour and other supply issues brought about by the COVID-19 pandemic. While the trade war between the US and China is causing uncertainty, particularly in the semiconductor market, and the negative effect of the COVID-19 pandemic on industries such as automotive and electronics will pose near-term challenges, the long-term outlook for the industry remains robust with the trend towards smart cities, autonomous driving and increased deployment of artificial intelligence ("AI"), all of which will necessitate fail-safe, high reliability burn-in tests.

MANUFACTURING AND PCBA SERVICES

The Manufacturing and PCBA services business segment contributed 47.9% of the Group's revenue as compared to 56.0% in FY2019, riding on demand from the automotive, networking, telecommunications and aviation industries.

During the year, we increased our customer base as well as deepened our relationship and collaboration with existing clientele. We achieved qualification with a substantial Chinese conglomerate which will enable us to increase our presence in that market. We are currently working towards qualification for certain medical customers which have stringent quality and compliance requirements.

Our PCBA services remain stable with increased demand for our imaging and diagnostic capabilities from our aviation customers. As quality workmanship, precision, attention to detail and technological advancement are imperative to maintain our client base and keep ahead of the competition, we continued to invest time and effort in attaining new certifications. We are working towards new certifications on our workmanship to affirm our commitment to our global clientele. We invested in machinery such as a new Testing Pre-screen station to enhance our capability and productivity in a new product platform.

Our smart manufacturing initiative which comprised the adoption of the manufacturing operations management software with mobile shop floor tracking, has realised cost savings, higher productivity and greater efficiency. We are continuing to invest in both hardware and software such as embarking on a tailored, customisable ERP system that is able to meet our business needs and expansion plans. The system, slated to be rolled out in 2021, comprises the development of an intelligent enterprise with specialised manufacturing and execution functions and customer sales automation for productivity improvements in the supply chain. The COVID-19 pandemic will no doubt weigh down on our future performance due to the impact it will have on the industries which we serve. Nonetheless, we remain positive that there will be an eventual uptick in demand due to the impending implementation of $5{\rm G}$ networks, the continued importance of cloud computing, the pervasiveness of the Internet of Things (IoT) and Singapore's move towards digitalisation, all of which signal the need for the services and solutions we offer.

ENGINEERING SERVICES

The Engineering Services business segment contributed 14.3% to Group revenue in FY2020 as compared to 12.6% in FY2019. The business segment benefitted from the gradual recovery in the electronics manufacturing sector and the semiconductor industry in the second half of 2019. Due to stringent cost control measures and enhanced productivity, Engineering Services business segment reduced its losses as compared to FY2020. We are also developing and providing robotics solutions with powerful navigation and intelligent fleet management software for use in a variety of applications catered to manufacturing, logistics, healthcare, hospitality and a myriad of other industries.

The weak global economy projected and the impediments to trade due to the US-China trade war will negatively impact the electronics manufacturing sector which will in turn result in softer demand for our engineering services. We will, nevertheless, seek to expand our service offerings and customer base, and look for new growth opportunities.

HUMAN RESOURCE AND CORPORATE DEVELOPMENT

Our human capital policies are premised on fair employment, diversity and non-discrimination. We are a signatory to the Employers' Pledge of Fair Employment Practices and adhere to the principles entrenched in the Tripartite Guidelines for Fair Employment Practices. Our staff, numbering some 163, is made up of a multitude of races, nationalities, age groups and gender. There are equal opportunities for career progression based on merit and potential and continuous training exists within the Group to help staff fulfil their potential.

In FY2020, 27 managerial staff were given training opportunities which included productivity and innovation courses and the Leadership Accelerator programme. Non-managerial staff gained workplace endorsed qualifications such as the Integrated Assessment Pathway as well as lifesaving courses such as Occupational First Aid and Automated External Defibrillator.

aplegen

Management organised dialogue sessions on 16 and 17 December 2019 to get a better understanding of staff concerns. Christmas lunch and dinner, health talks and screenings were some of the other activities organised as part of the Group's outreach and wellness programme.

As for the Group's commitment towards upholding the highest industry standards, in 2020 we maintained the following international certifications: ISO 13485:2016 (quality management systems) and ISO 14001:2015 (environmental management systems).

CORPORATE SOCIAL RESPONSIBILITY AND SUSTAINABILITY

We have been a benefactor to Bright Vision Hospital since December 2015. Bright Vision Hospital is a 317-bed community hospital offering intermediate and long-term holistic care for about 1,500 new patients each year.

As part of our outreach efforts, we also participated in the Silver Fiesta Event organised by YMCA in November 2019. This is our third year volunteering in the event, which aims to promote "Active Ageing in a Digital Society".

The details of our corporate social responsibility and sustainability efforts will be contained in our sustainability report to be uploaded to our website in November this year. The report is prepared in compliance with SGX-ST Listing Rules (711A and 711B) and the SGX Sustainability Reporting Guide and according to the Global Reporting Initiative standards: Core option.

REVENUE BY BUSINESS SEGMENTS (\$'000)

The Burn-in Services business segment represented 37.8% of the Group's revenue in FY2020 (FY2019: 31.4%) with contribution of \$11.1 million, an increase of \$0.5 million or 4.7% in revenue. The increase is attributed to higher sales from key customers.

The Manufacturing and PCBA Services business segment while registering lower revenue of \$14.1 million in FY2020 (FY2019: \$18.8 million), continued to be the main contributor to Group's revenue and maintained its profitability in FY2020.

The Engineering Services business segment reduced its losses in FY2020 while its revenue held steady at \$4.2 million, (FY2019: \$4.2 million).

|--------------|--------|--------|----------|
| Gross Profit | 10,514 | 10,544 | (O.3) |
| Gross Margin | 35.7% | 31.4% | 13.7 |

The Group reported a constant gross profit of \$10.5 million in FY2020, as was the case in FY2019. The Group's gross profit margin also increased from 31.4% in FY2019 to 35.7% in FY2020. The increase in the Group's gross profit margin was attributed to higher weighted average sales in the Burn-In Services business segment, accompanied by a reduction in unit cost of production as a result of the ongoing cost control measures and the enhancement in productivity across all business segments.

IMPAIRMENT LOSS ON OTHER FINANCIAL ASSETS (\$'000)

Represents an impairment loss of bond investment issued under Hyflux Ltd's Medium Term Note Programme. The Group has recognised an impairment loss of \$375,000 for FY2019. In FY2020, a further impairment loss of \$125,000 was recognised in view of the developments in relation to Hyflux Ltd's financial situation. The said bond investment was fully impaired as at 30 June 2020.

ADMINISTRATIVE EXPENSES (\$'000)

| Profit for the year | 5,971 | 4,646 | 28.5 |

The Group reported a profit of \$6.0 million in FY2020 as compared to \$4.6 million in FY2019. The Burn-in Services business segment continued to be the largest contributor in profit for the comparative periods, with the Manufacturing and PCBA Services business segment maintaining profitability while the Engineering Services business segment registered reduced losses in FY2020. The Group's profit in FY2020 was also supported by the grants of \$0.6 million from government support schemes.

* Not meaningful.

The Group generated net cash from operating activities of \$9.7 million in FY2020.

Net cash used in investing activities was \$4.4 million, which was mainly attributed to the fixed deposits placement with financial institutions with over three-month tenures, investment in an associate, and development cost paid for the new SAP system. Net cash used in financing activities was \$4.5 million, which was primarily due to dividend payment.

There was an increase in cash and cash equivalents of \$0.8 million in FY2020.

The Group closed FY2020 with cash and cash equivalents of \$10.6 million.

The Board is committed to setting and maintaining high standards of corporate governance to preserve and enhance the interests of all shareholders. The Board has adopted the recommendations of the Code of Corporate Governance 2018 (the "**Code**").

This report describes the Company's corporate governance processes and activities with specific reference to each of the principles and provisions set out in the Code. The Group has materially complied with all the provisions set out in the Code. In areas where the Company's practices vary from any of the provisions of the Code, we have provided the reasons for the variation and explain how the practices the Company has adopted are consistent with the intent of the relevant principle, where appropriate.

| BOARD M | ATTERS: THE BOARD'S CONDUCT | OF AFFAIRS |
|-----------|--|--|
| Principle | | |
| 1. | The company is headed by an eff for the long-term success of the co | ective Board which is collectively responsible and works with Management ompany |
| Provision | | Disclosure |
| 1.1 | Directors are fiduciaries who act objectively in the best interests of the company and hold Management accountable for performance. The Board puts in place a code of conduct and ethics, sets appropriate tone-from-the-top and desired organisational culture, and ensures proper accountability within the company. Directors facing conflicts of interest recuse themselves from discussions and decisions involving the issues of conflict. | All our Directors are tasked to objectively discharge their duties and responsibilities at all times as fiduciaries in the interests of the Company. The Board has established and functions within a defined set of terms and reference and procedures. According to the Board's terms of reference, the Board has established a clear policy on conflicts of interest in the Company's Directors' Manual, which covers instruction on the duty to avoid conflicts of interest and to give disclosure of conflicting interest, where necessary. The terms of reference also provide that a Director facing conflicts of interest should not vote on the matter under discussion and should recuse himself from the portion of the meeting where there is a potential conflict. A Director should not be counted towards the quorum of any meeting for any resolution where he is recused or debarred from voting. To achieve a high standard of corporate governance, the Company has also implemented a business ethics policy, which establishes the Company's ethical business practice and outlines fundamental principles of ethical business behaviour and the responsibilities of all employees and Company representatives in aligning with them. Please refer to the Company's sustainability report for further details. |
| 1.2 | Directors understand the company's business as well as their directorship duties (including their roles as executive, non- executive and independent directors). Directors are provided with opportunities to develop and maintain their skills and knowledge at the company's expense. The induction, training and development provided to new and existing directors are disclosed in the company's annual report. | The Board ensures that all incoming directors receive comprehensive and tailored induction on joining the Board, including briefing on their duties as a director (including the differences in roles as an (i) executive director which is to, <i>inter alia</i> , provide insights on the Company's day-to- day operations, and provide management's views without undermining management accountability to the Board, as a (ii) non-executive director which is to, <i>inter alia</i> , constructively challenge management and help develop proposals on strategy, and as an (iii) independent director, which is to, <i>inter alia</i> , provide an independent and objective check on management) and how to discharge those duties, and an orientation programme to ensure that they are familiar with the Group's business and governance practices. The Company also provides training for any new first-time director (who has no prior experience as a director in a listed company) in areas such as accounting, legal and industry-specific knowledge as appropriate. All new first-time directors (who have no prior experience as a director in a listed company on the Singapore Exchange Securities Trading Limited (" SGX-ST ") must undergo training in the roles and responsibilities of a director of a listed issuer as prescribed by the SGX-ST. |

| | Upon the appointment of any new director, the Company will provide a formal letter to the director, setting out the director's duties and obligations. |
|--|---|
| | With the objective of enhancing corporate performance and accountability, as well as protecting the interests of stakeholders, the Board has also taken adequate steps to ensure compliance with legislative and regulatory requirements, including requirements under the Listing Manual of the SGX-ST (the "Listing Rules"), by establishing written policies where appropriate. The Independent Directors in consultation with management will request for management's consideration for the establishment of written policies for any particular matter that is deemed to be essential to form part of management control. The Board also reviews legislation and regulatory compliance reports from management to ensure that the Group complies with the relevant regulatory requirements, including requirements under the Listing Rules, with the assistance of the Group's legal advisors. Pursuant thereto and in accordance with the Board's terms of reference, the Board has developed a Directors' Manual that sets out a director's primary and material duties at law, which includes acting in good faith and the best interests of the Company; exercising due care, skills and diligence; and avoiding conflicts of interest. |
| | All Board members are encouraged to receive regular training, particularly on relevant new laws, regulations and changing commercial risks, from time to time. The Board is mindful of the best practice in the Code to initiate programmes for Directors to meet their relevant training needs. In this regard, the Company is supportive of the Directors' participation in industry conferences and seminars, and will fund the Directors' attendance at any course or training programme in connection with their duties as directors. |
| | In the financial year under review, the Directors attended various training programmes and seminars, including seminars organised by the Singapore Institute of Directors ("SID"), SGX-ST, the Accounting and Corporate Regulatory Authority ("ACRA"), Ernst & Young Singapore and/or the Securities Investors Association of Singapore on "Managing Tax Disputes and Controversy"; "Global Corporate Governance Conference: Technology – The New Face Of Governance"; "Board readiness for AGM: Driving enhanced corporate reporting with technology"; "Digitalisation and Innovation for NPO"; "Being a Board Director in the Age of Social Media"; "Singapore Board of Directors Survey 2019"; "Annual Corporate Governance Round Up"; and "Navigating Through A Financial Fraud Investigation". |
| | As required under Rule 210(5)(a) of the Listing Rules, in the financial year under review, the Board and management of the Company have appropriate experience and expertise to manage the Group's business, taking into account the nature and scope of the Group's operations, requirements of the business and the need to avoid undue disruptions from changes to the composition of the Board and Board committees. |

| 1.3 | The Board decides on matters | The Board's role is, <i>inter alia</i> , to: |

| | | identify the key stakeholder groups, ensure transparency and accountability to key stakeholder groups and recognise that their perceptions affect the Company's reputation; and |
| | | set and instil the Company's corporate culture of values and standards (including ethical standards) and ensure that the Company's values, standards, policies, practices and obligations to shareholders and other stakeholders are consistent with the Company's corporate culture and such culture is understood and met. |
| | | The Board's terms of reference have set forth the following matters which are specifically reserved to the Board for approval: |
| | | material acquisitions and disposal of assets; |
| | | • corporate or financial restructuring; |
| | | share issuances (including stock options or other equity awards), dividends and other capital transactions and returns to shareholders; |
| | | approval of annual audited financial statements for the Group and the Directors' Statement thereto; |
| | | any public reports or press releases reporting the results of operations; and matters involving a conflict or potential conflict of interest involving a substantial shareholder or a director. |
| | | Clear directions have also been given to management that such matters must be approved by the Board. |
| 1.4 | Executive Committees (if any), are formed with clear written terms of reference setting out | In accordance with the Code, the Board has, without abdicating its responsibility, established Board committees to assist the Board in discharging its responsibilities and to enhance the Group's corporate governance framework. |
| | their compositions, authorities and duties, including reporting back to the Board. The names of the committee members, the terms of reference, any delegation of the Board's authority to make decisions, and a summary of each committee's activities, are disclosed in the company's annual report. | The Board committees comprise the Audit and Risk Committee (" ARC "), the Nominating Committee (" NC ") and the Remuneration Committee (" RC "), which have been delegated with specific authority. Each Board committee has written terms of reference which clearly set out the authority and duties of the committees, and functions within its own defined terms of reference and procedures. All committees are chaired by an independent Non-Executive Director. All Board members objectively make decisions in the interests of the Company. The composition and the terms of reference and description of each Board committee, any delegation of the Board's authority to make decisions to the Board committees, and a summary of the activities of each Board committee are set out in this report. |

| 1.5 | Directors attend and actively participate in Board and board committee meetings. | | | advising the Board on all governance matters; |
| | | attending all Board and Board committee meetings and preparing the minutes of these meetings; |
| | | ensuring adherence to Board procedures and compliance with relevant Singapore rules and regulations applicable to the Company. Where such rules and regulations relate to foreign jurisdictions, the Company Secretary facilitates liaison between foreign advisors and the Board; |
| | | working with management to ensure good information flows within the Board and the Board committees and between senior management and Non-Executive Directors; and |
| | | facilitating orientation and assisting with professional development as required. |
| | | The appointment and removal of the Company Secretary is a matter for the Board to decide as a whole. |

