ASIAPHOS LIMITED

Company Registration Number: 201200335G

UNAUDITED FINANCIAL STATEMENTS ANNOUNCEMENT FOR THE SECOND QUARTER ENDED 30 JUNE 2016

Background

AsiaPhos Limited (the "**Company**") and together with its subsidiaries (the "**Group**") was listed on the Catalist Board (the "**Catalist**") of the Singapore Exchange Securities Trading Limited (the "**SGX-ST**") on 7 October 2013. The initial public offering (the "**IPO**") of the Company was sponsored by United Overseas Bank Limited (the "**Sponsor**"). The Company, incorporated in Singapore under the Singapore Companies Act on 3 January 2012, is the first Singapore-headquartered mineral resources company listed on the SGX-ST which is solely focused on exploring and mining phosphate in the People's Republic of China (the "**PRC**") with the ability to manufacture and produce phosphate-based chemical products.

PART I – INFORMATION REQUIRED FOR ANNOUNCEMENT OF RESULTS FOR SECOND QUARTER ENDED 30 JUNE 2016

1(a)(i) An income statement and statement of comprehensive income, or a statement of comprehensive income, for the group, together with a comparative statement for the corresponding period of the immediately preceding financial year.

Foreign currency translation gain/(loss) represents exchange differences arising from translation of the financial statements of our PRC subsidiaries whose functional currency (Renminbi, "**RMB**") is different from that of the Group's presentation currency (Singapore Dollar, "**SGD**", "**$**"). The Group's net investment in PRC is not hedged as currency positions in RMB are considered to be long-term in nature. Such translation gains/(losses) are of unrealised nature and do not impact current year profit/(loss) unless the underlying assets or liabilities of the PRC subsidiaries are disposed of.

In the second quarter ended 30 June 2016 ("**2Q2016**"), the Group recorded translation loss of $1.2 million due to the strengthening of SGD against RMB.

1(a)(ii) The following items (with appropriate breakdowns and explanations), if significant, must either be included in the income statement or in the notes to the income statement for the current financial period reported on and the corresponding period of the immediately preceding financial year:

The Group's profit/(loss) before tax was arrived at after (charging)/crediting the following:

1(d)(ii) Details of any changes in the company's share capital arising from rights issue, bonus issue, share buy-backs, exercise of share options or warrants, conversion of other issues of equity securities, issue of shares for cash or as consideration for acquisition or for any other purpose since the end of the previous period reported on. State also the number of shares that may be issued on conversion of all the outstanding convertibles, as well as the number of shares held as treasury shares, if any, against the total number of issued shares excluding treasury shares of the issuer, as at the end of the current financial period reported on and as at the end of the corresponding period of the immediately preceding financial year.

During the second quarter ended 30 June 2016, there was no change in the Company's issued ordinary share capital. Total number of issued ordinary shares of the Company was 901,319,000 as at 31 December 2015 and as at 30 June 2016.

As at 30 June 2015, the Company had applied for, and subsequently received regulatory approval on 24 July 2015, to issue 101,319,000 new ordinary shares in the capital of the Company pursuant to the exercise of the call option in relation to the convertible loan note subscribed by the Group.

As at 30 June 2016, the Company had no outstanding convertible instruments.

As at 30 June 2015 and 30 June 2016, the Company did not hold any treasury shares.

1(d)(iii) To show the total number of issued shares excluding treasury shares as at the end of the current financial period and as at the end of the immediately preceding year.

	As at	
	30 June 2016	**31 December 2015**
Total number of issued shares (excluding treasury shares)	901,319,000	901,319,000

1(d)(iv) A statement showing all sales, transfers, disposals, cancellation and/or use of treasury shares as at the end of the current financial period reported on.

Not applicable. The Company did not have any treasury shares during and as at the end of the current financial period reported on.

2. Whether the figures have been audited or reviewed, and in accordance with which auditing standard or practice.

The figures have not been audited nor reviewed by the auditors.

3. Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of a matter).

Not applicable. The figures have not been audited nor reviewed by the auditors.

4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

For the current financial year ending 31 December 2016 ("**FY2016**"), the Group changed its accounting policy for amortisation of mining properties from straight-line method to unit-of-production ("**UOP**") method. Under the UOP method, the Group's mining properties are amortised over the estimated proved and probable reserves and measured resources of the mines whereas under the straight-line method, the mining properties are depreciated based on estimated useful lives.

Under the UOP method, the Group recognised amortisation expense relating to mining properties of $0.35 million in both 2Q2016 and in the six months ended 30 June 2016 ("**HY2016**"). The effect of the change in amortisation method is an increase of $0.03 million in 2Q2016 and a decrease of $0.29 million of amortisation expense in HY2016.

The Group is of the view that the UOP method is a better reflection of the expected consumption pattern of the future economic benefits embodied in the mining properties. The UOP method is also the more appropriate and more commonly used method of amortisation in the mining industry. Based on the current mining plan, the estimated useful life of the mines are expected to be longer than the licensed life and the management does not foresee any significant obstacle to renew the mining licenses as and when they expire. As such, using the UOP method in accordance with the production plans and the proved and probable reserves and measured resources of the mines is a better reflection of the expected consumption of future economic benefits. The change in amortisation policy will be applied prospectively from 1 January 2016.

Except as disclosed above and in Paragraph 5, the Group and the Company have applied the same accounting policies and methods of computation in the financial statements for the current reporting period as those of the most recently audited consolidated financial statements for the financial year ended 31 December 2015 ("**FY2015**").

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

The Group and the Company have adopted the new and revised Singapore Financial Reporting Standards ("**FRS**") and Interpretations of Financial Reporting Standards ("**INT FRS**") that are mandatory for the financial period beginning on 1 January 2016. The adoption of these new/revised FRS, INT FRS and amendments to FRS has no material impact on the financial performance or position of the Group and the Company.

The Group has also changed its accounting policy for amortisation of mining properties, details as set out in Paragraph 4.

6. **Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends:**
(a) based on the weighted average number of ordinary shares on issue; and
(b) on a fully diluted basis (detailing any adjustments made to the earnings).

As at 30 June 2016, there were no dilutive instruments. The basic and fully diluted earnings/(loss) per share were the same for HY2016 and 2Q2016.

7. **Net asset value (for the issuer and group) per ordinary share based on the total number of issued shares excluding treasury shares of the issuer at the end of the:**

(a) current financial period reported on; and
(b) immediately preceding financial year.

	Group		Company

The net asset value of the Group did not take into account the fair market value of the mining and exploration rights of Mine 1 and Mine 2 and the elemental phosphorous ("**P_4**") plant as these were recorded on historical cost basis. Note - as at 31 March 2013, the independent valuation of the mining and exploration rights of Mine 1 and Mine 2 and P_4 plant was RMB1.3 billion (approximately S$264 million based on an assumed exchange rate of $1: RMB4.924).

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following: (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

The figures in this section are approximate figures and where applicable, have been rounded to the nearest one (1) decimal place.

The Group is organised into product units as follows:

(a) upstream segment relates to the business of exploration, mining and sale of phosphate rocks (the "**Upstream Segment**"); and

(b) downstream segment relates to the business of manufacturing, sale and trading of phosphate-based chemicals products such as P_4, sodium tripolyphosphate ("**STPP**") and sodium hexametaphosphate ("**SHMP**"); and the sale of P_4 by-products, such as slag, sludge and ferrophosphate, produced as a result of such manufacturing process (the "**Downstream Segment**").

Revenue decreased by $2.4 million, from $12.0 million in the second quarter ended 30 June 2015 ("**2Q2015**") to $9.6 million in 2Q2016.

