## Notes to condensed interim consolidated income statement

- 1 Please refer to Note 6 of Section F for further breakdown.
- 2 The decrease in marketing and distribution expenses in 1H2022 was mainly due to lower marketing expenses incurred by the development projects in Singapore.
- 3 The increase in administrative expenses in 1H2022 was mainly due to higher payroll, depreciation and amortisation expenses and contract termination fee relating to the termination of operator of Park Hotel Alexandra.
- 4 Share of profit from associates and joint ventures in 1H2022 as compared to share of losses in 1H2021 was mainly attributable to absence of share of Roxy CES Pty Ltd's fair value loss in 1H2022 in addition to absence of share of losses from Guangzhou Yuanda Information Development Co. Ltd ("Yuanda"), Amdon Consulting Pte. Ltd. ("Amdon"), and Cybint International Pte. Ltd. ("Cybint") as Yuanda and Amdon were fully impaired in December 2021 and Cybint was disposed in August 2021.
- 5 Higher tax expense was in line with higher profits.

## Notes to Condensed interim consolidated statement of comprehensive income

Foreign currency translation differences arises from the translation of financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency. Translation loss in 1H2022 was mainly due to depreciation of Australian dollars and New Zealand dollars against Singapore dollars.

### Notes to condensed interim balance sheets

## <u>Note</u>

#### **The Group**

- 1 The increase in investments in joint ventures and associates was mainly due to acquisition of 21% interest in PRE 13 Pte. Ltd., which in turn has a 50% interest in a prime real estate site located within the Central Business District.
- 2 The decrease in development properties was mainly due to the progressive recognition of development costs for units sold in Parc Komo and Kopar at Newton.
- 3 The decrease in current trade and other receivables was mainly due to receipts from purchasers of Park Colonial and Grandeur Park Residences.
- 4 The increase in contract assets was mainly due to higher recognition of revenue for work completed but not billed for Parc Komo and Kopar at Newton.
- 5 The decrease was due to completion of sale of subsidiary, Evervit Development Pte Ltd in March 2022.
- The decrease in total loans and borrowings was mainly due to repayment of bank borrowings for development properties and redemption of \$54.0 million term notes upon their maturities.
- 7 The decrease in trade and other payables was mainly attributable to repayment of amount due to non-controlling interest of a development project.
- 8 The decrease in contract liabilities was mainly due to the lower progress payments billed as compared to recognition of revenue for work completed in construction projects and a development property.

## The Company

- 9 The decrease was due to redemption of \$15.0 million term notes upon its maturity in May 2022.
- 10 The decrease in current trade and other payables was mainly due to repayment of loan and interest to subsidiaries.

## Net cash generated from operating activities

Lower net cash generated from operating activities in 1H2022 was mainly due to repayment of amount due to non-controlling interest of a development project, partially offset by higher collections from purchasers of development projects.

## Net cash used in investing activities

Higher net cash used in investing activities in 1H2022 was mainly due to investment in joint venture, PRE 13 Pte. Ltd., in April 2022 and purchase of property, plant and equipment, partially offset by proceeds from disposal of subsidiary, Evervit Development Pte Ltd, and less loans extended to joint ventures.

## Net cash used in financing activities

Higher net cash used in financing activities in 1H2022 was mainly due to higher net repayment of loans and redemption of term notes.

#### E. Notes to condensed interim financial statements

## 1 Basis of preparation

The condensed interim financial statements for the half year ended 30 June 2022 have been prepared in accordance with SFRS(I) 1-34 *Interim Financial Reporting*. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group since the last annual financial statements for the year ended 31 December 2021.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 1.1.

## 1.1 New and amended standards adopted by the Group

The Group applied for the first time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2022. The adoption of these amendments did not result in substantial changes to the Group's accounting policies and had no material effect on the amounts reported for the current financial period.

#### 1.2 Use of judgements and estimates

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended 31 December 2021.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The following are the critical accounting estimates in applying the Group's accounting policies in the financial statements for the half year ended 30 June 2022:

### 1.2(a) Revaluation of investment properties

The Group carries its investment properties at fair value with changes in fair value being recognised in profit and loss account, determined annually by independent professional valuers. The Group engaged real estate valuation experts to assess fair value of all investment properties of the Group as at 31 December 2021. The independent valuation reports have highlighted estimation uncertainty arising from the COVID-19 pandemic, a higher degree of caution should be exercised when relying upon the valuation. The valuations are based on the information available as at the date of valuation and values may change significantly and unexpectedly over a short period of time.