BOARD COMPOSITION AND GUIDANCE

| Principle | | | |
|--|--|--|--|
| 2. | The Board has an appropriate level of independence and diversity of thought and background in its composition to enable it to make decisions in the best interests of the company. | | |
| Provision | | Disclosure | |
| who is independent in cond character and judgement, of has no relationship with company, its related corporation its substantial shareholders its officers that could interfer or be reasonably perceived interfere, with the exercise of director's independent busin | An "independent" director is one who is independent in conduct, character and judgement, and has no relationship with the company, its related corporations, its substantial shareholders or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the director's independent business judgement in the best interests of the company. | More than one-third of the Board is made up of Independent Directors who offer alternative views of the Group's business and corporate activities. The Board has at least 2 Non-Executive Directors who are independent and free of any material business or financial connection with the Company. There is a strong and independent element on the Board, capable of exercising objective judgement on corporate affairs independently of the Group. The Board's views and opinions often provide different perspectives to the Group's business. No individual or small group of individuals dominates the Board's decision-making. | |
| | | The independence of each Independent Director is reviewed and determined by the NC annually with reference to Rule 210(5)(d)(i) and (ii) of the Listing Rules and also based on guidelines set forth in the Code and the individual Director's declaration. | |
| | | Each Director is requested to disclose to the Board if there is any relationship with the Company, its related corporations, its 5% shareholders or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the Director's independent business judgement with a view to the best interests of the Company (the "Associated Relationships"), as and when it arises. | |
| | | Each of Mr Khor Thiam Beng, Mr Michael Grenville Gray and Mr Goh Chung Meng has also disclosed that he is not, nor has any of his immediate family members: | |
| | (i) in the current financial year or immediate past financial year, provided to or received from the Company or any of its subsidiaries any significant payment or material services (which may include auditing, banking, consulting and legal services), where such payments or services aggregated over any financial year is or was in excess of \$\$50,000, other than Directors' fees received by Mr Khor Thiam Beng, Mr Michael Grenville Gray and Mr Goh Chung Meng (after obtaining shareholders' approval) for board service; and | | |
| | | (ii) in the current financial year or immediate past financial year, is or was a substantial shareholder or a partner in (with 5% or more stake), or an executive officer of, or a director of, any organisation which provided to or received from the Company or any of its subsidiaries any significant payments or material services (which may include auditing, banking, consulting and legal services), such payments or services aggregated over any financial year is or was in excess of \$\$200,000. | |
| | | Each of Mr Khor Thiam Beng, Mr Michael Grenville Gray and Mr Goh Chung Meng has also disclosed that: | |
| | | (a) he is not, and has not been employed by the Company or any of its related corporations for the current financial year or any of the past 3 financial years; and | |
| | | (b) none of his immediate family members are or have been employed by the Company or any of its related corporations for the current financial year or any of the past 3 financial years, and whose remuneration is or was determined by the RC of the Company. | |

| In this report, the term " immediate family " shall carry the same meaning as defined in the Listing Rules. |
|--|
| Each of Mr Khor Thiam Beng, Mr Michael Grenville Gray and Mr Goh Chung Meng has served on the Board for more than 9 years from the respective date of his first appointment. As such, the Board rigorously reviewed their independence in conduct, character and judgement, including determining whether any of the Directors have any Associated Relationships. This review included an assessment by all the other members of the Board of the independence of judgement of Mr Khor Thiam Beng, Mr Michael Grenville Gray and Mr Goh Chung Meng, in view that they have each served on the Board for more than 9 years. The Board also took into consideration and is highly conscious that these Directors have in their conduct and in the discharge of their duties throughout their respective appointment, continuously and constructively challenged management on business decisions, continued to demonstrate strong independence in character and judgement and have remained objective in the discharge of their respective duties and responsibilities. |
| It is a requirement of the Code that the Board should state its reasons if it determines that a director is independent notwithstanding the existence of an Associated Relationship. After taking into consideration the views of the NC and the Board's review, which determined that none of these Directors has any Associated Relationships and that none of the circumstances stated in Rule 210(5)(d)(i) and (ii) of the Listing Rules apply to any of these Directors, the Board considers each of these Directors to be an Independent Director. Neither Mr Khor Thiam Beng, Mr Michael Grenville Gray nor Mr Goh Chung Meng took part in the review of his own independence. |
| On 6 August 2018, the SGX-ST amended the Listing Rules following the publication of the Code by the Monetary Authority of Singapore. As part of the amendments to the Code, certain guidelines from the Code of Corporate Governance 2012 were shifted into the Listing Rules for mandatory compliance. On 28 November 2018, the SGX-ST issued the Transitional Practice Note 3 to establish transitional arrangements for certain guidelines shifted into the Listing Rules. Pursuant thereto and in respect of Rule 210(5)(d)(iii) of the Listing Rules (which comes into effect on 1 January 2022), to ensure that the independence designation of a director who has served for more than 9 years as at and from 1 January 2022 is not affected, the Company had at the previous annual general meeting of the Company (" AGM ") obtained shareholders' approvals for Mr Khor Thiam Beng's continued appointment as an independent director, such approval resolution to remain in force until the earlier of Mr Khor Thiam Beng's retirement or resignation as a Director; or the conclusion of the third AGM following the passing of this resolution, i.e. the AGM in respect of the financial year ending 30 June 2022. |

In respect of the forthcoming AGM of the Company, the NC has recommended the nomination of Mr Michael Grenville Gray and Mr Goh Chung Meng to be re-elected as Independent Directors and such approval to be sought by way of separate resolutions by (A) all shareholders; and (B) shareholders, excluding the Directors and the CEO (as defined below), and associates of such Directors and the CEO, such resolutions to remain in force until the earlier of (X) the retirement or resignation of the Director; or (Y) the conclusion of the third annual general meeting of the Company following the passing of the resolution. The Board has accepted the NC's recommendation.

| 2.2 | Independent directors make up a majority of the Board where the Chairman is not independent. | It is a requirement of the Code that independent directors should make up the majority of the board where the Chairman of the board: (i) is not an independent director; (ii) is also the Chief Executive Officer (" CEO ") of the company (or equivalent); (iii) is an immediate family member to the CEO; (iv) and the CEO have close family ties with each other (i.e. a familial relationship between two parties which extends beyond immediate family members and could influence the impartiality of the Chairman) as determined by the nominating committee; or (v) is part of the management team. Although the Company is not required to comply with this requirement of the Code as the Chairman of the Board: (i) is an Independent Director; (ii) is not the CEO of the Company (or equivalent); (iii) is not an immediate family member to the CEO; (iv) and the CEO do not have close family ties with each other (i.e. a familial relationship between two parties which extends beyond immediate family members and could influence the impartiality of the Chairman) as determined by the NC; and (v) is not part of the management team, the Independent Directors do in fact make up the majority of the Board. | | | | | | |

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

| Principle | | | | | |
|-----------|--|--|--|--|--|
| 3. | There is a clear division of responsibilities between the leadership of the Board and Management, c one individual has unfettered powers of decision-making. | | | | |
| Provision | | Disclosure | | | |
| 3.1 | The Chairman and the CEO are separate persons to ensure an appropriate balance of power, increased accountability, and greater capacity of the Board for independent decision making. | h be separate persons to ensure an appropriate balance of power increased accountability and greater capacity for independent decision making. | | | |
| 3.2 | The Board establishes and sets out in writing the division of responsibilities between the Chairman and the CEO. | As set out in the Board's written terms of reference, the role of the Chairman is to, <i>inter alia</i> : | | | |
| | | • lead the Board to ensure its effectiveness on all aspects of its role; | | | |
| | | • set the agenda and ensure that adequate time is available for discussion of all agenda items, in particular strategic issues; | | | |
| | | • promote a culture of openness and debate at the Board; | | | |
| | | • ensure effective communication with shareholders; | | | |
| | | • encourage constructive relations within the Board and between the Board and management; and | | | |
| | | • promote high standards of corporate governance. | | | |
| | | and the role of the CEO is to, inter alia: | | | |
| | | develop, with the Board, a consensus for the Company's vision and mission; | | | |
| | | develop and implement the strategic plan set by the Board; | | | |
| | | • provide strong leadership and effective day-to-day management of the Company to deliver the plan; | | | |
| | | • drive a culture of compliance and ethical behaviour; | | | |
| | | • ensure appropriate talent management and remuneration frameworks are established; and | | | |
| | | • ensure that the Board is informed about key company activities and issues. | | | |

| 3.3 | The Board has a lead independent director to provide leadership in situations where the Chairman is conflicted, and especially when the Chairman is not independent. The lead independent director is available to shareholders where they have concerns and for which contact through the normal channels of communication with the Chairman or Management are inappropriate or inadequate. | The Board does not consider it presently necessary to appoint a lead independent director as the Chairman of the Board: (i) is an Independent Director; (ii) is not the CEO of the Company (or equivalent); (iii) is not an immediate family member to the CEO; (iv) and the CEO do not have close family ties with each other (i.e. a familial relationship between two parties which extends beyond immediate family members and could influence the impartiality of the Chairman) as determined by the NC; and (v) is not part of the management team. | |
|-----------|---|--|--|
| BOARD M | EMBERSHIP | | |
| Principle | | | |
| 4. | The Board has a formal and transparent process for the appointment and re-appointment of directors, tak into account the need for progressive renewal of the Board. | | |
| Provision | | Disclosure | |
| 4.1 | The Board establishes a Nominating Committee ("NC") to make recommendations to the Board on relevant matters relating to: (a) the review of succession plans for directors, in particular the appointment and/or replacement of the Chairman, the CEO and key management personnel; (b) the process and criteria for evaluation of the performance of the Board, its board committees and directors; (c) the review of training and professional development programmes for the Board and its directors; and (d) the appointment and reappointment of directors, if any). | The NC is regulated by a set of written terms of reference endorsed by the Board, setting out its authority and duties. According to its terms of reference, the responsibilities of the NC include reviewing and making recommendations to the Board relating to: the structure, size and composition of the Board and the Board Committees; succession plans for the Board Chairman, Directors, CEO and members of senior management; the development of a transparent process for evaluating the performance of the Board, its Board Committees and Directors, including assessing whether Directors are able to commit enough time to discharge their responsibilities and the maximum number of listed company Board representations which a Director may hold; training and professional development programmes for the Board; appointment and re-appointment of all Directors (including any alternate directors); and the review and confirmation of the independence of each Director. No alternate directors have been appointed to the Board. In this report, the Company defines the term "key management personnel" to mean the CEO and Executive Officers of the Company. The term "Executive Officers" carries the same meaning as defined in the Listing Rules. | |
| 4.2 | The NC comprises at least three directors, the majority of whom, including the NC Chairman, are independent. The lead independent director, if any, is a member of the NC. | The NC comprises the following 3 Directors, all of whom are independent: Mr Goh Chung Meng – Chairman; Mr Khor Thiam Beng – Member; and Mr Michael Grenville Gray – Member. As disclosed in respect of Provision 3.3 above, the Board does not consider it presently necessary to appoint a lead independent director. | |