Revenue from the Upstream Segment decreased by $2.9 million, from $6.5 million in 2Q2015 to $3.6 million in 2Q2016 due to the lower quantity of phosphate rocks sold and lower average selling prices. The Group retained the higher quality phosphate rocks for P_4 production and sold only the lower quality phosphate rocks, leading to lower average selling prices. In 2Q2016, the Group sold 57,600 tonnes of phosphate rocks as compared to 89,100 tonnes in 2Q2015. Revenue from the Downstream Segment increased by $0.5 million, from $5.5 million in 2Q2015 to $6.0 million in 2Q2016, due to the increase in revenue from sale of P_4 in 2Q2016. In 2Q2016, the Group sold 2,300 tonnes of P_4 as compared to 1,900 tonnes in 2Q2015.

Cost of goods sold for the Upstream Segment decreased by $1.6 million, from $4.3 million in 2Q2015 to $2.7 million in 2Q2016, in line with the decrease in revenue for this segment. Gross profit margin for the Upstream Segment also decreased from 34% in 2Q2015 to 25% in 2Q2016 due to the lower average selling prices of phosphate rocks in 2Q2016 as the rocks sold in 2Q2016 were of lower quality. The reduction in gross profit margin for the Upstream Segment due to lower average selling prices is partially mitigated by lower production costs in 2Q2016.

Cost of goods sold for the Downstream Segment decreased by $0.7 million, from $5.7 million in 2Q2015 to $5.0 million in 2Q2016 despite the increase in revenue from the Downstream Segment. The Group had successfully brought down the production costs of P_4, leading to gross profit margin of 17% in 2Q2016, as compared to a negative gross margin of 5% in 2Q2015.

Consequently, gross profit decreased by $0.1 million, from $2.0 million in 2Q2015 to $1.9 million in 2Q2016. Notwithstanding that, gross profit margin improved from 17% in 2Q2015 to 20% in 2Q2016 due to improvement in gross profit from the Downstream Segment.

Other income

Other income decreased by $0.4 million, from $0.5 million in 2Q2015 to $0.1 million in 2Q2016, mainly due to the absence of interest income from the convertible loan note in 2Q2016 as such convertible loan note was converted into the equity of LY Resources Pte. Ltd. ("**LYR**") in July 2015.

Selling and distribution costs

Selling and distribution costs decreased by $0.05 million, from $0.15 million in 2Q2015 to $0.1 million in 2Q2016, mainly due to the reduction in transportion and export-related and storage costs in 2Q2016.

General and administrative costs

General and administrative costs decreased by $0.2 million, from $1.5 million in 2Q2015 to $1.3 million in 2Q2016 mainly due to absence of fixed electricity costs incurred on the P_4 plant in 2Q2016 .

Finance costs

Finance costs decreased by $0.1 million, from $0.3 million in 2Q2015 to $0.2 million in 2Q2016, mainly due to the decrease in interest expense on redeemable preference shares ("**RPS**") and interest-bearing bank loan.

Taxation

No provision for tax was made in 2Q2016 as certain income items were not taxable. There was a tax charge in 2Q2015 despite the loss position as the loss incurred by a Singapore subsidiary could not be used to set off against the profit earned by a PRC subsidiary.

Balance sheet

Non-current assets

Non-current assets decreased by $5.4 million, from $126.2 million as at 31 December 2015 to $120.8 million as at 30 June 2016.

The reduction in the mine properties by $6.7 million and the increase in goodwill of $3.9 million was due to the finalisation of the purchase price allocation exercise in 2Q2016 with respect to the acquisition of LYR in 2015 and amortisation expense for HY2016. Based on the preliminary independent valuation of the mine properties of LYR group of RMB322 million, the Group recognised its share of LYR group's mine properties of RMB261 million and provisional goodwill of $8.3 million at the date of acquisition. Based on the finalised independent valuation of mine properties of LYR group of RMB293 million, the Group's share of LYR group's mine properties was reduced to RMB237 million and the Group's goodwill increased from $8.3 million to $12.2 million. Goodwill represents the excess of purchase consideration over the fair value of the net identifiable assets of LYR acquired.

