- (c) The increase in current term borrowings was mainly due to the drawdown of short term loan facility for working capital purposes.
- (d) The increase in long term borrowings was mainly due to additional funding required for the properties acquisition on 24 February 2017 offset by the depreciation of the Japanese Yen.

As at 30 September 2017, Parkway Life REIT has Baa2 issuer rating, as well as a provisional (P)Baa2 senior unsecured rating to the S\$500 million multicurrency Medium Term Note Programme (the "MTN Programme") by Moody's, with Stable Outlook.

Parkway Life REIT's gearing was 37.3% as at 30 September 2017, within the 45% limit allowed under the Monetary Authority of Singapore's Property Funds Appendix.

(a) **Details of borrowings and collateral**

Unsecured Borrowings

As at 30 September 2017, the total facilities drawn of JPY34,845 million (approximately S\$420.9 million²) and S\$175.2 million credit facilities (the "**Long Term Facilities**") were committed, unsecured and rank *pari passu* with all the other present and future unsecured debt obligations of Parkway Life REIT.

Interest on the above Long Term Facilities is based on floating rate plus a margin.

In addition, Parkway Life REIT has two unsecured and uncommitted short term multi-currency facilities of S\$75 million each (the "**Short Term Facilities**") for the Group's general working capital purposes. As at 30 September 2017, the Group has drawn down S\$15.0 million and JPY316.8 million (approximately S\$3.8 million²) over one to three months via the Short Term Facilities, at the bank's cost of fund.

Unsecured Medium Term Notes

Parkway Life REIT, through its wholly owned subsidiary, Parkway Life MTN Pte Ltd (the "MTN Issuer"), has established a S\$500 million Multicurrency Medium Term Note Programme (the "MTN Programme") in 2008. Under the MTN Programme, the MTN Issuer may, subject to the compliance with all relevant laws, regulations and directives, from time to time issue notes in series or in tranches in Singapore dollars, United States dollars or any other currency (the "Notes").

The Notes shall constitute direct, unconditional, unsecured and unsubordinated obligations of the MTN Issuer ranking *pari passu*, without any preference or priority among themselves, and *pari passu* with all other present and future unsecured obligations (other than subordinated obligations and priorities created by law) of the MTN Issuer. All sums payable in respect of the Notes will be unconditionally and irrevocably guaranteed by Parkway Life REIT.

As at 30 September 2017, there were outstanding fixed rate notes issued under the MTN Programme of JPY3,300 million (approximately S\$39.9 million²).

² Based on exchange rate of S\$1.208 per JPY100 as at 30 September 2017.

(b) **Interest Rate Swaps and Foreign Currency Forwards**

For the financing facilities put in place for the acquisitions of investment properties in Japan, the Group has entered into various interest rate swaps and fixed rate cross currency swap to hedge the floating rate loans.

The appropriate hedge accounting treatment is applied to the interest rate swaps and fixed rate cross currency swap whereby the effective portion of changes in the fair value are recognised directly in Unitholders' funds. To the extent that the hedge is ineffective, such differences are recognised in the Statement of Total Return.

The Group has also entered into foreign currency forward contracts to hedge the net foreign income from Japan. In 3Q 2017, the Group has further extended the Japanese Yen forward contracts till 1Q 2022. This enhances the stability of distribution to Unitholders.

The changes in fair value of the foreign currency forward contracts were recognised in the Statement of Total Return.

3Q 2017 Vs 3Q 2016

Gross revenue for 3Q 2017 was lower than 3Q 2016 by S\$0.4 million largely due to depreciation of the Japanese Yen as compared to the same period last year offset by higher rents received from the Singapore properties and contributions from the asset recycling. In addition, Parkway East Hospital's adjusted hospital revenue for the 10th year lease (23 August 2016 to 22 August 2017) has outperformed its minimum guaranteed rent, contributing to the increase in revenue from Singapore.