| 4.3 | The company discloses the process for the selection, appointment and re-appointment of directors to the Board, including the criteria used to identify and evaluate potential new directors and channels used in searching for appropriate candidates in the company's annual report. | In the selection and nomination of new Directors, the NC identifies the key attributes that an incoming Director should have, based on the attributes of the existing Board and the requirements of the Group. The NC then taps on the Directors' resources for recommendations of potential candidates. Executive recruitment agencies may also be appointed to assist in the search process where necessary. The potential candidates will go through a shortlisting process. Interviews are then set up with the shortlisted candidates for the NC to assess them before a decision is made. As recommended by the NC, a new Director can be appointed by way of a Board resolution. Such Directors must present themselves for re-election at the next AGM of the Company as required under the Constitution. |
|-----|--|---|
| | | Important issues to be considered as part of the process for the selection, appointment and re-appointment of Directors include the composition and progressive renewal of the Board and each Director's competencies, commitment, contribution and performance (e.g. attendance, preparedness, participation and candour) including, if applicable, as an Independent Director. |
| | | The Directors (including the CEO) submit themselves for re-nomination and re-election at regular intervals of at least once in 3 years in compliance with the Company's Constitution and Rule 720(5) of the Listing Manual of the SGX-ST. The Constitution provides that one-third of the Board is to retire from the office annually by rotation at the AGM. Retiring Directors are eligible to offer themselves for re-election. The NC has recommended the nomination of Mr Michael Grenville Gray and Mr Goh Chung Meng for re-election at the forthcoming AGM. The Board has accepted the NC's recommendation. |
| | | Pursuant to Rule 720(6) of the Listing Manual of the SGX-ST, additional information on the Directors seeking election/re-election has been set out in the section titled "Additional Information on Directors Seeking Election/ Re-Election" which is appended to the Notice of AGM. |
| | | Please also refer to our disclosures in respect of Provision 2.1 above with regard to the NC's recommendation of the nomination of Mr Michael Grenville Gray and Mr Goh Chung Meng to be re-elected as Independent Directors at the forthcoming AGM. |
| | | The Company is the view that the current Board member's collection of skills, experience and diversity meets the current needs of the Company. Please refer to the Company's disclosure in respect of Provision 2.4 above for further details. |

| 4.4 | The NC determines annually, and as and when circumstances require, if a director is independent, having regard to the circumstances set forth in Provision 2.1. Directors disclose their relationships with the company, its related corporations, its substantial shareholders or its officers, if any, which may affect their independence, to the Board. If the Board, having taken into account the views of the NC, determines that such directors are independent notwithstanding the existence of such relationships, the company discloses the relationships and its reasons in its annual report. | Please refer to our disclosure in respect of Provision 2.1 above. |
|-----|---|---|
| 4.5 | The NC ensures that new directors are aware of their duties and obligations. The NC also decides if a director is able to and has been adequately carrying out his or her duties as a director of the company. The company discloses in its annual report the listed company directorships and principal commitments of each director, and where a director holds a significant number of such directorships and commitments, it provides the NC's and Board's reasoned assessment of the ability of the director to diligently discharge his or her duties. | Please refer to our disclosures in respect of Provision 1.2 above with regard to new Directors' induction into the Board, briefing on their duties and the receipt of mandatory training as prescribed by the SGX-ST. Key information regarding the Directors' profiles, including directorships or chairmanships both present and those held over the preceding 5 years in other listed companies, and other principal commitments, are set out in this Annual Report. The shareholdings in the Company of the Directors are set out in the Directors' Statement. The NC determines annually whether each Director with multiple directorships or other principal commitments outside of the Group is able to and has been adequately carrying out his duties as a Director of the Company. The NC takes into account the attendance and contributions of the Directors at Board and Board committeen meetings, level of commitment required of the Director's other principal commitments, degree of complexity of the other listed companies where the Director holds directorships, expectations of the Director's obligations in the capacity as director in other organisations, results of the assessment of the effectiveness of the Board as a whole and Board committees, and the respective Director has given sufficient time and attention to the affairs of the Company and has been able to discharge his duties as director effectively. The NC noted that based on the attendance of Board and Board committee meetings during the financial year under review, all the Directors were able to participate in all of such meetings to carry out their duties. The NC is assisted that all the Directors have been able to and had adequately carried out their duties notwithstanding their multiple directorships where applicable and other principal commitments. |

| | | Nonetheless, to ensure that the Directors continue to give sufficient time and attention to the affairs of the Company, the Board has, subject to annual review, determined that the maximum number of directorships and principal commitments which any Director may hold shall be maintained at 5. If the NC considers it necessary, it shall make recommendations to the Board on the guidelines to be implemented to address the competing time commitments faced by Directors serving on multiple boards and with other principal commitments. |

| BOARD PE | ERFORMANCE | |
| Principle | | |
| 5. | The Board undertakes a formal a board committees and individual | nnual assessment of its effectiveness as a whole, and that of each of its directors. |
| Provision | | Disclosure |
| 5.1 | The NC recommends for the Board's approval the objective performance criteria and process for the evaluation of the effectiveness of the Board as a whole, and of each board committee separately, as well as the contribution by the Chairman and each individual director to the Board. | The NC has implemented a formal Board evaluation process, approved by the Board, to be carried out annually to assess the effectiveness of the Board as a whole and its Board committees, namely, the ARC, NC and RC. For the financial year under review, an evaluation of the performance of the Board and its Board committees, and the contribution by the Chairman and each Director to the effectiveness of the Board and its Board committees (where applicable), was conducted. |
| 5.2 | The company discloses in its annual report how the assessments of the Board, its board committees and each director have been conducted, including the identity of any external facilitator and its connection, if any, with the company or any of its directors. | Board accountability, communication with top management and standard |
| | | The NC assesses the effectiveness of the Board as a whole and its Board committees, and the contribution by each Director to the effectiveness of the Board, with input from the CEO. The appraisal process focuses on a set of performance criteria which includes the evaluation of the Board composition and size, the Board process, Board effectiveness and training, the provision of information to the Board, Board standards of conduct and financial performance indicators. Such performance criteria are recommended by the NC and approved by the Board and they address how the Board has enhanced long-term shareholder value. The performance criteria allow for comparison with industry peers and do not change from year to year unless circumstances deem it necessary and a decision to change them would be justified by the Board. The assessment parameters for each Director include attendance record at the meetings of the Board and the Board committees and quality of participation at meetings as well as special contributions. |

| The consolidated findings are reported and recommendations are made to the Board for consideration of further improvements to help the Board to discharge its duties more effectively. Where appropriate, the Chairman will act on the results of such evaluation and, in consultation with the NC and if necessary, propose new members to be appointed to the Board or seek the resignation of directors. |
|--|
| The NC, having reviewed the performance of the Board in terms of its roles and responsibilities and the conduct of its affairs as a whole, is of the view that the Board and the Board committees have operated efficiently, the Board has met its performance objectives and each Director has contributed to the overall effectiveness of the Board in the financial year under review. |
| No external facilitator was appointed for the evaluation of the Board and the Board committees during the financial year under review. |
| Each member of the NC shall abstain from voting on any resolutions and making any recommendations and/or participating in any deliberations of the NC in respect of the assessment of his performance or re-nomination as a Director. |

REMUNERATION MATTERS: PROCEDURES FOR DEVELOPING REMUNERATION POLICIES

 Principle
 The Board has a formal and transparent procedure for developing policies on director and executive remuneration, and for fixing the remuneration packages of individual directors and key management personnel. No director is involved in deciding his or her own remuneration.

| Provision | | Disclosure |
|-----------|---|---|
| 6.1 | The Board establishes a Remuneration Committee (" RC ") to review and make recommendations to the Board | The RC is regulated by a set of written terms of reference endorsed by the Board setting out its authority and duties. According to its terms of reference, the responsibilities of the RC include reviewing and making recommendations to the Board on: |
| | on: (a) a framework of remuneration for the Board and key management personnel; and (b) the specific remuneration packages for each director as well as for the key management personnel. | Executive Directors and Executive Officers with those of shareholders |
| | | and link rewards to corporate and individual performance; and considering whether Directors should be eligible for benefits under long-term incentive schemes. |
| 6.2 | The RC comprises at least three directors. All members of the RC are non-executive directors, the majority of whom, including the RC Chairman, are independent. | The RC comprises 3 Directors, all of whom are non-executive and independent: Mr Goh Chung Meng – Chairman; Mr Khor Thiam Beng – Member; and Mr Michael Grenville Gray – Member. |

| 6.3 | The RC considers all aspects of remuneration, including termination terms, to ensure they are fair. | The aim of the RC is to motivate and retain Directors and Executive Officers without being excessive, and ensure that the Company is able to attract and retain the best talent in the market to drive the Group's businesses forward in order to maximise long-term shareholder value. |
|-----------|---|---|
| | | During the financial year under review, the RC reviewed and made recommendations in relation to the general remuneration framework for the Board as well as regarding the specific remuneration packages of the Directors and Executive Officers and submitted them for endorsement by the entire Board. |
| | | Each member of the RC will abstain from voting and discussing on any resolutions in respect of his own remuneration package. |
| | | The RC reviews the Company's obligations arising in the event of termination of the contracts of service of Executive Directors and Executive Officers to ensure that such contracts of service contain fair and reasonable termination clauses which are not overly generous. The RC aims to be fair and avoid rewarding poor performance when setting the remuneration packages of the Executive Director and Executive Officers. |
| 6.4 | The company discloses the engagement of any remuneration consultants and their independence in the company's annual report. | While none of the members of the RC specialise in the field of executive compensation, the members of the RC do possess broad knowledge in this area and have access to external professional advice. The RC is competent in reviewing and recommending to the Board the appropriate remuneration framework for Directors and Executive Officers in accordance with the terms of reference duly adopted by the Board. No external remuneration consultants were appointed for the financial year under review. However, in reviewing and recommending to the Board the appropriate remuneration framework for Directors and Executive Officers, the RC had reviewed remuneration surveys published by consulting groups and the government. As and when deemed appropriate by the RC, independent expert advice on the remuneration of Directors will be sought at the Company's expense. The RC shall ensure that existing relationships, if any, between the Company and its appointed remuneration consultants will not affect the independence and objectivity of the remuneration consultants. |
| | D MIX OF REMUNERATION | |
| Principle | | |
| 7. | The level and structure of remune proportionate to the sustained pe strategic objectives of the compar | ration of the Board and key management personnel are appropriate and erformance and value creation of the company, taking into account the ny. |
| Provision | | Disclosure |
| 7.1 | A significant and appropriate proportion of executive directors' and key management personnel's remuneration is structured so | The remuneration components of the Executive Directors and Executive Officers comprise the annual fixed cash, annual performance incentives and, where applicable, long-term incentives. |
| | as to link rewards to corporate and individual performance. Performance-related remuneration is aligned with the interests of shareholders and other stakeholders | The annual review of compensation is carried out by the RC to ensure that the remuneration components are market competitive and commensurate with the performance of each Executive Director and Executive Officer and that of the Company, giving due regard to the financial and commercial health and business needs of the Group. |
| | and promotes the long-term success of the company. | The annual fixed cash component comprises the annual basic salary plus fixed allowances which the Company benchmarks against relevant industry market data, where available. |

| | | The annual performance incentive variable bonus is tied to the performance of the Company, business unit and individual employee. Performance conditions to which entitlement to such annual and short-term incentives are subject include benchmarking performance against industry business operation expectations and performance that exceeds such expectations, as well as measuring performance based on the Company's financial performance <i>vis-à-vis</i> industry performance. |
|-----|---|--|
| | | For the financial year under review, the performance conditions for the short-term incentives were generally met. |
| | | In respect of long-term incentives, the Company previously implemented the Avi-Tech Employee Share Option Scheme (" ESOS "), which expired in July 2017. The Board has, in consultation with the RC, considered and weighed the benefits of implementing another employee stock option scheme against the costs and other charges to the Company of such a long-term incentive plan and has, after taking into account various factors, including but not limited to the historical 10-year performance in terms of the effectiveness of the ESOS in aligning the long-term interest of various stakeholders (including employees, management and ultimately, the shareholders of the Company) and influencing significant growth potential improvement, determined that it may be more beneficial to consider other more effective alternatives of long-term incentive implementation, including share award schemes, to promote better alignment of interests between various stakeholders and contributing to the long-term success of the Group. The Board is currently in the midst of considering such other more effective alternatives of long-term incentive implementations. |
| 7.2 | The remuneration of non-executive directors is appropriate to the level of contribution, taking into account factors such as effort, time spent, and responsibilities. | The Non-Executive Directors are paid Directors' fees based on their level of contributions, taking into account factors such as effort and time spent, and responsibilities of each Non-Executive Director in the Board and Board committees. The RC will ensure that the Non-Executive Directors are not over-compensated to the extent that their independence may be compromised. The recommendations made by the RC in respect of the Non-Executive Directors' fees for the financial year under review are subject to shareholders' approval at the forthcoming AGM. |
| 7.3 | Remuneration is appropriate to attract, retain and motivate the directors to provide good stewardship of the company and key management personnel to successfully manage the company for the long term. | The RC exercises broad discretion and independent judgement in ensuring that the amount and mix of compensation are aligned with the interests of shareholders, promote the long-term success of the Company, and recognise the performance, potential and responsibilities of each individual. The mix of fixed and variable reward is considered appropriate for the Group and for each individual role. The performance- related remuneration structure is directly linked to corporate and individual performance. The RC also recognises the need for reasonable alignment between risk and performance-related remuneration to discourage excessive risk taking. As such, in determining the performance-related remuneration structure, the RC had taken into account the risk policies and risk tolerance of the Group, and whether such remuneration is symmetric with risk outcomes and sensitive to the time horizon of risks. |
| | | The Company has 2 Executive Directors. The remuneration package of Mr Lim Eng Hong is based on terms stipulated in his service contract. His remuneration includes a profit-sharing scheme that is performance-related to align his interests with those of the shareholders. His service contract with the Company is for a fixed period and he does not receive any Directors' fee. |

For the financial year under review, the Company wishes to disclose the remuneration of the Executive Directors in bands of S\$250,000, which constitutes a variation from Provision 8.1(a) of the Code. The Company is of the view that the intent of Principle 8 was met, as the remuneration policies and the procedure for setting remuneration applicable to the Executive Directors are described above in our disclosures in respect of Principle 7, the level and mix of remuneration is disclosed in the table below and disclosures in the financial statements of the Company provides sufficient overview of the remuneration of the Group. Moreover, the RC and the Board are of the opinion that the remuneration packages of the Executive Directors are of a confidential and sensitive nature, the disclosure of which would place the Group in a competitively disadvantageous position, and hence have chosen to make disclosures in relation thereto in bands of \$\$250,000. A breakdown, showing the level and mix of each individual Executive Director's remuneration for the financial year under review, is as follows:

| Directors | Fee | Salary | Variable Bonus & Profit Sharing | Benefits in kind | Total |
|-----------------------------------|-----|--------|--|---------------------|-------|
| Band D ⁽¹⁾ | % | % | % | % | % |
| Lim Eng Hong | - | 49 | 46 | 5 | 100 |
| Band A ⁽²⁾ | | | | | |
| Lim Tai Meng Alvin ⁽³⁾ | - | 82 | 15 | 3 | 100 |

Notes:

- (1) Band D means from S\$750,000 up to S\$999,999
- (2) Band A means from S\$1 up to S\$249,999
- (3) Mr Lim Tai Meng, Alvin is the son of Mr Lim Eng Hong, the Company's CEO, Director and controlling shareholder. In incremental bands no wider than S\$100,000, Mr Lim Tai Meng Alvin's total remuneration falls within the S\$200,000 to S\$249,999 band.

