Trade and other receivables decreased by \$3.4 million as compared to 31 December 2018 due to lower trade receivables balance in line with decrease in revenue.

6 ACCOUNTING POLICIES

Except as disclosed in Section 7 below, the Group has applied the same accounting policies and methods of computation in the financial statements for the current financial period compared with those used in the audited financial statements for the financial year ended 31 December 2018.

7 CHANGES IN ACCOUNTING POLICIES

The Group has adopted the Singapore Financial Reporting Standards (International) ("SFRS(I)s") that are effective for annual periods beginning on or after 1 January 2019 and are relevant to its operations. The adoption of these new SFRS(I)s, specifically SFRS(I) 16 Leases, does not result in any changes to the Group's and the Company's accounting policies and has no material effect on the amounts reported for the current financial period or prior financial years.

Please refer to the Statement of Changes in Equity for the Group and for the Company on pages 7 and 8 for further details on the quantum of the adjustments made in relation to SFRS(I) 16.

8 REVIEW OF GROUP PERFORMANCE

1Q2019

The Group achieved a total revenue of \$30.5 million in 1Q 2019, a decrease of 12.7% compared to \$35.0 million reported in 1Q 2018 largely due to lower revenue from our Specialty Polymer segment and our Malaysia RMC operations.

Despite lower revenue, overall performance of the Group for 1Q 2019 was an improvement from 1Q 2018 due to a one-off gain from the divestment of equity interest in an associate company of \$1.2 million and higher returns from our Investment segment. The result was further boosted by better performance from our China joint ventures. These were however partially offset by weaker results from our joint venture in Korea. As a result, the Group achieved a profit after tax of \$2.6 million in 1Q 2019 against \$0.2 million a year ago.

9 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.

Actual results were in line with prospect statement made in 4Q2018 announcement.

10 A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The construction sector grew 1.4 per cent in 1Q 2019, marking the first quarter of positive growth following 10 consecutive quarters of decline. Shortage of raw materials in the market caused by restriction imposed by exporting country may have negative impact on the recovery of construction sector.

Notwithstanding the above-mentioned, we expect total contracts awarded in the industry would translate into construction demand in 2019 to benefit our cement and ready-mix concrete value chain in Singapore.

The Chinese economy grew 6.4 per cent in 1Q 2019, partly supported by the government's pro-growth policies which helped to stabilise sentiments negatively affected by trade tension with the US. Against the backdrop of anti-pollution environmental measures imposed by the China Government, the demand for our Green Cement is expected to remain healthy in 2019, allowing our China GGBS joint ventures to continue contributing positively to the performance of the Group.