The fair values of investment properties are determined by independent real estate valuation experts using market comparable approach, capitalisation approach, discounted cash flow approach and residual land value approach.

The determination of the fair values of the investment properties requires the use of estimates on yield adjustments such as location, size, tenure, age and condition, and also involved estimation uncertainties on the capitalisation rate used.

For the purpose of this condensed interim financial statements for the half year ended 30 June 2022, the management reviewed the valuation reports prepared by professional valuers as at 31 December 2021 to determine whether the facts and assumptions used has materially changed. Valuation report was obtained from the independent professional valuer for significant investment property, and there was no change in fair value recorded in the income statement.

## 1.2(b) Impairment of intangible assets

The carrying values of intangible assets are tested for impairment annually, or more frequently if the events and circumstances indicate that the carrying value may be impaired. The recoverable amounts of the cash generating units ("CGU") which goodwill, intellectual property, order backlog and brands have been allocated to are determined based on value in use ("VIU") calculations. The VIU calculations are based on a discounted cash flow model. The recoverable amount is most sensitive to the weighted average cost of capital and terminal yield rate used for the discounted cash flow model as well as the expected future cash inflows and the growth rate used for extrapolation purposes.

For the purpose of this condensed interim financial statements for the half year ended 30 June 2022, management has reviewed and considered the cash flows projections for the CGU. As there were no impairment indicators at 30 June 2022, no impairment testing was performed.

#### 1.2(c) Impairment of hotel assets

The carrying amounts of the Group's hotel assets as at 30 June 2022 are measured at cost less accumulated depreciation and any accumulated impairment losses. The carrying values are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. In assessing for impairment, the Group has considered the independent valuations as at 31 December 2021. The independent valuation reports have highlighted estimation uncertainty arising from the COVID-19 pandemic, a higher degree of caution should be exercised when relying upon the valuation. The valuations are based on the information available as at the date of valuation and values may change significantly and unexpectedly over a short period of time.

For the purpose of this condensed interim financial statements for the half year ended 30 June 2022, management has reviewed and considered the hotel asset's operating performance and development plan for the properties. As there were no impairment indicators at 30 June 2022, no impairment testing was performed.

## 1.2(d) Contract assets and contract liabilities

The Group recognises contract revenue by reference to the stage of completion of the contract activity at the end of each reporting period, when the outcome of a construction contract can be estimated reliably. In applying the over time method, revenue recognised corresponds to the total contract revenue multiplied by the actual completion rate based on total contract costs. Significant assumptions are required to estimate contract costs. In making these estimates, management has relied on past experience and knowledge of the project officials.

The carrying amounts of contract assets and contract liabilities are disclosed on balance sheet. If the estimated total contract cost had been 2% higher than management's estimate, contract assets and contract liabilities would have been \$28.1 million lower and \$17.7 million higher respectively.

## 1.2(e) Revenue recognition on development properties under construction

For the sale of development properties where the Group satisfies its performance obligations over time, management has determined that a cost-based input method provides a faithful depiction of the Group's performance in transferring control of the development properties to the customers, as it reflects the Group's efforts incurred to date relative to the total inputs expected to be incurred for the development properties. The measure of progress is based on the costs incurred to date as a proportion of total estimated costs to be incurred up to the completion of the development properties.

The estimated total construction and other related costs are based on contracted amounts and, in respect of amounts not contracted for, management relies on past experience and knowledge of the project engineers to make estimates of the amounts to be incurred.

The revenue from sale of development properties (recognised on over time basis) are disclosed in Note 3. If the estimated total development cost had been 2% higher than management's estimate, the carrying amount of the development properties under construction would have been \$6.2 million higher and revenue would have been \$10.0 million lower.

## 2 Segment reporting

For management purposes, the Group is organised into business units based on their products and services, and has six reportable operating segments as follows:

- (a) The construction segment is in the business of general building, infrastructure and civil engineering contractors, and water and environmental engineering contractors.
- (b) The property development segment is in the business of developing properties and management of development projects.
- (c) The property investment segment is in the business of leasing and management of investment properties.
- (d) The hospitality segment is in the business of hotel operations.
- (e) The education segment is in the business of providing education services.
- (f) The corporate and others segment is involved in Group-level corporate services, treasury functions and investments in marketable securities (if any).