A breakdown, showing the level and mix of the top Executive Officers' remuneration (in bands of \$\$250,000) for the financial year under review, is as follows:

| Name | Salary | Variable Bonus & Profit Sharing | Benefits in kind | Total |
|-----------------------|--------|--|---------------------|-------|
| Band B ⁽¹⁾ | % | % | % | % |
| Joseph Wan Nin Choon | 86 | 14 | - | 100 |
| Band A ⁽²⁾ | | | | |
| Lau Toon Hai | 86 | 14 | - | 100 |

Notes:

- (1) Band B means from S\$250,000 up to S\$499,999
- (2) Band A means from S\$1 up to S\$249,999

The Company considers the heads of the corporate functions and the Vice Presidents to be the Executive Officers and top key management personnel of the Company (who are not Directors or the CEO) for the financial year under review. The total remuneration paid to the above Executive Officers is not more than S\$500,000 in the financial year under review.

| 8.2 | The company discloses the names and remuneration of employees who are substantial shareholders of the company, or are immediate family members of a director, the CEO or a substantial shareholder of the company, and whose remuneration exceeds S\$100,000 during the year, in bands no wider than S\$100,000, in its annual report. The disclosure states clearly the employee's relationship with the relevant director or the CEO or substantial shareholder. | Save as disclosed in respect of Provision 8.1 above, the Group did not employ any employees who are substantial shareholders of the Company, or are immediate family member of any Director, the CEO or a substantial shareholder of the Company. " Immediate family " means a spouse, child, adopted child, step-child, brother, sister or parent. In respect of Mr Lim Tai Meng Alvin's total remuneration in incremental bands no wider than S\$100,000, he falls within the S\$200,000 to S\$249,999 band. |
|-----|--|--|
| 8.3 | The company discloses in its annual report all forms of remuneration and other payments and benefits, paid by the company and its subsidiaries to directors and key management personnel of the company. It also discloses details of employee share schemes. | Please refer to our disclosure in respect of Provision 8.1 above for the Company's disclosure of all forms of remuneration and other payments and benefits paid by the Company to Directors and top key management personnel. Persons appointed as directors of the Company's subsidiaries comprise Mr Lim Eng Hong, Mr Wang Nin Choon Joseph and Mr Lim Tai Meng Alvin, who apart from receiving their remuneration from the Company, do not receive any further remuneration from any other companies within the Group. As disclosed in respect of Provision 7.1 above, the Company presently does not have any employee share schemes. |
| | | As disclosed on page 109 of the Company's prospectus dated 11 July 2007, the CEO does not receive any benefits upon the termination of his service contract. His service contract contains non-competition and non-solicitation clauses which are binding on the CEO for a period of 12 months from the date of cessation of employment with the Company. These obligations of non-competition and non-solicitation shall be conditional upon:- (i) shareholders' approval pursuant to Rule 906 of the Listing Rules (if applicable) for the making by the Company to the CEO of 12 monthly payments of \$\$40,000 each from the Company (totalling \$\$480,000), (the " Payment(s) "); and (ii) the receipt of the Payment(s) by the Executive, the first payment of which shall be paid not later than the first day of the month immediately following the cessation date of employment with the Company, and, thereafter on the first day of each following month, time being of the essence. The Company is not obliged to make any Payment(s), or having made Payment(s) or parts thereof, to continue making such Payment(s) to the CEO, in the event the Company decides at any time, in its sole discretion, that the Company does not require the CEO to perform or continue performing the said noncompetition and non-solicitation obligations. |
| | | Save as disclosed above, no other employees or Directors of the Company are entitled to any termination, retirement or post-employment benefits. |

The Board sets up a Board Risk Committee to specifically address this, if appropriate. | The ARC has been established by the Board to assist the Board in carrying out its responsibility of overseeing the Company's risk management framework and policies. In addition, the Company has established a risk management committee comprised of senior executives and co-chaired by the CEO and CFO of the Company, which meets at least once annually, including attendance at a workshop on the Company's risk management framework and policies. Directors are invited to provide their views and input at the workshop. The ARC reviews the findings from the workshop before making recommendations to the Board on the Company's risk management framework and policies. |
| | | The Company has put in place a risk management and internal control system in areas such as financial, operational, compliance and information technology controls. Risk management and internal controls are detailed in formal instructions, standard operating procedures and financial authority limits policies. The principal aim of the internal control system is the management of business risks with a view to safeguarding shareholders' investments and the Group's assets. |
| | | In particular, the Company's Risk Governance and Internal Control (" RGIC ") framework was developed to realise the value of risk management by providing an integrated enterprise-wide perspective of the risks involved in the Company's businesses, and institutionalising a systematic risk assessment methodology for the identification, assessment, management, reporting and monitoring of risks on a consistent and reliable basis. The RGIC Manual sets out, <i>inter alia</i> , the Board's approved Risk Appetite and Risk Tolerance guidance, Authority and Risk Control Matrix, Key Control Activities and Key Reporting and Monitoring Activities to manage and mitigate risks. |
| | | The Company's RGIC framework is constantly refined, ensuring relevance in a dynamic operating environment. The Company keeps abreast of the latest developments and best practices by participating in industry seminars and interacting with risk management practitioners. Continuous training is conducted to build risk awareness and competencies, and systems and tools are put in place to operationalise the risk management framework to support the Company's RGIC framework. |
| | | The management maintains the risk management and internal control systems and the Board monitors the Group's risks through the ARC and internal auditors. In designing these controls, the Company has considered the risks to which the business is exposed, the likelihood of such risks occurring and the costs of protecting against them. |

| The Board is committed to maintaining adequate and effective systems of internal controls (including financial, operational, compliance and information technology controls) and risk management systems to safeguard shareholders' interests and investments, and the Group's assets. The Board recognises the importance of establishing sound internal controls and risk management practices for good corporate governance. The Board affirms its overall responsibility for the Group's systems of internal controls and risk management, and for reviewing the adequacy and effectiveness of those systems, including financial, operational, compliance and information technology controls, on an annual basis. |
|---|
| On an ongoing basis, the Board periodically monitors and assesses the adequacy of the risk management systems that it has put in place and the system of internal controls, and ensure that management takes the appropriate steps to manage and mitigate risks. |
| During the financial year under review, the Board reviewed the adequacy and effectiveness of the Group's internal controls (including financial, operational, compliance and information technology controls) and risk management framework and systems, conducted dialogue sessions with the management to understand the process, and to identify, assess, manage and monitor risks within the Group. |
| The Company has established and maintains, on an ongoing basis, an effective internal audit function that is adequately resourced and independent of the activities it audits, as required under Rule 719(3) of the Listing Rules. The Board has engaged RSM Risk Advisory Pte Ltd, the outsourced internal auditor for the Group, during the financial year under review, to conduct an internal audit on selected key risk areas of the Group and to make recommendations to enhance the internal controls and risk management framework and systems. |
| During the financial year under review, management updated the ARC and the Board on the Group's risk profile, the status of risk mitigation action plans and updates on the following areas: |
| identification of specific "risk owners" who are responsible for the risks identified; |
| assessment of the Group's key risks by major business units and risk categories; |
| description of the processes and systems in place to identify and assess risks to the business and how risk information is collected on an ongoing basis; |
| ongoing gaps in the risk management process such as system limitations in capturing and measuring risks, as well as action plans to address the gaps; |
| status and changes in plans undertaken by the management to manage key risks; and |
| description of the risk monitoring and escalation processes and also systems in place. |
| The Board also considered any additional information necessary to ensure that the Board has taken into account all significant aspects of risks and internal controls for the Group for the financial year under review. |

The Board relies on internal audit reports and the management letter prepared by the external auditors to report on any material noncompliance or internal control weaknesses. In line with the requirements under Rule 1207(10) of the Listing Rules, for the financial year under review, based on the risk management systems and internal controls established and maintained by the Group, work performed by the internal and external auditors, review of the internal audit plan and the internal auditors' evaluation of the system of internal controls and reviews performed by management, various Board committees and the Board, the Board, with the concurrence of the ARC, is of the opinion that the Group's internal controls (including financial, operational, compliance and information technology controls) and risk management systems are adequate and effective as at 30 June 2020 to address financial, operational, compliance and information technology risks which the Group considers relevant and material to its current business scope and environment. The system of risk management and internal controls established by the Group is designed to manage, rather than eliminate, the risk of failure in achieving the Group's goals and objectives. The Board wishes to state that the system of internal controls provides reasonable, but not absolute, assurance as to financial, operational, compliance and information technology risks. No such system can provide absolute assurance against the occurrence of material errors and other situations not currently within the contemplation or beyond the control of the Board. In the financial year under review, many industries were caught up in and affected by macro uncertainty and geopolitical challenges, given the risks of escalating US-China trade tensions. Then in 2020, the world was and continues to be severely impacted by the global effects of the coronavirus epidemic. Subsequently, we are also experiencing an oil-price war was launched, causing global stock markets to suffer, the weakening of market sentiments and the fading of business confidence. As the global pandemic situation prolongs, businesses across different sectors continues to grapple with uncertainties and the threat of a downward revenue trend. In the midst of this, the Group remains cautious on its business outlook in the next financial reporting period and is committed to continue working towards strengthening its core competencies and extending its customer base while at the same time, exploring new opportunities for growth, including mergers and acquisitions, to aid the business and enhance shareholder value. While the near-term visibility is low, the longerterm growth prospects of the semiconductor industry remain unaffected with the rapid advancement and deployment of Internet of Things (IoT) and smart technologies in industries and cities, and the evolution of automotive-related semiconductors due to the irreversible macrotrends of electromobility and autonomous driving. These will create opportunities and may drive demand for our services and augur well for the Group. | 10.5 | The AC meets with the external auditors, and with the internal auditors, in each case without the presence of Management, at least annually. | The ARC meets, at least once annually, with the Group's external and internal auditors, in each case without the presence of management, in order to have free and unfiltered access to information that it may require, to discuss the results of their examinations and the evaluation of the Group's system of risk management and internal controls, and to discuss any problems and concerns which they may have. |

SHAREHOLDER RIGHTS AND ENGAGEMENT: SHAREHOLDER RIGHTS AND CONDUCT OF GENERAL MEETINGS Principle 11. The company treats all shareholders fairly and equitably in order to enable them to exercise shareholders' rights and have the opportunity to communicate their views on matters affecting the company. The company gives shareholders a balanced and understandable assessment of its performance, position and prospects.

| 11.1 | The company provides shareholders with the opportunity to participate effectively in and vote at general meetings of shareholders and informs them of the rules governing general meetings of shareholders. | The Board is accountable to shareholders and ensures that all material information is fully disclosed in a timely manner to shareholders in compliance with statutory and regulatory requirements. The Board provides shareholders with periodic financial reports within the legally-prescribed periods and under the Listing Rules. In presenting financial statements to shareholders, the Board aims to provide shareholders with a balanced and clear assessment of the Group's performance, position, prospects and industry conditions. The responsibility to provide a balanced and understandable assessment extends to interim and other price-sensitive public reports and reports to regulators (if required). |
| | | Financial and other price-sensitive public information are primarily disseminated to shareholders on a timely basis through announcements via SGXNET and may also be disseminated through press releases, the Company's website, media and analyst briefings. In particular, the Company's website provides shareholders with information on the performance of the Company's shares through the use of, <i>inter alia</i> , interactive charts (line, candlestick and OHLC) and historical price charting. The Company's annual report is sent to all shareholders and is also accessible on the Company's website. |
| | | In order to provide ample notice to shareholders, the notice of general meeting, together with the relevant annual report or circular, is despatched to all shareholders before the scheduled date of the general meeting. The notice of general meeting is also advertised in the newspaper and made available via SGXNET and on the Company's website. The notice period for all general meetings complies with the requirements under the Companies Act and the Listing Rules. |