The decrease in land use rights and property, plant and equipment arose from translation differences, amortisation and depreciation expenses for HY2016.

Current assets

Current assets increased by $3.6 million, from $13.0 million as at 31 December 2015 to $16.6 million as at 30 June 2016, mainly due to increase in stocks and prepayments. The Group resumed its mining and P_4 operations in March 2016 and May 2016, respectively, leading to increase in inventories level and prepayments made to certain suppliers.

Such increases were partially offset by the decreases in trade and other receivables and cash and bank balances. The decrease in trade receivables was due to collections from customers and redemption of bill receivables.

Current liabilities

Current liabilities decreased by $0.4 million, from $20.6 million as at 31 December 2015 to $20.2 million as at 30 June 2016 mainly due to reduction in other payables, redeemable preference shares and provision for tax. The decrease in other payables and provision for tax was mainly due to payments made during the period. In January 2016, the Group had redeemed the 7,000,000 RPS which was issued on 30 April 2014 (the "**2014 RPS**").

The decreases were partially offset by increase in bank overdraft (secured), trade payables and interest-bearing bank loan. The Group drew down bank borrowings of RMB25 million during the financial period. The bank borrowings will mature in 2017.

As at 30 June 2016, the Group recorded negative working capital of $3.7 million compared to a negative working capital of $7.6 million as at 31 December 2015 mainly due to the redemption of the 2014 RPS in January 2016 using the Group's internal resources. Notwithstanding that there is a net current liabilities position of $3.7 million as at 30 June

2016, the Group believes that it is able to meet its short term obligations as and when they fall due.

Non-current liabilities

Non-current liabilities increased by $3.9 million, from $22.1 million as at 31 December 2015 to $26.0 million as at 30 June 2016, mainly due to the issuance of new RPS in January 2016 (the "**2016 RPS**"). The 2016 RPS were issued to (i) three (3) investors of the 2014 RPS who have agreed to re-invest in the Group, (ii) the Group's Chief Executive Officer and Executive Director, Dr. Ong Hian Eng ("**Dr. Ong**") and (iii) a controlling shareholder of the Company, Astute Ventures Pte. Ltd. ("**Astute Ventures**"). Two (2) of the Company's directors, Mr Ong Eng Hock Simon and Mr Ong Eng Siew Raymond, each holds no less than 20% equity interest in Astute Ventures. The 2016 RPS will mature in January 2021.

Equity attributable to owners of the Company

Non-controlling interest represents the 45% equity interest in a subsidiary which is not owned by the Group.

Cash flow statement

Operating profit before working capital changes was $2.0 million for 2Q2016. Cash outflow due to changes in working capital was $2.8 million. Payments for interest expense and corporate tax in 2Q2016 amounted to $0.6 million. The above contributed to net cash flows used in operating activities of $1.3 million for 2Q2016.

Net cash flows used in investing activities was $1.1 million due to payments for property, plant and equipment.

Net cash flows generated from financing activities of $2.4 million was mainly due to loan proceeds of $3.3 million, partially offset by dividends paid of $0.9 million.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Not applicable.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

Upstream Segment

The Group had in July 2016 received the renewed exploration rights for the Fengtai Mine and Mine 2, with the renewed rights being valid till December 2017 and June 2018 respectively. The Group had also submitted an application to the Sichuan Land Department ("**Authority**") to convert the Mine 1 exploration license into a mining license Group so that the approved annual production scale for Mine 1 can be increased. Such application is currently pending approval by the Authority.

Phosphate rock prices are expected to soften moderately for the remainder of FY2016. The Group intends to increase its rock production and this is expected to contribute positively to the Group's cash flows and profits. The mining output run-rate is also showing a promising growth trend with average daily output in 2Q2016 of approximately 1,800 tonnes (compared to the average daily output in FY2015 of approximately 1,400 tonnes), and is a good indication that previous investments by the Group in mining infrastructure improvements are delivering results.