After deducting property expenses, we have achieved a net property income of S\$25.9 million for 3Q 2017, which was S\$0.3 million lower than 3Q 2016.

The decrease in management fees were mainly due to the depreciation of Japanese Yen as compared to the same period last year despite an increase in deposited property contributed by higher deposited property value and higher net property income from the properties acquired in February 2017, as well as valuation gains on the existing property portfolio.

Higher professional fees primarily resulted in an increase in trust expenses for 3Q 2017.

In 3Q 2017, the Group has recognised a lower realised foreign exchange gain of S\$0.03 million from the delivery of quarterly Japanese Yen forward contracts due to progressive expiry of earlier income hedges locked in at higher contract rates.

PARKWAY LIFE REAL ESTATE INVESTMENT TRUST
2017 THIRD QUARTER UNAUDITED FINANCIAL STATEMENT & DISTRIBUTION ANNOUNCEMENT

Despite the growth of portfolio, finance costs have decreased mainly due to the finance cost savings arising from the refinancing initiatives completed in 2016 and in 1Q 2017 and depreciation of the Japanese Yen.

Overall, distribution per unit (DPU) of 3.37 cents for 3Q 2017 has outperformed 3Q 2016 by 10.1%, mainly due to partial distribution of the gains arising from the divestment of four Japan properties in December 2016 of S\$1.3 million. Excluding the one-off gain, DPU from recurring operations (net of amount retained for capital expenditure) for 3Q 2017 has grown by 2.8% year-on-year.

YTD 3Q 2017 Vs YTD 3Q 2016

Gross revenue for YTD 3Q 2017 was S\$82.3 million compared with S\$82.4 million for YTD 3Q 2016, a decrease of S\$0.1 million or 0.1%. This was mainly due to depreciation of the Japanese Yen offset by revenue contribution from the Japan property acquisition in March 2016, higher yielding properties acquired from the asset recycling initiative completed in February 2017 and higher rent from the existing properties.

Correspondingly, property expenses for YTD 3Q 2017 were S\$5.4 million, which was S\$0.1 million lower than YTD 3Q 2016. The result was a consistent property income of S\$76.9 million for both years.

Finance costs have decreased mainly due to finance cost savings arising from the refinancing initiatives took place in 2016 and 2017, and depreciation of the Japanese Yen as compared to the same period last year. The lower finance costs have offset the additional financing costs incurred to finance the properties acquired in 1Q 2016 and 1Q 2017. In addition, there was higher amortisation of transaction costs due to one-off expense of the remaining un-amortised costs for the debt facilities that were refinanced in 1H 2016. There were lesser Trust expenses incurred in YTD 3Q 2017.

During YTD 3Q 2017, the Group had registered a realised foreign exchange gain amounting to S\$0.4 million from the delivery of Japan net income hedges. The Group has also recognised a realised foreign exchange gain of S\$0.9 million arising from the capital repatriation for the cash trap in Japan, which unlocked the foreign exchange gain in the foreign currency translation reserve for its earlier Japan acquisitions.

Overall, annualised DPU for YTD 3Q 2017 of 13.29 cents has outperformed by 10.0% or 1.21 cents as compared with YTD 3Q 2016's DPU of 12.08 cents, mainly due to partial distribution of the gains arising from the divestment of four Japan properties in December 2016 of S\$4.0 million.

Not Applicable.

10 Commentary on the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The long-term outlook of the industry continues to be driven by favourable patient demographics and demand for better quality healthcare and aged care services.

Parkway Life REIT's enlarged portfolio of 49 high-quality healthcare and healthcare-related assets places it in a good position to benefit from the resilient growth of the healthcare industry in the Asia Pacific region.

In addition, Parkway Life REIT is supported by favourable rental lease structures, where at least 95% of its Singapore and Japan portfolios have downside revenue protection and 62% of the total portfolio is pegged to CPI-linked revision formulae, ensuring steady future rental growth whilst protecting revenue stability amid uncertain market conditions.