| 11.4 | The company's Constitution (or other constitutive documents) allow for absentia voting at general meetings of shareholders. | The Company's Constitution provides that the Board may, in its sole discretion approve and implement, and subject to such security measures as may be deemed necessary or expedient, such voting methods to allow shareholders who are unable to vote in person at any general meeting the option to vote in absentia, including but not limited to voting by mail, electronic mail or facsimile. |
|------|---|--|
| | | Nevertheless, voting in absentia and by electronic mail is not presently available, which constitutes a variation from Provision 11.4 of the Code. The Board is looking into resolving the issues on security and integrity satisfactorily before implementing such absentia-voting methods. The Company is of the view that the intent of Principle 11 was met, as the existing arrangement whereby shareholders have the opportunity to vote by proxy is adequate in enabling shareholders to exercise their rights and have the opportunity to vote. Moreover, to allow voting in absentia by mail, facsimile or email would require careful consideration of various factors, including the integrity of information and authentication of the identity of shareholders. |
| 11.5 | The company publishes minutes of general meetings of shareholders on its corporate website as soon as practicable. The minutes record substantial and relevant comments or queries from shareholders relating to the agenda of the general meeting, and responses from the Board and Management. | Minutes of general meetings are prepared by the Company and made available to shareholders upon their request in accordance with applicable laws. The minutes of these general meetings include substantial and relevant comments or queries from shareholders relating to the agenda of the general meeting and responses from the Board and management. The Company currently does not publish such minutes on the Company's corporate website, which constitutes a variation from Provision 11.5 of the Code. The Company takes the view that, notwithstanding such variation, the Company's current practice is consistent with the intent of Principle 11 of the Code to treat all shareholders fairly and equitably in order to enable them to exercise shareholders' rights and have the opportunity to communicate their views on matters affecting the Company and give shareholders a balanced and understandable assessment of the Company's performance, position and prospects, as the minutes of general meetings are available to any shareholder upon request. |
| 11.6 | The company has a dividend policy and communicates it to shareholders. | The Company has announced to shareholders on 8 February 2017 the current policy on payment of dividends, which will see the Company distributing in respect of any one financial year, a total annual dividend amount of not less than 30% of the Company's consolidated net profits after tax and non-controlling interest and excluding non-recurring, one-off and exceptional items for that financial year, on condition of a regular operating environment and taking into account the Company's earnings, financial position, capital expenditure requirements, cash flow, future expansion, investment plans, and other factors which the Board may deem appropriate. |
| | | Dividends declared are subject to shareholders' approval (where applicable), applicable laws and the Constitution. |
| | | The Board will continually review the dividend policy and reserves the right in its sole and absolute discretion to update, amend, modify and/or cancel the dividend policy at any time, and the dividend policy shall in no way constitute a legally binding commitment by the Company in respect of its future dividends and/or in no way obligates the Company to declare a dividend at any time or from time to time. |

| ENGAGEA Principle | AENT WITH SHAREHOLDERS | The dividend policy is not indicative in any way of, and should not be construed in any manner as, a forecast statement or projection made by the Company or the Board on the future financial results and performance of the Company. In particular, no inference should or can be made from any of the foregoing statements as to the actual future profitability of the Company or the ability of the Company to pay dividends in any of the periods discussed. In the past where dividends are not paid, the Company has communicated to shareholders in the relevant annual report and in results announcements the reasons why dividends were not paid. |

| 12.1 | The company provides avenues for communication between the Board and all shareholders, and discloses in its annual report the steps taken to solicit and understand the views of shareholders. | All shareholders are treated fairly and equitably to facilitate the exercise of their ownership rights. The Board is aware of its obligations to shareholders in providing information on changes in the Company or its business which would be likely to materially affect the price or value of the Company's shares. In line with the continuing disclosure obligations of the Company pursuant to the Listing Rules and the Companies Act, the Board's policy is that all shareholders should be equally and sufficiently informed in a comprehensive manner and on a timely basis of all material developments that impact the Group, and in particular, changes in the Group or its business which would be likely to materially affect the price or value of the Company's shares. |
| | | All announcements including the periodic financial results announcements as required under the Listing Rules, distribution of notices, press releases, presentations and announcements on major developments are communicated to shareholders through public announcements via SGXNET and the Company's website, news releases (where appropriate) and annual reports or circulars that are sent to all shareholders, and notices of general meeting which are advertised. The Board approves the results announcements after review and authorises their release to the shareholders via SGXNET. |
| | | The Company does not practise selective disclosure of material information. Material information is excluded from briefings with investors or analysts, unless it has been publicly released via SGXNET before, or concurrently with, such meetings. Where there is inadvertent disclosure made to a selected group, the Company will make the same disclosure publicly to all others as soon as practicable. |
| | | The Company has also devised investor relations policies to provide regular, effective and fair communication and convey pertinent information to shareholders. This is achieved by providing shareholders, through the Company's website, avenues to request for information via subscribing for email updates and providing shareholders with an investor relations contact, including email address and telephone/fax numbers, for shareholders to contact the Company. The investor relations contract person can be reached at ir@avi-tech.com.sg, by telephone at +65 6482 6168, or by fax at +65 6482 6123. |

| 12.2 | | |
|-----------|---|---|
| 12.2 | The company has in place an investor relations policy which allows for an ongoing exchange of views so as to actively engage and promote regular, effective and fair communication with shareholders. | The Company does not currently have a written investor relations policy, which constitutes a variation from Provision 12.2 of the Code. The Company is of the view that the intent of Principle 12 is met, as there is a section on "Investor Relations" on the Company's website. From this section, the Company's latest annual reports, financial results, corporate announcements and stock information can be assessed. Shareholders and investors may also communicate with the Company and, as the case may be, submit any request for information, notices of interests or questions, via the Company's investor relations email address at ir@avi-tech.com.sg, through which shareholders may contact the Company with questions and through which the Company may respond to such questions. Moreover, the Board endeavours to establish and maintain regular dialogue with shareholders (including institutional and retail investors), to solicit and understand their views or gather inputs, and address shareholders' concerns. When circumstances permit and where appropriate, the Company undertakes regular analyst briefings to provide market updates on the Group's business and plans. |
| 12.3 | The company's investor relations policy sets out the mechanism through which shareholders may contact the company with questions and through which the company may respond to such questions. | Please refer to our disclosure in respect of Provisions 12.1 and 12.2 above. |

| 14. | Securities Transactions | On 13 February 2020, the Company announced that it will not be performing quarterly reporting of its financial results as it is not required to do so in view of the amendments to the Listing Rules with effect from 7 February 2020. In line with the requirements under Rule 1207(19) of the Listing Rules, the Group has issued policies on share dealings by Directors and key officers of the Company, setting out the implications of insider trading and recommendations of best practices. Directors and all Executive Officers are advised not to deal in the Company's shares on short-term considerations or when they are in possession of material unpublished price-sensitive information. The Company also prohibits its officers from dealing in the Company's shares, during the periods commencing one month before the announcement of the Group's half- year and full-year results and, ending on the date of the announcement of such results, or when they are in possession of unpublished price-sensitive information on the Group. |
| 15. | Interested Person Transactions | The Company has established procedures to ensure that all transactions with interested persons are reported in a timely manner to the ARC. According to the ARC's terms of reference, the ARC shall, <i>inter alia</i> , review all interested person transactions and related party transactions to ensure that they are on normal commercial terms, and that they do not prejudice the interests of the Company or its non-controlling shareholders, and determine methods or procedures for checking that the transaction prices are adequate for transactions to be carried out on normal commercial terms and that they will not prejudice the Company or its non-controlling shareholders. The Board confirms that there is no material interested person transaction entered into during the financial year under review which fall under Rule 907 of the Listing Rules. REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying financial statements of Avi-Tech Electronics Limited (the "Company") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 30 June 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group and the statements, including a summary of significant accounting policies, as set out on pages 66 to 123.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the Act) and Singapore Financial Reporting Standards (International) ("SFRS(I)s") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 30 June 2020 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and changes in equity of the Company for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing (SSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Allowance for slow-moving and obsolete inventories

[Refer to Note 11 to the financial statements]

Background:

As at 30 June 2020, the Group's inventories of \$2,000,000 accounted for approximately 4.4% of total current assets of the Group. Allowance for inventory obsolescence as at 30 June 2020 amounted to \$1,146,000.

Management's assessment of allowance for slow-moving and obsolete inventories involves significant estimation with consideration in relation to possible future use of the aged inventory items as well as the demand for on-going production and the ability to sell the products at prices above costs.

Allowance for slow-moving and obsolete inventories (Continued)

Our response:

We obtained an understanding of the profile of inventories, management's controls over inventory levels, purchasing policy and expected usage for ongoing production.

We evaluated management's assumptions used in the assessment of inventory allowance, checked the calculations supporting the allowance and tested the ageing reports used as a basis to assess the allowance.

We assessed the reasonableness of management's estimation of future utilisation and saleability of the inventories in the current economic conditions, taking into consideration the nature of the inventories and the industry in which the entity operates, in determining the recoverability of the inventory balances.

We made enquiries with warehouse personnel during the physical inventory count regarding the presence of damaged inventories. On a sample basis, we tested the valuation of inventories by comparison with latest purchase and selling prices.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I)s, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Ong Bee Yen.

1 GENERAL

The Company (Registration No. 198105976H) is incorporated in Singapore with its principal place of business and registered office at 19A Serangoon North Avenue 5, Singapore 554859. The Company is listed on the mainboard of the Singapore Exchange Securities Trading Limited. The financial statements are expressed in Singapore dollars, which is the functional currency of the Company and presentation currency for the consolidated financial statements.

The principal activities of the Company consist of the provision of burn-in and related services, design and manufacture of burn-in boards and boards related products, engineering services and equipment distribution, and trading of imaging equipment and energy efficient products. The principal activities of its subsidiaries are set out in Note 13.

The consolidated financial statements of the Group and statement of financial position and statement of changes in equity of the Company for the financial year ended 30 June 2020 were authorised for issue by the Board of Directors on 30 September 2020.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING – The financial statements have been prepared in accordance with the historical cost basis except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act and Singapore Financial Reporting Standards (International) ("SFRS(I)s").

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of SFRS(I) 2 *Share-based Payment*, leasing transactions that are within the scope of SFRS(I) 1-2 *Inventories* or value in use in SFRS(I) 1-36 *Impairment of Assets*.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

ADOPTION OF NEW AND REVISED STANDARDS – On 1 July 2019, the Group and the Company adopted all the new and revised SFRS(I) pronouncements that are relevant to its operations. The adoption of these new/revised SFRS(I) pronouncements does not result in changes to the Group's and the Company's accounting policies and has no material effect on the amounts reported for the current or prior years, except as discussed below.

SFRS(I) 16 Leases

SFRS(I) 16 introduces new or amended requirements with respect to lease accounting. It introduces significant changes to the lessee accounting by removing the distinction between operating and finance lease and requiring the recognition of a right-of-use asset and a lease liability at commencement for all leases, except for short-term leases and leases of low value assets when such recognition exemptions are adopted. In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged. The impact of the adoption of SFRS(I) 16 on the Group's consolidated financial statements is described below.

The date of initial application of SFRS(I) 16 for the Group is 1 July 2019.

The Group has applied SFRS(I) 16 using the cumulative catch-up approach which does not permit restatement of comparatives, which continue to be presented under SFRS(I) 1-17 and SFRS(I) INT 4.

(a) Impact of the new definition of a lease

The Group has made use of the practical expedient available on transition to SFRS(I) 16 not to reassess whether a contract is or contains a lease. Accordingly, the definition of a lease in accordance with SFRS(I) 1-17 and SFRS(I) INT 4 will continue to be applied to those leases entered or changed before 1 July 2019.

The change in definition of a lease mainly relates to the concept of control. SFRS(I) 16 determines whether a contract contains a lease on the basis of whether the customer has the right to control the use of an identified asset for a period of time in exchange for consideration. This is in contrast to the focus on 'risks and rewards' in SFRS(I) 1-17 and SFRS(I) INT 4.

The Group applies the definition of a lease and related guidance set out in SFRS(I) 16 to all lease contracts entered into or modified on or after 1 July 2019 (whether it is a lessor or a lessee in the lease contract). The new definition in SFRS(I) 16 does not significantly change the scope of contracts that meet the definition of a lease for the Group.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

SFRS(I) 16 Leases (Continued)

(b) Impact on lessee accounting

Former operating leases

SFRS(I) 16 changes how the Group accounts for leases previously classified as operating leases under SFRS(I) 1-17, which were off-balance-sheet.

Applying SFRS(I) 16, for all leases, the Group:

- Recognises right-of-use assets and lease liabilities in the statements of financial position, initially measured at the present value of the remaining lease payments;
- (ii) Recognises depreciation of right-of-use assets and interest on lease liabilities in the consolidated statement of profit or loss and other comprehensive income; and
- (iii) Separates the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within operating activities) in the consolidated statement of cash flows.

Under SFRS(1) 16, right-of-use assets are tested for impairment in accordance with SFRS 1-36 Impairment of Assets.

For short-term leases (lease term of 12 months or less) and leases of low-value assets (such as photocopiers), the Group has opted to recognise a lease expense on a straight-line basis as permitted by SFRS(I) 16. This expense is presented within administrative expenses in the consolidated statement of profit or loss.

Former finance leases

For leases that were classified as finance leases applying SFRS(I) 1-17, the carrying amount of the leased assets and obligations under finance leases measured applying SFRS(I) 1-17 immediately before the date of initial application is reclassified to right-of-use assets and lease liabilities respectively without any adjustments.

The right-of-use asset and the lease liability are accounted for applying SFRS(I) 16 from 1 July 2019.

(c) Impact on lessor accounting

SFRS(I) 16 does not change substantially how a lessor accounts for leases. Under SFRS(I) 16, a lessor continues to classify leases as either finance leases or operating leases and account for those two types of leases differently.

However, SFRS(I) 16 has changed and expanded the disclosures required, in particular regarding how a lessor manages the risks arising from its residual interest in leased assets.

SFRS(I) 16 Leases (Continued)

(d) Financial impact on initial application of SFRS(I) 16

The weighted average lessee's incremental borrowing rate applied to the lease liabilities recognised in the statement of financial position on 1 July 2019 is 2.1%.

The following table shows the operating lease commitments disclosed applying SFRS(I) 1-17 at 30 June 2019, discounted using the incremental borrowing rate at the date of initial application and the lease liabilities recognised in the statement of financial position at the date of initial application.

Right-of-use assets of \$1,609,000 were measured at the amount equal to the lease liability and recognised on 1 July 2019.

At the date of authorisation of these financial statements, new SFRS(I) pronouncements were issued but not yet effective. Management anticipates that the adoption of these new SFRS(I) pronouncements in future periods will not have a material impact on the financial statements of the Group and Company in the period of their initial adoption.