In July 2016, the Sichuan Provincial People's Government (四川省人民政府) announced that, with effect from 1 July 2016, the policy to collect price adjustment levy and resource compensation fee amounting to RMB14 per tonne of phosphate rock will be abolished. At the same time, the resource tax will be computed based on 8% of the selling price of the phosphate rocks, instead of a fixed RMB15 per tonne of phosphate rock. Based on the current available information, the Group expects that the above changes will lead to a reduction in production cost of the phosphate rocks in the second half of FY2016.

Downstream Segment

The Group had successfully managed to bring down the production cost of P_4 in FY2015. With the Group securing cheaper electricity costs and carrying out improvements to one of its furnaces in 1Q2016, the production cost for P_4 is further reduced in 2Q2016. The average production cost for P_4 in FY2016 is expected to be lower than that in FY2015. However, the price outlook for P_4 in FY2016 is expected to remain challenging and management will continue to monitor the situation and take steps to ensure the economic production and profitability of P_4.

Management will continue to explore the export market for P_4 and other downstream phosphate based chemical products.

In July 2016, Mianzhu Norwest received a government grant of RMB210,000 in recognition of the Group's environmental efforts in the P_4 operations. Gas produced during the P_4 production is collected and reused for other downstream operations instead of releasing the gas into the environment.

Debt management

Notwithstanding that there is a net current liabilities position of $3.7 million as at 30 June 2016, the Group believes that it is able to meet its short term obligations as and when they fall due.

11. Dividend

(a) Current Financial Period Reported On: Any dividend declared for the current financial period reported on?

Nil.

(b) **Corresponding Period of the Immediately Preceding Financial Year**: Any dividend declared for the corresponding period of the immediately preceding financial year?

Nil.

(c) **Whether the dividend is before tax, net of tax or tax exempt. If before tax or net of tax, state the tax rate and the country where the dividend is derived. (If the dividend is not taxable in the hands of shareholders, this must be stated).**

Not applicable.

(d) **Date payable**

Not applicable.

(e) **Books closure date.**

Not applicable.

12. **If no dividend has been declared (recommended), a statement to that effect.**

No dividend has been declared or recommended for the second quarter ended 30 June 2016.

13. **If the group has obtained a general mandate from shareholders for IPTs, the aggregate value of such transactions as required under Rule 920(1)(a)(ii). If no IPT mandate has been obtained, a statement to that effect.**

No IPT mandate has been obtained from shareholders of the Company.

On 21 June 2013, Dr. Ong (Chief Executive Officer and Executive Director of the Company), Mr Ong Kwee Eng (an associate of Dr. Ong), and key executives Mr Wang Xuebo and Mr Chia Chin Hau signed a deed of indemnity, under which they have jointly and severally undertaken, *inter alia*, to indemnify and hold harmless the Group against losses in connection with certain land use rights and certain licences, permits and approvals for the Group's PRC operations. No fees were paid or benefits given to the above-mentioned individuals in connection with the deed of indemnity. Please refer to the Company's offer document dated 25 September 2013 ("**Offer Document**") under the section entitled "Interested Person Transactions – Present and Ongoing Interested Period Transactions" (Page 191) for further details. Such indemnity against losses in connection with the abovementioned land use rights had expired on 7 April 2015.

For the period ended 30 June 2016, interest expense relating to the 2016 RPS accrued to Dr. Ong and Astute Ventures (a company in which two (2) of the directors, Mr Ong Eng Hock Simon and Mr Ong Eng Siew Raymond each have equity interest of not less than 20%) amounted to $137,000.

During 2Q2016, the Company obtained an interest-free loan of $400,000 from Dr. Ong for the Group's general working capital purposes. The loan has no fixed term of repayment and will only be repaid when funds are received from its PRC subsidiary.