Except as indicated above, no operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

Non-current assets information presented above consist of property, plant and equipment, investment properties and intangible assets as presented in the consolidated balance sheet.

Lower revenue from Australia was attributable to the sale of development site at Gladstone street, South Melbourne in 1H2021.

Higher revenue from the Maldives was due to higher contribution from Grand Park Kodhipparu on the back of the easing of travel restrictions.

## Information about a major customer

During the financial period ended 30 June 2022, revenue from a major customer from the construction segment amounted to \$158,718,000. For the financial period ended 30 June 2021, no revenue from transactions with a single customer contributed to 10% or more to the Group's revenue.

| (Over)/underprovision in respect of previous years |       | (501)  | 344     | NM      |

Note:-

NM - Not meaningful.

- 1 Higher employee benefits expenses was in tandem with higher revenue and contribution from construction and education segments.
- 2 Higher depreciation was mainly due to additions to property, plant and equipment during the year.
- 3 Net write-back in 1H2021 arose from write-back of settlement for lower COVID-19 claims, partially offset by non-productive costs incurred in relation to COVID-19 safety measures.
- 4 Co-sharing of additional costs incurred by main contractors due to delays in the project caused by COVID-19.

## **Details of any collateral**

The Group's total borrowings of \$1.0 billion are loans taken to finance property development projects, investment properties, school campus, hotels and for working capital.

The Group's secured borrowings are mainly secured by:

- (a) legal mortgage on the development properties, investment properties, precast yard, school campus and hotels;
- (b) assignment of sale and rental proceeds, present and future tenancy and sale agreements;
- (c) assignment of construction contracts, performance bonds and insurance policies;
- (d) subordination of shareholder's loan;
- (e) fixed and floating charge on all the assets of certain hotels;
- (f) assignment of building agreements;
- (g) assignment of dividends to be received; and
- (h) charge of bank accounts with the banker.

The Group's unsecured borrowings comprise mainly the following notes issued under its \$750 million Multicurrency Debt Issuance Programme:

(a) \$120.0 million 3-year fixed rate notes issued on 6 December 2021. The notes bear interest at the rate of 6.5 per cent. per annum payable semi-annually in arrear and will be due in December 2024.

The Group redeemed \$54.0 million of the notes upon maturity in the six months ended 30 June 2022.

#### Half year results: 1H2022 vs 1H2021

#### Overall

Gross revenue increased by 2.2% from \$622.4 million to \$636.3 million. The increase was mainly due to improved performance from Construction, Hospitality and Education segments, partially offset by lower revenue from Property Development segment. In tandem with higher revenue, gross profit increased by a greater magnitude by 48.7% from \$78.4 million to \$116.6 million with higher margins achieved by the development properties. In line with higher gross profit, profit before tax increased by 335.5% from \$10.9 million to \$47.5 million and profit after tax increased by 319.0% from \$9.2 million to \$38.5 million.

#### **Property Development**

Revenue decreased by 29.6% from \$419.1 million to \$295.0 million mainly attributable to absence of sale of development site at Gladstone Street, South Melbourne and Grandeur Park Residences and lower contribution from Park Colonial, partially offset by higher contributions from Kopar at Newton and Parc Komo.

#### Construction

Revenue increased by 75.1% from \$164.6 million to \$288.4 million mainly due to higher contributions from Sengkang N4C39 & C40, Pasir Ris N5C26&C27, Woodlands N1C25 and LTA J107.

#### Hospitality

Revenue increased by 51.1% from \$18.8 million to \$28.4 million due to higher contributions from all hotels driven by the easing of global travel restrictions.

#### Education

Revenue increased by 30.7% from \$17.3 million to \$22.6 million mainly due to higher contributions from the Invictus-brand international schools.

#### **Property Investment & Others**

Revenue decreased by 25.2% from \$2.6 million to \$2.0 million due to absence of income from the investment properties disposed in 2021 and lower income from CES Building which was disposed in March 2022.