BASIS OF CONSOLIDATION – The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has the power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## BASIS OF CONSOLIDATION (Continued)

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- The size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- Potential voting rights held by the Company, other vote holders or other parties;
- Rights arising from other contractual arrangements; and
- Any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

### Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

BASIS OF CONSOLIDATION (Continued)

### Changes in the Group's ownership interests in existing subsidiaries (Continued)

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable SFRS(I)s). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under SFRS(I) 9, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

In the Company's financial statements, investments in subsidiaries are carried at cost less any impairment in net recoverable value that has been recognised in the profit or loss.

BUSINESS COMBINATIONS – Acquisition of subsidiaries and businesses are accounted for using the acquisition method. The consideration for each acquisition is measured at the aggregate of the acquisition date fair values of assets given, liabilities incurred by the Group to the former owners of the acquiree, and equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

Where applicable, the consideration for the acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value. Subsequent changes in such fair values are adjusted against the cost of acquisition where they qualify as measurement period adjustments (see below). The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates at fair value, with changes in fair value recognised in profit or loss.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### BUSINESS COMBINATIONS (Continued)

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under the SFRS(I) are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with SFRS(I) 1-12 *Income Taxes* and SFRS(I) 1-19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment transactions of the acquiree or the replacement of an acquiree's share-based payment awards transactions with share-based payment awards transactions of the acquirer in accordance with the method in SFRS(I) 2 *Share-based Payment* at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with SFRS(1) 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another SFRS(I).

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see below), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date, and is subject to a maximum of one year from acquisition date.

FINANCIAL INSTRUMENTS – Financial assets and financial liabilities are recognised on the statement of financial position when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

# **Financial assets**

All financial assets are recognised and de-recognised on a trade date basis where the purchase or sale of financial assets is under a contract whose terms require delivery of assets within the time frame established by the market concerned.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

## Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

## Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised in profit or loss using the effective interest method for debt instruments measured subsequently at amortised cost, except for short-term balances when the effect of discounting is immaterial.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Financial assets (Continued)

#### Foreign exchange gains and losses

The carrying amount of financial assets that are denominated in a foreign currency is determined in that foreign currency and translated at the spot rate as at each reporting date. Specifically, for financial assets measured at amortised cost that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss in the "administrative expenses" line item.

#### Impairment of financial assets

The Group recognises a loss allowance for expected credit losses ("ECL") on investments in debt securities that are measured at amortised cost. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12 months ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12 months ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

#### Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers historical loss rates for each category of customers and adjusts to reflect current and forward-looking macroeconomic factors that may affect the ability of the customers to settle the receivables. The Group has identified the gross domestic product (GDP) and the forecast economic information that relate to the semiconductor industry to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors when assessed to be relevant.

### Financial assets (Continued)

Impairment of financial assets (Continued)

### Significant increase in credit risk (Continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the aforegoing, the Group assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if i) the financial instrument has a low risk of default, ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

## Definition of default

When information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group), the Group considers this as constituting an event of default for internal credit risk management purposes, as historical experience indicates that receivables that meet this criteria are generally not recoverable.

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial assets (Continued)

Impairment of financial assets (Continued)

## Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the debtor;
- (b) a breach of contract, such as a default or past due event; or
- (c) it is becoming probable that the debtor will enter bankruptcy or other financial reorganisation.

## Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

## Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

## Financial assets (Continued)

Impairment of financial assets (Continued)

Measurement and recognition of expected credit losses (Continued)

Where lifetime ECL is measured on a collective basis to cater for cases where evidence of significant increases in credit risk at the individual instrument level may not yet be available, the financial instruments are grouped on the following basis:

- Nature of financial instruments;
- Past-due status; and
- Nature, size and industry of debtors.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12 months ECL at the current reporting date.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

## Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Financial liabilities and equity instruments

## Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

#### **Financial liabilities**

#### Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL, are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

## Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost as at each reporting date, the foreign exchange gains and losses are determined based on the amortised cost of the instruments. These foreign exchange gains and losses are recognised in profit or loss for financial liabilities that are not part of a designated hedging relationship.

### Financial liabilities and equity instruments (Continued)

## Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

### **Offsetting arrangements**

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when the Company and the Group has a legally enforceable right to set off the recognised amounts; and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously. A right to set-off must be available today rather than being contingent on a future event and must be exercisable by any of the counterparties, both in the normal course of business and in the event of default, insolvency or bankruptcy.

LEASES (Before 1 July 2019) – Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### The Group as lessee

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to profit or loss.

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Contingent rentals are recognised as an expense in the periods in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

LEASES (Before 1 July 2019) (Continued)

#### The Group as lessor

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which use benefit derived from the leased asset is diminished. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

LEASES (From 1 July 2019)

### The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses the incremental borrowing rate specific to the lessee which is defined as the rate of interest that the lessee would have to pay to borrow over a similar term and with a similar security the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives; and
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date.

The lease liability is presented as a separate line in the statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

LEASES (From 1 July 2019) (Continued)

## The Group as lessee (Continued)

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;
- the lease payments change due to changes in an index or rate in which case the lease liability is remeasured by discounting the revised lease payments using the initial discount rate; or
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under SFRS(I) 1-37. To the extent that the costs relate to a right-of-use asset, the costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the statement of financial position.

The Group applies SFRS(I) 1-36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described below.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line 'Administrative expenses' in the statement of profit or loss.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

LEASES (From 1 July 2019) (Continued)

### The Group as lessor

The Group enters into lease agreements as a lessor with respect to its property.

Leases for which the Group is a lessor are classified as operating leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

When a contract includes lease and non-lease components, the Group applies SFRS(I) 15 to allocate the consideration under the contract to each component.

INVENTORIES – Inventories are stated at the lower of cost (weighted-average method) and net realisable value. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

PROPERTY, PLANT AND EQUIPMENT – Property, plant and equipment are carried at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation is charged so as to write off the cost of assets over their estimated useful lives using the straight-line method on the following basis:

| Building               | - | 60 years      |
|------------------------|---|---------------|
| Leasehold improvements | - | 5 years       |
| Plant and equipment    | _ | 3 to 10 years |
| Computer software      | - | 3 years       |

Fully depreciated assets still in use are retained in the financial statements.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, if there is no certainty that the lessee will obtain ownership by the end of the lease term, the asset shall be fully depreciated over the shorter of the lease term and its useful life.

The gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amounts of the asset and is recognised in the profit or loss.

INTANGIBLE ASSETS – Intangible assets acquired separately are reported at cost less accumulated amortisation (where they have finite useful lives) and accumulated impairment losses. Intangible assets with finite useful lives are amortised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed as at each reporting date, with the effect of any changes in estimate being accounted for on a prospective basis.

IMPAIRMENT OF NON-FINANCIAL ASSETS – At the end of each reporting period, the Group reviews the carrying amounts of its non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

ASSOCIATE – An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with SFRS(I) 5. Under the equity method, an investment in an associate is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. When the Group's share of losses of an associate exceeds the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### ASSOCIATE (Continued)

Investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of SFRS(I) 1-28 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with SFRS(I) 1-36 *Impairment of Assets* as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount, any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with SFRS(I) 1-36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate, or when the investment is classified as held for sale. When the Group retains an interest in the former associate and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with SFRS(I) 9. The difference between the carrying amount of the associate at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss on the disposal of the related assets or liabilities. Therefore, if a gain or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a Group entity transacts with an associate of the Group, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

PROVISIONS – Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

GOVERNMENT GRANTS – Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received. Government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Other government grants are recognised as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

REVENUE RECOGNITION – Revenue is measured based on the consideration specified in a contract with a customer and excludes amount collected on behalf of third parties. The Group recognises revenue from the following major sources when it transfers control of a product or service to a customer.

## Burn-In and Related Services

The Group provides Static Burn-In, Dynamic Burn-In, Test During Burn-In and High Power Burn-In for semiconductor manufacturers. The Group serves the segment of the industry that requires fail-safe or high reliability semiconductor devices, including automotive and microprocessor products. Revenue is recognised at the point in time upon completion of services.

#### **Burn-In Boards and Boards Related Products**

The Group is involved in the designing and manufacturing of a wide range of Burn-In boards for the various types of Burn-In systems as well as boards for other types of reliability tests such as High Temperature Operating Life Test and Highly Accelerated Stress Test.

Revenue is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the Boards to the customer's specific location.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **REVENUE RECOGNITION (Continued)**

#### **Engineering Services and Equipment Distribution**

The Group provides services ranging from design, development and full turnkey outsourced manufacturing and system integration of semiconductor equipment to lab automation systems for the life sciences and biotech industries.

Revenue is recognised at the point in time when control of the assembled equipment/system is transferred to the customer, generally on delivery of the equipment/system to the customer's specific location.

BORROWING COSTS – Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

RETIREMENT BENEFIT OBLIGATIONS – Payments to defined contribution retirement benefit plans are charged as an expense when employees have rendered the services entitling them to the contributions. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Group's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

EMPLOYEE LEAVE ENTITLEMENT – Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

INCOME TAX - Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in the countries where the Company and its subsidiaries operate by the end of the reporting period.

Deferred tax is recognised on the differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

## INCOME TAX (Continued)

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised as an expense or income in profit or loss.

FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION – The individual financial statements of each group entity are measured and presented in the currency of the primary economic environment in which the entity operates (its functional currency). The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are presented in Singapore dollars, which is the functional currency of the Company, and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency are recorded at the rates of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the end of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the period. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in other comprehensive income. For such non-monetary items, any exchange component of that gain or loss is also recognised directly in other comprehensive income.

## 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION (Continued)

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in Singapore dollars using exchange rates prevailing at the end of the reporting period. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in the Group's foreign currency translation reserve.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, loss of joint control over a jointly controlled entity that includes a foreign operation, or loss of significant influence over an associate that includes a foreign operation), all of the accumulated exchange differences in respect of that operation attributable to the Group are reclassified to profit or loss. Any exchange differences that have previously been attributed to non-controlling interests are derecognised, but they are not reclassified to profit or loss.

In the case of a partial disposal (i.e. no loss of control) of a subsidiary that includes a foreign operation, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. of associates or jointly controlled entities not involving a change of accounting basis), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

On consolidation, exchange differences arising from the translation of the net investment in foreign entities (including monetary items that, in substance, form part of the net investment in foreign entities), and of borrowings and other currency instruments designated as hedges of such investments, are recognised in other comprehensive income and accumulated in a separate component of equity under the header of foreign currency translation reserve.

CASH AND CASH EQUIVALENTS IN THE STATEMENT OF CASH FLOWS – Cash and cash equivalents in the statement of cash flows comprise cash on hand, cash at bank and demand deposits that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

## 3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 2, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

# 3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

## Critical judgements in applying the Group's accounting policies

Management is of the view that no critical judgement was made in the process of applying the Group's accounting policies that would have a significant effect on the amounts recognised in the financial statements, apart from those involving estimations as below.

### Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

#### Allowance for inventories

The Group reviews the carrying value of its inventories so that they are stated at the lower of cost and net realisable value. In assessing net realisable value, management identifies inventories where there has been a significant decline in price or cost, aged inventory items and inventory items that may not be realised as a result of certain events, and estimates the recoverable amount of such inventory based on values at which such inventory items are expected to be realised at the end of the reporting period. Management also reviews the possible future use of the aged inventory items as well as the demand for on-going production and the ability to sell the products at prices above costs, taking into consideration the widespread impact of COVID-19 on the general economic conditions and market demand.

The carrying amount of inventories of the Group and Company at the end of the reporting period was \$2,000,000 (2019: \$3,036,000), net of allowance amounted to \$1,146,000 (2019: \$928,000). Allowance for inventories of \$218,000 (2019: \$215,000) was made during the year.

### Calculation of loss allowance for trade receivables

The Group uses provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns. The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust historical credit loss experience with forward-looking information, where appropriate.

At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. Despite the current market conditions with uncertainties and volatility caused by the COVID-19 pandemic, the Group has observed payments from customers continue to be forthcoming and therefore, the Group expects the probability of default to remain low.

The carrying amount of trade receivables of the Group and Company at the end of the reporting period is disclosed in Note 9.

## 3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

## Key sources of estimation uncertainty (Continued)

## Impairment and useful lives of property, plant and equipment

The Group assesses at the end of each reporting period whether property, plant and equipment have any indication of impairment. If there are indicators of impairment, the recoverable amount of property, plant and equipment will be determined based on higher of value in use calculations or the fair value less costs to sell.

A considerable amount of judgement is required in determining the recoverable amount of the property, plant and equipment, which among other factors, the recent transaction prices for similar assets, the condition, utility, age, wear and tear and/or obsolescence of the property, plant and equipment.

Management reviews the estimated useful lives of property, plant and equipment at the end of each reporting period. During the financial year, management determined that there were no changes to the useful lives of the property, plant and equipment. The carrying amount of property, plant and equipment of the Group and Company at the end of the reporting period is disclosed in Note 15.

## (b) Financial risk management policies and objectives

The Group's overall financial risk management strategy is to minimise potential adverse effects of financial performance of the Group. The board of directors reviews the overall financial risk management on specific areas, such as market risk (including foreign exchange risk, interest rate risk), credit risk, liquidity risk, use of derivative financial instruments and investing excess cash. These are reviewed quarterly by the board of directors. Risk management is carried out by the finance department under the oversight by the board of directors.

There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risk. Market risk exposures are measured using sensitivity analysis indicated below.

## (i) <u>Credit risk management</u>

Credit risk refers to the risk that a counterparty may default on its contractual obligations resulting in financial loss to the Group.

The Group's and Company's maximum exposure to credit risk without taking into account any collateral held or other credit enhancements, which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties arises from the carrying amounts of the respective recognised financial assets as stated in the statements of financial position.

The Group develops and maintains its credit risk gradings to categorise exposures according to their degree of risk of default. The Group uses its own trading records to rate its major customers and other debtors.