14. Use of IPO proceeds.

As of the date of this announcement, the utilisation of the Group's IPO net proceeds is set out below:

Description	Amount allocated (as disclosed in the Offer Document)	Amount utilised as at the date of this announcement	Balance of net proceeds as at date of this announcement
	$'000	$'000	$'000
Development and financing of			
our Mining Operations	8,500	(2,969)	5,531
Financing the balance of Phase 1			
and Phase 2 of the Rebuilding Programme	11,499	(8,498)	3,001
Working capital	1,553	(9,093)	(7,540)
Net proceeds	21,552	(20,560)	992

Out of the $9.1 million utilised as working capital, an amount of $0.2 million was in relation to the listing expenses incurred in addition to the estimated expenses of $2.8 million as disclosed in the Offer Document.

Pending the deployment of proceeds for the allocated amount for Mining Operations and Phase 2 of the Rebuilding Programme, the Group has utilised $8.9 million from the IPO proceeds for working capital to fund (i) the purchases of materials and supplies; (ii) the production of rocks and P_4; (iii) repayment of bank borrowings and (iv) credit extended to customers for sale of rocks and P_4. The Group has received the land use certificate for Phase 2 land and is relooking at the resumption of the Phase 2 Rebuilding Programme.

The Company will make periodic announcements on the use of the proceeds as and when the funds are materially disbursed.

15. Additional disclosure required for Mineral, Oil and Gas companies

15 (a) Rule 705(6)(a) of the Catalist Listing Manual
i. Use of funds/cash for the quarter:

	Actual
	$'000
Further mining and exploration activities	476
Expenditure on mining related infrastructure and purchase of equipment	80
	556

ii. Projection on the use of funds/cash for the next immediate quarter, including principal assumptions:

No exploration or mining activities planned for the quarter ending 30 September 2016 ("**3Q2016**") because of the mandatory cessation of such activities by the local authorities due to annual rainy season. However, the Group may make payments for certain works completed in 2Q2016 upon completing verification.

15 (b) Rule 705(6)(b) of the Catalist Listing Manual

The board of directors (the "**Board**") of the Company hereby confirms that to the best of its knowledge, nothing has come to its attention which may render the above information provided to be false or misleading in any material aspect.

15 (c) Rule 705(7) of the Catalist Listing Manual

Details of exploration (including geophysical surveys), mining development and/or production activities undertaken by the Group and a summary of the expenditure incurred on those activities including explanations for any material variances with previous projections, for the period under review. If there has been no exploration development and/or production activity respectively, that fact must be stated.

	Projected		Actual	Variance
	RMB'000	$'000*	$'000	$'000
Further mining and exploration activities	7,338	1,490	476	1,014
Expenditure on mining related infrastructure and purchase of equipment	356	72	80	(8)
	7,694	1,562	556	1,006

* Based on an assumed exchange rate of RMB4.924 : S$1.00

Certain expenditure incurred in 2Q2016 may be paid in 3Q2016 upon completion of verification.

15 (d) Rule 705(7)(b) of the Catalist Listing Manual

Update on its reserve and resources, where applicable, in accordance with the requirements set out in Practice Note 4C, including a summary of reserves and resources as set out in Appendix 7D.

Save for the information provided in the announcement dated 15 March 2016, the Group has no material updates on its phosphate reserves and resources as set out in the qualified person report issued by Watts, Griffis and McOuat Limited dated 9 March 2016.

The Group will provide updates should there be any material change to the estimates.

16. Negative confirmation pursuant to Rule 705(5) of the Catalist Listing Manual

The Board hereby confirms that, to the best of its knowledge, nothing has come to the attention of the Board which may render the unaudited financial statements for the second quarter ended 30 June 2016 to be false or misleading in any material aspects.

17. Confirmation that the issuer has procured undertakings from all its directors and executive officers (in the format set out in Appendix 7H) under Rule 720(1) of the Catalist Listing Manual

The Company hereby confirms that it has procured signed undertakings from all its Directors and the relevant executive officers in the format as set out in Appendix 7H of the Catalist Listing Manual in accordance with Rule 720(1) of the Catalist Listing Manual.