## **Group Statement of Financial Position Review**

The Group's non-current assets increased from \$899.9 million to \$938.5 million mainly due to acquisition of 21% interest in joint venture, PRE 13 Pte. Ltd. in April 2022. Net current assets decreased by \$368.8 million from \$989.2 million to \$620.4 million mainly due to reclassification of certain borrowings from non-current to current liabilities, partially offset by the repayment of borrowings largely financed by sale proceeds from development properties. Non-current liabilities decreased from \$1.1 billion to \$760.9 million mainly due to reclassification of certain borrowings from non-current to current liabilities.

Total equity increased from \$780.0 million to \$798.0 million, after taking into account a net profit of \$38.5 million recorded in 1H2022 and dividend payment to shareholders of \$15.7 million. With higher equity and lower borrowings, the Group's net-debt-to-equity ratio decreased from 1.22 as at 31 December 2021 to 0.85 as at 30 June 2022.

4 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

Not applicable.

#### **Property Development**

#### Singapore

Based on statistics released by the Urban Redevelopment Authority, the private residential property price index increased by 3.5% in 2Q2022, compared to a muted 0.7% increase in the previous quarter. As at end of 2Q2022, there were 48,836 uncompleted private residential units (excluding ECs) in the pipeline with planning approvals, as compared with 47,415 units in the previous quarter. Of these, 15,805 units remained unsold as at the end of 2Q2022, up from 14,087 units in previous quarter.

Compared to the sales figures as at 25 March 2022, sales to-date based on options to purchase issued for Parc Komo increased further from 91.3% to 99.3% and for Kopar at Newton, from 71.7% to 82.8%.

Amidst the current macroeconomic factors such as rising interest and inflation rates, the ongoing COVID-19 pandemic as well as geopolitical tensions ensuing from the ongoing Russia-Ukraine conflict, the Group will exercise caution while growing its development pipeline.

#### <u>Australia</u>

Based on data released by Australia's property data research provider, CoreLogic, home prices recorded a second consecutive month of value declines of 0.4% in June and 0.2% lower over the June quarter. As announced on 21 July 2022, the Group will exercise its contractual right to terminate the sale contracts in South Perth, Western Australia, 28 Lyall in view of the financial viability of the project amidst the rising costs caused by the COVID-19 pandemic and ongoing Russia-Ukraine conflict. The Group will explore other viable options with regard to this site.

#### Construction

Based on advance estimates from the Ministry of Trade and Industry, the construction sector grew by 3.8% year-on-year in the second quarter, faster than the 1.8% growth in the previous quarter. Construction activity picked up during the quarter, supported in part by the relaxation of border restrictions on the inflow of migrant workers. As at 30 June 2022, the Group's order book for its construction business segment stood at \$1.33 billion, down from \$1.35 billion as at 31 December 2021.

#### Hospitality

Singapore Tourism Board reported that in the first half of 2022, Singapore clocked 1.5 million visitor arrivals, nearly 12 times more compared to the same period in 2021 of 119,000. Over in the Maldives, Ministry of Tourism registered 813,000 tourist arrivals in the first half of 2022, 6% lower than pre-pandemic tourist arrivals in the first half of 2019.

Whilst the Group's hotel in Singapore will be closed for refurbishment from end-August and is expected to reopen for business under the "Momentus" brand only in first quarter of 2023, the Group will exercise caution in pricing to remain competitive in the Maldives amidst stiff competition from the new resorts.

#### Education

With more countries opening their borders and reduced measures that restrict business and social activities in managing COVID-19 pandemic, our K-12 schools show steady enrolment growth. Our schools in Bangkok and Phnom Penh show healthy growth in enrolment. However, as our preschools are in an increasingly competitive landscape, its enrolment remains flat. We are reviewing our strategies for marketing, educational programmes, and staffing to increase our preschool enrolment. We continue to invest in using technologies for learning in our K-12 schools and preschools. We are on track to launch our proprietary Invictus Global Schoolhouse programme (the "IGSH Programme") in the second half of 2022. The IGSH Programme is our 3-year Smart School blended learning programme that prepares students from non-English speaking countries for the Cambridge International A-level examinations. The IGSH Programme offers a flexible educational delivery model. We are also implementing digital learning for elementary education for our K-12 schools and preschools in collaboration with our system and content partners. Once we build our brand value for digital learning solutions in the market, we expect our digital learning solutions to contribute significantly to the future sustainable expansion of our education business in the region.