### (i) <u>Credit risk management</u> (Continued)

Cash and fixed and call deposits are held with creditworthy financial institutions and are subject to immaterial credit loss.

Before accepting any new customer, management assesses the potential customer's credit quality and defines credit limits by customer. Limits granted to customers are reviewed periodically. The Group's exposure to credit risks and the credit limits to counterparties are continuously monitored. The Group monitors collections due and follow up with debtors as part of the credit management process.

The Group is exposed to concentration of credit risk given that its revenue is generated mainly from four (2019: four) major customers, which accounted for 74% (2019: 86%) of the carrying amount of trade receivables. The Group believes that the risk of default is mitigated by the good financial standings of these customers.

### (ii) Interest rate risk management

Details of the interest-earning and interest-bearing financial assets and financial liabilities of the Group are disclosed in Notes 7, 12 and 20 respectively. The Group does not use derivative financial instruments to mitigate this risk.

No sensitivity analysis is prepared as the Group does not expect any material effect on the Group's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the reporting period.

## (iii) Foreign exchange risk management

The Group and Company have foreign exchange risk due to business transactions denominated in foreign currencies.

The largest currency exposure is United States Dollars.

The exposure to the foreign exchange risk is managed as far as possible by natural hedges of matching assets and liabilities.

The carrying amounts of significant monetary assets and monetary liabilities denominated in the United States Dollars at the end of the reporting period are as follows:

### Foreign currency sensitivity

If the United States dollar strengthens/weakens by 5% against Singapore dollar, the Group's and Company's profit before tax would increase/decrease by \$333,000 and \$333,000 (2019: \$329,000 and \$301,000) respectively. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rates.

### (iv) Liquidity risk management

The Group has sufficient cash resources and maintains adequate lines of credit to finance its activities. The current market uncertainty as a result of the COVID-19 pandemic has increased liquidity risk as the future operating cash flows may be impacted. However, with strong working capital and cash reserve, the Group has assessed liquidity risk to be sufficiently mitigated.

## Non-derivative financial liabilities

The following tables detail the remaining contractual maturity for non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group and Company can be required to pay. The table includes both interest and principal cash flows. The adjustment column represents the possible future cash flows attributable to the instrument included in the maturity analysis which is not included in the carrying amount of the financial liability on the statement of financial position.

## Non-derivative financial assets

The following table details the expected maturity for non-derivative financial assets. The tables below have been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets except where the Group and the Company anticipate that the cash flows will occur in a different period. The adjustment column represents the possible future cash flows attributable to the instrument included in the maturity analysis which is not included in the carrying amount of the financial assets on the statement of financial position.

### (v) Fair values of financial assets and financial liabilities

The carrying amounts of cash and cash equivalents, trade and other receivables, trade and other payables approximate their fair values due to the relatively short term maturity of these financial instruments. The fair values of other classes of financial assets and liabilities are disclosed in the respective notes to financial statements.

## (c) Capital management policies and objectives

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The capital structure of the Group consists of cash and cash equivalents and equity comprising share capital, reserves and retained earnings as presented in the Group's statement of changes in equity.

## 4 FINANCIAL INSTRUMENTS, FINANCIAL RISK AND CAPITAL MANAGEMENT (CONTINUED)

# (c) Capital management policies and objectives (Continued)

The Company manages its capital to ensure that it will be able to continue as a going concern, to maximise the return to stakeholders through the optimisation of the debt and equity balance, and to ensure that all externally imposed capital requirements are complied with.

The Company's management reviews the capital structure on a regular basis. As part of this review, the management considers the cost of capital and the risks associated with each class of capital.

The Group's overall strategy remains unchanged from prior year.

# 5 RELATED PARTY TRANSACTIONS

Some of the transactions and arrangements of the Group are with related parties and the effect of these on the basis determined between the parties is reflected in these financial statements. Unless otherwise stated, the balances are unsecured, interest-free and repayable on demand.

### Compensation of directors and key management personnel

The remuneration of directors and key management during the year is as follows:

|                         | Group  |        |  |
|-------------------------|--------|--------|--|

Trade receivables are non-interest bearing and are generally on 60 days (2019: 60 days) credit terms. Loss allowance for trade receivables is measured at an amount equal to lifetime expected credit losses (ECL). The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors and considering general economic conditions of the industry in which the debtors operate, where applicable.

A trade receivable is written off when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery.

# 9 TRADE RECEIVABLES (CONTINUED)

The following table details the risk profile of trade receivables from contracts. As the Group's historical loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the different customer base.

# 12 OTHER FINANCIAL ASSETS AT AMORTISED COST

|                          | Group and | Company |
|--------------------------|-----------|---------|
|                          | 2020      | 2019    |
|                          | \$'000    | \$′000  |
| Bonds, at amortised cost | 500       | 1,003   |
| Less: Loss allowance     | (500)     | (375)   |
|                          |           | 628     |

The bonds have nominal value amounting to \$500,000 (2019: \$1,000,000) with coupon rate of 4.25% (2019: ranging from 4.25 % to 5.80%) per annum and maturity date on 7 September 2018 (2019: ranging from 7 September 2018 to 17 July 2019).

For purpose of impairment assessment, the investments in debt securities are assessed for any significant increase in credit risk since initial recognition. Accordingly, the loss allowance is measured either at an amount equal to 12-month expected credit losses (ECL) or at an amount equal to lifetime ECL.

In determining the ECL, management has taken into account the financial position of the counterparties, any default or past due event, as well as the future prospects of the industries in which the counterparties operate which are obtained from financial analyst reports and various external sources of actual and forecast economic information, as appropriate, in estimating the probability of default of each of these financial assets occurring within their respective loss assessment time horizon, as well as the loss upon default in each case.

Impairment loss on financial instruments measured at amortised cost is recognised in profit or loss, with a corresponding adjustment to their carrying amount through the loss allowance account. The following table shows the movement in ECL that has been recognised for the financial assets.

In 2020, the Group received wage support for local employees under the Jobs Support Scheme and foreign worker levy rebate from the Singapore Government as part of the Government's measures to support businesses during the period of economic uncertainty impacted by COVID-19. The Group assessed that there is reasonable assurance that it will comply with the conditions attached to the grants and the grants will be received. Grant income is recognised in profit or loss over the periods in which the related salary costs for which the grant is intended to compensate is recognised as expenses.

30 JUNE 2020

### 31 SEGMENT INFORMATION (CONTINUED)

Principal activities of each reportable segment are as follows:

### Burn-In and Related Services ("Burn-In Services")

Burn-In is a process whereby the individual integrated circuit ("IC") chips is stressed at high temperature to weed out any defects caused during the assembly process.

# Burn-In Boards and Boards Related Products ("Manufacturing and PCBA Services")

Manufacturing comprises the design and assembly of printed circuit boards used for Burn-In and reliability testing of IC chips.

# Engineering Services and Equipment Distribution ("Engineering")

This includes system integration projects, equipment manufacturing, provision of technical services and distribution of third party products.

### (a) <u>Segment revenue and expenses</u>

Segment revenue and expenses are revenue and expenses reported in the consolidated financial statements that either are directly attributable to a segment or can be allocated on a reasonable basis to a segment.

The accounting policies of the reportable segments are the same as the Group's accounting policies described in Note 2. Segment profit represents the profit earned by each segment without allocation of central administration costs, rental income, interest revenue and interest expense, and income tax expense. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

# (b) <u>Segment assets and liabilities</u>

Segment assets are all operating assets that are employed by a segment in its operating activities and are either directly attributable to the segment or can be allocated to the segment on a reasonable basis.

Segment liabilities are all operating liabilities that are employed by a segment in its operating activities and are either directly attributable to the segment or can be allocated to the segment on a reasonable basis.

For the purposes of monitoring segment performance and allocating resources between segments, the chief operating decision maker monitors the assets attributable to each segment.

All assets are allocated to reportable segments other than financial assets of cash, fixed and cash deposits, other receivables, and investments. Assets used jointly by reportable segments are allocated on the basis of the revenues earned by individual reportable segments.

# **AS SPECIAL BUSINESS**

To consider and, if thought fit, to pass the following resolutions as Ordinary Resolutions, with or without modifications:

#### 13. Authority to allot and issue shares in the capital of the Company

That pursuant to Section 161 of the Companies Act, Cap. 50 of Singapore (the "Companies Act") and the Listing Manual ("Listing Manual") of the SGX-ST, authority be and is hereby given to the Directors of the Company to allot and issue:

- (a) shares; or
- (b) convertible securities: or
- additional convertible securities issued pursuant to Rule 829 of the Listing Manual (notwithstanding that the authority (c) conferred by this Resolution may have ceased to be in force at the time the additional securities are issued, provided that the adjustment does not give the holder a benefit that a shareholder does not receive); or
- shares arising from the conversion of the securities in (b) and (c) above (notwithstanding that the authority conferred (d) by this Resolution may have ceased to be in force at the time the shares are to be issued),

in the Company (whether by way of rights, bonus or otherwise) at any time to such persons and upon such terms and conditions and for such purposes as the Directors may in their absolute discretion deem fit, provided that:

- the aggregate number of shares and convertible securities to be allotted and issued pursuant to this Resolution (i) must be not more than 50% of the total number of issued shares (excluding treasury shares) in the capital of the Company (calculated in accordance with (ii) below), of which the aggregate number of shares and convertible securities issued other than on a pro rata basis to existing shareholders must be not more than 20% of the total number of issued shares (excluding treasury shares) in the capital of the Company (calculated in accordance with (ii) below); and
- (ii) (subject to such manner of calculation as may be prescribed by the SGX-ST) for the purpose of determining the number of shares and convertible securities that may be issued pursuant to (i) above, the percentage of issued shares shall be calculated based on the total number of issued shares (excluding treasury shares) in the capital of the Company at the time this Resolution is passed, after adjusting for (a) new shares arising from the conversion or exercise of convertible securities; (b) new shares arising from exercising share options or vesting of share awards provided the options or awards were granted in compliance with Part VIII of Chapter 8 of the Listing Manual; and (c) any subsequent bonus issue, consolidation or subdivision of shares. Adjustments in accordance with (a) or (b) are only to be made in respect of new shares arising from convertible securities, share options or share awards which were issued and outstanding or subsisting at the time of the passing of this Resolution approving the mandate.

Unless revoked or varied by ordinary resolution of the shareholders of the Company in general meeting, this Resolution shall remain in force until the conclusion of the next AGM or the date by which the next AGM is required by law to be held, whichever is earlier. [See explanatory note (iv)]

(Resolution 12)

By Order of the Board Adrian Chan Pengee Company Secretary

Singapore 7 October 2020

### **Explanatory Notes:**

Mr Goh Chung Meng will, upon re-election as a Director of the Company, remain as Chairman of the Nominating and Remuneration Committees and a member of the Audit and Risk Committee, and will be considered independent for the purposes of Rule 704(8) of the Listing Manual. Save that he is an Independent Directors, the Company, or its 5% shareholders.
- (ii) Resolutions 3, 4, 6 and 7 On 6 August 2018, the SGX-ST amended the SGX-ST Listing Rules (Mainboard) following the publication of the Code of Corporate Governance 2018 by the Monetary Authority of Singapore. As part of the amendments to the Code of Corporate Governance 2018, certain guidelines from the Code of Corporate Governance 2012 were shifted into the SGX-ST Listing Rules (Mainboard) for mandatory compliance. On 28 November 2018, the SGX-ST issued the Transitional Practice Note 3 to establish transitional arrangements for certain guidelines shifted into the SGX-ST Listing Rules (Mainboard). Pursuant thereto and in respect of Rule 210(5)(d)(iii) of the Listing Manual of the SGX-ST, to ensure that the independence designation of a director who has served for more than 9 years as at and from 1 January 2022 is not affected, the Company is seeking to obtain shareholders' approvals for Mr Goh Chung Meng and Mr Michael Grenville Gray's continued appointments as independent director, after an aggregate period of more than 9 years on the board, must be sought and approved in separate resolutions by (A) all shareholders and (B) shareholders excluding directors, chief executive officer, and their associates.
- (iii) Resolution 5 Detailed information about Directors of the Company can be found in the "Board of Directors" section of the Company's Annual Report, including their current directorships in other listed companies and other principal commitments held. Please also refer to the section titled "Additional Information on Directors Seeking Election/Re-Election" appended to this Notice of Annual General Meeting for additional information on Mr Michael Grenville Gray. Mr Michael Grenville Gray will, upon re-election as a Director of the Company, remain as Chairman of the Audit and Risk Committee and a member of the Remuneration and Nominating Committees, and will be considered independent for the purposes of Rule 704(8) of the Listing Manual. Save that he is an Independent Director of the Company, Mr Michael Grenville Gray has no relationships including immediate family relationships with any of the Directors, the Company or its 5% shareholders.
- (iv) Resolution 12 If passed, this Resolution will empower the Directors from the date of the above meeting until the date of the next AGM, to allot and issue shares and convertible securities in the Company up to an amount not exceeding 50% of the total number of issued shares in the capital of the Company (excluding treasury shares), of which up to 20% may be issued other than on a pro rata basis.

#### Notes:

- 1. The Annual General Meeting of the Company will be held by electronic means pursuant to the COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) Order 2020 (the "Order"), and as amended by COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) (Amendment No. 2) Order 2020. Amendments to the COVID-19 (Temporary Measures) Act 2020 ("Temporary Measures Act") were passed in Parliament on 4 September 2020 to permit the Minister of Law to do so. If the President assents to the amendments to the Temporary Measures Act, the amendments to extend the duration of the Meeting Order will be gazetted, once the amendments to the Temporary Measures Act come into force. On 7 September 2020, the SGX-ST announced that it will amend the ACRA-SGX-MAS joint guidance to reflect the extended period once the legislative changes are in place. This extended duration of the Meeting Order the COVID-19 safe distancing regulations to hold physical meetings, to help minimise physical interactions and COVID-19 transmission risks. 3. Due to the current COVID-19 situation in Singapore, the AGM of the Company will be held by way of electronic means and members will NOT be able to attend the Annual General Meeting in person. A member (whether individual or corporate) must appoint the Chairman of the Meeting as his/her/its proxy to attend, speak and vote on his/her/its behalf at the Annual General Meeting if such member wishes to exercise his/her/its voting rights at the Annual General Meeting. Please note that a member may not vote at the Annual General Meeting otherwise than by way of appointing the Chairman of the Meeting as the member's proxy. Printed copies of the Proxy Form for the Annual General Meeting will be sent to members. The proxy form for the Annual General Meeting may also be accessed at the Company's website at the URL <a href="http://www.avi-tech.com.sg">http://www.avi-tech.com.sg</a> and is also available on SGXNET at the URL <a href="http://www.avi-tech.com.sg">http://www.avi-tech.com.sg</a> and is also available on SGXNET at the URL <a href="http://www.avi-tech.com.sg">http://www.avi-tech.com.sg</a> and is also available on SGXNET at the URL <a href="http://www.avi-tech.com.sg">http://www.avi-tech.com.sg</a> and is also available on SGXNET at the URL <a href="http://www.avi-tech.com.sg">http://www.avi-tech.com.sg</a> and is also available on SGXNET at the URL <a href="http://www.avi-tech.com.sg">http://www.avi-tech.com.sg</a> and is also available on SGXNET at the URL <a href="http://www.avi-tech.com.sg">http://www.avi-tech.com.sg</a> and is also available on second at the Chairman of the Meeting as his/her/its proxy, he/she/it must give specific instructions as to voting, or abstentions from voting, in respect of a resolution in the Proxy Form, failing which the appointment of the Chairman of the Meeting as proxy for that resolution will be treated as invalid.

CPF or SRS investors who wish to appoint the Chairman of the Meeting as proxy should approach their respective CPF Agent Banks or SRS Operators to submit their votes by 11:00 a.m. on 19 October 2020.

- 4. The Chairman of the Meeting, acting as proxy, need not be a member of the Company.
- 5. The Proxy Form must be submitted to the Company in the following manners:
  - (i) if submitted by post, be deposited at registered office of the Company at 19A Serangoon North Avenue 5 Singapore 554859; or
  - (ii) if submitted electronically, be submitted via email in Portable Document Format (PDF) format to the Company at ir@avi-tech.com.sg.

in either case, at least **48 hours** before the time fixed for holding the Annual General Meeting. A member who wishes to submit the Proxy Form must first complete and sign the Proxy Form, before submitting it by post to the address provided above, or by scanning and submitting it by way of electronic means via email to the email address provided above.

# In view of the current COVID-19 situation, members are strongly encouraged to submit the completed Proxy Forms by way of electronic means via email.

- 6. Save for members of the Company which are nominee companies or Relevant Intermediaries (as defined below), a member of the Company entitled to participate and vote at a meeting of the Company shall not be entitled to appoint more than two proxies to attend and vote on his behalf. Where a member of the Company (other than a Relevant Intermediary) appoints more than one proxy, he/she shall specify the proportion of his/her shareholdings to be represented by each proxy.
- 7. Pursuant to Section 181 of the Companies Act, any member who is a Relevant Intermediary may appoint more than two proxies, but each proxy must be appointed to exercise the rights attached to a different share or shares held by him (which number and class of shares shall be specified). "Relevant Intermediary" has the meaning ascribed to it in Section 181 of the Companies Act.
- 8. The Company shall be entitled to reject the instrument appointing a proxy or proxies if it is incomplete, improperly completed, illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified in the instrument appointing a proxy or proxies. In addition, in the case of a member whose shares are entered against his/her name in the Depository Register, the Company may reject any instrument of proxy lodged if such member, being the appointor, is not shown to have shares entered against his name in the Depository Register 72 hours before the time appointed for holding the meeting, as certified by The Central Depository (Pte) Limited to the Company.
- 9. A Depositor's name must appear on the Depository Register maintained by The Central Depository (Pte) Limited as at 72 hours before the time fixed for holding the meeting in order for the Depositor to be entitled to participate and vote at the meeting.

### PERSONAL DATA PRIVACY:

By submitting a proxy form appointing the Chairman of the Meeting as proxy to attend, speak and vote at the Annual General Meeting and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents of service providers) for the purpose of the processing and administration and analysis by the Company (or its agents or service providers) of the appointment of the Chairman of the Meeting as proxy for the Annual General Meeting (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the Annual General Meeting (including any adjournment thereof), and in order for the Company (or its agents or service providers) to comply with any applicable laws, listing rules, regulations and/or guidelines.

### Notes:

- The Annual General Meeting of the Company will be held by electronic means pursuant to the COVID-19 (Temporary Measures) 1 (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) Order 2020 (the "Order"), and as amended by COVID-19 (Temporary Measures) (Alternative Arrangements for Meetings for Companies, Variable Capital Companies, Business Trusts, Unit Trusts and Debenture Holders) (Amendment No. 2) Order 2020. Amendments to the COVID-19 (Temporary Measures) Act 2020 ("Temporary Measures Act") were passed in Parliament on 4 September 2020 to permit the Minister of Law to do so. If the President assents to the amendments to the Temporary Measures Act, the amendments to extend the duration of the Meeting Order will be gazetted, once the amendments to the Temporary Measures Act come into force. On 7 September 2020, the SGX-ST announced that it will amend the ACRA-SGX-MAS joint guidance to reflect the extended period once the legislative changes are in place. This extended duration of the Meeting Order provides the Company with the option to conduct general meetings by electronic means even where the Company is permitted under the COVID-19 safe distancing regulations to hold physical meetings, to help minimise physical interactions and COVID-19 transmission risks. Printed copies of this Notice of Annual General Meeting, the Proxy Form and the Annual Report for the financial year ended 30 June 2020 (the "FY2020 Annual Report") will be sent to Shareholders. In addition, this Notice of Annual General Meeting, the Proxy Form and the FY2020 Annual Report may be accessed at the Company's website at the URL http://www.avi-tech.com.sg. This Notice of Annual General Meeting, the Proxy Form and the FY2020 Annual Report are also available on SGXNET at the URL https://www.sgx.com/securities/company-announcements.
- 2. Alternative arrangements relating to attendance at the Annual General Meeting via electronic means (including arrangements by which the meeting may be electronically accessed via live audio-visual webcast or live audio-only stream), submission of questions to the Chairman of the Meeting in advance of the Annual General Meeting of the Company, addressing of substantial and relevant questions at the Annual General Meeting of the Company and voting by appointing the Chairman of the Meeting as proxy at the Annual General Meeting of the Company, are set out in the Company's accompanying announcement dated 7 October 2020. This announcement may be accessed at the Company's website at the URL <a href="http://www.avi-tech.com.sg">http://www.avi-tech.com.sg</a> and is also available on SGXNET at the URL <a href="https://www.sgx.com/securities/company-announcements">https://www.sgx.com/securities/company-announcements</a>.

In particular, a member will be able to watch the proceedings of the Annual General Meeting through a "live" webcast via his/her/its mobile phones, tablets or computers or listen to these proceedings through a "live" audio-only stream via telephone. In order to do so, a member who wishes to watch the "live" webcast or listen to the "live" audio-only stream must pre-register via the following link: <a href="http://globalmeeting.bigbangdesign.co/avi-tech/">http://globalmeeting.bigbangdesign.co/avi-tech/</a> by no later than 11:00 a.m. on Monday, 26 October 2020. Following the verification, authenticated members will receive an email by 11:00 a.m., Wednesday, 28 October 2020 which will contain the user ID and password details as well as the URL to access the live audio-visual webcast or the toll-free telephone number to access the live audio-only stream (the "Confirmation Email"). Members, who have pre-registered for the live audio-visual webcast or live audio-only stream but who have not received the Confirmation Email by 11:00 a.m. on Wednesday, 28 October 2020 should contact the Company's webcast provider Big Bang Design at <a href="http://webcast@bigbangdesign.co/">webcast@bigbangdesign.co/</a>

Members will not be able to ask questions "live" during the broadcast of the Annual General Meeting. All members may submit questions related to the resolutions to be tabled for approval at the Annual General Meeting by email to <u>ir@avi-tech.com.sg</u>, or in hard copy by post to the office of the registered office of the Company at 19A Serangoon North Avenue 5 Singapore 554859, by no later than 11:00 a.m. on Monday, 26 October 2020.

- 3. Please insert the total number of shares held by you. If you have shares registered in your name in the Register of Members, you should insert that number of shares. If no number is inserted, this Proxy Form shall be deemed to relate to all the shares held by you.
- 4. Due to the current COVID-19 situation in Singapore, the AGM of the Company will be held by way of electronic means and members will <u>NOT</u> be able to attend the Annual General Meeting in person. A member (whether individual or corporate) must appoint the Chairman of the Meeting as his/her/its proxy to attend, speak and vote on his/her/its behalf at the Annual General Meeting if such member wishes to exercise his/her/its voting rights at the Annual General Meeting. Please note that a member may not vote at the Annual General Meeting otherwise than by way of appointing the Chairman of the Meeting as the member's proxy. Printed copies of the Proxy Form for the Annual General Meeting will be sent to members. The Proxy Form for the Annual General Meeting may also be accessed at the Company's website at the URL <u>http://www.avi-tech.com.sg</u> and is also available on SGXNET at the URL <u>https://www.sgx.com/securities/company-announcements</u>. Where a member (whether individual or corporate) appoints the Chairman of the Meeting as his/her/its proxy, he/she/it must give specific instructions as to voting, or abstentions from voting, in respect of a resolution in the Proxy Form, failing which the appointment of the Chairman of the Meeting as proxy for that resolution will be treated as invalid.

CPF or SRS investors who wish to appoint the Chairman of the Meeting as proxy should approach their respective CPF Agent Banks or SRS Operators to submit their votes by 11:00 a.m. on 19 October 2020.

- 5. The Chairman of the Meeting, acting as proxy, need not be a member of the Company.
- 6. The Proxy Form must be submitted to the Company in the following manners:
  - (i) if submitted by post, be deposited at registered office of the Company at 19A Serangoon North Avenue 5 Singapore 554859; or
  - (ii) if submitted electronically, be submitted via email in Portable Document Format (PDF) format to the Company at <u>ir@avi-tech.com.sg</u>.

in either case, at least **48 hours** before the time fixed for holding the Annual General Meeting. A member who wishes to submit the Proxy Form must first complete and sign the Proxy Form, before submitting it by post to the address provided above, or by scanning and submitting it by way of electronic means via email to the email address provided above.

# In view of the current COVID-19 situation, members are strongly encouraged to submit the completed Proxy Forms by way of electronic means via email.

- 7. Please insert the total number of shares held by you. If you have shares entered against your name in the Depository Register (as defined in Section 81SF of the Securities and Futures Act, Cap. 289 of Singapore) (the "SFA"), you should insert that number of shares. If you have shares registered in your name in the Register of Members, you should insert that number of shares. If you have shares entered against your name in the Depository Register and the Register of Members, you should insert the aggregate number of shares entered against your name in the Depository Register and registered in your name in the Register of Members. If no number is inserted, the instrument appointing a proxy or proxies shall be deemed to relate to all the shares held by you.
- 8. Save for members of the Company which are nominee companies or Relevant Intermediaries (as defined below), a member of the Company entitled to participate and vote at a meeting of the Company shall not be entitled to appoint more than two proxies to attend and vote on his behalf. Where a member of the Company (other than a Relevant Intermediary) appoints more than one proxy, he/she shall specify the proportion of his/her shareholdings to be represented by each proxy.
- 9. Pursuant to Section 181(1C) of the Companies Act, Cap. 50 of Singapore (the "Companies Act"), any member who is a Relevant Intermediary may appoint more than two proxies, but each proxy must be appointed to exercise the rights attached to a different share or shares held by him (which number and class of shares shall be specified). "Relevant Intermediary" has the meaning ascribed to it in Section 181 of the Companies Act.
- 10. The instrument appointing a proxy or proxies must be under the hand of the appointor or his attorney duly authorised in writing. Where the instrument appointing a proxy or proxies is executed by a corporation, it must be executed either under its Common Seal or under the hand of its attorney or a duly authorised officer.
- 11. Where an instrument appointing a proxy or proxies is signed on behalf of the appointor by an attorney, the letter or power of attorney or a duly certified copy thereof must (failing previous registration with the Company) be lodged with the instrument of proxy, failing which the instrument may be treated as invalid.
- 12. A corporation which is a member may authorise by resolution of its directors or other governing body such person as it thinks fit to act as its representative at the meeting, in accordance with Section 179 of the Companies Act.
- 13. The Company shall be entitled to reject an instrument of proxy which is incomplete, improperly completed, illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified on the Proxy Form. In addition, in the case of Shares entered in the Depository Register, the Company may reject a Proxy Form if the member, being the appointor, is not shown to have Shares entered against his name in the Depository Register as at 72 hours before the time appointed for holding the Annual General Meeting, as certified by The Central Depository (Pte) Limited to the Company.
- 14. A Depositor's name must appear on the Depository Register maintained by The Central Depository (Pte) Limited as at 72 hours before the time fixed for holding the meeting in order for the Depositor to be entitled to participate and vote at the meeting.

### PERSONAL DATA PRIVACY:

By submitting a proxy form appointing the Chairman of the Meeting as proxy to attend, speak and vote at the Annual General Meeting and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents of service providers) for the purpose of the processing and administration and analysis by the Company (or its agents or service providers) of the appointment of the Chairman of the Meeting as proxy for the Annual General Meeting (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the Annual General Meeting (including any adjournment thereof), and in order for the Company (or its agents or service providers) to comply with any applicable laws, listing rules, regulations and/or guidelines.
